Public Participation Options and Information

Before the meeting, comment in writing: Email cityclerk@sandpointidaho.gov or deliver to City Hall.

Attend in person: See above for meeting location. Seating available on first-come, first-served basis.

Attend remotely: Register at <https://www.sandpointidaho.gov/meetings>.

After the meeting, view the recording on YouTube: <https://www.youtube.com/c/CityofSandpoint>.

For questions or requests for special accommodation: At least 48 hours prior to the meeting, send a message to the email address above or call (208) 263-3310.

PARKS AND RECREATION COMMISSION MEETING MINUTES

December 10, 2025 at 2:30 PM

Council Chambers at City Hall - 1123 W. Lake St. Sandpoint, Idaho

Call to Order

The meeting of the Sandpoint Parks and Rec Commission was called to order at 2:32pm on Wednesday, December 10, 2025, by Charman Long in the Council Chambers of City Hall.

Roll Call

PRESENT

Vice Chair Jessica Janssen
Commissioner Josh Delucchi
Chair Taylor Long
Commissioner Tyler Wagner
Commissioner Lori Siemers
Commissioner Dan Tadic

ABSENT

Commissioner Eric Donenfeld
Commissioner Gwen Victorson
Commissioner Heidi Bohall

Public Comment

Chairman Long reviewed decorum rules and opened the floor for public comment. Speakers were allotted 3 minutes each. Three City of Sandpoint residents spoke regarding noise concerns for the JER HVAC System and Travers Park batting cages.

Meeting Minutes Approval

1. November 12th, 2025, Draft Minutes for Approval - **Action Item**

Commissioner Wagner arrived at 2:45pm to complete the meeting quorum.

The November 12, 2025, meeting minutes were approved as presented by unanimous vote of commissioners present.

Motion made by Commissioner Wagner, Seconded by Commissioner Tadic.

Voting Yea: Vice Chair Janssen, Chair Long, Commissioner Wagner, Commissioner Siemers, Commissioner Tadic

Old/Unfinished Business

2. City Beach RV Park Charrette Planning & Preparations

a. Workshop Overview

Community Planning and Development Director Jason Welker reviewed the Council's November 5 directive to host a community workshop with the Averills to envision alternative uses for the City Beach RV Park site. The workshop is intended to serve as the culmination of

the community engagement process, integrating property background information, survey findings, and conceptual design activities.

The workshop is scheduled for Saturday, December 13, 2025, at 9:30 a.m. and is expected to last approximately 90 minutes.

Mr. Welker outlined the planned structure: Welcome & Background Presentation, Clarifying Questions, Probing Questions, Table Group Discussion & Reflective Dialogue, Concept Sketching Activity, and Table Share-Out.

Following the overview, commissioners engaged in discussion and asked follow-up questions regarding workshop logistics and facilitation.

Commissioners serving as table facilitators include: Chairman Long, Commissioners Janssen, Delucchi, Tadic, Wagner, and Siemers.

b. Survey Overview

Mr. Welker reported that the online survey designed to gather community input on potential RV Park site uses will remain open until Saturday morning, immediately prior to the workshop. The survey can be accessed via the City Website under "Latest News." He reviewed the survey content with the commission and encouraged commissioners to complete the survey and help promote it to the public to maximize participation.

c. Next Steps

Workshop results will be revisited at the January 14, 2026, Commission meeting. Commissioners requested that discussion of the workshop results be placed on the agenda as an action item.

New Business

General Announcements/Comments

Director Welker announced that Austin Hull, Buildings & Grounds Supervisor for 28 years, will retire this month. A farewell party is scheduled for December 12, 2025, at the JER Community Room from 11:30 a.m. to 1:00 p.m., and commissioners were encouraged to attend.

Commissioners discussed neighbor concerns regarding Sports Center HVAC and batting cage noise. They requested an HVAC Noise Update on the January agenda, with Lieutenant Ernie invited to provide a formal report. Mr. Welker explained the rationale for keeping the batting cages in their current location and shared updates on planned upgrades. Commissioner Delucchi requested the Baldfoot Disc Golf Course be added to the January agenda. The Commission also discussed creating a catalog of park assets for corporate or private sponsorships, to be addressed in February.

Mr. Welker reported recent vandalism at Great Northern Field; turf and irrigation repairs will proceed when weather permits. He also provided a JER update: membership and revenue are currently exceeding monthly break-even projections, new staff will allow extended weekend hours, a corporate membership program is launching soon, and marketing efforts—including a Sandpoint Magazine ad—aim to attract regional users.

Adjourn

Meeting was adjourned at 4:02pm.

I presided over the meeting and can confirm that minutes, prepared by the Board Clerk and City Staff Liaison, were approved by the Parks and Recreation Commission during the regular meeting held on _____.

Taylor Long, Chair

Kami Omodt, Board Clerk

AGENDA REPORT

Parks & Recreation Commission Meeting

TODAY'S DATE: January 12, 2026

MEETING DATE: January 14, 2026

TO: Parks & Recreation Commissioners

FROM: Jason Welker, Planning & Community Development Director

SUBJECT: City Beach RV Park Site: Survey Results, Community Workshop Summary, and Commission Recommendation

PURPOSE OF REPORT:

The purpose of this staff report is to summarize the results of the City Beach RV Park Site community survey and the community engagement workshop held on December 13, 2025, and to request that the Parks & Recreation Commission deliberate on the findings and provide a recommendation to City Council regarding how the City should proceed with the future use of the City Beach RV Park site.

BACKGROUND:

The City Beach RV Park occupies a prominent and highly valued waterfront location within City Beach Park and represents one of the most significant publicly owned recreation assets in the City. As the RV Park infrastructure ages and operational challenges increase, City Council directed staff to evaluate alternative long-term uses of the site and to engage the community in a structured discussion about potential future scenarios.

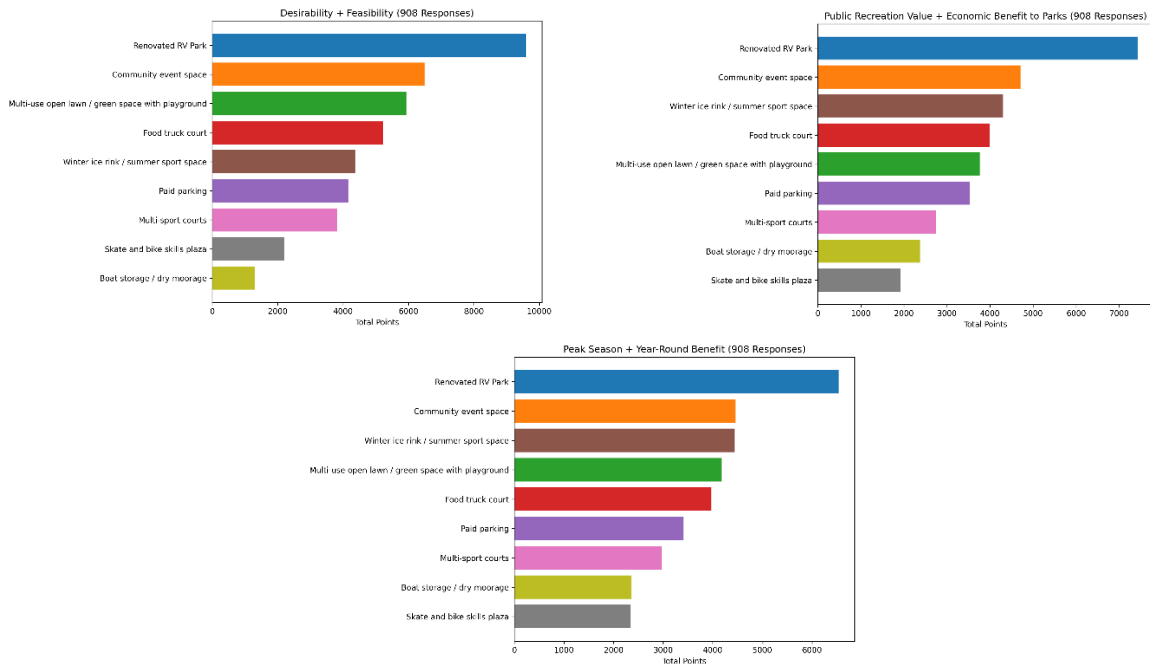

In response, staff conducted a multi-phase public engagement effort consisting of:

- A community-wide survey evaluating a range of alternative uses for the RV Park site using consistent criteria; and
- A facilitated in-person community workshop held on December 13, 2025, focused on discussion, reflection, and qualitative feedback regarding tradeoffs, priorities, and values associated with potential site reuse.

The Parks & Recreation Commission has been closely involved throughout this process and now serves as the advisory body tasked with synthesizing community input and providing a recommendation to City Council.

COMMUNITY SURVEY OVERVIEW AND KEY TAKEAWAYS

The City Beach RV Park Site survey was designed to evaluate a defined set of alternative uses for the site using a consistent set of criteria. A total of 908 responses were received at the time analysis took place. Respondents scored each alternative across multiple factors, including public benefit, alignment with community values, seasonality and year-round use, flexibility, operational considerations, and overall feasibility. Results were then aggregated into overall composite scores for each alternative.

Summary of survey results by evaluation criteria

As part of the survey, respondents evaluated each alternative across three paired sets of criteria. Reviewing the results by criteria pairing provides additional insight into how different uses performed and why certain alternatives ranked higher overall.

Desirability and Feasibility

Across the combined criteria of desirability and feasibility, the Renovated RV Park clearly ranked highest, reflecting strong confidence in its practicality, familiarity, and ease of implementation. Community Event Space and Multi-use Open Lawn / Green Space with Playground followed, indicating that respondents view these alternatives as both attractive and reasonably achievable. Food Truck Court and Winter Ice Rink / Summer Sport Space also scored competitively, though with somewhat lower feasibility perceptions. More specialized or capital-intensive options, such as skate and bike skills plaza or boat storage, ranked lower under this pairing.

Public Recreation Value and Economic Benefit to Parks

When evaluated for public recreation value combined with economic benefit to the Parks system, the Renovated RV Park again ranked highest, reflecting both its revenue-generating capacity and its role within the existing park system. Community Event Space performed strongly, followed by Winter Ice Rink / Summer Sport Space and Food Truck Court, suggesting respondents see these uses as offering meaningful recreation value with some potential for economic contribution. Multi-use Open Lawn / Green Space also scored well for recreation value but more modestly on perceived economic benefit, which affected its relative ranking within this criteria pair.

Peak Season and Year-Round Benefit

Under the combined criteria of peak season and year-round benefit, the Renovated RV Park remained the top-scoring alternative, driven by its established seasonal demand and extended operating period. Community Event Space, Winter Ice Rink / Summer Sport Space, and Multi-use Open Lawn / Green Space followed closely, reflecting strong interest in alternatives that activate the site across multiple seasons or adapt to different seasonal uses. Options with narrower or more specialized seasonal appeal scored lower under this pairing.

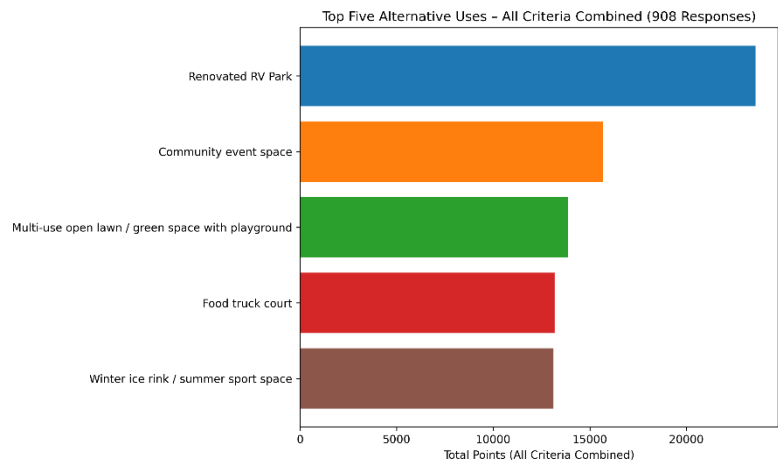

Overall Observation

Taken together, these results show that the Renovated RV Park consistently performed well across all three criteria pairings, while several non-lodging alternatives also scored strongly but with differing strengths depending on the evaluation lens. This reinforces that the survey results reflect tradeoffs between feasibility, revenue, flexibility, and public use, rather than a single dominant preference across all dimensions.

Overall Composite Results

When all criteria were combined, the five highest-scoring alternatives were:

1. Renovated RV Park
2. Community Event Space
3. Multi-use Open Lawn / Green Space with Playground
4. Food Truck Court
5. Winter Ice Rink / Summer Sport Space

The Renovated RV Park alternative received the highest overall composite score by a notable margin. The remaining four top-ranked alternatives are all non-lodging, community-oriented uses, with composite scores that cluster more closely together.

Key Takeaways from the Survey

Several important themes emerge from these results:

- **Strong performance of the existing use when evaluated across all criteria.** The Renovated RV Park scored highest overall, reflecting strong respondent ratings related to familiarity, perceived economic contribution, and feasibility.
- **Significant interest in alternative, non-lodging uses of the site.** Four of the five highest-scoring alternatives involve public gathering, recreation, or programming rather than overnight accommodation. This indicates broad community openness to reimagining the site beyond its current function.
- **Value placed on flexibility and multi-season use.** Alternatives that allow for adaptable programming, seasonal variation, and broad public access—such as community event space, open lawn, food truck court, and seasonal sport uses—consistently scored well.
- **No single alternative dominates community preference.** While one option ranked highest overall, the survey results reflect tradeoffs rather than consensus. Multiple alternatives scored competitively, suggesting that the community recognizes the complexity of the decision and is weighing a range of values rather than expressing a singular directive.

