STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Tomah Rotary Hosting an ATV/UTV Rally on September 17 & 18, 2021 at Recreation Park

Summary and Background Information:

(Appropriate Documentation Attached)

Deb Reid associated with the Tomah Rotary Club asked to appear before the council to inform the board members of their upcoming event this fall of 2021.

They are hosting an ATV/UTV rally on September 17 & 18, 2021 at Recreation Park, 1625 Butts Avenue. The club will be attempting to set a new world record for the most ATV's in a parade. The club is working on a tentative parade route to start and end at Rec Park.

Fiscal Note:

Recommendation:

Information given to the council in regards to the ATV/UTV Rally so the board members are aware of this event.

Respectfully submitted by:

Berta A. Downs

Following the Pledge of Allegiance, roll call was taken with the following members present: Mike Murray, Dean Peterson, Donna Evans, Lamont Kiefer (remote), Travis Scholze, Jeff Cram, Richard Yarrington, Shawn Zabinski (remote), Adam Gigous. Quorum present. Absent: None. Also present: City Administrator Brad Hanson, Police Chief Mark Nicholson, Lt. Scott Holum, City Clerk Becki Weyer, Treasurer Julia Mann, Library Director Irma Keller, Senior & Disabled Services Coordinator Pam Buchda, Building Inspector Shane Rolf, Public Works Director Kirk Arity, City Atty. Penny Precour, Public Safety Director/Fire Chief Tim Adler, and CVB Director Tina Thompson.

Reports

Mayor It has been a great winter up until this point in time. Snow is called for later this week, reminder to slow down and give others space and pay attention to children in the area. The Mayor commended all City employees for weathering the strain and stress of Covid-19 and the adjustments of the last year. The effort has not gone unnoticed. We look forward to the new year. Reminder there will be new faces on the Council this year as we move forward into 2021.

City Administrator Bradley Hanson introduced himself and gave a brief commentary on his background. He commended the City staff on their experience and professionalism as he acclimates to his new role.

City Clerk

The Spring Primary will be held on February 16th. The State Superintendent of Public Instruction will be on the primary ballot. The Spring Election will be held on April 6th, 2021. To be a registered write-in candidate for an election, all local office candidates must file registration paperwork with their local clerk by 12:00 p.m. (noon) the Friday before the election. The Clerk's office is currently going through candidates for the Part Time Deputy Clerk position. There were 34 candidates who applied for the position. Interviews will be scheduled between Jan 17th – Jan 29th. Budget books will be distributed this week.

Treasurer

A reminder that property taxes are due by the end of the month, at least one installment is due or it can be paid in full. Dog and cat licenses are also sold at City hall and are due by March 31st. Please do not forget to bring rabies paperwork in order to get your pet licensed.

Police Department

A written monthly report was provided. The newest officer will be starting on January 25th. We have received verbal resignation for an officer and the Police Department will be recruiting for this position. There is one officer off on Covid-19 quarantine. Tomah Health is now offering the Covid-19 vaccine for police officers and fire fighters and it will be voluntary. A reminder that alternate side parking is in effect. The radio project at Gundersen Clinic has been installed and will have a drastic improvement on radio communication on the south end of town. The lobby of the Police Department is now open Mon-Fri 8am-4pm.

Library

Dir. Keller reported there were 321 patron visits and 1588 checkouts in December. There were 1778 eBook checkouts. The library will be filming a segment to promote the Senior Connections program. For children, there will be a virtual story time on Zoom with link on the Library's website with registration online. Hot Reads for Cold Nights will start January 15th. A downloadable log is available on the library website and prizes will be awarded to those who finish their log. Patrons can now go online and see what new books are available at the library.

Tomah Public Housing & Community Development Block Grant

Director Muehlenkamp provided a monthly written report.

Senior & Disabled Services

Coordinator Buchda provided a written monthly report. Goals for 2021 and the 2020-year end review report were also provided. Buchda outlined the upcoming scheduled music activities planned for the Senior & Disabled Services Center. The music has free admission and allows for physical distancing. Tomah's Freezefest is coming up, and the Sr. and Disabled Services Center will be hosting Bingo and Euchre at 1:00 p.m. on February 5th. Participants will need a

FreezeFest button to attend. The Special Needs Ad Hoc meeting has been moved to the third Wednesday of the month at 5:00 p.m. effective January 1st. The Sr. and Disabled services board will be at 6:15 the same day.

Planning & Building Inspection

Building Inspector Rolf provided a monthly and annual report.

Chamber/Convention & Visitors Bureau

The CVB is working on several tourism projects for 2021 pending funding remaining stable. Downtown Thursday Nights is being planned with Covid-19 procedures in mind. A 2021 area guide is being worked on.

Consent Agenda

- 1) Approval of Minutes from December 8, 2020
- 2) Approval of Minutes from December 21, 2020
- 3) Cash & Investment Report November
- 4) Approval of the Use of Lake Tomah for CWIRA Ice Race for January 17th and February 28th
- 5) Secondhand Article & Jewelry Dealer Licenses Application for Antique Mall of Tomah
- 6) Secondhand Article Dealer License Application for Kristi's Place Inc.
- 7) Budget Amendment Administrator Office Equipment
- 8) Bid Approval for Grader
- 9) Budget Amendment for CARES Federal Grant Expenditures
- 10) Start Date 3RT IT Managed Services
- 11) Special Beer Permit for Tomah Warrens Sportsmen Alliance Ice Fisheriee on February 13, 2021

Motion by Peterson, second by Scholze, to remove the Start Date 3RT IT Managed Services from the Consent Agenda due to further discussion, and to approve remaining items with amending the Minutes of the December 21st meeting striking Yarrington from the motion for the Wage Determination for Adam Robarge, (Scholze made motion), and adding level M which was omitted from the motion. Motion carried without negative vote.

Committee of the Whole

Request for Buckley Park Boy Scout Cabin Roof Repairs and Improvements

Improvements Motion by Peterson, second by Yarrington, to approve the request to continue with Scout Cabin bids with the \$100,000 in funds previously allocated for this reason in the 2020 Budget under TIF#8. Motion carried with one negative vote (Evans).

Ordinance Amending Chapter 52, Section 52-209 (b)(4) of the City of Tomah Municipal Code Regarding Requirements – Fences

(1st, 2nd Reading, & Adoption)

Motion by Scholze, second by Kiefer to waive the first verbatim reading of the Ordinance Amending Chapter 52, Section 52-209 (b)(4) of the City of Tomah Municipal Code Regarding Requirements – Fences Motion carried with one negative vote. (Yarrington)

Motion by Scholze, second by Evans to waive the second verbatim reading of the Ordinance Amending Chapter 52, Section 52-209 (b)(4) of the City of Tomah Municipal Code Regarding Requirements – Fences. Motion passed with one negative vote. (Yarrington)

Motion by Scholze, second by Kiefer to adopt Ordinance Amending Chapter 52, Section 52-209 (b)(4) of the City of Tomah Municipal Code Regarding Requirements – Fences. Motion carried with one negative vote. (Yarrington)

ORDINANCE NO. 2021-01-01-D

**Ordinance Amending Chapter 52, Section 52-209 (b)(4) of the City of Tomah
Municipal Code Regarding Requirements - Fences**

The Common Council of the City of Tomah, Monroe County, Wisconsin, do ordain as follows:

SECTION ONE: Chapter 52 – Section 52-209 (b)(4)Fences and Hedges of the Municipal Code is hereby amended to read as follows:

Sec. 52-209. – Fences and hedges.

(b)(4) No fence exceeding six feet in height shall be erected, constructed or maintained on any premises in a residential zoning district. Security fences are permitted in all districts except residential districts, but shall not exceed ten feet in height and shall be of an open type similar to woven wire or wrought iron fencing. Fences exceeding six feet in height to a maximum height of eight feet installed for the purpose of providing visual screening for onsite utilities, dumpsters, or similar items may be allowed by the plan commission. Swimming pool fences are covered in section 52-210. Chain link or metal wire fences shall not exceed four feet in height on properties with residential uses.

SECTION TWO: All ordinances in conflict with the foregoing are hereby repealed.

SECTION THREE: This ordinance shall take effect upon passage and publication.

Michael Murray, Mayor

ATTEST: Becki Weyer, City Clerk:

Resolution Authorizing Payment of Monthly Bills

Motion by Scholze, second by Cram, to approve the Resolution Authorizing the Payment of Monthly Bills for December. Motion carried without negative vote.

RESOLUTION NO. 2021-01-12-01

RESOLUTION AUTHORIZING PAYMENT OF MONTHLY BILLS

BE IT RESOLVED by the Common Council of the City of Tomah that the Committee of the Whole has reviewed the monthly bills and recommends the City Council approve said bills as follows:

1. Pre-Paid Checks	\$ 294,576.56	Check #'s 128962-129011
		129039-129178
2. Payroll	\$ 371,982.90	Direct Deposit #'s 61852-62186
3. Wire Transfers	\$ 53,965.45	
4. Invoices	\$ 19,369.58	Check #'s 129225-129235

Total: \$ 739,894.49

Dated this 12th day of January, 2021

Michael Murray, Mayor

ATTEST: _____
Rebecca Weyer, City Clerk

Cost of Living Increase for 2021

Treasurer Mann presented options to the Council for potential cost-of-living wage increases for non-represented employees including a rate per hour increase. At 1% the rate would be \$0.27/ hr., 1.50% would be \$0.41 per hour, and 2% would be \$0.54 per hour. Mann also included what the rate of increase would be for each position for the City. Administrator Hanson recommended a percentage increase due to the percentage increase indicated in City union contracts. Police Chief Nicholson spoke about the wage study done in 2018. He reminded the council that the wage study indicated the wage scale was being compressed and would continue with flat rate-based increases. Atty. Precour spoke to how there is a concern this could occur due to current union contracts differing with a percentage-based increase vs. a flat amount increase.

Motion by Yarrington to approve a wage increase for City non-represented employees in the amount of \$0.28 per hour. Motion died due to lack of second.

Motion by Scholze, second by Evans to approve a wage increase for City non-represented employees in the amount of \$.41 per hour retroactive to January 1, 2021. Motion carried with one negative vote (Yarrington)

Committee of the Whole and Council Date Change

Motion by Cram, second by Scholze to approve moving the Common Council Meetings to the third Tuesday of the Month and the Committee of the Whole meetings to the Monday before the third Tuesday of the month beginning in March 2021. Motion carried without negative vote.

Motion by Gigous, second by Evans, to adjourn. Motion carried without negative vote. Meeting adjourned at 7:36 p.m.

Respectfully,

Rebecca Weyer
City Clerk

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Applications for Special Event Outdoor Cabaret Licenses from Greater Tomah Area Chamber of Commerce for 800 & 900 Blocks of Superior Avenue for six (6) Downtown Thursday Night concert events in July and August of 2021:

1. July 1, 2021
2. July 8, 2021
3. July 15, 2021
4. July 29, 2021
5. August 5, 2021
6. August 12, 2021

Summary and Background Information:

(Appropriate Documentation Attached)

The Chamber of Commerce is applying for the Special Event Outdoor Cabaret Licenses for the 800 & 900 blocks of Superior Avenue (from Monroe Street to Milwaukee Street) for a series of six (6) Downtown Thursday Nights concerts on the above listed dates. Various live entertainment has been hired to perform during these events. There will be a band playing music, vendors selling food, organizations providing activities and games, and drink sales to provide a family friendly neighborhood street concert. A certificate of insurance is attached for review.

Fiscal Note:

The City receives \$55.00 for each Special Event Outdoor Cabaret License. The revenue generated to the City of Tomah by issuance of these licenses is \$330.

Recommendation:

It is requested that the Committee of the Whole review the applications and make a recommendation for the Common Council to approve the six (6) Special Event Outdoor Cabaret Licenses for the Greater Tomah Area Chamber of Commerce for the 800 & 900 Blocks of Superior Avenue for the designated dates as listed above.

Respectfully submitted by:

Berta A. Downs

The above hereby makes application for a license to operate a Special Event Outdoor Cabaret at the above address within the City of Tomah pursuant to provisions of Chapter 6 of the Code of Ordinances for the City of Tomah.

ATTACH DETAILED DESCRIPTION OF EVENT AREA AND ATTACH A DIMENSIONAL DRAWING. Detailed description and dimensional drawing **MUST** include dimensions of area, where the fencing will be placed, where entrance(s) and exit(s) will be and size of each, dimensions of tent (if a tent is used), and placement of port-a-potties.

[Signature] _____ 1-15-21
 (Signature of applicant) (Date)

INSURANCE REQUIRED ... MUST BE SUBMITTED WITH THE APPLICATION

Prior to the issuance of the Special Event Outdoor Cabaret License, the applicant shall furnish evidence of a liability insurance policy in amounts of not less than \$1,000,000 aggregate coverage, and shall be in force and effect at the time such event is to take place. Said policy shall be endorsed naming the City of Tomah as additional insured in connection with said event. If an entity is self-insured, it must provide evidence of alternative proof of coverage, in a form acceptable to the City Clerk.

Note: The certificate of insurance must describe the event and the additional insured endorsement must accompany the certificate.

OFFICE USE ONLY: cc: Inspection Dept., Police Chief & Fire Chief Upon Receipt of Application

Attach list of all property owners within 1000 feet of the proposed licensed premises.

Granted: _____ License #: _____

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Special Beer & Wine Permit Application for Tomah Baseball Club Inc. for their event Opening Night on March 6, 2021

Summary and Background Information:

(Appropriate Documentation Attached)

The Tomah Baseball Club Inc. has applied for a Temporary Class “B” Fermented Malt Beverage License and a Temporary “Class B” Wine License to sell fermented malt beverages and wine at their “Opening Night” event being held at Recreation Park in the Recreation “Gold” Building, 1625 Butts Avenue, on March 6, 2021.

Fiscal Note:

The revenue generated to the City of Tomah by issuance of this license is \$10.00.

Recommendation:

It is requested that the Committee of the Whole review the application and make a recommendation for the Common Council to approve the Special Beer and Wine License for the Tomah Baseball Club Inc. for their event on March 6, 2021 in the Recreation Building at Rec Park.

Respectfully submitted by:

Berta A. Downs

Committee: Committee of the Whole & Common Council

Meeting Date: February 8 & 9, 2021

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Annual Fire Department Fund Audit.

Summary and Background Information:

(Appropriate Documentation Attached)

The City Treasurer is required to Audit the Fire Department Funds. This has been done for their 2020 records and the books have been found in good order. No unusual activity was found. Below is a summary of the Fire Fund Activity.

FIRE DEPARTMENT ANNUAL REPORT

CASH BALANCE	12/31/2019	\$	<u>158,955.17</u>
CCF BANK CHECKING		\$	17,805.79
REVENUE	01/01/20 TO 12/31/20		16,497.04
EXPENSES	01/01/20 TO 12/31/20		-18,597.76

CITY CLERK – MONTHLY REPORT

1. Election Update:

The Spring Primary election will be next week on Tuesday, February 16th and will be held in the council chambers. The only contest on the Primary ballot is the State Superintendent of Public instruction. A reminder that all but indefinitely confined absentee applications expired after the last 2020 election. To request an absentee ballot, electors can go to myvote.wi.gov or stop in the Clerk's office. The spring election will be on April 6, 2021 and will be held in the normal location at the Fire garage connected to City Hall.

2. Matthew Baumgartner has been offered the part time Deputy City Clerk position and started on February 8th with the City Clerk's office.
3. End of the Year Reporting: January was extremely busy with monthly, quarterly and annual payroll reporting as well as rentals of shelters, tax payments, election preparation and licensing to name a few.
4. Upcoming projects: Currently working with the City Administrator on updating the Tomah City employee handbook and a draft for the City's application.

Becki Weyer, City Clerk

February 9, 2021

819 N Superior Ave
Tomah, WI 54660

"The Gateway to Cranberry Country"

Mayor Mike Murray
City Administrator
Bradley J. Hanson

February 3, 2021

Mayor & Alderpersons,

Welcome to February. It has been a great learning experience with the Department Directors and current staff. Along with committees, their members, and residents of this incredibly friendly community. Since arriving we have continued orientation, asked questions, and met multiple times with differing Department Directors. To start this first Administrator's Report, we will discuss inter-governmental relationships and shared service philosophy.

Intergovernmental and Regionalism

Although in today's society we, or the City, as a governmental agency have a fiscal responsibility to the residents and businesses of and for this community. As our elected officials, this is a preparation for some recommendations forthcoming tonight and in the near future that will impact our financial stability; personnel retention, growth, and/or reduction; and intergovernmental relationships, partnerships, and financial appropriate sharing. The last item is usually the most controversial, especially with small rural communities, where many of the elected officials for each community are also closely connected. This can be an issue when we recommend increasing rates to regional collaboration efforts or provided services. However, we as staff and elected officials have that fiscal responsibility to our residents and business as mentioned previously. Therefore, part of the recommendations that will come before you is to ensure those collaborating communities are indeed paying their fair share.

One item of consideration by Department Directors, in a move to bring the City together as one unit instead of the perception of being disjointed, is to hold joint meetings. On one evening, the Common Council would meet for a brief joint meeting with the Police & Fire Commission, then the Ambulance Commission, and then the Public Works Commission. During another the Council would meet with the Tomah Area School District School Board. These meetings would provide internal and external organizations (TASD) to meet and discuss potential projects or other areas of concerns that impact both organizations. Many of the other discovered items we are currently researching further and will be considered later over the next year or two. Some of these items have arisen during the orientation period.

Orientation

As we progress the orientation period, obviously there are many things and quirks that Staff has learned about the "new kid on the block" and the new kid of the neighborhood. It has been a great pleasure to learn about each of the Department Directors, their personalities, leadership styles, and their departments. Although, these meetings were barely scratching the surface of what they all entail. On a side note, it was discussed early on within orientation that we consider outsourcing payroll. However, in a discussion with three different companies offering this service the cost I believe exceeds the benefit on the preliminary view. The estimate cost is \$30,000 - \$40,000 annually for the City's size. At previous locations, an orientation in a new community involved working side by side in daily activities with each individual employee.

In 2020, through today, this has changed that type of orientation. Normally, this would be a lengthy task with the number of employees we have in Tomah. Unfortunately, this is also compounded as we near (hopefully) the end of the COVID-19 Pandemic. Due to this, spending just a few hours with each Department Director was a healthier choice. Not saying that a typical orientation will not take place at a later date. In any new agency there is not only a time for orientation, but an urgency with financial stability and how to generate more revenue in a state with some of the most restrictions on increased revenue.

Revenue Generation

During discussions with Department Directors we have come up with some solutions that are available to increase revenue with some being unique in nature, and some only a select few communities have the opportunities to share in expenses. Some of the opportunities staff has discussed we cannot discuss or provide further details at this time, as we are still attempting to collect some preliminary data to see if it is feasible. The reason behind our delay in announcing such research, as I am sure you all can understand, is being in a small community rumors can expand or provide resistance prior to all of the information being collected.

That being said, the areas we are focusing on at this time include within the Departments of Law Enforcement (LE) (Police), Public Safety (PS), and Public Works (PW). Where we are ready to focus on next Tuesday, February 9, 2021, are two areas within PW with forecasted implementation on January 1 in 2022 and 2023. These two items include a Universal Transportation Utility (UTU) and Sanitation and Recycling Utility (SRU). It is with a big sigh of relief that the City already has, and completes, a curb-to-curb road reconstruction policy. These means when a road is reconstructed it is done from below sub-grade to surface, and includes stormwater, sumps, curb and gutter, and sidewalks. An UTU would charge all structures with a water utility bill an amount on their monthly bill. This amount would be determined from a study. Representatives will be at the Council Meeting on February 9, 2021 from Ruckert & Mielke, Incorporated to present on this possibility. These funds would be used to aid in the construction process.

Unity

Part of this City's leadership concerns during the interview process was finances and internal communication within the City's departments. For over just a month there are no immediate concerns that have risen to the surface regarding the City's current Department Directors. Being here for about a month and a half it was easy to determine the two above key concerns and here are some potential remedies, which shall become a priority: (1) getting all to think outside the box, (2) work on projects together from different departments, (3) pursuing new revenue and efficiency opportunities, (4) reorganization of City Hall offices, (5) implement cross training efforts, and (6) ensuring the segregation of duties while consolidating duplicated tasks by differing departments.

As we have met a few times now with the Department Directors, we have shared ideas on how (1) to increase revenue, (2) improve public relations, or (3) increase efficiency and thereby decrease expenditures. One of these that could impact the second and third item above, is a reorganization of offices and staff. Some of the Department Directors have had conversations regarding this possibility. An item of future discussion will be City Unity among all departments, City Hall organizational structure, and financial accounting concerns. In preparation for a more detail discussion, staff will be presenting the documentary "All the Queens Horses" (here is the teaser: <https://www.youtube.com/watch?v=05ilbRAiJIU>).

After the documentary is concluded, we will have a brief discussion regarding the opportunity and thinking behind the future reorganization of City operations. This documentary is about Dixon, IL and due to the lack of organizational oversight and segregation of duties, the City Treasurer was able to embezzle over \$50 million from the community. Watching this documentary will help set the stage why the aforementioned three items need to be reviewed and discussed with Department Directors and Council. Reorganization is under consideration to ensure we are doing a better job than is already being done, limit the opportunities of human error, improve segregation of duties, and increase City staff productivity and efficiency. We will seek consensus on the best date at the Council meeting.

City Offices Organized and Relocated

There have been, and will continue to be for the next few months, an organization and reorganization of offices. There are many files to review and determine if they need to be retained, scanned, or appropriately disposed of, which takes time... in some cases a lot of time as to be able to make a logical decision involves sometimes reviewing the entire document. Not to mention old furniture out and new in with the appropriate equipment and setup. During the orientation and organization, and bringing a different pair of eyes into the

“The Gateway to Cranberry Country” – Tomah, Wisconsin

fold, it seems that we have a redundancy in many departments a long with some concerns dealing with a disconnection in communication, assets, safety, security and probably most important unity. These items will be discussed over the next few months, but now is the time to discuss matters before you all on Tuesday.

Resolutions

We have three resolutions for your consideration. These three items were discovered during orientation as well and both have a benefit to the City. The first originates during orientation with City Treasurer Julia Mann. Apparently multiple Tax Incremental Financing Districts (TID) not only have bonds out which is normal, however, apparently TID 8 also has obligations out to the General Fund (GF), Water Services (WS) and Wastewater (WW) Utilities. Therefore, this resolution will charge TID 8 an appropriate interest rate on those outstanding balances and made payable to the appropriate funds. This is an accepted practice and the City Auditor concurs with this process, and City Treasurer Mann confirmed the City has a past practice of charging interest with previous TIDs. This then will provide additional income to those indebted funds from the TIDs. In order to determine the appropriate interest rate we used current State of Wisconsin Trust Fund program interest rates.

These interest rates were consulted with the Wisconsin Board of Commissioners of Public Lands State Trust Fund Loan (STF) Program (<https://bcpl.wisconsin.gov/Pages/CurrentInterestRates.aspx>) on Monday, January 18, 2021. Since the TIF Districts have a life span of more than 10 years, but the debt may be repaid sooner, the focus is paying off the principle and interest on those outside issued debts. Interest according to the STF Program were at 3% for 6 – 10 years and 4.00% for 11 – 20 years, which we suggest an interest rate of 3.5%. Therefore, we suggest the priority for expenses within each TIF be as follows: (1) outside debt principle and interest, (2) interest payments to internal debt of City funds, (3) needed projects within or benefitting the TIF Districts, (4) principle to internal debts. The first payment will be for the 2020 fiscal year with a payment based on the 2019 Audited year ending balance for each TIF payable in 2020. The second payment will occur later this year for the 2020 Audited year ending balance payable in 2021. This process will continue each year until the internal debts are completely repaid by the TIFs.

The second and third resolutions are from a discussion with Police Chief Mark Nicholson and Deputy Chief Scott Holumn. The first is regarding COVID-19 and the inability to use vacation time appropriately during the stay at home orders. This was also a concern from other Department Directors and staff from brief conversations. Due to this, individuals are running up to the maximum vacation time accrued, and face losing that time. If Council so chooses to adopt this resolution, it would be a one-time opportunity for all employees a request to turn in up to one or two week(s) of vacation time for additional pay at straight time with the next available payroll. This is a benefit to the City as employees sacrificed their time off during the City’s time of need and would help boost morale.

The third resolution has to deal with Crossing Guards for school benefit at the City’s expense. Many times, when the Police Department has a staff shortage of Crossing Guards Police Officers are relegated to this duty. This removes them from being able to enforce traffic laws and ensure safety around the City’s schools. The resolution will direct the draft of an appropriate ordinance for Crossing Guards and for staff to open discussions with the School District and its Board about the possible transfer of the responsibility of Crossing Guards from the City to the District. Staff would then advise the School District and see if they would like to have a number of discussions that could eventually lead to their representative’s attendance at the next meeting for a discussion with the Council. This could also lead us into an opportunity to begin annual joint meetings with the School Board to discuss opportunities, events, projects, and other items that could impact either the City and/or the School District.

Comprehensive Hotel Study

As mentioned at the January meetings, you have three proposals to complete a Comprehensive Hotel Study (CHS). One hotel is interested in TID 10 (by the new hospital) and the other is interested in either TID 8 (Downtown) or 10. In discussions with both hotel chains, we have advised each of them that there is another organization interested at this time. At no time did we mention which the other is, however, they both named

"The Gateway to Cranberry Country" – Tomah, Wisconsin

immediately the other as their typical competitor. One completed a site visit and meeting with staff on Thursday, January 28, 2021, the other has indicated a visit to Tomah in the near future. Due to this interest we have received three proposals for the CHS. They are from Hospitality Marketers International, Inc. (HMI), Core Distinction Group (CDG), and Patek Hospitality Consultants, Inc. (PHC). All three firms are located within the State of Wisconsin. HMI is the same firm that completed a "Field Research Overview Report" for the City in 2016. After a review of the proposals, it is staff's professional opinion that they are complete and meet the needs of the City for this award for these possible future hotel developments. Staff recommends to retain Core Distinction Group based on their study costs, one-item charge, and experience in consulting, hotel comprehensive studies, and recent experience working within the hotel industry for hotel chains.

Ambulance Union

We (Fire Chief Tim Adler, and City Attorney Penny Precour included) are planning on meeting with the Ambulance Union and believe we should have a sound agreement for 2021. We will strive to enable an agreement for future adjustment in the possible chance that the City moves into a full-time Fire Department at an undetermined future date. This would provide the opportunity to the City for cross-training Paramedics as Fire Fighter 1 and any future full-time Fire Fighters would be required to be certified as an Emergency Medical Technician (EMT) at the minimum. We believe this is a good step since we are planning on a joint station for both Ambulance and the Fire Department, along with a couple of other exciting developments over the last couple of weeks. We will be happy to share when we are a little closer to these opportunities occurring.

Fire Department New Location

The City has pursued for numerous years, possibly a decade or more, a new location for the City's Fire Department. In the past month we have had a couple of discussions with a limited number of land owners or considered alternative locations throughout the City. We believe we have arrived at the best location possible since the Canadian Pacific Railroad property is now out of that development opportunity. This location has been vetted with other departments and there is also a benefit to this location for at least one of those departments. In a discussion with Keller Builds and their contracted engineer, this is a good site in relation to location, however it will have some steps to overcome. To provide further details and discussion, we will be requesting to discuss this in Closed Session for further detail and to provide possible negotiations direction to staff, without risking the City's financial negotiations capability.

City Equipment & Services Update

Staff met with City Attorney Penny Precour at 1:00 p.m. on Tuesday, January 12, 2021 regarding an equipment and services agreement and preliminary findings regarding renewal possibility with the provider. Ms. Precour provided guidance regarding necessary information to separate from the agreement and the future service with this equipment provider and other providers to City facilities. We have gathered the necessary information and provided it to Ms. Precour. Due to the sensitivity of this information, and due to the lateness of the data collection, we will seek advice from Legal Counsel in Closed Session. This may not occur due to the tardiness of some of the information gathered and relayed to Mrs. Precour from us.

City Leadership Potential Litigation

Legal advice will also be needed for recent litigation documents served upon the City by a current City leader. Due to this potential litigation, we will also have this within a Closed Session with the City Attorney to provide the Council with her legal advice.

Sincerely,

Bradley J. Hanson
City Administrator

COST: Freeze Fest Button (\$1) & \$2 (& 10 cents a bump)

PLACE: Kupper Ratsch Senior Center

SPONSORS: Freeze Fest Organized by Rotary Club of Tomah

2021 AARP & ADRC Tax Preparation Assist information They have changed the way they are doing it this year due to COVID-19.

2021 AARP Tax Preparation

Information from Pam Weber, CSW, ADRC Manager

AARP tax volunteers and the Aging and Disability Resource Center of Monroe County are pleased to announce the 2021 tax season dates.

The free, confidential service is open to low income residents, with a focus given to adults 60 or older. **Reservations are required and can be made starting January 18, 2021 by calling 608-487-7112.**

There are **different program requirements this year** to implement the current compassionate spacing regulations.

STEP 1: Residents who wish to have their taxes prepared will need to call 608-487-7112 to make a reservation. Please call between 9:30 am – 3:30 pm Monday through Friday.

STEP 2: After making a reservation, the tax payer will need to pick up a registration packet at the Monroe County Human Services Department located in the old Courthouse, Sparta. Use the parking lot and entrance at 112 W Oak Street. Packets will be available in the lobby for self-service. Please look for signs indicating where to find the packets.

The tax preparation will be completed at the ADRC office at 315 W. Oak Street, Sparta. It will be a two-step process this year.

STEP 3: At the first appointment you will meet with a tax preparer who will review all your documents to make sure they are complete. They will then scan them.

STEP 4: At the second appointment a tax preparer will review your completed taxes with you and then will submit your taxes.

In person meetings will start Feb. 3. Appointments will be available Wednesday and Fridays during the tax season. Your two appointments will be scheduled exactly one week apart. Due to complexity of the tax laws, we are unable to complete returns for married people filing separately, people who were divorced in 2020, and most types of business returns.

If you are unable to keep your appointment, you will need to cancel prior to the scheduled time by calling 608-487-7112. **No show clients will be rescheduled at the end of the season only if schedules permit.**

SENIOR & DISABLED SERVICES UPDATE, continued from page 01

City of Tomah's Senior & Disabled Services Dept.'s GOAL categories (1-9) and **Report/Updates.**

Chinese New Year is on Friday, February 12. It starts the Year of the Ox. Let's hope it is better than last year – 2020: the Year of the Rat.

The Senior Center is **open on President's Day**, even though it is a holiday and day off for

01 RECREATION & LEISURE ACTIVITIES/GATHERING PLACE
UPCOMING ACTIVITIES/EVENTS:
-ACTIVITIES/EVENTS: In newsletter, calendar-pages 16-17; Listing of activities-pages 7-11.
-MUSIC: We have a variety of music programs with awesome music & performers.
 See page 11 in newsletter for more information on the music programs. Come and enjoy the music, free of charge. Wear a mask, physical distance, sit back and enjoy!!!
 MUSIC: Feb: 05: Never Too Late Band; 12: Shannon Hoagie; 19: Kevin Mattson; 26: Michael Slater; March: 05: Never Too Late Band; 12: TBD 19: Shari Sarazin; 26: Richard, Melodee, Leanne & Lena.
-SURPRISE DESSERT BREAK sponsored by Tomah Nursing & Rehabilitation Center on Thursday, February 18, 2021 at about 2:00pm.

"Every person that you meet knows something you don't; take the opportunity to learn from them." ~by Unknown

02 EDUCATIONAL & HEALTH PROGRAMS
-COVID-19 & COMMON SENSE PRECAUTIONS were put in place on June 15 when we reopened and are continued.
-BETTER HEARING with Tom Vierling continues on 3rd Thursdays 9:00-11:00.
-VISITING with OFFICER Delaney Hanrahan on Thursday, February 25, 2021 at about 12:15am.
-READING TABLE ARTICLES: La Crosse Tribune & Monroe County Herald newspapers to read. Magazines to take. Some interesting articles to read are on the reading table.

03 DISABLED/SPECIAL NEEDS SERVICES
-Dementia Resources: Contact information for WI. Alzheimer's Association Support Groups & Family Caregiver Education Programs in newsletter on page 14 under Resource Contact Information.
-Giving Closet: The closet has donated items to give away free. These items may include incontinent products, medical supplies, and clothing.
-Loan Closet: See information on page 6 of newsletter. *If you have medical equipment that you are not using, please feel free to donate and/or return them to our loan closet.* The loan closet has been incredibly busy in January – items being borrowed, items being returned, and items being donated to us. Wheelchairs went out almost as fast as they came in.
-Lions Club Program for Eyeglasses/Hearing Aids: Buckets are in the giving closet and by the front door area to donate old eyeglasses and hearing aids in these buckets.
- Sunday Funday: The special needs Sunday Funday event is CANCELED until further notice due to COVID-19 & most of participants & families are still sheltering at home.

City of Tomah's Senior & Disabled Services SPECIAL NEEDS AD HOC COMMITTEE

Committee formed in last quarter of 2018. **Meets 1th Wednesday 5:00pm monthly** (Open to public) at Senior Center. *They Volunteer their time for us.*

-Throughout the year, Sponsorships/Donations from Individuals, Organizations & Business. We are very Grateful!!! It all makes a difference.

SENIOR & DISABLED SERVICES UPDATE, continued from page 03

City of Tomah's Senior & Disabled Services Dept.'s GOAL categories (1-9) and **Report/Updates.**

08 MEAL SITE
 -The City of Tomah has a contract with ADRC of Monroe County for the Tomah meal site to be at the Senior Center. Worked together in day-to-day operations/collaborations with Tomah's Meal Site Manager and other meal site employees
 -See page 8 in newsletter for more information on meals and meal site.
 -**The Meal Site is CLOSED for in-house dining only** since March 17 due to COVID-19. ADRC of Monroe County is not serving group meals at meal sites yet due to COVID-19, but is continuing to give participants the choice of home-delivered meals or pick-up meals.

09 SENIOR & DISABLED SERVICES DEPARTMENT EMPLOYEES
Besides the Activities/Events, Programs and regular everyday things at the Senior Center and what has been reported in the other sections of this report...
 Diane
 -On vacation in January. We hope she had a fantastic time. Now it's back to WI. winter & us.
 Pam
 -January & February are the months of transition of files - a time to close out 2020 files and open 2021 files. A lot of work, but good checks and balances.
 -Keep the **Loan Closet & the Giving Closet** clean and organized.
 -City **Staff Meetings for Department Heads** on 1st, 3rd & 5th Tuesdays at 8:30am.
 -Monthly Report at **City Council** meeting on 2nd Tuesdays at 6:30pm at City Hall.
 -**Special Needs Ad Hoc Committee** meetings (1st Wed) monthly at 5:15pm.
 -**Senior & Disabled Services Board** meetings (1st Wed) Jan., May, June, July, Sept. & Oct. at 6:15pm.
 -**Wisconsin Association of Senior Centers (WASC)** zoom meetings as scheduled.

2/2/2021

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Application for "Class A" Liquor License for Tomah Mini Mart LLC, Navtej "Nick" Singh-Agent, for the period 2/1/2021 through 6/30/2021

Summary and Background Information:

(Appropriate Documentation Attached)

Tomah Mini Mart will be under new ownership as of February 1st, 2021. Navtej "Nick" Singh, Agent for Tomah Mini Mart LLC has applied for a "Class A" Liquor License for the premise at 215 W. Clifton Street, Tomah, WI 54660, for the period of February 1, 2021 through June 30, 2021.

Fiscal Note:

Total revenue generated to the City of Tomah by the issuance of this prorated license is \$166.65.

Recommendation:

The application has been completed and reviewed. It is requested that the Committee of the Whole recommend the Common Council to approve the "Class A" Liquor License as requested.

Respectfully submitted by:

Berta A. Downs

Committee: Committee of the Whole & Common Council

Meeting Date: February 8 & 9, 2021

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Secondhand Article Dealer License Application for Steel Neal’s Welding & Creations.

Summary and Background Information:

(Appropriate Documentation Attached)

Christopher Neal with Steel Neal’s Welding & Creations has applied for a Secondhand Article Dealer License for the premise at 1517 Superior Ave, Tomah, WI 54660, for the licensing period of January 1, 2021 through December 31, 2021.

Fiscal Note:

The City receives \$27.50 for the Secondhand Article Dealer License.

Recommendation:

The application has been completed and reviewed. It is requested that the Committee of the Whole recommend the Common Council approve the Secondhand Article Dealer license as requested.

Respectfully submitted by:

Berta A. Downs

Committee: Committee of the Whole & Common Council

Meeting Date: February 8 & 9, 2021

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Taxicab Driver’s License Appeal for Christopher Matthew

Summary and Background Information:

(Appropriate Documentation Attached)

Christopher Matthew submitted an application for a taxicab driver’s license to work for Running Inc. DBA Tomah Transit. After conducting a record check, Chief Nicholson located an extensive history of criminal charges/convictions during 2003 to 2018 and has been classified as a “Repeater”.

The City of Tomah’s Taxi Cab License application process does not address or take into consideration an applicant who has amassed an extensive criminal history over an extended period of time and who has been classified as a Habitual Criminal referred to by the courts system as a “Repeater”.

For the reasons listed in the reference letter, Chief Nicholson is referring this application to the Committee of the Whole/City Council and requesting that Christopher Matthew’s application be brought before the City Council for discussion and action as needed.

Fiscal Note:

The City receives \$25.00 for the Taxicab Driver’s License.

Recommendation:

It is requested that the Committee of the Whole review the information and make a recommendation to the Common Council regarding the appeal.

Respectfully submitted by:

Berta A. Downs

Committee: Committee of the Whole & Common Council

Meeting Date: February 8 & 9, 2021

CITY OF TOMAH
STAFF COMMITTEE PREPARATION REPORT
February 9th, 2021

Agenda Item: Request from Mark Tralmer to obtain a Conditional Use Permit to install a hanging wall sign projecting over the public sidewalk on the side of the building at 1101 Superior Ave.

Summary and background information: Applicant wishes to install a hanging wall sign projecting over the public sidewalk on the side of the building. All signs which project over a public way require a conditional use permit pursuant to the City of Tomah Municipal Code Section 52-152(1)

Sec. 52-152. - Sign restrictions.

