REGULATORY REQUIREMENTS

**Sidney Subdivision Regulations
Chapter 5A**

1. Information to be Considered

The governing body's decision to approve, conditionally approve, or deny a proposed preliminary plat application shall be based on review of the application, preliminary plat, applicable environmental assessment, public hearing and comment, planning board recommendation, staff report, and other information submitted or prepared in the review of the application. As per [76-3- 608\(10\), MCA](#), findings of fact by the governing body concerning whether the development of the proposed subdivision meets the requirements of these regulations and the MSPA must be based on the record as a whole.

The necessary and required information for the City Council to approve, conditionally approve, or deny the preliminary plat application has been submitted for public review.

- ✓ The application was submitted for public review on February 19, 2025.
- ✓ Element Review identified deficiency which was corrected on February 26, 2025
- ✓ Sufficiency Review was completed on February 27, 2025.
- ✓ The review timeline for Minor Subdivisions is 35 working days. The review timeline for this project expires on April 17, 2025.
- ✓ The project has been scheduled for consideration and public comments at the March 17, 2025 City Council meeting.
- ✓ The developer requested time to consider the proposed mitigations related to water and sewer main extensions. The project was Tabled to the April 7, 2025 meeting and could be Tabled further if the developer does not respond to the Staff recommended modifications to the conditions.

As an Expedited Subsequent Minor Subdivision of a Tract of Record, the city may require parkland dedication if the intended use is residential, the preparation of a Summary of Probable Impacts, and hold a formal public hearing, with comment limited to compliance with Zoning, and the availability of public utilities. The application includes a summary of probable impacts addressing the review criteria found in §76-3-608 MCA.

Proposed Mitigations:

- None

2. Review Criteria

The basis for the governing body's decision to approve, conditionally approve, or deny the proposed subdivision shall be whether the subdivision meets the requirements of the MSPA and these regulations. The findings of fact shall include an evaluation of the following criteria.

a) **Compliance with These Regulations**

The review is based on the subdivision regulations in place at the time the application is determined to contain sufficient information for review. Subdivisions that do not comply with the following standards shall be denied, unless the requirement is made a condition of approval, or a variance is granted.

- i. Design Standards – Compliance with provisions of the design standards in Chapter VII is required.
- ii. Special Provisions for Condominiums, Townhouses, Townhomes, and RV and Mobile Home Parks - Condominiums, townhouses, townhomes, and RV and mobile home parks shall meet the additional design standards and requirements in Chapter III and as referenced in other chapters for these types of subdivisions.
- iii. Compliance with Zoning – All subdivisions must demonstrate they are designed to comply with applicable zoning.
- iv. Compliance with Other Regulations – All subdivisions shall demonstrate compliance with other applicable regulations including ARMs for sanitation and water supply, floodplain regulations, etc.
- v. Conformance with Adopted Plans – Subdivisions must substantially comply with adopted plans such as a growth policy, transportation plan, or community wildfire protection plan. Because plans are not regulatory, no variance for non-conformance is required, nor can denial or a condition of approval be based solely on plan conformance.

b) **Compliance with the Subdivision Review Procedure ([76-3-608\(3\)\(b\)\(iii\), MCA](#))**

All preliminary plat applications shall be reviewed in compliance with the procedures established in these regulations and the MSPA. The record shall demonstrate the review processes and timeframes in Chapter IV were followed. All conditional approvals shall include a timeframe for final plat filing.

c) **Compliance with Survey Requirements ([76-3-608\(3\)\(b\)\(i\), MCA](#))**

The preliminary plat shall comply with the survey requirements in Part 4 of the MSPA.

d) **Provision of Legal and Physical Access ([76-3-608\(3\)\(d\), MCA](#))**

All preliminary plat applications shall demonstrate how legal and physical access is to be provided to each parcel within the proposed subdivision and the required notation of that access on the applicable plat and any instrument of transfer concerning the parcel.

e) **Provision of Utility Easements ([76-3-608\(c\), MCA](#))**

The preliminary plat application shall provide easements within and to the proposed subdivision for the location and installation of any planned utilities.

- f) Impacts to Agriculture, Agriculture Water User Facilities, Local Services, the Natural Environment, Wildlife, Wildlife Habitat, and Public Health and Safety ([76-3-608\(3\)\(a\), MCA](#)) The governing body shall identify any impacts it determines to be potentially significant and adverse to agriculture, agricultural water user facilities, local services, the natural environment, wildlife, wildlife habitat, and public health and safety. The criteria for determining significant adverse impacts are the criteria adopted in the City of Sidney Growth Policy as required by [76-1-601\(3\)\(h\), MCA](#).
- ✓ The proposed subdivision is consistent with the Sidney Zoning Regulations.
- ✓ The proposed subdivision is consistent with the B-2 Zoning assigned to the property.
- ✓ The proposed uses of each lot in the subdivision is consistent with the B-2 Zoning assigned to the property.
 - Proposed Mitigation: If the uses of the property are residential, a parkland dedication or cash-in-lieu payment equal to 0.03 acres per dwelling unit. Commercial uses are exempt from the dedication of parkland.
- ✓ No additional public infrastructure is proposed to develop the proposed subdivision.
- ✓ The proposed subdivision does not require any variance to the adopted subdivision regulations.
- ✓ The proposed subdivision is consistent with the Sidney Growth Policy.
- ✓ The proposed subdivision is served by City water and sewer. With main extensions being advised to the northern most portion of the property. The developer has objected to the requirement to extend the water mains on 14th Ave. This will limit the location of structures on Lot 2A to comply with the requirements that buildings be located within the prescribed distance to an existing fire hydrant.
 - Proposed Mitigation: The provision of water and sewer for the lots in the subdivision including required main extensions shall be reviewed and approved by the Montana Department of Environmental Quality.
- ✓ The Sidney Public Works Department has submitted a 'Will Serve Letter' for the provision of water, sewer, and solid waste services. If each lot in the subdivision is connected to City Services an MFE could be approved.
- ✓ Lot 2A has access to the water main in 4th Street NW. However a water main does not exist on 14th Ave and potential development on Lot 2A may be limited due to separation distance limitations from fire hydrants. requirements
 - Proposed Mitigation: The developer shall comply with all City of Sidney Department of Public Works requirements with provision of water, sewer, or solid waste services to the lots in the subdivision.
- ✓ The subdivision is subject to review as the Expedited Subsequent Minor Subdivision of a tract of record within the City of Sidney. All of the rights and exceptions associated with a Expedited Subdivision have been applied to the project.
- ✓ The preliminary plat appears to comply with the survey requirements of State Law and the Sidney Subdivision Regulations.
- ✓ Each lot has both legal and physical access to the public road infrastructure.
- ✓ All taxes due and levied must be paid in full prior to filing the Final Plat.
- ✓ Any liens and encumbrances against the property must be paid or a consent to platting certificate will need to accompany the Final Plat application.
 - Proposed Mitigation: An updated Title Commitment, not less than 30-days old, at the time of Final Plat application shall be submitted along with the Final Plat. Consent to Plats for each lien holder or owner, who is not a signatory on the Plat, must be submitted with the Final Plat.
- ✓ The preliminary plat shows the necessary public and private utility easements.
- ✓ The subdivision application includes a summary of probable impacts to the subdivision review criteria found in 76-3-608. The summary report does not include any adverse or unacceptable impacts, and is by reference incorporated into this report.

- ✓ The subdivision is exempt from the preparation of an Environmental Assessment as an Expedited Subdivision.

- Proposed Mitigations:

- The sewer main on 4th Street & 14th Avenue shall be required to be extended north to the furthest extents of the Homestead Subdivision alongside 14th Ave. NW.
- Water/fire service will be extended to lot 2A and may restrict future building permits within this area depending on the type of building(s) installed. See City Code 3-1-20 paragraph C.
Parkland dedication will need to be addressed at the time of building permit applications if Lot 2A is developed with residential structures. 76-3-621 spells out the parkland requirements.

3. Limitations

- a) Prohibition on Requiring Capital Facilities for Education ([76-3-510, MCA](#))

Although the governing body may require the subdivider to pay or guarantee payments for part or all of the costs of extending capital facilities related to public health and safety, the costs of constructing or extending capital facilities related to education may not be imposed on the subdivider.

- b) Restrictions on Conditional Approval or Denial for Water and Sanitation ([76-3-608\(6\), MCA](#))

The governing body may conditionally approve or deny a proposed subdivision as a result of the water and sanitation information provided in the preliminary plat application or on public comment related to the provided sanitation information only if the conditional approval or denial is based on existing subdivision, zoning, or other regulations that the governing body has the authority to enforce.