Implications for Decision-Making

The survey results provide a quantitative foundation for evaluating next steps but do not, on their own, prescribe a single outcome. Instead, they highlight a short list of viable, community-supported directions and reinforce the importance of considering how different alternatives align with long-term goals for City Beach Park, public access, and community benefit.

DECEMBER 13, 2025 COMMUNITY WORKSHOP SUMMARY

The December 13th community workshop was structured to move beyond simple preference polling and instead focus on dialogue, reflection, and qualitative insight. Parks & Recreation Commissioners

served as table facilitators, guiding small-group discussions and capturing themes, concerns, and ideas raised by participants.

Key workshop takeaways include:

- **Emphasis on City Beach as a shared civic space.** Participants repeatedly framed the RV Park site as part of a larger, iconic public waterfront and expressed a desire for uses that feel open, welcoming, and clearly “for the community.”
- **Support for flexible, multi-use concepts.** Many participants favored ideas that allow for a mix of activities, seasonal adaptability, and evolving programming rather than a single, highly programmed use.
- **Concerns about exclusivity and privatization.** There was notable skepticism toward options perceived as limiting access or privileging a narrow user group, even if those options offered potential revenue benefits.
- **Appreciation for the deliberative process.** Participants expressed gratitude for the City’s transparent approach and for the opportunity to discuss tradeoffs rather than being presented with a predetermined outcome.

Importantly, the workshop did not produce a single consensus solution. Instead, it provided depth, context, and nuance that help explain *why* certain alternatives resonate more strongly than others and clarified the community values that should guide future decision-making.

SYNTHESIS OF ENGAGEMENT RESULTS:

Taken together, the community survey results and the December 13, 2025 community workshop provide a coherent and complementary picture of public values and priorities related to the future of the City Beach RV Park site.

The community survey offers a quantitative comparison of defined alternatives. When all evaluation criteria were combined, the Renovated RV Park alternative received the highest overall composite score. At the same time, four of the five highest-scoring alternatives (Community Event Space, Multi-use Open Lawn / Green Space with Playground, Food Truck Court, and Winter Ice Rink / Summer Sport Space) represent non-lodging, publicly accessible uses, with relatively close composite scores. This pattern indicates that while the existing use performs well when evaluated across feasibility and familiarity-based criteria, there is also substantial community interest in reimagining the site to support broader public gathering, recreation, and programming.

The community workshop reinforced and added nuance to these findings. Participants consistently framed the RV Park site as part of a larger, iconic public waterfront and emphasized the importance of uses that feel open, flexible, and clearly oriented toward community benefit. Workshop discussions revealed an understanding of tradeoffs among revenue generation, access, operational complexity, and seasonality, and demonstrated that many participants are less focused on selecting a single predefined option than on articulating the values that should guide future decisions.

When viewed together, the engagement results suggest several clear conclusions:

1. **The community recognizes the value of the existing RV Park but is open to change.** The high ranking of a renovated RV park reflects appreciation for its current function, while the strong performance of alternative uses indicates openness to exploring different models.
2. **There is strong support for uses that emphasize public access and shared civic space.** Non-lodging alternatives that support gatherings, recreation, and flexible programming consistently resonated across both the survey and the workshop.
3. **Flexibility and multi-season activation are key priorities.** Alternatives that can adapt over time or provide benefits across multiple seasons performed well in both quantitative scoring and qualitative discussion.

4. **The engagement does not point to a single mandated outcome.** Instead, it provides a short list of viable, community-supported directions and a set of guiding principles that can inform policy, design, and investment decisions.

These findings suggest that the Commission's role is not to select a "winning" option based solely on survey rankings, but rather to interpret the engagement results holistically and recommend a path forward that aligns community values, long-term park planning objectives, and the City's stewardship responsibilities for City Beach Park.

FINANCIAL CONSIDERATIONS AND IMPLEMENTATION REALITIES

In formulating a recommendation to City Council, the Parks & Recreation Commission should also consider the financial and implementation realities associated with potential changes to the City Beach RV Park site. While the survey and community workshop provide valuable insight into public preferences and values, the feasibility of any alternative is closely tied to available funding, ongoing revenue, and timing certainty.

Existing Funding Commitments

The City currently has a \$950,000 grant awarded specifically for renovation of the existing RV Park, along with \$50,000 in Parks Capital Improvement funds allocated to that project. These funds are tied to the continuation of the RV Park use and are not available for alternative site uses. If the City elects to pursue a non-RV use, this funding would no longer be applicable, and replacement funding sources have not yet been identified.

Ongoing Revenue from the RV Park

The existing City Beach RV Park generates approximately \$80,000 per year in net revenue, which is deposited into the Parks Capital Improvement Fund and supports reinvestment across the park system. Most alternative uses identified in the survey, such as community event space, open lawn, or seasonal recreation, are not guaranteed to generate revenue, and in some cases could introduce additional operational or maintenance costs.

Absent new revenue mechanisms (e.g., user fees, concessions, lease arrangements, or partnerships), transitioning away from the RV Park would reduce a reliable funding source currently supporting Parks capital improvements.

Uncertainty Around Alternative Funding Sources

While some survey respondents and workshop participants suggested that alternative uses could be supported through partnerships or contributions associated with the adjacent hotel project, no formal commitment or funding proposal has been made to date.

Although the property owners have submitted a building permit application for the hotel, application fees totaling approximately \$210,000 have not yet been paid. Under City code, the applicant has 180 days from submittal to pay these fees. Until payment is made, there is no guarantee that the project will move forward or that construction will commence.

As of the date of this report:

- No formal offer has been made to fund alternative uses of the RV Park site;
- It is unclear whether private funding would be available, or in what amount; and
- The City does not have an identified funding strategy to replace the RV Park renovation grant or the annual net operating revenue if the RV Park is removed.

Implications for the Commission's Recommendation

These financial realities do not preclude consideration of alternative uses, but they do affect timing, risk, and implementation strategy. Any recommendation to City Council should clearly acknowledge:

- The tradeoff between pursuing community-desired alternatives and retaining existing funding and revenue streams;
- The uncertainty of relying on future or speculative funding sources; and
- The potential need for a phased, conditional, or hybrid approach that preserves financial flexibility while allowing continued exploration of alternatives.

Recognizing these constraints will help ensure that the Commission's recommendation is both responsive to community input and grounded in fiscal responsibility, and will provide City Council with a clear understanding of the financial implications associated with each potential path forward.

COMMISSION RECOMMENDATION – FRAMING OPTIONS FOR CONSIDERATION:

The Parks & Recreation Commission is asked to consider the community engagement results, survey outcomes, and financial and implementation realities summarized in this report and to forward a recommendation to City Council regarding how the City should proceed with the City Beach RV Park site.

Staff does not recommend a specific use for the site. Instead, staff offers the following approaches for framing a recommendation, recognizing that the Commission's role is to interpret community input in light of fiscal responsibility, implementation feasibility, and long-term stewardship of City Beach Park.

Option A: Recommend Proceeding with RV Park Renovation While Continuing Long-Term Planning

Under this approach, the Commission could recommend that City Council proceed with renovation of the existing RV Park, recognizing that it ranked highest overall in the survey and that dedicated grant funding and ongoing net revenue are currently tied to this use.

Such a recommendation could also include direction to:

- Incorporate design or operational improvements that enhance public access, aesthetics, or integration with the broader City Beach Park; and
- Commit to continued long-term planning or reevaluation of the site as funding opportunities, partnerships, or community priorities evolve.

This approach emphasizes near-term financial certainty while preserving future flexibility.

Option B: Recommend Continued Evaluation of High-Scoring Alternative Uses Prior to Committing Capital Funds

Under this approach, the Commission could recommend that City Council defer major investment decisions and direct staff to further evaluate one or more of the highest-scoring alternatives identified in the survey.

This could include:

- Concept-level design and cost analysis for select alternatives;
- Identification of potential revenue mechanisms, partnerships, or phased implementation strategies; and
- Clarification of funding options to replace or supplement existing RV Park grant funding.

As an example, staff obtained a preliminary, budgetary estimate for a seasonal outdoor ice rink with summer sport or event use, which indicates that capital costs for alternative uses may be significant and would require funding strategies that are not currently identified. This information is provided to illustrate the scale and complexity of some alternatives rather than to advocate for a specific outcome.

Option C: Recommend a Phased or Hybrid Strategy Focused on Flexibility and Risk Management

Under a phased or hybrid approach, the Commission could recommend that City Council pursue interim or partial actions that:

- Maintain the City's ability to continue RV operations and associated revenue in the near term; while
- Allow further exploration of alternative or complementary uses, such as seasonal recreation or event programming, if and when funding becomes available.

This approach recognizes both the community's interest in broader public uses and the current uncertainty surrounding alternative funding sources.

Staff Request

Staff requests that the Parks & Recreation Commission deliberate on these approaches (or others it deems appropriate) and forward a clear recommendation to City Council that reflects community input, acknowledges financial realities, and provides direction on how the City should balance near-term investment decisions with long-term planning for the City Beach RV Park site.

ACTION:

The Parks & Recreation Commission is asked to review the information presented in this report and take action by forwarding a recommendation to City Council regarding how the City should proceed with the City Beach RV Park site.

To assist the Commission, the following **sample motions** are provided for consideration. These motions are examples only and may be amended or combined at the Commission's discretion.

Sample Motion A – Proceed with RV Park Renovation and Future Reevaluation

Motion: I move that the Parks & Recreation Commission recommend to City Council that the City proceed with renovation of the City Beach RV Park utilizing currently secured funding, while directing staff to incorporate design or operational improvements that enhance public access and community benefit and to periodically reevaluate the site's long-term use as funding opportunities and community priorities evolve.

Sample Motion B – Recommend a Specific Alternative Use for the Site

Motion: I move that the Parks & Recreation Commission recommend to City Council that the City pursue **[insert specific alternative use]** for the City Beach RV Park site, based on the results of the community survey and workshop, and direct staff to begin concept-level design, cost analysis, and identification of potential funding and partnership strategies necessary to implement that alternative.

Examples of specific alternatives may include, but are not limited to: community event space; multi-use open lawn and green space; food truck court; seasonal ice rink with summer sport or event use; or a combination of these uses.

Sample Motion C – Defer Major Investment and Further Evaluate Alternatives

Motion: I move that the Parks & Recreation Commission recommend to City Council that the City defer major capital investment in the City Beach RV Park site and direct staff to further evaluate one or more of the highest-scoring alternative uses identified through community engagement, including concept-level design, cost estimates, and potential funding or partnership strategies, prior to making a final decision.

Sample Motion D – Pursue a Phased or Hybrid Strategy

Motion: I move that the Parks & Recreation Commission recommend to City Council that the City pursue a phased or hybrid approach for the City Beach RV Park site that maintains RV operations and associated revenue in the near term while continuing to explore and plan for complementary or alternative uses as funding becomes available.

is something unique to Sandpoint. I haven't seen another town that offers something like this. Thank you! It's public property to use for public benefit.

We have seen enough towns' character and livability destroyed by high end resorts or sailing club. They are great about including volunteers/beginners/children, so they can operate a marina at the Windbag. This is public theft; the Windbag is not for sale. How do children think of your decision?

takeover windbag with private slips and boat rentals
The cost of a developer is always much higher than what is stated. Weigh your decision carefully.

Goal. It may be advantageous to take the grant, do the renovations now & utilize the RV park. Outside developers exploit smaller towns and effectively bribe city officials in order to get what they want. Not a fan of paid parking at The Sandpoint Lake. The question is bigger than the city owned property.

Take over city beach parking when they have special events, weddings, peck restaurant.

Wons and don't sell out to out of state interests
The sale of state corporate company will be a huge mistake. That land use needs to be for the benefit of the community. You spent \$ on big picture plan. Consult local boaters & others. Use Cedar Street beach.

boat launch boat launch boat launch
The quaintness of city beach and downtown like it is with no huge changes.

Sh, MT how they feel about Averill group... Seems like they have been stonewalled in the past.

g money to squeeze out local families. I personally believe RV's belong somewhere, not in the city.

Options from places like Nelson. A updated, clean and safe RV area will actually attract more visitors.

There is no funding for it. At no time should be a plan has already been made. Nothing should be done until water access for all residents, including Windbag Marina, should be of the utmost importance.

 Let's keep this space quaint and accessible, not an exclusive, elite resort type area for the wealthy!!

Stop caving to Averill. If they won't move forward with the resort because they don't get what they want

Do not give more to Averill, they do not have Sandpoint's best interest in mind.

Keep the park and improve

I think it's important for people to know someone is advocating for Averill. They are actually a paid partner. I feel the city should retain control, not a private entity, such as the hotel group.

The RV park is not a good use of this piece of property. The revenue does not justify the effort. Be creative. Move the boat ramp here. Separate the boats from the park - plain and simple. Horrible location for RV. Public access is more important than corporate profits. Allowing Averill to do what they want hurts those bringing life guards back to the beaches in peak season.

City beach needs more parking. I couldn't even go there this summer if I wanted to. I could circle the lot and make it so Bonner County taxpayers don't have to pay for a couple bucks and out of county people have to. Sandpoint lacks things for kids and teens, then they don't have anything to do so they go and smoke at the City beach. City beach is a rare gem that should be protected and preserved. RV parking gives access and provides winter ice skating / summer sport courts.

