## SUMMARY

### INTRODUCTION

Ordinance 1303 will amend the Utility Rates for the years of 2025-2030. The recommended rate changes are designed to match rate revenue requirements, cost of services balance, and rate design for the City’s combined utility. The recommended rate changes are based on a 2025-2030 Utility Rate Study conducted by FCS Group.

### LEGISLATIVE HISTORY

In June of 2020, City of Snoqualmie Council approved an agreement with Financial Consulting Solutions (FCS) Group to conduct a Utility Rate Study and General Facilities Charges Update for the City’s combined utility. Since the adoption of Ordinance 1248, the product of the 2021 Rate study effort, the City has maintained the Utility Rates increases with minor adjustments in the year 2021 (to reduce rates to 0%) and in 2024 (with increases associated with the 2024 fiscal Health Review).

A Fiscal Health Review of the utility rates was conducted in 2023 to study the recent impact that high levels of inflation have had on the revenue requirements of the combined utility. The study indicated that the City would need to increase rates to account for significant inflation. City Council implemented a single year rate adjustment (for the year 2024 only) through Ordinance 1284, adopted on December 11<sup>th</sup>, 2023.

City Council and the Parks and Public works Committee began review of the Utility rate revenue requirements in June of 2024. Parks and Public Works Committee initiated the study and made recommendations to the Council as to the revenue needed to achieve the Six-Year Utility CIP and projected six years of maintenance and operations expenses. This was brought to City Council for review and consideration on June 24<sup>th</sup> and July 8<sup>th</sup>, 2024.

Following the review of Council's rate revenue direction the Parks and Public Works Committee began the cost of services requirement utility rate review step. The cost of services review requires direction to the proper balancing of customer classes (Residential, multi-family, etc.) and their associated contribution to each Utility. Parks and Public Works Committee produced a recommendation that balanced customer class over a six-year time horizon. This was done to ensure each customer class is charged for the appropriate share of each utility expense, maintain equity, as well as careful consideration to correct any customer class imbalances. The Parks and Public Works committee recommendations were presented and reviewed at the November 12<sup>th</sup>, 2024 City Council Meeting.

The final utility rate element consideration, called 'rate design', is review of the balance between fixed rate and variable rate charges for all utility and customer classes. The City has in past utility rate designs made efforts to produce a balanced combination of fixed vs variable charges. This effort is done to smooth the monthly charge, and associated revenue generation, by including a monthly service charge in conjunction with a usage charge. Thus, allowing the City to collect the required revenue for the utilities across an entire year rather than in peak months of usage. In addition, maintaining the past Council rate design emphasizes the efforts to achieve water efficiency goals and minimize misuse or overuse of potable water. The Parks and Public Works committee recommendation(s) for rate design structures were presented and reviewed at the December 9<sup>th</sup>, 2024 City Council Meeting.

Following the direction of the December 9<sup>th</sup>, 2024 Council meeting a proposed Ordinance was produced that reflected the combined rate study efforts. The first version of Ordinance 1303 was first presented to the Parks and Public Works Committee on January 7<sup>th</sup>, 2025 and at the subsequent City Council Meeting on January 13<sup>th</sup>, 2025. Further direction was given to staff for additional review of rate revenue requirements and additional consideration to Utility CIP's project timing and criticality. Staff returned to the Public Works Committee on January 22<sup>nd</sup>, February 4<sup>th</sup>, and February 19<sup>th</sup>, 2025 presenting several rate designs/models. In addition, a complete review of the Utility CIP for project timing, criticality, and expense was conducted as part of the Council directive(s). Following this review, the Parks and Public Works Committee recommended a refined rate design to City Council on February 24<sup>th</sup>, 2025. After review, direction was given to return this rate design as an Ordinance (Version 2 of ORD. 1303) at the next possible Council meeting following all requirements of public noticing and public hearing.

## **BACKGROUND**

FCS Group, in collaboration with the Administration, has worked to define the overall revenue needs of the combined utility, evaluate the cost to provide service to each customer class, and developed rates reflecting the fiscal sustainability and equity goals of Council. A periodic review of the of rates is planned for every four years to maintain the fiscal stability of the combined utility.