- c) Limitation on Waivers of the Right to Protest Improvement Districts ([76-3-608\(7\), MCA](#))

The governing body may not require as a condition of subdivision approval that a property owner waive a right to protest the creation of a special improvement district or a rural improvement district for capital improvement projects that does not identify the specific capital improvements for which protest is being waived. A waiver of a right to protest may not be valid for a time period longer than 20 years after the date the final subdivision plat is filed with the county clerk and recorder.

- d) Restriction on Encroachment onto Adjoining Private Property ([76-3-608\(8\), MCA](#))

The governing body may not approve a proposed subdivision if any of the features and improvements of the subdivision encroach onto adjoining private property in a manner that is not otherwise provided for under the Montana Sanitation in Subdivisions Act or these regulations or if the well isolation zone of any proposed well to be drilled for the proposed subdivision encroaches onto adjoining private property unless the owner of the private property authorizes the encroachment. For the purposes of this section, "well isolation zone" has the meaning provided in 76-4-102, MCA.

- e) No Denial Solely for Education or Wildland Urban Interface ([76-3-608\(1\), MCA](#))

The governing body may not deny a proposed subdivision solely for impacts to educational services or designation or based solely on parcels within the subdivision having been designated as urban-wildland interface parcels under 76-13-145, MCA.

- f) No Delay or Denial Based on Failure of Public Utility or Agency to Comment (76-3-504(1)(i), MCA)

The governing body may not delay a decision on the preliminary plat application past the review

period time limits provided in these regulations and may not deny a preliminary plat application due to failure of any public utility or agency to provide comments on the application.

None of the proposed mitigations or proposed conditions of approval violate the limitations on the review and approval, conditional or otherwise imposed by State Law or the Sidney Subdivision Regulations.

CONCLUSION:

The necessary public infrastructure exists and is available to the resulting lot. As such, the project, subject to the imposition of conditions is approvable by the Sidney City Council.

(a) The United States Department of Treasury has promulgated final regulations governing the use of proceeds of tax-exempt bonds, all or a portion of which are to be used to reimburse the City for project expenditures paid by the City prior to the date of issuance of such bonds. Those regulations (Treasury Regulations, Section 1.150-2) (the "Regulations") require that the City adopt a statement of official intent to reimburse an original expenditure not later than 60 days after payment of the original expenditure. The Regulations also generally require that the bonds be issued and the reimbursement allocation be made from the proceeds of the bonds within 18 months (or three years, if the reimbursement bond issue qualifies for the "small issuer" exception from the arbitrage rebate requirement) after the later of (i) the date the expenditure is paid or (ii) the date the project is placed in service or abandoned, but (unless the issue qualifies for the "small issuer" exception from the arbitrage rebate requirement) in no event more than three years after the date the expenditure is paid. The Regulations generally permit reimbursement of capital expenditures and costs of issuance of the bonds.

(b) The City desires to comply with requirements of the Regulations with respect to certain projects hereinafter identified.

2. Official Intent Declaration.

(a) The City proposes to undertake the acquisition, construction and installation of various improvements to the City's water system, including water lines, a new water tower, restoration of the water tower site, and related improvements and costs (the "Project").

(b) Other than (i) expenditures to be paid or reimbursed from sources other than the Bonds (as hereinafter defined), (ii) expenditures permitted to be reimbursed under the transitional provision contained in Section 1.150-2(j)(2) of the Regulations, (iii) expenditures constituting preliminary expenditures within the meaning of Section 1.150-2(f)(2) of the Regulations, or (iv) expenditures in a "de minimus" amount (as defined in Section 1.150-2(f)(1) of the Regulations), no expenditures for the Project have heretofore been paid by the City and no expenditures will be paid by the City until after the date of this Resolution.

(b) The City reasonably expects to reimburse the expenditures made for costs of the Project out of the proceeds of debt evidenced by one or more series of bonds or notes in an estimated aggregate principal amount of approximately \$7,000,000 (collectively, the "Bonds")

after the date of payment of all or a portion of the costs of the Project. All reimbursed expenditures shall be capital expenditures, a cost of issuance of the Bonds or other expenditures eligible for reimbursement under Section 1.150-2(d)(3) of the Regulations.

3. Budgetary Matters. As of the date hereof, there are no City funds reserved, allocated on a long-term basis or otherwise set aside (or reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside) to provide permanent financing for the expenditures related to the Project, other than pursuant to the issuance of the Bonds. The statement of intent contained in this resolution, therefore, is determined to be consistent with the City's budgetary and financial circumstances as they exist or are reasonably foreseeable on the date hereof.

4. Reimbursement Allocations. The City Clerk-Treasurer shall be responsible for making the "reimbursement allocations" described in the Regulations, being generally the transfer of the appropriate amount of proceeds of the Bonds to reimburse the source of temporary financing used by the City to make prior payment of the costs of the Project. Each allocation shall be evidenced by an entry on the official books and records of the City maintained for the Bonds or the Project and shall specifically identify the actual original expenditure being reimbursed.

Adopted this 7th day of April, 2025.

MASTER AGREEMENT

Notice: This Agreement contains provisions relating to indemnification, release of liability and allocation of risk. By executing this Agreement, Contractor agrees to be bound by all of those provisions.

Effective Date: _____, 2025

BETWEEN:

City of Sidney, a municipal corporation of the State of Montana, whose address is 115 2nd Street SE, Sidney, Montana, 59270,

(“Owner”)

- and -

B & B Builders Inc., whose address is 108 2nd St NE, Sidney, Montana, 59270

(“Contractor”)

Owner and Contractor may hereinafter sometimes be referred to individually as a “Party” and collectively as the “Parties”.

WHEREAS the Parties wish to provide the general terms and conditions under which Contractor will provide Services to Owner from time to time;

NOW THEREFORE the Parties agree as follows:

ARTICLE 1 MASTER AGREEMENT TERM AND PARTY REPRESENTATIVES

§ 1.1 Owner issued a Request for Qualifications to contract with multiple construction firms under continuing services contracts as defined therein. Contractor agrees to provide professional services to Owner for Projects as determined by and selected by Owner, upon terms and conditions set forth herein and upon mutual agreement and execution of Task Orders for each Project. Each Task Order for each Project, upon execution, shall automatically be incorporated fully herein in this Master Agreement. All the terms and conditions of this Master Agreement shall fully apply to each Task Order. Each Project budget for each Task Order will vary and will be stated in each Task Order. Contractor recognizes that this Master Agreement is not exclusive, and that Owner has and/or may contract with more than one construction firm under the terms of similar continuing contracts and will equitably rotate and divide the Projects based upon Owner's current volume of work assigned, the dollar value of work assigned, the particular specialties of the contractors and their subcontractors, and the ability of the contractors to perform the services within Owner's needed schedule and other requirements.

The Scope of Work and Services are generally described in **Exhibit B**.

The ability to perform a Task Order for each Project under this Agreement is limited by HB 355. If the Task Order is related to a Project that exceeds \$_____ in estimated construction costs, then those construction services will be advertised and procured separately under HB 355 and not performed under this or any other continuing services contract.

If a Task Order includes as an attachment a proposal from Contractor, only the scope of services portions of such proposal shall be part of the Task Order and any terms and conditions included in such proposal shall not be part of the Task Order or this Master Agreement and such proposal terms and conditions shall be considered null and void.

Owner retains the right to reduce the scope of any portion of the Scope of Services of any Task Order. In such event, Owner shall be entitled to proportionally reduce the Contractor's compensation.

Contractor has represented, upon which Owner has relied, that Contractor is properly qualified, licensed, and competent to perform such construction services.

Contractor recognizes that this Master Agreement is not exclusive, and that Owner has and/or may contract with more than one construction firm under the terms of similar continuing contracts, and Contractor does not object.

§ 1.2 Term. This Master Agreement shall be effective for five (5) years after the date first written above ("Date of this Master Agreement") and may be extended upon mutual written agreement of both parties for two (2) additional one (1) year terms ("Term"). This Master Agreement shall terminate at the expiration of the five (5) year initial Term and at the end of each one (1) year extension Term if not extended. In the event the Term expires and is not renewed, or is terminated as provided herein, if Contractor has not completed the services under a Work Order, then the Term will remain in effect through the date of completion of the services in the Work Order, but no new requests for proposals and no new Work Orders shall be issued.

§ 1.3 This Master Agreement shall apply to all Work Orders agreed to by the parties within the term of this Master Agreement until completion of the Work Order. In the event of a conflict between terms and conditions of this Master Agreement and a Work Order, the terms of the Work Order shall take precedence for the Work provided pursuant to the Work Order.

§ 1.4 The Owner identifies the following representative authorized to act on the Owner's behalf with respect to this Master Agreement:

Jeff Hintz
(406) 433-2809

§ 1.4.1 In each Work Order, the Owner will identify a representative authorized to act on the Owner's behalf with respect to the Work Order.

