Utah Education and Telehealth Network (UETN) 2024 Digital Opportunity Initiative (NTIA-DECGP-2024)

Pre-Application and Letter of Commitment Instructions

Roles and Responsibilities

The Utah Education Network is part of the Utah Education and Telehealth Network (UETN), Utah’s broadband provider for education and telehealth. UETN will be applying for the federal Digital Equity Competitive Grant funded through the National Telecommunications and Information Administration (NTIA) in late September. We will submit a bid requesting funds that support public libraries as community anchor institutions to improve digital tools and trainings throughout the state. All state public libraries are eligible to participate in this opportunity. To generate an accurate funding request, we need to know what our public libraries need to improve digital tools in their communities. We are asking you to respond to this form and provide a letter of commitment to participate in the application process if our funding request is successful. The letter of commitment is a required element of the NTIA application.

Pre-Application Instructions

The first part of this form is the pre-application section. Use rows 24-59 to define your needs to support digital access and opportunity in your community. (If you need more space, you can attach an additional page.) In the first table, we have listed several improvements that we expect to be approved expenses under the grant. You can select items from this list to populate the second table; you can also include items you know your library needs to improve digital access and opportunity even if we did not include them in our list. The expenses must show a clear benefit to library patrons.

Keep this language from the grant in mind: **"The goal of the Digital Equity Competitive Grant Program is to fund initiatives that ensure communities have the access and skills to fully participate in the digital world, regardless of their background or circumstances."** "Communities" in this context means individuals or groups of people who typically lack access to technology for various reasons; those communities include aging individuals, rural populations, veterans, individuals with low levels of literacy, individuals with a language barrier, individuals with disabilities, and individuals who live in low-income households.

As you fill out your wish list of improvements, remember that we may not be able to get funds for every request, but **we cannot get funds for a project unless you request it**. If you think an improvement will add value for your patrons, include it in the list. We are hopeful that UETN will receive funding under this grant, but we don't know what amount we will receive. You will still have to go through an application process to determine exact expenses and budget once UETN receives funding. We will strive to balance the needs of all applicants under this grant.

Letter of Commitment Instructions

The second part of this form is the Letter of Commitment. Please read all the language in that section carefully. The authorized representative from your library or system should sign at the bottom of the form. **If you sign the Letter of Commitment, you are agreeing to participate in the program by submitting a funding application if UETN is successful in receiving funding.** If we are successful, final budgets and expenses will be determined based on the amount received and the needs of all stakeholders.

Suggested Digital Improvements

Name of Potential Improvement	
Computer center upgrades	New or upgraded computer centers and other devices that don't leave the library but are accessible to patrons for their use. These devices can include new or upgraded computers, printers, 3D printers, virtual reality headsets and controllers, and other devices that may be too costly to permit outside lending but provide value to patrons on site.
Device lending equipment	A collection or collections of devices that can be checked out to patrons for use outside the library. Devices can include laptops, Chromebooks, e-readers, tablets, or any other type of device that will improve digital opportunities.
Private digital spaces	Space within the library that accommodates individual needs where privacy is paramount, such as telehealth visits, podcasting, and job interviews. An existing space can be modified with constructed barriers and appropriate equipment.
Videoconferencing rooms	Space within the library that accommodates videoconferencing in the room; for example, the space could allow learners to participate in courses taught off-site. An existing space can be modified to be a videoconferencing room with appropriate equipment.

Please return this completed form to kiera@uen.org by end of day Sept 16, 2024.

We anticipate incorporating professional development for librarians into this program. These courses would occur at various phases of the four-year project. What type of professional development would be most beneficial for your team for both their benefit and the benefit of patrons? (e.g., Google Docs, Microsoft 365, Scrible, research using Utah's Online Library, information and digital literacy, AI tools, podcasting)

Trouble shooting basic IT issues - training to use Microsoft 365 and tools - utilizing Utah Online library

Is there a specific format you would prefer (online, on-demand, in-person) or time commitment (shorter courses, longer courses that are on demand)? Please provide as much detail as possible.

Online, recorded/on demand - Shorter between 1 to 1 1/2 hours

Are you willing to commit staff time to allow librarians to participate in the trainings? What would be a reasonable amount of time (number of training hours, number of credits)? Keep in mind that this is over a four-year period.

Yes. 1-2 trainings per year if 1-2 hour long or 1 per year if 3-4 hours long.

From: Utah Education and Telehealth Network, 101 S Wasatch Blvd, Salt Lake City, UT 84112	

We are writing to confirm our commitment to partnering as a subgrantee for the National Telecommunications and Information Administration (NTIA) Digital Equity Competitive Grant that will be administered by the Utah Education and Telehealth Network (UETN). This grant aims to enhance digital access and equity through the acquisition of essential equipment and software for computing centers and the lending of devices, such as laptops, at public libraries. If funded, UETN commits to keeping its subgrantees informed of project and activity progress.