Signs are permitted in all business and industrial districts subject to the following restrictions:

(1)

No sign shall be placed upon, over or in any public way, provided that this subsection shall not be construed to prohibit the erection or placing of any authorized traffic sign, traffic signal or other traffic device or any other sign authorized by law or specifically permitted to project onto the public way by this chapter. Signs, awnings, canopies or marquees may be permitted on, over or in the public way as a conditional use as provided under this chapter.

Recommendation: Based on review of the application the Plan Commission recommend approval of the Conditional Use Permit as proposed.

NEW FUNDING OPTION FOR WISCONSIN STREETS PROJECTS

AUGUST 3, 2020
BY EDWARD F. MAXWELL

With strict tax levy limits and declining state aid,
Wisconsin communities find themselves between a

rock and a hard place when it comes to funding roads projects. Special assessments can be a major burden on community members, impact fees can only pay for a portion of roads that will serve future growth, and the state of Wisconsin prohibits communities from imposing any taxes beyond property taxes.

These limitations often force many communities to defer necessary projects. Fortunately, there may be a new way to secure funding for your community's streets.

A PATH FORWARD FOR STREETS FUNDING

Municipalities now have a new option for road funding: **transportation utilities.**

A recent legal opinion from the League of Wisconsin Municipalities explains that creating a transportation utility will allow communities to charge a fee in order to recover costs related to transportation, **including street maintenance.**

These charges must be carefully structured, or else they may be ruled as taxes. They should also relate to users' real use of the streets system. For instance, a two-car household ought to be charged less than a UPS store because the store generates more traffic.

WI CASE STUDIES

Several municipalities have already successfully created transportation utilities.

The Village of Weston implemented Transportation Utility Fees (TUF) to address the upkeep of streets, curb and gutter, traffic signals, equipment, and more. These TUFs were designed to offset the steep decline in state aid. Properties are divided into three tiers based on the length of their street frontage, and those

with the most frontage pay the most in fees (\$29.20 annually).

After approving a ten-year transportation plan, the Town of Buchanan elected to secure a large portion of the plan's funding through utility fees. These fees are based on the number of average trips by land use. The annual fees run from \$315 for single-family residences to a range of \$189 to \$8,400 for non-residential properties.

The City of Neenah created a Transportation Assessment Replacement Fee (TARF). The City uses its TARF to generate funds for streets projects in lieu of special assessments. The TARF formula uses the same methodology as the City's storm water fee system, which is based on each parcel's impervious surface area. Each single-family residence pays \$23 annually.

BEST PRACTICES

When setting up a transportation utility fee structure, be sure to do the following:

- Calculate the fee correctly. The fee needs to be calibrated to collect only what's needed for transportation.
- Charge the fees to tax-exempt properties. This helps avoid the fee being mistaken as a tax.
- Segregate funds collected through these fees. Spend them only on transportation costs.
- Do not use the funds for snow plowing or street sweeping. There are a few services listed in state statutes that if paid for by fees cause the levy limit to go down.
- Put the fee on a utility bill with all the other utility fees such as water, wastewater, and storm water.

POLL QUESTION

Which municipal departments/functions do we have here today?

- Streets/DPW
- Finance
- Admin
- Other

Roadmap

What is a Transportation Utility?

- Like stormwater utilities, but for roads
- Within other departments
- Can fund
 - Road repair and reconstruction
 - Vehicles
 - Operations except for
 - Street sweeping
 - Plowing

Why Create a Transportation Utility?

Funding Shortage

Other Funding Sources

- State aid
- Other sources
 - Grants
 - Impact fees
 - Special assessments
 - Wheel taxes

POLL QUESTION

Our municipality has enough funding for transportation projects and upkeep.

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree
- Not applicable

How to Create a Transportation Utility?

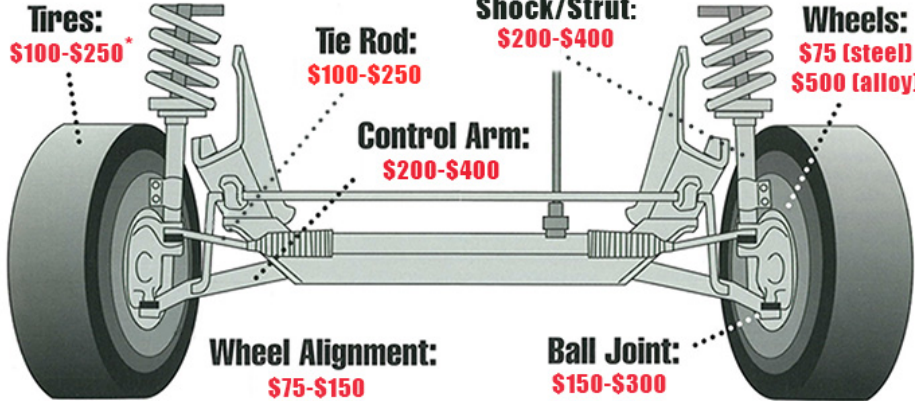

Foundational Steps

- Assess needs and resources
- Build community support
 - Surveys
 - Economic impact

POTHOLE DAMAGE

Common car repairs that can result from poor road quality.

The diagram shows a top-down view of a car's front suspension. Callouts with dotted lines point to various parts: Tires, Tie Rod, Shock/Strut, Control Arm, Wheel Alignment, Ball Joint, and Wheels. Each callout includes a price range in red text.

Component	Price Range
Tires	\$100-\$250*
Tie Rod	\$100-\$250
Shock/Strut	\$200-\$400
Control Arm	\$200-\$400
Wheel Alignment	\$75-\$150
Ball Joint	\$150-\$300
Wheels	\$75 (steel) \$500 (alloy)

*includes mount and balance

These prices apply to most normal passenger cars, not high-performance models, European highline vehicles or limited-production exotics.

Suspension component replacement will typically require a wheel alignment.

May 2014

Fees vs Taxes

Balancing Considerations

- Optimize funding
- Choose equitable fee method
 - Offer credit application process

Methods of Cost Allocation

Impervious surface area

Traffic count by land use class

Frontage

Other?

Pros

Cons

Available to any municipality

May be restricted by state legislature

Offers sustainable cash flow

May face legal challenges

Has few restrictions currently

Can be regressive

Provides needed funding

Adds to burden of property owners

When to Create a Transportation Utility

Transportation Utility Examples

EXAMPLE

City of Neenah

- Transportation Assessment Replacement Fee (TARF)
- In lieu of special assessments
- Based on impervious surface area

Each REU pays
\$23 each year

EXAMPLE

Village of Weston

- Transportation Utility Fees (TUF)
- Upkeep of streets, curb & gutter, traffic signals, equipment, etc.
- Offset sharp state-aid decline
- Property split into 3 tiers based on frontage

Highest annual charge =
\$29.20

EXAMPLE

Town of Buchanan

- 10-year transportation plan
- Community involvement
- Fees based on average trips by land use

Annual Fees:

- Single-family residence = \$315
- Non-residential properties run from \$189 to \$8,400

POLL QUESTION

If you had to choose a cost-allocation method for a transportation utility, on which method would you base it?

- Impervious surface area
- Traffic count by land use class
- Frontage
- Other – please indicate

FAQs

- 1. Is this essentially a toll?
- 2. What about businesses or industries outside the municipality? Can they be charged these fees?
- 3. Will we lose matching state aid if we set up a transportation utility?
- 4. How long does it take to set up a transportation utility?
- 5. What are the most important steps to take to ensure success in creating one?

December 29, 2020

Mr. David DeAngelis
Village Manager
Village of Elm Grove
13600 Juneau Boulevard
Elm Grove, WI 53122

Re: Transportation Utility Feasibility Study

Dear Mr. DeAngelis:

Thank you for allowing Ruekert & Mielke, Inc. (R/M) the opportunity to work with the Village of Elm Grove (Elm Grove) and submit a proposal to create a transportation utility feasibility study.

R/M offers professional services in finance, engineering, regulatory experience, accounting, GIS, and more. This combination affords clients unique opportunities to create cost-saving measures and develop holistic solutions. In the case of Elm Grove, R/M can leverage its recent GIS work on behalf of the Village for MS4 permitting to save time and money in developing potential transportation-utility fees based on land-use categories. Using the recent GIS work will provide more reliable results.

I will be the project manager for this project. I have provided financial services to several municipalities and utilities for years. On a recent project, I crafted a model for the Village of Bonduel which forecasts the next twenty years for the municipality and the water and sewer utilities. The forecast includes funding for capital improvement projects which R/M helped the Village prioritize. This model provides decision makers with the financial insight needed to chart the Village's future. Few firms can couple elaborate financial modeling with deep knowledge of capital improvement planning. The Finance Team will vet its assumptions with Elm Grove's Public Works Director, Richard Paul, Jr. and Elm Grove's Village Engineer, Anthony Petersen. This process will help produce more accurate cost estimates.

Given R/M's extensive experience with regulatory agencies such as the Public Service Commission (PSC) and the Department of Natural Resources (DNR), R/M can build rate structures and credit policies which hit the mark for being both defensible and equitable. Besides designing rates for dozens of utilities, R/M has filed numerous documents with the PSC and DNR to satisfy regulatory requirements, including annual reports on the high-profile water diversion the DNR granted to the City of Racine. R/M has won contested cases for clients before the PSC, and a member of our Team for Elm Grove, Bridgot Gysbers, has written testimony for contested cases on multiple occasions.

R/M is well prepared to educate the public about this relatively new concept. From special assessments to impact fee studies, R/M has presented in public hearings and fielded tough questions from concerned citizens, so R/M is skilled at explaining challenging ideas before crowds.

Finally, R/M knows how to give municipalities the information they need to create utilities. Partnering with municipal staff, R/M has written reports which merge the community's values and priorities with our rigorous financial analysis and regulatory knowledge. R/M has produced reports and financial models for the City of Oconomowoc on transportation utilities and for the City of Watertown on storm water utilities. Please see the accompanying information on the pages that follow this letter for more information, including project descriptions, resumes, and other relevant documents.

Mr. David DeAngelis
 Village of Elm Grove
 December 29, 2020
 Page 2

We understand the work to include the following Scope of Services:

- Identify Elm Grove's goal(s) for its transportation system.
- Send an initial data request to Elm Grove to identify the information needed to complete the study.
- Conduct a kickoff meeting by video with Elm Grove staff to explain the data request and to begin gathering data.
- Evaluate each of the main funding options available for Elm Grove's transportation system, including the property tax levy, debt proceeds, federal and state grants and aid programs, and transportation utility fees (TUF). R/M will perform a financial analysis, as well as an appraisal of the advantages and disadvantages for each option.
- Identify and explain the funding shortfall Elm Grove is facing for its transportation system. This explanation and the subsequent analysis will incorporate data from Elm Grove's five-year capital improvement plan.
- Develop a rate structure for a TUF based on trip generation, along with mechanisms for offering credit to property owners who can demonstrate less use of the transportation system.
- Work with Elm Grove staff, residents, and community leaders to explain the rate structure and determine which credit policy is most desirable in the following manner:
 - Hold a roundtable discussion either virtually or in person with community leaders identified by Elm Grove staff to explain the rate structure and credit policy options, answer questions, and survey attendees on their preference for a credit policy (same day as public informational meeting).
 - Hold a public informational meeting either virtually or in person to explain the rate structure and credit policy options, answer questions, and survey attendees on their preference for a credit policy.
- Recommend one credit policy and explain why it appears best suited for Elm Grove.
- Evaluate and propose policies for the oversight and management of a transportation utility, accounting and billing procedures, and appeals procedures.
- Include the results of all the above to Elm Grove in a report. The report will include an explanation of what, if any, impact the TUF would have on tax levy limit.
- Present the findings of the report either in person or by video at one meeting of Elm Grove's choice and answer questions.

The work will yield a report to inform Elm Grove's decision makers on whether to create a transportation utility, and if they opt to do so, how best to create one.

We understand the Scope excludes the following:

- Attending meetings beyond those specified above.
- Independently evaluating the physical inventory of the transportation system.
- Developing a new capital improvement plan for the transportation system.

The work as described under the above scope of services will be completed in time to incorporate the report's findings into the 2022 budget cycle assuming there are no delays caused by responses to requests for data. We will complete the work above for a lump-sum fee of **\$18,800** which includes all miscellaneous, reimbursable costs.

Upon written request from the Village, we would be happy to provide additional services beyond the scope at our regular hourly rates and reimbursable expense rates in effect at the time the work is performed. Such work could include participating in meetings outside those listed in the scope.

Mr. David DeAngelis
Village of Elm Grove
December 29, 2020
Page 3

We appreciate the opportunity to submit this proposal and look forward to working with the Village on this project. The work will be performed according to the attached **RM Standard Terms & Conditions (Non-Engineering)** dated March 7, 2014. If you accept our proposal, please return one executed copy to our office. Should any questions arise, please feel free to contact me.

Respectfully,

RUEKERT & MIELKE, INC.

BACKGROUND AND ORGANIZATION

OUR ROLE AS YOUR ENGINEER & FINANCE CONSULTANT

Ruekert & Mielke, Inc. established its roots in 1946. Since then we have become a local leader by helping municipalities achieve balance with fiscal responsibilities, infrastructure to support daily life and the extras that make a community a desirable place to live. Our goal is to create long-term client relationships through personalized service and tailored solutions that save your community both time and money.

We offer:

- Municipal Engineering
- Construction Review and Survey
- Asset Management
- SCADA
- Environmental Services
- Financial Services
- Water and Wastewater
- GIS

Plus multiple other specialty services to complete your team.

Dedication, energy, and a tested approach has gone hand-in-hand with our ability to deliver your projects on-time and on-budget. Teamwork is what we're about in and outside of the office. It's because we firmly believe in working with you and not just for you.

This collaborative thinking is what helps us give you the best results through the right specialists and team leaders.

For more than 70 years, our reputation has continued to grow. Our offices are within driving distance of our clients and we take pride in the personal attention we can offer since our employees live, work, and play in local communities.

PROJECT EXPERIENCE

TRANSPORTATION UTILITY FEASIBILITY STUDY

R/M created a transportation utility feasibility study for the City of Oconomowoc. By partnering with the mayor and City staff, R/M was able to align the study with the values and priorities of the community.

Based on the work R/M's engineers had done to build a Pavement Management System for the City, R/M was able to provide insight into the estimated costs that needed to be funded by a transportation utility. R/M made a financial model to determine a fee based on average number of trips for land-use category.

R/M developed a report to explain the transportation-utility concept and provide examples of the financial impact on specific parcels.

DYNAMIC FINANCIAL MODEL AND 20-YEAR CIP

To help the Village of Bonduel plot its course for its financial future, R/M built a dynamic financial model that forecast operations and maintenance expenses, cash flow, debt, and revenue for the municipality, the sewer utility, and the water utility.

The model incorporated a 20-year capital improvement plan for all three entities that R/M engineering created for the Village. This plan included a comprehensive plan for road work. R/M worked with Village staff and the board to create this model that could easily be updated.

The CIP was first created in 2009 and was updated again in 2014. A third 2020 update is being finalized this year.

STORMWATER MANAGEMENT MASTER PLAN AND UTILITY FEASIBILITY

R/M assisted the City of Watertown in obtaining three grants for water resources master planning. The City was funded through the Wisconsin Department of Natural Resources Urban Non-Point Source program in the amount of \$100,000 for completion of an initial city-wide stormwater management plan, \$33,000 for a stormwater utility feasibility study, and \$42,000 to develop and recommend a plan to comply with the pollutant allocations found in the Rock River TMDL Load Report.

As part of the long-term plan to address TSS and total phosphorus in the MS4, the team took a pollutant trading approach, where the City would offset pollutant loading with management measures in the upstream watershed. Surveys revealed a list of over 150 project sites with guidance on available best management practices that could be implemented.

The project included:

1. An inventory of existing conditions and system infrastructure.
2. Hydrologic/hydraulic flooding analysis for both existing and future conditions.
3. Analysis of current and future pollutant loadings using WinSLAMM.
4. Development and cost projection of a recommended stormwater management plan.

The stormwater utility study included:

1. Preparation of a stormwater needs assessment and estimated utility budget.
2. Estimation of the total number of Equivalent Runoff Units (ERUs) citywide.
3. Development and evaluation of proposed user charge structures.
4. Preparation and discussion of policy papers for each of the policy issues involved with creating a new utility.
5. An assessment of the financial, administrative, and political feasibility of a stormwater utility for the City of Watertown.

PROJECT HIGHLIGHTS

The initial two studies involved the formation of a 20-member stakeholder advisory committee consisting of elected officials, municipal staff, concerned citizens, environmental groups, Wisconsin Department of Natural Resources representatives, local business owners, and non-profit organization representatives. Watertown's Stormwater Utility currently generates more than \$1,000,000 per year in funds that are exclusively dedicated to stormwater projects. R/M has performed several rate updates since the utility creation.

FRANKLIN/OAK CREEK WATER UTILITY CONTESTED PSC CASE

Striving to keep water rates down for the City of Franklin, R/M supported the City when it intervened in its wholesale water supplier's construction authorization case. Partnering with City staff and the City's attorney, R/M provided financial analysis and submitted oral and written expert testimony before the Public Service Commission in this complex contested case over the course of several years.

In 2015, the Oak Creek Water Utility applied for approval from the Wisconsin Public Service Commission to upgrade its water treatment plant and add ultraviolet disinfection. Its wholesale customer, the Franklin Water Utility, intervened, arguing that the upgrade was unnecessary. R/M worked on behalf of Franklin through a complex proceeding that lasted more than two and a half years. We reviewed Oak Creek's plans and demand forecasts, evaluated statutory criteria for project approval, and submitted oral and written expert testimony.

PROJECT HIGHLIGHT

The PSC has recently started interpreting construction approval regulations more narrowly. As part of the contested proceeding between Franklin and Oak Creek, R/M thoroughly understands how the PSC interprets its authority and how that interpretation may evolve in the future. Ultimately, the PSC sided with our client and denied the construction authorization.

TEAM MEMBERS

EDWARD F. MAXWELL

ECONOMIC CONSULTANT

Before joining R/M, he worked in private-sector finance, analyzing capital investments, forecasting expenses and revenue, and crafting department budgets. At R/M, he creates financial solutions for all clients, from municipalities to corporate businesses.

EXPERIENCE

Impact Fee Studies

Edward has created impact fee studies for utilities and municipalities. By partnering with utility and municipal staff to assess capital needs, Edward has developed impact fees to meet the demands placed on communities from new growth. Edward has drafted ordinances to codify the fees and ensure compliance with state statutory changes. These ordinances have been adopted by municipal clients as part of approving the new impact fees. Additionally, he has spoken at public hearings and before governing bodies to explain the fees in detail.

Reserve Capacity Assessment Studies

Edward has conducted Reserve Capacity Assessment studies and offered recommendations for fee schedules. Based on the study he performed for the City of Hartford sanitary sewer utility, Edward proposed several alternatives that would ensure Hartford sewer's capital expenditures for new development would be fully funded, and he provided a detailed list of advantages and disadvantages that informed decision makers.

Wastewater Cost of Service & Rate Design

Edward has analyzed cost of service and designed rates for utilities for communities ranging from the Village of Thiensville, Wisconsin, to the City of Erie, Pennsylvania. For Erie's sanitary sewer utility, Edward forecasted the cash flow and the rate increases needed to fund the increased debt service from all the infrastructure upgrades required in the next ten years.

Presentations

Edward has presented actionable recommendations to executives at numerous corporations. He presented a comprehensive real-estate portfolio strategy regarding store locations in and near malls to Starbucks. He recommended specific courses of action to American Family Insurance regarding potential venture-capital investments. Edward presented multi-million-dollar manufacturing cost-saving measures for manufacturing at both Kimberly-Clark and Springs Window Fashions.

Water Cost of Service, Rate Design, & Public Fire Protection Charges

Edward has created cost of service analysis and performed rate design for water utilities throughout Wisconsin. He has guided utilities through the process of submitting the applications with the Public

EDWARD F. MAXWELL

ECONOMIC CONSULTANT

Service Commission all the way to implementing the approved rates. He has assisted utilities such as the City of Racine Water Utility in changing their method of recovering costs for public fire protection to allow municipalities flexibility to meet their needs and to ensure utilities gain revenue that suffices to cover their expenses while complying with all relevant regulations.

Stormwater Cost of Service and Rate Design

Edward has analyzed cost of service and designed rates for stormwater utilities across the state, including communities such as the City of Fitchburg and the Village of Fox Point. Partnering with municipal employees and other stakeholders, he creates cogent narratives that explain these rate designs in an accessible manner. He has presented to finance committees, committees of the whole, and city councils to advance the proposed rate structures.

Utility Financial Best Practices Review

Edward has provided comprehensive reviews of stormwater utility financial best practices. Interviewing numerous utilities throughout the state and researching industry best practices, Edward has provided key insights to clients so that they can optimize their financial practices. Most recently, he offered counsel to the City of Watertown, focusing on improving their credit policy and approach to capital expenditures.

Stormwater Credit Application Reviews

Edward has reviewed stormwater credit applications on behalf of clients such as the City of Greenfield. The applications come from developers who had installed stormwater management features in hopes of earning credit. Edward has evaluated the applications and offered detailed feedback explaining the municipality's decision to the developers, including analysis and references to the credit policy.

Ordinance Revisions

Edward has revised ordinances for municipalities to ensure compliance with law changes and to

reflect best practices. For the Village of Fox Point, he revised the storm water ordinances so that Fox Point was complying with NR 151 and had language that encouraged green infrastructure.

Valuation

Edward has valued utilities, companies, projects, and startups using several valuation methods, including discounted cash flow analysis. These valuations have informed negotiations so that clients can make smart financial decisions.

Expense Evaluation

Edward has analyzed expenses at several large corporations. At Lands' End, he performed ROI analysis on marketing vendor contracts to determine the most fiscally advantageous supplier. Edward also analyzed channel spend by geographic region to help management decide where to concentrate its marketing spend.

Capital Projects Evaluation

Edward has analyzed numerous capital projects, including equipment to revamp the largest product line at Springs Window Fashions. Using the capital asset pricing model, he determined the rate of return on these investments.

Forecasting

Edward has forecasted demand and expenses. Analyzing trends, he has forecasted demand for several products nationwide. He has forecasted expenses for departments at several corporations on line items including obsolescence, marketing, and selling.

BRIDGOT A. GYSBERS

ECONOMIC CONSULTANT

Bridgot joined Ruckert & Mielke, Inc. (R/M) in 2020 as a Economic Consultant. She has 16 years of experience which includes both municipal and investor-owned utility regulation in energy, gas, water, and sewer utilities. Bridgot has developed the revenue requirement for the majority of water rate cases that are regulated in Wisconsin along with a few where she analyzed the cost of service and designed rates. She was the lead auditor for several of the most complex investor-owned rate cases involving electric, gas, and water utilities. She comes to R/M with a wide range of experience in utility regulation. At R/M, she continues to use her background to find financial and management solutions for public utilities.

- National Association of Regulatory Utility Commissioners (NARUC) Rate School, West Coast
- Wisconsin Public Utility Institute, Energy Utility Basics, Madison, WI

16+

» years «
experience

EXPERIENCE

Water Rate Case Applications

An application must be filed with the PSCW before a public utility can raise its rates. Bridgot managed the water rate case application request program. She sent out water rate case application requests and responded to application inquiries. In coordination with Information Technology at the PSCW, she made programming adjustments to the water rate case application on an as needed basis. This added additional efficiencies in the water rate case application process.

Initial Screening of Water Rate Case Applications

PSCW has an initial screening process for water rate case applications. This mechanism was implemented to ensure "clean" PSCW water rate case application filings from utilities which in turn expedites the rate case process. Bridgot has performed the initial screenings of these water rate case applications on an as needed basis.

Water and Electric Municipal Revenue Requirement

Bridgot has 16 years of experience in developing the revenue requirement for both municipal water and electric utilities in Wisconsin. Bridgot has been involved in some of the most highly complex municipal water revenue requirements, which included Milwaukee, Madison, and Waukesha. Each of these were disputed cases which appeared before the Public Service Commission of Wisconsin (PSCW) for Final Decision. In her role as Commission staff witness, her focus was on the revenue requirement, where she prepared testimony, drafted briefing memorandums, briefed Commissioners on issues in the case, and was involved in the preparation of the Final Order and Decision.

Investor-Owned Utilities Revenue Requirement

Bridgot developed the revenue requirement for the most highly complex investor-owned utilities in Wisconsin, which included Madison Gas and Electric Company (MG&E) and Northern States Power Company (NSP). She also reviewed water revenues and electric net investment rate base for several Superior Water, Light and Power Company (SWLP) rate cases. Each of these investor-owned utility cases was disputed and appeared before the PSCW for Final Decision. In her role as lead auditor, her focus was on the revenue requirement where she also developed the audit program, coordinated audit with Commission staff, summarized findings and conclusions,

BRIDGOT A. GYSBERS

ECONOMIC CONSULTANT

EXPERIENCE (CONT.)

and communicated those findings with the Company and Commission staff. In addition, as Commission staff witness, she also prepared the notice of proceeding, testimony, briefing memorandum, decision matrix, and Order and Final Decision.

Water, Electric, and Gas PSCW Commission Staff Expert Witness

Bridgot served as PSCW Commission staff expert witness in several disputed rate proceedings which included Milwaukee, Madison, and Waukesha along with Madison Gas and Electric Company (MG&E), Northern States Power Company (NSP), and Superior Water, Light and Power Company (SWLP). She filed testimony which focused on the revenue requirement. The revenue requirement included a review of net investment rate base, revenues, and expenses. For each of these areas she reviewed the reasonableness of the utility projections for the test year.

Impact Fees and Alternative Funding Mechanisms

The water rate application at the PSCW identifies those municipalities that have adopted and have implemented impact fees and other capital recovery mechanisms. In 2018, Bridgot developed a process at the PSCW for the review of impact fees to provide accounting guidance on the disclosure of those assets funded by impact fees for water rate case applications and PSCW annual reports.

Sewer Revenue Requirement

Bridgot developed the sewer revenue requirement for Plymouth Utilities prior to de-regulation which occurred in 2014. Sewer rate case filings are more infrequent, as there are only 3 sewer utilities that remain regulated with the PSCW.

Water Cost of Service Study and Rate Design

Bridgot has analyzed the cost of service and designed rates in several water municipalities in Wisconsin, which included facilitating discussions to explain the need for rate changes and impact it will have on customers.

Water Simplified Rate Case Filings

The simple rate case mechanism is to allow municipal water and sewer utilities to receive an inflationary level of rate increase with minimal effort and no rate hearing requirement. Bridgot reviewed and analyzed

approximately 40 simplified water rate increases annually. She also presented to various groups in the industry on this simple rate case mechanism and provided support on an as needed basis.

Electric and Gas Investor-Owned and Municipal Affiliated Interest Agreements

Bridgot was the lead auditor who managed and processed the majority of the electric and gas affiliated interest and/or intermunicipal agreements that were filed with the Public Service Commission (PSCW) from 2014 through 2017. In her role, she prepared the Notice of Investigation (NOI), analyzed the terms of the agreement along with other expert PSCW Commission staff and prepared Commission memo and Order and Final Decision. The majority of the agreements that she reviewed were filed by either WEC Energy Group (WEC) and Wisconsin Power and Light (WP&L) of varying complexities.

Investor-Owned Holding Company Audit

Bridgot was the lead auditor that managed the holding company program at the PSCW from 2014 through 2017. The holding companies that she audited included Alliant Energy Corporation and Madison Gas and Electric Company. For each of these audits, Bridgot developed the audit program, summarized findings and conclusions, communicated findings with Company personnel, and finalized PSCW Commission staff findings in a letter to the Company.

Draft Reports to the Legislature on Wisconsin Investor-Owned Utilities

Wis. Stats. § 196.795(7)(ar) and Wis. Stats. § 13.171(2) require that the PSCW submit to the Legislature a report that summarizes the impact that each holding company system has on our Wisconsin utilities. This report is due and filed with the Legislature every 2 years. Bridgot prepared the report in coordination with the feedback received from our Wisconsin utilities. She also presented the report to the PSCW and finalized the version of the report that was sent to the Legislature.

Water Utility and Investor-Owned Utility Acquisitions

Bridgot was involved in the acquisition of Integrys by Wisconsin Energy Corporation to form WEC Energy Group in 2014. In her role as PSCW Commission staff, she was involved in the development of the data requests along with developing an issues list for the Commission.

BRIDGOT A. GYSBERS

ECONOMIC CONSULTANT

EXPERIENCE (CONT.)

PSCW WEGS and IOUS Annual Reporting Program

Pursuant to Wis. Stats. § 196.07, every utility shall file with the PSCW an annual report that is due on or before April 1 annually. Bridgot oversaw this program for approximately 12 years. She responded to utility accounting and PSCW program-related inquiries. In addition, she was involved in the annual report review process along with ensuring utilities file timely annual reports with the PSCW.

Regulatory Accounting Changes

PSCW receives inquiries on changes to generally accepted accounting principles (GAAP) and the impact that has had on PSCW utility accounting. Bridgot has responded to these utility inquiries by providing the proper accounting treatment from the PSCW perspective.

PSCW Uniform System of Accounts and Utility Reference Manual Update

The PSCW has established an accounting framework for utilities to use in reporting financial information. The accounting framework that is used for municipal and investor-owned utilities is the Uniform System of Accounts. In addition, the Water Utility Reference Manual is also used by water and sewer utilities as a supplement to the Uniform System of Accounts. Bridgot oversaw and provided accounting input that led to various updates of both the Uniform System of Accounts and Utility Reference Manual.

Municipal Clerk and Treasurer Institute. Some of the topics covered include PSC annual reports, rate case process, varying topics as part of the revenue requirement, funding mechanisms, construction authorization and continuing property records, conservation and record retention.

- Attended the National Association of Regulatory Utility Commissioners (NARUC) Subcommittee on Accounting and Finance in 2015. Bridgot provided feedback from Wisconsin to this committee on a per request basis.
- Presented at American Water Works Association annual conference in 2013 on the re-design of a compliance program that was being developed in Wisconsin. At this conference, Bridgot also was part of a panel discussion with others to discuss small systems and funding mechanisms available to water utilities.

SELECTED PUBLICATIONS

- Served as a member of American Water Works Association (AWWA) and Wisconsin American Water Works Association (WIAWWA). Bridgot has been involved with the IT & Security Committee, Small Systems Committee, and Finance Committee of WIAWWA.
- Contributions made to Wisconsin American Water Works Association and Wisconsin Rural Water Association newsletters on an as needed basis.
- Presented and participated in panel discussion to various groups, which includes American Water Works Association, Wisconsin American Water Works Association, Wisconsin Rural Water Association, League of Wisconsin Municipalities, Municipal Electric Utilities of Wisconsin, and

STANDARD TERMS AND CONDITIONS

Ruekert & Mielke, Inc. Standard Terms and Conditions (Non-Engineering Services)

Effective March 7, 2014

A. Standards of Performance

The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer.

B. Authorized Representative

With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the services to be performed or furnished by Engineer and duties and responsibilities of Owner under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and render decisions relative to the Assignment on behalf of the respective party whom the individual represents.

C. Payments to Engineer

Invoices will be prepared in accordance with Engineer's standard invoicing practices and will be submitted to Owner by Engineer monthly, unless otherwise agreed. Invoices are due and payable within 30 days of receipt. If Owner fails to make any payment due Engineer for services and expenses within 30 days after receipt of Engineer's invoice therefore, the amounts due Engineer will be increased at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) from said thirtieth day. In addition, Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Engineer has been paid in full all amounts due for services, expenses, and other related charges.

D. Ownership and Reuse of Documents

All documents prepared or furnished by Engineer pursuant to this Agreement are instruments of service, and Engineer shall retain an ownership and property interest therein (including the copyright and the right of reuse at the discretion of the Engineer) whether or not the Project is completed. Engineer grants Owner a limited license to use the documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all services relating to preparation of the documents. Such limited license shall not create any rights in third parties. Reuse of any documents pertaining to this Agreement by Owner shall be at Owner's sole risk; and Owner agrees to indemnify, defend, and hold Engineer harmless from all claims, damages, and expenses including reasonable attorney's fees arising out of such reuse of documents by Owner or by others acting through Owner.

E. Owner Provided Information

Engineer shall have the right to rely on the accuracy of any information provided by Owner. Engineer will not review this information for accuracy.

F. Permits and Approvals

It is the responsibility of the Owner to obtain all necessary permits and approvals for the Project. Engineer will assist the Owner as mutually agreed to in writing.

G. Limit of Liability

To the fullest extent permitted by law, the total liability, in the aggregate, of Engineer and Engineer's officers, directors, partners, employees, agents, and consultants, or any of them to Owner and anyone claiming by, through, or under Owner, for any and all injuries, losses, damages and expenses, whatsoever arising out of, resulting from, or in any way related to this Agreement from any cause or causes including but not limited to the negligence, professional errors or omissions, strict liability or breach of contract or warranty, express or implied, of Engineer or Engineer's officers, directors, partners, employees, agents, and consultants, or any of them, shall not exceed the total amount of \$2,000,000.

H. Insurance

Engineer will maintain insurance coverage for Workers' Compensation, General Liability, and Automobile Liability and will provide certificates of insurance to Owner upon request.

I. Termination of Contract

Either party may at any time terminate this Agreement with 7 days written notice for cause in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party. Owner may terminate this Agreement for convenience with 30 days written notice, or the Project may be suspended by Owner with 30 days written notice. In the event of suspension or cancellation for convenience by Owner, Owner shall pay to Engineer all amounts owing to Engineer under this Agreement, for all work performed up to the effective date of notice.

J. Indemnification and Allocation of Risk

1. To the fullest extent permitted by law, Engineer shall indemnify and hold harmless Owner, Owner's officers, directors, partners, and employees from and against costs, losses, and damages (including but not limited to reasonable fees and charges of engineers, architects, attorneys, and other professionals, and reasonable court or arbitration or other dispute resolution costs) caused solely by the negligent acts or omissions of Engineer or Engineer's officers, directors, partners, employees, and consultants in the performance of Engineer's services under this Agreement.

Page 1 of 2 pages

(Ruekert & Mielke, Inc. Standard Terms and Conditions)

~Raw Materials > AGREEMENT > Terms and Conditions > RM Standard Terms and Conditions - Non-Engineering-2014.docx~

2. To the fullest extent permitted by law, Owner shall indemnify and hold harmless Engineer, Engineer's officers, directors, partners, employees, and consultants from and against costs, losses, and damages (including but not limited to reasonable fees and charges of engineers, architects, attorneys, and other professionals, and reasonable court or arbitration or other dispute resolution costs) caused solely by the negligent acts or omissions of Owner or Owner's officers, directors, partners, employees, and consultants with respect to this Agreement.

3. To the fullest extent permitted by law, Engineer's total liability to Owner and anyone claiming by, through, or under Owner for any injuries, losses, damages and expenses caused in part by the negligence of Engineer and in part by the negligence of Owner or any other negligent entity or individual, shall not exceed the percentage share that Engineer's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

4. The indemnification provision of paragraph J.1. is subject to and limited by the provisions agreed to by Owner and Engineer in paragraph G. "Limit of Liability," of this Agreement.

K. Independent Contractor

All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party. Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either Owner or the Engineer. Engineer's services under this Agreement are being performed solely for the Owner's benefit, and no other entity shall have any claim against Engineer because of this Agreement or the performance or nonperformance of services hereunder. Owner agrees to include a provision in all contracts with contractors and other entities involved in this Project to carry out the intent of this paragraph.

L. Force Majure

Engineer shall not be liable for any loss or damage due to failure or delay in rendering any service called for under this Agreement resulting from any cause beyond Engineer's reasonable control.

M. Severability and Waiver of Provisions

Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Engineer, who agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision. Non-enforcement of any provision by either party shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

N. Dispute Resolution

Owner and Engineer agree that they shall first submit any and all unsettled claims, counterclaims, disputes, and other matters in questions between them arising out or relating to this Agreement or the breach thereof ("disputes") to mediation as a condition precedent to litigation.

O. Public Records

Engineer agrees to comply with the requirements of Wisconsin Statutes Sections 19.32 to 19.39 and Sections 19.81 to 19.98 – Wisconsin Public Records Law and Open Meetings Law.

END OF DOCUMENT

WHY CHOOSE HMI, INC.

You may be investigating other consultants for this Market Study. There can be a significant difference between various consultants. While we know we are not the least expensive in the industry, we are also not the most expensive. The value of an HMI, Inc. Market Study is given to our clients by providing the most professional, comprehensive, and factual Market Study in the industry, so they can make effective and informed decisions. Our research is presented logically so our conclusions can be understood and trusted. As you review various options, we would like to point out some of the many advantages of using HMI, Inc. to research your proposed hospitality project.

Management

Research

Marketing

HMI has a combined over 90 years of experience completing Hotel Market Studies for a wide variety of markets. These include small rural markets to major metropolitan markets. Our Hotel Market Studies have been completed for Economy to Upscale hotels. For Limited-Service, Select-Service and Full-Service hotels with and without various size of meeting/event facilities.

HMI, Inc. Market Studies are customized to match the objectives of the developer to the opportunities presented in the market. Our studies are not “boiler plate” in their format or presented information. Each study is professionally prepared in a comprehensive format to present factual information upon which effective decisions can be made.

Gregory R. Hanis, ISHC
President

Member of

HMI, Inc. will not present, or charge you for, a complete Market Study report that does not appear to be feasible. As we work through the Market Study, if we see concerns in the market that will affect the scope of the project, we will discuss our findings with you and suggest possible adjustments or the termination of the assignment if necessary. This will save you time, effort, and money on your project.

HMI, Inc. Market Studies are intended to be working documents. HMI, Inc. is always available to discuss questions or scenarios you may have regarding your Market Study. If adjustments are made to the overall scope or details of your project, we are available to discuss how these adjustments could affect the results of your Market Study. If necessary we can make revisions as your specific hotel project is fine-tuned.

Hotel Service Network

Dear Brad,

Per our conversation on Tuesday, I have assembled this **Proposal/Engagement Letter** regarding market research for the potential development of two hotels in the Tomah, Wisconsin market area. This will be in follow-up to the Field Research Analysis Report we completed in 2016 for the community. Thank you for considering HMI once again for this project.

HMI has prepared many studies for communities such as Tomah and we have expertise in performing research for a variety of hotel styles.

