Where do the *housing* numbers come from?

- HB 1220 requires cities to address housing need at each income level
- Washington Department of Commerce issued [Housing Element Guidance](#) that illustrates the housing types related to income levels

Exhibit 3. Statewide housing needs by income level

Future housing needs broken down by area median income (AMI) groups

1.1 Million new homes will be needed in the next 20 years

In addition, there will also need to be:

91,357 Emergency housing beds (temporary housing)

Where do the *housing* numbers come from?

- King County and its cities worked together to identify housing need by income level for each jurisdiction's growth target

¹ Bona Arts Village and Harris Point both have growth targets of one unit, meaning their total need allocated is also one unit. The allocation process divides that unit up into multiple area median income bands, but to get need allocations that are whole numbers, we round all allocations in each area median income band and the emergency housing/shelter category.

Subject: CLAIMS REPORT
Approval of payments for the period: August 13 through September 1, 2026

BACKGROUND

Per RCW 42.24.080, all claims presented against the city by persons furnishing materials, rendering services, or performing labor must be certified by the appropriate official to ensure that the materials have been furnished, the services rendered, or the labor performed as described, and that the claims are just, due, and unpaid obligations against the city, before payment can be made. Expedited processing of the payment of claims when certain conditions have been met allows for the payment of claims before the legislative body has acted to approve the claims when: (1) the appropriate officers have furnished official bonds; (2) the legislative body has adopted policies that implement effective internal control; (3) the legislative body has provided for review of the documentation supporting the claims within a month of issuance; and (4) that if claims are disapproved, they shall be recognized as receivables and diligently pursued. The City of Snoqualmie meets all requirements of this state law.

Pursuant to Snoqualmie Municipal Code (SMC) Chapter 3.85, all Claims, Demands and Vouchers against the city, provides that the Finance Director or her designee will examine all claims prior to payment and provide periodic reporting of the payments to the City Council for final approval. Per SMC 3.85.040, to meet these requirements, the Finance Director schedules payment of claims and payroll for monthly Finance & Administration Committee review followed by full City Council approval on the consent agenda. Per SMC 3.85.050, documentation supporting claims paid and the Finance Director's written report are made available to all city council members at City Hall for 48 hours prior to the Finance & Administration Committee meeting. Following the 48-hour review period, the Finance & Administration Committee considers the claims as part of its regular agenda and recommends to the full city council whether to approve or disapprove the claims. Consistent with these requirements, this report seeks City Council approval of payment of claims and payroll batches summarized in the table below.

ANALYSIS

All payments made during these periods were found to be valid claims against the city. The City's internal controls include certification of the validity of all expenditures by the appropriate department and an internal audit conducted by designated finance department staff who review all claims and payroll payments. Staff performs system validation and exception reviews to validate payroll records. The Finance Director performs a random sampling review of supporting documentation for claims payments to ensure validity, as well as regularly reviews its processes to ensure appropriate internal controls are in place. The City issues disbursements for claims and payroll via the following methods:

- Warrant: paper negotiable instruments, very much like, although legally distinct from, checks
- Commercial Credit Card: as authorized by Financial Management Policy
- Electronic Funds Transfer (EFT). EFTs are electronic banking transactions (no paper instrument) of two basic types: (1) Automated Clearing House (ACH) for Electronic Fund Transfer (EFT) and (2) Wire Transfers a direct transfer between bank accounts

The following table summarizes the claims and payments authorized by the Finance Director:

The foregoing amounts were budgeted in the 2025-2026 biennial budget, and sufficient funds are available to cover these payments, as appropriate. Details pertaining to the individual vendor payments are available in documentation provided for the Finance & Administration Committee and subsequent City Council review by accessing the following link on the city website: [Claims Report](#)