Our organization recognizes the vital role that partnering with UETN will play in this initiative and is dedicated to supporting your efforts in achieving the goals outlined in the grant proposal. We are committed to providing the necessary resources and support to ensure the success of this project.

We believe that this project will make a significant difference in expanding digital access and equity within our community. We are enthusiastic about our collaboration and are fully committed to supporting UETN in achieving our shared objectives by:

- Submitting a formal grant request
- Following all federal, state, and local grant and procurement rules associated with the funding
- Submitting proper documentation for reimbursements including, but not limited to, purchase orders, invoices, packing slips, property accounting, proof of installation, and proof of payments
- Adhering to five-year reporting requirements, which will include regular progress reports

By signing this Letter of Commitment, we agree to participate in the program by submitting a funding application if UETN is successful in receiving funding through NTIA. We understand and acknowledge that no funding is guaranteed and that we may receive only a portion of what we've requested or may not receive funding at all. Final budgets and expenses will be determined based on the amount received, if any, and the cumulative needs of all stakeholders.

We look forward to a successful partnership.

In a few sentences, how will this project provide free robust public wireless broadband access to your patrons? How will this project improve Wi-Fi Service to the general public (for example, improve speed, increase the number of patrons served, extend service distance for example to the conference room/parking lot etc.) This section should be reviewed with the authorized signer for the requesting organization.

<p>The funds from this program will improve the patrons experience, functionality, and access to wifi using to current equipment. We are planning to use funds to improve and providing WiFi to all of our 5 library branches. Many of our patrons either have no internet access in their homes or have few options on where to access the internet making the library branches one of the county residents best options. For example, our branch in Montezuma Creek resides on the Navajo Reservation where poverty is high and internet is rarely in individual homes.</p>
<p>How do you plan to ensure the equipment/software purchased for this project will be operational by November 1, 2024?</p>
<p>We have plans in place to hit the target date of November 1, 2024.</p>
<p>As your entity's procurement rules must be followed, will you purchase from a state contract, existing contract, or will you need to issue an RFP in order to complete purchases for this project?</p>
<p>We are planning to use an existing vendor contract but planning on following all the local procurement policies.</p>
<p>Will you need to hire technical contract labor to complete the project? If yes, please describe.</p>
<p>Yes, we are. We have a contracted IT company that we are currently using in the county to complete the necessary labor and installation at all of our sites.</p>
<p>Do you intend to create a sustainability plan beyond the ARPA funding? Please describe.</p>
<p>We currently have a line item in our budget to purchase equipment on an annual basis to help replace IT items when they hit their end of life.</p>

Volunteering

The library accepts volunteers ages 16 and older. All volunteers are managed through a City-wide volunteering system and must pass a background check.

Adults

- Visit [Brigham City Police Department](#) (City offices, 20 N Main St B).
- Show ID.
- Fill out and sign application.

Teens (16-17)

- Visit the library.
- Fill out a teen volunteer application with parent/guardian signature.
- Return it to the library.

Volunteer with Literacy

Be a summer reading tutor with the Box Elder Literacy program! Applications open March or April each year. For more info, please visit Literacy's volunteer page.

America Reads - Volunteer

What do America Reads volunteers do?

- Work one-on-one with students in 30 minute in-person sessions.
- Volunteers required to attend a one-time training.
- Program dates: **June 3 - July 25, 2024.**
- Registration deadline: **April 29, 2024.**
- Appreciation ceremony: **August 2, 2024.**

The Weber County Library's America Reads program relies mostly on the help of volunteers. For years we have partnered with many members of the community and the [Foster Grandparent Program of Northern Utah](#), and in 2022 a new partnership with [RSVP](#) allowed us to expand our services.

This year we have the opportunity to offer sessions from June 3 - July 25, 2024 at [all our locations](#), **Monday - Thursdays, 10:30 a.m. - 7:30 p.m.** (*Ogden Valley Branch, Thursdays only, 10:00 a.m. - 2:00 p.m.). There will be an appreciation ceremony to honor volunteers August 2, 2024.

- Have fun!

America Reads volunteers should be:

- ***Willing to undergo a background check***
- 18 years or older
- Fluent in English
- Able to commit to scheduled times for the duration of the eight-week program

As an America Reads volunteer you will:

- Tutor kids one-on-one for 30-minute, in-person reading sessions.
- Give feedback on the student's performance to parents or guardians when needed.
- Accept all students without reservation or judgment.
- Create a safe and positive learning environment.