- This expertise comes with over **90 years** of combined experience.
- Greg Hanis and Michael Hool are **Certified Members of the International Society of Hospitality Consultants (ISHC)**. **This organization selects its members at the invitation of existing members. New members are vetted for their years of experience and reputation in the hospitality industry.**
- HMI can assist with market research, brand selection, and development of the proposed hotels. Thank you for considering Hospitality Marketers International, Inc., to research this hotel project.

This letter is a **Proposal to Perform and, upon Acceptance, Confirm the Engagement** of HMI to perform project work for this proposed hotel project.

For additional information about HMI and our market study services, please refer to our Web Site at www.hospitalitymarketers.com. Specifically, the project to be completed by HMI is as follows:

GENERAL PROJECT APPROACH

-- The following outlines the General Approach we will take in researching this market.

-- In order to expedite the completion of this project, HMI will be engaged to perform a Hotel Market Study Report for potential development of a Limited-Service and/or a Select-Service hotel at the two sites locations in Tomah. HMI

will schedule this project accordingly. (For a Full-Service Hotels please contact Hospitality Marketers International for more information.)

-- Recommendations regarding the Style of the proposed hotels will be provided based upon demand and competitive supply factors.

- At this time, a potential Limited-Service and a Select-Service Hotel were discussed.

-- The specific Subject Site for the proposed hotels were currently identified, at this time, as being in the downtown area and in the area by I-90 on the south side of the city.

-- The Hotel Product Category was currently identified as a potential Limited-Service and a Select-Service Hotel. Recommendations will be provided for the Hotel Product Category based upon demand and competitive supply factors. (For a Full-Service Hotels please contact Hospitality Marketers International for more information.)

-- The Price Category for the proposed hotels were not currently identified. Recommendations will be provided for the proposed hotel's price category based upon demand and competitive supply factors.

-- It is our understanding that no specific hotel Brands were identified at this time. Recommendations will be provided for the proposed hotels brand(s) based upon demand and competitive supply factors.

-- The Size of the proposed hotels was not identified at this time. Specific size suggestions for the proposed hotels will be determined by the size of the sites, the demand sources, and competitive supply in the market.

-- There may be the potential for the proposed hotels to have specific Amenities or Services. Some may relate to the Style and/or Brand chosen for these hotels. Other amenities and services may relate to the demand characteristics of the subject market. These items will be addressed accordingly based upon the research performed for this phase, and recommendations will be made as to the type, size and necessity for certain amenities at the proposed hotels.

-- At this time, possible Food & Beverage venues will not be considered for the Limited-Service Hotel with the exception of a Continental Breakfast. Possible Food & Beverage facilities would be considered for a Select-Service Hotel.

(OPTION) FIELD RESEARCH HOTEL EVALUATION REPORT

The following will outline our approach for completing the Field Research Hotel Evaluation Report. (This is the suggested report style discussed during our call.)

-- As we discussed, the suggested approach is to conduct a Field Research Hotel Evaluation Report. This study is used by communities and developers to identify the preliminary need for the hotels in this market.

-- Based on comprehensive research of the subject market, this Field Research Hotel Evaluation Report will provide a preliminary evaluation with key market factors highlighted. This report will research the proposed sites being considered for hotel development including its visibility and accessibility to the proposed markets. The relationship of the sites to possible lodging demand generators and existing lodging supply will be researched. General economic conditions will

also be researched. A preliminary Field Research Hotel Evaluation Report will be presented with a brief overview of these elements.

-- Preliminary operational projections for Occupancy, Average Daily Room Rate and Sales Revenue will be presented for each hotel. Food and Beverage Revenue will also be included for the Select-Service Hotel. These preliminary projections will be to a stabilized year of operation. Preliminary recommendations for hotel site location, product type and size, franchise/branding recommendations, and product features and amenities will be provided.

-- A preliminary Operational Proforma will be developed based upon the sales revenue projections presented in this report and national hotel industry operational expense averages for the style of hotels being considered.

-- This is not a full Comprehensive Hotel Market study. It is presented in an abbreviated format that summarizes the research performed.

FUTURE OPTIONS: This report could be expanded upon completion and the recommendations presented by HMI into a Comprehensive Hotel Market Study for a specific hotel development. Also, HMI could assist in assembling a detailed Operational Proforma & Investment Analysis for a specific hotel development. The following are options for expanding this Field Research Analysis Report.

(OPTION) COMPREHENSIVE HOTEL MARKET STUDY

-- This suggested approach (to conduct a Comprehensive Hotel Market Study) is used by communities and developers to support the conclusions, recommendations and multi-year projections presented in this market study.

--A Comprehensive Hotel Market Study will provide, based upon comprehensive research of the subject market, a detailed evaluation with key market factors highlighted. This report will research the proposed sites being considered for hotel development including its visibility and accessibility to the proposed markets. The relationship of the site areas to possible lodging demand generators and existing lodging supply will be researched. General economic conditions will also be researched.

--Comprehensive and statistical operational projections for Sales Revenue, based upon Occupancy and Average Daily Room Rates, will be presented. Also, Food & Beverage Projections will be presented for a Select-Service hotel. These multi-year projections will be to a stabilized year of operation. Detailed property recommendations for property site location, product type and size, franchise recommendations, and product features and amenities will be provided.

-- A preliminary Operational Proforma will be developed based upon the sales revenue projections presented in this report and national hotel industry operational expense averages for the style of hotel being considered.

(See the Multi-Year Operational and Investment Proforma Statement Projection Report area of this letter for information regarding expanding this preliminary Operational Proforma into a Detailed Multi-Year Operational Proforma and Investment Analysis.)

-- The format of this study should be acceptable for external lending and investing purposes. Hospitality Marketers would be available to answer any questions concerning these studies upon their completion.

(OPTION) DETAILED MULTI-YEAR OPERATIONAL PROFORMA PROJECTIONS and INVESTMENT ANALYSIS

If required by you, the investors, or the lender, HMI will assist in preparing or reviewing a Multi-Year Operational Proforma Projections & Investment Analysis for the proposed hotel projects in the subject site area. HMI could develop or review the Detailed Multi-Year Operational Proforma Projections and Investment Analysis for you.

- If developed by HMI, this report would be based upon previous market research performed by Hospitality Marketers International, Inc., and contained in its Comprehensive Hotel Market Study Report for your proposed projects. A Detailed Multi-Year Operational Proforma & Investment Analysis will be prepared, using industry standards, other acceptable accounting models, and specific property information for the proposed hotels. It will be based upon the multi-year sales projections contained in the Comprehensive Hotel Market Study Report for this hotel.

TIMING

-- Your market study is scheduled based upon the accepted return of this Engagement Letter and receipt of the Retainer Check. An exact start and completion date will be assigned with the accepted return of this letter and Retainer Check to HMI. Should there be any unforeseen delays which would change this completion date, we will communicate with you accordingly. If we can expedite this phase, we will do so.

-- Typically, the fieldwork research stage is completed within 30 days of the commencement of the research project. This is based upon our receipt of the Signature Page and Retainer Check. However, it will be based upon our project schedule at that time.

- The Field Research Analysis Report and Comprehensive Hotel Market Study will be completed within 60 days from the start of the project.

-- This timing is based upon the receipt of the Signature Page and Retainer Check. However, it will also be based upon our project schedule at that time.

-- At the present time, given the current health crisis, we will try to meet the timeframe outlined above. However, if we experience delays in accessing the information we need from various local officials etc., this could have an impact on our research completion timeframe. We will keep you updated as we work through this project. Thank you for your understanding.

-- To customize a report and do the necessary research takes time to complete as we do not perform "Boiler Plate" reports in order to expedite completion. Please allow ample time for the completion of our research. All of our projects depend upon your authorization to proceed and we will expedite the completion as best as our schedule allows. We have given you realistic timing for the report. We do not promise a shorter time-frame and adjust it after receiving the project.

COMPENSATION

HMI's compensation for completing this project work for a Select-Service Hotel is as follows: (All fees quoted are valid for 90 days from the date of this letter. After that time, there may be the need to revise these fees due to changes in market conditions, especially travel expenses.)

(OPTION) FIELD RESEARCH HOTEL EVALUATION REPORT

-- The complete Field Research Hotel Evaluation Report fee for two site locations is:

- Limited-Service Hotel-
 - **\$5,650- One Hotel**, including all associated research expenses (see below), the Field Research Stage and the Retainer received.
 - **(This is a discount from our normal fee of \$6,350.)**
 - A Retainer **(\$2,825)** is required prior to commencing work on this project.
 - **\$8,500- Two Hotels**, including all associated research expenses (see below), the Field Research Stage and the Retainer received.
 - **(This is a discount from our normal fee of \$9,500.)**
 - A Retainer **(\$4,250)** is required prior to commencing work on this project.
- Select-Service Hotel-
 - **\$7,300- One Hotel**, including all associated research expenses (see below), the Field Research Stage and the Retainer received.
 - **(This is a discount from our normal fee of \$8,500.)**
 - A Retainer **(\$3,650)** is required prior to commencing work on this project.
 - **\$10,950- Two Hotels**, including all associated research expenses (see below), the Field Research Stage and the Retainer received.
 - **(This is a discount from our normal fee of \$12,750.)**
 - A Retainer **(\$5,475)** is required prior to commencing work on this project.

-- *To customize a report with **one Limited-Service Hotel and one Select-Service Hotel**, the fee would be:*

- **\$9,300**, including all associated research expenses (see below), the Field Research Stage and the Retainer received.
 - **(This is a discount from our normal fee of \$10,600.)**
 - A Retainer **(\$4,650)** is required prior to commencing work on this project.

(OPTION) COMPREHENSIVE HOTEL MARKET STUDY

-- The complete Comprehensive Hotel Market Study fees for *two* site locations are:

- Limited-Service Hotel-
 - **\$7,500- One Hotel**, including all associated research expenses (see below), the Field Research Stage, and the Retainer received.
 - **(This is a discount from our normal fee of \$8,800.)**
 - A Retainer **(\$3,750)** is required prior to commencing work on this project.
 - **\$11,250- Two Hotels**, including all associated research expenses (see below), the Field Research Stage, and the Retainer received.
 - **(This is a discount from our normal fee of \$11,000.)**
 - A Retainer **(\$5,625)** is required prior to commencing work on this project.

- Select-Service Hotel-
 - **\$7,300- One Hotel**, including all associated research expenses (see below), the Field Research Stage and the Retainer received.
 - **(This is a discount from our normal fee of \$8,500.)**
 - A Retainer **(\$3,650)** is required prior to commencing work on this project.
 - **\$10,950- Two Hotels**, including all associated research expenses (see below), the Field Research Stage, and the Retainer received.
 - **(This is a discount from our normal fee of \$12,750.)**
 - A Retainer **(\$5,475)** is required prior to commencing work on this project.

-- *To customize a report with **one Limited-Service Hotel and one Select-Service Hotel**, the fee would be:*

- **\$10,950**, including all associated research expenses (see below), the Field Research Stage, and the Retainer received.
 - **(This is a discount from our normal fee of \$13,050.)**
 - A Retainer **(\$4,650)** is required prior to commencing work on this project.

FOR THE ABOVE FIELD RESEARCH HOTEL EVALUATION REPORT AND COMPREHENSIVE HOTEL MARKET STUDY:

FIELD WORK STAGE

-- In the process of performing the field work portion of this report or in conducting the preliminary research for the written report, should the feasibility of a project become questionable, we will cease the project work and discuss our findings with you accordingly. Should it be necessary to cease all further work at this point, we will adjust our fees accordingly:

--The Retainer Fee Paid will cover the cost of this stage.

(OPTION) MULTI-YEAR OPERATIONAL AND INVESTMENT PROFORMA PROJECTIONS STATEMENT

--The Multi-Year Operational and Investment Proforma Projections Statement fee is dependent upon how involved HMI is in its preparation. The fee to prepare a customized Operational Proforma Projections and Investment Analysis or to review an Operational Proforma & Investment Analysis prepared by you or a third party, will not exceed:

- **\$1,500** for a Limited-Service Hotel to be billed at a pro-rated, per hour fee of **\$225.**
 - An additional Retainer of **(\$750)** is required prior to commencing work on this project.

- **\$2,000** for a Select-Service Hotel to be billed at a pro-rated, per hour fee of **\$225.**
 - An additional Retainer of **(\$750)** is required prior to commencing work on this project.

REPORT/PROJECT WORK FOLLOW-UP

--Upon completion of the Hotel Market Study, a "Pending" Version of the report will be presented for your review.

--Full payment of the final balance for this project, including expenses incurred, is required to release the Final Version of this Field Research Analysis Report or Comprehensive Hotel Market Study Report.

--HMI will be available for follow-up on the report/project work completed. Included in the above fees, at no extra charge, are two follow-up sessions at the completion of the report. This will allow you to review the report/project work. Additional report/follow-up on this project is available at a prorated \$225 per hour.

EXPENSES & GENERAL

All discounts offered above will apply to this project if full and final payment is received within 30 days from the final statement date. If payment is received after 30 days, the discount will be removed and the balance on the normal project fee will be due, less any previous payments made.

Expenses – All associated normal research and travel expenses are included in the above fees. Travel expenses include: Air Fare, Auto Mileage, Fuel, Auto Rental, Hotel and Meals. At this time, no adjustment to normal travel expenses was made to the estimated transportation and lodging costs being higher than normal costs for these items.

All statements for project work submitted by HMI are due upon receipt. Any unpaid balance after 30 days is subject to an 18% (1.5% per month) finance charge. Should it be necessary to use an outside collection agency or attorneys for payment of this project, any fees incurred by Hospitality Marketers International, Inc., will be added to the final amount owed.

We ask that you notify HMI before you solicit or hire any other hospitality consulting organization to perform this project work. This will prevent any conflict that may occur in completing this project work as defined.

HMI will be an independent contractor and will maintain its own separate legal identity and entity. There is no indication in this engagement that HMI and the Principal are business partners or have formed a joint venture to complete the project work defined.

Hospitality Marketers International, Inc. operates as a hotel service network organization. HMI staff will perform the above project work or assign it to qualified associates, within the service network, with the expertise to perform the outlined project work of this engagement. These service representatives are independent contractors who have established an exclusive representation agreement with HMI. HMI staff supervises and reviews all assigned project work. These qualified associates/consultants are service representatives acting as agents of HMI.

HMI may use your name as a previous customer reference upon completion of the project work.

All information concerning your business interests, as well as HMI's, including business data, policies, procedures, operations, and other information, are confidential and are not to be disclosed by yourself or HMI.

In the event that a dispute arises from this engagement which requires a legal remedy, it will be resolved through final and binding arbitration according to the current procedures of the American Arbitration Association and the prevailing laws and regulations of the State of Wisconsin. The arbitrator will be a knowledgeable source specializing in the area of hotel/resort marketing or real estate development. One of the arbitrators will be a member of the International Society of Hospitality Consultants. Due to the uncertainty related to future projections, any damages would be limited to the fees paid and related with this engagement. These damages would only be due to proof of gross negligence in performing the research and calculating the projections provided.

This engagement letter is in effect until the satisfactory completion of the project work and payment of the associated fees.

Brad, we appreciate this opportunity to work with you in researching this potential hotel project in Tomah. After reviewing this proposal/engagement letter, please contact me if you have any questions. Otherwise, please sign the attached Signature Page and return it, along with the appropriate retainer check, to my attention as soon as possible so I can begin scheduling this project. If you scan/email or fax your signed, accepted copy to me, we will hold your position (for ten days) in our market study queue until we receive your retainer check.

Sincerely,
HOSPITALITY MARKETERS INTERNATIONAL, INC.

INTRODUCTION/OBJECTIVE

The following Field Research Overview Report was prepared based upon the field research performed by Hospitality Marketers International, Inc. in October, 2016. This report provides an overview of the highlights observed in Tomah, Wisconsin and the surrounding market area. It provides preliminary Operational Projections for this market's ability to support a limited service, midscale hotel in this market. The report, based upon the research performed, also includes preliminary projections for this market supporting up to a 50-room hotel.

Recommendations will be made for continuation of the Hotel Market Study, based upon the research presented in this report, in the form of a complete Comprehensive Hotel Market Study. At that point, performing an additional Hotel Market Research can be decided.

As an overview report with preliminary Operational Projections and recommendations, this report is intended to be used primarily as an internal document and not for external purposes, such as investment or lending activity. It is intended to determine if further research of the subject market is necessary and if a more detailed Hotel Market study should be completed. In a full Comprehensive Hotel Market Study, these preliminary report comments would be expanded and presented with more detail.

This report is the sole property of the City of Tomah. This report cannot be used without the expressed written permission of the appropriate representative from the City of Tomah.

PROPOSED PROPERTY DESCRIPTION

It was requested that this Field Research Analysis Report investigate the potential feasibility of developing a limited service, midscale hotel. Based upon the research performed to date, the following recommendations for this type of development were developed

- PROPERTY TYPE: Mid-Priced

- PROPERTY STYLE: Limited-Service

- PROPERTY SIZE: Up to 50 Rooms

- SLEEPING ROOM CONFIGURATION:
 - 60-70% Queen Bedded Rooms
 - 30-40% King Bedded Rooms
 - Up to 10% Suites

- PROPERTY SERVICES/AMENITIES
 - Typical with This Product Type and Style
 - Complimentary Breakfast Area
 - Exercise Area and/or access to community wellness center on hospital campus
 - Indoor Pool/Whirlpool
 - Small Business Center
 - Other Considerations
 - Adequate parking for oversized vehicles including trucks, campers, RVs, motor coaches, etc.
 - Potential for leased restaurant space adjacent to or connected to the proposed hotel.
 - Potential for event space adjacent to or connected to the proposed hotel.
- OPENING DATE: Late Winter to Early Spring
- SUPPORT SERVICES: At this time, there are no support services located near the proposed hotel site. Adding support services, especially a sit-down restaurant, will be critical to drawing Lodging Demand away from the north side of the city and to the proposed property.

PRELIMINARY OPERATIONAL PROJECTIONS

(Occupancy, Average Daily Room Rates and Sales Revenue)

The following chart, based upon the research performed, shows the preliminary Operational Projections for Occupancy, Average Daily Room Rates and Sales Revenue for up to a **50-room**, mid-priced, limited service hotel. These are preliminary projections and they would be reviewed, potentially modified, and expanded in a Comprehensive Hotel Market Study. They are projected for the third full year of operation, which is the estimated stabilized year of operational performance for the proposed hotel.

PROJECTED PERFORMANCE FOR A 50-ROOM MID-PRICED, LIMITED-SERVICE PROPERTY			
	PROJECTED MARKET PERFORMANCE PRESENT MARKET	PROJECTED MARKET PENETRATION	PROJECTED HOTEL PERFORMANCE 50 ROOMS
OCCUPANCY			
Probable	50.8%	127.8%	64.9%
ADR			
Probable	\$95.17	103.4%	\$98.41
RevPAR			
Probable	\$48.31	132.1%	\$63.82
REVENUE			
Probable	NA	NA	\$1,164,756
<i>*Projected performance is +/- 5 percentage points and will be affected by changes in Lodging Supply and Demand growth levels used to formulate these projections.</i>			
<i>Source: HMI</i>			

- The above preliminary projections take into account the following:
 - Lodging Demand growth was estimated to grow at a cumulative average rate of (1.19%) from 2018 to 2020. This projection assumes that this market will improve from the (0.97%) historical average growth rate experienced from a low in 2012 to projected 2016.
- The proposed 50-room hotel will be smaller than the average room count in this market of 63.88 rooms, yielding 127.76% to the average sized property in the Competitive Set. The full size yield of 127.76% was used in these projections to generate a projected third year Occupancy of 64.9%. This Occupancy level was felt to be the potential maximum Occupancy level for the proposed hotel in the market, at this time. Therefore, the entire size-yield was used. This does not take into account economic and competitive factors that could affect these projections.

- These projections do not include any additional supply growth in the market other than the hotel proposed in this report.
- ADR growth is estimated to increase 5.20% in 2016. It is estimated to grow at an average per year of 2.44% from 2017 to 2020. This a slightly conservative growth rate when compared to the 2.63% growth rate seen from 2010 to 2016.
- At this time, the proposed hotel was rate-positioned with a 103.4% yield to the ADR of the Overall Competitive Set. This positioning is explained in this report as being slightly above the average ADR of the Competitive Set. There is the potential that in a more complete Comprehensive Hotel Market Study this rate positioning could change.
- Specific information and analysis of the data provided in this section of the Field Research Analysis Report would be included in a Comprehensive Hotel Market Study.
- As a benchmark to indicate support for the proposed hotel, the following Benchmark Development Costs (BDC) were projected. These are only benchmarks to support hotel development. They include all costs associated with the proposed hotel to the stabilized year of operation. They show the maximum support level for this proposed hotel development. Ideally, this maximum support level should not be exceeded without a good reason.
- These projections were based upon a 25% equity investment and would generate an estimated minimum of 15% Return on this Equity.

BENCHMARK DEVELOPMENT COSTS		
	ALLOWABLE COST PER ROOM*	ALLOWABLE TOTAL PROJECT COST*
50 Rooms	\$78,436	\$3,921,816
<i>*These projections will be affected by changes in Projected Occupancy or Projected ADR.</i>		
<i>Source: HMI</i>		

- Changing the Equity investment and desired Return will affect the BDC.

There is the potential that being a newer hotel compared to the Competitive Set, these preliminary Benchmark Development Costs and preliminary Operational Proforma estimates could be modified in a more complete Comprehensive Hotel Market Study.

GENERAL MARKET

- The Tomah market is located in southwestern Wisconsin at the intersection of Interstate 90 and Interstate 94:
 - 44 miles east of LaCrosse
 - 47miles northwest of Wisconsin Dells

- The chart below gives an overview of the population and per capita income growth in this market area.

POPULATION			
	2000	2010 - 2014 Est.	% CHG.
City of Tomah	8,419	9,093	8.0%
Monroe County	40,899	44,673	9.2%

PER CAPITA INCOME			
	2000	2010 - 2014 Est.	% CHG.
City of Tomah	\$17,409	\$22,157	27.3%
Monroe County	\$17,056	\$23,406	37.2%

Source: US Census

- The top industries in Tomah are:
 - Healthcare and Social Assistance (27.8%); Manufacturing (18.9%); and Retail Trade (12.2%). These represent 58.9% of the employment which is above the desired maximum 50% diversity employment level for the top three industries.

- Unemployment in Tomah in 2015 was at 5.5% compared to Wisconsin's 5.4% unemployment rate.
 - The average unemployment rate from 2007 to 2015 was 6.0% in Tomah compared to Wisconsin's 6.3% average.

- During the field research, there were no indications of Labor Supply or Wage Pressure issues within the service industries. The large employment market in the surrounding Monroe County area will assist in negating the low unemployment rate in Tomah.

- Traffic Counts on I-90, east of Highway 131, have increased by 8.8% from 2011 to 2014.
- Traffic Counts on Highway 131, north of I-90, have seen a decrease of (25.9%) from 2011 to 2014.
- The nearest commercial air service is 43 miles west of Tomah at the La Crosse Regional Airport. This airport offers service to regional hubs in the area via American Airlines and Delta Airlines.
- The Town of Tomah is heavily residential, corporate, and industrial in nature. The commercial and retail sectors have grown in recent years along I-94 on the north side of the city. This area includes big box retailers, nationally franchised restaurants and nationally franchised hotels. This area also serves as a commercial hub to the more rural surrounding Monroe County area and Fort McCoy. The large residential base in Tomah and the surrounding area also contributes traditional Social/Leisure activities including weddings, reunions, funerals, youth/amateur sports, festivals etc. Cranfest was reported to be the largest tourism draw and is held every fall.

SUBJECT SITE

- The main Subject Site being considered is located on the south side of the city, along the north side of I-90. Currently this site is entirely agricultural land with a gas station as the only support service at this interchange. Spring 2017 is projected for groundbreaking of a new \$72 million hospital campus on land immediately north of the Subject Site.
 - This campus is projected to include a 130,000 square-foot hospital, an 80,000 square-foot medical office building, and a 50,000 square-foot wellness facility. An assisted living facility is also planned for this site.
- The Subject Site consists of 57 acres and is bordered by Gopher Avenue to the north and I-90 to the south. The hospital campus will be located on the north side of Gopher Avenue.
- Currently, this site is not located in a Tax Incremental Financing District.
- The following provides an evaluation of the Subject Site area.

SUBJECT SITE EVALUATION	
Tomah, WI	
CATEGORY	
Visibility	Excellent
Accessibility	Excellent
Parking	Excellent
Site Prep	Very Good-Investigate
Environmental	Very Good-Investigate
Major Utilities	Excellent
Zoning	Exxcellent
Architectural Controls	Excellent
Area Support Services	Good
Competitive Position	Very Good
Overall	Excellent
<i>Source: HMI</i>	

- Based upon the Field Research performed, the overall rating of the Subject Site is Excellent with a rating of 4.84. These ratings are based on a 5-point scale with 5 being Excellent.
- Visibility of the site would be Excellent as this site would be level with the interstate. This would provide excellent visibility to eastbound traffic and some visibility to westbound traffic before reaching the exit. Traffic signage on I-90 will also assist in providing visibility.
- Most Major Utilities and Zoning were reported to be in place with the site to be development ready by Spring 2017. At this time, additional research may need to be performed by the developer to verify the Environmental condition of this site. The previous Agricultural use of this site should be favorable but this should be thoroughly investigated prior to development.
- Support Services in the area were ranked lower in the above chart due to the current lack of support services in this area of the city. At this time, there is a Mobil Gas Station on the corner of Gopher Avenue and Highway 131. Other than this gas station, the nearest support services are located one mile north of the site at the intersection of Highway 131 and Highway 12, including a Kwik Trip Gas Station and Convenience Store, a Dairy Queen, and a Quiznos.

- Additional support services may be added to the acreage surrounding the proposed hotel.
- The majority of the nationally branded support services in the city are located at the intersection of Highway 12 and I-94.
- This area will have a strong competitive advantage due to the excellent visibility to I-90 and the excellent accessibility to the hospital campus. The current lack of support services surrounding this site will be a competitive hurdle.

LODGING DEMAND

The chart below shows the current distribution of Lodging Demand in the Competitive Set. This is explained later in the Lodging Supply section. It includes Corporate/Commercial and Social/Leisure market segments as well as the anticipated Lodging Demand for the proposed hotel in Tomah.

MARKET SEGMENTATION					
	SUBJECT MARKET PROBABLE PERCENT OF MARKET	RANGE	PROPOSED PROPERTY PROBABLE MARKET	MARKET PENET.	RANGE
Individual Travel Markets	75.0%	72.5%-77.5%	75.0%	100.0%	72.5%-77.5%
Corporate/ Commercial	40.0%	37.5%-42.5%	40.0%	100.0%	37.5%-42.5%
Social/ Leisure	35.0%	32.5%-37.5%	35.0%	100.0%	32.5%-37.5%
Group Markets	25.0%	22.5%-27.5%	25.0%	100.0%	22.5%-27.5%
Business Related	10.0%	7.5%-12.5%	10.0%	100.0%	7.5%-12.5%
Social/ Leisure Related	15.0%	12.5%-17.5%	15.0%	100.0%	12.5%-17.5%
TOTAL	100.0%		100.0%		

Source: HMI

- As seen in the above chart, the subject market and the overall market will have similar market segmentations. This is largely due to a number of hotels in the Competitive Set being located in Tomah. The Competitive Hotel Set is defined later in the Lodging Supply section.
- The Tomah market will also have the opportunity to capture overflow Lodging Demand from the surrounding communities.
 - It should be noted, if event space and a restaurant were developed in association with or near the proposed hotel, there is the potential for the Group Market segments in the above chart to increase as this would set the proposed hotel apart from others in the Competitive Set and fill a need currently reported in the city. However, demand for this type of facility was limited and the research performed did not show support for the development of a large scale event space.
 - Adding a restaurant and other support services to the area surrounding the proposed hotel will also help to increase the Lodging Demand in all market segments. At this time, all of the support services in the city are located on the north side of the city, along I-94. Offering a quality restaurant and support services on the south side of the city will play an integral part in creating a lodging market on the south side of the city.

- The chart below is an overview of the Lodging Demand sources in the Tomah market.

MARKET SEGMENTATION PROFILES		
	Demand Potential

- The following Chart highlights the major employers in the immediate Tomah area.

MAJOR EMPLOYERS Tomah, WI	
COMPANY	SERVICE OR PRODUCT
Allan Gerke & Sons, Inc.	Trucking
COVERIS	Plastics Manufacturing
Handishop Industries, Inc.	Wood Furniture
Marten Transport	Trucking
Tomah Memorial Hospital	Health Care/Medical
Toro Co	Outdoor Power Equipment Manufacturing and Sales
VA Medical Center - Tomah	Health Care/Medical
Wal-Mart Distribution Center	Retail Store Distribution and Warehousing
Wal-Mart Supercenter	Retail

Source: Wisconsin WORKnet.gov

- The new Tomah Memorial Hospital campus is projected to be one of the main Lodging Demand generators in the Tomah market area. This potential demand could come from visiting physicians, donors, human resource hiring and recruiting, and administration. Social/Leisure demand is also possible as patient's families may require overnight rooms.
- Lodging Demand may also be generated by the medical office building and assisted living center located on this campus. Additionally, it was reported that the new community wellness center has the potential to increase the already popular youth sports market in the city.
- The Tomah VA Medical Center has the potential to generate demand similar to the Tomah Memorial Hospital, however this facility has a larger service radius. It should be noted that the VA Medical Center is closer to the hotels near I-94 and it is likely that this Lodging Demand segment will choose the hotels on the north side of the city.
- There is also a strong manufacturing industry in this market with the potential for more industrial and corporate growth.
 - The manufacturers and other businesses in the city and in the surrounding communities have the potential for Administrative, Human Resources and Suppliers/Vendors to come into the area.

- The Social/Leisure market will be driven by visiting friends and family. The large annual CranFest and Truck and Tractor Pull events along with tourism and outdoor recreation throughout this area should be another source of strong demand with a good potential for future growth.
- Tomah is located 7 miles east of Fort McCoy military base. This base is a Total Force Training Center serving all branches of the US military. In 2015, this base trained 155,237 service members. There is the potential for this base to generate Social/Leisure Lodging Demand from visiting family and friends, Military Personnel and Corporate/Commercial Lodging Demand from visiting officials and contractors. There are also times when area hotels are used by military personnel for military housing. While this overflow demand typically will stay in the economy hotels in the area, the traditional guests at the economy hotels will overflow into other hotels in the area.
- It should be noted that currently, the Corporate/Commercial and Social/Leisure group markets were reported to be present but limited due to the lack of group meeting space in the city. These market segments have the potential to expand if meeting space is available at the proposed hotel.
- At this time, the greatest potential for group Lodging Demand is from the wedding and family gathering market segments. The major employers in the area indicated the need for a meeting space capable of seating 50-100 people on an occasional basis. These major employers reported holding events with 400-600 attendees no more than one time per year.
- Being located on an interstate traffic route with excellent visibility should help to attract transient traffic to this property.

To analyze Lodging Demand in the subject market area, a Competitive Set of hotels in the Tomah area was identified. These are the hotels that local officials indicated were being utilized by visitors to this market area. A listing of these hotels is provided below in the Lodging Supply section of this report.

- Lodging Demand in the Competitive Set decreased by (0.8%) in 2015. The historic average annual growth rate was (3.91%) from 2010 - 2016. With the exception of 2013 and 2014, this market had negative growth in each year analyzed from 2010 to 2015. 2016 is projected to see a decrease of (13.96%). Officials in the area reported that this decrease was likely due to a very wet summer and fall which affected the tourism market. Additionally, a number of construction projects were completed in 2015, and the decrease in construction traffic may have affected Lodging Demand in 2016. The largest growth occurred in 2014 with a growth rate of 7.4%.

- Lodging Demand Annual Seasonality of the subject market showed Lodging Demand strength from May through October.
 - Revenue was maximized from June through September.
 - However, there is the potential for rates to increase which would better match Lodging Demand levels in May through August and again in October.
 - The weakest Lodging Demand period is December through February.
- During the three-year period from October, 2013 through September, 2016, this market appears to have an average weekday ADR of \$77.15 which is lower than the average ADR of \$80.55. The average weekend ADR is \$88.05 which is higher than the average annual ADR of \$80.55.
- The average low single rate in the market is \$68.50. Based upon this rate, the overall market is experiencing below average Rate Sensitivity as the average low single rate is well-below the ADR in this market. It appears that the weekday and weekend Lodging Demand have similar levels of below average Rate Sensitivity.
- *Unaccommodated Lodging Demand* is described in two ways. 1) It is Lodging Demand that prefers to stay in the subject market but is currently staying in other areas due to the lack of adequate accommodations. This is due either to condition or number of available rooms. 2) It can also be described as Lodging Demand that is staying in the subject market but actually desires accommodations in other areas.
 - There are currently five hotels in Tomah that were included in the Competitive Set which were reported to be the most commonly used hotels in Tomah. These properties were reported to be well maintained and well used by area visitors. Still, it was reported that there is a lack of meeting and event space in the city and this is limiting the amount of group lodging nights in the city. This group demand was reported to be typically staying in Warrens, 11 miles north of the city, at the Three Bears Resort. It was also mentioned that in some cases this group Lodging Demand is staying in La Crosse.
 - If event space and a restaurant were developed in the area immediately surrounding the proposed hotel, there may be some potential to capture a portion of this Lodging Demand. Still, it should be noted that the in the research performed, the large group event market did not prove to be consistent throughout the year and therefore a large event space may not be needed in this market area.

- The second definition is likely also occurring as the hotels in Tomah serve the overflow Lodging Demand from nearby Warrens, Sparta, and La Crosse.
- A review of the Competitive Set's performance from October, 2015 through September, 2016 reveals that 55.25 nights (15.11%) achieved Occupancies of 70.0% or greater. This is considered an Occupancy performance level at which newer and better hotels are reaching maximized Occupancy.
 - Of these, there were 12.75 nights (3.5%) with Occupancy over 80%. These occur on Friday and Saturday nights in July and August.

More detailed information and analysis of the data provided in this section of the Field Research Hotel Evaluation Report would be provided in a Comprehensive Hotel Market Study.

LODGING SUPPLY

- There are eight hotels in Tomah: a Super 8, EconoLodge, Hampton Inn, Microtel Inn and Suites, Quality Inn, AmericInn, Best Western, and an independently owned Cranberry Country Lodge. These properties were reported to be commonly used by visitors to the area and well maintained. It was reported that there are times throughout the year when these hotels reach maximum Occupancy.
- In addition to the eight Tomah hotels, there are three hotels in Sparta located 18 miles west of Tomah. These hotels were included in the Competitive Set due to these properties being commonly used by Tomah overflow demand. Also, the Sparta market is a comparable community to Tomah and will assist in gaining insight to the lodging performance of the overall market area.
- Eight hotels were included in the Statistical Competitive Set, including the three Sparta hotels and five Tomah hotels. The EconoLodge and Super 8 in Tomah were removed due to the economy style of these properties. The Cranberry Country Lodge was removed because it is independently owned and operated. The Statistical Competitive Set of hotels includes the following:
 - TOMAH
 - Quality Inn - 52 Rooms - 26 years old - Mid-Priced
 - Hampton Inn – 64 Rooms – 6 years old – Upper Mid-Priced
 - Microtel Inn and Suites – 60 Rooms – 11 years old – Economy
 - Best Western – 100 Rooms – 43 years old – Mid-Priced
 - AmericInn – 45 Rooms – 20 years old – Mid-Priced
 - SPARTA
 - Super 8 - 49 Rooms - 21 years old - Economy
 - Country Inn and Suites – 61 Rooms – 27 years old – Upper Mid-Priced
 - Best Western Plus – 80 Rooms – 14 years old – Upper Mid-Priced
- Competitive Set characteristics are as follows:
 - Average Size – 63.88 Rooms
 - Average Age - 21 Years
 - 1 Hotel in the 5-7 Year Renovation Period
 - 2 Hotels in the 12-15 Year Renovation Period
 - 5 Hotels requiring on-going Renovations and Maintenance

- Product Category
 - Economy - 2 Hotels - 130 Rooms – 25.44%
 - Mid-Priced - 3 Hotels - 197 Rooms – 38.55%
 - Upper Mid-Priced - 3 Hotels - 205 Rooms – 40.12%

- All of these hotels are affiliated with a major national hotel brand

- Total Rooms - 511 Rooms

- It should be noted that there is the potential for new hotel developments in Sparta, 18 miles to the west of Tomah and in Cashton, 28 miles to the southwest, in the near future. At the time of the report, no specific development plans were in place for these hotel projects and these potential properties were not included in the projections in this report.

- The following chart shows the projected ADR performance of the hotels in the Competitive Set:

COMPETITIVE HOTEL OCCUPANCY & RATES				
PROPERTY	Occ. Perform.	RATE ANALYSIS		PROJECTED ADR
		WINTER	SUMMER	
<u>Sparta, WI</u>				
Best Western Plus Sparta Trail	Average	\$76-\$89	\$89-\$134	\$93.58
Country Inn & Suites	Average	\$71-\$95	\$81-\$132	\$90.01
Super 8	Average	\$67-\$81	\$79-\$95	\$72.45
<u>Tomah, WI</u>				
AmericInn	Average	\$75-\$110	\$90-\$140	\$98.56
Best Western	Average	\$60-\$71	\$79-\$115	\$73.94
Hampton Inn	Average	\$84-\$93	\$84-\$109	\$87.88
Microtel Inn & Suites	Average	\$56-\$60	\$98-\$140	\$83.19
Quality Inn	Average	\$59-\$71	\$88-\$114	\$75.53
Competitive Market Average Daily Room Rate (ADR):				\$83.95
* Rates shown reflect the low single to high double for each season.				
** Where seasonal rate range was not available, similar available rate range was used.				
<i>Source: HMI</i>				

- In this Competitive Set, there appears to be three rate tiers. The top rate tier is highlighted in Green. The next highest rate tier is highlighted in Blue. The lowest rate tier is highlighted in Red.

- To accurately rate-position the proposed hotel, it was thought appropriate to remove the two lowest priced hotels in Tomah, the Quality Inn and the Best Western as well as the lowest priced hotel in Sparta, the Super 8. Therefore, the proposed hotel’s rate-positioning should be in the middle of the hotels in the second rate tier. At this time, this average rate-positioning would yield 103.4% to the overall Competitive Set.

