Staff determined the proposal complies with the Comprehensive Plan, RS zoning, and subdivision standards and recommended approval with conditions.

The applicant's representative, Matthew Afana, stated the project meets City requirements, including traffic, utility, sidewalk, and future connectivity standards.

Each Council member confirmed no ex parte contact or conflict of interest as pertained to this application.

The Mayor opened the public hearing for **Skyway Estates Preliminary Plat (PS26-0001)**.

Council entered deliberations. Councilor Schreiber raised concerns regarding future roadway connectivity, sidewalk completion, and potential safety impacts. Staff and legal counsel advised the application meets code requirements and that Council's decision must be based on the hearing record.

Councilor Ruehle moved to approve the preliminary plat with staff conditions, seconded by Councilor Aispuro. Councilor Schreiber moved to amend the motion to continue deliberations to August 19, 2026, meeting.

Motion made by Councilor Schreiber, Seconded by Councilor Tate.

Associate Planner Eric Brubaker presented the request for approval of the Ridley Village Court Final Planned Unit Development (PUD) and Preliminary Subdivision for 56 townhomes on a 4.1-acre site. Staff reported the project complies with City standards and prior conditions and recommended approval.

Applicant representatives, Aaron Qualls with SCJ Alliance and Kirk Rector with Affinity Real Estate Management reviewed project updates, including open space, pathways, traffic calming, setbacks, and parking. Council members asked questions regarding parking, HOA maintenance, and street widths.

The applicant concluded the presentation and remained available for questions.

Each Council member confirmed no ex parte contact or conflict of interest as pertained to this application.

The public hearing was opened. Mayor Grimm reviewed public decorum rules and explained testimony procedures, including that only in-person attendees could testify due to the quasi-judicial nature of the hearing.

No testimony was received in support of the project.

Neutral testimony was provided by city residents Curt Hagan and Phil Dommies, who expressed concerns regarding the location of the common area, setbacks, buffering between attached homes and existing single-family homes, traffic impacts, and future Highway 2 improvements. Executive Director Donna Griffin of Selkirks-Pend Oreille Transit (SPOT Bus) commented on transit access, safety, and coordination as development occurs.

Opposition testimony was provided by city resident Eileen Tschernenko, who raised concerns about reduced setbacks, impacts to existing residents, traffic, safety, and the relocation of the common area from Madison Street.

Mr. Qualls and Mr. Rector provided rebuttal, clarifying that the project consists of attached single-family homes, not multifamily housing. He explained that the common area location was changed based on Council direction, that safety features were incorporated into the design, and that traffic and impact fee studies had been completed. The applicant confirmed the project would contribute toward required improvements and that residents would not be responsible for the Highway 2 cost share.

Council members asked clarifying questions regarding impact fees, mailbox locations, and projected home prices. The applicant stated homes are expected to sell in the \$500,000–\$600,000 range and will be individually owned fee-simple homes.

The public hearing was closed.

The changes replace references to "non-metered" parking with "regulated parking" and remove outdated references to free 24-hour parking lots.

The Mayor stated the parking program had been developed over the past year and that the ordinance updates the code to reflect the adopted program.