§ 1.5 The Contractor identifies the following representative authorized to act on the Contractor's behalf with respect to this Master Agreement:

Sean Suisse, President
(406) 482-4401

§ 1.5.1 In each Work Order, the Contractor will identify a representative authorized to act on behalf of the Contractor with respect to the Work Order.

ARTICLE 2 WORK ORDERS

§ 2.1 The Owner is not required to issue any Work Orders under this Master Agreement.

§ 2.2 The Contractor may decline to accept any Work Order issued by the Owner.

§ 2.3 The Contractor shall execute the Work set forth in each agreed upon Work Order, attached as **Exhibit C**, or such other document as the Owner and Contractor may mutually agree upon. Each Work Order shall state the name, location, and detailed description of the Project; identify the Architect; state the Contract Time; state the Contract Sum; describe the Work; and enumerate the Contract Documents.

§ 2.4 The Owner shall make the Contract Documents available to the Contractor prior to execution of the Work Order, and thereafter, upon request. The Owner may charge the Contractor for the reasonable cost to reproduce the Contract Documents provided to the Contractor.

ARTICLE 3 PAYMENTS

§ 3.1 Contract Sum and Progress Payments

§ 3.1.1 Each Work Order shall include a Contract Sum. The Owner shall pay the Contractor the Contract Sum in current funds in accordance with each individual Contract. Where the Contract Sum is based on the Cost of the Work under Section 3.3 or 3.4 of the Work Order, the Cost of the Work is defined in **Exhibit A**, Determination of the Cost of the Work.

§ 3.1.2 Applications for Payment will be submitted individually for each Contract. Travel and per diem charges shall not exceed the limits as set forth in Montana Code Annotated.

§ 3.1.3 Based upon Applications for Payment for individual Contracts submitted to the Architect by the Contractor, and Certificates for Payment issued by the Architect, the Owner shall make progress payments on account of the Contract Sum to the Contractor as provided below and elsewhere in the Contract Documents.

§ 3.1.4 The period covered by each Application for Payment shall be one calendar month ending on the last day of the month, or as set forth in the Work Order.

§ 3.1.5 Provided that an Application for Payment is received by the Architect not later than the 25th day of the month, the Owner shall make payment of the certified amount to the Contractor not later than the 20th day of the next month. If an Application for Payment is received by the Architect after the date fixed above, payment shall be made by the Owner not later than twenty-

five (25) days after the Architect receives the Application for Payment.

§ 3.1.6 For each progress payment made prior to Substantial Completion of the Work, the Owner may withhold retainage from the payment otherwise due as follows:

5% retainage shall be withheld. Upon Substantial Completion of the entire Work of each Work Order, all retainage shall be released except 150% of the value of punch list Work, incomplete Work, and defective Work shall be withheld.

§ 3.1.7 Payments due and unpaid under the Contract shall bear interest from the date payment is due at the rate stated below, or in the absence thereof, at the legal rate prevailing from time to time at the place where the Project is located.

§ 3.2 Final Payment

§ 3.2.1 Contractor shall submit its final pay request within 45 days of Final Completion of each Work Order. Final payment for individual Contracts, constituting the entire unpaid balance of the Contract Sum, less 150% of the value of punch list Work, shall be made by the Owner to the Contractor when:

1. the Contractor has fully performed the Work except for the Contractor's responsibility to correct Work as provided in Section 16.2, and to satisfy other requirements, if any, which extend beyond final payment;
2. the Contractor has submitted a final accounting for the Cost of the Work, where payment is on the basis of the Cost of the Work with or without a Guaranteed Maximum Price;
3. the Contractor has delivered to the Owner a Contractor's Final Affidavit pursuant to Montana Law and a final Certificate for Payment has been issued by the Architect in accordance with Section 13.7.1.
4. Contractor has delivered to Owner a certification that the Work does not contain any asbestos; and
5. Contractor has delivered to Owner a certification from the Building Department that the building permit has been finalized and closed out.

§ 3.2.2 The Owner's final payment to the Contractor shall be made no later than 30 days after the issuance of the Architect's final Certificate for Payment, but in no event until all the conditions of 3.2.1 have been met.

ARTICLE 4 DISPUTE RESOLUTION

§ 4.1 Binding Dispute Resolution

For any claim subject to, but not resolved by, mediation pursuant to Section 19.5, the method of binding dispute resolution shall be as follows:

- ☐ Arbitration pursuant to Section 19.6 of this Master Agreement
- ☒ Litigation in a court of competent jurisdiction
- ☐ Other: *(Specify)*

If the Owner and Contractor do not select a method of binding dispute resolution, or do not subsequently agree in writing to a binding dispute resolution method other than litigation, claims will be resolved in a court of competent jurisdiction.

ARTICLE 5 GENERAL PROVISIONS

§ 5.1 The Work

The term "Work" means the construction and services required by the Contract Documents enumerated in a Work Order, whether completed or partially completed, and includes all other labor, materials, equipment and services provided or to be provided by the Contractor to fulfill the Contractor's obligations under the Work Order and related Contract. The Work may constitute the whole or a part of the Project identified in a particular Work Order.

§ 5.2 The Contract Documents

The Contract Documents are enumerated in each Work Order and consist of this Master Agreement; the Work Order executed by the Owner and Contractor (including, if applicable, Supplementary and other Conditions applicable to the Work Order); all Drawings, Specifications, and Addenda issued in connection with the Work Order; other documents listed in the Work Order; and Modifications issued after execution of the Work Order. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Construction Change Directive or (4) a written order for a minor change in the Work issued by the Architect. The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Contractor shall be required to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the indicated results.

§ 5.3 The Contract

The Contract Documents for each Work Order form a separate Contract for construction of the Work ("The Contract"). The Contract represents the entire and integrated agreement between the parties hereto for construction of the Work and supersedes prior negotiations, representations or agreements, either written or oral. A Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind between any persons or entities other than the Owner and the Contractor.

§ 5.4 Instruments of Service

Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Architect and the Architect's consultants under their respective professional services agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, digital models, and other similar materials.

§ 5.5 Ownership and Use of Drawings, Specifications and Other Instruments of Service

§ 5.5.1 Drawings, specifications, Instruments of Service and other documents including those in electronic form, prepared by the Architect or Contractor and furnished for the Project are the

property of Owner. The Owner shall retain all common law, statutory and other reserved rights in their Instruments of Service, including copyrights. The Contractor, Subcontractors, Sub-subcontractors, and suppliers shall not own or claim a copyright in the Instruments of Service. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Owner's reserved rights.

§ 5.5.2 The Contractor, Subcontractors, Sub-subcontractors and suppliers are authorized to use and reproduce the Instruments of Service provided to them, subject to the protocols established pursuant to Sections 5.6 and 5.7, solely and exclusively for execution of the Work. All copies made under this authorization shall bear the copyright notice, if any, shown on the Instruments of Service. The Contractor, Subcontractors, Sub-subcontractors, and suppliers may not use the Instruments of Service on other projects or for additions to a Project outside the scope of a Contract without the specific written consent of the Owner.

§ 5.6 Digital Data Use and Transmission

The parties shall agree upon protocols governing the transmission and use of Instruments of Service or any other information or documentation in digital form.

§ 5.7 Building Information Models Use and Reliance

Any use of, or reliance on, all or a portion of a building information model without agreement to protocols governing the use of, and reliance on, the information contained in the model and without having those protocols set forth in Building Information Modeling and Digital Data Exhibit, and the requisite Project Building Information Modeling Protocol Form, shall be at the using or relying party's sole risk and without liability to the other party and its contractors or consultants, the authors of, or contributors to, the building information model, and each of their agents and employees.

§ 5.8 Severability

The invalidity of any provision of the Contract Documents shall not invalidate the Contract or its remaining provisions. If it is determined that any provision of the Contract Documents violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Contract Documents shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Contract.

§ 5.9 Notice

§ 5.9.1 Except as otherwise provided in Section 5.9.2, where the Contract Documents require one party to notify or give notice to the other party, such notice shall be provided in writing to the designated representative of the party to whom the notice is addressed and shall be deemed to have been duly served if delivered in person, by mail, by courier, or by electronic transmission in accordance with Building Information Modeling and Digital Data Exhibit, if completed, or as otherwise set forth below:

Electronic mail may be used by the parties using the email addresses provided by each party in this Master Agreement or in each Work Order.

§ 5.9.2 Notice of Claims shall be provided in writing and shall be deemed to have been duly served only if delivered to the designated representative of the party to whom the notice is addressed by certified or registered mail, or by courier providing proof of delivery.

§ 5.10 Relationship of the Parties

Contractor accepts the relationship of trust and confidence established by this Master Agreement and covenants with the Owner to cooperate with the Architect and exercise the Contractor's skill and judgment in furthering the interests of the Owner; to furnish efficient business administration and supervision; to furnish at all times an adequate supply of workers and materials; and to perform the Work in an expeditious and economical manner consistent with the Owner's interests. The Owner agrees to furnish and approve, in a timely manner, information required by the Contractor and to make payments to the Contractor in accordance with the requirements of the Contract Documents.

