We are extremely grateful for the dedication of both Judy and Val as they have provided wonderful service for the seniors of Santaquin and the surrounding areas. He and his wife have experienced utility workers coming onto their fenced property without their permission as homeowners. He asked that it be required that utility announce themselves formally and politely at the front door of residents before entering a back yard to ease concerns of homeowners in town. He wondered if the City could put a policy in place so that residents feel safe, and workers are not put in dangerous situations. Mayor Olson stated that he will take the topic into consideration and work with department heads to try to come up with a solution.

Bryan Blake from the Payson/Santaquin Area Chamber of Commerce attended the meeting to recognize the Chamber's quarterly Business of the Month, ERA Brokers Consolidated. The City has the right to recover health insurance premiums if the employee does not return from FMLA leave.

While this policy does not attempt to articulate all required or proscribed behavior, it does seek to assist in such judgment by providing guidelines. The same principles and guidelines that apply to employees in general apply to activities online. However, due to the nature of the internet, more accountability is to be expected. City departments are expected to cooperate fully in gathering information and assisting the Risk Manager as needed.

The City shall provide whatever support is necessary. In situations where the claim is in litigation, the City Attorney shall be the liaison between the City's insurance carrier, outside counsel and the City. In situations where the claim is not in litigation, the Risk Manager shall be the liaison between the City and its insurance carrier, advising the City Attorney as the claim proceeds.
  - (b) Incidents Involving No Actual or Potential Claims against the City. Incidents involving no actual or potential claims against the City shall be processed in-house by the Risk Manager.
  - (c) Opposing Attorney Involvement in Claim. If at any time throughout the Incident process outlined above an attorney representing an actual or potential claimant becomes involved in the process, the City Attorney shall immediately be notified. The City Attorney shall take the lead in processing the claim or in being liaison for the City, consistent with the terms of this policy.
  - (d) Settlement of Claims. The Mayor, or designee, with recommendation of the City Attorney and consent of the City Council, may chose to settle any claims, the disposition of lawsuits, the imposing of penalties on departments or employees at

fault, or any other issues that in the opinion of the Mayor, or designee affect the rights or liabilities of the City.

- (e) Repair of Damage to City Property Arising from Incidents. It shall be the responsibility of each City department to initiate the repair or replacement of damaged City property. The department which has responsibility for the use of the City property shall be responsible for preparing a requisition for the repair of such property. Upon completion of the repair, the Functional Area Director shall notify the Risk Manager that the repair is acceptable and complete. Where practicable, the Risk Manager shall pursue subrogation for any costs incurred by the City as a result of damage to City property. Costs recovered by the Risk Manager for materials used or replaced property shall be forwarded to the department that paid for the repair or replacement of the damaged property unless otherwise determined by the City Manager.
- 7. Paid Claims Where Employee is at Fault. If it is determined that an employee is partially or wholly responsible for a claim, an appropriate penalty or discipline may be imposed upon the employee in accordance with these policies and procedures.
- 8. Paid Claims Where Department Policy or Practice is at Fault. If it is determined that a Department policy or practice is at fault, the Functional Area Director will make an appropriate remedy.

#### 6.3 WORKERS COMPENSATION

- A. Workers Compensation Program Overview -
  - Program Oversight and Administration. City employees injured during the performance of their job duties are covered by the City's worker's compensation program (the "Program"), which provides medical reimbursement and indemnity benefits, as provided by state law. The Program is overseen by the Risk Manager. Claims administration is provided by a contract worker's compensation program administrator "Program Administrator".
  - 2. Medical Provider. Employees injured during the performance of their job should seek appropriate medical attention to care for work related injuries. If the injury is life threatening, 911 should be called and the employee will be treated by the nearest emergency facility. If the injury is not life threatening, the employee may select a "Medical Provider" of their choice to provide such care.
  - 3. Employee Discipline Failure by an employee to follow program reporting protocol, treatment policies, transitional duty requirements, or any other law, policy, or procedure related to the program in a timely and complete manner, shall result in employee disciplinary action up to and including termination.
- B. Treating and Reporting an Injury -
  - Medical Treatment. When injured, an employee shall immediately obtain appropriate medical treatment from a medical provider "Medical Provider". If the condition is life threatening the employee should call 911. Once initial emergency medical treatment is given and the employee is physically able, the employee shall report to a Medical Provider for follow-up treatment.

2. Reporting an Injury. Immediately following any injury, however minor, or immediately following emergency medical treatment, the employee shall report the injury to the employee's supervisor and to the Risk Manager. The report shall be made NO LATER THAN 24 HOURS following the occurrence of the injury. Although initial notice of the injury to the Risk Manager may be made by telephone or by leaving a message (if the injury occurs after regular City business hours), a claim is not deemed "reported" until the employee speaks personally with the Risk Manager and the appropriate injury report required by the Program Administrator is completed. The employee is responsible to follow up with the Risk Manager and to assure that all details of the injury are reported. If an injury is so severe as to render the employee's supervisor shall assure that the required reporting process as required, the employee's supervisor shall assure that the required reporting is completed. Once an injury has been reported, the Risk Manager will initiate a claim and will be provided a claim number. The claim numbers shall be reported to the Medical Provider as soon as possible.

#### C. Return to Work -

- 1. Return to Full Duty Allowed by Medical Provider. Immediately following initial treatment for a work-related injury, the employee shall obtain a written return to work release "Work Release" from the Medical Provider and SHALL CONTACT THE RISK MANAGER BEFORE RETURNING to the employee's regular place of work. The employee shall return to work for regular full duty ("Full Duty") unless directed otherwise by the treating Medical Provider. An employee shall not return to the work site following a work-related injury without a Work Release signed by the employee's Medical Provider being delivered to Risk Manager. The Risk Manager will provide a copy to the Personnel Officer. The employee's supervisor shall verify that the employee has contacted the Risk Manager before allowing the employee to return to the work site.
- 2. Return to Full Duty Not Allowed by Medical Provider. If an employee is directed by the Medical Provider to not return immediately to Full Duty, the employee shall immediately notify the employee's supervisor and Risk Manager of the following:
  - (a) that the Medical Provider has directed the employee to not return to Full Duty;
  - (b) the reasons for such direction and the prognosis of the injury;
  - (c) the expected date and time the employee will be released by the Medical Provider to Full Duty; and
  - (d) the work restrictions the Medical Provider has placed on the employee.
- Return to work with restricted duty "Restricted Duty". Santaquin City will accommodate restricted duty jobs, as outlined by the Provider, for workers injured on the job. The Risk Manager will work with the supervisor to design a work strategy that meets the injured employees restrictions and accomplished Santaquin City' goals.
- 4. Employee to Report to the Risk Manager with Work Release and Written Work Restrictions. Upon release to work by the Medical Provider for Full Duty or Restricted Duty, the employee shall immediately report to the Risk Manager with a work release and any work restrictions from the Medical Provider. THE EMPLOYEE SHALL NOT RETURN TO THE WORK SITE PRIOR TO CONTACTING RISK MANAGER. Prior to any work being performed the employee's supervisor shall verify that the employee has reported to the Risk Manager and shall confirm any Work Restrictions placed on the employee with

