

**Saxman
CARES Act Funding Committee
Meeting
September 10, 2020
4:00 PM**

AGENDA

Call to Order

Roll Call

Public Comment

Consideration of the Agenda

Old Business

1. Brief report on CARES Act expenditures

The City Administrator will report on the current progress of the Seaport security improvements as well as a brief accounting of current CARES Act expenditures.

2. Legislative Priority List - KGB Consortium

Background: The City Council should discuss options for the Legislative Priority List. Last year the City of Saxman had the bulk water fill station with associative paving as #2 on the joint list. The PW and WTO vehicles were also on the list, however the city has already fulfilled that need. The bulk water fill station would be a good project for the CDBG grant. The CDBG grant is not enough for a new fire station, however legislative money might be a good use of the state funds for a new fire station.

New Business

3. Utility/Rental/Mortgage Grant

Background: The City of Ketchikan and the Borough are planning on administering funds for rental assistance through December. Estimates are that one or both programs will run out of money before then. Staff is requesting a recommendation to either plan for the City of Saxman to continue through December, which will mean asking the borough for an additional amount above the Assemblies original allotment, or ask the borough to take on City of Saxman residents if COS runs out of money prior to December, or