- It would position the proposed hotel below the Hampton Inn and above the Microtel, both located in Tomah.
- This rate positioning would be analyzed along with a more detailed review of the members of the Competitive Set in a Comprehensive Hotel Market Study report.
- The Competitive Position of these hotels shows the following:
 - The Average Age of the Competitive Set hotels is 21 years, putting these hotels at a competitive disadvantage. The majority of the hotels in the Competitive Set hotels are in the second major renovation period or beyond this period. The Hampton Inn in Tomah is the newest hotel in this market at 6 years old.
 - Competitive Rate Positioning was discussed above and would position the proposed hotel at 102.1% to the Competitive Set.
 - Due to the older average age of the hotels in this market area, Facilities are not considered to be highly competitive with the proposed hotel. Seven of the eight hotels are either in or beyond the second major renovation stage. These properties will require on-going renovations and maintenance.
 - Brand competition within the Competitive Set will be above average. Operating the proposed hotel with a national brand representation will improve its competitive position in this market. Operating without a national brand is not recommended.
 - Locating the new hotel along I-90 in the midst of the healthcare center should offer a competitive advantage in serving the Lodging Demand in this market area. Still, this site location does not offer support services in the immediate area and the development of support services will be critical to drawing Lodging Demand away from the north side. Additionally, it was reported by area representatives that the city is in need of a quality sit-down dining restaurant.

HISTORICAL LODGING PERFORMANCE

- Lodging Demand in this market has seen a decrease in every year except for 2013 and 2014 when it increased by 4.8% and 7.4%, respectively. The strongest growth was in 2013 at 6.3% followed by 2014 at 2.0%. Lodging Demand in 2016 is projected to decrease by (13.96%). Officials in the area reported that this decrease was likely due to a very wet summer and fall season affected the tourism market. Additionally, there were a number of construction projects that were completed in 2015 and the decrease in construction traffic may have affected Lodging Demand in 2016. The average annual Lodging Demand growth from 2010 through 2016 was estimated to be (3.91%) and (0.97%) from 2012 to 2016.
- Occupancy followed a trend similar to that of Lodging Demand with increases seen in 2013 and 2014, and decreases seen in the other years. The highest Occupancy rate (at 72.7%) occurred in this market in 2010. In 2011, the Occupancy rate for the Competitive Set was 56.4%. Year end 2016 Occupancy is projected to be 49.3% which is a decrease from a rate of 57.3% in 2015.
- No new Lodging Supply was added to the Competitive Set over the years analyzed. As a result, absorption of new Lodging Supply could not be determined.
- Average Daily Room Rates (ADR) experienced positive growth in all years analyzed from 2010 to 2016, except for 2012. The highest growth rates occurred in 2011 with a rate of 6.7%. In 2016, ADR is projected to increase by 5.20% to \$84.82 from \$80.62 in 2015. The 2010 to 2016 historic average annual change in ADR was 2.63%.
- Revenue Per Available Room (RevPAR) has seen positive growth each year since 2013. Prior to 2013, this market saw a decrease in 2011 and 2012 of (17.3%) and (12.4%), respectively. The highest growth rate occurred in 2014 with a growth rate of 9.7% and a RevPAR of \$45.19. In 2016, RevPAR is projected to decrease by (9.48%) to \$41.82 from \$46.20 in 2015. The average annual growth from 2011 to 2016 was (3.58%).

More detailed information and analysis of the data provided in this section of the Field Research Hotel Evaluation Report would be provided in a Comprehensive Hotel Market Study.

EXHIBITS

The following exhibits describe the geographic location of the subject market and Subject Site.

- Exhibit 1 of this report shows the geographic relationship of the subject market to the State of Wisconsin and Illinois.
- Exhibit 2 shows the geographic relationship of the subject market area to the regional market area including the hotels in the competitive set.
- Exhibit 3 shows the geographic relationship of the subject market area to the regional market area.
- Exhibit 4 of this report shows a detailed view of the Subject Site area.

DISCLAIMER

The decisions presented herein were based upon the information available and received at the time this report was compiled. Hospitality Marketers International, Inc., (HMI) has taken every possible precaution to evaluate this information for its completeness, accuracy and reliability. To the best of its knowledge, HMI feels the information and decisions presented herein are sound and reliable.

At the present time of this report, the United States and world economies are in the midst of a recovery from a major recessionary period that ran from 2008-2010. This recovery appears to be continuing according to current news reports with most economic indicators indicating growth since 2011.

HMI is not responsible for effects that occur from future political, economic or social events that ultimately alter these projections. These events should be monitored accordingly and potentially the results of this report may require updating to respond to future events.

Also, it should be understood that normal economic and marketplace conditions change constantly. HMI assumes no responsibility for information that becomes outdated once this report is written; nor is it responsible for keeping this information current after December, 2016.

It should be understood that the results presented in this report are the professional opinion of HMI and are based upon the information available at this time. These opinions infer proper and professional management of the business operation. The opinions also infer that market conditions do not change the information received upon which those opinions have been based. HMI assumes no responsibility for changes in the marketplace.

Furthermore, it is presumed that those reading this report completely understand its contents and recommendations. If the reader is unclear of the understanding of the contents, clarification should be received from its writer, HMI.

Lastly, HMI assumes that those who receive this report act in accordance with its recommendations. Any deviation from those recommendations is solely the responsibility of those receiving this report.

Further questions concerning this report should be directed to HMI.

Sincerely,

HOSPITALITY MARKETERS INTERNATIONAL, INC.

Conclusions

- Projected Property Performance
 - Occupancy
 - Average Daily Room Rate
 - Projected Sales Revenue
- Property Recommendations
 - Property Type
 - Property Size
 - Property Amenities
 - Sleeping Room Configuration
 - Brand Affiliation
 - Rate Strategy
 - Opening Date

The Following sample report is a composite of several reports recently completed by Hospitality Marketers International, Inc. The intent is to show the detailed research information that is included in each section of our reports. This sample report is not a complete report for any one specific market. It will show the type of information our clients receive to evaluate the feasibility of a hotel project in their specific market areas.

INTRODUCTION/OBJECTIVE

Hospitality Marketers International, Inc., (HMI) has been engaged to provide this Phase II Comprehensive Market Study Analysis of the *Anytown, US*, market area. This Market Study will provide information concerning the town's market area and the market factors that would affect the possible development of a hotel facility in this community.

In this report, the focus will be on the development of a 60-room, limited-service, mid-priced, *name brand* hotel facility on the west side of town at the intersection of Main Street and Westview Drive. This hotel would feature traditional style hotel rooms in a four-story configuration. There will be no food and beverage facilities provided at this hotel. This report will provide recommendations for market feasibility to support this proposed hotel facility. The proposed size of the hotel to be developed will also be recommended.

Comprehensive research was performed and reviewed regarding the community's economic indicators, competitive Lodging Supply, and Lodging Demand generators. HMI conducted field research to determine the relationship between the community and the proposed facility's Lodging Supply competitors and Lodging Demand generators. Economic indicators were studied to determine the stability and future growth potential of the general market area.

Multiple-year Occupancy, Average Daily Room Rate, and Sales Revenue projections for the hotel were based upon a detailed review of the field research data. Facility recommendations as to product type, size, brand affiliation, and amenities were based upon the market demand research for the proposed facility. Again, these recommendations will focus on a limited-service, mid-priced hotel facility. The research that was conducted focused on macro- and micro-market analysis of the *Anytown* market area to determine the viability of this market to support the proposed hotel.

This is a comprehensive Market Study prepared for the developer to determine the potential for this type of hotel in this community. Based upon the results of this research, this report could be used by the prospective developer to pursue a specific hotel development in this community. This market study report should be acceptable

for internal as well as external investment and lending purposes. If, at any time, there are questions regarding this research, or this report needs to provide specific information regarding this hotel development, HMI will be available to address the required information.

SAMPLE

GENERAL MARKET DESCRIPTION

The general market area for this hotel will be the entire City of *Anytown* and the surrounding community of Avon Park, which is located to the north of the subject site. The regional market area includes an approximate 25-mile radius around *Anytown*. This area includes Avon Park, Sebring, and Lake Placid, all of which are along Highway 27. It also includes the entire Highlands County area and some surrounding areas in Hardee, Desoto and Polk Counties.

Sebring is conveniently located in the south-central section of the state. It has easy access to larger metropolitan areas within a 1½ to 2½ hour drive of Tampa, St. Petersburg, Bradenton, Sarasota, Port Charlotte, Fort Myers, Miami, Ft. Lauderdale, West Palm Beach, Fort Pierce and Orlando. There are many other communities located within this radius that *Anytown* has access to and can support in the regional market area.

Highway 27 is a well developed, four-lane highway that transports traffic through the central sections of the state. It is a key link from the Orlando area to the north to Miami to the south. Significant truck, transient and local resident traffic is seen on this highway. The main commercial development in the *Anytown* and Avon Park area is along Highway 27. The older commercial activity is located off Highway 27 in the downtown area of *Anytown*. The downtown area is quaint and maintains the historic flavor of the area.

The primary market area served by the hotel will be the Sebring and Avon Park area. With the site being located on the north side of Sebring, access to the entire Sebring and Avon Park area will be excellent. The Sebring market is made up of three cities, Sebring being the main focus of the area. However, Avon Park, located to the north, and Lake Placid, located to the south, make up the greater market area. The location on the north side of Sebring will best serve the Sebring and Avon Park areas.

Sebring and Highlands County have their roots in agriculture. Citrus crops and ranching are the mainstays of this industry. However, this area is diversified with some industry, tourism and residential development. It is also a hub for educational and medical services in the area.

In 2004, the area experienced a significant influx of short-term residents that fled the hurricane season on the east and west coasts of Florida. Due to the damage sustained in both areas, this area had some residents stay until their houses were rebuilt. Some residents stayed and established new homes in the area. Like the entire State of Florida, residential growth is significant in the area. It is not as fast as the coastal areas but it is steady. Land costs and some elements of the cost of living are lower in the central areas of the state. Also, quality of life issues such as taxes, crime, and congestion, are much lower in this area. This residential growth is

developing support for expanding retail, medical, educational and professional services in the Sebring area. Extensive growth is seen in the immediate market area as well.

Sebring has long been known for an internationally famous auto race. The “12 Hours of Sebring”, held in March, brings visitors, teams and sponsors from all over the nation and world. The race course also hosts other events during the year with another major event developing in late fall of each year.

The area is also known for its variety of inland fresh water lakes. Numerous lakes abound in this area. Water activities including boating, water sports, scuba diving and fishing are popular year-round activities in the area. Hunting is also large in the area during seasonal periods. Deer and wild boar are the major game hunted. Wild bird hunting is also experienced in the area.

There are also other activities, festivals and events held each year in this area. Bird watching, triathlons, youth and amateur sports, golf, and Highlands Hammock State Park all add features to this market that offer diversity of potential Lodging Demand.

The following exhibits will describe the geographic location of this market and subject site.

- Exhibit 1 of this report shows the geographic relationship of the subject market to the Greater United States.
- Exhibit 2 of this report relates the geographic relationship of the subject market to the State of Florida. Also highlighted is the regional market area that could be served by Sebring.
- Exhibit 3 of this report shows the Sebring/Avon Park/Lake Placid regional market area. Also highlighted are the primary competitive hotels as well as the location of the site for the proposed hotel.
- Exhibit 4 highlights the Subject Site within the broader Sebring market area. Also highlighted are the primary competitive hotels as well as the location of the site for the proposed hotel.
- Exhibit 5 indicates the Subject Site location of the site for the proposed hotel.

SITE ANALYSIS

This section of the report will review the geographic subject site for the proposed hotel facility. Key elements of the site analysis will be discussed including visibility, accessibility, support services, and competitive position.

SUBJECT SITE DESCRIPTION

There were two subject sites identified for the proposed hotel. The first site, and preferred site, is located at 630 South Wabash Avenue. The second site is located at 600 South Clark Street.

South Wabash Site

The first site, at 6230 South Wabash Avenue, was determined to be the more preferred site due to its location in the marketplace. This site is a vacant parcel of land on the west side of the street. It has proximity to the busy Michigan Avenue area. It is closer to the Chicago Hilton & Towers Hotel which is a major convention oriented hotel. Potential overflow and alternative guest lodging is possible, being only one block away from the hotel. This area also appears to be in the more developing commercial area of the South Loop market. This makes it more tourist friendly for support services.

This subject site has very good access into the Loop area and the areas to the north along Michigan Avenue.

A negative to the site is the elevated commuter rail track located immediately behind the site. Noise from this feature would be a factor to deal with in developing the site. Positioning elements of the mixed-use development at the appropriate level would be critical to mitigate noise impact. Ideally, hotel development should occur above the tracks.

This subject site area appears to be adequate to support hotel development at this time. The focus of this report will be on further identifying this site as the preferred subject site for this project.

South Clark Street Site

The second site, at 600 South Clark Street, is located across from the Federal Immigration building. The site is currently occupied by a parking garage. This would require demolition of the parking structure and investigation of the potential environmental condition of the site. This site seems to be more removed from the current general activity of the South Loop area. It is more removed from the South Michigan Avenue area and the Chicago Hilton Hotel & Tower facility. It does have very good access into the Loop area to the north. South Clark Street does not appear to be as tourist friendly with potential support services in the immediate area.

Overall, this site appears to be premature for hotel development. Additional expansion of the South Loop area would be required to support hotel development, and, as a result, this site may become more viable in the next three to five years.

SITE PREPARATION

This South Wabash Avenue site is currently cleared and generally ready for development.

This subject site is about 15,867 square feet. High-rise development would be required.

In regard to the environmental condition of the site, there was a restaurant on the site that did burn down. This may have potential environmental issues that need to be addressed due to the fire. An environmental study should be performed to confirm this observation and the overall environmental integrity of the site.

Water drainage, seepage or flood plain issues do not appear to exist for this site. Toxic waste issues would be addressed by an environmental study.

Being an urban site, all major utilities are in the area along South Wabash Avenue. This should include water, sewer, telephone, Internet, electric and cable television.

Visibility

Being an urban site, visibility is limited by large and tall buildings in the area. These limitations are typical for urban sites. The hotel will need to provide adequate directional information for guests.

Accessibility

Accessibility to the property is very good via surface streets. South Wabash Avenue has access north and south through the area. Harrison Street provides the closest east/west access through the area. I-290, the Stevenson Express, and the Congress Parkway provide access to other expressway routes through the downtown and metropolitan areas of Chicago.

Traffic congestion in the area is typical with a large city urban area. South Wabash is a traditional urban surface street. During peak drive times, traffic congestion will occur.

Support Services

Support services are in the immediate area. This includes retail and restaurant support services. However, they are limited in scope.

Restaurants are located along South Wabash in the immediate area. However,

destination restaurants are limited. Most of the restaurants support the local residents and are more fast food services or limited-service in nature. The Chicago Hilton Hotel & Towers and the Blackstone Hotel provide the largest variety of restaurants that would be unique in the area. This is located one block from the South Wabash site. In the immediate area, within walking distance, are a Quizno's Sub Shop, Jimmy John's Sub Shop, pizza, etc. Next to the subject site is a KFC and pizza restaurant. In the downtown area around the Loop, north Michigan Avenue, Rush Street, and the River North area are a variety of destination restaurants. Access would be mainly via taxi as walking would be considerable.

The following chart highlights the many restaurant options within a half mile of the subject site.

Restaurant Options Located Within a Half Mile of Subject Site			
American	Distance (Miles)	Café	Distance (Miles)
Bar Louie	0.18	Eleven City Diner	0.31
Bongo Room	0.35	Yolk	0.35
Cosi	0.34	Chinese	
Custom House	0.21	Charming Cuisine	0.06
Epic Burger	0.13	China Inn Restaurant	0.45
Hackney's Printers' Row	0.13	Fornetto & Mei's Kitchen	0.33
Harold's Chicken Shack	0.03	Panda Express	0.49
Orange on Harrison	0.20	Panda Express	0.37
Potbelly Sandwich Works	0.32	Panda Express	0.41
Asian		Yang	0.41
Korean Express Restaurant	0.48	French	
Osy	0.23	Everest	0.34
Bars & Pubs		International	
Buddy Buy's Legends	0.08	Berghoff Café	0.43
Close-Up 2	0.31	Italian	
Hothouse	0.03	Caffe Baci	0.47
Kasey's Tavern	0.13	Sopraffina Marketcaffe	0.46
Kitty O'Shea's	0.11	Trattoria Caterina	0.16
Manhattan's Bar	0.26	Tutto Italiano	0.40
South Loop Club	0.06	Japanese	
Tantrum	0.26	Samurai Sam's	0.41
Villain's Bar & Grill	0.21		
Whitehill Corporation	0.13		

Restaurant Options Located Within a Half Mile of Subject Site (Cont.)			
Mexican	Distance (Miles)	Pizza (Cont.)	Distance (Miles)
Burrito Buggy on Van Buren	0.45	Pizza Broker	0.21
Chipolte Mexican Grill	0.34	Reggie's Pizza Express	0.42
LA Cocina Mexican Grill	0.33	Sbarro	0.3
LA Cocina Restaurant	0.32	Seafood	
Qdoba Mexican Grill	0.46	Coco's Famous Deep Fried	0.31
Taco Fresco	0.44	Fish Port Incorporated	0.33
Wabash Tap	0.46	JJ Fish	0.43
Pizza		Savoy Restaurant & Grill	0.16
Alcock's Inn	0.42	Sharks Fish & Chicken	0.31
Edwardo's Natural Pizza Restaurant	0.18	Steakhouse	
Exchequer Restaurant	0.39	Mercat A La Planxa	0.11
Giordano's	0.39	Russian Team Time	0.42
Giodanos Pizzeria	0.34	Sushi	
KFC	0.05	Tamarind	0.05
Pat's Pizzeria	0.23		

Entertainment options are also limited in the area. A larger variety of entertainment would be found in the Loop area, along Michigan Avenue and in the northern areas of downtown. Nightclubs and theaters would be located in these areas. Typically, a taxi would be required to access these facilities.

There are numerous museums in the area for tourists to visit. Some would be within walking distance in better weather. These museums are major facilities and would offer an attractive venue for tourists.

Recreational options would be available in the Grant Park area. Running and walking would be available in this area and would provide a safe and inviting area for recreation.

Retail shopping is limited to residential support retail. Specialty and boutique shopping is not developed in this area. There are national and regional retailers located in the Roosevelt Road area, and a large retail center has developed in this area. However, it should be considered as a destination retail center that would attract tourists to the area. Additional retail is being developed in the Roosevelt Road area with new residential development.

Retail and restaurant options were highlighted as a needed area for the South Loop market. This area was identified as lacking these support services.

ECONOMIC OVERVIEW

This section of the report provides a composite analysis of the economic environment in which the proposed hotel would operate. This economic analysis does not conclusively determine how successful the proposed facility will be in the Monroe market; however, it offers valuable insight into the economic stability and growth potential of the market. It will directly affect the conclusions formulated later in this report.

The economics of this area are supported by various factors. Monroe will be the primary economic area to influence this market. However, the Green County area, especially around Monroe, will also influence this market indirectly. Monroe's economy will be driven by a mix of factors including industrial, commercial, medical and tourism.

The industrial portion of the Monroe market is built on a collection of very long-standing, steady businesses in the city. Many of the businesses in the Monroe area began in the city and have never left, providing this economic constant for the city. Additionally, a number of the companies located in the city and the county have national and international ties which connect this rural area with large markets. The central location of the city with easy access to markets such as Dubuque, Iowa, Milwaukee and Madison, Wisconsin, and the Northern Illinois markets also makes the city a desirable place for industry to develop. The new industrial park area has also been developed with the intention that additional companies would choose to be located in Monroe.

As mentioned, there are plans for further commercial growth in the city with the majority of this growth occurring just north of the city limits. Currently, Monroe serves a commercial hub for the surrounding small communities, and this growth has already begun with the current development of the Wal-Mart Super Center.

The medical market is also a strong factor in the economics of the city and the county. The Monroe Clinic is a large regional hospital located in Monroe, just south of the site. This hospital is currently undergoing an \$85 million addition and renovation and employs over 1,000 people.

The downtown area has retained its unique historic small town atmosphere. This lends itself to providing a tourist draw to the community. Tourists are also drawn to the cheese factories, the Swiss Colony Outlet Center, and the bike trail.

It was reported by numerous city and county officials that despite the economic hardships felt in the overall United States economy at this time, the City of Monroe has thus far remained largely unaffected. This is not to say that this will not change in the future, but it is a testimony to the strength, consistency and diversity of the

Monroe industrial and commercial market.

The following provides some economic characteristics of the Monroe market area. These areas will assist in understanding the economic stability of the market.

POPULATION

The following chart highlights the *Population* growth of the subject market area.

POPULATION							
	1997	2007	% CHG.	ANN. % CHG.	5-YEAR PROJ.	% CHG.	ANN. % CHG.
City of Monroe	N/A	10,516	N/A	N/A	N/A	N/A	N/A

Source: Sales and Marketing Management Annual Survey of Buying Power

- The above chart indicates that the Population in Monroe County has grown by 0.9% per year. This is a rate that is slightly higher than the state and the region.
- According to the U.S. Census, in 2000 the City of Monroe had a Population of 10,843. This represented 32.8% of the County’s Population. In 2007, the U.S. Census estimated the City’s Population was 10,516, or 29.0% of the County’s, indicating a growth rate of (-0.4%) per year. It is estimated that the County’s Population grew at 0.9% per year during this period. This shows the lack of residential growth occurring in the city due to the lack of usable land.
- It appears that the Number of Households is growing slightly faster than the Population in the County. In 2000, the City of Monroe reported having 37.1% of the County’s households. This decreased to 32.1% in 2007, indicating that while there is not any new growth occurring in the city, there are also a small percentage of people leaving the city.

EFFECTIVE BUYING INCOME

The *Effective Buying Income* measures the economic health of the residents in the

area. There should be a steady growth in Effective Buying Income that surpasses the rate of inflation for the same time period. This would indicate that the area has a potentially strong employment base.

EFFECTIVE BUYING INCOME							
	1997	2007	% CHG.	ANN. % CHG.	5-YEAR PROJ.	% CHG.	ANN. % CHG.
City of Monroe	N/A	\$192,610	N/A	N/A	N/A	N/A	N/A

Source: Sales and Marketing Management Annual Survey of Buying Power

- Effective Buying Income in the County, on a per capita basis, is growing at a rate of 4.6% per year. This is slightly higher than the rate of growth in the state. It appears to have kept pace with inflation during this period.
- The state is growing at a slightly slower rate than the county at a rate of 3.1%.
- The actual dollar value of per capita Effective Buying Income in the city yields 92.6% to the actual dollar value in the state.

RETAIL SALES

Retail Sales is an economic factor that may indicate the influence of outside economic sources bringing revenue to the area. Regional shopping districts typically draw external economic sources that will demonstrate the additional health of the economy.

RETAIL SALES							
	1997	2007	% CHG.	ANN. % CHG.	5-YEAR PROJ.	% CHG.	ANN. % CHG.
City of Monroe	N/A	\$433,943	N/A	N/A	N/A	N/A	N/A

EN Ctrl Region	\$9,542	\$14,872	55.9%	5.6%	\$15,579	4.8%	1.0%
United States	\$9,214	\$16,375	77.7%	7.8%	\$18,207	11.2%	2.2%
Source: Sales and Marketing Management Annual Survey of Buying Power							

- As seen in the chart above, Per Capita Retail Sales are growing slowly in the county as compared to the more rapid growth seen in the state and region.
- Also, the per capita actual dollar amount in the city is significantly higher than the per capita actual dollar amount in the county and the state. This is likely due to the fact that this data includes the large, national mail order sales of Swiss Colony.
- As a ratio to Effective Buying Income, per capita Retail Sales in the city represented 225.3% of Effective Buying Income in 2007. This gives a strong indication that the Retail Sales amounts seen in the chart above are not based solely on the sales from the traditional retailers in the city. A yield this high indicates that there must be external factors affecting these sales numbers. It is likely that the Swiss Colony sales are the external factor in this market.
- Even without the effect of the Swiss Colony sales, the Retail Sales in the city are likely very strong due to the fact that Monroe is the commercial hub of the county.
- While Monroe is a commercial hub for local, residential needs in the county, it is not considered an area for regional shopping. This is due to the fact that Monroe is located close to numerous larger, commercial markets which have shopping malls and a wide variety of big box retailers. Destination shopping was not seen in this market, except for possibly at the smaller specialty, retail establishments in the downtown area and the Swiss Colony Outlet Center.

- The addition of the Wal-Mart SuperCenter and the potential for the addition of the Menards store should increase the traditional Retail Sales in the city as well.

EATING AND DRINKING PLACE SALES

Similar to Retail Sales, *Eating and Drinking Place Sales* can also be an indicator of external economic factors bringing revenue to the area and, more specifically, Lodging Demand.

EATING AND DRINKING PLACE SALES							
	1997	2007	% CHG.	ANN. % CHG.	5-YEAR PROJ.	% CHG.	ANN. % CHG.
City of Monroe	N/A	\$18,566	N/A	N/A	N/A	N/A	N/A
Green County	\$32,204	\$36,390	13.0%	1.3%	N/A	N/A	N/A
State of WI	\$5,119,201	\$7,571,511	47.9%	4.8%	N/A	N/A	N/A
EN Ctrl Region	\$43,490,096	\$80,222,423	84.5%	8.4%	N/A	N/A	N/A
United States	\$243,842,859	\$604,553,851	147.9%	14.8%	N/A	N/A	N/A
EATING AND DRINKING PLACE SALES - PER CAPITA							
	1997	2007	% CHG.	ANN. % CHG.	5-YEAR PROJ.	% CHG.	ANN. % CHG.
City of Monroe	N/A	\$1,766	N/A	N/A	N/A	N/A	N/A
Green County	\$973	\$1,005	3.3%	0.3%	N/A	N/A	N/A
State of WI	\$988	\$1,353	36.9%	3.7%	N/A	N/A	N/A
EN Ctrl Region	\$993	\$1,726	73.9%	7.4%	N/A	N/A	N/A
United States	\$911	\$1,988	118.1%	11.8%	N/A	N/A	N/A

Source: Sales and Marketing Management Annual Survey of Buying Power

- The per capita actual dollar amount of Eating and Drinking Place Sales in the city is above the dollar amount seen in the county and the state and very similar to the region.
- There has been some growth in per capita Eating and Drinking Place Sales in the county at a rate of 0.3%. This rate of growth is considerably lower than the rate of growth in the state and the region.
- Unfortunately, the Monroe market does not have corresponding data to relate to. However, as previously mentioned, there has been some limit put on the opening of nationally branded restaurants such as Applebee's or TGI Fridays due to the limit on liquor licenses permitted in the city. There are a number of local, privately owned restaurants in the city as well as fast food restaurants which provide the area with dining options.
- The Eating and Drinking Place Sales in Monroe are supporting both the local, residential base as well as any travelers passing through the area.

WORKFORCE CHARACTERISTICS

The following chart highlights the distribution of the labor force within the market area. This will show how the employment base is distributed and indicates the reliance of the market on certain key industries. The following chart shows the Employment by Industry for the City of Monroe. The top three leading industries are shown in bold.

EMPLOYMENT BY INDUSTRY Monroe, Wisconsin		
TYPE OF EMPLOYMENT	NUMBER OF PERSONS EMPLOYED	PERCENT OF PERSONS EMPLOYED
Agriculture, Forestry, Fishing & Mining	84	1.5%
Construction	344	6.2%
Manufacturing	1,296	23.3%
Wholesale Trade	178	3.2%
Retail Trade	997	17.9%
Transportation and Public Utilities	224	4.0%
Information	148	2.7%
Finance, Insurance, and Real Estate	182	3.3%
Services	2,112	38.0%
- Business/Professional	268	4.8%
- Health, Education & Social Services	1,132	20.3%
- Entertainment, Recreation, Hotels & Food Services	330	5.9%
- Other	219	3.9%
- Government	163	2.9%
TOTAL	5,565	100.0%
<i>Source: U.S. Census</i>		

- As indicated in the above chart, the top three industries comprise 61.5% of the employment base. This is a high percentage for these three industries. Typically, the top three industries comprise just over 50% of the employment. This would indicate that there is a strong reliance on these three industries in this area. However, the companies that are represented within these three industries are very stable in this community.
- The Manufacturing industry is the largest employer in the market area. Monroe Truck Equipment and the various cheese factories are the top

employers in this area.

- Health, Education and Social Services is the second largest employer in the city and is lead by the Monroe Clinic, which employs over 1,000 people. This full-service hospital facility serves a regional area reaching as far as northern Illinois.
- The Retail Trade area is the third largest employment base. This area has the potential to expand in the future with the development of the Wal-Mart Super Center and the potential Menards. Currently, major employers include Wal-Mart, Pick 'N Save grocery store and ShopKo. Swiss Colony also contributes to the employment in this industry segment.

UNEMPLOYMENT RATES

Unemployment Rates for the Monroe area are indicated in the following chart.

STATE OF WISCONSIN Historical Unemployment Rates		
YEAR	GREEN COUNTY	STATE OF WISCONSIN
2008 - YTD	4.4%	4.9%
2007	4.6%	4.9%
2006	4.4%	4.7%
2005	4.5%	4.8%
2004	4.5%	5.0%
2003	5.4%	5.6%
2002	5.0%	5.3%
2001	4.1%	4.4%
2000	3.1%	3.4%
1999	3.2%	3.1%
1998	3.3%	3.3%

Source: U.S. Bureau of Labor Statistics

The Green County area has had a consistently lower Unemployment Rate than the state, with an average deviation of 0.3 points lower. It is important to look at the county Unemployment as this is where the base of Population would be located to draw upon for employment in Monroe. The county's Unemployment Rate is not higher than the state in any year analyzed.

LABOR SUPPLY AND WAGES

At this time, no *Labor Supply* problems were reported to be affecting this market. Available supply appears to exist in Service and Retail areas, however, it should be noted that the new Wal-Mart Super Center and the large number of manufacturing companies in the area have the potential to generate some labor supply issues. Offering a competitive wage will be critical to maintaining a high level of competent service for the hotel guests.

Due to the location of the City of Monroe, employment will be drawn from the local and county area.

TRANSPORTATION

Transportation to the Monroe area is generally via the county, state and US highways serving the area. There are no interstate routes in the area. There are major regional traffic routes with the most significant being Highway 81/11. Additionally, Route 69 is another major route as it provides a direct connection with Monroe to the Madison market.

There is no scheduled commercial air service in the immediate Monroe market area. There is a small municipal airport located in the city but the closest commercial air service is provided by the Dane County Regional Airport located about fifty miles from Monroe. This airport provides service to thirteen major hub airports which provide both national and international service.

With the highways being the major access to this market, highway traffic counts for the subject site are shown in the following chart.

TRAFFIC COUNTS Monroe, Wisconsin				
LOCATION	YEAR	COUNT	CHANGE	
On Highway 69 - North of Highway 11/81	2004	6,100	--	
	- South of Highway 11/81	2007	5,900	--
		2004	5,300	11.3%
		2001	6,000	-11.7%
On Highway 11/81	- West of Highway 81	2007	6,400	--
		2004	6,300	1.6%
		2001	5,000	26.0%
	- East of Highway 81	2007	14,600	--
		2004	14,600	0.0%
		2001	12,100	20.7%
- East of Highway 69	2007	9,100	--	
	2004	8,000	13.8%	
	2001	7,800	2.6%	

Source: Wisconsin Department of Transportation

- The most significant traffic route to look at is on Highway 81/11. Traffic on this highway has increased in both directions since 2001. The most significant increases were seen from 2001 to 2004; however, a fairly significant increase of 13.8% was seen in traffic east of the site. This is encouraging as it shows that traffic is increasing around the subject site area.
- Traffic on Highway 69 largely consists of travelers to and from Monticello, New Glarus and Madison, Wisconsin. While growth rates are not available for traffic north of Highway 81/11, it appears that traffic south of the highway going in and out of the city limits is increasing.
- Overall, the traffic count growth rates are exceeding the rates of Population growth. This indicates the amount of transient traffic coming in and out of the city, and supports the information provided by city officials regarding the large amount of transient traffic in the area.
- This large amount of transient traffic is supported by the large Corporate/Commercial Market Segment, which includes a large number of

product distribution companies operating from the City of Monroe. Additionally, the central location of the city puts it in a good location for traffic traveling to the larger cities to the east, west and north of Monroe.

SAMPLE

LODGING DEMAND

This section of the report will identify Lodging Demand sources for the proposed hotel facility. Exhibit 2 of this report identifies the primary market area that will be serviced by the subject site location for this hotel on a year-round basis.

MARKET SEGMENTATION

The first area to be identified in describing the Lodging Demand Potential for the market area is the *Market Segmentation* that exists in the area. The following chart highlights the Market Segmentation projections for this proposed hotel development.

MARKET SEGMENTATION					
	SUBJECT MARKET PROBABLE PERCENT OF MARKET	RANGE	PROPOSED PROPERTY PROBABLE MARKET	MARKET PENET.	RANGE
Individual Travel Markets	70.0%	60.0%-75.0%	80.0%	114.3%	65.0%-85.0
Corporate/Commercial	45.0%	40%-50%	55.0%	122.2%	40%-60%
Social/Leisure	25.0%	20%-30%	25.0%	100.0%	20%-30%
Group Markets	30.0%	25.0%-35.0%	20.0%	66.7%	15.0%-25.0%
Business Related	15.0%	10%-20%	10.0%	66.7%	5%-15%
Social/Leisure Related	15.0%	10%-20%	10.0%	66.7%	5%-20%
TOTAL	100.0%		100.0%		
Source: HMI					

Discussions indicated that the *Market Segmentation* in the market area currently is heavily oriented toward the Individual Travel Market, especially the Corporate/Commercial segment. This is primarily due to the high concentration of Corporate/Commercial office space in the Aurora/Naperville market area. In Aurora, the Meridian Business Campus, its second largest at 660 acres, is located in very close proximity to the subject site to the north and west of it. The Butterfield Center for Business & Industry, the largest in Aurora at 900 acres, is located around the I-88 and Highway 59 interchange, south and west of it. Meadow Lakes Corporate Park is also in Aurora and located within a few miles of the subject site to the west and south. Discussions indicated that these industrial/business areas were full in the 70% to 90% range. Additionally, Aurora has over 4.5 million square feet of industrial/commercial space under development with permits having been issued. Over 22% of this new space, or 1 million square feet, is in close proximity to the Highway 59 Corridor.

In Naperville, there is over 11 million square feet of existing office space with an

additional 400,000+ being proposed. Discussions indicated that 75% of the Naperville space is located in either the Highway 59 Corridor or along I-88. This is supported by three of the top six largest employers in Naperville, excluding the two school districts being located there.

The proposed hotel, being located in the middle of the Highway 59 Corridor, should therefore be able to capture its fair share of this Corporate/Commercial business, supporting the weighting toward the Individual Traveler in the previous chart. This location also assures that the proposed hotel should capture its share and possibly more of the Individual Leisure travelers, since it is also in the midst of the extensive retail which runs the length of the Highway 59 Corridor.

Other attractions in the area which will generate Individual Leisure demand would include the multitude of events that occur at North Central College, which is located a few miles east of the subject site in Naperville. These facilities include its stadium, which has hosted regional and national sporting events including being the home field for the Chicago Fire, as well as hosting the Special Olympics. Other facilities at North Central College are host to many musical and theatrical type events and performances throughout the year. Naperville is also host to the Subaru United States Women's Triathlon Series over a two-day period which attracts participants, vendors and family members.

While the subject site may not be the closest hotel to the various event locations in Naperville, the multitude of events indicates that the central and convenient location of the subject site to many support type services will make it attractive to the overflow demand that will be generated.

There are extensive residential areas just a short distance off both the east and west sides of Highway 59, indicating that the proposed hotel should also be able to capture a portion of the social-related Group business, which is comprised of weddings, S.M.E.R.F. and sports groups. This also places it in close proximity to a wide variety of guest support services such as restaurants and retail shopping, making it attractive to those coming from more rural areas such as western Illinois to shop and be entertained.

Youth sports is big in Aurora with the Stuart Sports Complex having hosted the National Softball Association Youth World Series as well as the annual Memorial Day Soccer tournament, which attracts teams on a Midwest regional basis with over 3,000 participants.

To further define the Market Segmentation of the area, preliminary profiles for each Market Segment were defined. The following outline provides *Market Segmentation Profiles* that correspond with the subject property's projected Market Segmentation.

Source: HMI

As indicated above, this market is well diversified and this diversification occurs in all Market Segments. The above list identifies a considerable list of Lodging Demand sources discovered during the research phase of this report. These demand sources relate to the overall market. With the potential of over 50% of the demand being Transient or Group oriented, the hotel will have the potential of developing demand from all of these identified sources. Some will be more productive than others for the hotel. Also, some will have the potential of generating extended-stay demand.

The Manufacturing industry, which is lead by Caterpillar, will generate potential transient and group demand. Several other large employers that could fall into the segment would include Lucent Technologies, Nicor Gas, Keebler Company, Westell

and Tellabs.

The Retail sector is the second largest employment area and is supported by the significant amount of retail outlets on both sides of Highway 59 from slightly south of I-88 to south of United States 34. These include the Westfield Shopping Town anchored by Sears, Macy's, and JC Penney; Yorkshire Plaza which includes Best Buy, Sportmart and Pier 1 Imports; Meridian Retail Center which includes Petsmart and Boston Market; Meridian Towne Center which includes Jared Jewelers, Red Lobster and Gateway Computers; Aurora Marketplace which includes Sport Authority, IHOP and Applebee's; and Meijer Superstore which also includes TGI Friday's, Luigi's House Restaurant and the subject site (see Exhibit 5 of this report for further details). Also supporting this sector is the retail headquarters of Office Max located in the market area.

Once again, the subject site's central location in the Aurora/Naperville area places it within ten to fifteen miles of an estimated twenty-five public and private golf courses, providing multiple choices in this activity when in the area.

In the medical area, there are two major medical centers in the area, one in Aurora and one in Naperville, east and west within a few miles of Highway 59. These hospitals are both listed as one of the top five largest employers in their respective communities in the chart below. These facilities provide excellent care in a wide variety of areas. Demand generated by either facility would include visiting doctors, technical people servicing equipment, recruiting medical staff, and families visiting patients, as well as patients seeking out-patient care in a number of areas.