the Risk Manager. If the employee has only been released to Restricted Duty, the Functional Area Director, or designee, will determine if there is work available that will accommodate the restrictions outlined by the Medical Provider. If it is determined that work is available, the employee's supervisor shall review any Work Restrictions with the employee before allowing the employee to return to the work site.

5. Secondary Employment - An employee on worker's compensation leave shall not engage in any secondary employment except as first authorized by Risk Management.

#### D. Workers Compensation Wage Replacement ("Indemnity Benefits") -

- 1. Wage Replacement Amount (Indemnity Benefit) If a worker's compensation injury or illness causes total temporary disability (i.e. the employee cannot perform ANY work tasks for the City) as determined by the Medical Provider and confirmed by Risk Management, the employee receives weekly wage replacement ("Indemnity Benefits") equal to 66 2/3 percent of the employee's weekly wages at the time of the injury, up to a maximum of the state weekly average, adjusted for eligible dependents. The Indemnity Benefit continues until the employee is released by the Medical Provider to Restricted Duty (if available) or Full Duty.
- 2. First Three Calendar Days After Injury Not Compensated. An injured employee does not receive Indemnity Benefits for the first three days after the injury occurs, unless the period of total temporary disability lasts more than 14 days.
- 3. Supplement to Indemnity Benefit. Employees may receive supplemental Indemnity Benefits on a taxable basis, to 100% of employee's regular wages where an employee has accrued sick leave, personal leave and/or vacation leave. No employee may receive more than the equivalent of 100% of his or her regular wages, adjusted for taxes and deductions. Supplemental compensation may be allowed when an employee submits documentation of the worker's compensation Indemnity Benefit received from the Program Administrator to the Administration Office. Request for supplemental compensation shall be submitted in writing to the Personnel Officer and must specify which leave will be used for compensation. Payments of supplemental compensation shall be made in accordance with regularly scheduled payroll.
- E. Failure to Follow Applicable Law, Policies and Procedures -
  - 1. Questions Concerning Program Requirements. Employees are strongly encouraged to contact the Risk Manager if questions should arise regarding the reporting, treatment, or processing of worker's compensation claims. Additional details pertaining to the City's program may be obtained by contacting the Risk Manager.
  - Loss of Benefits. Failure by an employee to follow procedures for reporting and processing worker's compensation claims as required by State law and the Utah Labor Commission may result in the denial of a claim and/or in the loss of benefits by the employee.
- F. <u>Accrual of Leave while on Workers Compensation Leave</u> Employees on Workers Compensation Leave for 5 consecutive working days, will not accrue sick or vacation leave or holiday pay.

#### INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council Members Santaquin City, Utah

#### Report on the Audit of the Financial Statements

#### Opinions

We have audited the financial statements of the governmental activities, the business-type activities and each major fund, and the aggregate remaining fund information of Santaquin City as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Santaquin City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Santaquin City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirement relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibility of Management for the Financial Statements

Santaquin City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Santaquin City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements in performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Larson & Company 765 North Main, Spanish Fork, UT 84660 Main: (801) 798-3545 | www.larsco.com

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Santaquin City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate that raise substantial doubt about Santaquin City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Santaquin City's basic financial statements. The combining and individual nonmajor fund financial statements, and schedule of expenditures of federal awards (SEFA), as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, and the SEFA, are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2023, on our consideration of Santaquin City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Santaquin City's internal control over financial control over financial reporting and compliance.

Spanish Fork, Utah November 13, 2023 MANAGEMENT'S DISCUSSION AND ANALYSIS

This page intentionally left blank.

As management of Santaquin City Corporation (the City), we offer readers of the City's financial statements this narrative overview and analysis of financial activities of the City for the fiscal year ended June 30, 2023.

## FINANCIAL HIGHLIGHTS

\*Total net position for the City as a whole increased by \$10,277,137

\*Total unrestricted net position for the City as a whole increased by \$1,866,120

\*Total net position for governmental activities increased by \$3,374,217

\*Total net position for business-type activities increased by \$6,902,919

# **BASIC FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the basic financial statements of Santaquin City Corporation. The basic financial statements comprise three components: (1) government wide financial statements, (2) fund financial statements, and (3) notes to the financial statements.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the fiscal year reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The statement of activities is presented on two pages. The first page reports the extent to which each function or program is self-supporting through fees and intergovernmental aid. The second page identifies the general revenues of the City available to cover any remaining costs of the functions or programs.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City also uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

*Governmental funds*. These funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. Governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for government funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the government fund balance sheet and the government fund statement of the revenues, expenditures, and changes in fund balances provide reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains two major governmental funds, the general fund and the capital projects fund.

The City adopts an annual appropriated budget for all its funds. A budgetary comparison schedule has been provided to demonstrate legal compliance with the adopted budget for the general fund.

The basic governmental fund financial statements can be found later in this report; see Table of Contents.

*Proprietary funds.* The City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses three enterprise funds to account for the operations of the water, sewer, storm drain. and irrigation utilities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise funds are considered major funds of the City.

The proprietary fund financial statements can be found later in this report; see Table of Contents.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are reported later in this report; see Table of Contents.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City.

This change is equivalent to the net income for the year, in private sector terms.

Unrestricted net position are those resources available to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements.