I hope you actually listen to the public on this. Because when it comes to Travers Park you didn't listen. Most of the recreational options given are obviously not mutually exclusive. If Averill will chip in money to accept the fact that the city, without engaging private enterprise, has not found a dependable way to fund it. There's nothing more welcoming than a campground by the water and downtown! Options are great! K. He proposed to tell the project will generate far more revenue than the RV park should the project go forward. I like the idea of an upscale resort hotel to replace the old best western. This will generate much more revenue. The Averill project will generate far more revenue than the RV park....plus the hotel will bring support to the city. The Averill Project will generate far more revenue than the RV park....plus the hotel will bring support to the city. The Averill project will generate far more revenue than the RV park....plus the hotel will bring support to the city. Considering revenue generated only at this site is short sighted. Consideration should be given to how to use the area efficiently. (When no RVs present, available for parking) Additional "dedicated" parking is needed. Wasted space at the south end where equipment is haphazardly stored.

Try to be good neighbors and work with each other. It will be better for all.

Please not another pet project for Jason Welker. Really another bike pump track? Jason has proven that. NO PAID PARKING AT CITY BEACH!!!

Can we add a public restroom facility with Spot Bus turnaround and a pickup/drop-off loading area on the lake? Keep it, with boat slips on the lake are on a 2 yr. waiting list. Most people can't afford lake front, having a boat is a luxury. PLEASE, keep it, don't sell it!

Keep it.

Keep it!

We should not be bullied by developers into "beautifying" areas of our town. We should pursue development. The boat launch ramps are terrible. We need way more boat trailer parking, more regular parking.

A space that could be used year round would be great something for the young and old could enjoy. A parking structure, and access to the lake for small boats and kayaks would be great. something that is multi-use. An ice rink/ roller skate would be wonderful but I don't think there is enough space. Access to the lake is important. Just make sure it continues to serve our community in the best way possible.

I think more parking (and no RV park) will bring more revenue to our small town- especially the small business. More parking - even for the bike path and boats and events would be such a great asset to this community. Parking is limited in Sandpoint- so having a spot bus or shuttle from this site into town or vice versa would be helpful. Additional considerations for property would be to add a roof covering to the aforementioned uses (foot parking). The RV campground grant could possibly be stretched to include some of the additional uses for the property. Consider creating a transit hub in this location for Spot for summer months.

Consider adding a dog park to the list of options, a dog park doesn't exist within Sandpoint and would serve the community. If you were to consider a public/private partnership, having a group like A.H. fund the improvements, that would be a great idea.

Going back to the comprehensive plan and considering not only the master plan drawings but the listed City should maintain RV park and water access to the public. The parking "give away" was too much all RV culture is core to North Idaho's history and ongoing culture. RV access is for everyday people which I'm the city beach was given to be city by the rail road and it is for public use. Do not want to go into an I'm curious if council and the community felt there was a problem that led to this evaluation or if this is s As stated before this area is and always has been for the public. Giving into Avril hospitality group is no Residents should not pay for parking.

Pickleball would be utilized

Do not let any corporation have say over Sandpoint City Beach. Keep it simple for the people who live h With lake access being privatized, the Sandpoint City Beach needs to remain available, at no cost.

No outside control or limited public use of ANY publicly owned land!

Whether the RV park stays an RV park or the city moves forward with another type of park or outdoor s Having a RV park with toilets and gazebo do not cancel out having another empty building (hotel) locati The RV Park does not benefit locals. Some of these other ideas definitely do. In the long run, a new res Parking garage and free parking

The money is earmarked for the RV renovation, why are we even debating this issue. That is the probl There are no options. Use the money for the RV renovation as it was granted. You cant use grant mor Read the grant that was given to the city for RV renovation. It spells out what the money is to be used i Please evaluate why you took this position. Are you in it for the financial benefit or to help the people. Thats why i bought my property in unincorporated Bonner County. The City greed is real. Maybe we sl There is plenty of playground equipment, lawn, and community park/play space at City Beach already. i Make that space free overflow resort and public parking. The City Beach parking lot is already insufficie IF we chase the Averill Group away. who replaces them? We need to work with them as we all want the Thank you for gathering feedback

In no way should Averill Hospitality be involved in planning for uses at the city-owned RV park property This is a desirable location next to water so please let the public access the water with it. Boat ramp an Options that don't include access to water doesn't make sense for a rare space next to water. Build the If done correctly, the RV park could be used year-round, thus making it a bigger economic benefit to the Please do not give up the grant the City has already secured. Please do not let Averil sway decisions o Free parking for Bonner County residents.

My understanding is the city beach was built by community volunteers, the Lions club, businesses dona Do a simpler kind of survey. This was way too cumbersome and the sliders seemed to move on their o We already have nice open spaces at city beach. Upgrade RV area & use money for other park upgrad No sale/lease deal with Averill. Upgrade RV area & 2 rotating food trucks would be great. No need for s Given the development of farm and Flats, the city parking lot will soon be occupied with residence who The RV Park site would benefit the city much more if it had year-round rather than seasonal use.

That RV lot has always been seasonally used, I see that continuing regardless of the option chosen, w/ We could benefit by having boat parking trailers in that lot, which would free up regular parking spaces Averill should not have any more input on this than any other city property owner. Any concession give Averill should not be given any more input than other city property owners. They will not be happy until The city should stay completely separate from anything with Averill Hospitality! Averill has demonstrater If they have failed to do their due diligence, then they shouldn't expect the city to keep bailing them out. Any improvement of the rv space should benefit the city parks .Averille should not be involved with that p Why would you hold a public workshop during what is the busiest time of year for most families? I would Very few things the city does actually generates revenue. There is a grant to improve this and possibly It would be beneficial to the city and its visitors to have and support more green space. If you keep buil Stop catering to corporations and big money making investors. You are killing the character of this sma

Maintain Windbag marina as a city run establishment. Do not let big business bully you into an undesirable. The city continually invests in poor decisions. Like the U of I property that could have been an amazing. Stop catering to the wealthy elitist developers who build crappy cheaply designed homes and condos for. Use the grant money for the rv park improvements with plans for a future boat ramp and trailer parking. A renovated, quality RV park is the best use of this site in summer and during the ski season when Sch. Please consider how attractive/unattractive (site-wise) some of these options would be. I believe more revenue from an RV park has been proven and is the best choice moving forward, especially with grant. Some of the other suggested options might be visually appealing, but there are no guaranteed funds for. PLEASE do not count on Averill providing funding for alternatives to the rv park and PLEASE do not call. Wow, this survey is very convoluted! I want the RV Park to go ahead, with the grant money and with NC. don't make same short-sighted decision as previous admin when they gave away the property in front of. A public/private partnership for a free recreation site may work well for the residents yearly enjoyment and. If paved, additional park space should be provided where paving currently exists. This site next to the trail. Keep the land in public hands, free of stipulations though.

An RV park does not support resident needs or overall tourism needs. I'd rather see park expansion or. This also seems like a very unpleasant location (on the train tracks) for an RV park.

If Averill hospitality can pay for the infrastructure improvements, and replace the lost revenue, what's the. Current parking lot needs rebuilt. Instead of rebuilding in place, move the lot to where the RV park is. I. If I could add some thoughts on alternative uses. I always think about the opportunities our youth have. I would love to see some exploration into a non-motorized launch that would include the creation of boat. need of water to practice. We have an excellent opportunity for this throughout the late spring, summer. Also, along with that, I have lived in areas that have a farmers market all year long. Our farmers can grow. market space in the off season. Consider examples like the Olympia Farmer's Market. It would be great. on non-market days as well. It would be great to design this to be open and airy during the summer and. provide a good source of income to the city in leases as well. Plus, think about the kids running over to. potential to highlight an active and healthy community.

We should continue to build this up as a community area. Local 7B plates should have the right to park

.
.
.

Please don't sell any more of our precious PUBLIC waterfront!

Nothing. Finish what you started and stop bending over backwards for the Averills.

Consider the people that live here. Not a rich family from Montana.

It is critical to work with Averill Hospitality due to the enormous revenue benefits the hotel will generate. Accelerate decision making so the hotel project can begin construction. The opportunity cost of delay is. Working closely with the Averill's is critical to move this project forward.

Redundant!!!

Redundant

Please don't partner with the Averill Co. Do not let them sway you from using the grant that has already. We have two fenced off "development" sites on first street...basically holes in the ground. Lease the land. Please continue to make our park accessible to a variety of income level families. The motel will be luxury. A multi story boat storage/ dry moorage would be a sad look for such beautiful property. Let's keep water. We have two holes in the ground on first street....development that may never happen. Lease Avril the. Please please please do not sell out to big money. And remember we only have one point in and out. No. There already is a skating pond in Ponderay. That isn't needed.

Abandon doing business with Averill, Their track record speaks of corporate profit over community benefit. We have RV'd for years in many areas of USA. Sandpoint RV site is very poorly maintained and not a

Averill in Oct 2025: We must buy/lease RV park property or we will pull out of the deal. Proposes such as Anything other than renovation of the RV Park with the granted funds means continued 'partnership' with Camping with a motorhome or towed camper is an American Pastime that is right up there with baseball. You should consider renting a camper and staying downtown during an event and create a lasting memory. I believe everyone against this renovation that isn't out of the scope of utilizing the grant funds has been. The water is becoming polluted, with more seaweed and dirt. The water stinks. Kayaking is not enjoyable. We will have more crime in our area if the beach area is bigger.. Parking will be horrible and we locals should improve what we have and keep our beach a quaint place for us to enjoy.

There is much made of the revenue provided by the RV park. However, the city had no such revenue in the past. The current RV park area in concert with the rest of the park so as to make it more appealing for all. Perhaps better traffic flow. Should there be a boat launch fee?

By no means should Averill or any other multimillion dollar out-of-state developer be given any additional money. Just turn it into the beautiful RV park that I and many others have used throughout the whole year for the past. We do not need financial support from Averill! This survey is more complicated than needed to be.

The beach cannot take the pressure of more boats being launched and more car visitors. Leave the park alone. Not everything has to be about money or revenue for the city - Surely they have enough already! Focus on the future. Stop thinking of now & of revenue & think of how it will be 100 yrs from now. You'll never get back what you've been entrusted with. Be better Stewards of the land you've been entrusted with.

What you decide changes the landscape forever, it never goes back. Make decisions for the people you care about. An RV park is a great option for locals and visitors to camp in town. The needs of a 4 star resort should be preserved. Boat slips for sailing club. They are great about including volunteers/beginners/children, so the city should support them. We have seen enough towns' character and livability destroyed by high end resorts buying and restricting public access. I think the RV park is something unique to Sandpoint. I haven't seen another town that offers something like this. Don't let the hotel bully you! It's public property to use for public benefit.

Averill has no right to operate a marina at the Windbag. This is public theft; the Windbag is not for sale. What will your Grandchildren think of your decision?

Stop letting Averill manipulate you, the community doesn't want a giant hotel there anyway so the bribe is obvious. The RV park is the most practical use. While other ideas such as bike park/pump track and skating rink are nice. The price to get in bed with a developer is always much higher than what is stated. Weigh your decision carefully. Do not allow hotel to takeover windbag with private slips and boat rentals.

Boat trailer parking should remain where it is even if expanded, additional car parking could be considered. Sandpoint needs more parking such as parking garage elsewhere in the city with shuttles to the beach. Outside developers exploit smaller towns and effectively bribe city officials in order to get contracts. Give the Sandpoint Lakeside Resort project should NOT proceed considering their threats towards our seniors. Not a fan of paid parking for access to our public beach. Not a fan of hotel extortion as means of forcing the Sandpoint Lakeside Resort may not be the best suitor for this prized piece of lake shore property. The NEW hotel will take over city beach parking when they have special events, weddings, peck restaurant. a boat launch make the most sense..... make people pay to launch and park. if the city did a study on boat launch

boat launch

boat launch

boat launch

LOCAL residents must be priority --otherwise kills what we love. Use parking as limiting factor on lake use. Partnering with an out of state corporate company will be a huge mistake. That land use needs to be for the public. You spent \$ on big picture plan. Consult local boaters & others. Use Cedar Street bridge as a good will gesture. The question is bigger than the city owned RV park. The threat is that the Sandpoint Lakeside Resort's expansion. Would like to see the quaintness of city beach and downtown like it is with no huge changes.

An RV park is not ideal. It may be advantageous to take the grant, do the renovations now & utilize the RV park

Study other resort towns and don't sell out to out of state interests

Please DO NOT let another big developer come in & ruin our town/ county!! Take heed from what has happened.
Keep the cost to the tax payer down.

Use the grant money awarded for renovating the RV Park. If Averill doesn't like it, they can leave town.
Thanks

So are we going to turn Sandpoint into a hell hole the likes of which has happened to every other nice place?
Where do I sign the petition against Averill

Don't let developers dictate rules and plans we will have to live with forever

Keep public access public

Limited water front available for locals, don't make it a rich playground

Use the funding received to upgrade the park

Keep City Beach access free.

This is public property for the benefit of the community. It is ridiculous to consider changing the use to private.

This is city property to be used for the benefit of the community. Not to be used for economic gain of a few.

I want the Windbag Marina to keep its place and provide access to residents to learn sailing and have a place to dock.

I do not want to be charged for parking as a resident. The free public beach is something that differentiates Sandpoint from other towns.
Averill should help fund a rv site replacement solution that benefits the community most. Averill needs to stop complaining.

An attractive and functional solution

Averill wants to exploit our lakefront for profit, and change the fundamental character of City Beach, and the town.

Please do not trade our local character and benefits to parks for an overrated project by an overbearing developer.

An upgraded RV park would be great for the community. Better than an out-of-town overly self-important project.

I really love City Beach, and I think building the RV Park would help keep both the beach and marina public.

Do not let Averill destroy what is great about City Park, make it crowded, take away funding for all our parks.

Please save our beloved City Beach, the RV park and its funding for all our parks, and keep it from being taken over.

Let Averill go back to Montana. We don't need them taking over City Beach

Do not allow the new motel to operate power boat/jet ski rentals in the Windbag Marina. Some accommodation is needed.

We need to provide space and opportunities not only for the rich folks in our community, but also for low-income residents.