ARTICLE 6 OWNER

§ 6.1 Information and Services Required of the Owner

§ 6.1.1 The Owner shall furnish all necessary surveys and a legal description of sites referenced in a Work Order, if required.

§ 6.1.2 The Contractor shall be entitled to rely on the accuracy of information furnished by the Owner but shall exercise proper precautions relating to the safe performance of the Work.

§ 6.1.3 Except for permits and fees that are the responsibility of the Contractor under the Contract Documents, including those required under Section 7.6.1, the Owner shall secure and pay for other necessary approvals, easements, assessments and charges required for the construction, use or occupancy of permanent structures or for permanent changes in existing facilities.

§ 6.2 Owner's Right to Stop the Work

If the Contractor fails to correct Work which is not in accordance with the requirements of the Contract Documents, or repeatedly fails to carry out the Work in accordance with the Contract Documents, the Owner may issue a written order to the Contractor to stop the Work, or any portion thereof, until the cause for such order is eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity.

§ 6.3 Owner's Right to Carry Out the Work

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents, and fails within a ten-day period after receipt of notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to any other remedies the Owner may have, correct such default or neglect. Such action by the Owner and amounts charged to the Contractor are both subject to prior approval of the Architect and the Architect may, pursuant to Section 13.4.3, withhold or nullify a Certificate for Payment in whole or in part, to the extent reasonably necessary to

reimburse the Owner for the reasonable cost of correcting such deficiencies, including the Owner's expenses and compensation for the Architect's additional services made necessary by such default, neglect, or failure. If the Contractor disagrees with the actions of the Owner or the Architect, or the amounts claimed as costs to the Owner, the Contractor may file a Claim pursuant to Article 19.

ARTICLE 7 CONTRACTOR

§ 7.1 Review of Contract Documents and Field Conditions by Contractor

§ 7.1.1 Execution of a **Work** Order by the Contractor is a representation that the Contractor has visited the relevant site, become generally familiar with local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

§ 7.1.2 Because the Contract Documents are complementary, the Contractor shall, before starting each portion of the Work, carefully study and compare the various Contract Documents relative to that portion of the Work, as well as the information furnished by the Owner pursuant to Section 6.1.1, shall take field measurements of any existing conditions related to that portion of the Work and shall observe any conditions at the site affecting it. These obligations are for the purpose of facilitating coordination and construction by the Contractor and are not for the purpose of discovering errors, omissions, or inconsistencies in the Contract Documents; however, the Contractor shall promptly report to the Architect any errors, inconsistencies, or omissions discovered by or made known to the Contractor as a request for information in such form as the Architect may require. It is recognized that the Contractor's review is made in the Contractor's capacity as a contractor and not as a licensed design professional unless otherwise specifically provided in the Contract Documents.

§ 7.1.3 The Contractor is not required to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, but the Contractor shall promptly report to the Architect any nonconformity discovered by or made known to the Contractor as a request for information in such form as the Architect may require.

§ 7.2 Supervision and Construction Procedures

§ 7.2.1 The Contractor shall supervise and direct the Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures, and for coordinating all portions of the Work under a Contract, unless the Contract Documents give other specific instructions concerning these matters.

§ 7.2.2 The Contractor shall be responsible to the Owner for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the Work.

§ 7.3 Labor and Materials

§ 7.3.1 Unless otherwise provided in the Contract Documents, the Contractor shall provide and

pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

§ 7.3.2 The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

§ 7.3.3 The Contractor may make a substitution only with the consent of the Owner, after evaluation by the Architect and in accordance with a Modification.

§ 7.4 Warranty

The Contractor warrants to the Owner and Architect that materials and equipment furnished under the Contract will be of good quality and new unless the Contract Documents require or permit otherwise. For a period of one (1) year after the date of Substantial Completion (and longer if extended warranties are provided in the Contract Documents for certain materials, equipment, and installations), the Contractor further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation or normal wear and tear under normal usage. All other warranties required by the Contract Documents shall be issued in the name of the Owner, or shall be transferable to the Owner, and shall commence in accordance with Section 13.6.3.

§ 7.5 Taxes

The Contractor shall pay sales, consumer, use and other similar taxes that are legally enacted when bids are received or negotiations concluded for an individual Contract, whether or not yet effective or merely scheduled to go into effect.

§ 7.6 Permits, Fees, Notices, and Compliance with Laws

§ 7.6.1 Contractor shall secure and pay for the building permit as well as other permits, fees, licenses and inspections by government agencies necessary for proper execution and completion of the Work that are customarily secured after execution of a Contract and legally required at the time bids are received or negotiations concluded. Such permit fees are included in the Contract Sum.

§ 7.6.2 The Contractor shall comply with and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities applicable to performance of the Work. If the Contractor performs Work knowing it to be contrary to applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, the Contractor shall assume appropriate responsibility for such Work and shall bear the costs attributable to correction.

§ 7.7 Allowances

The Contractor shall include in the Contract Sum for each Work Order all allowances stated in the Contract Documents for that Work Order. The Owner shall select materials and equipment under allowances with reasonable promptness. Allowance amounts shall include the costs to the Contractor of materials and equipment delivered at the site and all required taxes, less applicable trade discounts. Contractor's costs for unloading and handling at the site, labor, installation, overhead, profit, and other expenses contemplated for stated allowance amounts shall be included in the Contract Sum but not in the allowance.

§ 7.8 Contractor's Construction Schedules

§ 7.8.1 The Contractor, promptly after executing a Work Order, shall submit for the Owner's and Architect's information a Contractor's construction schedule for the Work described in that Work Order. The schedule shall not exceed time limits current under the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the Work and Project, shall be related to the entire Project to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work.

§ 7.8.2 The Contractor shall perform the Work in general accordance with the most recent schedule submitted to the Owner and Architect.

§ 7.9 Submittals

§ 7.9.1 The Contractor shall review for compliance with the Contract Documents and submit to the Architect Shop Drawings, Product Data, Samples and similar submittals required by the Contract Documents in coordination with the Contractor's construction schedule and in such sequence as to allow the Architect reasonable time for review. By submitting Shop Drawings, Product Data, Samples and similar submittals, the Contractor represents to the Owner and Architect that the Contractor has (1) reviewed and approved them; (2) determined and verified materials, field measurements, and field construction criteria related thereto, or will do so; and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents. The Work shall be in accordance with approved submittals.

§ 7.9.2 Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents.

§ 7.9.3 The Contractor shall not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents or unless the Contractor needs to provide such services in order to carry out the Contractor's own responsibilities. If professional design services or certifications by a design professional are specifically required, the Owner and the Architect will specify the performance and design criteria that such services must satisfy. The Contractor shall cause such services or certifications to be provided by an appropriately licensed design professional. If no criteria are specified, the design shall comply with applicable codes and ordinances. Each Party shall be entitled to rely upon the information provided by the other Party. The Architect will review and approve or take other appropriate action on submittals for the limited purpose of checking for conformance with information provided and the design concept expressed in the Contract

Documents. The Architect's review of Shop Drawings, Product Data, Samples, and similar submittals shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. In performing such review, the Architect will approve, or take other appropriate action upon, the Contractor's Shop Drawings, Product Data, Samples, and similar submittals.

§ 7.10 Use of Site

The Contractor shall confine operations at the site(s) to areas permitted by applicable laws, statutes, ordinances, codes, rules and regulations, lawful orders of public authorities, and the Contract Documents and shall not unreasonably encumber the site(s) with materials or equipment.

§ 7.11 Cutting and Patching

The Contractor shall be responsible for cutting, fitting or patching required to complete the Work or to make its parts fit together properly.

§ 7.12 Cleaning Up

The Contractor shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under a Contract. At completion of the Work, the Contractor shall remove waste materials, rubbish, the Contractor's tools, construction equipment, machinery and surplus material from and about the Project.

§ 7.13 Access to Work

The Contractor shall provide the Owner and Architect access to the Work in preparation and progress wherever located.

§ 7.14 Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold the Owner and Architect harmless from loss on account thereof, but shall not be responsible for defense or loss when a particular design, process, or product of a particular manufacturer or manufacturers is required by the Contract Documents or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Owner or Architect. However, if an infringement of a copyright or patent is discovered by, or made known to, the Contractor, the Contractor shall be responsible for the loss unless the information is promptly furnished to the Architect.

§ 7.15 Indemnification

§ 7.15.1 Contractor shall indemnify and hold harmless the Owner from any and all liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentional wrongful conduct of the Contractor, its subcontractors of every tier, or its agents or employees in connection with providing the Work and services called for in this Master Agreement. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Section 7.15.1.