The amount of current and other assets represent the amounts of cash and receivables on hand at the end of each year. Other liabilities are the amounts of current and other liabilities due, at year end, for goods and services acquired.

Changes in capital assets are the result of the difference, in the current year, of the cost of acquisition of capital assets and any depreciation charges on capital assets. Change in long-term debt is the difference in the amount of debt issued and that which has been paid during the year.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## 1-A. Reporting entity

Santaquin City Corporation (the City), is a municipal corporation located in Utah County, Utah. The City operates under a Mayor-Council form of government with an elected mayor and five council members.

The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable.

**Santaquin SSD** – The City's Santiquin Special Service District has the same governing body as the City's and is therefore included as part of the operating entity using the blended method.

**Community Development & Renewal Agency** – The City's Community Development & Renewal Agency has the same governing body as the City's and is therefore included as part of the operating entity using the blended method.

**Local Building Authority** – The City's Local Building Authority has the same governing body as the City's and is therefore included as part of the operating entity using the blended method.

#### 1-B. Government-wide and fund financial statements

#### Government-wide Financial Statements

The government-wide financial statements, consisting of the statement of net position and the statement of activities report information on all the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position reports the financial position of the governmental and business-type activities of the City and its discretely presented component units (if any) at year-end.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect expenses are not allocated. All expenses are included in the applicable function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privilege provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

#### Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, if any, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statement.

#### 1-C. Measurement focus, basis of accounting and financial statement presentation

The financial statements of the City are prepared in accordance with generally accepted accounting principles (GAAP).

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting, generally including the reclassification of internal activity (between or within funds). However, internal eliminations do not include utility services provided to City departments or payments to the general fund by other funds for providing administrative and billing services for such funds. Reimbursements are reported as reductions to expenses. Proprietary and any fiduciary fund financial statements are also reported using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when the grantor eligibility requirements are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments, if any, receivable within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating income and expense reported in proprietary fund financial statements include those revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services, including administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

#### Policy regarding use of restricted resources

When faced with a choice, it is the City's policy to use restricted resources first, then committed and assigned amounts before spending unassigned amounts. Restricted assets and liabilities payable from restricted assets current in nature are reported with current assets and current liabilities.

## 1-D. Fund types and major funds

#### Governmental funds

#### The City reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* is used to account for the acquisition or construction of major capital facilities of the City (other than those financed by proprietary funds).

#### The City reports the following as non-major governmental funds:

The senior citizens fund is used to account for activities relating to senior citizens.

The park impact fees fund is used to account for the collection and use of park impact fees.

The *public safety impact fees fund* is used to account for the collection and use of public safety impact fees.

The *transportation impact fees fund* is used to account for the collection and use of transportation impact fees.

The community development and renewal agency fund accounts for the activities of the agency.

The *local building authority fund* accounts for the activities of the Local Building Authority.

The Santaquin special service district fund is used to account for the water share activity.

Proprietary funds

#### The City reports the following major and non-major proprietary funds:

The *water fund* is used to account for the activities of the culinary water production, treatment and distribution.

The *sewer fund* is used to account for the activities of the sewer operations.

The storm drain fund is used to account for the activities of the storm drain operations.

#### 1-E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Assets or Equity

#### **1-E-1.** Deposit and Investments

Investments are reported at fair value. Deposits are reported at cost, which approximates fair value. Investments of the City are accounts at the Utah Public Treasurers Investments Fund. Additional information is contained in Note 3.

# 1-E. Assets, Liabilities, Deferred Outflows\Inflows of Resources, and Net Assets or Equity (continued)

## 1-E-1. Deposit and Investments (continued)

Investments are recorded at fair value in accordance with GASB Statement No. 72, Fair Value Measurement and Application. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

## 1-E-2. Cash and Cash Equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

## 1-E-3. Receivables and Payables

Accounts receivable other than property taxes and intergovernmental receivables are from customers primarily for utility services. Property tax and intergovernmental receivables are considered collectible. Customer accounts are reported net of any allowance for uncollectible accounts. Allowance for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. For the year ended June 30, 2022, the City reported \$80,624 as allowance for uncollectible accounts receivable.

During the course of operations, there may be transactions occur between funds that are representative of lending/borrowing arrangements outstanding at year-end. These are reported as either due to or due from other funds.

Property taxes are assessed and collected for the City by Utah County and remitted to the City shortly after collection. Property taxes become a lien on January 1 and are levied on the first Monday in August. Taxes are due and payable on November 1, and are delinquent after November 30. All dates are in the year of levy.

#### 1-E-4. Restricted Assets

In accordance with certain revenue bond covenants, resources may be required to be set aside for the repayment of such bonds, and, on occasion, for the repair and maintenance of the assets acquired with the bond proceeds. These resources are classified as restricted assets on the balance sheet because of their limited use. Most capital grant agreements mandate that grant proceeds be spent only on capital assets. Unspent resources of this nature are also classified as restricted. The limited use resources described above involve a reported restriction of both cash and net assets.

Unspent proceeds of bonds issued to finance capital assets are also reported as restricted cash.

#### 1-E-5. Inventories and Prepaid items

Other inventories, which mainly consist of immaterial amounts of expendable supplies for consumption, are not reported. Such supplies are acquired as needed. Proprietary fund inventories, where material, are stated at the lower of cost or market, using the first-in, first-out basis.

Prepaid items record payments to vendors that benefit future reporting and are reported on the consumption basis. Both inventories and prepayments are similarly reported in government-wide and fund financial statements.

# 1-E. Assets, Liabilities, Deferred Outflows\Inflows of Resources, and Net Assets or Equity (continued)

# 1-E-6. Capital Assets

Capital assets includes property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or at estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Infrastructure is depreciated.

The cost of normal maintenance and repairs that does not add to the value of an asset or materially extend the assets' life is not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Upon retirement or disposition of capital assets, the cost and related accumulated depreciation are removed from the respective accounts. Depreciation of capital assets is computed using the straight-line method over their estimated useful lives.

Property, plant, and equipment of the primary government, as well as the component units if any, is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	30-45
Improvements	30-45
Water system	30-45
Sewer system	30-45
Infrastructure	30-45
Vehicles and equipment	5-15

# 1-E-7. Long-term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond discounts or premiums, and the difference between the reacquisition price and the net carrying value of refunded debt are deferred and amortized over the terms of the respective bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period.

