### Old/Unfinished Business

3. City Beach RV Park Site: Survey Results, Community Workshop Summary, and Commission Recommendation

Chairman Long opened the public comment period and outlined meeting decorum and time limits. Members of the public provided input on the future of the City Beach RV Park, expressing a range of views including support for retaining the RV park, concerns regarding financial assumptions and long-term operating costs, interest in alternative or mixed-use uses, traffic and safety considerations, and caution regarding nonbinding developer proposals.

Director Welker summarized the results of December 13<sup>th</sup>, 2025, community workshop and survey, noting strong participation and broad engagement. Staff also reviewed key financial and grant considerations, including the \$950,000 state RV grant, limitations on use of grant funds, projected revenues and expenses, the RV park's contribution to the Parks Capital Improvement Fund, and the potential loss of grant funding if forward progress is not demonstrated by May.

Commission discussion focused on balancing community preferences, financial certainty, grant timing constraints, long-term park planning goals, and the absence of a formal alternative funding proposal.

After discussion Commissioner Delucchi made a motion recommending to City Council that the City proceed with renovation of the City Beach RV Park utilizing currently secured funding, while directing staff to incorporate design or operational improvements that enhance public access and community benefit and to periodically reevaluate the site's long-term use as funding opportunities and community priorities evolve.

Motion made by Commissioner Delucchi, Seconded by Commissioner Victorson.