It is a very unique place for an RV park and it would be a shame to lose that use of it. Other uses could be considered.

Your notion of pursuing options with or without Averill financial support is ridiculous and inflammatory. I don't want to hear it.

RV Park does NOT belong at City Beach! The RV Park land should be used to re-design traffic flow at the intersection.

Project payback on the grant for RV Park is disgraceful and a waste of money, even if it is a grant. Please don't waste it.

The character limit on your surveys is a joke! Because your surveys are so poorly designed - search the internet for better ones.

Keep on plan with the grant to renovate the RV space. Keep Averill out of it. They don't get a say. They are not the community.

They should consider the history of the city and the people's voice.

I think it is good to try and get some idea what the citizens of Sandpoint feel about this issue, but surveys are not the way.

Keep city beach as is. Keep the GREED out of Bonner county.

It would be horrible if that space was turned in to parking lot. This is a unique area and the only area that has a view.

As a revenue source, sell the piece of property, and invest in a conservative vehicle, generating greater revenue.

Use the grant to make improvements.

Averill is painting RV people as low class, revealing their pretentious vision of Sandpoint. RVers contribute to the local economy.

Keep our beautiful City Beach park for the use of our regular residents, and RV visitors, who will be more than happy to pay for parking.

Please don't pave it and then charge us to park there! It is one of the only affordable ways for my family to enjoy the lake.

Provide coin-operated shower facilities to enhance the guest experience and create an additional source of revenue.

A restroom that doesn't close at 5:00 pm, like the one at the snack shack, would be a great addition to the park.

Blackout RV reservations for the 4th of July weekend, where food trucks can occupy the space for the weekend.

The city has already voted on the fact that Avril is not going to be able to have this land to use for their Public land needs to stay in public hands. Thank you.

Keep public land in public hands. Thank you.

We should get the beach frontage back from Averil. If the state grant locks us into more than 10 years We need to keep developers out, who will take over the windbag marina and eventually the rest of city The RV park isn't the highest and best use for that space. It could benefit the community more if devel Public spaces and healthy activities help create a healthy community.

Windbag marina is a gem. Sandpoint Sailing organization is fantastically generous in giving the sailing reject intrusions on sailboat specific slots at Windbag Marina

Other funding sources for public use of public lands that don't require users to have to spend much mor Encourage quiet sports, like kite flying, sailboat, frisbee. Not concrete skateboard parks. Build natural Please do not partner with Averill Hospitality. I do not believe this company has Sandpoint's best interes Consider your residents voices and thoughts. We are the taxpayers who live and work here. Why are w Once you start giving up little bits of your city's crown jewel, it's only a matter of time before we give up Please consider the future of Sandpoint... We the residents, do not want to be the next Whitefish!

Use common sense. Rv park is year round funding not seasonal.

How not making Averill hospitality having enough parking for the hotel will not only impact city beach bu That downtown already doesn't have enough parking and anything they do that doesn't help with this is lease it to Averil, they fund a parking lot, collect revenue from Averil on the lease , and collect revenue 1 Keep the control of the city Beach Park in city control. Use the money to benefit the locals, not big mon We need more opportunities for kids and outdoor rec rec options.

Quality Basketball courts.

An ice rink will attract more people to the area during winter and offer more activities to keep people en Horrible spot for RV park.

The Ice rink is an alternative to skiing/snowboarding and would be closer and more convenient for thos Local businesses owners, and what impact it will have on other parks.

Continued capitulation to the development group will ruin city beach for the locals forever and that will b A city sponsored daycare facility for residents of sandpoint.

Think if it was more appealing more people would use it. I would use it more if it looked more appealing No paid parking as you will have less people usi g the city beach

More appealing and more space between spots

NO TO AVRILL!!!!

NO AVRILL. NO, NO NO..

I would like to see a stronger police presence.

I have heard that removing the RV park would hurt local access to the beach. I would argue that if you I don't know what the current system is, but the RV park should be short term only. No one should be a Consider double dipping- get the grant from the state and make enough regular parking spaces that ca Rec area for the community

Ice rink, Indoor and outdoor swimming pools are badly needed in our community. Encourage lively fest The beach should be the natural recreation it has always been. Parking fee for all out of state vehicles Free recreational areas for city residents.

Nicer and more restrooms are needed, not just exclusively for RV site users. Surprisingly there is no w Update Rv space with Bathrooms or Food Trucks

Definitely not parking.

Do not let the private hotel group have any to do with that property.

An RV park benefits visitors with prime real estate. Would be better to use property to benefit residents Residents welcome updates, not major changes. People come to Sandpoint because we aren't like eve

Again, residents welcome updates, not major changes that will line the pockets of a select few. This is our city. Residents welcome updates, not major changes that will line the pockets of a select few. This is our city. Our town has been changed, ripped apart, and rebuilt in ways that are not on keeping with what our town was. Please consider what has already been lost, and don't allow anymore loss of our beautiful town to happen. We already have the other things listed as options. It is foolish to take a thriving and needed RV park that is the site. Keep the RV site. I've lived here for 48 years and I feel it's important to keep this site. It brings revenue. Please don't add more parking it's crowded enough. Use it for RV site like it has been it's brings in revenue. Ice rink & mixed use open air covered sporting area in summer.

The developers should not have any say or part in what we want and do in our beloved City. Our beach is part of our charm the way it is. Please do not change it. Also, if you put in something other than what is there, please preserve sandpoint - help us keep the things we love about sandpoint sacred. Our children and grandchildren will love this place. I have lived all my life 48 years, Change is important yes but not huge tall buildings, block it. Limit building height, no more parking at city beach, keep the RV park ours, allow markets there for more.

I am for using the grant money to update the RV park as long as the city taxes I pay do not go for its maintenance. Combination of green space, recreation (ice rink idea in winter, not skate park but open green space recreation). Please don't sell out our small town charm to Averill.. We don't want to be the next Whitefish! Let's stay with the combination of green space (ice rink) recreation and food trucks provide good economic and community benefits. The rv park makes it possible for more people to economically access all sandpoint has to offer. Thereby, if we take Avril's money, they will think they own it. An RV Park is seasonal and benefits few. I propose making this space "only" for RV, parking, food trucks, or a court, is short sighted. I think an open space for recreation. If it comes down to money, either community raise funds or just keep it as an RV park and take the deal. We love this little park and there is nothing else like it in town. Please keep it, we come up all the time and it's the smartest move is to work to find common ground between Averill and the community. They are not. The RV park severely limits the use! Maybe Averill can make up the difference to make the space more useful. No other considerations.

Keeping that area public ally available with amenities that may be utilized year-round

More space for local families and kids to enjoy time together in whatever capacity. Something for locals. I think the options provided are well thought out and adequate.

sorry to say but NO paid parking for locals/Bonner

Stop discussing more basketball, pickleball, skate parks, recreation facilities, and focus on keeping city beach. No dogs.

The best option is not included. .My preference is to relocate parking to the RV park. But take out the beach. The Beach never has enough parking on hot summer days and weekends. Adding something else will not help. Not enough parking in summer

Not enough parking in the summer at the beach currently. If we add something else there won't be parking. We need parking. Not enough parking on summer days.

New rv park with grant money

Think long term investment for our families now and for the future of Sandpoint. Once the green space is established, keep in mind the amount of net funds generated for use by the city

Long term lease to Averill. Gives time to figure out what future community needs are. Also don't do anything. Upgrading the site will make it desirable for visitors and local citizens alike. It will add to our lovely park. Keep it local and send Averill packing! They only care about money and NOT the locals who live here & love the park. We have basketball courts, volleyball courts, bike parks and green space. Storage would be ugly and not needed. Reject Averill partnership, maintain city ownership, and pursue grants that fund opportunities that benefit the community. Ensure long term benefit, feasibility, sustainability and community benefit

The RV park caters to tourists, which is fine, but there's greater benefit for state/city/grant funds by catering to locals.

Keep and improve it as an RV park and add a food court. No brainer. Averill can kiss off.

Keep its character!! Rv park and food court is the best use of the space. I've been here since 1977 the Averill is a business from out of town, they are only here to develop the hotel property to make money, Improve the RV park. Do not allow long term rental in RV park.

I'm not sure the Averills have the city's best interest in mind, for them it's more of what sort of a financial Change the entrance to RV park to be from the existing City Beach parking lot. Create a bush/tree-line Developers always do this. They seduce with flashy presentations and then start demanding. Please s Avril had caused a net loss of parking in the downtown area, It makes them look better if they "find" ne Modern amenities like WiFi provide additional income generation streams.

RV park is not desirable location due to road / train noise. Need more info on how that property could ge RV park is not desirable due to train/road noise. Need more info on how property could generate incom Use for boat parking with entry near the maintenance shop and exit across from hotel. Trees to reduce This area should 100% not go to the hotel. It should be kept for public use. Something benefiting all ec The r v park allows families that don't have a ton of money to enjoy the area and more public bathroom No paid parking.

Environmental impact.

No Avirell Hospitality.

A city RV park is not the highest and best use for the people/City of Sandpoint. This real estate is gold Open green space for the community.

Implement glamping. Improve the facility, put in restored Airstream trailers. Rent out and maintain the ti A food truck court would benefit small businesses & bring much needed food options to the area. For Food will hurt DT restaurants. Do not duplicate uses already at city beach. Keep rv park for now. Let ho Don't partner with the hotel

Consider having a charitable organization manage the rv park...like the Sandpoint Lions Club!

Consider letting the Sandpoint Lions Club help manage the rv park.

We live in such a beautiful area that needs to be accessible. Development is inevitable, how it is done Loss of a restaurant at City Beach was tragic.

I'd prefer green space or park type usage but with the limited amount of space plus the possibility of los Averil is over leveraged & using the scope of his proposed project in Sandpoint to finance projects in M What is best for the city? Not for Jason Welker, Justin Dick, Brian Averil, and the wealthy retirees with v Keep Averill to their property - not taking city owned property!!!

Think 50-100 years down the road. What is the need? Recreation space is always needed for a commu More space for the community to gather and support one another without big corporations involved

Do not give this space to Avrill

Consider those options which bring value to the citizens paying the taxes! This should be foremost on tl Charging for parking is ludicrous! The citizens paying the taxes should absolutely not have to pay for pa Visitors will not appreciate the charge to park at the City Beach. Good way to chase tourists and spendi This option simply serves a few. The tax payers receive zero benefit and will probably be taxed even hi We do not need another skate park or pickleball court! Keeping a revenue generating rv park to help fu The options offered do not match up with what I consider to be the best option which is to continue with The land is adjacent to the city's best park. Even if you do nothing now and wait for funding it is better Use grant money to make improvements to existing rv park.

Consider that Averill previous owners already gave up the space in trade for the lawn to lake area by th Paid parking should not be implemented in our town.

The whole town benefits from the RV Park. It provides more options to people wanting to visit. Also pai No paid parking downtown or at city beach. It will cut tax revenue . Many towns have found paid parking It's important to have the RV park

I don't like Avril, we can find a better developer. The RV does seem like wasted space that is more needed. Continue to improve city beach. More parking, landscaping, better play ground. RV serves a small number. If it means Avril leaving then improve the rv park. I would like to see public restrooms there.

It's already built as an RV park with grant money allocated for the upgrades as such. We shouldn't discontinue. More parking!!!! Or an ice rink :)

More parking!!! Or an ice rink!

Nothing

If there is an RV park, some of the space needs to be dedicated to vehicle parking spaces, low/no fee

If there is to be an RV park with funding, some of the space needs to be left open for additional parking

This premium site should bring energy and life to the center of Sandpoint for max use by the community

The RV park is an important piece of Sandpoint. We have the funding. Let's move forward as intended

What was originally intended, what serves the community not investors, what do we have funding to do

To replace RV park revenue, fees could be charged for: food trucks, boat trailer parking, festivals etc. R

Boat trailer parking fees would help offset income lost to RV Park. Also "maintenance" of the RV park is

Improve the rv park.

We don't have money to improve or change the land unless using the grant. Do not accept money from

There is money to improve, so do so and keep this land as it was intended.

Fiscally responsible thing to do is take the path with guaranteed project funding and revenue.

If it ain't broke don't fix it.

The city has absolute control of this property right now. Adding an investor for the monetary gain would

Keep the the park funded by the park not private company who can and will influence its future use

We have funding and the needed to improve the RV park without a lot of extra bells and whistles. We st

What are the long term goals for city beach, the community parks system, and feasibility to maintain all

Proceed with original plan. Avril doesn't need to tell what we should do!

Boat storage should be a private venture, not city. It would be beautiful to combine the carousel and th

Don't be swayed by outside business.

Avril should have no say in this decision. Remember, the city beach area is our community area, not Av

Stop destroying Sandpoint. Quit your job and leave our town.

Food court or ice rink would benefit the community as a whole. Averill funds would have strings attached

nothing wrong with tourism, but protect the rights of full time people who live here year round and fix th

Keep it as is, with grant funded improvements.

Take care of full time residents streets and leave this property to the residents who live here year round

Do not charge Bonner County residents parking at the beach.

Embody the mission of the City of Sandpoint government: be focused on enhancing quality of life, though

My opinion is Averill is not welcome in Sandpoint! They are wolves in sheep's clothing! There are only i

Is Mr. Grimm in alignment with his Oath to the Mayor, City of Sandpoint mission or in conflict?

The RV park is a wonderful option that can be used year round by locals and visitors from all over.