# 1-E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Assets or Equity (continued)

## 1-E-8. Fund Equity

#### Government-wide Financial Statements

Equity is classified in the government-wide financial statements as net position and is displayed in three components:

**Net investment in capital assets** - Capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

**Restricted net position** - Net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

**Unrestricted net position** - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

#### Fund Financial Statements

In the fund financial statements governmental fund equity is classified as fund balance. Fund balance is further classified as Nonspendable, Restricted, Committed, Assigned or Unassigned. Descriptions of each follow:

**Nonspendable fund balance** - This classification includes amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact. Fund balance amounts related to inventories, prepaid expenditures, and endowments are classified as nonspendable.

**Restricted fund balance** - This classification includes net fund resources that are subject to external constraints that have been placed on the use of the resources either a) imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of the government or b) imposed by law through constitutional provisions or enabling legislation.

**Committed fund balance** - This classification includes amounts that can only be used for specific purposes established by formal action of the City Council, with is the City's highest level of decision making authority. Fund balance commitments can only be removed or changed by the same type of action (for example resolution) of the City Council. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

**Assigned fund balance** - This classification includes amounts that the City intends to be used for a specific purpose but are neither restricted nor committed. These are established by the City Council. This category includes the remaining positive fund balances for governmental funds other than the general fund.

# 1-E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Assets or Equity (continued)

#### 1-E-8. Fund Equity (continued)

**Unassigned fund balance** - Residual classification of the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Proprietary fund equity is classified the same as in the government-wide statements.

## 1-E-9. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows of resources related to pensions as required by GASB 68.

In addition to liabilities, the statement of net position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The City has only one type of deferred inflows of resources. Property taxes to be collected in November were unavailable in the current fiscal year. Accordingly, these property taxes are deferred and will be recognized as an inflow of resources in the period that the amounts become available. The city also reports deferred inflows of resources related to pensions as required by GASB 68.

# 1-E-10. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# 1-E-11. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates.

## NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### 2-A. Budgetary data

Annual budgets are prepared and adopted by ordinance by total for each department, in accordance with State law, by the Mayor and City Council on or before June 22 for the following fiscal year beginning July 1. Estimated revenues and appropriations may be increased or decreased by resolution of the City Council at any time during the year. A public hearing must be held prior to any proposed increase in a fund's appropriations. Budgets include activities in the General Fund. The level of the City's budgetary control (the level at which the City's expenditures cannot legally exceed appropriations) is established at the department level. Each department head is responsible for operating within the budget for their department. All annual budgets lapse at fiscal year-end.

Utah State law prohibits the appropriation of unreserved General Fund balance to an amount less than 5% of the General Fund revenues. The 5% reserve that cannot be budgeted is used to provide working capital until tax revenue is received, to meet emergency expenditures, and to cover unanticipated deficits. Any unreserved General Fund balance greater than 35% of the current year's actual revenues must be appropriated within the following two years.

Once adopted, the budget may be amended by the City Council without hearing provided the budgeted expenditures do not exceed budgeted revenues and appropriated fund balance. A public hearing must be held if the budgeted expenditures will exceed budgeted revenues and any fund balance which is available for budgeting. With the consent of the Mayor, department heads may reallocate unexpended appropriated balances from one expenditure account to another within that department during the budget year. Budgets for the General Fund are prepared on the modified accrual basis of accounting. Encumbrances are not used.

Restricted cash and cash equivalents (non-current)	 12,151,901
Total cash and cash equivalents	\$ 33,403,779

Cash equivalents and investments are carried at fair value in accordance with GASB Statement No. 72.

#### 3-A. Deposits and investments (continued)

The Utah Money Management Act (UMMA) establishes specific requirements regarding deposits of public funds by public treasurers. UMMA requires that city funds be deposited with a qualified depository which includes any depository institution which has been certified by the Utah State Commissioner of Financial Institutions as having met the requirements specified in UMMA Section 51, Chapter 7. UMMA provides the formula for determining the amount of public funds which a qualified depository may hold in order to minimize risk of loss and also defines capital requirements which an Institution must maintain to be eligible to accept public funds. UMMA lists the criteria for investments and specifies the assets which are eligible to be invested in, and for some investments, the amount of time to maturity.

UMMA enables the State Treasurer to operate the Public Treasurer's Investment Pool (PTIF). PTIF is managed by the Utah State Treasurer's investment staff and comes under the regulatory authority of the Utah Money Management Council. This council is comprised of a select group of financial professionals from units of local and state government and financial institutions doing business in the state. PTIF operations and portfolio composition is monitored at least semi-annually by the Utah Money Management Council. PTIF is unrated by any nationally recognized statistical rating organizations. Deposits in PTIF are not insured or otherwise guaranteed by the State of Utah. Participants share proportionally in any realized gains or losses on investments which are recorded on an amortized cost basis. The balance available for withdrawal is based on the accounting records maintained by PTIF. The fair value of the investment pool is approximately equal to the value of the pool shares. The City maintains monies not immediately needed for expenditure in PTIF accounts.

#### Fair value of investments

The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows: Level 1--Quoted prices for identical investments in active markets; Level 2--Observable inputs other than quoted market prices; and, Level 3--Unobservable inputs. At June 30, 2023, the City had \$33,157,770 invested in the PTIF, which uses a Level 2 fair value measurement.

#### Deposit and investment risk

The City maintains no investment policy containing any specific provisions intended to limit the City's exposure to interest rate risk, credit risk, and concentration of credit risk other than that imposed by UMMA. The City's compliance with the provisions of UMMA addresses each of these risks.

#### Interest rate risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. All deposits and investments of the City are available immediately.

#### 3-A. Deposits and investments (continued)

#### Credit risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligations. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits. At June 30, 2023, \$740,492 of the City's demand deposits of \$1,008,181 were uninsured. The book balance at year-end was \$357,163.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. This risk is addressed through the policy of investing excess monies only in PTIF.

#### **Concentration of credit risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. PTIF falls under the constraints of UMMA in limiting concentrations of investments.