Supporting the Leisure segment as well as providing "support services" to the other Market Segments is the Chicago Premium Outlets located on I-88 as well as the Hollywood Casino and the Paramount Theatre, a restored art deco movie palace with live entertainment, both located in downtown Aurora. On the Naperville side is its charming downtown with tree lined streets that include shops and restaurants while being able to maintain its historic past. There are the scenic winding River walk paths in a park along the DuPage River adjacent to downtown.

The most significant area where demand is readily identified is the corporate business generated by the manufacturers and other business in the Aurora/Naperville area. This includes both the Individual and the potential Group demand being generated. This is supported by the growth in both industrial (72%) and office/commercial (27%) square footage in Aurora from 2005 to 2006. Also, the number of commercial permits issued in 2006 increased by 63% to 67 from the previous year.

The site of the proposed hotel is right in the middle of the Highway 59 Corridor, in

close proximity to the major retail outlet areas of Westfield Fox Valley, Yorkshire Plaza and Aurora Marketplace as well as the Route 50 METRA Station. Also, numerous industrial and/or business parks are located on either side of Highway 59. In Aurora, these include the Meadow Lakes Corporate Park, the Butterfield Center for Business & Industry and the Meridian Business Campus, all of which discussions indicated being at or nearing capacity. There is 8.3 million square feet of retail space in Naperville with another 600,000 square feet being proposed.

To further understand the employment in the Aurora/Naperville market area, the following two charts highlight the major employers.

AURORA TOP EMPLOYERS		
COMPANY	SERVICE OR PRODUCT	TOTAL EMPLOYEES
Caterpillar Tractor Company	Earthmoving Equipment	3,000
Aurora School Districts #129 & 131	Education	2,820
Farmers Insurance Group	Insurance	1,700
Waubonsee Community College	Education	1,571
Rush-Copley Medical Center	Healthcare	1,300
City of Aurora	Government	1,280
Ltd Commodities	Catalog Fulfillment	1,200
Provena-Mercy Center	Healthcare	1,200
Dreyer Medical Clinic	Healthcare	1,145
Fox Valley Park District	Parks & Recreation	1,072
Hollywood Casino Aurora	Entertainment/Gaming	1,009
Met Life	Life/Health Insurance	760
Aurora Air Traffic Control	Air Traffic Control	750

Source: City of Aurora Economic Development Commission

NAPERVILLE TOP EMPLOYERS		
COMPANY	SERVICE OR PRODUCT	TOTAL EMPLOYEES
Two Naperville Area School Districts	Education	5,525
Edward Hospital & Health Services	Healthcare	4,600
Nicor Gas	Largest Illinois Natural Gas Distributor	3,700
Lucent Technologies	Telecommunications-Design/Develop/Mfg.	1,943
BP Amoco	Research & Technology - Oil & Gas	1,800
Office Max	Office Supplies Retail Headquarters	1,500
Tellabs	Telecommunications - Mfg.	1,338
City of Naperville	Government	1,043
ONDEO Nalco	Chemical Manufacturing	1,000

Source: Naperville Development Partnership, 2007

The above two charts indicate the wide variety of jobs in the market area from an employment standpoint. In regard to the Transient travel sectors, the above charts demonstrate the balance/diversity of the industries that the top employers are in, once past the school districts. Having this diversification allows the market to not be solely dependent on any one demand generator or Market Segment to produce Lodging Demand.

Individual suppliers and vendors traveling to the area are always difficult to track. However, this is a major part of the Corporate/Commercial market. Training/business seminars also comprise a portion of this market. There seems to be a good balance of potential demand for traditional lodging, which supports the demand for the proposed hotel.

SEASONALITY OF LODGING DEMAND

Seasonality of Lodging Demand was reviewed for the subject market area. For this report, the seasonality analysis was based upon the primary competitive set indicated in this report. This analysis will indicate the market’s potential to attract Lodging Demand during various seasons. It will help determine the strengths and weaknesses during the operational year for the proposed property.

The following chart shows the most current information (twelve months ended March, 2008) related to the deviation from total demand for the Aurora/Naperville mid-priced to upper mid-priced market area, based upon information from the competitive set of lodging facilities, which will be discussed in greater detail later in this report.

SEASONALITY OF LODGING DEMAND			
Deviation From Average Monthly Demand			
MONTH	DEMAND	ADR	REVPAR
January	78.6%	98.5%	76.6%
February	84.5%	98.1%	90.8%
March	93.4%	99.5%	91.9%
April	93.3%	97.1%	<i>94.8%</i>
May	105.6%	100.6%	107.4%
June	115.9%	103.4%	119.0%
July	117.5%	104.3%	117.7%
August	116.5%	103.4%	<i>115.6%</i>
September	111.1%	102.3%	112.9%
October	113.1%	101.1%	<i>109.8%</i>
November	97.3%	99.2%	95.8%
December	82.0%	97.7%	77.0%
<i>ITALICS = RevPAR Exceeds at Least One Factor</i>			
BOLD = RevPAR Exceeds Both Factors			
<i>Source: Smith Travel Research and HMI</i>			

June, July, August and October are the strongest demand months with deviations from the average monthly demand being 115.9%, 117.5%, 116.5% and 113.1%, respectively. This is to be expected for this part of the Midwest due to the winter weather. It should be noted that there was no one particular event that occurred during these months to strengthen them to this extent.

The months of May and September were the next strongest months, with deviations from the average monthly demand being 105.6% in May, and 111.1% in September. This is also typical for this part of the Midwest. This pattern is positive since it means that in six months of the year, the average monthly demand for the market area is exceeded and, in another three months it is within less than seven percentage points of equaling, the average monthly demand.

The period from May through October is the strongest half of the year with 56.6% of the annual demand, for a yield of 113.2%. Again, this is strong for the Midwest area. However, the monthly seasonality does peak during this period with no severe valleys, as is found in other similar markets. This lack of significant peaks and valleys in demand indicates the strengths of both the corporate and leisure markets and their ability to compensate for their low times.

The weakest period for demand in this market is the period of December through

February, based upon both the average demand and average revenue generated. This is typical for the Midwest market.

The previous chart also demonstrates the deviation of the RevPAR exceeds the monthly deviation of both the demand and the ADR in four months of the year. In the months of August and October, the RevPAR deviation is just 1.0 and 3.4 percentage points, respectively, short of exceeding both. This is still considered strong, and indicates that the hotels in the market could be doing a better job in managing their rates in combination with their demand, even though it is within four percentage points or less of the average market ADR.

The market operates on a broad range of rates. In June, it hits a high average Occupancy of 73.9%, followed closely by July at 72.5%, August at 71.9% and September at 70.9%. The average low Occupancies of 50.7% in December and 50.0% in January result in a 23.9 percentage point swing in Occupancy, or a 47.8% change. There appears to be a much narrower fluctuation in ADR, ranging from an average high of \$86.36 in July to a low of \$80.44 in April, a swing of just \$5.92, or 7.4%. This narrow range in rates indicates that the market area competitive set may not be maximizing rates during periods of high Occupancies. It also could indicate a significant amount of contract/negotiated rate business in the Corporate/Commercial markets. It looks like a rather flat ADR range indicating an effect from the Corporate/Commercial markets. This results in a RevPAR swing of \$22.07, or 54.2%, which indicates that the market may not be maximizing RevPAR and overall revenue performance. It also indicates that Occupancy may be driving the RevPAR maximization in this market because the rates show far less variance from low to high.

During the past year (April, 2007 through March, 2008), Occupancy has been highest during the mid-week period. Occupancies averaged 82.1% on Tuesday and 80.7% on Wednesday. Mondays were not far behind at 73.4%. Saturday was the strongest weekend day at 67.5% during the same period. The highest Occupancy was on Tuesdays in June at 95.1%, on Wednesdays in September at 93.7%, and Wednesdays in June at 92.6%. Occupancies on Tuesdays in September at 91.8% and August at 90.6% also fell into this category. These exceptional nights were closely followed by the following nights which all achieved Occupancy greater than 81.0%: (1) Mondays in June and August, (2) Tuesdays in February, March, April, May, July, and October, (3) Wednesdays in March, April, August and October, (4) Thursdays in June and (5) Saturdays in June, July and September. Sunday, which is typically a low Occupancy day, had an average Occupancy of 48.8%.

One hundred and eighty-four days of the year, or during 50.4% of the year, there was an Occupancy greater than 70.0%, which indicates probable sold out or near sold out nights in the market area. This is an additional indicator of nights when the stronger

hotels are sold out and thus, Unaccommodated Lodging Demand is seen in the competitive set market area.

Also, during this same prior twelve-month period, the highest ADR's were achieved on Tuesdays at \$100.16 and Wednesdays at \$100.14. The remaining five days were tightly grouped in a range of \$93.34 on Fridays to \$99.24 on Mondays. ADR hit a high of \$103.87 on Tuesdays in March closely followed by Wednesdays in June at \$102.49 and Wednesdays in March at \$102.13. The next highest ADR's were on Mondays in July, Tuesdays in June, July and August, Wednesdays in May and Thursdays in June and December, all in a range of \$101.02 to \$101.89. There were forty-four other days throughout the year when the ADR was between \$100.00 and \$100.99. This indicates that the competitive set is attempting to maximize rates on the highest Occupancy days, while leaving some room for improvement.

LODGING DEMAND POTENTIAL INDEX

The Lodging Demand Potential for the subject property was also analyzed via the *Lodging Demand Potential Index*. This relates Lodging Demand Potential to the Market Segmentation previously projected for the subject property and the industry distribution in the area. This is a rating based on a scale of 0 to 5, with 5 indicating excellent Lodging Demand Potential and 2.5 indicating average Lodging Demand Potential. The following information shows the results of this analysis.

LODGING DEMAND POTENTIAL INDEX		
MARKET SEGMENTATION	PERCENT OF MARKET	LODGING DEMAND POTENTIAL INDEX
Individual Travel Markets		
- Corporate/Commercial Markets	55.0%	2.7
- Social/Leisure Markets	25.0%	3.0
Group Markets		
- Business Related	10.0%	2.0
- Social Leisure Related	10.0%	2.5
TOTAL	100.0%	2.7
INDUSTRY DISTRIBUTION	PERCENT OF MARKET	LODGING DEMAND POTENTIAL INDEX
Agriculture, Forestry, Fishing, Mining	0.2%	0.5
Construction	6.0%	2.0
Manufacturing	13.2%	3.5
Wholesale Trade	8.8%	2.5
Retail Trade	12.7%	3.0
Transportation and Public Utilities	4.2%	1.0
Information	2.4%	2.5
Finance, Insurance & Real Estate	7.9%	3.0
Services		
- Business/Professional	10.4%	3.5
- Health, Education & Social Services	11.4%	2.5
- Entertainment, Recreation, Hotel & Food Service	8.8%	2.5
- Other	3.7%	2.0
- Government	10.2%	2.0
TOTAL	100.0%	2.7

Source: HMI

It was estimated that the current Lodging Demand Potential is 2.7, which is strong.

- The strength of this market is primarily split three ways between the Manufacturing, Retail and Business/Professional sectors. All three of these include first and foremost, the Individual Corporate/Commercial traveler.
- The Individual business market ranges from service technicians coming

to work on equipment at manufacturers such as Caterpillar, to training on the maintenance of the products produced to suppliers and vendors.

- The Business/Professional area includes employees coming from other areas, the recruiting of new employees, clients and salespeople.
- The Individual Business traveler also includes salespeople coming to the area to call on clients in the medical, manufacturing, business/professional and education fields.
- The education and medical areas could include visiting professors and doctors. The two major regional medical centers included in the list of top employers are located on the east or west sides of Highway 59 within a few miles. Robert Morris College is located just minutes from the subject site in the Meridian Business Park.
- The potential for Lodging Demand from the Social/Leisure Market Segment is above average. This is due to several reasons, but primarily as mentioned earlier, the subject site's central location along the Highway 59 Corridor and its vast array of "neighborhood services" including a wide variety of restaurants and retail choices.
- This central location in the midst of a wide variety of support services makes it a prime location for those Individual and Group travelers coming to the area for weddings, reunions and youth sports teams.

RATE SENSITIVITY FACTOR ANALYSIS

Similar to the Lodging Demand Potential Index, a preliminary *Rate Sensitivity* analysis was also performed. This ranks the Market Segmentation planned for the proposed property and the anticipated Rate Sensitivity within the Market Segments. It utilizes a 5-point scale, with 5 indicating extreme sensitivity and 2.5 being average. The following are the results of this analysis.

RATE SENSITIVITY FACTOR		
Market Segmentation	% of Market	Rate Sensitivity Factor
Individual Travel Markets		
- Corporate/Commercial	55.0%	1.4
- Social/Leisure	25.0%	1.9
Group Markets		
- Business Related	10.0%	1.4
- Social/Leisure Related	10.0%	1.9
TOTAL	100.0%	1.6
<i>Source: HMI</i>		

In analyzing the Market Segmentation, it was felt that the overall Rate Sensitivity will be 1.6. This indicates that there appears to be only minimal rate resistance in all Market Segments, and is based upon a review of the Occupancy and Rate Chart which follows in this report. It indicates that there is a \$46 difference, or 72.8%, from the competitive property with the lowest rate to the one with the highest rate. The relative closeness of five of the seven competitor hotels, which happen to be in the top rate tier, indicates the likely hood of negotiated rates in the marketplace, but little Rate Sensitivity to the rate charged as long as it is competitive with the majority of the properties.

The Social/Leisure market or weekend business is felt to be slightly higher in Rate Sensitivity than the Corporate/Commercial market. The Social/Leisure business is typically the most Rate Sensitive, which includes shoppers, family members and friends, weddings, reunions and sports teams. Seasonality of this market will also affect these rates.

FEEDER MARKETS

Feeder Markets for this subject market would be generated differently by the Business and Social/Leisure markets.

- Feeder Markets for any business markets are felt to be primarily regional and national with some international markets as well. The drive-in regional corporate, vendors or suppliers will be key markets as they will mostly drive the area. Major Feeder Markets for this would be from the Upper Midwest area including major metropolitan markets such as Milwaukee, Detroit, St. Louis and Minneapolis.

- Social/Leisure markets were identified as being from a regional base such as the States of Wisconsin, Iowa, Illinois and Minnesota. This is also the area where friends and relatives will predominantly come from and will also be the primary source for the sports teams. Shoppers that create Lodging Demand will primarily come from both southern and western Illinois as well as potentially from eastern Iowa.

UNACCOMMODATED LODGING DEMAND

Unaccommodated Lodging Demand is described in two ways. The first is Lodging Demand that prefers to stay in the market area but currently is staying in other areas due to the lack of adequate accommodations either in condition or number of available rooms. The second definition is Lodging Demand staying in the market area but actually desiring accommodations in other market areas.

At the present time, looking strictly at the Aurora/Naperville market area and specifically the Highway 59 Corridor, one would conclude that the first type of *Unaccommodated Lodging Demand* occurs. This is because the Occupancy level for the competitive set exceeded 70% on over 50% of the days during the prior twelve-month period. Typically, when a market achieves 70% or higher average Occupancy levels, then it is likely that sold out days are occurring, resulting in the first type of *Unaccommodated Lodging Demand*.

A review of Smith Travel Research *Day of Week Analysis* indicates that *Unaccommodated Lodging Demand* may be occurring on (1) Tuesday and Wednesday nights in February through November as well as on (2) Mondays in February, April through November, (3) Thursdays during June through November, (4) Fridays during June through September and (5) Saturdays during May through October when Occupancies ranged from 70.4% to 95.1%. The Occupancy on these days was at a level of 80.0% or higher, 52.2% of the time. Tuesdays had the highest average annual Occupancy at 82.1%, closely followed by Wednesdays at 80.7%.

Discussions in general did not indicate that the second type of *Unaccommodated Lodging Demand* is occurring in the market area at the current time. However, it is probably occurring for some of the smaller communities to the south and west of Aurora.

LODGING SUPPLY

This section of the report describes the primary competitive Lodging Supply that will affect the subject property, particularly for hotel room demand usage.

There are thirty-three hotels which would compete, in some form, with the proposed hotel in the Champaign/Urbana area. These thirty-three hotels contain 3,187 rooms, ranging from economy-style hotels to mid-priced, limited-service and full-service hotels as well as Upscale, all-suite and both economy and upscale, extended-stay properties. Of these thirty-three hotels, seven are felt to be primary competitive hotels. These seven hotels have 749 rooms, which represents 23.5% of the 3,187 available Lodging Supply referenced earlier.

The following chart will define the primary competitive hotels for this report. Exhibit 3 will highlight the geographic locations of these hotels in relationship to the subject site.

PRIMARY COMPETITIVE HOTELS				
Number of Hotels:		7		
Number of Hotel Rooms:		749		
Chain Related:	Hotels:	6	% Overall Mark	85.7%
	Rooms:	622	% Overall Mark	83.0%
Non-Chain Related:	Hotels:	1	% Overall Mark	14.3%
	Rooms:	127	% Overall Mark	17.0%
PRODUCT DIFFERENTIATION ANALYSIS				
CATEGORY	NUMBER OF HOTELS	PERCENT OF MARKET	NUMBER OF ROOMS	PERCENT OF MARKET
Economy	0	0.0%	0	0.0%
Mid-Priced (Limited-Service) <i>(Holiday Inn Express Hotel - 74 rms., Sleep Inn- 65 rms., Drury Inn & Suites - 133 rms., Country Inn & Suits Champaign North - 84 rms.)</i>	4	57.1%	356	47.5%
Mid-Priced (Full-Service) <i>(Holiday Inn - 198 rms., Ramada - 68 rms.,)</i>	2	28.6%	266	35.5%
Mid-Priced Suite (Full-Service) <i>(Eastland Suites Hotel & Conference Center- 127 rms.)</i>	1	14.3%	127	17.0%
Mid-Priced Extended Stay	0	0.0%	0	0.0%
Upscale (Select-Service)	0	0.0%	0	0.0%
TOTALS	7	100.0%	749	100.0%
Average Room Size:			107.0	
<i>Source: HMI</i>				

Of the seven hotels that are considered primary competitors to the proposed Comfort Suites Hotel, four are considered true limited-service hotels. Three are considered full-service, mid-priced hotels; and; one of those, the Eastland Suites Hotel and Conference Center, has 48 units with full kitchens, is an independent hotel with meeting space. There are no mid-priced true all-suite hotels in the Champaign/Urbana market area. The proposed hotel would be the first mid-priced all-suite hotel to be developed in this market.

The average sized hotel is 107 rooms. The Drury Inn & Suites is the largest hotel with 133 rooms, while the Sleep Inn is the smallest at 65 rooms.

Primary Competitive Property - Projected Occupancy & Average Daily Room Rates

The following chart highlights hotel rates and anticipated Occupancy performance for the primary competitive properties in the immediate Champaign County market area.

COMPETITIVE HOTEL OCCUPANCY & RATES						
PROPERTY	Occ. Perform.	RATE ANALYSIS				PROJECTED ADR
		SINGLE	DOUBLE	WEEKEND	CORP.	
<u>Champaign</u>						
Country Inn & Suites	Average	\$99-\$130	\$99-\$130	\$99-\$130	Same	\$91.60
Drury Inn	Average	\$115-\$135	\$115-\$135	\$115-\$135	Same	\$93.75
<u>Urbana</u>						
Eastland Suites	Average	\$99-\$125	\$99-\$125	\$99-\$125	Same	\$89.60
Holiday Inn	Average	\$94-\$104	\$94-\$104	\$94-\$104	Same	\$84.15
Holiday Inn Express	Average	\$97-\$117	\$97-\$117	\$97-\$117	Same	\$84.00
Ramada	Average	\$93-\$113	\$93-\$113	\$93-\$113	Same	\$67.98
Sleep Inn	Average	\$70-\$100	\$70-\$100	\$70-\$100	Same	\$62.56
COMPETITIVE MARKET AVERAGE DAILY ROOM RATE (ADR):						\$84.26
Source: HMI						

There appears to be three pricing tiers amongst this competitive set. The rate leader is the Drury Inn. It is located on North Prospect Avenue just north of I-74 approximately two miles east of the subject site-- placing it in the heart of the major retail area discussed earlier in this report. This gives it a yield to the market of 111.3%, primarily due to its location.

The top rate tier is comprised of the Drury Inn, the Country Inn & Suites and the Eastland Suites. The Country Inn & Suites is relatively new, having opened in April, 2004, respectively. The average projected ADR for this group is \$91.65 with a yield to the market of 108.8%.

The middle rate tier is comprised of the Holiday Inn and the Holiday Inn Express Hotel & Suites. The Holiday Inn Express is relatively new, having opened in December, 2005. The average projected ADR for this group is \$84.08, similar to the average of the competitive set.

The Sleep Inn and the Ramada make up the third and lowest rate tier.

The proposed hotel will be located across the street from the Sleep Inn as well as in front of the Holiday Inn and the Holiday Inn Express Hotel & Suites. It will be a block south of the Ramada on Lincoln. Typically, a Comfort Suites is positioned \$20 - \$25 higher than a Sleep Inn when they are in the same market area, which, most likely, will occur in this case as well, placing it as one of the rate leaders in the second tier of hotels in the chart above. This would position the new Comfort Suites at or slightly ahead of the Eastland Suites Hotel & Conference Center.

Competitive Factor Analysis

Further analyzing the primary competitive hotels, a *Competitive Factor Analysis* was performed. This analysis is based upon a scale of 0 to 5, with 5 indicating strong competitive factors and 2.5 being average. The following chart highlights the analysis of the primary competitive hotels in the categories of *Rate, Facility, Brand, Location, and Market Segmentation*. It also highlights the overall competitive factor for each property and the subject market area. This report will provide an overview of the respective competitive position each hotel occupies within the market.

COMPETITIVE FACTOR ANALYSIS									
PROPERTY NAME	AGE (Yrs.)	# OF ROOMS	AAA RATING	RATE	FACILITY	BRAND	LOCAT.	MKT. SEG.	COMP. FACTOR
<u>Champaign</u>									
Country Inn & Suites	4.0	84	3	2.3	2.8	2.5	3.0	2.3	2.6
Drury Inn	11.0	133	3	2.2	2.8	3.0	3.0	2.3	2.7
<u>Urbana</u>									
Eastland Suites	42.0	127	N/A	2.4	3.0	1.5	2.5	3.0	2.5
Holiday Inn	11.0	198	N/A	2.7	2.5	4.0	2.5	2.0	2.7
Holiday Inn Express Hotel & Suites	2.5	74	N/A	2.5	2.5	4.0	2.5	2.3	2.8
Ramada	12.5	68	2	2.7	2.0	1.5	2.5	1.5	2.0
Sleep Inn	13.5	65	2	3.1	2.0	2.5	2.5	1.5	2.3
COMBINED RATING	13.8		2.5	2.6	2.5	2.7	2.6	2.1	2.5
<i>Source: HMI</i>									

In the chart above, this market is indicating average competitive factors overall. However, there are certain factors which are above average when comparing to the planned Comfort Suites facility.

The average age of the existing hotels is significant. All of these properties except two are at or past their first major renovation stage. As a result, if they do not keep themselves current, they will lose competitive position. The new hotel will have an advantage of bringing a fresh new hotel property to the market. Also, the traditional transient travelers will be attracted to the newer hotel. The Country Inn & Suites and the Holiday Inn Express Hotel & Suites, the two newer properties, are primarily traditional-style hotels rooms, which will minimize their impact on the all suite demand.

Rate competition will allow the hotel to position itself below the Country Inn & Suites, and the Drury Inn, but at the head of the second rate tier hotels. The typical Comfort Suites brand rate structure positions it approximately \$20 - \$25 above a locally competing Sleep Inn, which would justify this rate positioning.

Brand competition will be strong in this market. Operating without a brand is not suggested. The stronger brands of and Intercontinental via Holiday Inn Express and Holiday Inn, Drury and Radisson through Country Inn & Suites, are in this market. A

strong national or regional brand is required to be competitive. Planning to develop a Comfort Suites hotel will allow the hotel to be affiliated with a sister Choice Hotels property brand.

All of the hotels in the competitive set are well *located* to serve the Champaign County market. All are along I-74, within two to three miles or less of the site of the proposed Comfort Suites, with convenient, easy access to the major shopping, the University of Illinois and the major medical centers.

The average size of the competitive set of properties was 107 rooms. This is almost 25% larger than the size of the proposed Comfort Suites at 86 rooms. Being this much smaller than the competitive set will contribute to it achieving the projected occupancies and ADR discussed later in this report.

Competitive Lodging Performance

The following section highlights the Competitive Lodging Performance for the subject market area. This lodging performance is based upon primary competitive hotels identified in this report. The Competitive Lodging Performance of Occupancy, Lodging Demand Growth, Lodging Supply Growth, Average Daily Room Rate, and Revenue Per Available Room (RevPAR) will be analyzed.

Lodging Supply Growth

The following chart reflects the *Lodging Supply Growth* that occurred in the market.

COMPETITIVE LODGING PERFORMANCE								
Lodging Supply Growth								
	2002	2003	2004	2005	2006	2007	YTD 2007	YTD 2008
Primary Competitive Lodging Supply - Percentage Change	N/A	0.0%	10.7%	4.1%	9.9%	0.0%	0.0%	0.0%
2003-2007 - Annualized Growth Rate:								5.0%
<i>Source: Smith Travel Research & HMI</i>								

The competitive market experienced additions to the room supply commencing in April, 2004, and ending in November, 2006. These consisted of the 84-room Country Inn & Suites in April, 2004, and the 74-room Holiday Inn Express in December, 2005.

At the time of this report, the only definitive planned hotels that were revealed during discussions was a new 126-room University of Illinois Hotel & Conference Center with 50,000 square feet of meeting space, scheduled to open in the fall of 2008. It will be located proximate to the campus. Discussions did indicate that a Candlewood Suites has been talked about in close proximity to the Country Inn & Suites. No other hotel projects were mentioned.

Lodging Demand Growth

The following chart highlights *Lodging Demand Growth* that has occurred in the market.

COMPETITIVE LODGING PERFORMANCE								
Lodging Demand Growth								
	2002	2003	2004	2005	2006	2007	YTD 2007	YTD 2008
Primary Competitive Lodging Demand - Percentage Change	N/A	10.3%	2.1%	8.8%	8.8%	-2.0%	0.1%	0.0%
2003-2007 - Annualized Growth Rate:								5.8%
Source: Smith Travel Research & HMI								

As indicated, the Champaign County competitive set has experienced continued Lodging Demand Growth thru 2006. 2007 was the first year to indicate a decrease in demand. The average Demand Growth for the five years exceeds the Supply Growth average for the same period.

When comparing the year-to-date results for 2007 versus 2008 and how 2007 ended up, one could project that 2008 will end up with a flat or slight decrease again in the Lodging Demand Growth rate, perhaps as high as -2.0%. This negative growth rate may indicate that the market takes time to sufficiently absorb additions to the supply, since the last addition occurred in 2006. The average annual growth rate for the last five years was 5.8%. A conservative estimate of -2% for 2008 and then returning to positive growth rates of up to 3.5% for future years would appear to be reasonable to use. A lower than historical growth rate is used in order to allow for additions to the supply, i.e. the subject property.

Occupancy

The following chart depicts the Competitive Lodging Performance of the subject market's *Occupancy*.

COMPETITIVE LODGING PERFORMANCE								
Occupancy								
	2002	2003	2004	2005	2006	2007	YTD 2007	YTD 2008
Primary Competitive Hotels	58.3%	64.3%	59.3%	62.0%	61.4%	60.2%	58.8%	58.7%
Source: Smith Travel Research & HMI								

As indicated, the Occupancy performance was directly affected by demand patterns as well as additions to the room supply. The decrease in Occupancy in 2006 and

2007 are most likely directly related to the two years of continued addition to the room supply. The spike in demand in 2005 contributed to there still being a positive growth in Occupancy in spite of the additions to the room supply in that year. There was no readily apparent reason for the drop in Occupancy from 2003 to 2004.

Comparing the year-to-date results for 2007 and 2008 with 2007 year-end numbers indicates a potential Occupancy for all of 2008 of 60.1%. This indicates little change in occupancy from 2007 to 2008. The market averaged an annual increase over the five-year period of 2002 through 2007 of 0.8%. For projection purposes in this report, -2.0% growth in demand will be utilized for 2008 and 3.5% increase in demand for years thereafter.

Average Daily Room Rates

The following chart highlights the Competitive Lodging Performance for the *Average Daily Room Rates*.

COMPETITIVE LODGING PERFORMANCE								
Average Daily Room Rates								
	2002	2003	2004	2005	2006	2007	YTD 2007	YTD 2008
Primary Competitive Average Daily Room Rates	\$69.28	\$71.68	\$74.81	\$78.16	\$81.14	\$84.24	\$84.17	\$88.02
Percentage Change	N/A	3.4%	4.4%	4.5%	3.8%	3.8%	3.1%	4.8%
2003-2007 - Annualized Growth Rate:								4.0%
<i>Source: Smith Travel Research & HMI</i>								

The competitive set has experienced consistently strong growth results over the past five years regarding annual ADR changes. Based on the year-to-date numbers, it appears that ADR will grow in 2008, but at 5.9%, the highest annual rate over the previous five years. It indicates that there is good maximization of rates occurring in the competitive set, even in periods of softer Occupancy as in 2004 and 2006. A growth rate of 4.0% was applied to years after 2008.

Revenue Per Available Room (RevPAR)

The following chart shows the *Revenue Per Available Room* that occurred in the market.

COMPETITIVE LODGING PERFORMANCE								
Revenue Per Available Room								
	2002	2003	2004	2005	2006	2007	YTD 2007	YTD 2008
Primary Competitive Average Daily Room Rates	\$40.40	\$46.10	\$44.40	\$48.45	\$49.80	\$50.69	\$49.48	\$51.70
Percentage Change	N/A	14.1%	-5.7%	9.1%	2.8%	1.8%	3.3%	4.5%
2003-2007 - Annualized Growth Rate:								4.8%
<i>Source: Smith Travel Research & HMI</i>								

The drop in Occupancy in 2004 impacted the RevPAR performance. The overall growth in RevPAR, over the five years covered, was strong at an annual average of 4.8%. When comparing the year-to-date data, it appears that the RevPAR growth from 2007 will continue into 2008, based upon the consistent growth in both Occupancy and ADR.

FOOD & BEVERAGE

The scope of this section of the research will focus on the food and beverage components expected at the hotel facility. This full-service resort will feature several key food and beverage components. These components will include restaurants, lounges and meeting and banquet facilities. This section will evaluate the scope of these amenities and the impact they will have on room nights and revenue for the resort.

The scope of the food and beverage facilities was described as the following:

- There will be a casual, yet upscale restaurant in the main resort facility. This restaurant will accommodate resort guests and destination diners to the resort. The restaurant will overlook the water and a marina area, which will offer a unique and an attractive setting for diners. The size of the restaurant should not be overly large, but offer a more intimate dining experience. To service a 200-room resort, this restaurant could be around 125 to 150 seats.
- An intimate casual lounge should be located adjacent to the casual, upscale dining restaurant. This lounge should offer a casual setting yet be compatible with the dining area. The size of this lounge should be smaller in scope, and 50 to 75 seats should be adequate.
- The marina building, set away from the resort yet on the lake, will offer a casual restaurant and bar. This facility could be operated more seasonally and potentially closed, or used on a limited basis in winter. This facility would be casual in its ambiance featuring sandwiches, salads and lighter fare. The bar would be casual, again in keeping with the lighter fare. The theme of this facility could be more nautical in keeping with the lake setting.
- The meeting and banquet facilities would be capable of accommodating large groups for weddings or conventions. Likewise, it would also be able to accommodate smaller meeting and banquet groups for more intimate banquets and corporate meetings. The projected size of the facility should be able to accommodate larger groups of at least 400 people or more. It should be sub-dividable into sections. It would be suggested that the sections be in thirds of the larger rooms, with each end third section sub-dividable into halves for smaller groups. This would allow for the one large room to be sub-dividable into five sections. Additionally, there should be at least two smaller, separate meeting rooms that could be used for smaller groups and break-out space. These rooms should accommodate 40 to 50 people and could be

connected to make one room for 100 people. One conference/board style room would be suggested. The size of this room would be 20 to 25 people.

FOOD & BEVERAGE DEMAND – RESTAURANT & LOUNGE FACILITIES

The main focus of the food and beverage facilities is designed to service the in-house resort guests. Secondly, it should be designed for destination dining from the immediate regional area including Fond du Lac.

The main impact of food and beverage facilities at the resort will be from the more upscale dining facility. This will attract the broader market on a year-round basis. It will service the resort guests and will attract destination diners.

The marina facility will also service the in-house resort guests. In addition, it will cater to the marina and lake boaters. Two of these segments are directly related to the boating market. This will be a seasonal market with the boating season from May to October, which is why the marina restaurant and lounge may need to be more seasonal in operation. In the off-season, it could be used for some Group functions if not open for regular food and beverage service.

Competition for the main restaurant and lounge will be limited. There are few upscale restaurants in the Fond du Lac market. None have a waterfront or resort setting. Marketing the restaurant and lounge will be important. Having a separate entrance to the dining room and lounge would be suggested, and will assist in establishing an independent identity for this facility. A balance of marketing between association with the resort and the free-standing identity will be critical. A separate marketing plan should be developed for local and destination dining at the resort.

The marina will need to be marketed to the boating market on Lake Winnebago. As part of the overall food and beverage program at the resort, a marketing plan to reach the boating market should be developed. In-house marketing to resort guests should also take place.

FOOD & BEVERAGE - GROUP MEETING DEMAND

The proposed resort facility could attract a diverse Group Meeting and Banquet market. It is estimated that 30% of the overall Lodging Demand will come from the various Group markets, both Business-related (25%) and Social/Leisure-related (5%).

The following chart will highlight the banquet/conference center demand identified from research performed. On this chart is a definition of the type of business to be expected. Also, the number of functions, average number of attendees, and number of sleeping rooms are highlighted. Projected food and beverage revenue is also

calculated using assumptions highlighted in both the previous and following charts.

PROJECTED MEETING AND BANQUET SLEEPING ROOM USAGE							
MARKET	# OF FUNCTIONS	% OF BUSINESS	TOTAL # OF ATTENDEES	% OF BUSINESS	PROJ. F & B REV.	# OF SLEEPING ROOMS	% OF BUSINESS
Business Markets							
<i>Corporate</i>	160	65.3%	4,800	29.0%	\$768,000	7,200	49.8%
(Average = 20 people for 1.5 days at \$80/person/day F&B, Rooms for 1.5 nights)

TOTALS	245	100.0%	16,550	100.0%	\$1,443,000	14,453	100.0%
<i>Source: HMI</i>							

The corporate market will be generated from the Fond du Lac market and from the regional market area. This will include markets such as Milwaukee, Madison, Chicago (northern Illinois) and the Fox Cities (Oshkosh, Neenah, Menasha, Appleton and Green Bay). It is estimated that over 3.2 corporate meeting groups could be attracted per week to the facility on an annual basis. Not all weeks are prime weeks for corporate meetings, so therefore, during the more active weeks there will be more corporate meetings than the average annual per week. This segment will generate about 7,200 rooms per year. This will be 49.8% of the Group market and 16.3% of the overall room night demand. The food and beverage revenue will generate about

\$768,000 in sales.

The association meeting market will be made up business/professional associations and Social/Leisure meetings. The state association market will offer a diverse source of meeting demand from this segment. Regional conferences would be a primary source. Also, the resort should be able to attract some of the smaller state association annual meetings. This market will rotate with other areas of the state such as Madison and Milwaukee. Board meetings will be another source of business from this Market Segment. This segment may generate 5,400 rooms or 37.4% of the Group room demand. This will represent 12.2% of the overall demand. The food and beverage revenue will generate about \$432,000 sales.

Government meetings will be a segment that will require more research. The resort positioning as an upscale facility may limit this segment due to per diem rates for the state government market. Off-season governmental meetings could be attracted with rates to meet their per diem requirements.

The Social/Leisure market will generate a variety of demand sources. The hotel's meeting and banquet facilities will attract numerous events from this segment. Weddings will be a prime demand source, with local weddings and some destination weddings as well. A further breakdown of this wedding demand is as follows.

The most identifiable Social/Leisure market potential available is for the wedding market. The following chart indicates the Population potential for this market, in an approximate six-mile radius of the subject site.

POPULATION WEDDING-AGED RESIDENTS - FEMALE				
AREA	10-19 YRS.	20-24 YRS.	25-34 YRS.	TOTAL
Fond du Lac County	7,736.3	3,083.3	6,253.1	17,072.7
<i>Source: U.S. Census (2000)</i>				

The above chart is based on 2000 census data due to it being the most recent breakdown of information available. In this market area, the total number of females in the Population is 17,072.7 people. This could be expanded by adding the communities of the Fox Cites, whose residents could use the facility for its unique setting. These would be more destination type weddings. In addition, destination weddings from other areas are also possible. However, the most likely wedding market would be the Fond du Lac County area.

The following chart highlights the potential wedding market for the Fond du Lac:

County market area.

WEDDING MARKET POTENTIAL			
FOND DU LAC COUNTY AREA			
	AGE GROUP		
	10-24 YEARS	25-34 YEARS	TOTAL
Female Population	10,819.6	6,253.1	17,072.7
Wedding Population @ 80.0%	8,655.7	5,002.5	13,658.2
Wedding Potential @ 80.0%	6,924.5	4,002.0	10,926.5
10-Year Forecast-Number of Weddings (Per Year)	692.5	400.2	1,092.7
NUMBER OF WEDDINGS PER YEAR			
- Market Share	NA	NA	3.20%
<i>Source: HMI</i>			

It was estimated that the proposed hotel facility could host approximately 3.2% of the potential weddings available annually in the greater Fond du Lac County area. This is felt to be a realistic market share for the resort. This 3.2% market share will represent about 35 weddings of the potential wedding market indicated in the chart above. This is based on the popularity of certain days of the week and the availability of space at the proposed hotel. This indicates that an average of 35 weddings could be marketed at the facility each year. This figure could go higher if more “off-season” weddings are booked as described below and/or if the hotel can consistently sell and handle more than one wedding per weekend. Also, the sleeping room usage could increase if more destination weddings are booked.

It was estimated that there would be an average of about twenty weddings per year during the prime wedding months of June to August. During this thirteen week period, it was estimated that there would be an average of 1.5 weddings generated each weekend. If it is popular to host weddings on Fridays, Saturdays and Sundays in this market, then this number could go higher. Some of this is already anticipated in the estimate of twenty weddings during this period. Also, some Saturdays may see multiple weddings, with separate afternoon and evening functions.

