Weed Department Report
Weed Board Meeting
February 2nd, 2023

- UDAF grants will be open on February 1st and must be submitted by mid-march. These grants, if awarded, will be for projects beginning in July of this year till the end of June 2024. Funding will be sent to the county in June. Currently I plan to seek \$130,000.00 in grants. I will continue the San Juan River project and the Spray Days project and add new elements to each of the projects. I may submit a third grant after I speak again with the UDAF grant coordinator at the UWCA conference next month. I don't want a third submittal to decrease our chances of getting the 2 main grants.
- I mentioned last meeting that we have had the 20% reduction in funding for last year's San Juan River grant given back. We will receive an additional \$13,500 of funding for the 2022-23 grant project period but will be accounted for in this year's budget. This funding will largely go to herbicide purchases that we were not able to make due to the funding reduction.
- The Utah weed control association annual meeting will be held next month in St. George. This meeting always provides excellent training sessions, and introductions to new control methods, equipment and herbicides.
- While doing research of weed agencies surrounding San Juan County I came across the published Navajo Nation Weed Management Plan. The BIA does have an active weed program and I plan to contact them and find out if there is any way they could help with the San Juan River project along the Southern shore of the San Juan River and on those portions of the river that are wholly contained on the reservation. With only one side of the riparian areas along the river being addressed for Camelthorn and Russian Knapweed we will never reach eradication. With their help and more holistic weed management plan we could strive for eradication.
- The county commission and Human resources are reviewing pay levels for seasonal employees and we will hopefully be able to offer a starting pay that will attract a seasonal employee. Not having 2 seasonal employees really affected the amount of time I was able to spend on enforcement and weed surveying in 2022.
- I will submit an enforcement SOP for the board to review at the March weed board meeting. This will allow us to show that we follow an approved procedure within the guidelines of the Utah weed act should we ever need to defend an appeal to the county commission or even district court.