#### **3-B. Receivables**

The allowance policy is described in Note 1-E-3. Receivables as of year-end for the City's funds are shown below:

## **NOTE 4 - OTHER INFORMATION**

#### 4-A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The City participates in the Utah Local Government Trust, a public agency insurance mutual, which provides coverage for property damage and general liability. The City is subject to a minimal deductible for claims. There have been no significant reductions in insurance coverage from coverage in the prior year. Amounts of settlements have not exceeded insurance coverage in any of the past three fiscal years.

#### 4-B. Rounding convention

A rounding convention to the nearest whole dollar has been applied throughout this report, therefore the precision displayed in any monetary amount is plus or minus \$1. These financial statements are computer generated and the rounding convention is applied to each amount displayed in a column, whether detail item or total. As a result, without the overhead cost of manually balancing each column, the sum of displayed amounts in a column may not equal the total displayed. The maximum difference between any displayed number or total and its actual value will not be more than \$1.

#### 4-C. Subsequent Events

In preparing these financial statements, the City has evaluated events and transactions for potential recognition or disclosure through the date of the audit report, which is the date the financial statements were available to be issued.

#### 4-D. Pension Plans

#### **General Information about the Pension Plan**

#### **Plan description:**

Eligible plan participants are provided with pensions through the Utah Retirement Systems. The Utah Retirement Systems are comprised of the following Pension Trust Funds:

Public Employees Noncontributory Retirement System (Noncontributory System) is a multiple employer, cost sharing, public employee retirement system;

Firefighters Retirement System (Firefighters System) is a multiple employer, cost sharing, retirement system;

Public Safety Retirement System (Public Safety System) is a mixed agent and cost-sharing, multiple employer public employee retirement system;

Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System) is a multiple employer cost sharing public employee retirement system;

Tier 2 Public Safety and Firefighter Contributory Retirement System (Tier 2 Public Safety and Firefighters System) is a multiple employer, cost sharing, public employee retirement system.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms.

URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 E. 200 S, Salt Lake City, Utah 84102 or visiting the website: www.urs.org/general/publications.

The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

**Contribution Rate Summary:** As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the URS Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of June 30, 2023, are as follows:

## Combined Pension Assets, Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2023, we reported a net pension asset of \$76,831 and a net pension liability of \$784,724.

	(Measurement Date): December 31, 2022						
						Proportionate

Total	\$	76,831	\$	784,724			

The net pension asset and liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2022 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the year ended June 30, 2023, we recognize pension expense of \$372,687.

At June 30, 2023, we reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows Deferred Inflow			
	of	Resources	ofF	Resources
Difference between expected and actual experience	\$	116,487	\$	5,524
Changes in assumptions		82,492		2,099

contributions and proportionate share of contributions		38,221		60,810
Contributions subsequent to the measurement date		308,428		-
Total	\$	866,233	\$	68,433

\$308,428 reported as deferred outflows of resources related to pensions results from contributions made by us prior to our fiscal year end, but subsequent to the measurement date of December 31, 2022. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year.

### 4-D. Pension Plans (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31,	Net Deferred Outflows (Inflows) of Resources	
2023	\$ (110,840)	
2024	(13,884)	
2025	120,320	
2026	468,874	
2027	4,412	
Thereafter	20,490	

#### **Actuarial assumptions:**

The total pension liability in the December 31, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 Percent
Salary increases	3.25 - 9.25 percent, average, including inflation
Investment rate of return	6.85 percent, net of pension plan investment
	expense, including inflation

Mortality rates were adopted from an actuarial experience study dated January 1, 2020. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using 80% of the ultimate rates from the MP-2019 improvement assumption using a base year of 2020. The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

The actuarial assumptions used in the January 1, 2012, valuations were based on an experience study of the demographic assumptions as of January 1, 2020, and a review of economic assumptions as of January 1, 2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best- estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

## 4-D. Pension Plans (continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	_	Expected Return Arithmetic Basis						
	_		Real Return	Long Term expected				
		Target Asset	Arithmetic	portfolio real				
Assets class		Allocation	Basis	rate of return				
Equity securities		35%	6.58%	2.30%				
Debt securities		20%	1.08%	0.22%				
Realassets		18%	5.72%	1.03%				
Private equity		12%	9.80%	1.18%				
Absolute return		15%	2.91%	0.44%				
Cash and cash equivalents	_	0%	-0.11%	0.00%				
Totals		100.00%		5.17%				
	Inflation			2.50%				
	Expected	arithmetic nominal re	turn	7.67%				

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50%, a real return of 4.35% that is net of investment expense.

#### **Discount rate:**

The discount rate used to measure the total pension liability was 6.95 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

# Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate:

The following presents the proportionate share of the net pension liability calculated using the discount rate of 6.85 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.85 percent) or 1-percentage-point higher (7.85 percent) than the current rate:

System	19	% Decrease (5.95%)	 count Rate (6.95%)	1	% Increase (7.95%)

#### Pension plan fiduciary net position:

Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

#### **Defined Contribution Savings Plan:**

The Defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b) and 408 of the Internal Revenue code. Detailed information regarding plan provisions is available in the separately issued URS financial report. The City participates in the following Defined Contribution Savings Plans with the Utah Retirement Systems:

## **Budgetary Comparison Schedules**

The Budgetary Comparison Schedule presented in this section of the report is for the City's General Fund.

## **Budgeting and Budgetary Control**

The budget for the General Fund is legally required and is prepared and adopted on the modified accrual basis of accounting.

Original budgets represent the revenue estimates and spending authority authorized by the City Council prior to the beginning of the year. Final budgets represent the original budget amounts plus any amendments made to the budget during the year by the Council through formal resolution. Final budgets do not include unexpended balances from the prior year because such balances automatically lapse to unreserved fund balance at the end of each year.

## **Current Year Excess of Expenditures over Appropriations**

For the year ended June 30, 2023, expenditures for all departments were under budgeted amounts.

#### **Changes in Assumptions Related to Pensions**

No changes were made in actuarial assumptions from the prior year's valuation.

# Santaquin City MODIFIED APPROACH FOR INFRASTRUCTURE REPORTING

June 30, 2023

As allowed by GASB 34, Santaquin City has adopted an alternative to reporting depreciation on roads (infrastructure assets) maintained by the Public Works Department. Under the modified approach, infrastructure assets are not depreciated and maintenance and preservation costs are expensed.