During the shoulder months in spring and fall of April, May, September and October, the estimate was that an average of ten additional weddings could be generated. This is during a seventeen week period.

It was estimated that an additional six weddings would be generated during the balance of the year, the slower winter months.

Each wedding is estimated to bring in an average of 250 people. For the 35 weddings estimated, there will be 8,750 estimated attendees. The guest room usage was estimated at 20% for 1.5 nights. This translates into about 25 rooms per wedding per night based on double Occupancy, or 1,313 room nights per year from this market. This will account for 9.1% of the Group market and 3.0% of the overall Lodging Demand. The food and beverage revenue will generate about \$525,000 sales.

The resort will also attract other types of functions. This will be from groups for charity events, bridal showers, rehearsal dinners, anniversaries, family reunions and other similar type functions. This market will be well received in Fond du Lac as the lack of adequate upscale facilities in this market was mentioned. Being a smaller scale market, it will generate about 3.7% of the Group Lodging Demand and about 1.2% of the overall Lodging Demand. The food and beverage revenue will generate about \$150,000 in sales.

PROJECTED FOOD & BEVERAGE REVENUE

In projecting food and beverage revenue, based upon the research performed, the following recommendations are made.

In conducting research for the proposed hotel, an estimated \$1,443,000 in projected Group Food & Beverage revenue was calculated. This should assist the resort in achieving food and beverage sales that should be above the industry averages.

The industry averages established in the Host Report for food and beverage revenues per occupied room for a full-service hotel are estimated at about 30.4% of total revenue to be generated for food and beverage. Of this, about 21.0% will come from food sales, 5.2% from beverage sales, and 4.3% from other revenues. Other revenues are room rental, equipment rentals, etc.

The catering revenue projected in this section would improve the hotel's food and beverage performance to above average levels in this area. About 50% of the projected catering revenue was felt to be above the industry average for full-service hotels. Therefore, it is estimated that the projected food and beverage revenue will represent about 36.2% of the total resort sales. This will be a 130.0% yield to the industry averages.

The following chart will highlight the projected food and beverage revenue for the hotel. This chart also includes the catering revenue for food and beverage estimated above.

PROJECTED FOOD & BEVERAGE REVENUE					
YEAR	PROBABLE F&B YIELD	TOTAL FOOD & BEVERAGE	FOOD	BEVERAGE	OTHER
2009	115.0%	\$2,653,435	\$1,827,599	\$449,267	\$376,570
2010	125.0%	\$3,898,721	\$2,685,311	\$660,112	\$553,298
2011	130.0%	\$4,773,007	\$3,287,490	\$808,142	\$677,375
* Projected performance is +/- 5 percentage points and will be affected by changes in Projected Occupancy or Projected ADR.					
Source: HMI					

As indicated by combining the banquet food and beverage revenues with the potential restaurant and lounge revenues in the stabilized third year, total food and beverage revenues could reach approximately \$4,773,077. This equates to approximately 36.2% of the hotel's total revenue. This is above the industry averages established in the Host Report for average food and beverage revenues per occupied room for a full-service hotel. The Host Report estimates about 30.4% of total revenue to be generated by food and beverage options.

SPECIFIC FACILITY RECOMMENDATIONS

The following will highlight some additional *facility recommendations* for the proposed food and beverage service. Throughout this section, recommendations were developed as a result of this research. This sub-section will highlight additional comments on the food and beverage facilities planned at this resort. These recommendations, and the other recommendations contained in this report, were developed to support the market demand profiles identified, and should also assist in positioning the hotel and its food and beverage components, in being competitive with other facilities in the market.

MAIN RESTAURANT & LOUNGE FACILITIES

The facility will need to offer a broad range of food and beverage services. It will be the core food and beverage facility for the resort. Guests will use it for breakfast, lunch and dinner. This can be a disadvantage for resort food and beverage outlets. If the marina food and beverage facility is seasonal, this main restaurant and lounge will need to serve the entire resort with all meal times.

Establishing a universal facility is advised. The characteristics of the restaurant should be able to change during the day. It should be more casual in the breakfast and lunch periods, but able to adapt to a more upscale dinner ambiance. This will be

a destination restaurant, especially for evening dinners. Having a more upscale appeal would be advised. However, it will still need to cater to a more casual resort guests. Menu variety will be critical.

The lounge will be a gathering place for the resort. Providing an inviting and relaxing atmosphere will be suggested. The lounge should be designed to offer a conversation setting for resort guests. A suggestion would be to design the lounge so it could also be universal. In the morning to early afternoon it could feature a coffee bar atmosphere. In the afternoon it could transform into a lounge facility. It could still offer coffees for late afternoon and after dinner markets.

The lounge could also offer a more casual dining menu than the restaurant offers in the evening. This would allow the restaurant to offer a more upscale menu with lighter, more casual fare offered in the lounge.

MARINA FOOD & BEVERAGE FACILITITES

This facility will add a unique food and beverage offering for resort guests and area boaters. It will offer an alternative food and beverage outlet for guests. Breakfast, lunch and dinner periods will have a variety of dining options especially during the warmer months of the year.

This facility may have to be operated seasonally to be profitable. The broadest market for the facility will be during the boating season. This will start in May and will continue into October. The strength of the season will be from Memorial Day to Labor Day, when resort guests will be at their peak in demand. In addition, Lake Winnebago boating will be at its most active during this time. This facility will be a destination for casual dining for these markets. Unfortunately, the off-season would only offer the resort guests to support this facility.

During the off-season, this marina food and beverage facility could be operated with several options. On peak weekend days, such as Saturday and Sunday mornings, it could be open for breakfast. Also, Group functions from October to April could use the facility for meal functions. There may be operational advantages to completely closing the facility. This option would need to be evaluated based upon the costs saved verses the expenses incurred by keeping it open.

Developing a theme for this facility would be suggested. The most obvious theme would be nautical. Being a waterfront facility, the nautical theme would be appropriate. In addition, this should be a more casual theme in its ambiance and in its menu offerings. Developing a "beach bar" type feel to the facility would be fun for its patrons. Entertainment could be offered in the lounge and restaurant.

MEETING & BANQUET FACILITIES

The minimum size of this facility should be able to accommodate 400 people for a sit-down banquet. This would accommodate most of the wedding requests identified and would also support the size of the resort well.

For large meeting groups, resorts traditionally will allocate up to 75% of their rooms to the Group function. Being a 200-room resort, this would equate to about 150 rooms for each large Group function, leaving 50 rooms for transient Corporate/Commercial and Social/Leisure demand. A 150-room group would have around 150 to 200 people associated with it. A 400-person ballroom size would allow the resort to hold the 200-person meeting in one half of the room and use the other half for meals and potential break-out rooms.

A suggestion for the meeting facilities would be to design them to conform to the International Association of Conference Centers requirement for acoustics, lighting and comfort. These state-of-the-art criteria would add a marketing advantage to the resort and would offer features not currently offered at competitive facilities. These features would be ideal for the smaller meeting facilities recommended in this section. This will help the hotel position itself as the premier meeting facility in the market area and in attracting higher level corporate groups.

Break-out space will be important to service smaller Corporate/Commercial groups. Also, being able to use facilities, such as the marina for dining options, would be advised. Having outdoor facilities for weddings and group functions would be fitting for the resort atmosphere. Positioning a semi-permanent tent on the property would be suggested. This could be used for wedding ceremonies and for group functions. Having an outdoor wedding gazebo would also be suggested. This could be used for ceremonies and pictures.

ISSUES, RISKS AND OPPORTUNITES

The following section of the report deals with topics that should be addressed when developing a hotel project such as the one studied in this report. Many of these topics are common to hotel development and are addressed here as a matter of due diligence in evaluating the subject market and subject site for the proposed hotel. Also highlighted in this section are any concerns which have arisen during the research portion of this report that would have a direct effect on the hotel development. These may require additional research by the developer when pursuing the development of the property.

COMPETITIVE PRICING PRESSURES

There is an indication that Rate Sensitivity exists in this market. This sensitivity comes from the Corporate/Commercial segment more than from the Social/Leisure segment. The possibility of negotiated rates being associated with the corporate market is indicated. Overall, this market sees ADR averaging at 84.1% of the average low single rate in this market. This indicates that during the week, negotiated corporate rates may be impacting this market. On weekends, discounting is present to attract demand. In both areas, Rate Sensitivity is present and will need to be addressed in establishing a rate structure for the hotel.

Planning a mid-priced hotel in this market is supported by this Rate Sensitivity. A mid-priced hotel will allow for increases in rates during peak demand periods and lowering rates during slower demand periods. This adjustment will be compatible with the product quality being offered with a mid-priced hotel.

The proposed hotel will need to be aware of the Rate Sensitivity in the market as well as the rate strategies practiced at other properties in the area. This market maximizes RevPAR in five months of the year and comes close in one other month. This proposed property should aim to have results slightly higher than the current market. The product positioning as a mid-priced, limited-service hotel should mitigate most Rate Sensitivity, but being one of the highest priced properties in the market this property should be aware of sensitivity in the market.

After reviewing the rate structures at area properties, it appears that this property should aim to position itself higher than the Country Inn and Suites and the Comfort Suites. In the current market, an ADR of \$90.78 would be a reasonable projection for this property based upon the rates of the other mid-priced, limited-service properties in the area. This ADR would be 115.0% of the overall competitive set.

This hotel should expect to achieve a yield to the overall market of 95.0% in the first year, increasing to 100.0% in the second year and reaching the 115% yield by the third year. This ramp-up of rates and yields could be faster if the hotel is strongly received in the market.

GROWTH IN LODGING SUPPLY

At this time, *Growth in Lodging Supply* does not appear to be a major factor in this market. There were no other lodging projects mentioned for this market area. As mentioned, this is something that should be monitored throughout the development process.

GROWTH IN LODGING DEMAND

The potential for continued economic growth in the Marquette region is positive. This area should see steady growth in future years. The continued growth of the downtown businesses and awareness of the downtown area should help the tourism market continue to grow. Additionally, the growth of the big box retail along the highway 41 corridor will continue to draw the regional area to the market. Lastly, the group market should continue to grow from associations, corporate meetings and conferences and destination weddings. While this property is not proposed to be a group-oriented property it will have the potential to draw overflow demand from this segment when the larger group hotels in the area are full. Additional industrial growth is also possible as the natural resource market is projected to grow in the county. As growth occurs in this market area the strong education and medical sectors will also continue to grow.

PROPERTY TAXES

A detailed analysis of the *Property Tax* structure in the Marquette area was not conducted within the scope of this report. The developer should analyze the property tax structure within the Marquette area accordingly.

POLITICAL CLIMATE

The *Political Climate* and attitude of the community was defined as being generally pro-growth. Being located along Highway 41 places this property in the area projected to see the bulk of future commercial growth as it spreads into the western suburbs of Marquette.

No unusual hurdles or requirements to approval or development of a new hotel in the subject market area were reported.

ZONING AND ARCHITECTURAL CONTROLS

Zoning in the subject site area was reported to be in place to support commercial development. The Advanced Auto Parts Store and the Country Inn and Suites property located next to the subject site support this zoning.

The *Architectural Controls* should not be a problem for the subject site. A majority of the properties along Highway 41 have signs near the road and are multi-story structures so these two factors should not create any hurdles for development.

The developer will need to review any specific requirements; however, these should be within the parameters of normal development.

ENVIRONMENTAL CONCERNS

Environmental Concerns were reported to not be a concern for the development of the subject site, however, environmental testing was not completed at the time of this report. This testing should be completed prior to beginning development. It was reported that the previous use of this site was unknown. It is advised that a history of this site be obtained prior to development.

The site is currently elevated from the highway and also has a portion of land that would need to be leveled in order to provide a flat site. There is also a portion of a remaining foundation on the site. This would need to be removed prior to development.

Water drainage and seepage does not appear to be a major problem. Wetland issues were not addressed, but do not appear to exist in this area. The subject site does not appear to be in a flood plain. Elevation of the site and past development should eliminate these problems.

The developer may want to review the environmental stability of the site. Toxic waste issues were not directly addressed within the scope of this study. At this time, no ground waste problems were identified for the site. The existing development in this area did not indicate any past problem.

The developer should conduct necessary environmental impact testing to make sure the subject site is within compliance with ordinances and regulations for the area.

LABOR MARKET, SUPPLY AND WAGES

At this time, no *Labor Supply* problems were affecting this market. Available supply appears to exist in Service and Retail areas. As a result, *Wage Scales* can be competitive. The Unemployment Rates have been consistently lower than the state. With the large amount of retail and service sector jobs in this market there may be some wage competition and the slow growing population in the area may also be a contributing factor to this competition. However, at this time there were not any severe problems reported for Labor Supply or Wage Scales.

AREA OF FRANCHISE PROTECTION

An *Area of Franchise Protection* is advisable to ensure that there is no encroachment by a similar brand property in the market area. If this hotel property is to be branded with a national brand, having protection within the Marquette market area would be advised. At this time, there are many brand name properties surrounding this

regional market area.

It was requested that this property be researched as an AmericInn property. If this property was branded as an AmericInn, the Marquette and regional market area should not generate any impact issues for this brand.

PROPERTY LOCATION

The current plans for the hotel property location are on the west side of the city. This is the growth area in Marquette. It was reported that the city is largely built out at this time and any new growth in the market would occur in along Highway 41 in the small communities to the west of Marquette. This is also the area reported to be the most likely area for residential growth. Currently, there is a large portion of Marquette employees who live on this western side of the area and this property would be along the main commuting route of these employees. Additionally, Highway 41 is the main route through this area of the Upper Peninsula and this property would be very visible along this main route.

CONCLUSIONS

The following *Conclusions* are based upon the analysis of the research performed for this market study in relationship to the development of the subject property. These conclusions will project performance for a 330-room, Select-Service, Upper Mid-Priced to Lower-Upscale hotel facility. These projections will include Select-Service food and beverage projections. These will include a catering revenue commission from the group event business defined in this report.

These projections are provided for the consideration of the developer in determining the future performance of the property. Effects of Occupancy, Revenue, and Average Daily Room Rate will be reported accordingly.

Information regarding the specific elements and size is outlined in more detail in the *Property Recommendations* section of this report. However, the projections were based upon the development of a 330-room, Select-Service, Upper Mid-Priced to Lower-Upscale hotel property at the subject site.

PROJECTED PROPERTY PERFORMANCE

The following series of charts will show the projected property performance, specifically Occupancy, Average Daily Room Rates, and Projected Revenue.

Occupancy

The following chart shows the *Projected Occupancy* of the subject property.

PROJECTED OCCUPANCY							
YEAR	PROJECTED MARKET OCCUPANCY			PROJ. MKT. PENET.	PROJECTED HOTEL OCCUPANCY		
	Low	Probable	High		Low	Probable	High
2010	60.7%	63.9%	67.1%	95.0%	57.7%	60.7%	63.8%
2011	61.7%	65.0%	68.2%	100.0%	61.7%	65.0%	68.2%
2012	62.2%	65.4%	68.7%	105.0%	65.3%	68.7%	72.1%
*Projected performance is +/- 5 percentage points and will be affected by changes in Lodging Supply and Demand growth levels used to formulate these projections.							
Source: HMI							

As indicated in the analysis of the competitive market, the area has seen a 7.1% average growth in demand. However, the recent growth is showing a negative growth of (-7.7%) in 2008. This is after a (-4.4%) growth in 2007. As a result, a growth rate of (-2.8%) was factored into the 2008 projections. The compounded growth rate for 2007 through 2012 was factored at 3.0%. This is significantly below

the rates of growth in previous years. This should allow for the market to recover from recent trends and show modest growth in comparison with past year's growth rates.

Lodging Supply was factored to include the 330-room proposed hotel. Additionally, an additional 350 rooms were factored into these projections by 2012. At this time, no new hotels were reported. However, continued growth in this market should generate additional hotel growth. With the proposed hotel, the compounded rate of growth was factored at 4.9% from 2007 through 2012.

The proposed hotel will operate in a strong competitive market. However, providing a new hotel product in a new building will allow it to slightly out-perform the market. A third year yield of 105.0% in Occupancy compared to the market was factored into these projections. This yield will build from 95.0% in the first year to 100.0% in the second year. This is a traditional growth in yield as a hotel becomes established in the market.

Average Daily Room Rate

The following chart highlights the *Projected Average Daily Room Rate* for the proposed property.

PROJECTED AVERAGE DAILY ROOM RATE			
YEAR PROBABLE	PROJECTED MARKET ADR	PROJECTED MARKET YIELD	PROJECTED SUBJECT PROPERTY ADR*
High 2010	\$242.84 \$231.28	89.4%	\$217.10 \$206.76
Low	\$219.71		\$196.42
High 2011	\$252.56 \$240.53	96.9%	\$244.73 \$233.07
Low	\$228.50		\$221.42
High 2012	\$260.13 \$247.74	101.9%	\$265.07 \$252.45
Low	\$235.36		\$239.83
<p>* Net ADR equals room revenue plus restaurant, lounge, meeting & conference revenue. ** Projected performance is +/- 5 percentage points and will be affected by changes in Lodging Supply and Lodging Demand growth levels used to formulate these projections.</p>			
Source: HMI			

Growth in ADR is expected in this market by the competitive set. The average compounded growth was 7.8% in the past several years, and 2008 is seeing a 12.3% growth in ADR year-to-date.

In projecting ADR growth, a compounded growth rate of 6.2% was factored into this report. This is below the historical rate of growth and about half the 2008 current rate of growth. This growth factor is modest and factors in any softness in demand that may occur in the next several years.

Rate positioning was in line with the recommendations contained in this report. The hotel was positioned in the upper-mid-price to lower-upper-tier of the primary competitive market. In addition, the hotel, being a new hotel in a new building, should experience a slight premium in ADR compared to the primary competitive market. The primary competitive hotels perform at 96.9% to the overall market. It is expected that the proposed hotel will operate at about 101.9% to the overall market.

Projected Sales Revenue

The following chart depicts the *Projected Sales Revenue* based upon the Occupancy and Average Daily Room Rates established in this report. This chart also shows the projected food and beverage revenue expected from the select-service operations. This includes the select-service food and beverage and the catering revenue commissions discussed in this report.

PROJECTED TOTAL REVENUE					
YEAR	PROBABLE ROOM REVENUE	TOTAL FOOD & BEVERAGE	TOTAL REVENUE	NET ADR	NET RevPAR
2010	\$15,124,945	\$1,001,764	\$16,126,709	\$220.46	\$133.89
2011	\$18,245,153	\$1,132,859	\$19,378,012	\$247.54	\$160.88
2012	\$20,892,289	\$1,265,260	\$22,157,550	\$267.74	\$183.96
* Projected performance is +/- 5 percentage points and will be affected by changes in Projected Occupancy or Projected ADR.					
Source: HMI					

The projected food and beverage revenue includes \$1,001,764 in select-service revenue from the restaurant operation within the hotel the first year. This increases to \$1,132,859 the second year and \$1,265,260 by the third year, and is a product of the hotel Occupancy. Outside dining is not expected at this hotel. Further, the allocation was factored at per room revenue of \$15.00 for breakfast, \$25.00 for dinner and \$15.00 for the lounge. Usage factors were calculated at 65.0% for breakfast, 10.0% for dinner and 15.0% for the lounge. The hotel was not expected to be open for lunch business. The food and beverage revenue is a direct factor of occupied rooms at the hotel.

An additional \$65,275 was factored into the revenue for the anticipated catering food and beverage revenue presented in this report. The build up of this revenue was factored at 80.0% the first year, 90.0% the second year and 100.0% by the third year. Finalization on the size of the function space and the operation of the catering aspects will dictate the actual revenue the hotel will receive from the group markets.

Lastly, the developer estimated that leased restaurant revenue would be generated for the hotel. The 8,000 square foot restaurant would be leased at an estimated \$40.00 per square foot. This will generate \$320,000 in additional revenue for the hotel. This amount was added to each of the projected year's revenue.

PROPERTY RECOMMENDATIONS

The following *Property Recommendations* were based upon the research conducted in this report.

Property Type

The subject of this report was to identify the type of hotel product to develop at the subject site. Based upon the research performed it was determined that an upper-mid-priced to lower-upscale hotel would be the best fit for this market. Several sources indicated the need for this type of hotel.

Given the limited support services in the South Loop area, namely restaurant options, it was further identified that a select-service hotel would best serve the hotel guests. Plans to have a restaurant in the mixed-use development will further support the hotel guests. Having the select-service component will best address breakfast at the hotel. It will also allow for another option for hotel guests wanting a more casual, lighter evening fare. This type of food and beverage would also be compatible with the upper-mid-priced to lower-upscale hotel product positioning.

There were some comments about offering an extended-stay type hotel in the South Loop area. This type of hotel is not currently being offered. However, upon conducting research in this area, the South Loop area did not exhibit the diversity of Lodging Demand required for an extended-stay hotel. This type of demand would have to be brought in from other areas of the greater downtown Chicago market area. Additionally, this type of hotel may not serve the sizable convention overflow base identified in this market. There could be some elements of an extended-stay room factored into the proposed hotel, but this is recommended to be limited.

Property Size

The *Property Size* was to be determined in this report. The developer indicated the site to support 330 rooms. Given the performance levels of the subject market area, the impact of 330 rooms was included in this report. At this time, this size property

appears to fit the market adequately. The projected Occupancy levels appear to support this sized property.

The average sized primary competitive hotel in the South Loop area is 216.3 rooms. The overall average sized hotel is 341.5 rooms. Factoring out the Hilton Hotel & Towers, the average sized hotel is 255.6 rooms. At 330 rooms, this would be larger than the primary competitive hotels by 152.6%. It would be larger than the net average sized hotel in the overall market by 129.1%.

This hotel will be larger than the average hotels in the market. This will typically affect Occupancy performance. However, being a new hotel product the size of the facility should be mitigated by the product quality offered. If the hotel were developed at a smaller size, the Occupancy performance would be improved proportionately. It is estimated that for every 49.5 rooms reduced at the hotel, projected Occupancy would increase by one percentage point.

Brand Affiliation

Branding of a property of this type is highly recommended. In this market, there is significant national brand representation. Operating without a brand affiliation would not be recommended.

At this time, no branding has been selected. It is suggested, with the significant regional, national, and international travelers to this area, that a strong national brand be selected. The preliminary branding suggestions include the following:

- Hilton Hotels
 - Hilton Garden
- Intercontinental Hotels
 - Hotel Indigo
- Choice Hotels
 - Cambria Suites
- Hyatt Hotel
 - Hyatt Place
- Starwood Lodging
 - Aloft
- Carlson Hotels
 - Radisson (Select-Service Style)
- Marriott Hotels
 - Courtyard

Property Services and Amenities

Recommended *Property Services and Amenities* should be compatible with the product type and the brand (independent or chain) affiliation selected for the

property. Product offerings should be in line with any national chain franchise that would be selected for the property. If a chain is not associated with the property, the hotel should be developed with a design and quality standard that is in line with other Upper Mid-Priced to Lower-Upscale lodging products in the market today. The hotel should be compatible with other mid-tier hotels in the primary competitive set.

Some additional services and amenities to consider would be:

- A shuttle service needs to be offered for guests to downtown businesses, attractions, restaurants and shopping.
- The potential exists for some limited Extended-Stay guests at the hotel. Having a few rooms equipped to accommodate Extended-Stay guests would be suggested. Also, providing refrigerators and microwaves in all the rooms would be suggested. This will be addressed in more detail in the *Sleeping Room Configuration* section below.
- Having a small pantry area with minimal offerings of food, snacks and beverages would be suggested. Having some items like microwave dinners would assist in serving the medical guests in this market.

Sleeping Room Configuration

The recommended *Sleeping Room Configuration* should be compatible with the overall Market Segmentation for the area for this property. Given the fact that the property will have a balance of Corporate/Commercial and Social/Leisure Lodging Demand, the sleeping room configuration should be balanced between king-bedded rooms and rooms with two queen beds.

The market has potential for some limited Extended-Stay guests. Traditionally, this is defined as guests staying five or more nights per stay. However, in this market, Extended-Stay rooms may be used by guests staying from Sunday through Thursday nights. Having Extended-Stay amenities may benefit these guests. Having a refrigerator and microwave in the rooms could assist guests in this category. The recommendation of a small pantry area with food, snacks and beverages would also accommodate this niche at the hotel.

It is suggested that the hotel offer up to 20% of its rooms in some type of suite-style room. These could range from enlarged rooms to multi-room configurations. Connecting rooms could also accommodate this market.

Rate Strategy

The *Room Rate Strategy* for this property should be compatible with the attainment of the Average Daily Room Rate projections indicated in this report. Seasonality of

Room Rates will also need to be a consideration at this property. Given the Average Daily Room Rate research performed and projections established in this report, it appears that this property could compete directly with the comparable mid-tier of the primary competitive properties identified in this report.

This positioning would place the hotel with a rate that performs at 96.9% of the overall market. By the third year, the new hotel property should perform slightly better than the overall market by about 5 percentage points.

Opening Date

A recommended *Opening Date*, based upon the Seasonality of Lodging Demand, would indicate that an opening in late winter/early spring would be recommended. This would correlate with the improvement of Lodging Demand in the market on a seasonal basis and the opportunity to maximize revenue prior to entering the softer off-season months beginning in November.

hmi@hospitalitymarketers.com

The information contained in this Addendum to the Phase II Comprehensive Market Study dated April, 2008, should be used as an advisory tool in evaluating financial decisions regarding this project. Specific cost information for the project should be thoroughly investigated by the developer or other interested parties of this Addendum to the original report. The Benchmark Development Cost, Valuation and Internal Rates of Return information, included herein, are intended to be used as guidelines. Due to the specific nature of each project and the multitude of differences and nuances including, but not limited to, geographic location, land costs, construction costs, property taxes, incentives, grants, lending structure, depreciation and the local economy, the developer should be sure to work through their own specific return analysis.

These estimates are benchmarks, and variations to the actual project costs that may occur. The Benchmark Development Costs should be evaluated with the Internal Rates of Returns established, based upon the Preliminary Future Project Valuations. HMI will be available to review this analysis with you as you prepare your actual development costs and desired rates of return for this project.

BENCHMARK DEVELOPMENT COST FACTOR

The benchmark calculation, based upon Occupancy and Average Daily Room Rate projections, was established for Benchmark Development Costs. This provides a preliminary indication of the viability of developing this hotel project based upon these Occupancy and Average Daily Room Rate projections. More comprehensive feasibility research should be performed regarding anticipated operational expenses and fixed cost structuring such as debt service, property taxes, insurance, and depreciation, to formulate a more thorough analysis of the financial viability of this hotel project. The land cost will also be another factor that will have significant impact on the Benchmark Development Costs.

Benchmark Development Costs take into account all costs associated with the hotel's development up to its stabilized year of operation. This includes: land costs; land preparation costs; development costs; construction/renovation costs; furniture, fixtures and equipment (FF&E); pre-opening operational and marketing expenses; and cash flow shortages to a stabilized year of operation. Any other associated development costs would also be part of this calculation. A developmental Occupancy factor of 60.0% for this limited-service, mid-priced hotel was used. These projections also take into account the development of a 450- to 500-person conference and banquet center in conjunction with this hotel. It was stated by the developer that all food and beverage services would be outsourced for this facility. A commission of these sales would then be collected by the hotel. Further detail regarding the conference/banquet center can be found in the Phase II Comprehensive Market Study Report.

A development cost factor of \$1.35 of Average Daily Room Rate per thousand dollars of development cost was utilized for a limited-service, mid-priced hotel. Deviations from the developmental Occupancy and Average Daily Room Rate Factors were calculated based upon Occupancy and Average Daily Room Rate Projections established in this report.

Using this calculation, the following preliminary Benchmark Development Costs were established.

BENCHMARK DEVELOPMENT COSTS		
	ALLOWABLE PER ROOM*	ALLOWABLE TOTAL PROJECT COST*
100 Rooms	\$77,420	\$7,742,015
<i>*These projections will be affected by changes in Projected Occupancy or Projected ADR.</i>		
<i>Source: HMI</i>		

Ideally, as the developer calculates development costs for this property, the total development costs should not exceed these preliminary break-even Benchmark Development Costs. Exceeding these Benchmark Development Costs may indicate that the property is not financially feasible to pursue. However, projected development costs below these Benchmark Development Costs may indicate that additional research should be performed by the developer to determine the overall economic feasibility of developing this hotel property.

To further assess the value of this hotel project at the end of the third full year of operation (2013), calculations of Room Revenue Multipliers and Capitalization rates were applied. These were based upon the *Hotel Investment Survey* by U.S. Realty Consultants. Also, the Smith Travel Host Report was used to establish industry standards to establish Gross Operating Profit before Fixed Costs (32.93%).

100-Room Hotel

On a Revenue Multiplier basis, the average value of the facility was calculated at \$10,030,658 with a range from \$5,500,683 to \$12,942,785. Industry ranges were between 1.7 and 4.0 times sales, with an average of 3.1 times sales.

On a Terminal Capitalization Rate basis, the average value was calculated at \$12,536,736 and ranged from \$9,687,478 to \$14,208,301. Industry ranges were between 7.50% and 11.00%, with an average of 8.50%.

The replacement cost of constructing the property in the third year was calculated at \$8,418,443.

The average value of the property in 2013 was estimated at \$10,328,612 on an estimated Benchmark Development Cost of \$7,742,015. The increase in value is estimated at \$2,586,597. With an estimated 30% equity, or \$2,322,605 on the Benchmark Development Cost, the return based on the increase in value over the

Benchmark Development Cost is 111.37% or 27.84% per year. These calculations do not factor in any of the benefits of utilizing the any city/municipal tax credits to help finance this project.

The Benchmark Development Cost calculation above, as well as the return calculations above, are two of many benchmarks which the developer should utilize in determining the feasibility of this project.

SPECIAL NOTE

--It should be noted that the above Benchmark Development Costs are based upon selling the hotel after the third year of operation.

-- It also depicts only the return on an investment of 30% of the Benchmark Development Cost, and the total increase in value based on the sales price. It does not take into account any Cash Flow returns from operations. HMI could assist in developing a Cash Flow analysis from an Operational Proforma developed for this hotel project. This would generate a more detailed Cash Flow Analysis and potential Return on Investment Analysis for the hotel.

-- Also, this calculation shows a projected Return on Investment of 27.84% per year. If this Return is adjusted, the Benchmark Development Cost would also be adjusted. (i.e. If the Return on Investment is adjusted to 15.00% per year, on the sale of the hotel, the Benchmark Development Cost increases to \$87,531 per room.)

BENCHMARK DEVELOPMENT COSTS		
	ALLOWABLE PER ROOM*	ALLOWABLE TOTAL PROJECT COST*
100 Rooms	\$87,531	\$8,753,122
<i>*These projections will be affected by changes in Projected Occupancy or Projected ADR.</i>		
<i>Source: HMI</i>		

-- This calculation does not take into account any present value calculations. This would be accounted for in an actual Operational Proforma or an Analysis of Cash Flow and Return on Investment.

-- The actual Return on Investment should include returns on both the projected sales value and Cash Flow analysis for the property.

DISCLAIMER

The decisions presented herein were based upon the information available and received at the time this report was compiled. Hospitality Marketers International, Inc., (HMI) has taken every possible precaution to evaluate this information for its completeness, accuracy and reliability. To the best of its knowledge, HMI feels the information and decisions presented herein are sound and reliable.

It must be noted that on September 11, 2001, the United States was attacked by terrorists. The results of that attack had significant affects on the economy and social attitudes of the United States. These attacks also significantly altered normal travel patterns by various market segments generating potential lodging demand. At the time of the writing of this report, the United States travel industry, and specifically, the hotel industry are still recovering from these events. The actual long-term results are still uncertain. There are expectations that the United States will ultimately recover from these events and their affects on the economy and society. There are further expectations that some travel patterns will be changed indefinitely. This report will look at historical trends prior to these significant events. Performance since September 11th to the time of this report will also be reviewed and will attempt to factor the effects of these events into the future projections and conclusions presented in this report. Given the present state of uncertainty, HMI is not responsible for affects that occur from future political, economic or social events that ultimately alter these projections.

Management

ABOUT US

LEADERSHIP

LISA PENNAU

Mrs. Pennau offers more than 25 years of hospitality industry experience. From her beginning in the industry as a rental car agent at the airport in Oshkosh, Wisconsin where she worked while completing her degrees in both hospitality management and sales & marketing at the local college. Lisa moved on to work as a manager in training for Super 8 hotels in Wichita, Kansas and quickly was promoted to general manager of a Super 8 in Omaha, Nebraska. She was recruited by Baymont to become a traveling manager and served several Midwest distressed properties until moving onto work for Hilton as a General Manager at a Hampton Inn Minnetonka, MN. When that hotel sold, Lisa was promoted by the new owners to Regional Director of Operations for Pillar Hotels overseeing over 25+ hotels in the Midwest market both rural and metropolitan markets in the states of Minnesota, Wisconsin, Illinois, Iowa, North Dakota, and South Dakota. During the 10 years as Regional Director of Operations Lisa oversaw multiple brands as well including: Choice, Hilton, Hyatt, IHG, and Marriott. In her final year with Pillar she received the highest honor of Regional Director of the Year for highest performing hotels in all capacities including, revenue, operations, guest service score, turnover, etc.

JESSICA JUNKER

Miss Junker offers more than 18 years of hospitality industry experience. From her beginning in the industry as a banquet server at a full-service hotel in downtown Green Bay, Wisconsin, to overseeing that very property as the manager in only a couple years. Jessica moved on to work as a Director of Sales at a Residence Inn by Marriott, Area Director of Sales with Interstate Hotels, and Regional Director of Sales and Marketing with Pillar Hotels working on the Sales, Marketing and Revenue Management of anywhere between 15 and 52 hotels with every major and not so major brand in the country. After learning everything she felt she needed about running a hotel, she set her sights on what happens before a hotel is built and worked in many separate executive roles with-in an up and coming hotel franchise. Miss Junker offers hands on, expert knowledge in hotel operations, sales, marketing, training, contracting, development, construction, really all things hotels. She gained this knowledge from industry leaders like Marriott, Hilton, InterContinental Hotels Group, Choice Hotels, TMI Hospitality, Interstate Hotels, Pillar Hotels & Resorts, Cobblestone Hotels, Wyndham Hotels & Resorts, and many more.

ABOUT US

TESTIMONIALS AND REFERENCES

URBANA, OH/CHAMPAIGN ECONOMIC PARTNERSHIP MARCIA BAILEY

“For quite some time we had been looking at the possibility of a new hotel in our community. We hired Core Distinction Group to perform a hotel feasibility study for us. Jessica did a great job in answering questions, touring the city and conducting demand generator interviews. Their analysis that was completed gave us the information we needed to begin the process of working on the project. We would highly recommend using their services.”

FAIRFIELD BAY, AR MAYOR PAUL WELLENBERGER

“I called Core Distinction Group with a need for a new Feasibility study and a pretty unrealistic time frame. We had interested investors and interested bankers, but they wanted an updated study reflecting the hotel specifics. Not only was Ms. Junker responsive, she and her team worked over the July 4th weekend to get us what we needed, when we needed it. I highly recommend this company. We had a study done two years earlier. That study cost twice as much, took twice as long and the product was not nearly as thorough and complete as what we received from Core Distinction Group.”

METAMORA, IL KEN MAURER

“Core Distinction Group did a great job for the Village of Metamora. The study was a quality study accepted by all of the hotel chains I contacted.”

SCOPE OF WORK

Core Distinction Group takes immense pride in the work they do. Throughout each phase of our projects, we communicate with our clients on a weekly, if not daily bases. This ensures everyone involved in the project is up to date on the progress. We keep a very tight timeline on our projects. Each phase is well thought-out and followed consistently. The objective of this of our projects are to identify and determine the need for lodging in the community, the loss of lodging to the area due to lack of quality in or amount or lodging, as well as determine there is enough lodging to justify a hotel that makes good business sense. Below you will find each part and its timing in the process:

RESEARCH & COMMUNITY OUTREACH

This phase involves speaking with community leaders to compile a list of potential demand generators in the local and regional community to conduct interviews during our Site Visit and Community Interviews. Research and Community Outreach is conducted with in the first 1 to 2 weeks following receipt of the retainer.

SITE VISIT & COMMUNITY INTERVIEWS

This phase involves an in-depth local tour given by community leaders to help Core Distinction understand said community at this draw. The tour also includes detailed analysis of potential sites for the project. Following the tour, Core Distinction Group sit down and interview demand generators (gathered and scheduled during Research and Community Outreach) to develop knowledge and understanding of the community and its individual needs. This part of the process is conducted in 1-2 days, depending on number of in-person interviews.

DATA COMPILATION

This phase of the process involves compiling all the data gathered during our visit to gain the overall picture of what is needed for the community. This phase also includes phone interviews and online surveys in case some demand generators could not attend in-person interviews. This phase is conducted in 2 weeks following our community visit completion.

*DATA RECEIVING & REPORTING

Once all the demand generator information is gathered, Core Distinction Group begins pulling industry data for target market as well as industry trends to help us gain a better understanding of the local and regional opportunity areas.

COST GATHERING

This involves all things cost. Core Distinction Group gathers actual cost for the development, construction, financing, taxes, and all other ongoing cost associated with the specific project.

PROJECT PROFORMA

Immediately following Development and Operational Cost Gathering, Core Distinction Group will take all information gathered in consideration to put together a project, brand, market and scale specific Proforma that is bank, investor, brand and developer friendly.

DRAFT COMPLETION/SUBMITTAL

After Core Distinction has conducted it's visit, gathered all the potential demand information, industry data and construction/operating costs, they will complete the draft of the study and submit for review by contracted entity. Changes to the study may be made at this point but are limited to wording and grammar updates.

FINAL

After all requested changes are made and after final payment is received, Core Distinction Group will submit a final draft of the Hotel Market Feasibility Study and Brand Specific Proforma to the community for distribution.

*If at this point, Core Distinction Group does not feel there is enough need for lodging to merit the costs of a new build hotel, we will stop the process, communicate with the community and offer alternative options for accommodations. If this happens, the contracted entity is not responsible for the remaining study costs highlighted (Cost) and will receive a report indicating the reasoning behind the decision.

