

SUSTAINABILITY COMMITTEE MEETING AGENDA

March 24, 2026 at 2:30 PM

Council Chambers at City Hall - 1123 W. Lake St. Sandpoint, Idaho

Call to Order

Roll Call

General Announcements/Comments

Meeting Minutes Approval

1. Approval of the Minutes from the Committee's February 24, 2026, Meeting - **action item**

Old/Unfinished Business

2. Report - Student Pilot Projects by Christine Moon
3. Report – Project 7B and Sandpoint Forward Resilience Plan by Makayla Sundquist
4. Discussion – Sustainability Checklist Matrix for protocol establishment
5. Report - 2026-2027 Budget Recommendations

New Business

6. Report – Downtown Revitalization Phase 3 by Diana Duke
7. Discussion – Yard Branch Pick up Program by Rachel McKinley - **action item**

Committee Roundtable

Adjourn

Public Participation Options and Information

Before the meeting, comment in writing: Email cityclerk@sandpointidaho.gov or deliver to City Hall.
Attend in person: See above for meeting location. Seating available on first-come, first-served basis.
Attend remotely: Register at <https://www.sandpointidaho.gov/meetings>.
After the meeting, view the recording on YouTube: <https://www.youtube.com/c/CityofSandpoint>.
For questions or requests for special accommodation: At least 48 hours prior to the meeting, send a message to the email address above or call (208) 263-3310.

SUSTAINABILITY COMMITTEE MEETING MINUTES

February 24, 2026 at 2:30 PM

Council Chambers at City Hall - 1123 W. Lake St. Sandpoint, Idaho

Call to Order

Chair Christine Moon called the meeting of the Sandpoint Sustainability Committee to order at 2:30pm on Tuesday, February 24, 2026, in Council Chambers at City Hall, 1123 W. Lake St., Sandpoint, Idaho.

Roll Call

PRESENT

Christine Moon, Chair
Deborah Dickerson, Vice Chair
Diana Duke
Makayla Sundquist
Mary Wilkosz

ABSENT

John Monks

Also present were City Council liaison Pam Duquette, staff liaison Rachel McKinley, and board clerk Mandy Brown.

General Announcements/Comments

Meeting Minutes Approval

1. Approval of the Minutes from the Committee's January 27, 2026, Meeting

The minutes from the Committee's January 27, 2026, meeting were approved as presented.

Motion made by Makayla Sundquist, Seconded by Diana Duke.

Voting Yea: Chair Moon, Vice Chair Dickerson, Committee Member Duke, Committee Member Sundquist.

Old/Unfinished Business

2. Report – Status of Committees' prioritized goals and objectives for 2026 by Rachel McKinley

Rachel McKinley gave a brief update informing the Committee that their goals were reviewed by City Council and amended.

Committee member Sundquist made a motion to accept the goals as amended by City Council.

Motion made by Makayla Sundquist, Seconded by Mary Wilkosz.

Voting Yea: Chair Moon, Vice Chair Dickerson, Committee Member Duke, Committee Member Sundquist, Committee Member Wilkosz.

3. Report – Memorandum of Understanding with the University of Montana by Rachel McKinley

Ms. McKinley gave an update and stated that she is waiting for a response from the University of Montana.

4. Report - Student Pilot Projects by Christine Moon

Committee member Moon provided an update on her communication with neighboring Colleges and Universities that have interest in a common partnership. Moon spoke with Kathy Araújo of Boise State University and reported on the optimistic partnership with a Student of BSU. Moon also reported on her communication with Washington State University, Gonzaga, and Eastern Washington University. The committee recommended Rachel McKinley move forward with drafting and sending a memorandum of understanding to Boise State University.

The motion was made by Mary Wilkosz to recommend Rachel McKinley draft and send a memorandum of understanding to Boise State University.

Motion made by Mary Wilkosz, Seconded by Makayla Sundquist.

Voting Yea: Chair Moon, Vice Chair Dickerson, Committee Member Duke, Committee Member Sundquist, Committee Member Wilkosz.