Infrastructure assets that are part of a network are not required to be depreciated as long as the following requirements are met:

- The assets will be managed using an asset management system
- Document that the eligible infrastructure assets are being preserved approximately at (or above) the condition level as disclosed below

The asset management system will provide:

- An up-to-date inventory of eligible infrastructure assets
- Perform condition assessments of the eligible infrastructure assets and summarize the results using a measurement scale at least every three years
- Estimate yearly the annual amount of funds needed to maintain and preserve the eligible infrastructure assets at the condition level established
- The results of the three most recent complete condition assessments provide reasonable assurance that the eligible infrastructure assets are being preserved at the disclosed level
- All expenditures, except for additions and improvements, made for the eligible infrastructure assets will be expensed in the period incurred
- Additions and improvements to the eligible infrastructure assets will be capitalized, as they increase the capacity or efficiency of the asset rather than preserve the useful life of the asset

## Roads

Santaquin City will utilize the Pavement Management System to determine the condition of the city roads. The assessment is based on the Ride Index, which is a measurement of ride quality on a scale of 1-5, with 5 representing new or nearly new pavement.

Category	Range	Description
Good	3.55 - 4.34	Pavements, which provide an
		adequate, ride, and exhibit few, if
		any, visible signs of distress.
Fair	2.75 - 3.54	Surface defects in this category
		such as cracking, rutting, and
		raveling are affecting the ride.
Poor	1.85 - 2.74	These roadways have deteriorated
		to such an extent that they are in
		need of resurfacing and the ride is
		noticeably rough.
Very Poor	1.00 - 1.84	Pavements in this category are
		severely deteriorated, and the ride
		quality must be improved.

# Santaquin City MODIFIED APPROACH FOR INFRASTRUCTURE REPORTING

June 30, 2023

## **Condition Level**

Santaquin City's condition level policy is to maintain 60% of the roads with a rating of "fair" or better and no more than 20% with a rating of "poor-very poor." All city roads are preserved on a rotating basis, with all new city streets done in a given year, and the rotation started every seven to ten years. The whole city had roads preserved between the years 2000 and current.

Complete assessments of the roads are performed on a fiscal year basis. The following chart shows the results of the pavement ratings for the last five years:

Rating	2023	2022	2021	2020	2019
Fair or Better	76%	76%	76%	76%	74%
Poor - Very Poor	24%	24%	24%	24%	26%

The following table shows the estimated amounts needed to maintain and preserve the roads at or above the established condition levels addressed above, and the amounts actually spent for each of the last five fiscal years.

Fiscal Year	Estimated Spending	Actual Spending
2023	\$1,812,428	\$1,781,449
2022	\$5,809,187	\$1,238,497
2021	\$2,037,556	\$1,614,385
2020	\$4,784,264	\$3,757,721
2019	\$6,258,750	\$3,026,690

#### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor, and Members of the City Council Santaquin City, Utah

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of Santaquin City (the City) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 13, 2023.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE STATE COMPLIANCE AUDIT GUIDE

The Honorable Mayor, and Member of the City Council Santaquin City, Utah

#### Report on Compliance with General State Compliance Requirements

We have audited Santaquin City's compliance with the applicable state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor, for the year ended June 30, 2023

State compliance requirements were tested for the year ended June 30, 2023 in the following areas:

Budgetary Compliance Justice Court Fraud Risk Assessment Fund Balance Restricted Taxes and Related Revenues Government Fees

#### **Opinion on Compliance**

In our opinion, Santaquin City complied, in all material respects, with the state compliance requirements referred to above for the year ended June 30, 2023.

#### **Basis for Opinion**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (Government Auditing Standards); and the *State Compliance Audit Guide* (Guide). Our responsibilities under those standards and the *State Compliance Audit Guide* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Santaquin City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of District's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Santaquin City's government programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

Larson & Company 765 North Main, Spanish Fork, UT 84660 Main: (801) 798-3545 | www.larsco.com

Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Santaquin City's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform
  audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence
  regarding Santaquin City's compliance with the compliance requirements referred to above and performing
  such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Santaquin City's internal control over compliance relevant to the audit in order to
  design audit procedures that are appropriate in the circumstances and to test and report on internal control
  over compliance in accordance with the State Compliance Audit Guide but not for the purpose of expressing
  an opinion on the effectiveness of Santaquin City's internal control over compliance. Accordingly, no such
  opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report On Internal Control over Compliance**

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses or significant deficiencies, as defined above. However, material weaknesses or significant deficiencies, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or to detect and correct noncompliance with a state compliance requirement on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a state compliance requirement will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of the Guide. Accordingly, this report is not suitable for any other purpose.

Re: Orchard Hills Sports Field Lighting

Santaquin City Community Services and Engineering has evaluated pricing for the purchase of sports field lighting equipment at the ball fields adjacent to the Orchard Hills Elementary School.

We contacted Musco Lighting and requested a design for field lighting and a quote to provide all equipment and controls for sports field lighting. Musco is the State of Utah's Best Value Contract Company for field lighting. Musco also now provides their lighting under Utah State Bid pricing.

The proposed sports field lighting includes a total of 6 poles, lights, and all controls and materials needed for the installation and control of the sports field lighting. The price does not include needed trenching, conduits, power from Rocky Mountain Power, or installation of the poles or lights.

The proposed sports field lighting would be 30 foot-candles which is equivalent to the level of lighting that was installed at Harvest View Sports complex and at the Santaquin Rodeo area.

The proposed cost for the sports field lights, equipment, and controls is \$161,363.00. These sports field lighting for these fields is identified within Santaquin City's Parks, Recreation, Trails and Open Space Master plan and would be paid for with Impact fees. The purchase of these lights is currently budgeted and there are sufficient Park Impact Fee funds to cover the cost of this purchase.

I am happy to answer any questions you may have regarding the sports field lighting.

#### **Recommendation:**

Motion to approve the purchase of the sports field lighting for Orchard Hills Elementary sports fields from Musco Lighting in a not to exceed amount of \$161,363.00.

RE: Additional Cycling Bikes

Santaquin Community Services (Recreation) was able to purchase six stationary cycling bikes this fiscal year with RAP Tax funding. This allowed us to start teaching cycling fitness classes at the Recreation Activity Building. Since our classes began November 1, we have had 140 participants and we're offering four classes per week. We have one instructor bike and five class member bikes per class.