§ 7.15.2 In claims against any person or entity indemnified under this Section 7.15 by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation under Section 7.15.1 shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 8 ARCHITECT

§ 8.1 The Owner shall retain an Architect to perform the services enumerated in this Article 8 and as described elsewhere in this Master Agreement. If an Architect is not required by law, or otherwise not engaged on the Project, the Owner shall perform such services.

§ 8.2 The Architect listed on each Work Order will provide administration of the Contract as described in the Contract Documents and will be an Owner's representative during construction, until the date the Architect issues the final Certificate for Payment for the Contract. The Architect will have authority to act on behalf of the Owner only to the extent provided in the Contract Documents, unless otherwise modified in writing in accordance with other provisions of the Contract. However, any approvals, certificates, or decisions of the Architect are subject to the approval of Owner. At Owner's discretion, the duties of the Architect described herein may be performed by the Owner or the Owner's representative.

§ 8.3 Duties, responsibilities, and limitations of authority of the Architect as set forth in the Contract Documents shall not be restricted, modified, or extended without written consent of the Owner, Contractor, and Architect. Consent shall not be unreasonably withheld.

§ 8.4 The Architect will visit the site at intervals appropriate to the stage of the construction to become generally familiar with the progress and quality of the portion of the Work completed, and to determine in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Architect will not have control over, charge of, or responsibility for, the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities under the Contract Documents.

§ 8.5 On the basis of the site visits, the Architect will keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work. The Architect will not be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect will not have control over or charge of and will not be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or any other persons or entities performing portions of the Work.

§ 8.6 Based on the Architect's evaluations of the Work and of the Contractor's Applications for Payment, the Architect will review and certify the amounts due the Contractor and will issue Certificates for Payment in such amounts.

§ 8.7 The Architect has authority to reject Work that does not conform to the Contract Documents and to require inspection or testing of the Work.

§ 8.8 The Architect will review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents.

§ 8.9 The Architect will interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect will make initial decisions on all claims, disputes and other matters in question between the Owner and Contractor but will not be liable for results of any interpretations or decisions rendered in good faith.

§ 8.10 The Architect's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.

ARTICLE 9 SUBCONTRACTORS

§ 9.1 A Subcontractor is a person or entity who has a direct contract with the Contractor to perform a portion of the Work at a Project site.

§ 9.2 Unless otherwise stated in the Contract Documents, the Contractor, as soon as practicable after execution of a Work Order, shall notify the Owner and Architect of the Subcontractors or suppliers proposed for each of the principal portions of the Work. The Contractor shall not contract with any Subcontractor or supplier to whom the Owner or Architect has made reasonable written objection within ten days after receipt of the Contractor's list of Subcontractors and suppliers. If the proposed but rejected Subcontractor was reasonably capable of performing the Work, the Contract Sum and Contract Time shall be increased or decreased by the difference, if any, occasioned by such change, and an appropriate Change Order shall be issued before commencement of the substitute Subcontractor's Work. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

§ 9.3 Contracts between the Contractor and Subcontractors shall (1) require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by the terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities, including the responsibility for safety of the Subcontractor's Work, which the Contractor, by the Contract Documents, assumes toward the Owner and Architect, and (2) allow the Subcontractor the benefit of all rights, remedies and redress against the Contractor that the Contractor, by the Contract Documents, has against the Owner.

ARTICLE 10 CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

§ 10.1 The term "Separate Contractor(s)" shall mean other contractors retained by the Owner under separate agreements. The Owner reserves the right to perform construction or operations related to a Project with the Owner's own forces, and with Separate Contractors retained under Conditions of the Contract substantially similar to those of this Contract, including those provisions of the Conditions of the Contract related to insurance and waiver of subrogation.

§ 10.2 The Contractor shall afford the Owner and the Owner's separate contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's activities with theirs as required by the Contract Documents.

§ 10.3 The Owner shall be reimbursed by the Contractor for costs incurred by the Owner which are payable to a separate contractor because of delays, improperly timed activities or defective construction of the Contractor. The Owner shall be responsible to the Contractor for costs incurred by the Contractor because of delays, improperly timed activities, damage to the Work, or defective construction of a separate contractor.

ARTICLE 11 CHANGES IN THE WORK

§ 11.1 By appropriate Modification, changes in the Work may be accomplished after execution of a Work Order. The Owner, without invalidating the Contract, may order changes in the Work within the general scope of the Contract consisting of additions, deletions, or other revisions, with the Contract Sum and Contract Time being adjusted accordingly. Such changes in the Work shall be authorized by written Change Order signed by the Owner, Contractor, and Architect, or by written Construction Change Directive signed by the Owner and Architect. Upon issuance of the Change Order or Construction Change Directive, the Contractor shall proceed promptly with such changes in the Work, unless otherwise provided in the Change Order or Construction Change Directive.

§ 11.2 Adjustments in the Contract Sum and Contract Time resulting from a change in the Work shall be determined by mutual agreement of the parties or, in the case of a Construction Change Directive signed only by the Owner and Architect, by the Contractor's cost of labor, material, equipment, and reasonable overhead and profit as listed in Exhibit A, unless the parties agree on another method for determining the cost or credit. Pending final determination of the total cost of a Construction Change Directive, the Contractor may request payment for Work completed pursuant to the Construction Change Directive. The Architect will make an interim determination of the amount of payment due for purposes of certifying the Contractor's monthly Application for Payment. When the Owner and Contractor agree on adjustments to the Contract Sum and Contract Time arising from a Construction Change Directive, the Architect will prepare a Change Order.

§ 11.3 Subject to the Owner's written approval, the Architect will have authority to order minor changes in the Work not involving adjustment in the Contract Sum or extension of the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes shall be effected by written order and shall be binding on the Owner and Contractor. The Contractor shall

carry out such written orders promptly. If the Contractor believes that the proposed minor change in the Work will affect the Contract Sum or Contract Time, the Contractor shall notify the Architect and shall not proceed to implement the change in the Work.

§ 11.4 If concealed or unknown physical conditions are encountered at the site that differ materially from those indicated in the Contract Documents or from those conditions ordinarily found to exist, the Contract Sum and Contract Time shall be equitably adjusted as mutually agreed between the Owner and Contractor; provided that the Contractor provides notice to the Owner and Architect promptly and before conditions are disturbed.

§ 11.5 For Change Orders or Construction Change Directive Work, the amount for overhead and for profit added or deducted shall be a total of ten percent (10%) of the Cost of the Work that is added or deducted, respectively ("Contractor's Fee"). Cost of the Work is defined in Exhibit "A". Such Contractor's Fee includes all profit, overhead, general conditions costs, and insurance (but not additional bond costs, if applicable), except if a Change Order extends the Date of Substantial Completion, then Contractor's reasonable extended daily general conditions costs shall be added to the cost of the Change Order per §12.5 of the Master Agreement. Likewise, subcontractors shall not add general conditions costs, except that if the change includes an increase in the Contract Time, then extended daily general conditions costs may be added in accordance with §12.5 of the Master Agreement. However, fee shall not be reduced for deductive Change Orders arising as a result of the Sales Tax Savings Program of Article 21.12 of the Master Agreement, except fee on the amount of the sales tax saved shall be deducted.

1. For Change Order Work accomplished by the Contractor's own forces, acting in the role of a subcontractor, overhead and profit shall be a maximum of 10% of the Cost of the Work.
2. For Change Order Work accomplished by Subcontractors, Subcontractor's overhead and profit shall be a maximum of 10% of the Cost of the Work.
3. For each Subcontractor, for Work performed by that Subcontractor's sub-subcontractor, no overhead charges, but a 5% fee for overhead and profit on the amount due the sub-subcontractor shall be paid the Subcontractor.
4. For each Sub-subcontractor, for Work performed by that Sub-subcontractor, overhead and profit shall be a maximum of 10% of the Cost of the Work.
5. No further tiering of sub-subcontractors will be allowed mark up for fees, overhead, or profit.

ARTICLE 12 TIME

§ 12.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Work Order, the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

§ 12.2 Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

§ 12.3 The term "day" as used in the Contract Documents shall mean calendar day unless

otherwise specifically defined.

§ **12.4** The date of Substantial Completion is the date certified by the Architect in accordance with Section 13.6.3.