ALL-INCLUSIVE PRICING

The cost the of a Hotel Market Feasibility Study for your community would be \$9,000. This fee would be all-inclusive and give you every tool you will need to bring a hotel to your community. Once your organization has decided to move forward in hiring Core Distinction Group, LLC to conduct your study, we will require a signed contract and 50% (\$4,500) non-refundable retainer. The remaining 50% (\$4,500) will be required prior to your organization receiving the Final Draft. If at any given point after the Site Visit and Community Tour, our company believes that a new hotel project in your community does not make good business sense, we will reach out to you to discuss. If after the discussion of all data with your organization, all parties believe that we have come to the proper determination, we will cease all project work and you will not be responsible for the remainder of the fee/cost. In addition, Core Distinction Group, LLC does not charge for additional time spend on the project after the competed (questions from investors, bankers, brands and so on). Core Distinction Group, LLC will also include one additional Proforma update with-in a year of the project completion at no additional charge (changes in fees or costs). Below you will find a breakdown of what is included in our pricing:

The following Comprehensive Lodging Feasibility Study Report will review the potential development of a hotel in Rock Rapids, IA.

Intended Use - This report is to be used by the Client for determining feasibility and attracting a hotel.

Intended User - City of Rock Rapids is the only intended user for this report.

Core Distinction Group LLC (CDG) has been engaged to provide this Comprehensive Lodging Feasibility Study Report for the Rock Rapids, IA market area. This Lodging Feasibility Study provides an overview of information concerning the market area and the factors that would affect the possible development of a hotel facility in this community. This document is written in a format that highlights key information and offers a preliminary indication of this market's ability to support development.

This consultant from Core Distinction Group LLC met with representatives of the community and the surrounding area to gather information pertinent to hotel development. Comprehensive research was performed and reviewed regarding the community's economic indicators, competitive lodging supply, and lodging demand generators. CDG performed field research to determine the relationship between the community and its lodging need. Economic indicators were studied to determine the stability and future growth potential of the general market. The research was conducted as a macro and micro market analysis of the Rock Rapids and the areas immediately surrounding area to determine their viability to support the potential of a hotel development.

This report will present projections for stabilized hotel operation based upon current operating performance in the market area. Occupancy, Average Daily Room Rate, and Sales Revenue projections for the hotel were based upon a detailed review of the field research data. Also, recommendations as to the property type, suggested property size, services, and amenities were included. These projections and recommendations were based upon the market demand research for a potential lodging facility.

This report provides statistical and highlighted narratives to support the conclusions regarding the market area and its ability to support potential hotel development.

General Assumptions - For the purpose of this assignment, we assumed the proposed property will be operated as an upper-mid scaled to upper scaled, franchised hotel with a central reservations system that is fully-integrated with a recognized marketing platform. If this or any of the following are not followed, it could affect the overall feasibility of subject property.

Operational Assumptions - For the purpose of this assignment, we assume the subject property would be managed by a professional and experienced management company at an industry standard fee 4%-7%.

Franchise Fees - For the purpose of this assignment, we assume the subject property would pay franchise fees either quoted to Core Distinction Group, LLC by the developer or franchise representative. In the event that Core Distinction Group is not able to receive a quote, fees will be based on the franchise's registered Franchise Disclosure Document.

Property segment recommended for the potential development of a hotel is a Midscale to Upper Midscale hotel. This type of hotel would allow the property to be positioned properly at the subject site. It is anticipated that a new hotel would capture displaced Lodging Demand currently staying in markets surrounding Rock Rapids, IA.

Additionally, the newness of the hotel should be well received in the marketplace. Its location will be ideal to serve Rock Rapids and regional markets. This type of hotel would also be capable of adjusting rates to best fit the demand in the market.

Property size recommendation of a newly developed hotel was researched to be between 40-45 guestrooms in this report. This would position it to be slightly smaller in size to the average room size of 53 noted by the competitive set surveyed. The size would assist the property in achieving the Occupancy projections listed in this report. It is not advisable to over-build in this market at this time. Expansion of the hotel in future years could be considered as the market's Lodging Demand grows. Adjusting the room count will modify Performance.

Rate Competition will be dictated by market demand. With proper rate positioning the hotel should achieve a yield to the regional market 110% Peak Season and 115% Low Season. Negotiated rates and group rates should be considered when adjusting for revenue management. Weekend demand appear to be significantly more aggressive in the regional market and should be accompanied by minimum length of stay restrictions.

Property features, amenities, and services of the hotel should satisfy the market it is attempting to attract. Standard features and amenities required for a proposed hotel in this market should include:

-  Hot Breakfast
-  Bar/Lounge
-  Convenience Market
-  Business Center
-  Microwaves/Refrigerators All Guestrooms
-  Fitness Center
-  Attached or nearby Restaurant
-  Indoor Swimming Pool
-  Meeting Room 25+ Capacity
-  Attached or nearby Restaurant

The recommended Sleeping Room Configuration should be compatible with the overall Market Segmentation of the area. The property should offer a selection of King bedded rooms at 35% with a slightly higher percentage of double queen bedded rooms at 65%.

Economic Impact Potential: There are multiple economic impacts of building and developing a new hotel in a community. Some direct impact drivers include projected hotel revenue including all rooms revenues, meeting room revenue, as well as vending/bar revenue. On Average, this size property will create 6-10 full time jobs, part-time employment varies by hotel need and hiring practices. Additional economic development will include taxes, which include all sales taxes collected on hotel revenue, as well as all payroll related taxes collected from full-time hotel employees and temporary construction workers. Local governments will also collect new property taxes from the operation of the hotel. Indirect Impact includes all jobs and income generated by businesses that supply goods and services to the hotel. A few examples of businesses that will indirectly benefit from the development of a hotel include suppliers of rooms related goods (housekeeping supplies, room amenities, etc.), telecommunication vendors (internet, cable, etc.), utility companies, food and beverage suppliers, and other hotel related vendors.

A **Lodging Demand Analysis** was performed. This demand analysis is based on general observations of the surrounding market area and the overall Rock Rapids, IA market area.

1st Quarter (Jan-Mar)	January	February	March
Lodging Rooms Available	1,271	1,148	1,271

NOTE: Above "Lodging Rooms Available" represent the total amount each month. Due to the variation of days in the month, this number changes.

* The above forecasts represent projections for occupancy, adr, and revenue of a developed 41 unit lodging option. Financial Returns projected based on specific brand chosen for development. Development costs and FDD required by each brand for financial projection estimates.

NOTE: The above information is a forward looking projection of anticipated occupancies, average daily rate and revenue based on the professional experience of Core Distinction Group LLC (CDG) participation in other projects, similar in nature. Occupancy and ADR projections derived from market data trends reported by Smith Travel Research (STR) in the market's proximity along with to date rate shopping of local and surrounding hotels, and community feedback. This projection could change due to changes in the economy, both locally and overall, the acceptance of the project by the local community and patrons and the fact that CDG has not been involved in a project in this area and in a municipality with these demographics in the past. Thereby, all investors understand and acknowledge that these forward looking projections are not warranted by CDG and are subject to change and fluctuation.

OCC% ADR: REVPAR Room Revenue: **YEAR 5**
63.50% **\$106.19** **\$67.46** **\$1,009,540**

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
5	17	22	23	24	38	41
13%	42%	54%	56%	59%	94%	101%

** Weekend/Leisure Demand % of demand for available rooms graph shown above. Weekend Demand High due to lodging generators in the immediate and regional markets. Focus on weekday (Sunday-Thursday) business will assist the project in meeting or exceeding projections. Two night minimum on Friday/Saturday revenue management strategy recommended for optimal revenue opportunity.*

It should be noted that the above projections are considered to be forecasted for the first full year open. Consideration for a ramp up period at a minimum of 90 to 180 days is typical for new hotel development. It should be noted that projections shown in any forward reaching proforma will indicate a first partial year ramp up period for comparison and budget planning. The opening of this potential hotel development should be in timing up to 90 days prior to peak season to ensure highest potential profitability in year 1. A minimum of \$150k should be factored into the total project cost under working capital to offset this first year ramp up period loss potential. Hotels used in this seasonality analysis are from outside of Rock Rapids, IA in neighboring markets. The market's demand patterns appear average at the time of this report.

Understanding Terms:

Average Daily Rate (ADR)

A measure of the average rate paid for rooms sold, calculated by dividing room revenue by rooms sold. $ADR = \text{Room Revenue} / \text{Rooms Sold}$

Chain Scale

Chain Scale segments are grouped primarily according to actual average room rates. An independent hotel, regardless of average room rate, is included as a separate Chain Scale category. The Chain Scale segments are: Luxury, Upper Upscale, Upscale, Upper Midscale, Midscale, Economy and Independent.

Competitive Set (Comp Set)

A peer group of hotels that competes for business and is selected to benchmark the subject property's performance.

Date-To-Date Comparison

Comparison of daily performance by actual calendar date (1st of January this year vs. 1st of January last year).

Day-To-Day Comparison

Comparison of daily performance by day of week (Monday this year vs. Monday last year).

Demand

The number of rooms sold in a specified time period (excludes complimentary rooms).

Group Rooms

Typically defined as 10 or more rooms per night, sold pursuant to a signed agreement. Refer to Data Reporting Guidelines for more specific application.

Index

Measures a hotel's performance relative to an aggregated grouping of hotels (i.e., competitive set, market or submarket). We utilize indexes to measure performance in three key areas: Occupancy, ADR and RevPAR.

Occupancy (OCC)

Percentage of available rooms sold during a specified time period. Occupancy is calculated by dividing the number of rooms sold by rooms available. $Occupancy = \text{Rooms Sold} / \text{Rooms Available}$

Revenue Per Available Room (RevPAR)

Total room revenue divided by the total number of available rooms. $\text{Room Revenue} / \text{Rooms Available} = \text{RevPAR}$

Total Revenue

Revenue from all hotel operations - including rooms, F&B, other revenue departments (i.e., spa, golf, parking) and miscellaneous revenue (i.e., rentals, leases, resort fees and cancellation fees).

Year to Date

Period starting at the beginning of the current year and ending on the current date.

Hotel Types

Hotel classifications are driven primarily by building structure and, secondarily, by service level. Hotel types include:

- All-Inclusive: Property with rooms sold only as a complete package, bundling overnight accommodations and value-added amenities and services (i.e., food, beverage, activities and gratuities, etc.)
- All-Suite: Property with guestroom inventory that exclusively consists of rooms offering more space and furniture than a typical hotel room, including a designated living area or multiple rooms.
- B&B/Inn: Independently owned and operated properties that typically include breakfast in the room rates, 20 rooms or fewer and a resident/owner innkeeper.
- Boutique: Hotel that appeals to guests because of its atypical amenity and room configurations. Boutiques are normally independent (with fewer than 200 rooms), have a high average rate and offer high levels of service. Boutique hotels often provide authentic cultural, historic experiences and interesting guest services.
- Condo: Individually and wholly-owned condominium units. Inventory is included in a rental pool operated and serviced by a management company.
- Conference Center: Lodging hotel with a major focus on conference facilities.
- Convention Center: Property with a minimum of 300 rooms and large meeting facilities (minimum of 20,000 square feet).
- Destination Resort: Property that appeals to leisure travelers, typically located in resort markets, and considered a destination in and of themselves with extensive amenity offerings. These properties are typically larger and full-service.
- Extended Stay: Properties typically focused on attracting guests for extended periods. These properties quote weekly rates. The typical length of stay average for guests is four to seven nights.
- Full Service Hotel: Typically Upscale, Upper Upscale and Luxury properties with a wide variety of onsite amenities, such as restaurants, meeting spaces, exercise rooms or spas.
- Gaming/Casino: Property with a major focus on casino operations.
- Golf: Property that includes a golf course amenity as part of its operations. A property does not qualify if it only has privileges on a nearby course.
- Hotel/Motel: Standard hotel or motel operation.
- Limited Service: Property that offers limited facilities and amenities, typically without a full-service restaurant. These hotels are often in the Economy, Midscale or Upper Midscale class.
- Lifestyle Brand: Group of hotels operating under the same brand that is adapted to reflect current trends.
- New Build: Property built from the ground up, not a conversion or building that was not previously a hotel.
- Ski: Property with onsite access to ski slopes.
- Soft Brand: Collection of hotels that allows owners and operators to affiliate with a major chain while retaining their unique name, design and orientation.
- Spa: Property with an onsite spa facility and full-time staff offering spa treatments.
- Timeshare: Property that typically is a resort condominium unit, in which multiple parties hold property use rights, and each timeshare owner is allotted a period of time when the property may be used.

Location	Site is located in downtown Rock Rapids, IA. Located next to the new Medical Center as well as School System and other demand generators. This space also has easy access.
Land Area	This proposed site is two acres but could offer more. The recommended site size for proposed property is two to three acres.
Frontage	This proposed site offers frontage of Highway 75.
Topography	This site is level. The topography does not appear to have development issues.
Drainage	No drainage issues were observed at the time of visit and none were disclosed to Core Distinction Group at the time of Site Visit.
Environmental Hazards	An environmental assessment report was not provided for review. However, these issues are out of Core Distinction Group’s scope of work and expertise. It is assumed that property is no adversely affected by these hazards.
Ground Stability	A soil report was not provided for review. However, these issues are out of Core Distinction Group’s scope of work and expertise. It is assumed that property is no adversely affected by these hazards.
Utilities	It is to the understanding of Core Distinction Group that water, electricity and sewer are available.
Parking	This site is assumed to be able to accommodate the appropriate number of parking spaces.
Easements, Encroachments and Restrictions	Core Distinction Group was not provided a title report on said site and was not made aware of any easements, encroachments or restrictions that would affects this site.

Unemployment

The current unemployment rate for Rock-Rapids is 1.3% in August 2018.

Labor Supply / Wage Pressures

Iowa's minimum wage is set at \$7.25 (2018). The labor supply is felt to be below average to support a hotel development. The hotel could draw employment from the broad geographic area of Lyon County or entice commuting community members to stay closer to home for work. The unemployment levels in the county do have the potential to place limitations on labor supply needed for this build. Wage pressures were reported to be a concern in attracting Service employees for a hotel.

Air Transportation

The closest major airport to Rock Rapids, Iowa is Sioux Falls Regional Airport (FSD) 44 miles from the center of Rock Rapids, IA.

International airports near Rock Rapids, IA

211 miles: Minneapolis, MN (MSP / KMSP) [**Minneapolis-Saint Paul International Airport**](#)

268 miles: Des Moines, IA (DSM / KDSM) [**Des Moines International Airport**](#)

285 miles: Fargo, ND (FAR / KFAR) [**Hector International Airport**](#)

Domestic airports near Rock Rapids, IA

44 miles: Sioux Falls, SD (FSD / KFSD) [**Sioux Falls Regional Airport**](#)

77 miles: Sioux City, IA (SUX / KSUX) [**Sioux Gateway Airport**](#)

145 miles: Watertown, SD (ATY / KATY) [**Watertown Regional Airport**](#)

166 miles: Omaha, NE (OMA / KOMA) [**Eppley Airfield**](#)

167 miles: Huron, SD (HON / KHON) [**Huron Regional Airport**](#)

Local airports near Rock Rapids, IA

37 miles: Orange City, IA (KORC / ORC) [**Orange City Municipal Airport**](#)

46 miles: Le Mars, IA (LRJ / KLRJ) [**Le Mars Municipal Airport**](#)

49 miles: Worthington, MN (OTG / KOTG) [**Worthington Municipal Airport**](#)

Market Segmentation Projection for Rock Rapids, IA are as follows:

Area Events & Attractions:	30%
SMERF (Social, Military, Education, Religion, and Fraternal):	25%
Social(Weddings/Events)	6%
Military	0%
Education (Sports/Other)	19%
Religious	0%
Fraternal	0%
Manufacturing:	20%
Healthcare & Social Assistance:	10%
Other Local Business:	10%
Transient/Walk-In:	5%
Total Need:	100%

Identifying which segments have the potential to produce 80 percent of your hotel's revenue is imperative to the success of developing these segments to ensure hotel is achieving fair market share. This starts with understanding the market in which any given hotel operates. A fundamental understanding of the competitive environment, key economic drivers and historical trends are essential to understanding which market segments are relevant. At this time, the proposed hotel should experience the same Market Segmentation as the overall market. The proposed hotel in Rock Rapids, IA would be the newest hotel in the immediate regional area and would be positioned to serve a wide variety of Lodging Demand. Also, as a proposed upper midscale hotel, it would be able to flex rates and services to accommodate a full range of Lodging Demand identified for this market.

Located in Rock Rapids, IA, in northwestern Iowa, Sanford Rock Rapids Medical Center is a 16-bed licensed facility that is directly connected to Sanford Rock Rapids Clinic. Sanford Rock Rapids Medical Center is part of Sanford Health.

Avera Health - The new health-care facility, which is going to be about 52,000 square feet, will be home to a large medical clinic with specialty treatments; a pharmacy; emergency, trauma and treatment rooms; eight patient rooms with space for 10 patients; a chapel/meditation room; a cafe/lunch area; and an administration area. The medical services offered at the new hospital and clinic will include various types of therapy; X-rays; computed tomography, or CT, scans; ultrasounds; 3-D mammography; laboratory testing; and surgery.

Parks and Recreation - There are many recreational opportunities for all ages in the area. Fishing, swimming, soccer, baseball, skate park, softball, museums, snowmobiling, ice skating and more are all available.

Area/Regional Attractions:

Island Park - Twenty-two camper pads with electrical hookups, Mini-Zoo, swimming pool/aquatic center, restrooms, 3 playground sites, fire rings, picnic shelters.

Kiwanis Park - Ball diamond, basketball court, playground equipment and skate park.

Westside Park - Eight camper pads, sand volleyball courts, playground and picnic shelter.

Campbell Park - Canoe access to Rock River.

Borman-Forester Fields - Featuring a lighted baseball diamond, a lighted softball diamond and five soccer fields.

Forester Community Center - Constructed in 1999, the building features a large kitchen, a 6,600 square feet of space that can be divided, a 816 square foot space that can be divided, and a third 572 square foot space. The facility is rented for meetings, conventions, weddings, receptions, reunions and other social events.

Lyon County Historical Society Museum Complex - In the complex visitors will find a former Rock Island Depot, which has been renovated, and a caboose. The Society has recently constructed an example of an old-fashioned livery stable in the area. A Victorian home has been completely renovated and furnished with artifacts of the period. Also one will find a windmill.

Community Interviews Overall Key Response

When Core Distinction Group asked individual businesses in the area if they had need for new, quality accommodations in the community, 56% identified specific a need:

When Core Distinction Group asked individual and businesses in the area if they there was a need in Rock Rapids, IA for a new hotel, 93% stated they did:

In surveying a representative with the City of Rock Rapids, they indicated that although they do not have need they see need from families reunions, class reunions, weddings and other social events in the area. In addition the representative indicated they see need during the Rag Brai (Bike Ride). The event can only be done in communities that can offer over eighty rooms. In the past they have partnered with other communities in order to meet this need.

In surveying a representative with the City of Rock Rapids, they indicated they have need for lodging for customers of their Forester Community Center and Park pavilions. They see currently host around ten weddings each year. They strongly feel they could see as much as three times that if they had lodging. The community center also offers great many meetings for agriculture throughout the week. They host land sales, feed sales, conceal and carry trainings They also see many family reunions and other family events at the parks. The closed in (paid) facility is booked most times during the Spring, Summer and into Fall and the pavilions that are simply covered (first come first serve) are always in use as well. They also offer twenty-four camp sites and two cabins.

In surveying a representative with Avera Merrill Pioneer Hospital, they indicated that they see a need currently during their construction but do not see a lot of need from them after they are open in May of 2019. They may have need prior to surgeries but for the most part their consultants and corporate people come from Sioux Falls and do have need. They also do not expect to have many contracted employees. They feel that they most important amenities their consultants may need is a fitness center and high quality wireless internet if they do ever have need.

In surveying a representative with Glynlyon, they indicated they have need for lodging each week throughout the year. This need ranges between one and four rooms at any given time. They also host a national meeting in February that has need for twenty to thirty rooms for one night at least. In addition, the company is bringing new people on weekly. The representative also indicated they currently send people out of town to hotels that offer hot breakfast, a fitness center, high quality coffee and clean and spacious rooms.

In surveying a representative with DGR, they indicated they have need occasionally throughout the year for clients that may come to see their facility, board meetings with rural water boards 8-10 rooms for one night, consultants a few times a year for a night or two, trainings once or twice a year 1-2 nights, and sales vendors once a month or so. They also over see Eleno Power Cooperative. This company may have need for sub-contractors that will stay during construction projects. The representative also indicated people currently stay at the casino, Sioux Center or Sioux Falls. All of these facilities are more then twenty minutes away. The representative also pointed out that a hotel would simply need to offer clean accommodations, high quality internet and a bar or lounge to retain their business.

In surveying a representative with Lyon Specialty, they indicated they have a 45 bed facility that has high visitor traffic during the holidays and Summer. They see many families come through to visit their clients. Most of their clients do not have family in the area. They also have consultants that visit their facility once or twice a year (usually four people for two or three nights). In addition, their facility will pay for rooms for employees to stay during the Winter months for bad weather. The representative indicated they have people staying in Sioux Center, Sybley and Sheldon. They would like to see a local facility offer a meeting space, clean rooms and a hot breakfast.

In surveying a representative with Arrow, they indicated they have need at least once or twice a month for vehicle owners that come in for maintenance and need a room for one or more nights. In addition, they have vendors that come one or six times a month and they have clients that come in around once a week for tours and inspections. They also have potentially new customers that come in a few times a year to tour the facility. The representative also indicated they will recommend people stay at the airport in Sioux Falls or the Sioux Center. They would also like to see a lodging facility locally offer a nice place to each and breakfast, business center and all the other typical hotel amenities.

In surveying a representative with the Lyon School District, they indicated they have need for lodging in some instances for volleyball, baseball, wrestling and maybe softball tournaments. They also have people come in once every five years from the state and speakers they put up a few times a year. The representative also indicated a need for lodging when there are social events in the area. They currently send people to the casino hotel or hotels in Sioux Center.

In surveying a representative with LVO, they indicated that although they do not have need for lodging, they do see a need. They see it especially for social events in the area. They would like to see a new hotel offer a pool and fitness center.

In surveying a representative with Premier Communications, they indicated they have projects throughout the area that have need for sub-contractors to stay in the area. Some will stay in local motel and some will stay in Luverne or Sioux Falls. The representative also indicated they personally see a need for a nicer facility that can offer a pool, wireless internet, a fitness center, meeting space, guest laundry and other typical amenities for their family and other families in the area.

In surveying a representative with US Bank, they indicated they have need for lodging 2-3 times a month. They currently recommend the local motel but would like to see a property in town offer breakfast, wireless internet and a meeting room.

In surveying a local business owner, they indicated they have need for two to three rooms a month. They usually stay Monday through Thursday. Currently they will send people to the hotels in Rock Valley or Sioux Center and would like to see a hotel in the area that can offer breakfast, wireless internet, a fitness center, business center, meeting space, a pool, guest laundry and a bar or lounge.

In surveying a representative with Lyon County Chiropractic, they indicated they have need for two rooms a month and they would like to see accommodations come to the area that can offer breakfast, wireless internet, a pool, suites and a pool.

In surveying a representative with Lyon County Reporter, they indicated they have need for lodging quarterly for employees that come in from their home office for trainings and or meetings. The representative also indicated they personally feel there is a need due to the loss of business that seeks out a higher quality accommodation in neighboring areas for business and leisure travelers. They would like to see a new hotel in the area offer breakfast, meeting space and a pool.

In surveying a representative with Hoppe Roofing, they indicated they typically utilize sixteen rooms a month. Their guests will stay for four nights during the week. They currently send people to Sioux Falls or Sioux Center for rooms and feel a new hotel should offer breakfast, wireless internet, a fitness center, pool, ample parking and long-term accommodations.

In surveying a representative with Maintainer Custom Bodies, they indicated they have groups of three to six customers visit one to two times a month. They feel that a new hotel should offer breakfast, wireless internet, a fitness center, bar and that there should be a dining option added as well. They currently send their clients to Sioux Falls.

In surveying a representative with Lyon County Fair and Rapid Speedway, they indicated a need for lodging regularly throughout the year. In addition to the County Fair and the races, the grounds host tractor shows, car shows (in April or March), horse rides in the Summer months, horseshows (and other 4-H Events), snowmobile races in January (usually at least six-hundred sleds), weddings, conferences and other events. The representative also indicated that their races draw many drivers from out of town. In addition, they indicated a great need for a new hotel in town to offer a pool for many people in the area that like to bring their children to a hotel, stay the night to have a "staycation".

Conveniently located on the east side of Sioux Falls with easy access to I-90, we are a great fit for business travelers. Our complimentary happy hour on Tuesdays, Wednesdays and Thursdays with snacks, sodas, beer and wine is the best way to unwind after a busy day. Catch up on work, visit with the other guests, or just relax on our patio. New plush mattresses were installed along with new Keurig coffeemakers in February 2016, guaranteeing a restful night and fresh coffee first thing in the morning. We are close to Marmen, Atlas, Spartan and many other Sioux Falls and Brandon businesses.

We are a great stop for leisure guests enroute to the Black Hills and Mount Rushmore. While you are with us, enjoy our indoor waterpark with a 210 foot raft slide and interactive play area. Call for days of operation . Wristbands are included in your room rate. Please note that guests must be 48 inches tall to ride the big slide. We are just ten minutes from Palisades State Park, and the new Dawley Farms shopping district. Many more attractions, such as the Great Plains Zoo, Sertoma Butterfly House, the gorgeous waterfalls, the sculpture walk and the Denny Sanford Premier Center are easy to get to as well. Enjoy our complimentary hot breakfast and set out for a day of fun.

Tab 11 - Terms and Conditions

Before purchasing this product you agreed to the following terms and conditions.

In consideration of the mutual promises contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, STR, Inc. ("STR"), STR Global, Ltd. ("STRG"), and the licensee identified elsewhere in this Agreement agree as follows:

1. LICENSE

1.1 Definitions.

(a) "Agreement" means these Standard Terms and Conditions and any additional terms specifically set out in writing in the document(s) (if any) to which these Standard Terms and Conditions are attached or in which they are incorporated by reference, and, if applicable, any additional terms specifically set out in writing in any Schedule attached hereto.

(b) "Licensed Materials" means the newsletters, reports, databases or other information resources, and all lodging industry data contained therein, provided to Licensee hereunder.

1.2 Grant of License. Subject to the terms and conditions of this Agreement, and except as may be expressly permitted elsewhere in this Agreement, STR hereby grants to Licensee a non-exclusive, non-transferable, indivisible, non-sublicensable license to use, copy, manipulate and extract data from the Licensed Materials for its own INTERNAL business purposes only.

1.3 Copies. Except as expressly permitted elsewhere in this Agreement, Licensee may make and maintain no more than two (2) copies of any Licensed Materials.

1.4 No Service Bureau Use. Licensee is prohibited from using the Licensed Materials in any way in connection with any service bureau or similar services. "Service bureau" means the processing of input data that is supplied by one or more third parties and the generation of output data (in the form of reports, charts, graphs or other pictorial representations, or the like) that is sold or licensed to any third parties.

1.5 No Distribution to Third Parties. Except as expressly permitted in this Agreement, Licensee is prohibited from distributing, republishing or otherwise making the Licensed Materials or any part thereof (including any excerpts of the data and any manipulations of the data) available in any form whatsoever to any third party, other than Licensee's accountants, attorneys, marketing professionals or other professional advisors who are bound by a duty of confidentiality not to disclose such information.

1.6 Security. Licensee shall use commercially reasonable efforts to protect against unauthorized access to the Licensed Materials.

1.7 Reservation of Rights. Licensee has no rights in connection with the Licensed Materials other than those rights expressly enumerated herein. All rights to the Licensed Materials not expressly enumerated herein are reserved to STR.

2. DISCLAIMERS AND LIMITATIONS OF LIABILITY

2.1 Disclaimer of Warranties. The licensed materials are provided to the licensee on an "as is" and "as available" basis. STR makes no representations or warranties of any kind, express or implied, with respect to the licensed materials, the services provided or the results of use thereof. Without limiting the foregoing, STR does not warrant that the licensed materials, the services provided or the use thereof are or will be accurate, error-free or uninterrupted. STR makes no implied warranties, including without limitation, any implied warranty of merchantability, noninfringement or fitness for any particular purpose or arising by usage of trade, course of dealing, course of performance or otherwise.

2.2 Disclaimers. STR shall have no liability with respect to its obligations under this agreement or otherwise for consequential, exemplary, special, incidental, or punitive damages even if STR has been advised of the possibility of such damages. Furthermore, STR shall have no liability whatsoever for any claim relating in any way to any decision made or action taken by licensee in reliance upon the licensed materials.

2.3 Limitation of Liability. STR's total liability to licensee for any reason and upon any cause of action including without limitation, infringement, breach of contract, negligence, strict liability, misrepresentations, and other torts, shall be limited to all fees paid to STR by the licensee during the twelve month period preceding the date on which such cause of action first arose.

3. MISCELLANEOUS

3.1 Liquidated Damages. In the event of a violation of Section 1.5 of these Standard Terms and Conditions, Licensee shall be required to pay STR an amount equal to the sum of (i) the highest aggregate price that STR, in accordance with its then-current published prices, could have charged the unauthorized recipients for the Licensed Materials that are the subject of the violation, and (ii) the full price of the lowest level of republishing rights that Licensee would have been required to purchase from STR in order to have the right to make the unauthorized distribution, regardless of whether Licensee has previously paid for any lower level of republishing rights, and (iii) fifteen percent (15%) of the total of the previous two items. This provision shall survive indefinitely the expiration or termination of this Agreement for any reason.

3.2 Obligations on Termination. Within thirty (30) days of the termination or expiration of this Agreement for any reason, Licensee shall cease all use of the Licensed Materials and shall return or destroy, at STR's option, all copies of the Licensed Materials and all other information relating thereto in Licensee's possession or control as of the such date. This provision shall survive indefinitely the expiration or termination of this Agreement for any reason.

3.3 Governing Law; Jurisdiction and Venue. This Agreement shall be governed by the substantive laws of the State of Tennessee, without regard to its or any other jurisdiction's laws governing conflicts of law. Any claims or actions regarding or arising out of this Agreement shall be brought exclusively in a court of competent jurisdiction located in Nashville, Tennessee, and the parties expressly consent to personal jurisdiction thereof. The parties also expressly waive any objections to venue.

3.4 Assignment. Licensee is prohibited from assigning this Agreement or delegating any of its duties under this Agreement without the prior written consent of STR.

3.5 Independent Relationship. The relationship between the parties is that of an independent contractor. Nothing in this Agreement shall be deemed to create an employer/employee, principal/agent, partnership or joint venture relationship.

3.6 Notices. All notices required or permitted to be given hereunder shall be in writing and shall be deemed given i) when delivered in person, at the time of such delivery; ii) when delivered by facsimile transmission or e-mail, at the time of transmission (provided, however, that notice delivered by facsimile transmission shall only be effective if such notice is also delivered by hand or deposited in the United States mail, postage prepaid, registered, certified or express mail or by courier service within two (2) business days after its delivery by facsimile transmission); iii) when delivered by a courier service or by express mail, at the time of receipt; or iv) five (5) business days after being deposited in the United States mail, postage prepaid, registered or certified mail, addressed (in any such case) to the addresses listed on the first page of this Agreement or to such other address as either party may notify the other in writing.

3.7 Waiver. No waiver of any breach of this Agreement will be deemed to constitute a waiver of any subsequent breach of the same or any other provision.

3.8 Entire Agreement. This Agreement constitutes the entire agreement of the parties with respect to the matters described herein, superseding in all respects any and all prior proposals, negotiations, understandings and other agreements, oral or written, between the parties.

3.9 Amendment. This Agreement may be amended only by the written agreement of both parties.

3.10 Recovery of Litigation Costs. If any legal action or other proceeding is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any of the provisions of this Agreement, the successful or prevailing party or parties shall be entitled to recover reasonable attorneys' fees and other costs incurred in that action or proceeding, in addition to any other relief to which it or they may be entitled.

3.11 Injunctive Relief. The parties agree that, in addition to any other rights or remedies which the other or STR may have, any party alleging breach or threatened breach of this Agreement will be entitled to such equitable and injunctive relief as may be available from any court of competent jurisdiction to restrain the other from breaching or threatening to breach any of the provisions of this Section, without posting bond or other surety.

3.12 Notice of Unauthorized Access. Licensee shall notify STR immediately upon Licensee's becoming aware of any facts indicating that a third party may have obtained or may be about to obtain unauthorized access to the Licensed Materials, and shall fully cooperate with STR in its efforts to mitigate the damages caused by any such breach or potential breach.

3.13 Conflicting Provisions. In the event that any provision of these Standard Terms and Conditions directly conflicts with any other provision of the Agreement, the conflicting terms of such other provision shall control.

3.14 Remedies. In addition to any other rights or remedies that STR may have, in the event of any termination by STR on account of a breach by Licensee, STR may, without refund, immediately terminate and discontinue any right of Licensee to receive additional Licensed Materials from STR.

Brands/Chains are slotted by Chain Scale based on the previous year's annual system wide (global) Average Daily Rate. Rate ranges defining each Chain Scale are determined by STR. The STR Chain Scales – North America and Caribbean is a subset of the larger Global Chain Scale list. Brand Chain Scale pairings are consistent with each list. Brands listed above are located in U.S., Mexico, Caribbean and Canada. If you have any questions about the Chain Scales, please email support@str.com. Copyright 2016. STR, Inc. DISCLAIMER

Thank you for the opportunity to complete this market and feasibility study for the proposed hotel project located in Rock Rapids, IA. We have studied the market area for additional demand for a lodging facility and the results of our fieldwork and analysis are presented in this report. We have also made recommendations for the scope of the proposed project, including general site location, size of hotel, and brand segment.

We hereby certify that we have no undisclosed interest in the property and our employment and compensation are not contingent upon our findings. This study is subject to the comments made throughout this report and to all assumptions and limiting conditions set forth herein.

The conclusions presented in this report are based upon the information available and received at the time the report was filed. Core Distinction Group, LLC (“CDG”) has taken every possible precaution to evaluate this information for its complete accuracy and reliability. Parts of this report were prepared or arranged by third-party contributors, as indicated throughout the document. While third-party contributions have been reviewed by CDG for reasonableness and consistency for including in this report, third-party information has not been fully audited or sought to be verified by CDG. CDG does not provide financial advice.

It should be understood that economic and marketplace conditions are in constant change. The results presented in this report are the professional opinion of CDG and are based on information available at the time of the report preparation. These opinions infer that market conditions do not change the information received upon which those opinions have been based. CDG assumes no responsibility for changes in the marketplace. CDG assumes no responsibility for information that becomes outdated once this report is written; nor are we responsible for keeping this information current after the date of the final document presentation.

CDG makes no express or implied representation or warranty that the contents of this report are verified, accurate, suitably qualified, reasonable or free from errors, omissions or other defects of any kind or nature. Those who rely on this report do so at their own risk and CDG disclaims all liability, damages or loss with respect to such reliance.

It is presumed that those reading this report understand the contents and recommendations. If this reader is unclear of understanding the contents, clarification can be received directly from a representative of CDG. While the terms of CDG’s engagement do not require that revisions be made to this report to reflect events or conditions which occur subsequent to the date of completion of fieldwork, we are available to discuss the necessity for revisions in view of changes in the economic climate or market factors affecting the proposed hotel project.

Please do not hesitate to call should you have any comments or questions.

Sincerely,
Core Distinction Group, LLC

Lisa L. Pennau

NOTE: The above information is a forwards looking projection of anticipated expenses and profits with regard to this project based on the professional experience of Core Distinction Group LLC (CDG) participation in other projects, similar in nature. Occupancy and ADR projections derived from market data trends reported by Smith Travel Research (STR) in the market's proximity along with to date rate shopping of local and surrounding hotels. This projection could change due to changes in the economy, both locally and overall, the acceptance of the project by the local community and persons and the fact that CDG has not been involved in a project in this area and in a municipality with these demographics in the past. Thereby, all investors understand and acknowledge that these forward looking projections are not warranted by CDG and are subject to change and fluctuation.

NOTE: The above information is a forwards looking projection of anticipated expenses and profits with regard to this project based on the professional experience of Core Distinction Group LLC (CDG) participation in other projects, similar in nature. Occupancy and ADR projections derived from market data trends reported by Smith Travel Research (STR) in the market's proximity along with to date rate shopping of local and surrounding hotels. This projection could change due to changes in the economy, both locally and overall, the acceptance of the project by the local community and patrons and the fact that CDG has not been involved in a project in this area and in a municipality with these demographics in the past. Thereby, all investors understand and acknowledge that these forward looking projections are not warranted by CDG and are subject to change and fluctuation.

NOTE: The above information is a forwards looking projection of anticipated expenses and profits with regard to this project based on the professional experience of Core Distinction Group LLC (CDG) participation in other projects similar in nature. Occupancy and ADR projections derived from market data trends reported by Smith Travel Research (STR) in the market's proximity along with to date rate shopping of local and surrounding hotels. This projection could change due to changes in the economy, both locally and overall, the acceptance of the project by the local community and patrons and the fact that CDG has not been involved in a project in this area and in a municipality with these demographics in the past. Thereby, all investors understand and acknowledge that these forward looking projections are not warranted by CDG and are subject to change and fluctuation.

NOTE: The above information is a forwards looking projection of anticipated expenses and profits with regard to this project based on the professional experience of Core Distinction Group LLC (CDG) participation in other projects, similar in nature. Occupancy and ADR projections derived from market data trends reported by Smith Travel Research (STR) in the market's proximity along with to date rate shopping of local and surrounding hotels. This projection could change due to changes in the economy, both locally and overall, the acceptance of the project by the local community and patrons and the fact that CDG has not been involved in a project in this area and in a municipality with these demographics in the past. Thereby, all investors understand and acknowledge that these forward looking projections are not warranted by CDG and are subject to change and fluctuation.

ADDITIONAL SERVICES

We receive requests often for additional services so we have listed out some of the most common services with our prices. If you need any of these services, please feel free to let us know.