Residents have shared how happy they are to have Cycling so close. Many have been driving to Spanish Fork for these one-hour fitness classes. The classes are so popular that we are turning away an average of 2-3 participants per class. At \$3 per class, we have missed out on \$210 revenue in just over one month. Cycling is a great fitness activity year-round, but especially during winter when cycling enthusiasts are not able to safely ride outdoors.

Our classroom has space for three additional stationary cycling bikes. We would petition the City Council to utilize \$6,741 from our Community Services Classes Fund Balance account. The Fund Balance account currently has over \$25,000. If we ordered the bikes now, we could have those in place in February 2024 to continue this new strong fitness program for our residents.

#### Staff Recommendation:

Approve use of \$6,741 from Classes Fund Balance to purchase three additional stationary cycling bikes.

#### Re: Santaquin City Standards and specifications update

Periodically Santaquin City's Standards and specifications must be updated to address issues discovered with previous construction materials and methods and to bring specifications in line with modifications to Utah State Code.

The current update addresses the following:

- 1. Division 1: The proposed change is to update the pre-construction meeting location to the new City Hall.
- 2. Division 2: The proposed change updates the pipe embedment material to match American Public Works Association (APWA) specifications.
- 3. Division 3A: The proposed change requires that if a Culinary Water service meter box ring & lid is located within a concrete surface (i.e., not in a landscaped area) the ring and lid must be a larger diameter to allow for public works crews to access the meter for servicing.
- 4. Standard Drawings
  - a. ST1 Standard Street Cross section update
    - i. Added note: "As approved by City Council on March 1, 2022, this is the required minimum cross section for all local streets/roads approved for development prior to December 19, 2023.
    - ii. Removed 26' rural private lane cross section.
    - iii. Relocated 5 lane/no parking 90' Arterial cross section from ST2.
  - b. ST2 Standard Street Cross section update
    - i. Added New 58'/2 lane local road cross section. This addresses the maximum asphalt width of 32' as required by Utah State Code.
    - ii. Relocated 5 lane/no parking 90' Arterial cross section to ST1.

These updates will address concerns expressed by Santaquin City Public Works and the recent changes to the Utah State Code.

The Planning Commission held a public hearing regarding the proposed updates and provide a positive recommendation to the city council on the proposed language.

Recommended Motion:

The City Council approve the proposed Standard and Specifications update.

#### Re: Second Access Requirement for Parking Facilities

Mayor Olson and the City Council have initiated a review of the regulations related to parking facility access requirements. This was done to explore ways to further facilitate economic development within Santaquin City, particularly on Main Street.

Due to some possible technical impacts that could result from any changes to the code requirements, the Development Review Committee (DRC) reviewed the requirements to determine what could possibly be done. The DRC had multiple meetings to discuss possible impacts and opportunities that would result from any code changes. Meetings and discussions with UDOT staff also took place since Main Street is also US Highway 6 and a UDOT managed facility.

After the DRC drafted recommended code language changes that were acceptable to all of the departments represented on the DRC, the Planning Commission reviewed the language and provided/recommended the following code language:

Commissioner Hoffman made a motion to recommend approval of the proposed code amendment which amends the parking area access requirements. Commissioner Weight seconded the motion.

Commissioner Wood, Yes; Commissioner Lance, Yes; Commissioner Moak, Absent (excused); Commissioner Nixon, No; Commissioner Romero, Yes; Commissioner Weight, Yes; Commissioner Hoffman, Yes.

The motion passed.

This topic and consideration of the recommended code language change are now before the City Council for their review and determination of what, if anything, should be done to change the "Access to Parking Facilities" regulations.

**Recommended Motion:** "Motion to adopt Ordinance No. 12-02-2023 which amends the "Access to Parking Facilities" regulations in Santaquin City Code."

#### **ORDINANCE NO. 12-02-2023**

#### AN ORDINANCE AMENDING SANTAQUIN CITY CODE TO MODIFY THE SECOND ACCESS REQUIREMENT TO A PARKING FACILITY, PROVIDING FOR CODIFICATION, CORRECTION OF SCRIVENER'S ERRORS, SEVERABILITY, AND AN EFFECTIVE DATE FOR THE ORDINANCE.

WHEREAS, the City of Santaquin is a fourth-class city of the state of Utah; and

**WHEREAS,** the State Legislature has granted general welfare power to the City Council, independent, apart from, and in addition to, its specific grants of legislative authority, which enables the city to pass ordinances which are reasonably and appropriately related to the objectives of that power, i.e. providing for the public safety, health, morals, and welfare; and

**WHEREAS**, the City Council desires to amend Santaquin City Code Title 10 Chapter 48 Section 050 regarding when a second access is required to a parking facility.

**WHEREAS,** the Santaquin City Planning Commission held a public hearing on November 14, 2023, which hearing was preceded by the posting of public notice in at least three public places within the City limits of Santaquin City; and

**WHEREAS,** after the noted public hearing, the Santaquin City Planning Commission forwarded a recommendation to the City Council;

**NOW, THEREFORE, BE IT ORDAINED** by the City Council of Santaquin City, State of Utah, as follows:

When a site is adjacent to a UDOT controlled right-of-way, the maximum ADT allowed before needing a secondary access for ingress to and egress from the site is five hundred (500) trips.

It is hereby declared to be the intent of the City Council that this section would have been adopted if such invalid section, provisions, subdivision, sentence or part of a section or application had not been included.

Re: Ercanbrack Rezone

From: MSC To: CLM

Mr. Randall Ercanbrack with W.M. Ercanbrack Co., Inc. is proposing a rezone of 1.54 acres located at 580 West Main Street. The property is currently zoned as the Main Street Commercial (MSC) District within the Main Street Business Districts Zone. The applicant is requesting that a portion of his property be rezoned to the Commercial Light Manufacturing (CLM) Zone. Most of the property (Parcel 32:006:0109) is currently zoned CLM and a smaller portion of the property (1.54 acres) is zoned MSC. If the rezone is approved, the entire property will be in the CLM Zone.

The applicant has prepared a letter explaining why he is requesting the rezone (Attachment 2) and has provided a concept plan (Attachment 3). The letter and the concept plan are the applicant's justification for why the proposed zone change should be approved. The concept plan is not binding and is an idea of what could be developed on the property.