5. Report - Project 7B & Sandpoint Forward by Mikayla Sundquist

Committee member Sundquist provided an update that she reached out to Sandpoint Forward and was waiting for a response. Sundquist has a meeting with Project 7B next week and will provide an update at the next regularly scheduled meeting. Sundquist further spoke on the idea of bringing the applicable parts of the plan to City Council. City council liaison Duquette shared insight from her conversation with the Mayor and recommended when the plan is published the entire plan be recommended to City Council.

6. Report – 2018 City of Sandpoint’s Energy Efficiency Improvements Audit Report conducted by Mikayla Sundquist

Committee member Sundquist spoke with Brit Sdao of Avista. Brit Sdao provided insight that a new Energy Efficiency Audit isn’t going to be created, but she would review the plan and investigate possible changes. Sundquist had yet to receive a review.

7. Report – Leading Cities' AcceliGOV program by Diana Duke

Committee member Duke provided insight into the five Leading Cities' AcceliGOV grants. Ms. McKinley shared information from a meeting with the Mayor that he had already applied on behalf of the City.

8. Discussion – Review the 5-4-25 Sustainability Checklist Matrix

Committee member Moon led a discussion, and the committee collaborated to begin a working draft on topics. The committee identified several high priority topics and began a working draft.

New Business - none

9. Discussion – Budget Items for Council - action item

City council liaison Duquette shared she had a meeting with the Mayor prior to the committee meeting and shared the possibility of the Committee having a budgeted amount of money in 2027. The committee identified high and low priority items if a budget became available. With the highest priority item being a ICLEI membership.

Committee member Wilkosz made a motion to pursue a budget for the year 2027 with the priority of obtaining an ICLEI Membership.

Motion made by Mary Wilkosz, seconded by Diana Duke.

Voting Yea: Chair Moon, Vice Chair Dickerson, Committee Member Duke, Committee Member Sundquist, Committee Member Wilkosz.

10. Discussion – Definition Recommendation for Sustainability Master Plan - action item

The committee had a discussion on the definition of Sustainability for the Sustainability Master Plan. They reviewed the definition of Sustainability in the Comprehensive Plan and the Committee’s definition of Sustainability.

Committee member Wilkosz made a motion to adopt the definition of Sustainability as defined in the Comprehensive Plan.¹

Committee Roundtable

Adjourn

With no further business on the agenda, the meeting was adjourned at 4:00 pm.

The foregoing minutes, prepared by the Board Clerk, were approved by the Committee during their meeting on _____, 2026.

Christine Moon, Board Chair

Attest: Mandy Brown, Board Clerk

¹ The Comprehensive Plan definition of Sustainability is defined in Appendix B as “A continuing process of social and economic development which meets the needs of the present generation without compromising the needs and aspirations of future generations based on principles that assure good stewardship of resources and responsible outcomes relative to the built and natural environments.”

READ THIS FIRST

The purpose of this file is to aid the Sandpoint Sustainability Committee in the development of its Sustainability Checklist by organizing sustainability questions from Committee members based on the Sandpoint Comprehensive Plan review.

This file has three substantive worksheets: **Questions Matrix**, **Consolidated Questions**, and

Chapter Titles

The **Questions Matrix** worksheet contains the raw questions as submitted by Committee members matrixed against thematic categories.

Each question can be applicable to multiple thematic categories.

Katrina included comments on cells where the link to the committee definition of 'sustainability' was unclear - the Committee should discuss these.

Comp Plan chapters are included for reference.

The **Consolidated Questions** worksheet contains questions from the **Questions Matrix** but consolidates those that are similar into one question. These consolidated questions are categorized under the same thematic categories as the **Questions Matrix**.

The **Chapter Titles** worksheet contains a list of Sandpoint Comprehensive Plan chapter numbers, titles, and if the Committee member questions were submitted and included in this file.

