#### **DISCUSSION & POSSIBLE ACTION ITEMS**

##### **1. Scenic Ridge Estate Phase D**

A preliminary plan review of a 3-lot subdivision located at 430 S 1200 E

City Planner Aspen Elmer introduced the item stating that this is the fourth phase and preliminary review of three (3) single family lots, each under an acre, located in the R-12 zone. The plan was approved by the Development Review Committee on February 24, 2026, providing that all red lines were addressed. City Planner Elmer confirms that all red lines have been addressed at this time and the action of the Planning Commission at this time is to approve or deny this review.

Applicant, Josh Call with Rimrock Engineering and Development stated that there are no new changes and explained the plans originally showed one lot with the intent of dividing it into three (3) lots. He is the designer and will address questions, as needed.

Commission Chair Wood requested to have the memo from the meeting packet presented for reference. City Planner Elmer presented the memo. Commission Chair Wood inquired whether the corner lot frontage meets the 115-foot requirement stating that it appears that the street view shows 97 feet and inquired if the curve may figure into the determination. Commissioner Weight questioned whether the requirement was satisfied when considering the two sides of the property.

Assistant City Manager Bond clarified that the frontage requirement is satisfied due to it being a corner lot. City Planner Elmer stated that the determination is made due to spacing, taking into consideration

both sides of the property. Applicant Call stated that the plat map notes the setbacks explaining that they are 98 feet until you get to the curve and from the curve the distance was straight-lined to the next property line to the East, thus meeting the 115-foot requirement.

Assistant City Manager Bond read from the SSC and stated that within the R-12 zone the minimum width of lots shall be 100 linear feet and all corner lots shall have a minimum width of 115 feet along all property lines adjacent to a street and stated that it is cumulative of those two sides.

Commissioner Weight inquired what the distance is for the bottom left frontage stating that it is marked 66.22 feet. Commissioner Chair Wood stated that there is a curve as well and refers to C2 showing an additional 68 feet. Assistant City Manager Bond stated that on a corner lot the developer is left to decide which house will face so long as they meet the front and side setbacks on the street. It appears that they have already decided which way they want the lot to face and it is indicated in the building envelope.

No other questions were raised by the Commission.