## **NEXT STEPS**

The proposed utility rates will go into effect May 1<sup>st</sup>, 2025. Following any decision made as part of the 2025-

2030 Utility Rate Study, staff will bring associated General Facility Charges (GFC) ordinance and charges. Updating of the GFC charges will complete the review of the utility rates maintained by the City's Utilities.

**PROPOSED ACTION**

March 24, 2025: Public Hearing and First Reading of Ordinance 1303.

April 14, 2025: Second Reading of Ordinance 1303. MOVE to approve Ordinance 1303 amending City of Snoqualmie Utility Rates for the years of 2025-2030.

**ORDINANCE NO. 1303****AN ORDINANCE OF THE CITY OF SNOQUALMIE, WASHINGTON, ESTABLISHING RATES FOR THE CITY'S COMBINED UTILITY FOR THE YEAR 2025-2030, AMENDING SNOQUALMIE MUNICIPAL CODE SECTIONS 13.08.010, 13.08.090, 13.10.050, AND 13.12.010; AND PROVIDING FOR SEVERABILITY AND AN EFFECTIVE DATE**

**WHEREAS**, the City of Snoqualmie operates a combined water, wastewater, and stormwater utility pursuant to RCW 35A.80.010 and Chapters 35.67 and 35.92 RCW; and

**WHEREAS**, water, sewer, and storm water services provided by the combined utility of the City of Snoqualmie are critical to the health and welfare of the citizens of the City; and

**WHEREAS**, the City produces Class A reclaimed water as a by-product of its wastewater treatment process and delivers it to a reservoir (Eagle Lake) for use by the City's bulk rate customers; and

**WHEREAS**, pursuant to the Growth Management Act (GMA), Ch. 36.70A RCW, the City has adopted a GMA Comprehensive Plan, entitled Snoqualmie 2044, which describes the City that residents wish to leave to future generations, expresses goals and policies to guide that vision, provides a generalized land use plan for the City and its urban growth area, provides for the existing population as well as the population and employment growth anticipated to occur through the year 2044, establishes the foundation for implementing programs and regulations, and provides a guide for City budgeting; and

**WHEREAS**, as required by law, Snoqualmie 2044 also includes a Capital Facilities and Utilities Elements, which includes the following: (a) identifies the general location, proposed location, and capacity of the City's existing and proposed water, sewer and stormwater utility facilities; (b) sets forth a forecast of the future needs for such capital facilities; (c) shows the proposed locations and capacities of expanded or new capital facilities; and, (d) provides at least a six-year plan that will

finance such capital facilities within projected funding capacities; and

**WHEREAS**, in addition to the utility planning set forth in Snoqualmie 2044, the has a General Sewer Plan, Water System Plan, and Stormwater Management Plan, which itemize and describe those capital improvements to the City’s sewer, water, and stormwater infrastructure that are necessary to maintain the City’s combined utility system and provide sufficient capacity to serve the population and employment growth anticipated in the City’s GMA Comprehensive Plan; and

**WHEREAS**, the City’s 2025-2030 Capital Improvement Plan (“CIP”) constitutes the six-year plan called for by the GMA’s Capital Facilities Element requirements; and

**WHEREAS**, the City is authorized by RCW 35A.80.010, RCW 35.67.020 and RCW 35.92.020 to fix, alter, regulate, maintain, and control the rates and charges for services and facilities provided by its utilities; and

**WHEREAS**, the City monitors revenues and expenditures periodically to ensure that revenues exceed expenditures, and to determine whether additional adjustments to utility rates are required in order to ensure that revenues will continue to exceed expenditures; and

**WHEREAS**, rate and charge adjustments are necessary from time to time to ensure that sufficient revenue exists to properly maintain the City's combined utility and provide adequate services to customers of the combined utility; and

**WHEREAS**, a 2025-2030 Utility Rate Study was conducted by Financial Consulting Solutions (FCS) Group that developed proposed rates for each utility for the period from 2025 through 2030; and

**WHEREAS**, the 2025-2030 Utility Rate Study concluded that water, sewer and stormwater rate and charge increases in the amounts set forth herein are required in order to pay the ongoing costs of operating and maintaining the City’s combined utility and to pay the capital

costs of those necessary improvements to the City’s water, sewer and stormwater infrastructure set forth in the City’s adopted 2023-2028 CIP; and