I think the location is tucked away enough and far enough away from the beach activities that any other

Low-cost options available to all, in an attempt to replace what we've lost by giving away the lawn in front

While tourism is a cornerstone of our growing economy, local engagement and quality of life is the foundation

I also do not think we should allow Averill Co to dictate the nature/character of our town in order to attract

Small RV sites for campers and small trailers, with sliding fee scale (perhaps based on length of vehicle)

If the RV Park site remains, I would like to see it reconfigured to include an unmotorized boat/kayak launch

The city needs to look at the community's interest over Averill. The land is very valuable and unique, and

The city needs to ensure there are no agreements with private corporations over the use or control of a

The city has an obligation to serve the best needs of its tax payers and residents. Not any single private

Do not let the pressure for Averill sway your opinion. Do what is in the best interest of the entire City.

I think that keeping it as an RV park, it helps with locals who have family coming as well as tourists travel. I think that keeping it as a revenue generating RV park makes the most sense.

Improving the existing RV park site makes the most sense. If Averill needs parking, then they can factor in parking restrooms and the gazebo sound like nice improvements for the RV park. I would assume that I think it's best to leave it as what it was intended for and what has been working for a long time. Making Stop selling out Sandpoint Mr Mayor. Also we shouldn't have developers anywhere near politics or in power. I believe the revenue to the park department is enough. Not to mention the downtown lodging it provides. Not sure why this is even being discussed. A grant was applied for and approved before some corporations. We have a food court area, additional investments with an indoor seating / beer hall to augment the existing. We shouldn't add additional recreation like basketball or courts here, keep those in the other parks where. Adding Yurts or cabins to an RV park this would expand the options for folks to camp near Sandpoint where Festivals and fairs are a short period, don't dedicate valuable real estate when there are already many. Do not sacrifice public parks and access for a very expensive private resort that will cater to wealthy outsiders. The RV park seems like a relatively low maintenance way of keeping steady revenue in one of our top priorities. Some sort of expanded park space with a new trail on sand creek under the bypass. A multi use space. Keep it local.

If Averill's want to contribute funds, take it, but they seem untrustworthy based on how much they have put emphasis on open public space rather than parking or additional boat storage which is only beneficial. Say no To Big Corporate.

Dump Averill. They've been ineffective and costly in other cities.

I think it would be nice to have "3rd party hangout places". Beautiful lake. No where to really go and enjoy. Out all those options given I feel like having a food court at the beach would be really awesome, but then Find a way to find the master plan from 2020.

Find a way to find the 2020 park master plan.

Our town is not a business. This isn't Disneyland.

We don't need any more waste water issues.

Please do NOT let this land into the hotels hands. It makes no sense to take a valuable asset like this. Winter skating summer kids splash pad.

I just hope that city council learned from the travers park situation and actually takes the community into account. I think we learned from the James Russell building not to just accept grants because it's free money. Or it's important to think of our town as not just the tourist destination it is, but as the home and COMMUNITY. Keep the park public and available for ordinary people to access amenities. Under no circumstances let Restrict amount of time RVs can stay so one RV can't monopolize the site for whole summer. I like look Please do not sell out.

We only have one beach and several parks. At the beach focus on beach water recreation. The RV park The RV park can help fund the Russell Tennis debacle.

This survey suggests some great ideas. Multi use courts, pump track, but we have other parks/green spaces. Make an ice rink for winter. Anything else made there that isn't a rv park will just increase parking need. There's already a very nice food truck court in town a short/ish walk away and already is fairly seasonal. We do not need more people at the beach. Accommodating and making more parking takes away from Just because something is available doesn't make that the best fit for our community!

Keep the locals in mind. No local wants more paid parking to crowd the beach even more.

Don't give in to these developers. They are here for a short time. Then take their money and run. The The park by lake CDA should serve as an example of what Sandpoint should incorporate. It might not cost. We need rv space at the beach.

Deal w/ Averill puts city/residents at a disadvantage. RV park can be revenue generating for 10 years, I do like the idea of revenue from the RV park going towards park improvement funds. As long as the f

The RV park is free money for parks. This is a slam dunk. I love seeing people stay there and enjoying. The RV park lets visitors experience downtown Sandpoint in a unique way not available in CDA. Averill Consider public and environmental health issues related to resident exposure to industrial train tracks. If the RV park continues, consider shorter stays, 2weeks max.

The City should not rely on funds from RV park to support other park activities. Each Park area & activi Don't make the Travers Park JER mistake of moving forward with a funded plan that the City residents There are not many RV parks in the area for tourists needs. If you were to remove this RV park site, the Limit on nights per stay, keep 1-3 spots open for day-of reservations only (increase accessibility),Consi Averilles trust fund to replace revenue & improvements?Even if gifted \$, it's an axiom that Municipalities The RV park site will never be an optimial RV park. City of Sandpoint is not a resort. \$80,000++ in reve Unfortunately, 90% plus of responses will be from the motivated opposition to change. Its easy to yell " I would like to se a partnership with a trusted partner with a proven track record. The Averill's have dor Take into consideration how to compliment the hotel project, and adjoining businesses. I don't believe The long vision of multi-season diverse use of this facility is of the utmost importance for the community The long vision economy of Sandpoints tourism need not be underestimated. It can provide fantastic ta Finally- shows from Festival at Sandpoint and winter market experiences could be utilized in this area, (Don't sell your soul to the devil! The Averill corporation does not have the best interests of Sandpoint's Tell Averill to take a long walk off a short pier. Leave RV park as it is and use the money that Sandpoin Why is this even a question? Council applied for the grant expecting to upgrade the RV park. Follow thi Please have a skilled survey designer produce future surveys.

Keeping the RV and making improvements will increase (beyond 80k) annual funds that then support S Averill can pound sand! They will be able to make money and charge their clients what they please with The income from an RV park will increase with the improvements and with the increase of cost of living Updating the RV space to look cleaner and nicer means people will pay more. More money for parks ar Carousel of Smiles should put a multi use year around building with ice rink, and carousel housing builli Use city beach as a park / water access and more community events

It appears that most of the improvements are based around tourism and people from out of the area. It When you ignore your constituency, they soon ignore you. Development needs to happen, but well-tho Combine green space recreation, ice rink, and food truck idea for economics and community desirabilit

/ Park site?

City Beach RV Park Site

Envisioning the future of our public waterfront property

Welcome and Introduction

Today's focus question:

How can the City responsibly and creatively shape the future use of the RV Park site to best serve community needs, enhance the waterfront, and reflect long-term community values?

Guiding Principles

We invite everyone to strive for:

- **Deep listening:** Hearing to understand, not to respond
- **Thoughtful inquiry:** Asking questions that open thinking before proposing solutions
- **Equitable participation:** Making space for all voices at the table
- **Deliberate progression:** Moving intentionally from understanding → analysis → concept development
- **Transparency:** Sharing ideas, tradeoffs, and reasoning openly

Workshop Roadmap

Today's Process:

1. Background and Presentation of Dilemma – 5 minutes
 2. Survey results – 10 minutes
 3. Clarifying Questions – 5 minutes
 4. Probing Questions – 15 minutes
 5. Table Discussion – 20 minutes
 6. Concept Sketching – 20 minutes
 7. Share-Outs & Reflection – 15 minutes
- = 90 minutes total**