Question	Comp Plan Chapter		
		City Administration	External Communications
Has Sandpoint established an Office of Sustainability?	1	X	
Does Sandpoint have a comprehensive environmental and sustainability plan?	1		
Does Sandpoint have an effective method of communicating sustainability policies to employees and residents?	2	X	X
Has Sandpoint mandated energy reductions with stated goals and timetables?	2		
Has Sandpoint utilized or invested in sustainable energy sources such as solar, wind, and geothermal systems?	2		
Does Sandpoint have a dark skies lighting code that is implemented and enforced?	2		
Does Sandpoint have a plan for balancing recreational use of green spaces with environmental protection and stewardship?	2		
Does Sandpoint encourage the construction of green building projects?	2		
Does Sandpoint have a policy to preserve and protect open space?	2		
Does Sandpoint encourage the upgrading of grass playing fields over the installation of synthetic turf fields and prohibit the use of recycled crumb rubber on playgrounds?	2		
Does Sandpoint operate a municipal composting facility?	2		
Does Sandpoint provide space for community gardens?	2		
Does Sandpoint have an effective recycling program that is fully embraced by the community?	2		
Does Sandpoint provide curbside pickup of garden waste for residents?	2		
Does Sandpoint provide convenient “toxics” collection, including prescription drugs?	2		
Does Sandpoint encourage green renovation projects?	3		
Does Sandpoint actively encourage adaptive re-use over virgin development?	3		
Does Sandpoint have an urban forestry plan?	3		
Do Sandpoint’s development standards and design guidelines have sustainability mandates?	3	X	
What is our City policy to preserve and protect open space? How is the protection of open space supported by our zoning code? How is open space being incorporated into new residential areas, including areas with multi-family development?	4	X	

What is our tree protection and planting policy? How is the protection and planting of trees supported by our zoning code and city programs? What about forest habitat and riparian corridors? How are heritage trees being protected? Neighborhood tree canopies? Trees for shading and cooling?	4	X	
What are City policies concerning the use of herbicides and pesticides on on City property including public parks and rights-of-way? What type of training do City workers receive concerning purchase and use of herbicides and pesticides? What notice does the public receive if herbicides and pesticides are used on City property?	4		X
What is our City policy related to the management of non-native species, invasive species, and noxious weeds? How are the policies supported by the zoning code? What is the enforcement?	4		
What sustainability factors were considered when the City opted to install synthetic turf instead of grass at Memorial Field? Are there other public recreation areas in Sandpoint where artificial materials are being used in place of natural materials? If so, how is sustainability incorporated into these decisions?	4		
Is sustainability a consideration when purchasing or using vehicles or equipment for the construction and maintenance of City property or performance of City services? How is sustainability considered when hiring contractors for construction and maintenance of City property?	4	X	
Does Sandpoint operate a municipal composting facility? What percentage of the City's solid waste stream is comprised of compostable materials? Where could compostable materials be used on City property in place of purchased fertilizers?	4		
Is there demand for more City-sponsored community gardens? Are there opportunities to create tool co-ops, training and other programs to encourage local residents to participate in community gardening?	4		
How is Sandpoint's walkability promoted in policies and zoning within the core of the town and the expanding areas of residential and commercial growth?	4		
How is Sandpoint's bike ability promoted in policies and zoning within the core of the town and the expanding areas of residential and commercial growth?	4		
How is sustainability being considered in the reclamation and reuse of brownfields within City limits?	4		
How are builders and contractors encouraged to use sustainable design and building materials?	4		
How are wildlife habitat and wildlife movement corridors protected by policy or zoning?	4		

