Background: On December 18th a resident attempted to email a grant application for Decembers grant. There was no attachment, however the email was submitted after the deadline of the 14th. There were 2 applications that were accepted and approved on the 15th due to a delay in mail delivery. The grant applications were mailed with the Water and Sewer billing on the 1st. There were 2 other applications that were denied due to missing the deadline and the CARES Act account being out of money.