§ **12.5** If the Contractor is delayed at any time in the commencement or progress of the Work of any Work Order by changes ordered in the Work, by fire, acts of God, unusual, extraordinary adverse weather events not reasonably anticipatable, unavoidable casualties or any causes beyond the Contractor's control or responsibility, or by other causes which the Architect determines may justify delay, then the Contract Time shall be extended by Change Order for such reasonable time as the Architect may determine, subject to the provisions of Article 21; however, the Contract Sum shall not be increased, except for a per diem payment as described below. It is the express and bargained for intent of the parties that the risk of any monetary damages caused by any delays described in this Section or any other delays from any other cause are accepted and assumed entirely by Contractor, and in no event shall any claim relating thereto for an increase in the Contract Sum be made or recognized, except for the per diem payment as described below. Contractor's sole remedy for any delay, impact, disruption, or interruption caused by any of the reasons listed in this Section shall be an equitable extension of time to perform the Work for each day of such delay that impacts the critical path schedule of the Project that extends the Date of Substantial Completion, and a per diem payment not to exceed the Contractor's reasonable extended daily general conditions costs per day for each day of such delay that impacts the critical path schedule of the Project that extends the Date of Substantial Completion.

Contractor shall not make any other claim nor seek any other damages of any kind against Owner or Architect for any delays, impacts, disruptions, or interruptions of any kind. If a Contractor caused delay runs concurrent with such delays, Contractor shall not be entitled to any extension of time or per diem payment for the concurrent period of delay. Delays caused by labor disputes, delivery delays, and dispute resolution proceedings are considered within the Contractor's control and shall not be grounds for a delay claim. This Section does preclude recovery of damages for delay by Contractor under any other provisions of the Contract Documents.

Extensions of time will be granted only if the item, task, or other phase of construction delayed is critical to the Work and so indicated in the Contractor's Schedule.

Extensions of time due to unusual, extraordinary adverse weather events not reasonably anticipatable will be granted only because of such inclement weather occurring on a normal working day and preventing the execution of the major or critical item of construction ordinarily performed at the time. In addition, extensions of time for such unusual extraordinary adverse weather events not reasonably anticipatable will be considered only if such inclement weather exceeds by twice that normally recorded by the National Weather Bureau for the same month and location on a 20-year average basis.

ARTICLE 13 PAYMENTS AND COMPLETION

§ 13.1 Schedule of Values

§ 13.1.1 Where the Contract is based on a Stipulated Sum or the Cost of the Work with a Guaranteed Maximum Price pursuant to the Work Order, the Contractor shall submit a schedule of values to the Architect before the first Application for Payment, allocating the entire Stipulated Sum or Guaranteed Maximum Price to the various portions of the Work. The schedule of values shall be prepared in the form, and supported by the data to substantiate its accuracy required by the Architect. This schedule of values shall be used as a basis for reviewing the Contractor's Applications for Payment.

§ 13.1.2 The allocation of the Stipulated Sum or Guaranteed Maximum Price under this Section 13.1 shall not constitute a separate stipulated sum or guaranteed maximum price for each individual line item in the schedule of values.

§ 13.2 Control Estimate

§ 13.2.1 Where the Contract Sum is the Cost of the Work, plus the Contractor's Fee without a Guaranteed Maximum Price pursuant to the Work Order, the Contractor shall prepare and submit to the Owner a Control Estimate within 14 days of executing the Work Order. The Control Estimate shall include the estimated Cost of the Work plus the Contractor's Fee.

§ 13.2.2 The Control Estimate shall include:

1. the Contract Documents enumerated in the Work order, including all Modifications thereto;
2. a list of the assumptions made by the Contractor in the preparation of the Control Estimate to supplement the information provided by the Owner and contained in the Contract Documents;
3. a statement of the estimated Cost of the Work organized by trade categories or systems and the Contractor's Fee;
4. a project schedule upon which the Control Estimate is based, indicating proposed Subcontractors, activity sequences and durations, milestone dates for receipt and approval of pertinent information, schedule of shop drawings and samples, procurement and delivery of materials or equipment, the Owner's occupancy requirements, and the date of Substantial Completion; and
5. a list of any contingency amounts included in the Control Estimate for further development of design and construction.

§ 13.2.3 When the Control Estimate is acceptable to the Owner and Architect, the Owner shall acknowledge it in writing. The Owner's acceptance of the Control Estimate does not imply that the Control Estimate constitutes a Guaranteed Maximum Price.

§ 13.2.4 The Contractor shall develop and implement a detailed system of cost control that will provide the Owner and Architect with timely information as to the anticipated total Cost of the Work. The cost control system shall compare the Control Estimate with the actual cost for activities in progress and estimates for uncompleted tasks and proposed changes. This information shall be reported to the Owner, in writing, no later than the Contractor's first Application for Payment and shall be revised and submitted with each Application for Payment.

§ 13.2.5 The Owner shall authorize preparation of revisions to the Contract Documents that incorporate the agreed-upon assumptions contained in the Control Estimate. The Owner shall promptly furnish such revised Contract Documents to the Contractor. The Contractor shall notify the Owner and Architect of any inconsistencies between the Control Estimate and the revised Contract Documents.

§ 13.3 Applications for Payment

§ 13.3.1 Applications for Payment will be submitted individually for each Contract as set forth in this section 13.3.

§ 13.3.2 At least ten days before the date established for each progress payment, the Contractor shall submit to the Architect an itemized Application for Payment prepared in accordance with the schedule of values, if required under Section 13.1, for completed portions of the Work. The application shall be notarized, if required; be supported by all data substantiating the Contractor's right to payment that the Owner or Architect require; shall reflect retainage if provided for in the Contract Documents; and include any revised cost control information required by Section 13.2.4. Applications for Payment shall not include requests for payment for portions of the Work for which the Contractor does not intend to pay a Subcontractor or supplier, unless such Work has been performed by others whom the Contractor intends to pay.

§ 13.3.3 With each Application for Payment where the Contract Sum is based upon the Cost of the Work with a Guaranteed Maximum Price, the Contractor shall submit payrolls, petty cash accounts, receipted invoices or invoices with check vouchers attached, and any other evidence required by the Owner to demonstrate that cash disbursements already made by the Contractor on account of the Cost of the Work equal or exceed progress payments already received by the Contractor plus payrolls for the period covered by the present Application for Payment, less that portion of the progress payments attributable to the Contractor's Fee.

§ 13.3.4 Payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment stored, and protected from damage, off the site at a location agreed upon in writing.

§ 13.3.5 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims, security interests or other encumbrances adverse to the Owner's interests.

§ 13.4 Certificates for Payment

§ 13.4.1 The Architect will, within seven days after receipt of the Contractor's Application for Payment, either issue to the Owner a Certificate for Payment, with a copy to the Contractor, for such amount as the Architect determines is properly due, or notify the Contractor and Owner of the Architect's reasons for withholding certification in whole or in part as provided in Section

13.4.3. The Architect's Certificate of Payment is subject to the approval of the Owner.

§ **13.4.2** The issuance of a Certificate for Payment will constitute a representation by the Architect to the Owner, based on the Architect's evaluations of the Work and the data in the Application for Payment, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to correction of minor deviations from the Contract Documents prior to completion and to specific qualifications expressed by the Architect. However, the issuance of a Certificate for Payment will not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work; (2) reviewed construction means, methods, techniques, sequences or procedures; (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment; or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ **13.4.3** The Architect may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Architect's opinion the representations to the Owner required by Section 13.4.2 cannot be made. If the Architect is unable to certify payment in the amount of the Application, the Architect will notify the Contractor and Owner as provided in Section 13.4.1. If the Contractor and the Architect cannot agree on a revised amount, the Architect will promptly issue a Certificate for Payment for the amount for which the Architect is able to make such representations to the Owner. The Architect may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Architect's opinion to protect the Owner from loss for which the Contractor is responsible, including loss resulting from acts and omissions described in Section 7.2.2, because of

1. defective Work not remedied;
2. third-party claims filed or reasonable evidence indicating probable filing of such claims unless security acceptable to the Owner is provided by the Contractor;
3. failure of the Contractor to make payments properly to Subcontractors or suppliers for labor, materials or equipment;
4. reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;
5. damage to the Owner or a Separate Contractor;
6. reasonable evidence that the Work will not be completed within the Contract Time and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay; or
7. repeated failure to carry out the Work in accordance with the Contract Documents.

§ **13.4.5** The Architect may not withhold a Certificate for Payment in whole or in part, and the Owner shall not withhold payments to the Contractor, pertaining to one Contract to offset amounts in dispute under a separate Contract.

§ **13.4.6** When either party disputes the Architect's decision regarding a Certificate for Payment under Section 13.4.3, in whole or in part, that party may submit a Claim in accordance with Article 19.

§ **13.5 Progress Payments**

§ **13.5.1** The Contractor shall pay each Subcontractor, no later than seven days after receipt of payment from the Owner, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to sub-subcontractors in a similar manner. As a condition to each progress payment the Contractor shall have furnished Owner with a partial lien waiver and release signed by Contractor, conditioned upon payment for all Work performed that is included in the current Application for Payment in the form attached to the Contract or if not attached, in a form approved by Owner, and shall have furnished Owner with partial unconditional lien waivers and releases signed by all subcontractors, suppliers, persons or entities furnishing any labor or material, equipment, services, and materials for the Project and for all Work performed by same that is included in the respective prior Application for Payment. In addition, as a condition to each progress payment, in the event that any liens have been filed against the Project, the Contractor shall have either recorded a satisfaction of such lien or transferred the lien to a bond satisfactory to Owner within ten (10) days of notice from Owner.