The Planning Commission reviewed the proposal and provided the following recommendation:

Commissioner Romero made a motion to forward a positive recommendation to the City Council that approximately 1.54 acres of the WM Ercanbrack Co, Inc property be rezones from the Main Street Commercial (MSC) District within the Main Street Business Districts Zone to the Commercial Light Manufacturing (CLM) Zone. Commissioner Nixon seconded the motion.

Commissioner Moak	Yes
Commissioner Nixon	Yes
Commissioner Romero	Yes
Commissioner Weight	Yes
Commissioner Hoffman	Yes

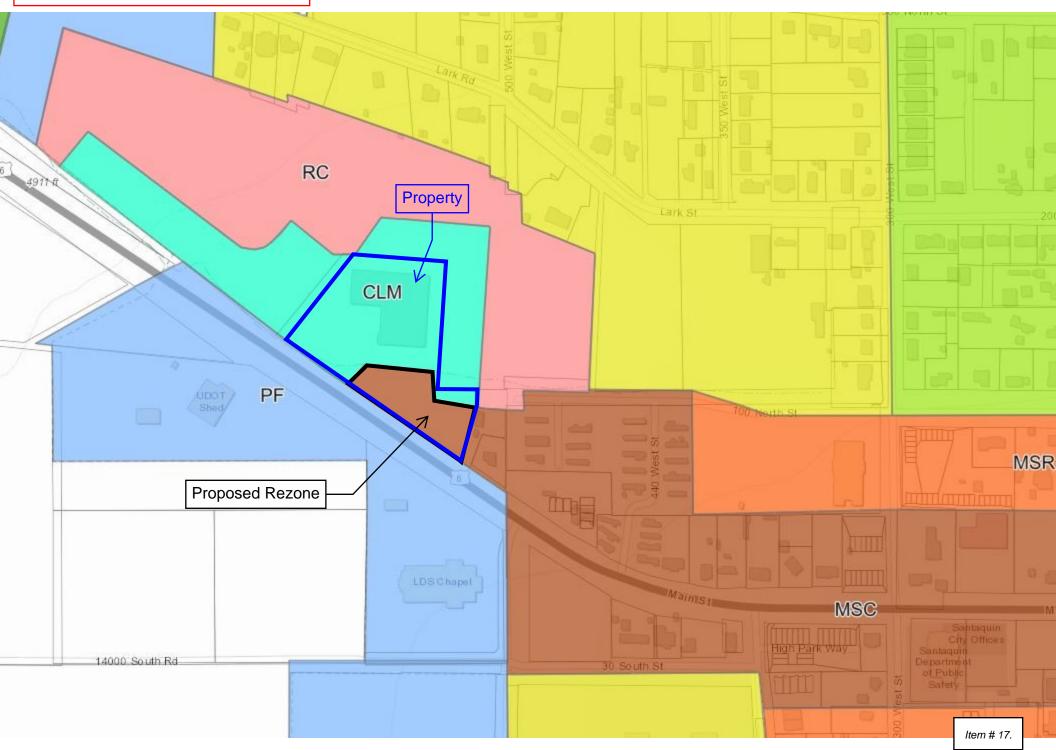

The motion passed.

**Recommended motion:** "Motion to approve/deny Ordinance No. 12-03-2023, an ordinance amending the zoning map of Santaquin City, more specifically, approving the rezoning of approximately 1.54 acres from the Main Street Commercial (MSC) District within the Main Street Business Districts Zone to the Commercial Light Manufacturing (CLM) Zone, providing severability and an effective date for the ordinance."

Attachment 1: Zoning and Location Map

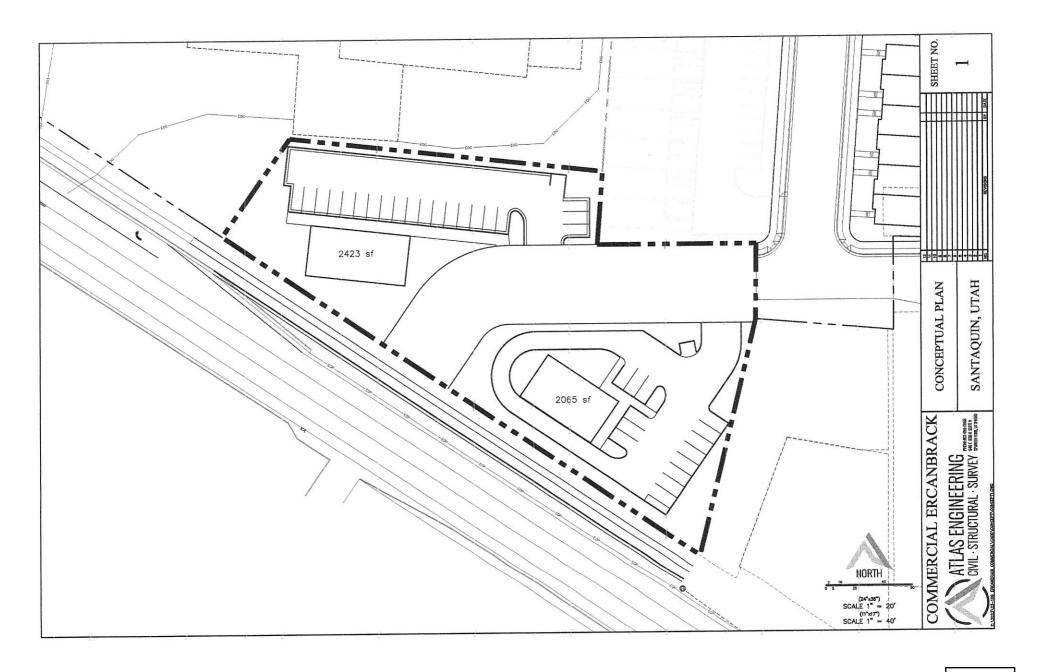

Planning Commission,

The reason I would like to rezone this section is so that I can have all my property, which is held by W M Ercanbrack Co., Inc. to be all as one CLM zone. This will be beneficial for your staff, and my engineering when it comes to developing the whole piece of property, which in turn benefits the city.

Thank you for your consideration,

Randall Ercanbrack