Ongoing Support - Our consultants are happy to answer questions or comments from stakeholders in your hotel project. We do not charge extra to answer questions about our reports.	Included
Presentation Visit - Although Core Distinction Group is happy to offer unlimited phone calls and emails with community officials, potential investors, brand representatives, bank representatives and so on, in some cases, an in person visit to present the study is required or sought after. Your community can add this to their costs.	\$ 3,000
Online Course - Core Distinction Group has a strong belief that if your community leaders are educated to how the development process is conducted, they will have a much better chance to get the project complete. Core Distinction Group offers an online course, HOW TO DEVELOP A NEW HOTEL IN YOUR COMMUNITY designed to walk community leaders through the process. This course is well received and will help improve chance to get the project done. Core Distinction Group clients that complete a study, receive a discount from \$1,500 to \$1,000.	\$ 1,000
Hotel Development RFQ Preparation and Solicitation - If your community is not already working with the people needed to get your project done, we can help put your study in front of the proper people.	\$ 7,500
Additional Financial Projections/Proformas - If additional Financial Projections/Proformas are required by the client above and beyond two, there will be a fee per document.	\$ 1,500

growing hospitality brands

unique franchise opportunity

Open for franchising.

Our brand is family

GrandStay Hospitality, LLC offers a hotel franchise opportunity like no other hotel chain. The GrandStay portfolio of brands includes extended-stay and select service hotels:

GrandStay® Hotel & Suites

GrandStay® Residential Suites Hotel

GrandStay doesn't believe in "one size fits all" hotel franchises. From franchise conversions to new builds, GrandStay franchisees are backed by a strong, growing lodging company with a unique, technology-driven marketing approach, flexible franchise options and collaborative, one-on-one support designed for success.

GrandStay welcomes you to join the GrandStay Family.

brand portfolio

Open for franchising.

A careful review of the GrandStay Hospitality Franchise Disclosure Document (FDD) is the first step in the application process. The next step is to complete a GrandStay Hospitality Application. Once the Franchise Agreement and supporting paperwork is completed and returned with the initial fee, you will begin the GrandStay hotel construction program.

mid-upscale market

attractive amenities

proven business system

Invested in *your* success.

All GrandStay Hospitality brands are franchised.

Dedicated to Your Business

Entering into a new business development takes hard work, patience, dedication and know-how. When entering into a hotel franchise agreement with GrandStay Hospitality, you gain the support of an experienced partner dedicated to your success.

Development & Pre-Opening Support

The most crucial stage in ensuring a hotel's success is prior to opening. The GrandStay team will provide pre-opening tools and support:

- Design Resources: Assistance in production of interior designs and furniture, fixtures and equipment (FF&E) packages in compliance with GrandStay brand standards
- Development Resources: Prototype packages, architectural and design assistance, and final approval of plans to assure compliance with GrandStay brand standards

- Sales & Marketing Specialist: Assistance in identifying top room revenue producers in the hotel market and establish pre-opening marketing initiatives

- Training Manager: On-property training for the hotel's staff pre and post opening

Marketing & Sales Support

GrandStay offers exceptional marketing and sales support. GrandStay online marketing initiatives promote awareness and drive reservations to your hotel. GrandStay provides each property a website within the brand website and works closely with each hotel on social media marketing, online reputation management, electronic customer relationship management and revenue management. Grand Returns™, the guest loyalty program, provides an incentive for travelers to frequent GrandStay hotels.

Ongoing Support

GrandStay has tools in place to ensure you receive ongoing, dedicated and collaborative support, a state-of-the-art reservation system, ongoing management training and on-site quality assurance evaluations.

More than *just* a hotel room.

The GrandStay family of hotels provides every guest with more than just a hotel room. A wide variety of amenities includes a complimentary Grand Start® Breakfast, Bath and Body Works® products, comfortable beds with luxurious bedding, swimming pool and high-speed internet; all in a relaxing atmosphere that feels like home. Warm, friendly staff will work hard to ensure that every guest receives great service, an excellent value and a grand experience.

The GrandStay home office team is tactical, proactive, effective and focused on maximizing the revenue potential and guest experience for each hotel. Great importance is placed on the relationship that exists with each franchise partner.

The GrandStay commitment is "Every Guest ~ Every Time." GrandStay carries this principle through from guest service to franchise development.

City of Tomah
819 Superior Avenue
Tomah, Wisconsin 54660

Dear Mr. Hanson:

It was a pleasure to speak with you this week and we are pleased to submit this proposal to conduct a study of potential market demand and prepare a statement of estimated annual operating results for a proposed hotel to be located in Tomah, Wisconsin. We understand you have had discussions with one or more hotel companies. We also understand the city is considering two different locations for a hotel, both of which are located in TIF Districts. One site is located downtown Tomah and the second site is located on the south side of Tomah near the new hospital.

To assist you and other interested parties in evaluating the potential demand for the project and to provide critical planning parameters for you and other interested parties, we have provided the following proposal. This document would identify potential market demand for the subject hotel including a discussion on the market and the proposed site, recommendations on the type of property best suited for the market, a five-year estimate of occupancy and average daily rate, and a statement of estimated annual operating results that could be used to obtain financing, a franchise or management agreement. We intend to conduct a study as detailed below.

APPROACH TO THE STUDY

The study would be concerned with the determination of current and potential future demand for hotel accommodations in the market area; assessment of existing and potential future competitive supply; and the share of the market that could reasonably be attained by the proposed hotel. We would visit Tomah and Monroe County and meet with you, other local officials, and other interested parties to gather information about the community and the potential need for a hotel. We would tour the community and conduct research and analysis. Our approach to such a study would be as follows:

Site Analysis: The following attributes of the proposed sites will be evaluated: access, visibility, surrounding area, present use, relationship to demand generators, relationship to area amenities, and advantages/disadvantages of the site. Based on these factors and our findings, we would provide a recommendation on the most suitable site for hotel development.

Area Review: Based on economic data gathered during the fieldwork, it will be determined whether the market area appears to be economically viable to support hotel development. Economic data is assembled using local, city, and county websites, state agency websites, U.S. Census Bureau, U.S. Bureau of Labor Statistics, and other sources deemed relevant.

Primary Research: Primary research would consist of interviews with key demand generators and those persons knowledgeable with the local economic development situation and local hotel market. These interviews could be done in person or by telephone and include, but not be limited to: city officials in economic development and planning, Chamber of Commerce, Convention and Visitors Bureau representatives (or similar such tourism organization), competitive hotels including an inspection of the hotel properties, and potential demand generators.

During our fieldwork, we will discuss with you the potential demand generators (corporate, leisure, and group) that are located in Tomah and Monroe County. We would need to call on these demand generators and would ask for your assistance in this process. We have found that we have more success when we receive contact names and phone numbers from local officials and in many cases, an introduction will be made that our company would be calling on them. We usually ask to speak with the person within the organization that is making hotel reservations. The survey that we would conduct would be to garner information on that company's needs for hotel rooms, rates they are willing to pay, and the type of amenities and facilities they would like to see developed. This task is something that we could discuss further during our fieldwork. The information obtained through this telephone survey would be summarized and presented in our report.

Competitive Market - The present supply of lodging rooms in the market area, the potential additions to supply and the markets served or to be served by those properties will be reviewed. An inspection of the competitive properties will be conducted during our fieldwork. A competitive property profile and projections of growth in supply will be prepared. Through interviews, file data, and a STR* report, an estimate of market occupancy and average daily rate (ADR) will be provided.

Demand - We will determine the major segments of demand and discuss the growth in demand for each of those segments, based on historical data. Based on our research, we will estimate demand for hotel rooms over a five- to seven-year period.

Recommended Facilities: Recommendations for appropriate facilities will be provided for the proposed hotel, based on our market findings which will best meet demonstrated market

demand. These facilities could include: type of hotel (i.e. limited-service, extended-stay, all-suite), number and type of guest rooms, meeting rooms, and other amenities and facilities deemed appropriate such as food and beverage outlets and recreational features. We understand you have had discussions with one or more hotel companies and we can discuss these further during our fieldwork. If we believe there are additional hotel brands that could be considered for Tomah, we will discuss those with you and provide contact information and an introduction.

These recommendations could assist an architect and planner with the basis for a design program for the subject hotel and will provide the basis for our estimate of occupancy and average daily rate as discussed in the next paragraph.

Market Position of the Subject Property (Occupancy and Average Daily Rate): After completing the estimate of the future supply and demand for rooms in the market area, we will estimate the share of the market that the subject property should reasonably be expected to capture, by market segment, for the first five years of operation. Occupancy and average daily rate for the subject hotel for each of those five years will be estimated. This is intended to be representative of potential results that may be achieved assuming efficient and competent management and an effective marketing program. Our analysis will include an evaluation of the future market position of the subject hotel versus the existing competition.

Statement of Estimated Annual Operating Results: Using the market research as a basis, we would prepare a statement of estimated annual operating results that would include occupancy, average daily rate, sales and operating expenses for each of the first five years of operation. This statement would include all revenues and expenses and result in a "bottom line" of Income Before Rent, Depreciation, Interest and Taxes on Income. Since the estimated operating results would be based on estimates and assumptions that are subject to uncertainty and variation, we would not represent them as results that will actually be achieved. The report that includes the statement of estimated annual operating results could be used in obtaining mortgage financing, or in negotiating a lease, franchise or management agreement.

REPORT

The information will be presented in a report for your internal use and guidance to determine whether to proceed with development of this hotel. The report will also be appropriate to share with hotel companies, developers, management companies, and lenders/investors. The report will include a discussion of the market area, the site, the competitive hotel market, recommendations on the type of property best suited for the market, estimates of occupancy and average daily rate for the first five years of operation, and a statement of estimated annual operating results. Two copies of the report will be delivered to you at the completion of the assignment as well as an electronic version of the report. The following section headings will appear in the final report.

- Executive Summary
- Project Concept and Recommendations
- Site Location Analysis
- Market Area Overview
- Hotel Supply and Demand Analysis
- Market Position and Penetration of the Proposed Hotel
- Statement of Estimated Annual Operating Results

LIMITATIONS OF THE STUDY

The report will be subject to the following limitations.

1. The conclusions reached are based upon our present knowledge of the lodging market in the competitive area as of the completion of fieldwork.
2. As in all studies of this type, the estimated operating results are based upon competent and efficient management and assume no significant change in the competitive position of the lodging industry in the immediate area from that set forth in the study.
3. Estimated operating results are also based on an evaluation of the present general economy of the area and do not take into account, or make provision for the effect of any sharp rise or decline in local or general economic conditions which may occur.
4. The estimates of operating results, to the best of our knowledge and belief, reflect our best judgment, based on present circumstances of the expected conditions and the expected course of action for the operation of the hotel. There will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.
5. We do not warrant that our estimates will be attained; they will be developed based upon information obtained during the course of our market research and are intended to reflect the expectations of a typical hotel developer/investor as of the report date.
6. It is understood that the report will be prepared primarily for your internal use and guidance as well as that of developers, hotel companies, and lenders/investors. The report and material submitted may not be used in any prospectus or printed material used in connection with the sale of real estate, securities or participation interests to the public or through advertising, public relations, news, sales, or other media without our prior written consent.
7. The scope of the study would not include the possible impact of zoning or environmental regulations, licensing requirements or other such matters unless they have been brought to our attention and are disclosed in the report.

8. We have no obligation to update the findings regarding changes in market conditions that occur subsequent to the completion of fieldwork.
9. Any drafts or preliminary information communicated to you during the course of the assignment are for internal management use only, and may not be disclosed to any outside third parties without our prior written consent.
10. The Client (City of Tomah, Wisconsin) has disclosed to Patek Hospitality Consultants, Inc. (PHC) all relevant information, conditions, data, and other information that Client deems relevant to PHC's production of the Report. Unless specifically brought to the attention of PHC, PHC will assume that there are no hidden or unexpected conditions or information that would adversely or otherwise affect the study and analysis leading to the Report. PHC expresses no opinion and gives no advice concerning matters that require legal or specialized expertise, investigation or knowledge such as, without limitation, engineering, tax, accounting, zoning, signage, hazardous substance/waste, wetlands, franchise or other technical or developmental matters. Market studies involve the interpretation of evolving events and the research and review of highly confidential information, the accuracy of which cannot be assured. The risk of unknown or unanticipated events or conditions is an additional variable for which there is no remedy. Client understands these limitations and interprets all research, analysis, and projections accordingly.
11. Our liability with respect to this report is limited to the total fees as set forth herein. Our responsibility is limited to the Client and use of this report by third parties shall be solely at the risk of the Client and/or third parties.
12. Payment of our fees and expenses billed to the city to conduct this assignment are payable within 30 days. Fees and expenses are due and payable regardless of whether or not conclusions reached by PHC coincide with Client's expectations. Fees and expenses are in no way related to conclusions reached or projections provided by PHC.

FEES AND STUDY TIMETABLE

At the beginning of this study, we will plan to meet with you to discuss your plans for the proposed hotel and how to proceed with the project. We will keep you informed of the progress of our work by telephone. If at any time during the course of the study, we form an initial opinion that there is insufficient demand for the project, all work will be stopped at that point and the findings will be discussed with you. If you would like the assignment to be terminated at that time, you will be billed only for the time actually incurred to date at a fee not to exceed \$3,500.

Our fee for this project will be \$7,000 inclusive of out-of-pocket expenses such as travel, hotel, meals, telephone, postage, and report production. A Smith Travel Research (STR) historical trend report is an outside resource that we usually commission to supplement our research

and analysis regarding occupancy and average daily rate trends for hotels in a market area. The cost of this report is \$550 and if commissioned, will be billed to you in our final invoice and is **not** included in the fees stated above.

*STR is a research company based in Hendersonville, Tennessee that began collecting data in the 1980s and today over 68,000 hotels with 9.1 million rooms globally submit monthly data to the STR program. STR reports are specific to a market and we would include those hotels, which would be determined by the demand interviews, of where demand from Tomah is currently staying. The report would provide historical performance for a competitive set including occupancy, average daily rate, supply and demand changes, revenue, and weekday versus weekend demand. We believe this would be beneficial for this hotel project to have a better understanding of the competitive hotel market performance. The report presents the information as an aggregate and does not provide individual property data.

Our fees include meetings with city officials that are conducted during our fieldwork. Our fees **do not** include attending additional meetings requested such as city council, economic development, or similar such meetings to discuss/present our findings and recommendations. Should you require our attendance at such meetings, you would be billed for our time and travel at our regular per diem rate of \$125 per hour.

A retainer of \$3,500 is requested at the start of the assignment. The remaining fees and expenses will be billed at the completion of the assignment and will be payable within 30 days. A draft of the report will be sent to you for your review. If you do not respond to the draft report within 30 days, we may be required to update our findings at an additional fee.

Based on our present scheduling, we could begin the assignment within one to two weeks of receiving your signed proposal and requested retainer. We anticipate discussing our preliminary findings within two weeks from the start of the assignment with a draft report to follow within two to three weeks from our preliminary results, barring unforeseen circumstances. Upon receiving your approval of the draft report, an additional week would be required for printing the final report.

ACCEPTANCE

If this proposal, valid until April 30, 2021, is correct in stating the type of work you are requesting and if the arrangements are satisfactory, please sign a copy of this proposal and return it to us, together with the retainer, as our authorization to schedule the assignment. If you have any questions, please call us at (262) 538-0445. We appreciate the opportunity to submit this proposal and look forward to working with you.

Sincerely,

Patek Hospitality Consultants, Inc.

APPROVING THE TRANSFER OF TAX INCREMENTAL FINANCING DISTRICT (TIF OR TID) 9 AND 10, DONOR TIDS, TO TID 8, THE DONEE TID AND THEN TO THE CITY OF TOMAH'S GENERAL FUND, WATER, AND WASTEWATER (SEWER) FUNDS TO ASSIST WITH THE REPAYMENT OF THE CITY'S INTERNAL LOANS TO TID 8

WHEREAS, TIDs are created with the understanding that any and all outstanding debt will have a payment and interest charge established with the debt; and

WHEREAS, there is no exception to TID 8 regarding this requirement; and

WHEREAS, according to the Board of Commissioners of Public Lands on February 1, 2021 the interest rate for new loans was at "4.00%" for loans with a repayment of 11 – 20 years; and

WHEREAS, the priorities of TID 8, or any other TID is to (1) repay the principal and interest of any debt and (2) complete projects within the TID to ensure its economic survivability; and

WHEREAS, the City of Tomah provides these guidelines for TID repayments from any current or future created TIDs (1) repay the principal and interest of any non-city funded loans, (2) pay the interest for any City funded loans, (3) complete projects within the TID to ensure its economic survivability, and (4) repay any internal City loans principal with a priority to the General Fund, then any other funds with the lowest amount first; and

WHEREAS, the aforementioned interest payments shall be calculated on the December 31 balances of the previous year as determined by the City's appointed Auditor for apportionment in the City's appropriate funds where the internal loans originated from;

NOW THEREFORE, BE IT RESOLVED that the City of Tomah Council agrees and approves the transfer of funds as described herein as interest payments from TID 8 December 31, 2019 ending balance at an interest rate of 3.5% and directs City staff and Auditor to use these funds for in the following manner within the 2020 fiscal year:

- General Fund principal loan of \$45,145.00 @ 3.5% interest: \$ 1,580.08
- Water Services Fund principal loan of \$70,822 @ 3.5% interest: \$ 2,478.77
- Wastewater Fund principal loan of \$2,499,506 @ 3.5% interest: \$ 87,482.71

NOW THEREFORE, BE IT further RESOLVED in the event TID 8 is unable to make these payments, then the interest payments shall be added to the principal of each internal outstanding loan.

PASSED AND APPROVED by the City of Tomah Council, Monroe County, Wisconsin this 9th day of February, 2021.

RESOLUTION _____

APPROVING THE OPPORTUNITY FOR CITY EMPLOYEES TO RELINQUISH EARNED VACATION TIME UP TO ONE WORK WEEK OF 40 HOURS OR EQUIVALENT TO HALF A PAYROLL PERIOD FOR THEIR CURRENT COMPENSATION RATE FOR ALL EMPLOYEES DUE TO COVID-19 RESTRICTIONS AND INABILITY TO USE ALL OF THEIR TIME AS REQUIRED BY CURRENT POLICY

WHEREAS, 2020 was a unique and trying year with the outbreak of COVID-19; and

WHEREAS, many employees were unable to take their required amount of vacation due to the nature of public employees' and their designated "essential workers" to ensure the City continued to function; and

WHEREAS, some of those employees are at their capacity and due to scheduling conflicts may not be able to take the required time off prior to their current vacation time; and

WHEREAS, it is in the best interest to provide a one-time opportunity to relieve them of the stress with the possibility losing their earned vacation due to circumstances beyond their control, which also came at the City's benefit to ensure the City was able to provide the services needed by the City's residents as many were now at home for school and work; and

WHEREAS, when personal time off benefits are used by one employee, some departments have to ensure adequate coverage, thereby nearly 80% of those covering staff members are being compensated at overtime rates;

NOW THEREFORE, BE IT RESOLVED that the City of Tomah Council agrees and approves the one-time benefit for all permanent full-time employees to relinquish up to one-week of vacation time at their regular rate of compensation, which must be completed no later than April 1, 2020.

PASSED AND APPROVED by the City of Tomah Council, Monroe County, Wisconsin this 9th day of February, 2021.

RESOLUTION _____

DIRECTING THE CREATION OF AN ORDINANCE REGARDING SCHOOL CROSSING GUARDS AND DESIGNATING THE AUTHORITY AND REQUIREMENT FOR THE TOMAH AREA SCHOOL DISTRICT TO APPOINT, HANDLE ALL PERSONNEL MATTERS, AND PROVIDE PAYROLL AT THE DISTRICT’S EXPENSE FOR ADULT CROSSING GUARDS

WHEREAS, the City has handled adult Crossing Guards for over three decades without compensation or reimbursement from the Tomah Area School District; and

WHEREAS, it does not make fiscal sense, nor should it be a responsibility of one taxing entity for the benefit of a larger taxing entity, to continue the expense of adult Crossing Guards for the Tomah Area School District’s students, parents, staff, and tax payers; and

WHEREAS, currently when the City does not have enough Crossing Guards, at least one of the on-duty Police Officers must perform this function, which prevents them from enforcing traffic safety laws in the immediate area and delay their emergency response time; and

WHEREAS, Tomah Area School District has multiple staff members that are compensated at a lower rate than a Police Officer, are on site, do not have the emergency response criterium, knows the parents and students better than officers; and

WHEREAS, the aforementioned School District staff members include teachers, teacher’s aides, maintenance, kitchen, and administrative assistants that are on-site and available to fill in when needed immediately; and

WHEREAS, according to Wisconsin State Statute 349.215 the City has the authority to appoint adult school crossing guards; and

WHEREAS, further, Wisconsin State Statute 120.13 stipulates the School board powers stating the school board, “may do all things reasonable to promote the cause of education, including establishing, providing and improving school district programs, functions and activities for the benefit of pupils...”; and

WHEREAS, specifically in 120.13 section (31) grants the school district the authority to appoint adult Crossing Guards if the local communities adopt a resolution providing them direction to do so;

NOW THEREFORE, BE IT RESOLVED that the City of Tomah Council agrees and directs staff to:

- (1) Draft an ordinance according to the aforementioned Wisconsin State Statute 349.215; and
- (2) Discuss this with appropriate Tomah Area School District and the School Board to gather their thought process dealing with Crossing Guards; and
- (3) Work with and in cooperation of the Tomah Area School District to see if a better partnership can be reached.

PASSED AND APPROVED by the City of Tomah Council, Monroe County, Wisconsin this 9th day of February, 2021.

Resolution No:

FLEXIBLE BENEFITS PLAN CONSOLIDATED APPROPRIATIONS ACT (CAA) AMENDMENT

**ARTICLE I
PREAMBLE**

- 1.1 **Adoption and effective date of amendment.** The Employer adopts this Amendment to The City of Tomah Flexible Benefits Plan (the “Plan”). The sponsor intends this Amendment as good faith compliance with the requirements of these provisions. This Amendment shall be effective on or after the date the Employer elects in Section 2.1 below.
- 1.2 **Supersession of inconsistent provisions.** This Amendment shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this Amendment.
- 1.3 **Construction.** Except as otherwise provided in this Amendment, any reference to "Section" in this Amendment refers only to sections within this Amendment and is not a reference to the Plan. The Article and Section numbering in this Amendment is solely for purposes of this Amendment, and does not relate to any Plan article, section, or other numbering designations.

**ARTICLE II
ELECTIONS**

- 2.1 **Effective Date.** The provisions of this Amendment, unless otherwise indicated are effective as of January 1st, 2021 (the “Effective date”).
- 2.2 **H.R. 133 Consolidated Appropriations Act Amendment(s).** The Employer hereby amends the Plan as follows:

Carry Forward Rule for Dependents who Aged Out During Pandemic

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19).

Effective as of the effective date, the Employer amends their plan to allow for reimbursement out of Dependent Care Flexible Spending Arrangements for dependents up to a maximum age of 13 (increased from 12) for any dependent who attained age 13 during the last plan year where the participant enrolled during regular open enrollment in a Daycare Flexible Spending Arrangement by January 31, 2020. And for any remaining funds carried forward into the subsequent plan year.

1) In general-In the case of any eligible employee, section 21(b)(1)(A) of the Internal Revenue Code of 1986 shall be applied by substituting “age 14” for “age 13” for purposes of determining the dependent care assistance which may be paid or reimbursed with respect to such employee under the dependent care flexible spending arrangement referred to in paragraph (3)(A) with respect to such employee during—

- (A) the plan year described in paragraph (3)(A), and
- (B) in the case of an employee described in paragraph (3)(B)(ii), the subsequent plan year.

(2) Application of subsequent plan year limited to unused balance from preceding plan year. Paragraph (1)(B) shall only apply to so much of the amounts paid for dependent care assistance with respect to the dependents referred to in paragraph (3)(B) as does not exceed the unused balance described in paragraph (3)(B)(ii).

(3) Eligible Employee. For purposes of this section, the term “eligible employee” means any employee who—

(A) is enrolled in a dependent care flexible spending arrangement for the last plan year with respect to which the end of the regular enrollment period for such plan year was on or before January 31, 2020, and

(B) has one or more dependents (as defined in section 152(a)(1) of the Internal Revenue Code of 1986) who attain the age of 13—

(i) during such plan year, or

(ii) in the case of an employee who (after the application of this section) has an unused balance in the employee’s account under such arrangement for such plan year (determined as of the close of the last day on which, under the terms of the plan, claims for reimbursement may be made with respect to such plan year), the subsequent plan year.

Carryover of Unused Funds in Health and Dependent Care Flexible Spending Arrangements for 2020 and 2021 Plan Years.

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19).

Effective as of the effective date, the Employer amends their plan to allow the carryover of unused funds from plan year 2020 to plan year 2021 and unused funds from plan year 2021 to plan year 2022.

For plan years ending in 2020 and 2021, a plan that includes a health flexible spending arrangement or dependent care flexible spending arrangement shall not fail to be treated as a cafeteria plan under the Internal Revenue Code of 1986 merely because such plan or arrangement permits participants to carryover (similar to the rules applicable to health flexible spending arrangements) any unused benefits or contributions remaining in any such flexible spending arrangement from such plan years to the plan year ending in 2021 and 2022.

These changes permit participants to carryover any unused benefits or contributions remaining in their 2020 and 2021 flexible spending arrangement from such plan year to the subsequent plan year.

The carryover guidance is an extension of coverage that is not HSA compatible, consequently any employee with unused amounts remaining at the end of a plan year or grace period ending in 2020 or 2021 will not be eligible to contribute to an HSA during the extend period (unless the FSA is a limited FSA).

Section 125 Change in Status under the Health or Dependent Care FSA

Effective as of the effective date, the Employer amends their plan to allow for the below change in status flexibility. This is a temporary change effective only for the plan year ending in 2021.

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19). These changes permit, under certain circumstances, prospective changes to health and dependent care FSA elections as follows:

- a) employees may revoke a health FSA election, make a new election, or decrease or increase an existing election on a prospective basis; and
- b) employees may revoke a dependent care FSA election, make a new election, or decrease or increase an existing election on a prospective basis.

Employers are not required to allow unlimited election changes but may determine the extent to which such changes are permitted and applied. Any change allowed shall not permit a revocation or decrease in election below the amount already disbursed.

This amendment has been executed this _____ 9th _____ day of _____ February _____, 2021 _____.

**SUMMARY OF MATERIAL MODIFICATIONS
for the**

Employer Name
Flexible Benefits Plan

**I
INTRODUCTION**

This is a Summary of Material Modifications regarding the **Employer Name** Flexible Benefits Plan (the “Plan”). This is merely a summary of the most important changes to the Plan and information contained in the Summary Plan Description (“SPD”) previously provided to you. It supplements and amends that SPD so you should retain a copy of this document with your copy of the SPD. If you have any questions, contact the Administrator. If there is any discrepancy between the terms of the Plan, as modified, and this Summary of Material Modifications, the provisions of the Plan will control.

**II
SUMMARY OF CHANGES**

H.R. 133 Consolidated Appropriations Act Amendment(s). The Employer hereby amends the Plan as follows:

Carry Forward Rule for Dependents who Aged Out During Pandemic

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19).

Effective as of the effective date, the Employer amends their plan to allow for reimbursement out of Dependent Care Flexible Spending Arrangements for dependents up to a maximum age of 13 (increased from 12) for any dependent who attained age 13 during the last plan year where the participant enrolled during regular open enrollment in a Daycare Flexible Spending Arrangement by January 31, 2020. And for any remaining funds carried forward into the subsequent plan year.

1) In general-In the case of any eligible employee, section 21(b)(1)(A) of the Internal Revenue Code of 1986 shall be applied by substituting “age 14” for “age 13” for purposes of determining the dependent care assistance which may be paid or reimbursed with respect to such employee under the dependent care flexible spending arrangement referred to in paragraph (3)(A) with respect to such employee during—

- (A) the plan year described in paragraph (3)(A), and
- (B) in the case of an employee described in paragraph (3)(B)(ii), the subsequent plan year.

(2) Application of subsequent plan year limited to unused balance from preceding plan year. Paragraph (1)(B) shall only apply to so much of the amounts paid for dependent care assistance with respect to the dependents referred to in paragraph (3)(B) as does not exceed the unused balance described in paragraph (3)(B)(ii).

(3) Eligible Employee. For purposes of this section, the term “eligible employee” means any employee who—

(A) is enrolled in a dependent care flexible spending arrangement for the last plan year with respect to which the end of the regular enrollment period for such plan year was on or before January 31, 2020, and

(B) has one or more dependents (as defined in section 152(a)(1) of the Internal Revenue Code of 1986) who attain the age of 13—

- (i) during such plan year, or
- (ii) in the case of an employee who (after the application of this section) has an unused balance in the employee’s account under such arrangement for such plan year (determined as of the close of the last day on which, under the terms of the plan, claims for reimbursement may be made with respect to such plan year), the subsequent plan year.

Carryover of Unused Funds in Health and Dependent Care Flexible Spending Arrangements for 2020 and 2021 Plan Years.

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19).

Effective as of the effective date, the Employer amends their plan to allow the carryover of unused funds from plan year 2020 to plan year 2021 and unused funds from plan year 2021 to plan year 2022.

For plan years ending in 2020 and 2021, a plan that includes a health flexible spending arrangement or dependent care flexible spending arrangement shall not fail to be treated as a cafeteria plan under the Internal Revenue Code of 1986 merely because such plan or arrangement permits participants to carryover (similar to the rules applicable to health flexible spending arrangements) any unused benefits or contributions remaining in any such flexible spending arrangement from such plan years to the plan year ending in 2021 and 2022.

These changes permit participants to carryover any unused benefits or contributions remaining in their 2020 and 2021 flexible spending arrangement from such plan year to the subsequent plan year.

The carryover guidance is an extension of coverage that is not HSA compatible, consequently any employee with unused amounts remaining at the end of a plan year or grace period ending in 2020 or 2021 will not be eligible to contribute to an HSA during the extend period (unless the FSA is a limited FSA).

Section 125 Change in Status under the Health or Dependent Care FSA

Effective as of the effective date, the Employer amends their plan to allow for the below change in status flexibility. This is a temporary change effective only for the plan year ending in 2021.

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19). These changes permit, under certain circumstances, prospective changes to health and dependent care FSA elections as follows:

- a) employees may revoke a health FSA election, make a new election, or decrease or increase an existing election on a prospective basis; and
- b) employees may revoke a dependent care FSA election, make a new election, or decrease or increase an existing election on a prospective basis.

Employers are not required to allow unlimited election changes but may determine the extent to which such changes are permitted and applied. Any change allowed shall not permit a revocation or decrease in election below the amount already disbursed.

STAFF COMMITTEE PREPARATION REPORT

Agenda Item:

Resolution Regarding Flexible Plan Health or Dependent Care Change in Status Amendment

Summary and Background Information:

(Appropriate Documentation Attached)

On December 27, 2020, H.R. 133 Consolidated Appropriations Act was signed into law, impacting section 125 cafeteria plans. This guidance is designed to provide temporary flexibility for employers and employees and assist with the National response to the 2019 Novel Coronavirus outbreak (COVID-19)

This resolution is required in order to change the City’s plan to allow for the changes to be adopted.

Fiscal Note:

This resolution allows the employee to:

- Effective as of the effective date, the Employer amends their plan to allow for reimbursement out of Dependent Care Flexible Spending Arrangements for dependents up to a maximum age of 13 (increased from 12) for any dependent who attained age 13 during the last plan year where the participant enrolled during regular open enrollment in a Daycare Flexible Spending Arrangement by January 31, 2020. And for any remaining funds carried forward into the subsequent plan year.
- These changes permit participants to carryover any unused benefits or contributions remaining in their 2020 and 2021 flexible spending arrangement from such plan year to the subsequent plan year.
- The City can allow employees to stop, make changes, or increase elections throughout the year on a case-by-case basis.

Recommendation:

It is requested that the Committee of the Whole recommend the Common Council approve the Resolution regarding flexible plan health or dependent care change in status amendment effective as of January 1, 2021.

NUTRITIONAL SITE AGREEMENT BETWEEN
AGING & DISABILITY RESOURCE CENTER OF MONROE COUNTY
AND
CITY OF TOMAH

The City of Tomah (Kupper-Ratsch Senior Center (KUPPER-RATSCH SENIOR CENTER), grants a license to the Aging & Disability Resource Center of Monroe County (ADRC of Monroe County) to use its facilities at the Kupper-Ratsch Senior Center, 1002 Superior Avenue, Tomah, Wisconsin, for purposes of providing meals for its Elderly Nutrition Program.

The license agreement is as follows:

1. Effective January 1, 2021, the ADRC of Monroe County agrees to pay the sum of two hundred (200) dollars per month for the license granted under this agreement. The fee is to be paid by the first of each month, or quarterly or semi-annually, as the parties mutually agree.

Commencing January 1, 2021 and each January 1st thereafter (unless this agreement is terminated earlier as set forth herein), the monthly fee amount may be subject to increase upon written notice to the ADRC of Monroe County by the City of Tomah. Given budgetary timetables, any such notice shall be provided no later than July 1st of the year immediately preceding the effective date of any such proposed modification.

This agreement may be terminated by either party by giving the other party thirty (30) days written notice. The license may not be assigned by the Aging & Disability Resource Center of Monroe County.

2. The ADRC of Monroe County shall have use of the KUPPER-RATSCH SENIOR CENTER 's kitchen area, dining area, storage room and restroom facilities between the hours of 8:00 a.m. and 1:30 p.m., Monday through Friday except on New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, Christmas Eve and Christmas Day.
3. The ADRC of Monroe County shall clean the licensed areas each day of use. Provided, however, the City of Tomah shall be responsible for carpet cleaning.
4. The ADRC of Monroe County shall be able to store equipment used by the Elderly Nutrition Program at KUPPER-RATSCH SENIOR CENTER A. The parties acknowledge that the equipment listed in the inventory remains the property of the ADRC of Monroe County. KUPPER-RATSCH SENIOR CENTER is granted use of the equipment by the ADRC of Monroe County.

5. The ADRC of Monroe County is granted permission to have installed and operate such telephone service as their operation may require.
6. The ADRC of Monroe County shall not be permitted to make any alterations or modifications to the premises or install any additional fixtures, floor coverings or equipment with the exception of movable furnishings without the prior consent of the City of Tomah.
7. Federal laws and regulations pertaining to nondiscrimination in the provisions of services and in employment practices will be observed by both parties. To that end, no person shall, on the grounds of race, creed, color, sex, national origin or physical condition or handicap be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under this license and program or any of its activities carried out by the parties.
8. KUPPER-RATSCH SENIOR CENTER and the ADRC of Monroe County , at all times during the term of this agreement, shall keep in force comprehensive general liability insurance policies issued by a company authorized to do business in Wisconsin and licensed by the Office of the Commissioner of Insurance. The parties shall furnish certificates of insurance to the each other evidencing the risks insured against and the limits of liability there under.
9. Upon termination of this agreement, all alterations and improvements including installed equipment, made or installed by the ADRC of Monroe County shall be removed by the ADRC of Monroe County. The premises shall then be restored to their original condition, ordinary wear and tear accepted. The parties, may, however, mutually agree otherwise.
10. All improvements made to the premises, by remodeling or otherwise, shall become the property of KUPPER-RATSCH SENIOR CENTER at the expiration of the license without reimbursement to the ADRC of Monroe County. This shall not include the equipment inventory which shall remain the property of the ADRC of Monroe County. The ADRC of Monroe County shall, at its own expense, furnish and install any and all plumbing which may be required for its operation and such plumbing fixtures shall become a part of the real estate and shall be the property of KUPPER-RATSCH SENIOR CENTER at the termination of this license.

- 11. KUPPER-RATSCH SENIOR CENTER shall not be under any liability or responsibility for the safeguarding of the ADRC of Monroe County’s fixtures, or other property in or about said premises at the termination of this license.
- 12. The ADRC of Monroe County shall not be liable for any damage or injury resulting from the carelessness, negligence or improper conduct on the part of KUPPER-RATSCH SENIOR CENTER or the KUPPER-RATSCH SENIOR CENTER’s agents or employees. In the event of such damage or injury, KUPPER-RATSCH SENIOR CENTER agrees to indemnify and hold the ADRC of Monroe County harmless for any claims which may be brought, including any attorney’s fees the ADRC of Monroe County may incur.
- 13. KUPPER-RATSCH SENIOR CENTER shall not be liable for any damage or injury resulting from the carelessness, negligence or improper conduct on the part of the ADRC of Monroe County or the ADRC of Monroe County’s agents or employees. In the event of such damage or injury, the ADRC of Monroe County agrees to indemnify and hold KUPPER-RATSCH SENIOR CENTER harmless for any claims which may be brought, including any attorney’s fees KUPPER-RATSCH SENIOR CENTER may incur.
- 14. KUPPER-RATSCH SENIOR CENTER agrees to pay all charges for gas, electricity, or other illumination and for all water used on said premises. KUPPER-RATSCH SENIOR CENTER shall also provide air conditioning to the premises and garbage and waste removal service. The ADRC of Monroe County, however shall comply with KUPPER-RATSCH SENIOR CENTER’s regulations for placement of garbage and waste.
- 15. The ADRC of Monroe County and the KUPPER-RATSCH SENIOR CENTER mutually agree to work cooperatively to resolve any problems that may occur.

The undersigned do attest to these assurances.

Tina Osterberg,
Administrator, Monroe County, Wisconsin

STAFF COMMITTEE PREPARATION REPORT

Agenda Item: Request for Approval to purchase materials to repair Buckley Park Scout Cabin

Summary and Background Information:

(appropriate documentation attached)-

Director Protz is requesting to use funds to purchase materials for the repair of the Buckley Park Scout Cabin.

- T2 Construction has committed to donate labor to remove and replace the roof structure and repair the sidewall.
- Wire Pro has committed to donate labor for the electrical work.
- John Shuck Plumbing and Repair has committed to donate labor and some material for any plumbing needs.
- Public Works has committed to assist with any excavating needed around the building.
- Parks Dept. and local Scout groups will do community projects to approve the aesthetic look (painting, detailing, etc.)

Recommendation:

The Parks and Recreation Commission has recommended to the City Council to repair the roof structure and improvements to the Scout Cabin. The Commission recommended not to exceed the \$100,000.00 that was designated in the 2020 Budget under TIF #8.

Fiscal Note:

\$100,000 was carried forward to the 2021 Budget under TIF #8 fund 14-57620-8200 Buildings. Up to this point funds for the designs and engineering/architectural fees have been paid from the Scout Donation account. Director Protz is requesting to use funds to repair the Cabin to make it structurally safe. Current estimate for materials comes in at \$45,637.43.