§ **13.5.2** Neither the Owner nor Architect shall have an obligation to pay or see to the payment of money to a Subcontractor or supplier except as may otherwise be required by law.

§ **13.5.3** A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

§ **13.5.4** Provided the Owner has fulfilled its payment obligations under the Contract Documents, the Contractor shall defend and indemnify the Owner from all loss, liability, damage or expense, including reasonable attorney's fees and litigation expenses, arising out of any lien claim or other claim for payment by any Subcontractor or supplier of any tier. Upon receipt of notice of a lien claim or other claim for payment, the Owner shall notify the Contractor. If approved by the applicable court, when required, the Contractor may substitute a surety bond for the property against which the lien or other claim for payment has been asserted.

§ **13.6 Substantial Completion**

§ **13.6.1** Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work for its intended use.

§ **13.6.2** When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the Architect a comprehensive list of items to be completed or corrected prior to final payment. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

§ **13.6.3** Upon receipt of the Contractor's list, the Architect will make an inspection to determine whether the Work or designated portion thereof is substantially complete. When the Architect determines that the Work or designated portion thereof is substantially complete, the Architect will issue a Certificate of Substantial Completion which shall establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

§ **13.6.4** The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in the Certificate. Upon such acceptance and consent of surety, if any, the Owner shall make payment of retainage applying to the Work or designated portion thereof. Such payment shall be adjusted for Work that is incomplete or not in accordance with the requirements of the Contract Documents.

§ **13.7 Final Completion and Final Payment**

§ **13.7.1** Upon receipt of the Contractor's notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the Architect will promptly make such inspection and, when the Architect finds the Work acceptable under the Contract Documents and the Contract fully performed, the Architect will promptly issue a final Certificate for Payment stating that to the best of the Architect's knowledge, information and belief, and on the basis of the Architect's on-site visits and inspections, the Work has been completed in accordance with the Contract Documents and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Architect's final Certificate for Payment will constitute a further representation that conditions stated in Section 13.7.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

§ **13.7.2** Final payment shall not become due until the Contractor has delivered to the Owner a complete release of all liens arising out of the Contract or receipts in full covering all labor, materials and equipment for which a lien could be filed, or a bond satisfactory to the Owner to indemnify the Owner against such lien. If such lien remains unsatisfied after payments are made, the Contractor shall refund to the Owner all money that the Owner may be compelled to pay in discharging such lien, including costs and reasonable attorneys' fees.

§ **13.7.3** The making of final payment shall constitute a waiver of claims by the Owner except those arising from

1. liens, claims, security interests or encumbrances arising out of the Contract and unsettled;
2. failure of the Work to comply with the requirements of the Contract Documents;
3. terms of special warranties required by the Contract Documents; or
4. audits performed by the Owner, if permitted by the Contract Documents, after final payment

§ 13.7.4 Acceptance of final payment by the Contractor, a Subcontractor or supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of the final Application for Payment.

ARTICLE 14 PROTECTION OF PERSONS AND PROPERTY

§ 14.1 Safety Precautions and Programs

The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the performance of a Contract. The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to

1. employees on the Work and other persons who may be affected thereby;
2. the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody, or control of the Contractor or the Contractor's Subcontractors or Sub-subcontractors; and
3. other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation, or replacement in the course of construction.

The Contractor shall comply with and give notices required by applicable laws, statutes, ordinances, codes, rules, and regulations, and lawful orders of public authorities bearing on safety of persons and property and their protection from damage, injury, or loss. The Contractor shall promptly remedy damage and loss to property caused in whole or in part by the Contractor, a Subcontractor, a sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Sections 14.1.2 and 14.1.3, except for damage or loss attributable to acts or omissions of the Owner or Architect or by anyone for whose acts either of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Section 7.15.

§ 14.2 Hazardous Materials

§ 14.2.1 The Contractor is responsible for compliance with the requirements of the Contract Documents regarding hazardous materials or substances. If the Contractor encounters a hazardous material or substance not addressed in the Contract Documents, and if reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop Work in the affected area and notify the Owner and Architect of the condition. When the material or substance has been rendered harmless, Work in the affected area shall resume upon written agreement of the Owner and Contractor. By Change Order, the Contract Time shall be extended appropriately and the Contract Sum shall be increased in the amount of the Contractor's reasonable additional costs of shutdown, delay, and start-up.

ARTICLE 15 INSURANCE AND BONDS

§ 15.1 Contractor's Insurance

The Contractor shall purchase and maintain insurance coverage required in this Article 15 and as otherwise required for a specific project as set forth in a Work Order.

§ 15.1.1 The Contractor shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in this Section 15.1 or elsewhere in the Contract Documents. The Contractor shall purchase and maintain the insurance required by this Master Agreement from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located. The Contractor shall maintain the required insurance until the expiration of the period for correction of Work as set forth in Section 16.4, unless a different duration is stated below:

§ 15.1.2 Commercial General Liability insurance for the Project written on an occurrence form with policy limits of not less than One Million (\$1,000,000) each occurrence, Two Million (\$2,000,000) general aggregate, and Two Million (\$2,000,000) aggregate for products-completed operations hazard, providing coverage for claims including

1. damages because of bodily injury, sickness or disease, including occupational sickness or disease, and death of any person;
2. personal and advertising injury;
3. damages because of physical damage to or destruction of tangible property, including the loss of use of such property;
4. bodily injury or property damage arising out of completed operations; and
5. the Contractor's indemnity obligations under Section 7.15.

§ 15.1.3 Automobile Liability covering vehicles owned by the Contractor and non-owned vehicles used by the Contractor, with policy limits of not less than One Million (\$1,000,000) per accident, for bodily injury, death of any person, and property damage arising out of the ownership, maintenance, and use of those motor vehicles along with any other statutorily required automobile coverage.

§ 15.1.4 The Contractor may achieve the required limits and coverage for Commercial General Liability and Automobile Liability through a combination of primary and excess or umbrella liability insurance, provided such primary and excess or umbrella insurance policies result in the same or greater coverage as those required under Section 15.1.2 and 15.1.3, and in no event shall any excess or umbrella liability insurance provide narrower coverage than the primary policy. The excess policy shall not require the exhaustion of the underlying limits only through the actual payment by the underlying insurers.

§ 15.1.5 Workers' Compensation at statutory limits.

§ 15.1.6 Employers' Liability with policy limits not less than One Million (\$1,000,000) each accident, One Million (\$1,000,000) each employee, and One Million (\$1,000,000) policy limit.

§ 15.1.7 If the Contractor is required to furnish professional services as part of the Work, the Contractor shall procure Professional Liability insurance covering performance of the professional services, with policy limits of not less than One Million (\$1,000,000) per claim and One Million (\$1,000,000) in the aggregate.

§ **15.1.8** If the Work involves the transport, dissemination, use, or release of pollutants, the Contractor shall procure Pollution Liability insurance, with policy limits of not less than One Million (\$1,000,000) per claim and One Million (\$1,000,000) in the aggregate.

§ **15.1.9** Coverage under Sections 15.1.7 and 15.1.8 may be procured through a Combined Professional Liability and Pollution Liability insurance policy, with combined policy limits of not less than One Million (\$1,000,000) per claim and One Million (\$1,000,000) in the aggregate.

§ **15.1.10** The Contractor shall provide certificates of insurance acceptable to the Owner evidencing compliance with the requirements in this Section 15.1 at the following times: (1) prior to commencement of the Work; (2) upon renewal or replacement of each required policy of insurance; and (3) upon the Owner's written request. An additional certificate evidencing continuation of liability coverage, including coverage for completed operations, shall be submitted with the final Application for Payment and thereafter upon renewal or replacement of such coverage until the expiration of the period required by Section 15.1.1. The certificates will show the Owner as an additional insured on the Contractor's Commercial General Liability and excess or umbrella liability policy.

§ **15.1.11** The Contractor shall disclose to the Owner any deductible or self-insured retentions applicable to any insurance required to be provided by the Contractor.

§ **15.1.12** To the fullest extent permitted by law, the Contractor shall cause the commercial liability coverage required by this Section 15.1 to include (1) the Owner, the Architect, and the Architect's Consultants as additional insureds for claims caused in whole or in part by the Contractor's negligent acts or omissions during the Contractor's operations; and (2) the Owner as an additional insured for claims caused in whole or in part by the Contractor's negligent acts or omissions for which loss occurs during completed operations. The additional insured coverage shall be primary and non-contributory to any of the Owner's general liability insurance policies and shall apply to both ongoing and completed operations. To the extent commercially available, the additional insured coverage shall be no less than that provided by Insurance Services Office, Inc. (ISO) forms CG 20 10 07 04, CG 20 37 07 04, and, with respect to the Architect and the Architect's Consultants, CG 20 32 07 04. The Owner shall bear costs of tests, inspections, or approvals that do not become requirements until after bids are received or negotiations concluded. The Owner shall directly arrange and pay for tests, inspections, or approvals where building codes or applicable laws or regulations require.

