Passed and approved this 16 day of June, 2026.

Kaydi Smith -- City Secretary

Exhibit A

My name is Coleman Jack Noel Pollock Sr., and I am here to formally raise concerns regarding the conduct of members of the Sweeny Police Department surrounding incidents that occurred on April 1, 2025, and September 23, 2025.

On April 1, 2025, Detective Barnett approached me at my workplace and requested my phone number. I provided it to him, and he called the number while I showed him the device. After I put my phone back in my pocket, Detective Barnett requested to see it again. At that point, in front of a witness, he took possession of my phone by reaching it and forcing it from my hand, and stated "This is now mine, I have a warrant." To this date, I have been unable to locate or verify any warrant related to my arrest or the seizure of my device. I believe this incident may have violated my Fourth Amendment rights regarding unlawful search and seizure.

On September 23, 2025, Police Chief Brad Caudle and Detective Mitch Ferrell arrived at my workplace to execute what I was told were six felony warrants. During the encounter, I repeatedly requested to see the warrants. I understand officers are not always legally required to physically present a warrant at the scene; however, my requests were denied multiple times.

While seated in my work truck, I asked what the charges were, and Detective Ferrell instructed me to exit the vehicle or risk being charged with resisting arrest. I complied immediately and without resistance. After exiting the truck and placing my hands behind my back, I was physically pushed against the fuel tank and steps of my work truck. During this process, my left shoulder — which had a prior injury — was forced beyond its normal range of motion, causing renewed pain and injury.

Once handcuffed, Chief Caudle made several comments that I believe were unprofessional and retaliatory in nature. I had previously filed complaints against the Sweeny Police Department in July 2025 concerning misconduct and the treatment of my mother during a separate interaction. During my arrest, Chief Caudle referenced those complaints and stated words to the effect of, "After everything I've done for you and your family... All the blue Santa's that you didn't deserve... you're going to put a complaint on me?" He also referred to me as "a piece of shit." I remained compliant throughout the entire arrest and did not verbally insult or threaten any officer.

I was also informed by witnesses that Chief Caudle allegedly had his firearm drawn near my head while my back was turned and my hands were being placed

behind me. I personally cannot confirm this because I did not see it happen, but multiple witnesses later reported it to me.

Additionally, I observed Chief Caudle showing something on his phone to my employer while still refusing my repeated requests to view the warrant myself. This raised further concerns for me regarding transparency and professionalism.

I would also like to clarify that although I have had disagreements with Detective Ferrell in the past, I have no complaint regarding his overall conduct toward me on the day of my arrest outside of the events I have already described.

Following my arrest, my children were directly affected. They were removed from the stability of my home and returned to an environment where there had previously been documented CPS findings involving abuse concerns toward my son. My youngest daughter later expressed fear about remaining there and begged for me to come home. The emotional impact this situation has had on my children and family has been severe.

During transport to jail, the transporting officer drove at speeds I estimated to be approximately 90–95 miles per hour without emergency lights or sirens activated. I was not secured with a seatbelt while handcuffed. I believe this unnecessarily endangered my safety and the safety of others on the roadway.

I also question whether Sweeny Police Department officers acted outside their proper jurisdiction when executing my arrest outside city limits instead of allowing the Brazoria County Sheriff's Office to handle the warrant service.

I am not here today to argue my criminal case. I understand that matter belongs in court. I am here because I believe there are legitimate concerns regarding professionalism, possible retaliation, use of force, constitutional rights, and departmental conduct that deserve independent review and public accountability.

I have consulted with multiple attorneys regarding these matters and understand I still have time to determine whether I will pursue civil action. My purpose today is simply to ensure these events are formally placed on the public record and heard by the governing body of this city.

This statement is being submitted for documentation purposes and to preserve an accurate record of these events as I experienced them.

I also state that any actions taken against me or my family after this point that appear retaliatory in nature will be documented and addressed through the

appropriate legal and law enforcement channels.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and recollection

Thank you for your time.

Respectfully submitted,
Coleman Pollock Sr.