Where are posted speed limits routinely exceeded on City roads? What opportunities exist to design / manage roads for posted speeds to maintain neighborhood character and facilitate walkability and public safety?	5		
What is the City's plan to address sidewalk infrastructure and walkability issues within existing and future neighborhoods to maintain year-round pedestrian connectivity?	5		
How does Sandpoint encourage the construction of green building projects and renovations for City-sponsored projects and private development?	5	X	
How and where does Sandpoint encourage mixed-use zoning projects?	5		
How does Sandpoint encourage adaptive re-use of older residential and commercial buildings to new uses versus development of natural landscapes / habitat?	5		
How does Sandpoint incorporate green-building practices into City projects? How are greenbuilding practices required or promoted to private residential developers and contractors?	5	X	
What are Sandpoint policies regarding the use of healthy building materials and furnishings in town-owned buildings? How does the City promote the use of healthy building materials in private housing?	5	X	
Does Sandpoint have a policy regarding wireless technology, including cell towers, distributed antenna systems, smart meters and wireless routers to reduce health risks to the general public?	5	X	
How does the City ensure that public amenities (parks, community gardens, dog parks, recreation areas etc.) are equitably distributed throughout the town in existing and future neighborhoods?	5		
How is the City supporting the formation of active neighborhood associations to encourage public engagement of residents throughout the town?	5	X	
What is the current status and trend of Sandpoint's housing stock and neighborhood/City services as it relates to development and our aging demographic?	5		
Does Sandpoint continue to explore the feasibility of a western bypass for Highway 2?	6		
Has progress been made on a multiuse path on Division Ave, as outlined in the Improvement Concept Plan. Since Division St. includes three schools and the library; is this a high priority project? Has re-routing of truck activity on Division Ave. been given further consideration?	6		
Does Sandpoint have any plans to complete a car free, multi use path from the Syringa trail on Pine street or the Pine street Woods to City Beach?	6		

What is the timeline for completion of Sandpoint city sidewalks and multi use paths? Are federal grants available for completion of this work?	6		
Has Sandpoint considered enacting a 20 mph speed limit within City limits to protect pedestrians and bicyclists? Could Sandpoint position more radar speed signs within the City limits?	6		
Has Sandpoint conducted a poll to determine what improvements would increase the likelihood of bicycle use by city residents?	6		
Has Sandpoint considered creating a car-free zone in the business district on First Ave?	6		
Does Sandpoint have plans to install additional bike racks in the business district downtown?	6		
Has Sandpoint considered adding additional lighting and a pathway for pedestrians utilizing the Amtrak passenger rail route?	6		
Does Sandpoint have plans to install additional EV charging stations?	6		
Does Sandpoint have a plan or protocol in the event of a train derailment and potential release of hazardous materials or toxic chemicals?	6	X	
Does Sandpoint have any plans to connect The Pine Street Woods to downtown with a car-free multi use path?	7		
Does Sandpoint have any plans to create a dog park downtown?	7		
Does Sandpoint have any plans to create additional community gardens?	7		
Does Sandpoint have any plans to create additional space for picnic or park benches in the downtown area?	7		
Has Sandpoint identified any additional areas in the downtown area for public green spaces?	7		
Do new proposed system wide utility costs (i.e., not developer paid "growth pays for growth"), consider the environmental and sustainability impacts alongside other considerations?	8		
Do new city utility and infrastructure projects consider the near and long-term costs and benefits of incorporating energy efficiency and sustainability features into project design?	8	X	
Are lifecycle costs and benefits evaluated for new city utility and infrastructure projects?	8	X	
Have energy audits been conducted on all city owned facilities, with the results and recommendations presented to the City Council?	8	X	
Does the city have a clean energy goal for on-site production at city-owned facilities or purchase from energy providers?	8	X	