**WHEREAS**, a duly noticed public hearing was held on March 24, 2025, regarding the rates and charges established herein;

**NOW THEREFORE, BE IT ORDAINED** by the City Council of the City of Snoqualmie, Washington, as follows:

**Section 1. Section 13.08.010 Amended.** Section 13.08.010 of the Snoqualmie Municipal Code is hereby amended and adopted to read as follows (amendments shown in strikethrough/underline format for ease of reference):

**13.08.010 Residential Rates and charges.**

The following monthly sewer rates and charges are hereby imposed on residential and multifamily customers:

A. Residential: This customer class includes each separately metered single-family residence, trailer or mobile home in a trailer court or mobile home park, and each separately metered townhome or duplex residential unit.

<b><u>Residential Rate</u></b>	<del>2021</del>	<del>2022</del>	<del>2023</del>	<del>2024</del>	<del>2025</del>	<del>2026</del>

	\$96.68	\$97.64	\$97.64	\$97.64	\$97.64	\$97.64

D. A “low-income residential customer” means an individual:

1. Who owns or rents and resides in the residence where the discounted rate(s) are being requested;
  2. Whose residence has a separate water meter;
  3. Whose total household annual income meets the U.S. Department of Housing and Urban Development, Income Limits for Very Low Income in King County, Washington.
- Household annual income shall include income of a spouse or any co-resident(s), where “annual income” is defined as Adjusted Gross Income as indicated in the most recent Federal Income Tax return. In the absence of a Federal Income Tax return, the Finance Director may consider other documentation of household annual income; and

4. Who is not nor is any other adult member of the household claimed as a dependent on another federal income tax return; and
  5. Who is named customer on the City's utility bill or can prove that he or she is the named tenant in a lease or rental agreement for that residence.
- E. The Finance Director shall create an application form and a renewal form for residential customers requesting the low-income residential customer discount.
1. Applications shall be available at City Hall or mailed to any City customer upon request.
  2. The low-income residential customer seeking the low-income discount must complete an application renewal form annually in order to continue receiving the low-income residential customer discount.
  3. A notice of renewal of application will be mailed annually by the City to low-income residential customers then receiving the discount. The completed renewal application form and required attachments must be returned to the City within 30 days or the discount will no longer apply.
  4. Discounts will commence on the next subsequent billing date following application.
  5. A low-income residential customer who applied for and received the discount in the prior year, but who has failed to submit the renewal form within the required 30 days and whose low-income customer discount was discontinued as a result, may request a one-time only retroactive application of the low-income discount for not more than 2 billing cycles or two months.
  6. A low-income residential customer is not eligible for the low-income discount if his or her annual water consumption is in excess of 100 cubic feet (ccf) per year on a calendar year basis. An applicant may appeal the criteria to the Finance Director and must provide a convincing justification for the excess usage.

F. The sewer bill for a low-income residential customer whose application is determined by the Finance Director to meet the criteria of subsections D and E above will be discounted by 30 percent.

**Section 2. Section 13.08.090 Amended.** Section 13.08.090 of the Snoqualmie Municipal

Code is hereby amended and adopted to read as follows:

**13.08.090 Commercial Base and Volume Rate Structure**

A. The following monthly sewer rates and charges are hereby imposed on the commercial and industrial customer classifications. This customer class includes without limitation hotels, restaurants, schools, hospitals, churches, lodges, intermittently used buildings, government uses, potable irrigation, and commercial or industrial uses. This customer class includes all business/industrial types identified in section **13.08.080** as well as emerging business or industrial types of the City may classify in the future to protect the sewerage system and prevent cost of service inequities.

<b>Commercial Rate</b>	<b><u>2021</u> <u>2025</u></b>	<b><u>2022</u> <u>2026</u></b>	<b><u>2023</u> <u>2027</u></b>	<b><u>2024</u> <u>2028</u></b>	<b><u>2025</u> <u>2029</u></b>	<b><u>2026</u> <u>2030</u></b>

B. For commercial customers, the base monthly unit charge will be added to an estimated

volumetric charge for the water used at the premises, based upon the average usage for the corresponding month of the preceding year, averaged over a three-month period including the preceding and following month. In the event there is no prior history for the preceding year, the charge shall be based upon the average water usage for the month for all customers of the municipal water supply system in the same service class.