§ 17.4 Neither the Owner's nor the Contractor's representatives, for this Master Agreement or for individual Work Orders, identified in accordance with sections 1.4 and 1.5, shall be changed without ten days' prior notice to the other party.

Upon request of the Contractor, the Owner shall furnish to the Contractor a detailed accounting of the costs incurred by the Owner in finishing the Work.

§ 18.1.2.3 When the Owner terminates a Contract for one of the reasons stated in Section 18.1.2.1, the Contractor shall not be entitled to receive further payment until the Work is finished.

§ 18.1.2.4 If the unpaid balance of the Contract Sum exceeds costs of finishing the Work, including compensation for the Architect's services and expenses made necessary thereby, and other damages incurred by the Owner and not expressly waived, such excess shall be paid to the Contractor. If such costs and damages exceed the unpaid balance, the Contractor shall pay the difference to the Owner. The amount to be paid to the Contractor or Owner, as the case may be, shall be certified by the Architect, upon application, and this obligation for payment shall survive termination of the Contract.

§ 18.1.2.5 In the event the Owner terminates this Contract for cause, but a Court later determines that the Owner did not have cause, then such termination shall be automatically deemed a termination for convenience pursuant to §18.1.3 below.

§18.1.3 Termination by the Owner for Convenience

§ 18.2 In the event of any termination, the Contractor shall upon Owner's request, assign any and all subcontracts and purchase orders to Owner. § 20.1 This Master Agreement represents the entire and integrated Master Agreement between the Owner and the Contractor and supersedes all prior negotiations, representations or agreements, either written or oral. This Master Agreement may be amended only by written instrument signed by both Owner and Contractor.

Contractor agrees to post in places available to all employees and applicants for employment, notices setting forth the policies of nondiscrimination.

§ **21.5 Conflicts.** This Master Agreement shall have precedence in the event of any conflicts between this Agreement and any of the Drawings, Specifications, Contractor's Proposal or Quotation Form, attachments, or other documents incorporated by reference to this Master Agreement.

§ **21.6 Use of Contingency.** If the Contract Sum breakdown for a Work Order includes a line item for contingency, such amount shall be for the Contractor's use to cover those costs considered reimbursable as the Cost of the Work but not included in a Change Order, with all unspent contingency sums accruing to the benefit of the Owner. Examples of acceptable use of contingency include: scope gaps, omitted items, trade contractors which fail to sign acceptable subcontracts, and unforeseen field conditions for which a change order is not authorized hereunder. Contingency funds shall not be used for expenses related to correcting defective work, legal expenses, or subcontractor defaults. The Owner agrees to indemnify and hold harmless the Contractor, its Subcontractors, vendors and suppliers from and against the payment of or liability for any sales or use taxes arising out of or resulting from the Owner purchasing materials for the Project under the Owner's sales tax

exempt status, and for which the Owner or the Contractor, Subcontractors, vendors or suppliers should become liable, but only upon the condition that Contractor has properly complied with the Owner's written sales tax program procedures.

Nothing hereby shall inure to the benefit of any third party for any purpose, including but not limited to anything which might allow claims otherwise barred by sovereign immunity or operation of law. Furthermore, all of Owner's obligations under this Agreement are limited to the payment of no more than the per person amount limitation and the aggregate contained in the Montana Statutes, even if the sovereign immunity limitations of that statute are not otherwise applicable to the matters as set forth herein.

In no event shall Owner be liable to Contractor for indirect, special, or consequential damages, including, but not limited to, loss of revenue, loss of profit, cost of capital, or loss of opportunity regardless of whether such liability arises out of contract, tort (including negligence), strict liability, or otherwise. Owner shall not assume any liability for the acts, omissions, or negligence of Contractor its agents, servants, employees, or subcontractors. In all instances, Contractor shall be responsible for any injury or property damage resulting from any activities conducted by Contractor.

§ 21.16 Contractor and the Contractor's Subcontractors shall, in all solicitations or advertisements for employees placed by them or on their behalf, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, sex or national origin.

§ 21.17 Prohibition against Contingent Fees. Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for Contractor any fee, commission, percentage, gift or other consideration contingent upon or resulting from the award or making of this Agreement.

 - ii. Upon request from Owner's custodian of public records, provide Owner with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the costs provided by law.
 - iii. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Agreement term and following completion of the Agreement if the Contractor does not transfer the records to Owner.
 - iv. Upon completion of the Agreement, transfer, at no cost, to Owner all public records in possession of Contractor or keep and maintain public records required by Owner to perform the service. If the Contractor transfers all public records to Owner upon completion of the Agreement, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Agreement, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to Owner, upon request from Owner's custodian of public records, in a format that is compatible with the information technology systems of Owner.
- b. If the Contractor fails to provide the public records to Owner within a reasonable time the Contractor may be subject to penalties under Montana law. Further, Owner may exercise any remedies at law or in equity, including, without limitation, the right to (i) impose sanctions and assess financial consequences, (ii) withhold and/or reduce payment, and (iii) terminate this Agreement in accordance with the terms hereof.

Contractor shall defend, at its own cost, indemnify, and hold harmless Owner, their officers, directors, and employees from and against all claims, damages, losses, and expenses, (including but not limited to fees and charges of attorneys or other professionals and court and arbitration or other dispute resolution costs) arising out of or resulting from Contractor's failure to comply with the terms of this Section.

City Council
Jessi Chamberlin, City Clerk

City of Sidney
115 2nd Street SE
Sidney, MT 59270

We are engaged to audit the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Sidney for the year ended June 30, 2024. Professional standards require that we provide you with the following information related to our audit. We would also appreciate the opportunity to meet with you to discuss this information further since a two-way dialogue can provide valuable information for the audit process.

Our Responsibility under U.S. Generally Accepted Auditing Standards, *Government Auditing Standards*, and *The Uniform Guidance*.

As stated in our engagement letter dated May 26, 2023, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

In planning and performing our audit, we will consider City of Sidney's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We will also consider internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance.

As part of obtaining reasonable assurance about whether City of Sidney's financial statements are free of material misstatements, we will perform tests of City of Sidney's compliance with certain provisions of laws, regulations, contracts, and grants. However, providing an opinion on compliance with those provisions is not an objective of our audit. Also, in accordance with the Uniform Guidance, we will examine, on a test basis, evidence about City of Sidney's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement applicable to each of its major federal programs for the purpose of expressing an opinion on City of Sidney's compliance with those requirements. While our audit will provide a reasonable basis for our opinion, it will not provide a legal determination on City of Sidney's compliance with those requirements.

Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

We are also responsible for communicating particular matters required by law, regulation, agreement, or other requirements applicable to the engagement.

We gave significant consideration to particular circumstances or relationships such as financial interests, business, or family relationships, or non-attest/non-audit services provided or expected to be provided, and have implemented safeguards to ensure independence.

Generally accepted accounting principles provide for certain required supplementary information (RSI) to supplement the basic financial statements. Our responsibility with respect to Budgetary Comparison Schedule and Budget-to-GAAP Reconciliation, Management's Discussion and Analysis (MD&A), Schedule of Changes in the Total OPEB Liability and Related Ratios, Schedule of Proportionate Share of the Net Pension Liability, and Schedule of Contributions, which supplement the basic financial statements, is to apply certain limited procedures in accordance with generally accepted auditing standards. However, the RSI will not be audited and, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance, we will not express an opinion or provide any assurance on the RSI.

We have been engaged to report on the *Schedule of Expenditures of Federal Awards*, which accompany the financial statements but is not RSI. Our responsibility for this supplementary information, as described by professional standards, is to evaluate the presentation of the supplementary information in relation to the financial statements as a whole and to report on whether the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Planned Scope, Timing of the Audit, and Other

An Audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested.

Our audit will include obtaining an understanding to the entity and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Material misstatements may result from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the entity or to the acts by management or employees acting on behalf of the entity. We will generally communicate our significant findings at the conclusion of the audit. However, some matters could be communicated sooner, particularly if significant difficulties are encountered during the audit where assistance is needed to overcome the difficulties or if the difficulties may lead to modified opinion. We will also communicate any internal control related matters that are required to be communicated under professional standards.

We expect to begin our audit on approximately April 10, 2025 and issue our report on approximately May 31, 2025. Robert Denning is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it.

This information is intended solely for the use of City Council and management of City of Sidney and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Jonathan Mahrt, CPA