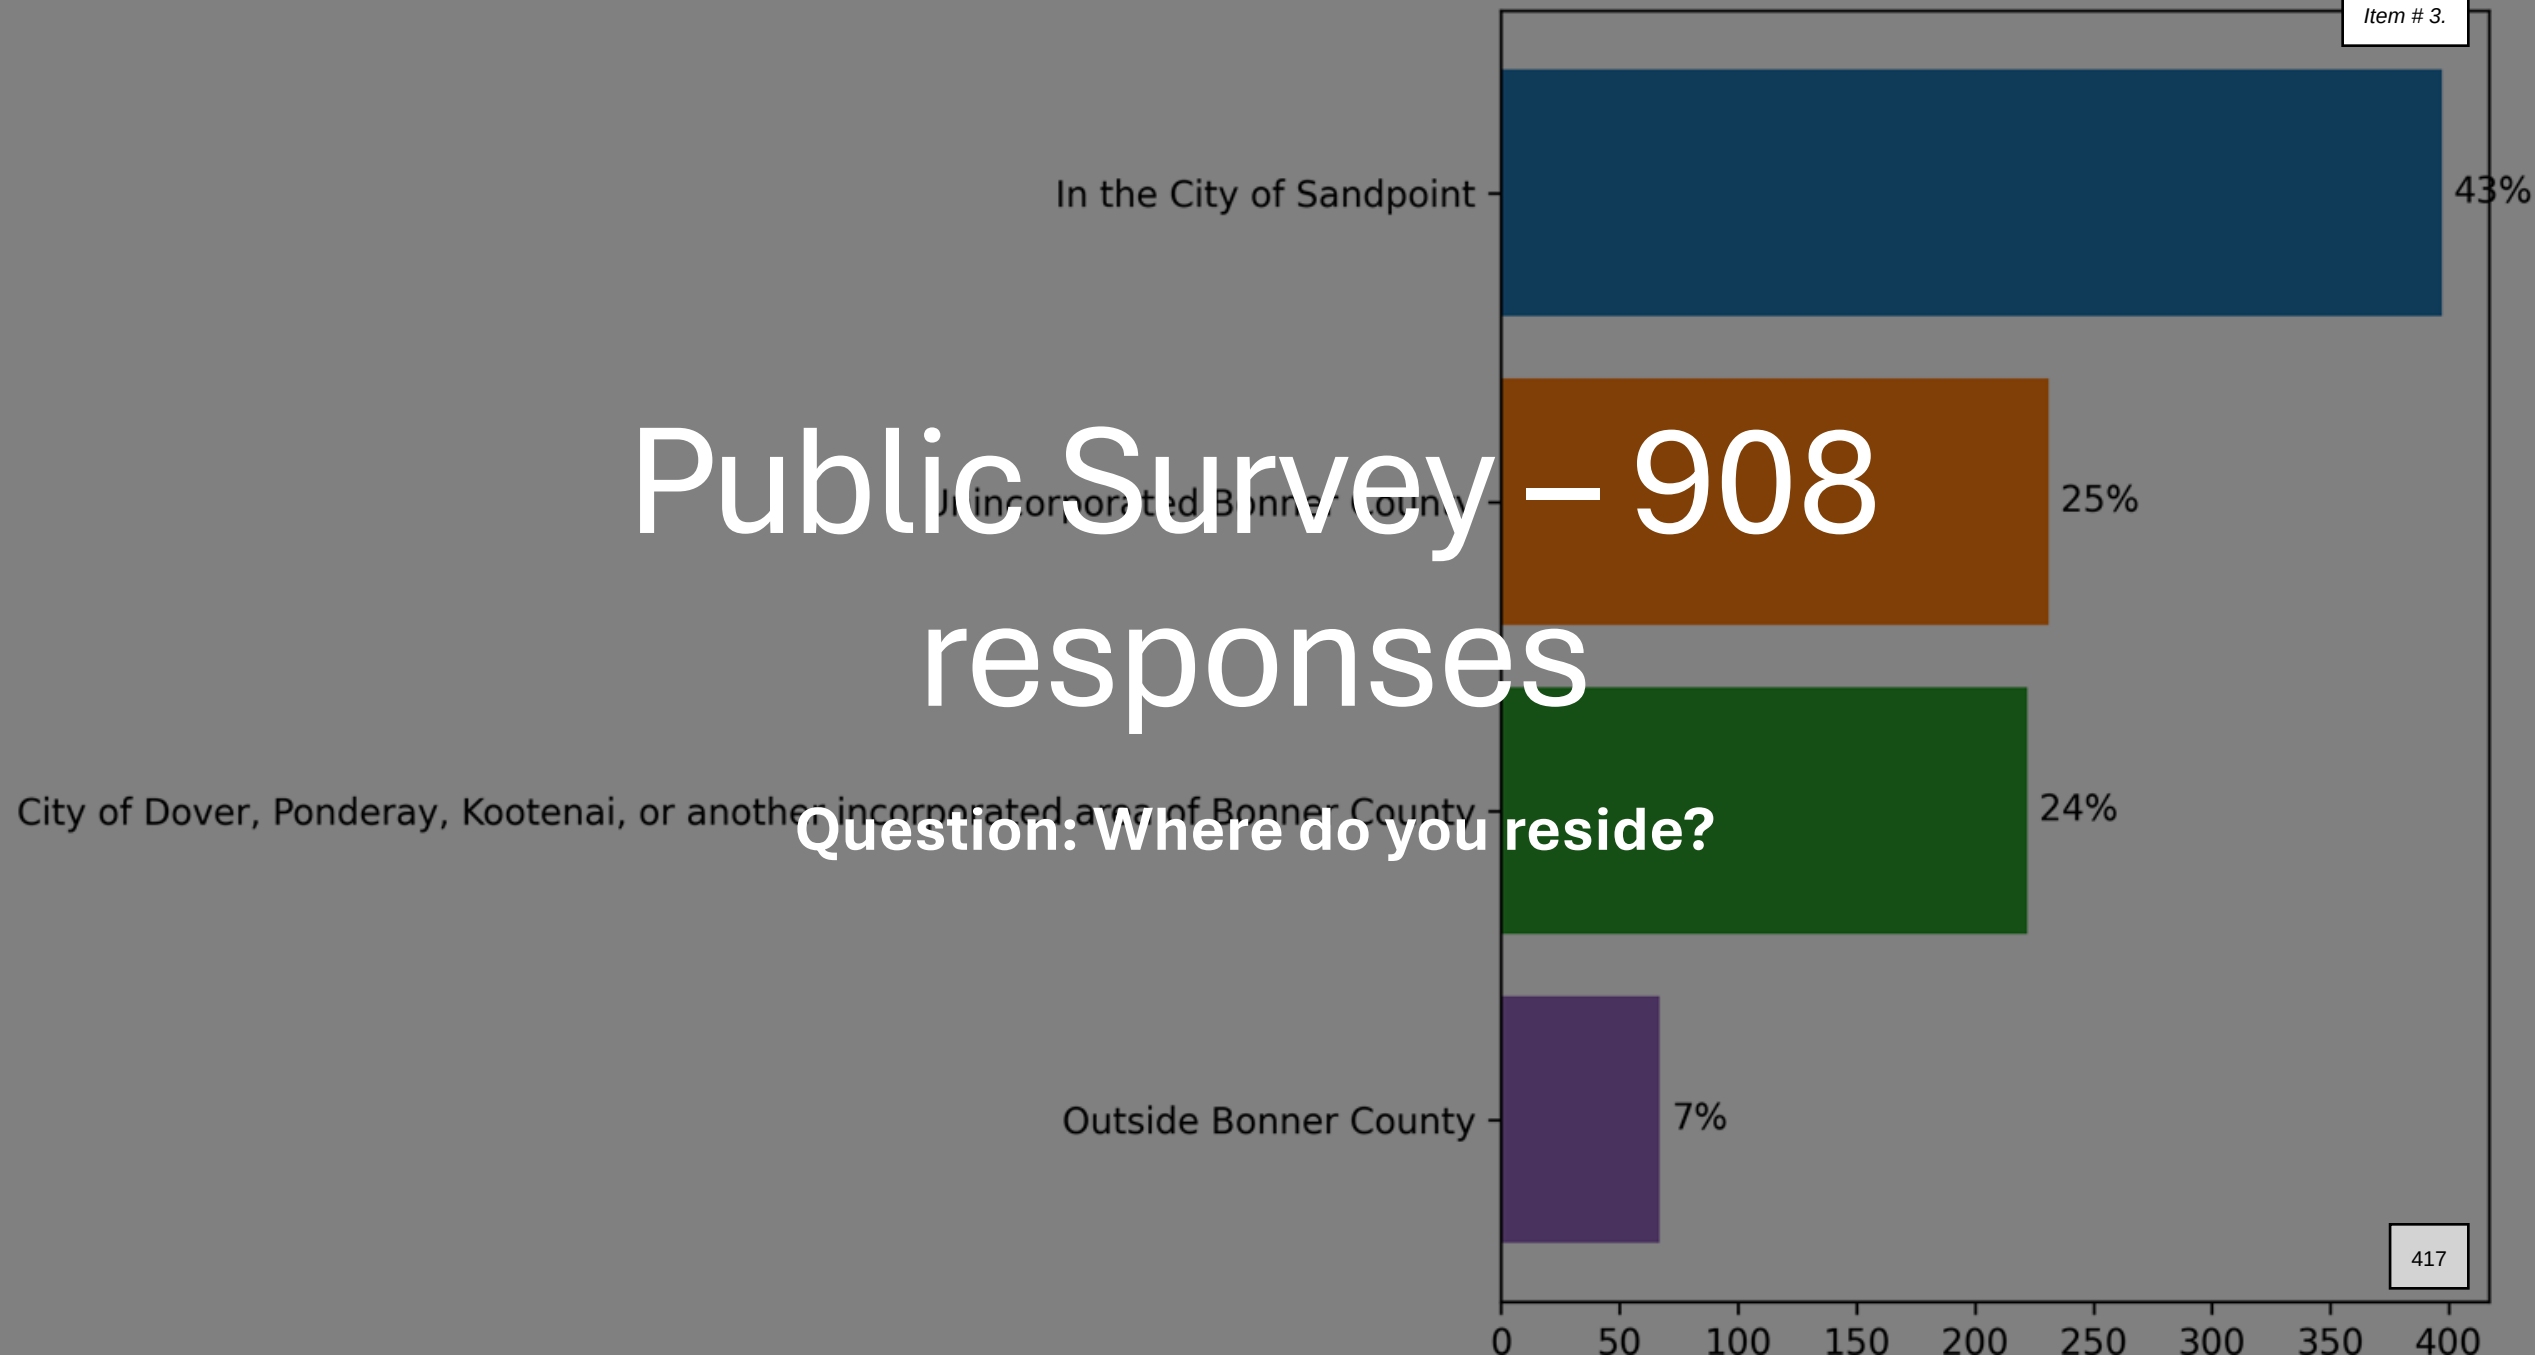

*This workshop directly informs future
Council decisions*

How Did We Get Here?

A Brief History of the City Beach RV Park

- Property first conveyed to the City from Northern Pacific Railway in 1920 – included **restrictive covenant** that assured site would always and forever be used for “**public park purposes.**”
- **1965:** City conveys property to private hospitality company for operation of a RV park.
- **1980’s – 2020:** Cox family operates private RV park
- **2021:** Land swap with Coxes results in City acquiring RV Park in exchange for 1.5 acres of grassy lawn area in front of Edgewater Hotel
- **2021 – 2025:** City operates RV Park, generating **\$100,000/year** in revenue that contributes to **Parks Capital Improvement Fund**
- **2025:** City awarded \$950,000 state RV Fund grant for RV Park renovation and other public improvements to the site.
- **November 5th:** City Council directs staff to pause RV Park improvement effort and consider alternative uses for the site in response to Averill letter and request

Survey Respondents by Place of Residence (908 Responses)

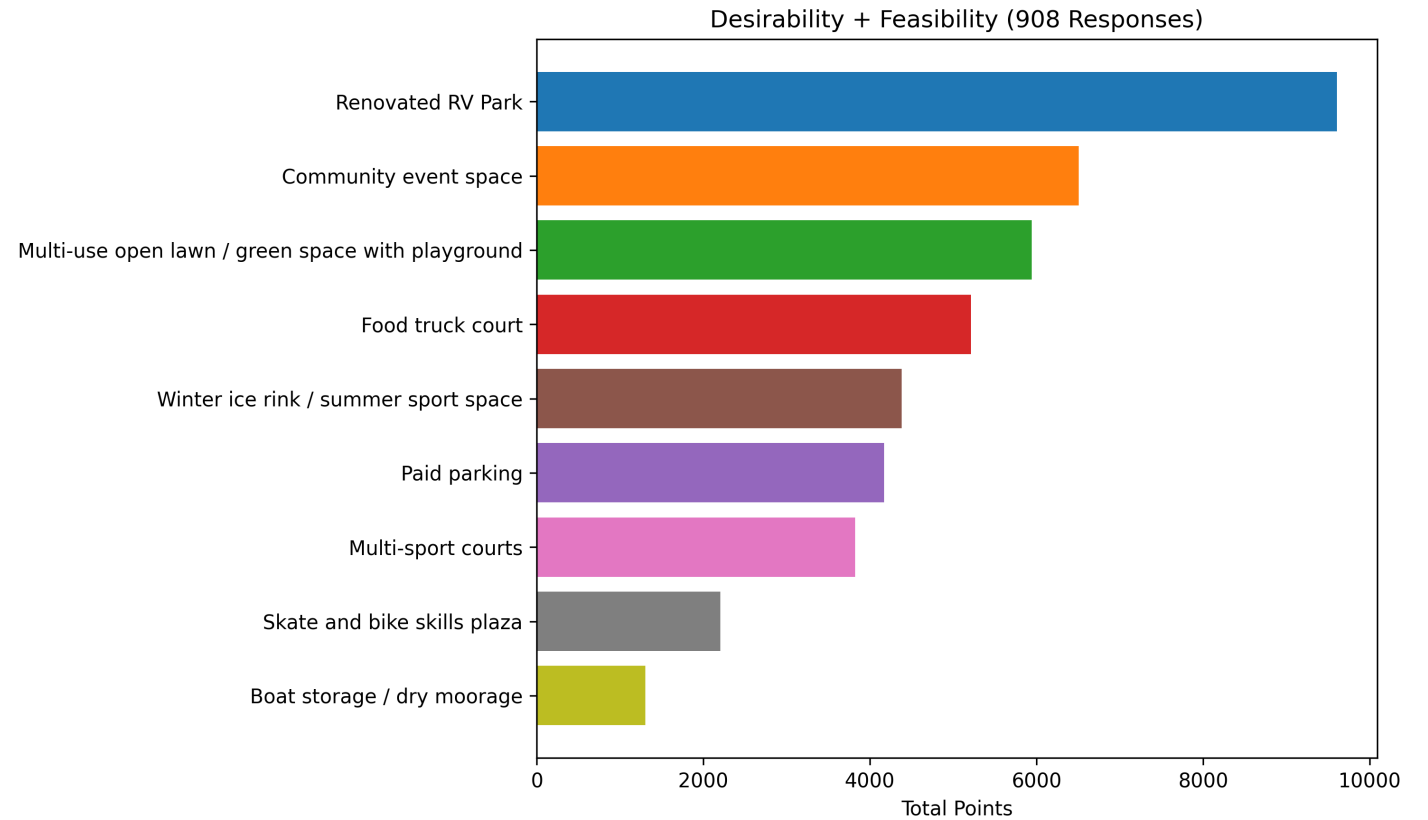

Survey Structure

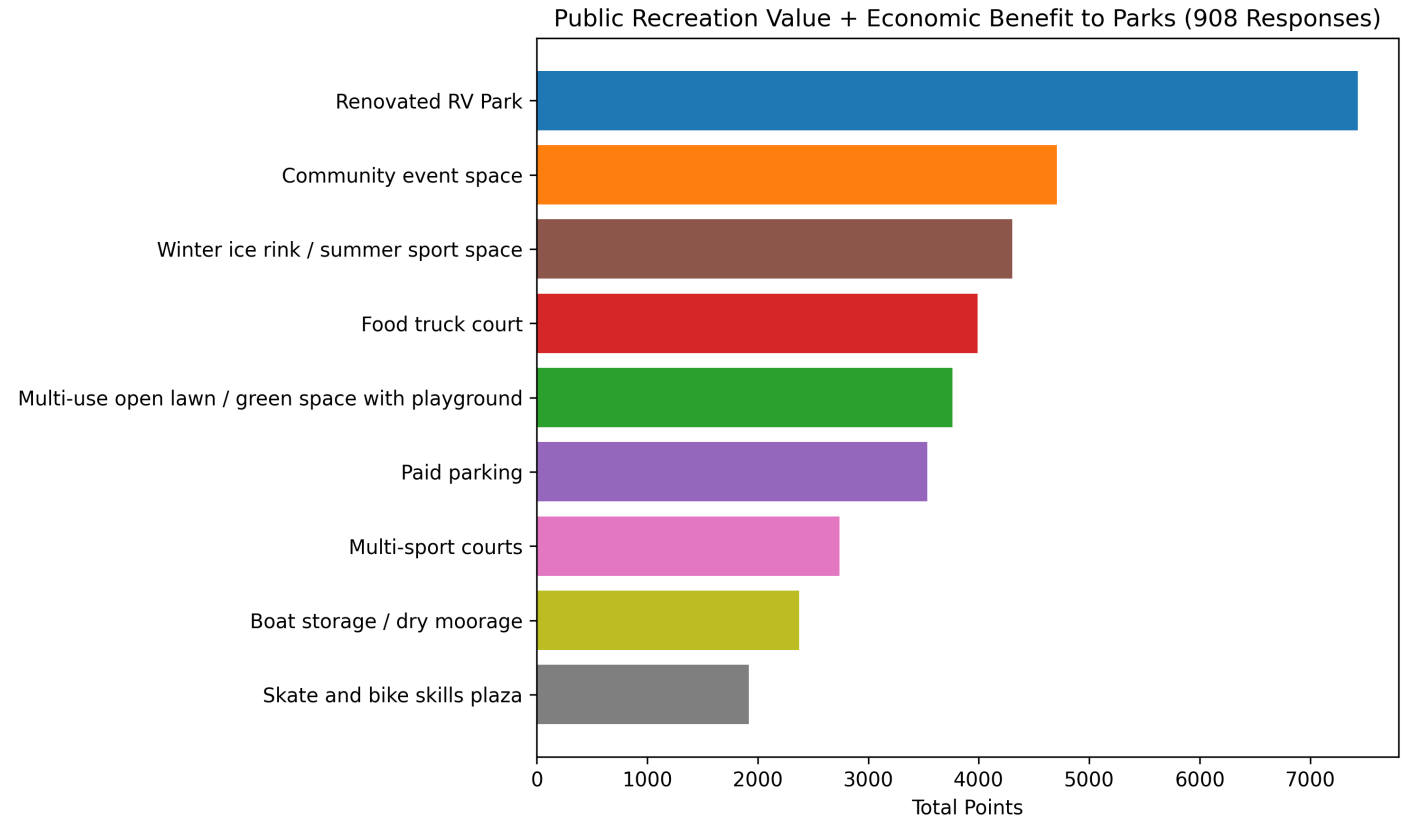

Survey asked respondents to place various alternative uses for the RV Park Site on scales of 0 – 10 based on various variables, including:

- Desirability & Feasibility
- Public Recreation Value & Economic Benefit to Parks
- Benefit During Peak Season & Benefit Throughout the Year