**Section 3. Section 13.12.010 Amended.** Section 13.12.010 of the Snoqualmie

Municipal Code is hereby amended and adopted to read as follows:

**13.12.10 Rates and charges.**

The following rates and charges for all water are hereby imposed:

- A. Each ratepayer shall pay for water service based on the applicable meter size. Rates for water service shall consist of a monthly base service charge based on rate classification, plus a volume charge also based on rate class.
- B. Residential: This customer class includes each separately metered single-family residence, trailer or mobile home in a trailer court or mobile home park, and each separately metered residential unit in a townhome or duplex.

4. Rates for outside City commercial customers shall be 1.5 times the inside the City rates for the base charge and the consumption rates. Base (minimum) service, according to meter size and location outside the corporate limits of the city, for all residential water classifications, other than Class A reclaimed water, shall be as follows:

<u>Volume Rate</u>	<u>2025</u>	<u>2026</u>	<u>2027</u>	<u>2028</u>	<u>2029</u>	<u>2030</u>
<u>Per 100 cf</u>	<u>\$6.93</u>	<u>\$7.40</u>	<u>\$7.89</u>	<u>\$8.43</u>	<u>\$9.00</u>	<u>\$9.62</u>

F. Whenever two or more rate classifications are serviced by one meter, the highest of the utility rates is imposed on the customer.

G. In computing the applicable water consumption charge for all customer classes, once the threshold is exceeded for each block, the next block’s rate shall be used.

H. In the event a customer is not connected to a meter service, or a meter has broken, become out of order or failed to accurately meter actual water usage, the customer shall be charged the base or minimum charge, together with an estimated charge for the water used at the premises, based upon the average usage for the corresponding month of the preceding year, averaged over a three-month period including the preceding and following month. In the event there is no prior history for the preceding year, the charge shall be based upon the average water usage for the month for all customers of the municipal water supply system in the same service class.

I. A “low income residential customer” means an individual:

1. Who owns or rents and resides in the residence where the discounted rate(s) are being requested;
2. Whose residence has a separate water meter;
3. Whose total household annual income meets the U.S. Department of Housing and Urban Development income limits for very low income in King County, Washington. Total household annual income shall include that of a spouse or any co-resident(s), where “annual income” is defined as adjusted gross income as indicated in the most recent federal income tax return. In the absence of a federal income tax return, the finance director may consider other documentation of household annual income;
4. Who is not nor is any other adult member of the household claimed as a dependent on another federal income tax return; and
5. Who is named customer on the city’s utility bill or can prove that he or she is the named tenant in a lease or rental agreement for that residence.

J. The finance director shall create an application form and a renewal form for customers requesting a low income residential customer discount provided by subsection K of this section.

1. Applications shall be available at City Hall or mailed to any city customer upon request.

2. The low income residential customer seeking the discount must complete an application renewal form annually.
  
3. A notice of renewal of application will be mailed annually by the city to low income residential customers then receiving the low income discount. The completed renewal application form and required attachments must be returned to the city within 30 days or the discount will no longer apply.
  
4. Discounts will commence on the next subsequent billing date following application.
  
5. A low income residential customer who applied for and received the discount in the prior year, and whose low income residential customer discount was discontinued as a result of the customer's failure to submit the renewal form within the required 30 days may request a one-time-only retroactive application of the low income discount for not more than two billing cycles or two months.
  
6. A low income residential customer is not eligible for the discount if his or her annual water consumption is in excess of 100 cf (hundred cubic feet) per year on a calendar year basis. Applicant may appeal the criteria to the finance director and must provide a convincing justification for the excess usage.

K. The water bill (including base and volume charges) of a customer whose application is determined by the finance director to meet the criteria of subsections I and J of this section will be discounted by 30 percent.

L. The rate for retail customers of the municipal irrigation system for Class A reclaimed water shall be the base rate plus the volume rate specified below.

1. The base rate shall be based upon allocation of the existing total base among the current 755 Class A reclaimed water zones in the city’s computer-controlled irrigation system as follows:
