- B. 26-088 Contract with Pier Waterfront Solutions LLC for Paddlers Park Boat Launch in the Amount Not-to-Exceed \$27,373.60**

Summary: The City of Two Rivers is moving forward with updates to Paddlers Park, a \$60,000 project funded through a \$30,000 Wisconsin Coastal Management grant and \$30,000 in City capital funding that remains from FY25.

Proposed improvements include a new sidewalk along the shore, a concrete walkway, kayak launch, a new concrete mattress boat launch, updated site signage, and new picnic tables.

Two sealed bids were received on April 27, 2026, with the most qualified bid from Pier Waterfront Solutions of Sturgeon Bay. The \$27,373.60 bid from Pier Waterfront Solutions for the boat launch work is within the project budget and helps advance continued investment in public access, recreation, and our waterfront.

This proposed project supports the City’s strategic goal of enhancing quality of life and creating attractive, family-friendly amenities that help draw and retain young families while strengthening Two Rivers as a vibrant place to live, work, and play.

Recommended Action:

Motion to approve and authorize City Staff to sign the contract on behalf of the City

Motion carried with a roll call vote

Motion made by Derby seconded by Bittner
Voting Yea: Bittner, Brandt, Dahlke, Derby, B. LeClair, D. LeClair, Petri, Stechmesser, Wachowski

C. 26-089 Award Contract 3-2026, Sanitary Sewer CIPP (Cured-in-Place Pipe) Lining, to the Low, Responsive Bidder Visu-Sewer LLC, for an Amount Not to Exceed \$759,000

Summary: Cured-in-place pipe lining is a cost effective alternative to extend the life of our sanitary sewer system. The more costly alternative is to dig up the road and replace the aging infrastructure with new pipe, a common practice in reconstruction projects. The liner is inverted into the existing sanitary sewer pipe covering imperfections, cracks, open joints, delamination of pipe materials. Once cured, the liner is similar in nature to a PVC pipe inside the original host pipe and has the potential to extend the functional life of that sewer main by another 50 to 75 years.

Visu-Sewer is presently completing the City's 2025 CIPP Contract and DPW has had no outstanding issues with them.

Recommended Action:

Motion to award the contract to Visu-Sewer LLC of Pewaukee, based on its lowest qualified bid, for an amount not to exceed \$759,000

Motion carried with a voice vote

Motion made by Petri seconded by Dahlke
Voting Yea: Bittner, Brandt, Dahlke, Derby, B. LeClair, D. LeClair, Petri, Stechmesser, Wachowski

12. CITY COUNCIL - DISCUSSION ITEMS

A. Discussion of Neshotah Pavilion Improvement

Summary: City staff learned last week that the State of Wisconsin declined the City’s \$255,000 grant request for this project, representing approximately 50% of total project costs. From the outset, the project was contingent on at least 50% funding from outside sources, including State grants and Room Tax contributions from tourists, to limit the impact on City taxpayers.

With that threshold no longer achievable this year, staff is recommending suspension of larger renovation project and instead pursuing minimum Code-compliant upgrades to maintain safe, functional operations.

This item is presented for Council discussion and direction on next steps, including future funding opportunities and potential project scope.

Recommended Action:

This item is for information and discussion only

The City Council discussed the next steps of the project. They expressed not wanting to fix it twice by doing the bare minimum. They decided to not continue with the project and wait until additional funding is available and reapply for the grant in 2027.

13. CITY MANAGER’S REPORT

- US Army Corp of Engineers surveyed the harbor on April 22nd. The harbor got worse since the last survey. They are predicting 30,000 cubic yards need to be dredged out.

3. **AMEND ROOM TAX ORDINANCE TO INCLUDE RV OVERNIGHT STAYS** See attached revised room tax ordinance for updates to this ordinance that was submitted to Two Rivers City Council for review and approval. Updates to the ordinance are in red.
A Motion to adopt the ordnance changes was made by Bill LeClair and seconded by Mark Bittner. Discussion. Jo Metzen provided projections that indicated this may result in a 10% increase in the total room tax revenue for 2026. Kyle Kordell indicated he had met with two of the three RV site providers in the city. Responses from the RV park owners to the ordinance change were positive. Curt Andrews called for a roll call vote. Voting Yay: Bittner, LeClair, Carey, Kordell and Andrews. Voting Nay: none
4. **COMMUNITY INPUT** None
5. **ADJOURNMENT** Meeting adjourned at 4:45pm

Wisconsin's Room Tax Commission Charter (under Wis. Stats. 66.0615 and Chapter 66.0615, Wisconsin.Gov Home, Wisconsin Legislature) establishes local bodies to manage hotel room taxes, primarily for funding tourism promotion and development, requiring at least 70% of revenue for these efforts, with commissions created by joint agreements for multi-municipality "Tourism Zones" or by single municipalities, governed by appointed members and overseen by the WI Dept of Revenue for reporting compliance.

In accordance with the requirements of Title II of the Americans with Disabilities Act (ADA), the City of Two Rivers will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities. If you need assistance or reasonable accommodations in participating in this meeting or event due to a disability as defined under the ADA, please call the City Clerk's office at 920-793-5526 or email clerk@two-rivers.org at least 48 hours prior to the scheduled meeting or event to request an accommodation. For additional assistance, individuals with hearing or speech disabilities can call 711 and be connected to a telephone relay system.

It is possible that members of and possibly a quorum of governmental bodies of the municipality may be in attendance at the above stated meeting to gather information; no other action will be taken by any governmental body at the above-stated meeting other than the governmental body specifically referred to above in this notice.

Council Chambers - City Hall, 3rd Floor
1717 E. Park Street, Two Rivers, WI 54241

MINUTES

1. **CALL TO ORDER:** 6:00 pm by Shannon Derby

2. **ROLL CALL AND CHECK ON REMOTE PARTICIPANTS**

Board Members: Douglas Brandt, Shannon Derby, Donald DeBruyn, Tracey Koach, Corinne Weis

Staff and Others: Matthew Heckenlaible, Mike Mathis, Darla LeClair

Newly appointed members: Laura Prellwitz and DeeAnna Laine

Introductions were made by all individuals present.

3. **REVIEW AND APPROVAL OF MINUTES**

Minutes from the January 20, 2026, Environmental Advisory Board meeting

Corinne Weis made a motion to accept the January 20, 2026, Environmental Advisory Board Meeting minutes, seconded by Donal DeBruyn. Motion carried.

4. **PUBLIC INPUT – N/A**

5. **NEW ITEMS FOR DISCUSSION AND ACTION, AS NEEDED**

A. Community Shoreline Clean Up Project

This event is being planned for April 25th with a rain date of May 2nd.

People, Earth, Water (PEW) will assist with the shoreline clean-up from the water side utilizing kayaks and canoes. Team leads were identified for the three (3) targeted locations as follows: Veterans Boat Launch – Kyle Kordell, Paddlers Park – Laura Prellwitz, and Washington Park – DeeAnna Laine.

0. **ONGOING ITEMS FOR DISCUSSION AND ACTION, AS NEEDED**

A. EAB Educational Series Update

Shannon provided an overview of the 2025-26 winter education series and we will look at starting the planning for the 2026-27 series in May. It was noted that the EAB Webpage still has the 2024-25 education series schedule listed. We should also look at posting the schedule on the “Explore Two Rivers” calendar to draw more attention to boost participation in these events.

7. EAB OUTREACH

A. EAB Community Flyer and Handout

Consider utilizing Cool City Connect in the future to help promote upcoming events and activities and increase community awareness and participation.

B. Educational Opportunities

1. "Did you know..." informational blurbs were suggested as a good addition to the Cool City Connect communications.
2. Shannon will contact high school science teachers to explore student participation opportunities with the EAB committee and volunteer activities at events.
3. Discussion occurred regarding ways to increase community involvement and public exposure, including:
 - a. Participating in community events like National Night Out
 - b. Utilizing the "I Love TR" Facebook page for outreach and promotion

8. PARK AND REC UPDATES AND ACTION, AS NEEDED

***** Mike Mathis provided a PowerPoint presentation regarding the following agenda items; see attached. *****

- A. Forestry Update
- B. Rec Updates
- C. Environmental Project Updates
- D. Bird City USA

9. OTHER ITEMS THAT MAY COME BEFORE THE BOARD, WITH CONSIDERATION AND ACTION, IF NEEDED – N/A

10. SET DATE, TIME AND LOCATION FOR NEXT BOARD MEETING

General Forestry Updates

- The City will continue covering the cost of sidewalks pushed up by City terrace trees
- 45 dead, dying, or storm damaged trees removed in 2026
 - Stump grinding will primarily take place in fall
- Priority Removal Areas
 - New Cemetery
 - Old Cemetery
 - Lakeshore Park
 - Neshotah Park
- Kevin Drossart working towards Certified Arborist designation
- Youth Apprentice, Tahlia Seefeldt, currently grant funded through summer in partnership with Grace Congregational Church
- Tree Planting
 - 40, 2" caliper trees arriving next week for the Cemetery & Neshotah
 - 50, 2'-3' whips being delivered for gravel bed nursery
 - High School students are building the gravel bed

DNR Non-Point Source & Storm Water Grant Resolution for Application

- Project will execute storm water management solutions along Mariners Trail
- Resolution does not commit us to accepting the grant
- 50% cost share with a total possible project cost of \$150,000
- Local match funding will be secured through additional grants, donations, in-kind match, and/or 2027 capital borrowing
- City Council must approve any city contributions as a part of the 2027 budget

Perpetual Care Flowers

- Traditional geraniums have been ordered and will be planted this year as always.
- The Lakeshore Community Foundation will be visiting with City Council on April 27th to learn more about the possibility of creating an investment fund for the program.
- P&R is planning to start a trial of perennial plants that may be used to gradually phase out annual plants over a few years.

Each plot is approximately 18" x 12".

Plants are installed in clearly defined small plots so performance, appearance, and maintenance can be easily monitored.

PILOT PLANTING
Native Perennials
Perpetual Care Trial

One or two plants per plot keeps plantings neat, reduces weed growth, and makes upkeep efficient.

Perpetual Care Flowers Trial – Layout Detail

Native Perennial Plantings in Open Turf Areas

Pilot plots will be installed in a grid layout with one or two native perennial plants per 18" x 12" space to evaluate plant performance, maintenance needs, and community response.

Cemetery Perpetual Care Flowers Trial

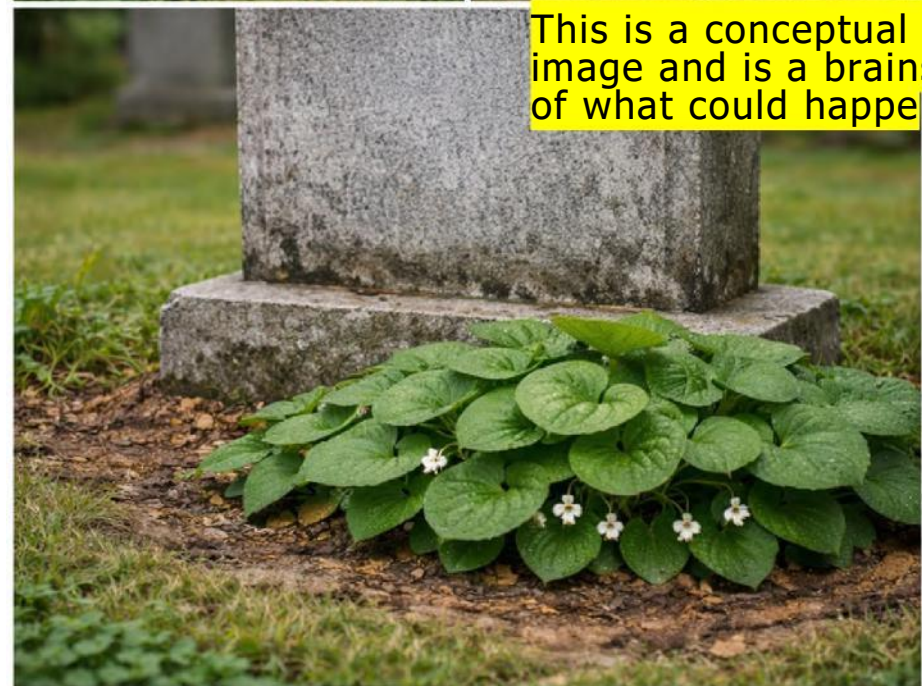

- **Pilot Locations Identified** – Install native perennial plantings on graves of interested families and in select “side”/common areas to test appropriate placement and design.
- **Species Selection & Installation** – Utilize low-maintenance, regionally appropriate native perennials selected for durability, appearance, and compatibility with cemetery conditions.
- **Monitoring & Evaluation** – Track plant health, maintenance time, costs, and public feedback throughout the growing season to evaluate performance.
- **Report Back & Next Steps** – Provide a summary to the Advisory Recreation Board and City Council with recommendations for expansion, modification, or continuation of the program.

Flower Examples

- The full list of possible plants has over 40 species with a range of condition tolerance.
- Wild Geranium (Geranium maculatum) Ht: 1-2' Spread 1' Part-full shade Clumping shape Color: purple-pink Blooms: May-June
- Wild Stonecrop (Sedum ternatum) Ht: 6" - 1' Spread: 1' Part-shade Spreading ground cover Color: white Blooms: May-June
- Wild Ginger (Asarum canadense) Ht: 6-12", Part-shade, low spreading, Color: green with small white flowers Blooms: April - May

Section 9, Item B.

This is a conceptual AI image and is a brainstorm of what could happen.

Flower Math

- Perennial Wild Geranium – Plant once with life span of ~10 years
 - \$5.50 per plant X 2000 planting sites = \$11,000
 - No watering required
- Annual Geranium – Planted annually
 - \$3.00 per plant X 10 years X 1000 planting sites = \$60,000
 - Watering required to keep in good condition
- Annual Labor Costs
 - We will have an accurate cost of labor in spring 2026. The labor for planting annuals will likely transition to some maintenance of watering and trimming plants in fall. There is a potential for cost savings on the maintenance.

Cemetery Initiative

P&R is considering leading long-term land-use planning for the cemetery that will reduce operating costs, increase community benefit, support sustainability, and preserve heritage.

Ideas

- Reduce turf grass areas with a variety of well maintained and curated native zones
- Plant groves of trees
- Reconfigure paths and drives
- Walking path
- Promote quiet recreation such as walking, birding, dog walking
- Open new section for burials

RETHINKING LAWNS

Testing Options for Alternatives to the Standard Mowed Grass

Adding up the mowing, watering & weeding lawn takes, it's a lot for people & the environment. Lawns are the largest irrigated crop in America at 63,000 square miles. This experiment is testing out some options for imagining what lawns could become.

Low-Growing Fescue Grass

Fine fescue grass may not be native, but it looks "normal" In theory, it grows slower & shorter, meaning less mowing.

Non-Native Plants

Less Mowing

White Clover Mixes

Of our region's weeds, white clover is considered a happy medium between something people AND bees can like. Clover also helps soil by pulling nutrients into the soil.

Non-Native Plants

Pollinator Friendly

Native Lawn

Our sedge lawn mix combines three species native to our region. In theory, they have deeper roots, need less water, and supports native species.

Native Plants

Less Mowing

Native Mini Meadow

Our custom mix of native grasses & wildflowers that our local pollinators love. Plants were selected because they tend to be short, almost like a tall lawn.

Native Plants

Less Mowing

Pollinator Friendly

Short Prairie

We know prairie is great for pollinators and soils. The problem is people don't want tall plants for their yards! We have prairie here to compare with our other plots.

Native Plants

Less Mowing

Pollinator Friendly

Long-Term Cemetery Planning

Land-use Planning outcomes include:

- **Reduced long-term maintenance costs and labor** by replacing high-maintenance turf and annual flower plantings with durable, well-designed perennial and native plantings. This includes transitioning away from the City's annual geranium program, which requires yearly purchasing and labor.
- **A well-maintained, park-like setting for quiet recreation**, including walking, reflection, and passive use, particularly for nearby residents and seniors. Design will prioritize a clean, intentional appearance that fits community expectations.
- **Clearly defined and managed planting areas** that prevent the appearance of overgrowth or neglect. Conservation zones will be thoughtfully designed with buffers, edges, and sightlines to ensure the space looks cared for and orderly.
- **Strategic buffers to reduce nuisance concerns**, using plant design and layout to discourage unwanted wildlife near homes and active areas while directing habitat benefits to appropriate parts of the site.
- **Preservation of cemetery traditions and respect for loved ones**, ensuring that all improvements maintain the dignity, accessibility, and cultural expectations of a municipal cemetery.
- **Improved drainage and reduced wet or unusable areas**, making the property easier to maintain and more accessible for visitors.
- **Long-term sustainability of the cemetery system**, ensuring the City can continue to provide high-quality care while adapting to changing needs, including reduced burial demand and increasing maintenance costs.

Paddlers Park – Work starting in April

Section 9, Item B.

Bird City USA

The Benefits of Birding

- **Significant Economic Driver** – Birding contributes millions annually to Wisconsin’s economy through spending on lodging, dining, gear, and local services, especially in coastal and rural communities.
- **Extends Tourism Seasons** – Spring and fall migrations draw visitors during shoulder seasons, helping stabilize revenue beyond peak summer months.
- **Attracts High-Value Visitors** – Birders tend to stay longer, travel farther, and spend more per trip compared to average tourists.
- **Supports Local Businesses & Jobs** – Outfitters, guides, festivals, lodging providers, and nature centers all benefit from birding-related visitation.
- **Strengthens Conservation Investment** – Birding tourism creates demand for habitat protection and trail access, supporting funding for parks, wildlife areas, and Great Lakes coastal restoration.

Recreation Economy for Rural Communities

- <https://www.epa.gov/smartgrowth/recreation-economy-rural-communities>
- Save the date, Sept. 1st & 2nd

The Recreation Economy for Rural Communities planning assistance program helps communities identify strategies to grow their outdoor recreation economy and revitalize their main streets.

Outdoor activities are increasingly popular across the United States, and many communities are seeking to grow their outdoor recreation and tourism economy, while investing in their main streets and conserving forests and natural lands. Encouraging growth on main streets while promoting outdoor recreation can help foster community revitalization, protect air and water quality, create jobs and support economic diversification, and offer new opportunities for people to connect with the natural world.

Committee Room - City Hall, 3rd Floor 1717
E. Park Street, Two Rivers, WI 54241

MINUTES

1. **CALL TO ORDER:** 5:00 pm Shannon Derby called the meeting to order

2. **ROLL CALL**

Committee Members: **Present:** Shannon Derby, Tim Petri; **Excused:** Darla LeClair
Staff & Others: Matthew Heckenlaible, Scott Ahl, Brian Dellemann, Andrew Sukowaty, Shawn Taddy, Kyle Kordell

3. **REVIEW AND APPROVAL OF MINUTES**

Minutes from the April 6, 2026, Public Utilities Committee meeting

Tim Petri made a motion to approve the April 6, 2026, Public Utilities Committee meeting minutes, seconded by Shannon Derby. Motion carried.

4. **PUBLIC INPUT – N/A**

5. **PROJECT STATUS UPDATES**

A. **2025 CIPP**

Visu-Sewer has been making progress; however, work has been delayed due to excessive flows entering the sanitary sewer system from private laterals discharging clear water from foundation drains. The committee will need to hold a future discussion regarding methods to address clear water infiltration into the sanitary sewer system and strategies for its eventual elimination.

B. **2026 CIPP**

Three (3) bids were received last week and will award this year’s contract to Visu-Sewer.

C. **2025 LSL Contract**

Essential Sewer & Water temporarily pulled off the project with approximately 60 services remaining to be completed.

D. **2026 LSL Contract**

A preconstruction meeting will need to be scheduled for this contract as it appears Mammoth Construction is preparing to begin work on this year’s contract in May.

E. **2026 Water System Improvement**

The preconstruction meeting is still pending and will help provide a better understanding of when Vinton Construction intends to begin work on this project.

6. WASTEWATER UTILITY: UPDATES AND ACTION

A. Sludge Disposal

Historically, the City had multiple farmers willing to accept wastewater sludge. Moving into 2026, that number had been reduced to two, and one farmer has recently provided notice that they are no longer willing to accept sludge due to the presence of PFOS/PFOA compounds.

As a result, the City has begun evaluating City-owned property within the Woodland Industrial Park as a potential disposal option. Key points discussed included:

- Approximately 70 acres of usable land may be available, depending on crop conditions.
- The site has recently received approval from the Wisconsin Department of Natural Resources.
- Discussions will need to occur with the farmer currently leasing the land to determine crop rotation schedules and the intended end use of the crops, both of which may limit the suitability of the property for sludge disposal activities.

At this time, the City is effectively down to one remaining farmer willing to accept sludge, and that individual is considering retirement. It remains unknown whether the farmland will continue to be farmed by a family member, leased, or sold. Additionally, due to PFOS/PFOA levels detected in the sludge, Waste Management Ridgeview Landfill has indicated that it will not accept the material.

The City is actively exploring alternative disposal options before reaching a point after the fall of 2026 where no viable sludge disposal options remain available.

B. East Primary Sludge Pump Failure

The Water Utility recently cleaned its filter backwash settling basin for the first time in many years, resulting in a substantial accumulation of silty grit being discharged into the sanitary sewer system. At the same time, the wastewater treatment plant had temporarily taken the de-gritter offline due to ongoing issues with flow backing up and not properly reaching the primary clarifiers.

Compounding the issue, a diaphragm pump experienced a tear in the diaphragm and failed to operate, resulting in silty grit blockages accumulating at the bottom of the primary clarifier. The situation was further complicated by extremely high flows caused by significant rainfall events occurring several days earlier. The primary clarifiers were beginning to turn septic.

Staff repaired the diaphragm pump and manually monitored a fire hose inserted into the bottom of the clarifier to fluidize and suspend the silty grit allowing the pump to move the material forward for further treatment. Staff successfully managed and overcame the issue over an estimated 7-to-10-day period.

It was noted that the failed diaphragm pump had been in service for approximately three years, which is considered typical for this type of equipment. In response, staff will begin implementing an annual inspection program for all six diaphragm pumps in an effort to

better predict potential failures and take a more proactive rather than reactive approach to maintenance.

C. Staffing Update

- 1. Ed Gilmer passed the Performing Laboratory Analysis/Testing exam.
- 2. Kevin Gerceau has been certified as an Advance Operator.
- 3. Shawn Taddy has been reclassified from basic Collection System Operator to Advance Collection System Operator.

D. Jessie Street Lift Station

- 1. Hired Sabel Mechanical to inspect and exercise the valves in the lift station as the pumps were constantly running because the check valves were not preventing the backflow of pumped water. Replaced the ball check valves and it is now back to working normally.
- 2. The shut off valves were exercised and found to be in good operating condition.

E. RV Dump Station

The facility was placed into service on May 1st. Additional usage may occur as Point Beach State Forest has its RV dump station out of service through mid-May due to ongoing upgrades at the State Forest.

7. ELECTRIC AND TELECOMMUNICATIONS UTILITIES: DIRECTOR UPDATES AND ACTION, IF APPLICABLE

A. WPPI Loan Update

As of April 28th, all loan documents had been signed and returned. The loan could be closed as early as April 30th. Staff will follow up with finance during the week of May 4th to verify whether the funds have been deposited.

B. Substation Maintenance Schedule

The original inspection and maintenance work had been scheduled for June; however, the contractor had an opening during the week of May 4th. Staff began transferring electrical loads to the alternate transformers in preparation for the work. The planned maintenance is expected to be completed by the end of the week.

C. Utility Scholarship Program

The Electric Utility received seven (7) scholarship applications, which is two more than last year; however, the total remains considerably lower than in past years when as many as 20 applications were received. The applications were forwarded to WPPI Energy to serve as an impartial reviewer. Two (2) \$500 scholarships will be awarded during the high school awards ceremony.

8. WATER UTILITY: DIRECTOR UPDATE, DISCUSSION AND ACTION, AS NEEDED

A. Reservoir Project Update

The project involves reconfiguring the reservoir overflow piping and structure. Exterior concrete and grading work has been completed prior to draining the reservoir and modifying the interior piping. Installation work is expected to occur within the next couple of weeks, with the project anticipated to be completed prior to Memorial Day.

B. Tower Painting Update

The east water tower tank is in need of repainting and is tentatively scheduled for August. Additional updates will be provided as the project timeframe approaches.

C. Risk and Resilience

This is a required report that must be submitted to the WDNR every five (5) years. Strand Associates is assisting the Water Utility with preparation of the report, which is expected to be completed prior to June 30th.

D. Water Quality Report

The annual report is available on the Utility’s website and Facebook page. Residents without internet access may request a printed copy of the report by contacting the Water Utility.

In addition, the Utility must prepare and distribute the required annual letters/notices to properties identified as having lead, galvanized, or unknown material water service lines.

E. Community Outreach Grant

The Water Utility has been awarded a **\$33,000 grant** dedicated to public education regarding lead in the water system, specifically focusing on lead and galvanized service lines.

In coordination with this funding, the Utility will collaborate with **Andy Jacque** to produce a series of educational videos, ranging from 3 to 10 minutes in length. These videos will illustrate how the specific water treatment chemicals currently in use function to prevent lead from migrating into the water supply.

F. Advanced Metering Infrastructure (AMI) update

The Water Utility is awaiting completion of a preliminary study from a vendor to determine whether implementation of an AMI system would be feasible and beneficial. It is anticipated that this discussion will return to Committee at the June meeting.

9. STORM WATER UTILITY: UPDATES AND ACTION, AS NEEDED

A. MS4 Stormwater Master Plan Update

The City has five (5) watersheds that needed to be studied and modeled:

- 1. Lake Michigan (direct discharge into the lake)
- 2. East Twin River
- 3. West Twin River
- 4. Molash Creek (by the high school)
- 5. “Forget-Me-Not Creek”

Table 3-1: TMDL Percent Reductions

TMDL Sub-Watershed	TSS Reduction from No-Controls	TP Reduction from No-Controls
West Twin River	36%	15%
East Twin River	20%	28%
Lake Michigan	0%	0%
Forget-Me-Not Creek	20%	50%
Molash Creek	20%	74%

The area within the City that ultimately discharges to Molash Creek is not conveyed through the City’s MS4 infrastructure, including storm sewer systems or roadway ditch networks, and is therefore considered Riparian or MS4 “A” to MS4 “B.”

In addition, Eggers Industries discharges into Wisconsin Department of Transportation roadside ditches that are conveyed to Molash Creek, with similar discharge conditions occurring from the high school area. As a result, the City of Two Rivers should not be responsible for managing stormwater originating from that area.

This determination reduces the City’s stormwater management concerns to four (4) remaining drainage subbasins.

Table 3-2: TMDL Pollutant Analysis – Baseline Condition (WisSLAMM)

Sub-Watershed	Urban Area (acres)	Total Suspended Solids (TSS)			Total Phosphorus (TP)		
		Baseline Load (lbs.yr)	Required TMDL Load Reduction		Baseline Load (lbs./yr)	Required TMDL Load Reduction	
			(%)	(lbs.yr)		(%)	(lbs.yr)
West Twin River	690	192,277	36.0%	69,220	542	15.0%	81
East Twin River	835	183,892	20.0%	36,778	578	28.0%	162
Lake Michigan	457	120,022	0.0%	0	343	0.0%	0
Forest-Me-Not Creek	15	3,578	20.0%	715	12	50.0%	6

Table 3-3: TMDL Pollutant Analysis – 2025 BMPs (WisSLAMM)

Sub-Watershed	City MS4 (acres)	Total Suspended Solids (TSS)			Total Phosphorus (TP)		
		Baseline Load (lbs.yr)	Load Reduction		Baseline Load (lbs./yr)	Load Reduction	
			(%)	(lbs.yr)		(%)	(lbs.yr)
West Twin River	690	192,277	39.6%	76,137	542	30.4%	165.0
East Twin River	835	183,892	9.9%	18,163	578	9.8%	56.7
Lake Michigan	457	120,022	7.6%	9,104	343	8.9%	30.6
Forest-Me-Not Creek	15	3,578	2.8%	100	12	3.0%	0.4

Recommended actions include:

1. Continue to maintain our existing Best Management Practices (BMPS)
2. Street sweeping occurs twice per month within the East Twin River watershed and once per month within all other watersheds. No parking controls are currently in place during

sweeping operations, making the program less effective than it could be if overnight parking restrictions or similar controls were implemented.

- 3. Construct three (3) new wet detention ponds, two with enhanced settling systems (coagulant dosing of polymers – new standard for WDNR)
 - a. Lake View Avenue Pond - \$188,000-\$250,000 for 0.50 acre pond
 - b. 25th Street Pond (Scare USA) - \$645,000 - \$1,000,000 for 1.1 acre pond
 - c. Riverview Pond - \$1,746,000 - \$2,500,000 for 2.0 acre pond
 - d. \$2,579,000 to \$3,750,000 capital costs based upon 2025 estimates.
- 4. Evaluate potential modifications to the City’s leaf collection practices, including terrace storage versus street storage, as part of future phosphorus reduction efforts. These potential modifications were not evaluated as part of this study.

10. SOLID WASTE UTILITY: UPDATES AND ACTION, AS NEEDED

A. Recycling Grant Annual Report

The annual recycling report has been submitted to WDNR. Upon review of this year’s report, a significant downward trend in total tons collected was identified. After some additional investigation, it was found that we have been over reporting due to the way our tracking spreadsheet was established. Overall, we are holding steady with the total number of tons as compared to adjusted past years.

B. Landfill Update

The wastewater treatment plant is required to collect PFOS/PFOA samples from its effluent discharge every other month, with a report due to the Wisconsin Department of Natural Resources in July 2026. Sample results may result in the WDNR requiring the City to complete a PFOS minimization plan, which would identify potential PFOS sources and require efforts to mitigate those sources.

The City has been proactive in attempting to identify potential major contributors, with indications suggesting the landfills may be a significant source. Testing results confirmed this suspicion with PFOA concentrations identified at levels approximately 200 to 250 times greater than the wastewater treatment plant’s effluent.

Because these elevated concentrations are directly impacting both the wastewater plant effluent and resulting sludge, the Engineering Department is reaching out to consultants to explore possible methods to reduce or eliminate these chemicals from landfill leachate and potentially from the wastewater effluent itself. A virtual meeting with a consultant has been scheduled for May 5th to discuss the City’s situation, with additional information to follow.

MINUTES

1. CALL TO ORDER

Kyle Kordell called the meeting to order at 5:30 PM.

2. ROLL CALL

Present: Kyle Kordell, Rick Inman, Tracey Koach, Kristin Lee, Matt Heckenlaible, Adam Wachowski and Pat Klein.

Also Present: Brian Sanders, Michael Ditmer, Jeff Sachse, and Recording Secretary Adam Taylor.

3. ACTION ITEMS

A. Review of Site and Architectural Plan for the construction self-storage units, located at Columbus Street, Parcel No. 202-201-010-9, in Industrial District I-2, submitted by Brian Backler.

This proposal includes the construction of three separate storage unit structures. A conditional use permit was issued in January 2026 for this use. The development meets all applicable zoning requirements. There are also no concerns with the submitted landscape and lighting plans.

Motion made to approve the plans.

Motion made by Wachowski, seconded by Lee.

Roll Call Vote:

Voting Yea: Kordell, Inman, Koach, Lee, Heckenlaible, Wachowski, Klein.

Motion Carried

B. Ordinance to amend Section 10-1-24 C. B-1 Business District, to define setbacks for buildings in the Main Street and waterfront corridor overlay district.

The proposed ordinance amendment includes setback provisions for properties located in the Main Street and Waterfront Corridor Overlay District. The Plan Commission discussed the logistics of the ordinance and are in favor of the mechanics. However, the language of the ordinance needs to be updated slightly before council approval. As submitted, it states provisions for properties zoned "Waterfront Corridor", however this needs to be changed to "Main Street and Waterfront Corridor Overlay District."

Motion made to recommend approval of the ordinance to the City Council with the updated language changes.

Motion made by Kordell, seconded by Klein.

Roll Call Vote:

Voting Yea: Kordell, Inman, Koach, Lee, Heckenlaible, Wachowski, Klein.

Motion Carried

4. PUBLIC INPUT

No input from the public was heard.

5. ADJOURNMENT

Motion to adjourn at 5:50 PM.
Motion made by Kordell, seconded by Klein.
Respectfully submitted, Adam Taylor, Recording Secretary

Subject: Beach Bash

To: amabar@two-rivers.org <amabar@two-rivers.org>

Hi Amanda

I am looking to get a noise ordinance waiver for Beach Bash on Friday June 26th and Saturday 27th with bands ending both nights at 1130pm. We would also need a waiver on how late the park can be open and would like that until midnight with the understanding that bands and people cleaning up will be there later.

National Public Works Week Proclamation

May 17–23, 2026

“Rooted in Service, Powered by Community”

WHEREAS, public works professionals focus on infrastructure, facilities, and services that are of vital importance to sustainable and resilient communities and to public health, high quality of life, and well-being of the people of City of Two Rivers; and,

WHEREAS, these infrastructure, facilities, and services could not be provided without the dedicated efforts of public works professionals, who are engineers, managers, and employees at all levels of government and the private sector, who are responsible for rebuilding, improving, and protecting our nation’s transportation, water supply, water treatment and solid waste systems, public buildings, and other structures and facilities essential for our citizens; and,

WHEREAS, it is in the public interest for the citizens, civic leaders, and children in City of Two Rivers to gain knowledge of and maintain an ongoing interest and understanding of the importance of public works and public works programs in their respective communities; and,

WHEREAS, the year 2026 marks the 66th annual National Public Works Week sponsored by the American Public Works Association, be it now,

NOW, THEREFORE, the Two Rivers City Council, does hereby designate the week of May 17–23, 2026, as National Public Works Week. I urge all citizens to join with representatives of the American Public Works Association and government agencies in activities, events, and ceremonies designed to pay tribute to our public works professionals, engineers, managers, and employees, and to recognize the substantial contributions they make to protecting our national health, safety, and advancing quality of life for all.

DATED this 18th day of May 2026.

Scott Stechmesser, City Council President

Kyle Kordell, City Manager

Resolution Authorizing Grant Application for DNR Stewardship Recreational Boating Funds to Replace Docks at Veterans Park in the Amount Not-to-Exceed \$100,000 Total Project Cost

WHEREAS, the City of Two Rivers is interested in acquiring or developing lands for public outdoor recreation purposes as described in the application; and

WHEREAS, financial aid is required to carry out the project; and

WHEREAS, the grant program requires 25% matching funds from the City if the application is selected, bringing the total matching contribution from the City at \$25,000; and

THEREFORE, BE IT RESOLVED, that the City of Two Rivers can budget \$25,000 in capital asset investments, boat launch fees, and project sponsorships in Fiscal Year 2027 to fund this project anticipated at \$100,000 and

HEREBY AUTHORIZES Director Mathis in the Parks and Recreation Department to act on behalf of the City of Two Rivers to:

- Submit an application to the State of Wisconsin Department of Natural Resources for any financial aid that may be available.
- Submit reimbursement claims along with necessary supporting documentation within 6 months of project completion date.
- Submit signed documents; and
- Take necessary action to undertake, direct and complete the approved project.