Are there strategic plans for maximizing utility upgrade or replacement investments?	8	X	
Does the city have a recycling goal or a reduction goal for city waste sent to landfill?	8	X	
Does the city promote composting for residents to reduce waste sent to landfill?	8		
Does the city have a policy in place for the purchase of electric or alternative fuel vehicles for new city-owned vehicles?	8	X	
Does the city have a tree protection and planting policy?	8		
Does the city have a goal to transition to sustainable materials within city operations?	8	X	
Given the income disparity – What is Sandpoint able to do to maintain a housing stock that is available for our workforce and long-term residents? Does Sandpoint with neighboring communities to support workforce housing?	9		
As housing prices continue to rise, what are Sandpoint plans to handle the increased traffic on our local roads?	9		
What is the impact of the URAs sunsetting in 2029? Is Sandpoint be looking at other opportunities for replacing what these provided?	9	X	
What is Sandpoint's plan for maintaining and educating our workforce?	9		
Does Sandpoint have a plan to entice the next generation to stay in the area instead of moving away? It might be worth looking at what percentage of our next gen is leaving our community.	9	X	
As the airport continues to grow, is Sandpoint doing anything to abate the noise of aircraft flying over the town?	10		
As the area around the airport is a Northern URA and RAA, does Sandpoint have plans to continue to develop this to enhance the economic value of the lands surrounding the airport in a sustainable manner?	10	X	
As the airport and surrounding areas are developed will citizen and neighbor community stakeholders be included in the decision making and promote more sustainable lifestyles?	10		X
Does Sandpoint have a plan to mitigate drainage as the area around the airport is developed creating more impermeable surfaces? Is the drainage into Sandcreek being considered as development happens?	10		
Since Sand Creek is designated as a "natural environmental feature of major importance," what storm water runs into the creek from Sandpoint and how is it treated and monitored?	11		
Continuing with efforts to control invasive species, should we have an "Invasive Species Boat Check" at city beach?	11	X	

How are we protecting our urban forests and natural landscape that surround our waterways, along Sand Creek, City Beach?	11	X	
Are we educating and supporting the importance of non pesticide use in lawns and parks that eventually run off into our waterways? This also helps to protect our aquatic and avian species.	11		X
How are we protecting our viewsheds with all the development along the lake? 6 listed: Baldy, Sand Creek, City Beach, City Gateway, Memorial Field & Lakeview Park	11		
Are we enforcing our Dark Sky code to enhance our well being, and protect migrating birds and our nighttime pollinators?	11		
How will the city mitigate damages and protect our residents against natural disasters and hazardous spills?	11		
In what ways is Sandpoint working with Bonner County to align with the BOCO Hazard Mitigation Plan and a county wide disaster preparedness plan?	11	X	
How is the city promoting and incentivizing water conservation?	11		
How do we promote and support low emission modes of transportation such as ride sharing, bicycling, walking, and transit?	11		
What ways can we maintain and improve air quality and minimize noise pollution?	11		
<i>"Economical"</i>	N/A		
Does the activity enhance economic viability?	N/A		
Does the activity ensure effective and efficient use of Public funds?	N/A	X	
Does the activity promote maximum use of resources with minimum negative impact on the environment?	N/A		
Does the activity help attract investment in local enterprises?	N/A		
Does the activity comply with all local, state and federal regulations?	N/A		
Does the activity provide for future funding and training?	N/A		
Does the activity have sufficient research and stakeholder engagement?	N/A		X
Does the activity consider future financial funding and obligations?	N/A		
<i>"Social"</i>	N/A		
Does the activity provide social responsibility?	N/A		
Does the activity seek to enhance the health and well being of all citizens?	N/A		
Does the activity include citizen and neighbor community stakeholders in decision making and promote more sustainable lifestyles?	N/A		

Does the activity enhance local culture and heritage and increase citizen's understanding of their area?	N/A		
Does the activity contribute to a cleaner and safer environment, help to reduce anti-social behavior and / or create green space?	N/A		
Does the activity have a lifecycle assessment?	N/A	X	
Does the activity provide for adaptation of population growth and change?	N/A		
Does the activity impact citizens legal and inherent rights?	N/A		
<i>"Environmental"</i>	N/A		
Does the activity create an environmental impact?	N/A		
Does the activity promote energy efficiency and consider the use of renewable energy sources?	N/A		
Does the activity seek to minimize green house gas emissions and prepare for the impact of a changing climate where relevant?	N/A		
Does the activity seek to minimize waste particularly waste going to land fills, and promote recycling?	N/A		
Does the activity seek to minimize the use of natural resources and toxic materials and control pollution?	N/A		
Does the activity provide for new and changing social lifestyles?	N/A		
Does the activity promote and protect conservation of natural resources?	N/A		
Does the activity impact citizens legal and inherent rights?	N/A