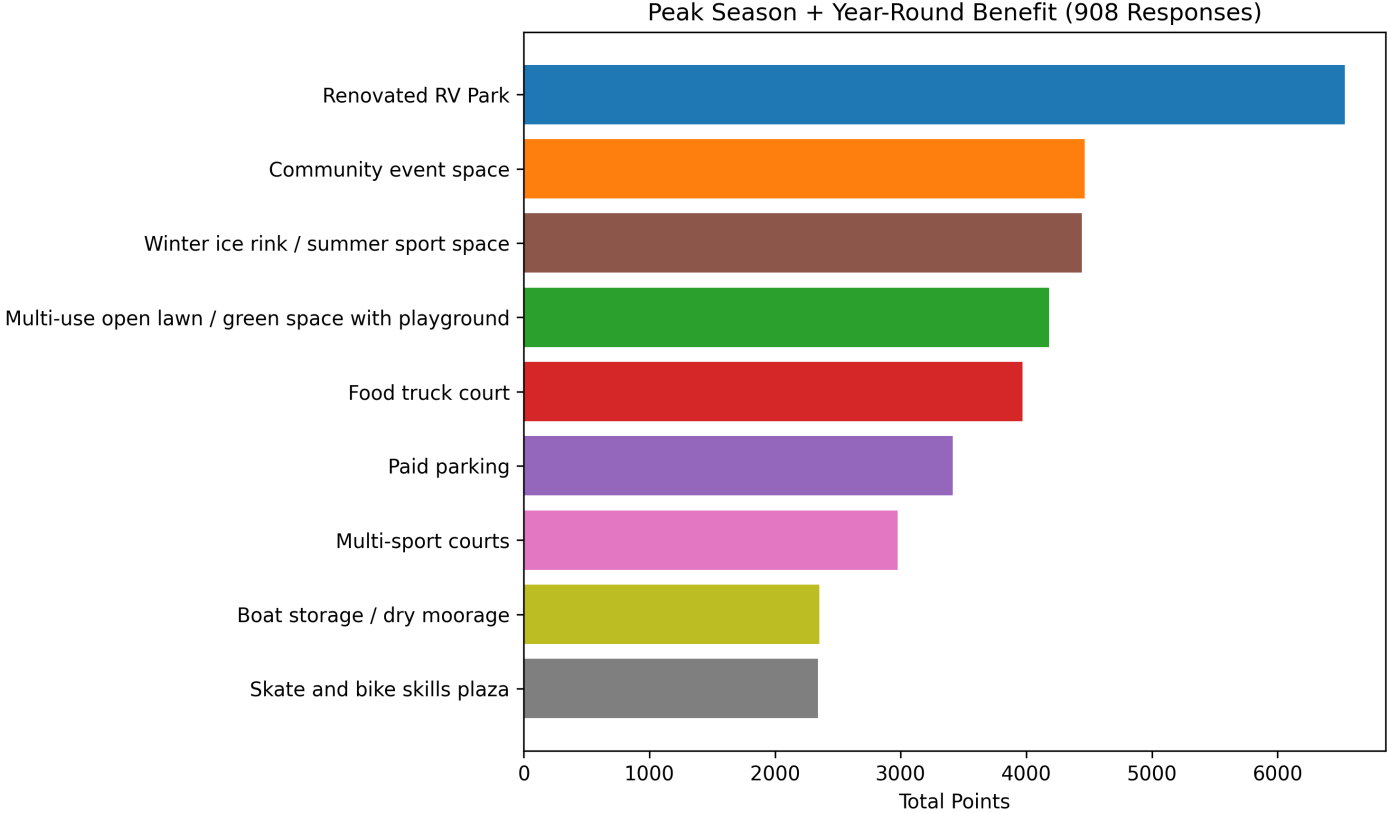

Ranking: Desirability v. Feasibility

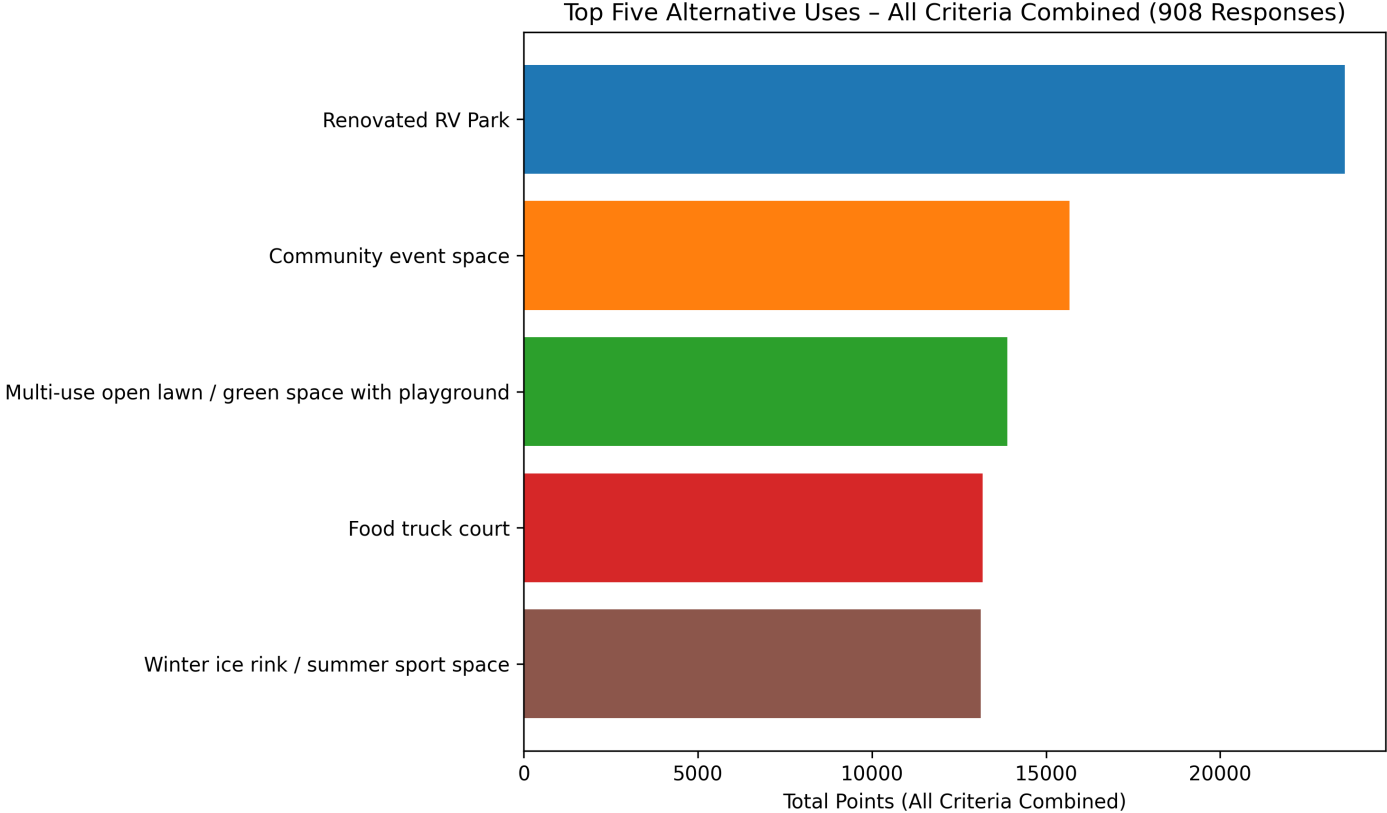

Ranking: Public Recreation Benefit v. Economic Benefit

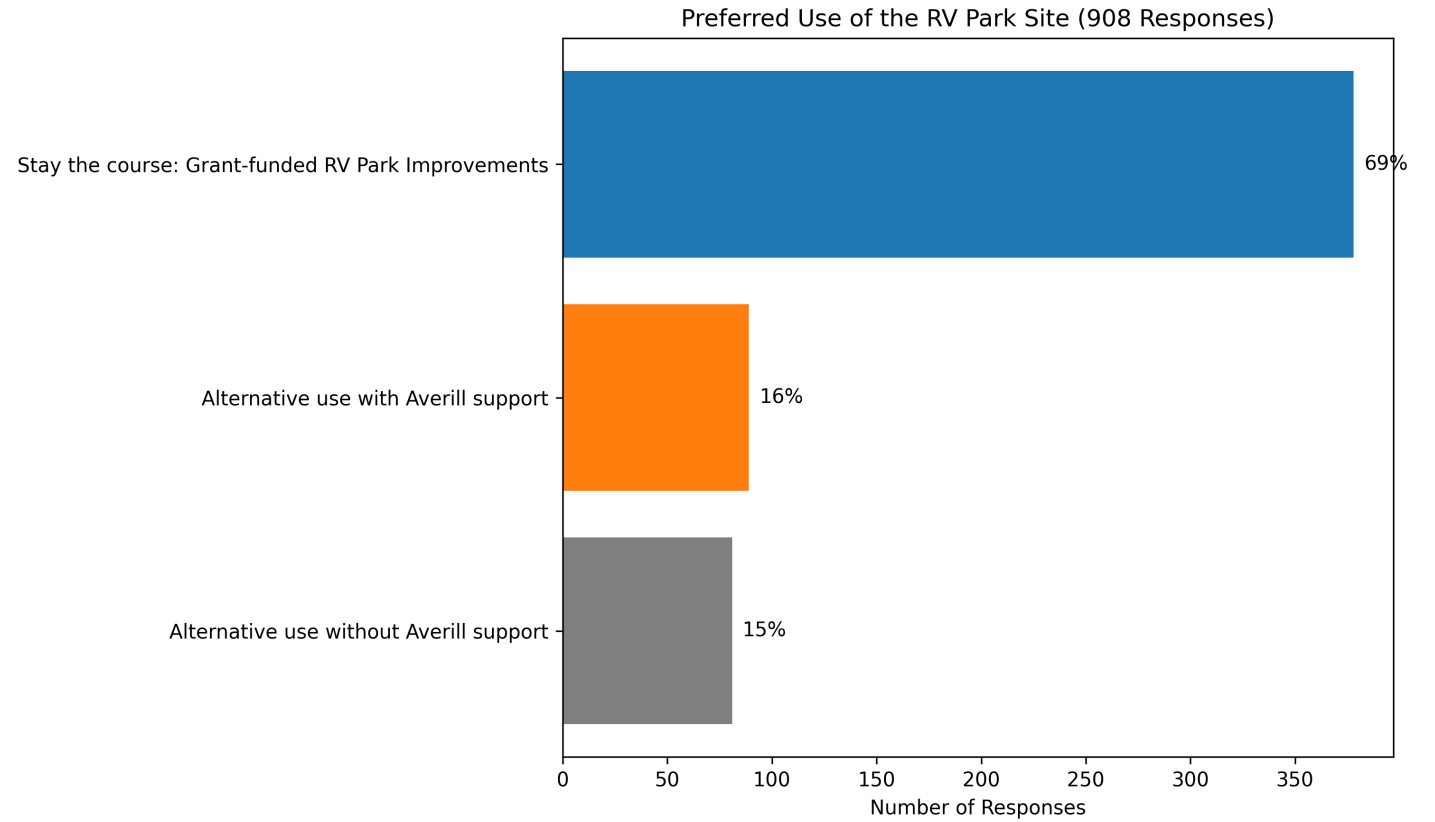

Ranking: Peak Season v. Year-Round Benefit

Total
Combined
Scores – Top
Five

Preferred Course of Action

Key Themes from Open- ended Responses

Strong Support for Public Stewardship and Access

A clear majority sentiment emerges that the RV Park site should:

- remain publicly owned,
- remain broadly accessible,
- and function as a community-serving waterfront asset.

Concerns about privatization or exclusive use were frequently raised, even among respondents open to alternative concepts.

Preference for Practical, Lower-Risk Paths Forward

Responses called for:

- fiscally responsible decisions,
- predictable revenue,
- and avoidance of long-term risk to the City.

Many respondents expressed support for options that build on existing infrastructure rather than introduce uncertain partnerships or funding models.

Key Themes from Open- ended Responses

Revenue Matters – But Not at Any Cost

Respondents consistently acknowledged the importance of revenue for Parks and Recreation. At the same time, the dataset reinforces a key qualifier:

“Revenue is valued most when it directly supports public amenities and preserves the character of City Beach.”

There is limited support for maximizing revenue if it compromises public access, affordability, or the park experience.

Additional Considerations Raised by Respondents

Protection of City Beach Character Is a Shared Priority

Concerns about **over-development** were pronounced. Common themes include:

- preserving open space and views,
- maintaining a park-like feel,
- avoiding intensity that feels out of scale with City Beach.

This concern cut across respondent groups and preferences.

Additional Considerations Raised by Respondents

Long-Term Flexibility and Adaptability

Many responses urged Council to consider solutions that:

- Allow future adjustments,
- Respond to changing community needs
- And avoid locking the City into irreversible decisions.

Phase or incremental approaches were often viewed favorably

Additional Considerations Raised by Respondents

Appreciation for a Transparent, Deliberate Process

Several respondents provided positive feedback about:

- the City slowing down,
- sharing information openly,
- and inviting broad community input before making decisions.

Respondents repeatedly encouraged Council to:

- take the time to get this right,
- weigh tradeoffs explicitly,
- and communicate clearly about next steps.

Key Takeaways from Open- ended Responses

Across open-ended responses, the strongest themes were preserving public access, protecting the character of City Beach, balancing revenue with public value, and minimizing long-term risk to the City. Many respondents emphasized flexibility, transparency, and building on existing investments rather than pursuing irreversible changes.

