8. First reading of Ordinance 917. An Ordinance of the City of Tenino, Relating to solid waste management designating the Thurston County Solid waste system for Solid Waste originating in the City; adding a new section to chapter 8.32 (Tenino Municipal Code TMC)

Recommended Action: Accept Ordinance 917 as first reading.

CITY OF TENINO, WASHINGTON
ORDINANCE NO. 917

AN ORDINANCE of the City of Tenino, Washington, relating to solid waste management; designating the Thurston County Solid Waste System for solid waste originating in the City; adding a new section to Chapter 8.32 (Tenino Municipal Code (TMC)).

THE CITY COUNCIL OF THE CITY OF TENINO, WASHINGTON, does hereby ordain as follows:

Section 1. Recitals And Findings.

1.1 The City of Tenino, Washington (“City”) and Thurston County (“County”) entered into an Interlocal Agreement to cooperatively manage solid waste planning and management, and for periodic update of the County Comprehensive Solid Waste Management Plan (including the moderate risk waste management plan) (collectively, the “SWMP”).

1.2 Under the Chapters 70A.205 and 70A.300 RCW, all cities and counties in the state are mandated to adopt and implement a comprehensive solid waste plan and a moderate risk waste management plan.

1.3 The County operates and maintains a system of solid waste collection and disposal under Chapter 36.58 RCW (the “system”), including regulation of solid waste handling at the disposal sites of the system, including the Thurston County Waste and Recovery Center, the Rainier and Rochester Drop-Box Facilities and such other sites designated by the County (“system disposal sites”).

1.4 The integrity of the system and the system disposal sites, and their effective administration, are essential to reduce waste, control pollution and protect and promote the public health, safety and general welfare of the County and the City. Consistent with the

SWMP and state law, it is therefore necessary to designate the system disposal sites as the exclusive disposal sites for all solid waste generated and collected within the system areas, including the City.

1.5 The County, City and other cities participating in the County system of solid waste management and planning have worked collaboratively to develop the SWMP.

1.7 It is in the public interest for the City and consistent with its authority under RCW 35.21.152 to designate disposal sites for solid waste originating within the City.

Section 2. Chapter 8.32 TMC Amended. A new section is added to Chapter 8.32 TMC, as follows:

The Thurston County system for solid waste handling and disposal is hereby designated for the disposal of all solid waste generated and/or collected within the City. The City authorizes the County to designate disposal sites for the disposal of solid waste. No solid waste generated or collected within the City shall be diverted from the County's designated disposal site(s) without the County's prior approval. The designation of the County for solid waste disposal shall not otherwise affect the City's programs for and control over solid waste collection, waste reduction and recycling.

Section 3. Ratification and Confirmation. Any actions of the City or its officers prior to the date thereof and consistent with the terms of this resolution are ratified and confirmed.

Section 4. Effective Date. This Ordinance shall be in full force and effect from and after its adoption and publication as provided by law.

The foregoing Ordinance was ADOPTED by the City Council of the City of Tenino, Washington, at a regular open public meeting thereof the _____ day of _____, _____.
