2. Update of Downtown Streets Revitalization Phase 3 Advisory Committee

Mr. Peterson provided a brief update, noting that the Advisory Committee has not yet held its first meeting but is in the process of scheduling one.

3. Discussion/Recommendation: Pedestrian and Bicycle Priorities

Council Liaison Schreiber provided an update regarding Council discussion of pedestrian and bicycle priorities. Council is considering updates to the street standards in the Multimodal Transportation Master Plan (MTMP). The committee identified high, medium, and low priority streets and the addition of a "play street" concept for dead end streets. The committee also identified pedestrian vulnerable intersections and encouraging low priority streets to participate in the sidewalk in-leu fee to use funds on high priority streets. Director Ellis also encourages the committee to start documenting the pedestrian and

cyclist experience. O'Reilly made a motion to recommend the Pedestrian Priority Streets Categorization to City Council with a change of the word "awkward" to "dangerous" regarding the Crossings along Highway 2 at "Boyer: present configuration is awkward for bikes and pedestrians".

Motion made by O'Reilly, Seconded by Lankamer

Voted Yea: Huisman, O'Reilly, Heller, Peterson, Billings, Lankamer

4. Discussion: Work Team Reports & 6. Discussion: Future Working Group Needs based on Council Priorities

Agenda items 4 & 6 were combined due to their overlap of working groups.

The MTMP working group provided an update on their work on identifying where the MTMP could be improved. The working group had originally hoped to divide the work into further working groups but no longer thought the idea was appropriate given the discussion prior. The working group identified priorities of updating the MTMP and items for additional working groups to accomplish. An additional working group was formed to identify cyclist and bike needs. The committee formed an additional working group related to wheels.

5. General Updates from Staff Liaison

Mr. Brubaker gave an update on City Councils progress on the zoning updates of the Residential Multi-Family & Residential Single-Family Zones.