Clarifying Questions – 5 minutes

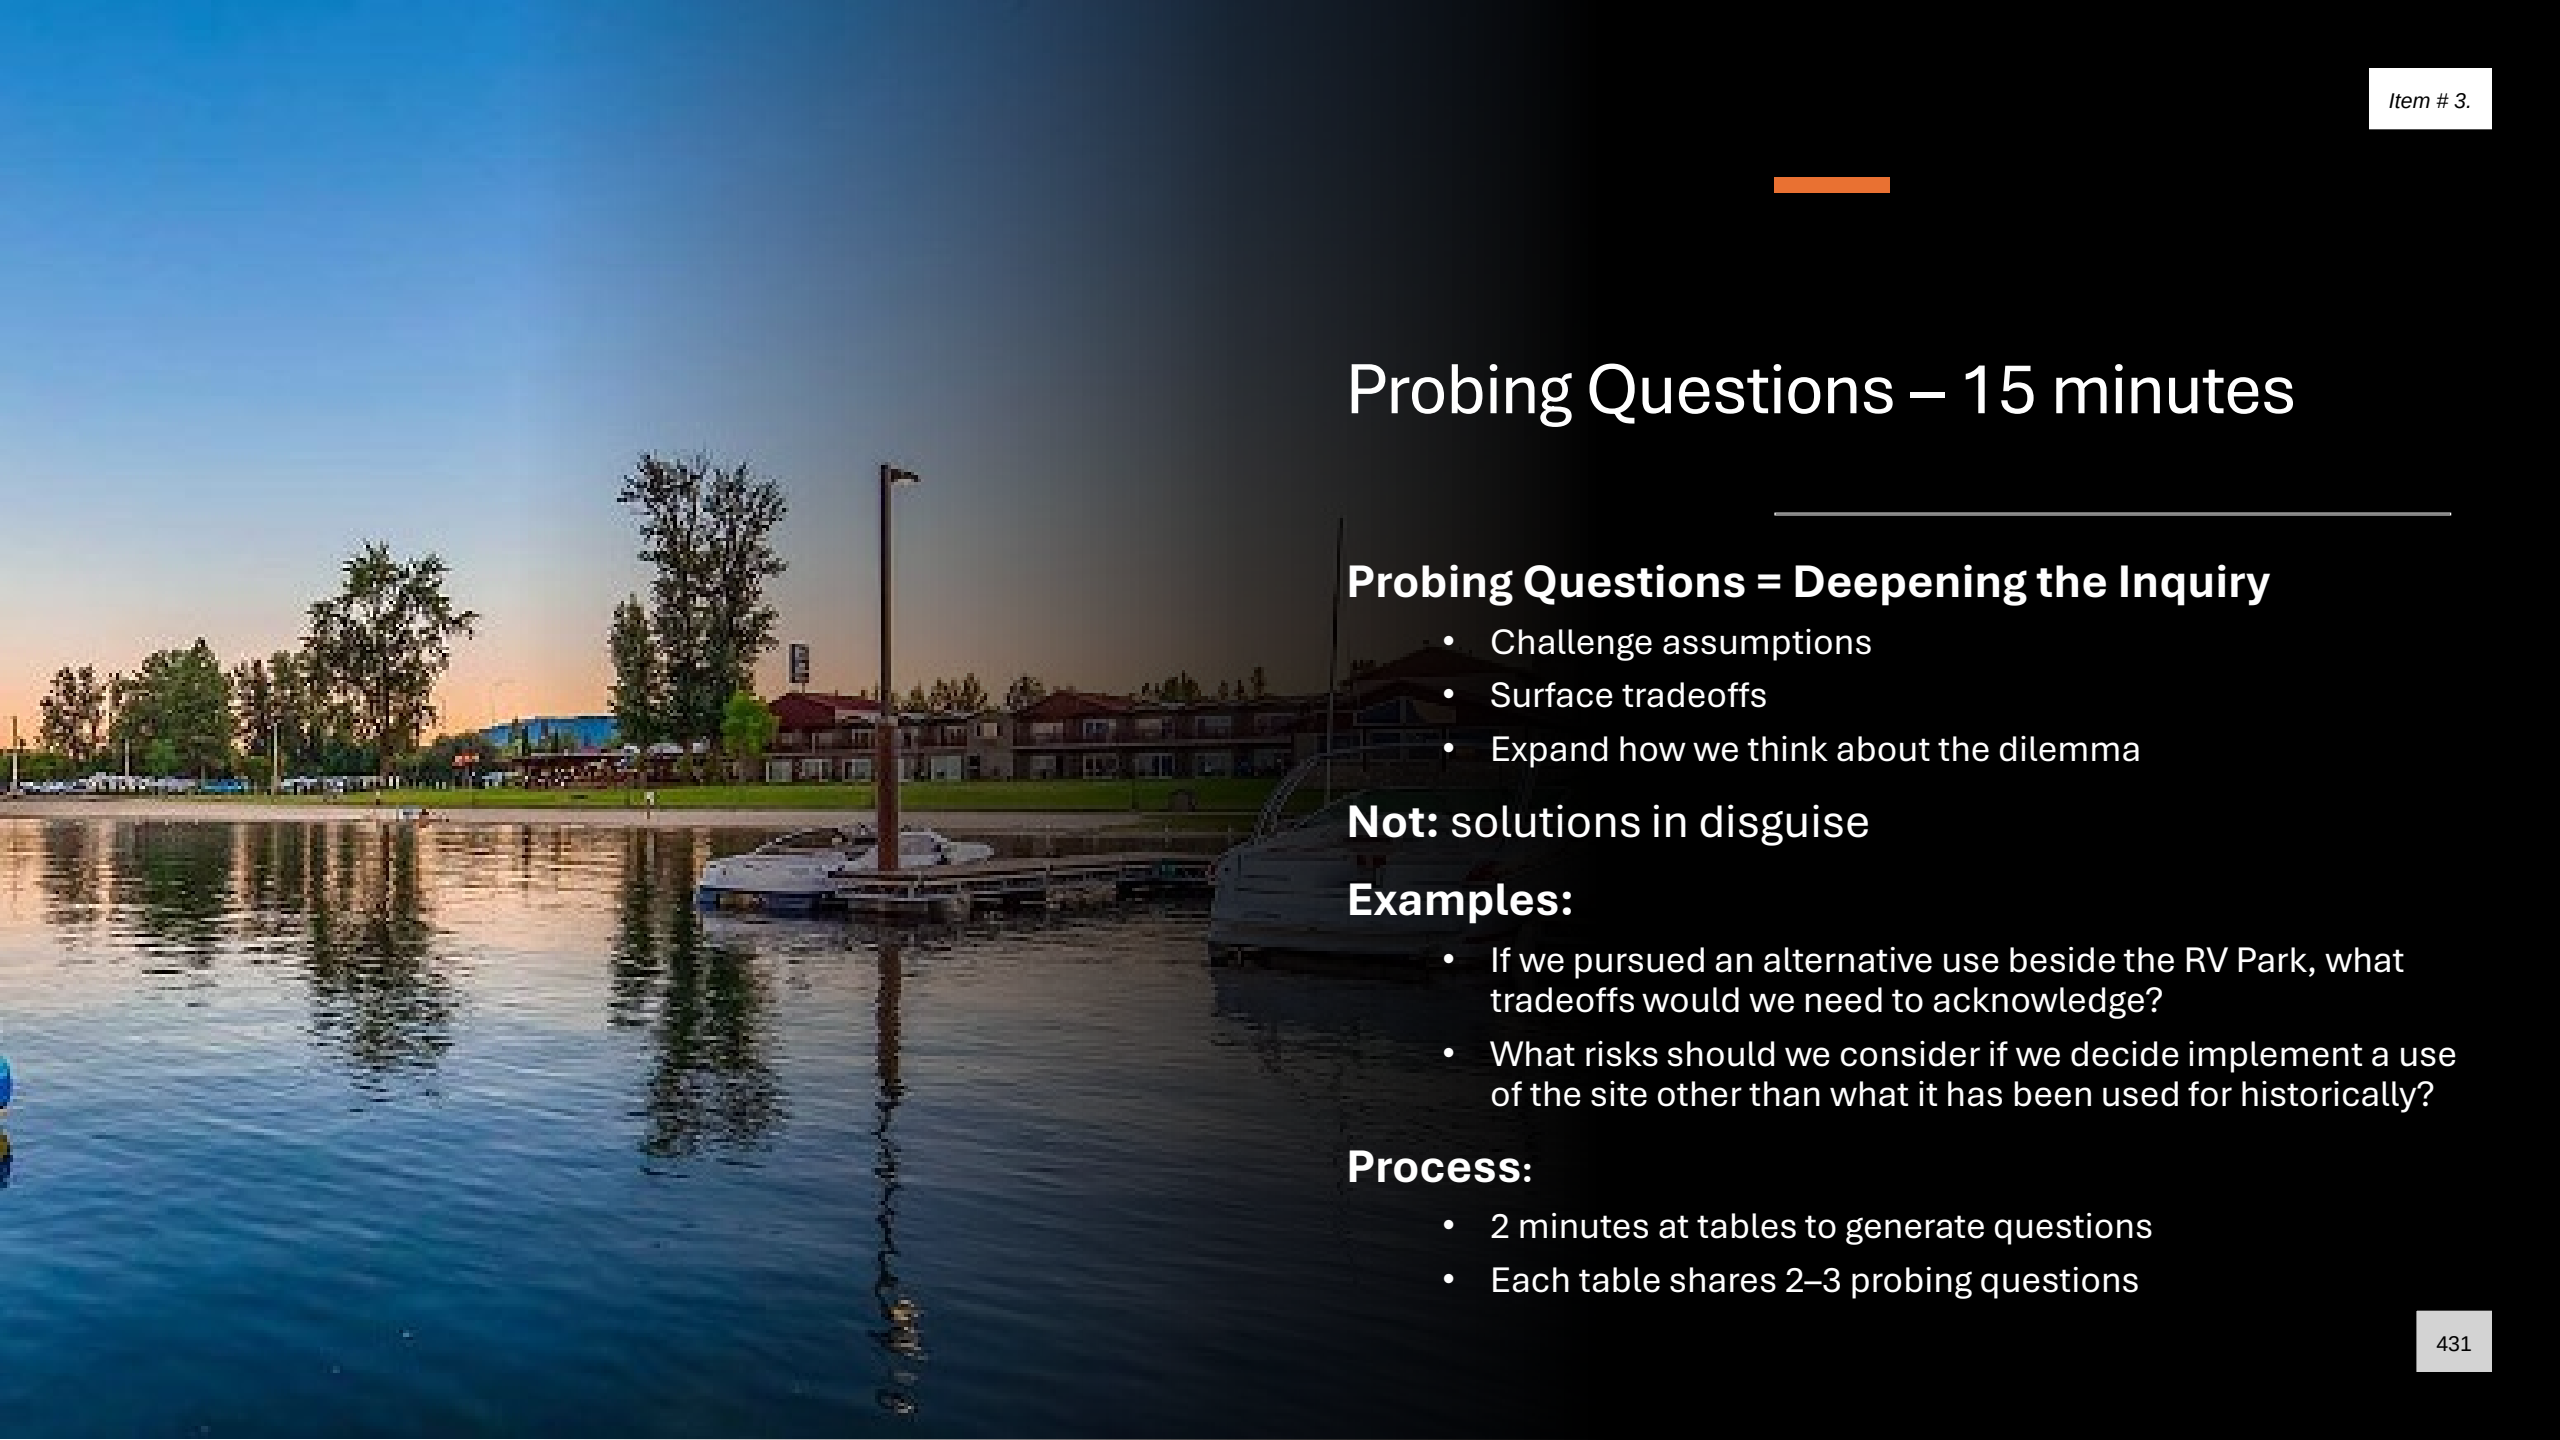

Clarifying questions = Matters of fact

- Help us understand the situation
- No opinions or suggestions
- Short, factual answers only

Examples:

- What utilities exist on the site today?
- What was included in the prior RV Park improvement concept?

Probing Questions – 15 minutes

Probing Questions = Deepening the Inquiry

- Challenge assumptions
- Surface tradeoffs
- Expand how we think about the dilemma

Not: solutions in disguise

Examples:

- If we pursued an alternative use beside the RV Park, what tradeoffs would we need to acknowledge?
- What risks should we consider if we decide implement a use of the site other than what it has been used for historically?

Process:

- 2 minutes at tables to generate questions
- Each table shares 2–3 probing questions

An aerial photograph of a waterfront park area. In the foreground, there is a large, paved parking lot with several cars parked. Behind the parking lot, there is a green tennis court and a sandy baseball field. The park is surrounded by trees and a fence. In the background, there is a body of water and a building. The text "Table Group Discussion – 20 minutes" is overlaid on the image in a large, white, sans-serif font.

Table Group Discussion – 20 minutes

Remember the focus question: *How can the City responsibly and creatively shape the future use of the RV Park site to best serve community needs, enhance the waterfront, and reflect long-term community values?*

Discussion Prompts (in order):

- What did we hear?
- What didn't we hear that might matter?
- What assumptions seem to be operating?
- What questions does this raise?
- What might we do if facing a similar dilemma?

Transition to Design

From Understanding → Conceptual Ideas

- This is not about personal preference
- Ideas should reflect:
 - ✓ What you heard
 - ✓ What you questioned
 - ✓ What tradeoffs you identified

We're shifting from analysis to imagination, grounded in what we learned

Concept Sketching Instructions – 20 minutes

Concept Sketching

At your table:

- Use tracing paper over the aerial map
- Sketch **one or two** concepts
- Label major features

Identify:

Top 3 priorities
Key tradeoffs

Reminder:

This is collaborative, not artistic.

Design Guardrails

Keep in Mind

- Public access and waterfront character
- Financial sustainability
- Seasonal use and flexibility
- Long-term operations and risk

Top five uses from survey:

1. Renovated RV Park
2. Community Event Space
3. Multi-use open lawn / green space
4. Food Truck Court
5. Ice rink / summer sports space

Use these as guideposts, not constraints

Table Share-Outs – 15 minutes

Each table – **2 minutes to share your conceptual designs**

Share:

- One concept or idea cluster
- Top 2-3 priorities
- One major tradeoff

What Happens Next

Staff will compile:

- Survey results
- Workshop input
- Concept sketches

Findings will be presented to City Council. Council will provide direction on how to proceed with RV Park site.

- ***NEXT OPPORTUNITY TO WEIGH IN: WEDNESDAY, JAN 14TH, 2:30 PM IN COUNCIL CHAMBERS (PARKS COMMISSION MEETING)***

Process Debrief

Reflecting on the Process

- How did this structure support the conversation?
- What did you notice about the clarifying → probing sequence?
- What felt different from typical public meetings?

Thank you for participating!!
