Watertown Tourism Commission Meeting Minutes June 12, 2025, 8 am

The following Tourism Commission members were present via Zoom Meeting or in person at Watertown City Hall: Cheryl Mitchell, Melissa Lampe, Ken Berg

Also present; Chamber of Commerce Executive Director Linden Peacy, Tourism Director Robin Kaufman, Kristine Butteris and Jarod Folkman from Park and Rec, Steve Zillmer from the American Legion, Gary Stueber from Local Marine Corps Detachment #349, Karen Lanser from Local Marine Corps Detachment and Heroes for Heroes and Shellie and Jeremy Schmidt from Watertown Wi Billiards

1. The meeting was called to order by Melissa Lampe at 8:00 a.m.

2. Review & Approve May Minutes. Motion to approve the minutes was made by Ken Berg and seconded by Cheryl Mitchell. The Commission voted to approve the minutes.

3. Old Business:
   a. Approve Financial Report: Motion to approve the financials was made by Ken Berg and seconded by Melissa Lampe. The Commission voted to approve the financials.

   b. Marketing Plan – review and act on marketing plan.

      1. Visitor Guides – The next round of guides will go out in July.

      2. Ad opportunities – Nothing new related to the Tourism Commission

4. Update on billboard commitment: $8000 in funds was approved last month. The new contract date is June 17th. The billboards are on I-94 near HWY F and on Hwy 26 near the Jefferson Dog Park. Many local Businesses are interested in purchasing advertising time.

   c. Review and take action on mural restoration projects
   The 1st street mural is nearing completion.

   d. Discuss Hotel stay updates: May and June 2025 weekends will be stronger occupancy than 2024 for the local market area. Sunday – Thursday weekdays will be lower occupancy than 2024 in spite of several Construction projects in the area. May Wisconsin South occupancy was 55%. Local competitive hotel occupancy was 52.4%. The 10 days of the EAA event have not reached high occupancy as of this day.

5. New Business

   a. Review and take possible action on Wisconsin Billiards Grant request: Billiard Leagues have been in Watertown since 1978. Watertown Billiards will host an event that will take place August 23 and 24th 2025. 18 local bars would participate. 16-24 teams are expected and half will be local teams. 8-12 overnight rooms are anticipated.
   Ken Berg made a motion to approve a $500 grant and Melissa Lampe seconded. The Commission voted to approve the funds.

   b. Review and take possible action on Vietnam Memorial Wall funding assistance. There are 3 mobile Vietnam Memorial walls and Watertown has the opportunity to have one installed permanently at Aero Park. Veteran's groups including Watertown American Legion and Marine Corps League Detachment #349 are fundraising for the purchase of the Memorial Wall. The Tourism Commission will keep this item on the agenda as we search for the best form of support to provide the organizations.

   c. Review and take possible action on board positions. Tabled until the July meeting.

d. Review and take possible action on tournament fee mitigation. The Tourism Commission receives grant proposals from various traveling youth sport organizations throughout the year. Commission will explore providing funds directly to the Park and Rec department to administer "scholarships" or grant awards to attract or maintain tournament relationships.

e. Review Manager's report of previous month's task – report attached.

f. Commission members' report.
Girls fast pitch tournaments June 12-14 and 26-28th. Music at the Museum 6/16. Grand opening for the 1st Kindergarten is 8/2. Pastors Convention 6/12-13 at Maranatha.

Adjournment – Motion to adjourn the meeting at 9:03 am was made by Melissa Lampe and seconded by Ken Berg.

Agenda items:
A reminder from Robin to have all requests for additions to the next meeting's agenda to her by Tuesday, the week before the meeting.
The next meeting will be at 8 am on July 10th, 2025, via Zoom or you may attend in person at Watertown City Hall
NOTE: These minutes are uncorrected, and any corrections made thereto will be noted in the proceedings at which these minutes are approved.

PARKS, RECREATION & FORESTRY COMMISSION

MINUTES

Monday, June 16, 2025

1. **Call to order**
   The Watertown Parks, Recreation & Forestry Commission met in person on June 16, 2025. The meeting was called to order by Ald. Jonathan Lampe. Members present: Ald. Jonathan Lampe, Julie Chapman, Emily Lessner, Brad Clark, Jennifer Clayton. Not present was: Kyle Krueger, Kerry Kneser. Also present: Kristine Butteris, Andrea Draeger, Jarrod Folkman.

2. **Review and approval of minutes:**
   Brad Clark motioned to approve the May 19, 2025 and June 2, 2025 Parks Recreation and Forestry minutes as written. Julie Chapman seconded. Motion carried.

3. **Review and approval of financial reports**
   Julie Chapman motioned to approve the April financial reports. Jennifer Clayton seconded. Motion carried.

4. **Citizens to be heard**
   There were none.

5. **Business**

   A. Review and take action: definition of games and programs for outside entities
   Kristine Butteris described the need to formally distinguish between league activities (games and practices) and programs, which would apply to all which collect participation fees, in order to clarify our fees and charges policy. We are now seeking clarification regarding non-league programs. When our green spaces are used for programming, staff ensure the areas are mowed and prepared in advance. Reserving these green spaces would grant the organization sole use of the area, with necessary preparation completed to ensure optimal conditions. Brad Clark motioned to approve outside organizations which have participant fees, would have all facility uses classified as: Programs and League games – “Programs,” and Practices- “Practices.” Programs would have a facility use fee and practices would not. Jennifer Clayton seconded. Motion carried.

   B. Review and take possible action: YMCA reduction of facility use fees
   Kim Schooley was present as a representative of the YMCA and presented a letter drafted indicating a request for a reduction in fees for facility use in the park system. With facility use fees, the YMCA may not be able to maintain smaller programs. Kristine Butteris provided information regarding the need to word towards all organizations utilizing park and recreation facilities to have contracts and charge relevant fees, due to costs associated with maintaining facilities, labor, etc. The YMCA will gather more information regarding intended annual use of facilities in order to better inform the commission on potential revenue versus reduction of fees. This item was tabled to the July meeting pending further information.

   C. Review and take action: ordinance to amend Section 428-7(C)(5) Exemptions and create Section 428-10 Bentzin Family Town Square scheduled events
   Kristine Butteris described the current agreement which states the Bentzin Family Town Square approvals for “series of events” and the request to change to state “schedule of events” in order to simplify and streamline the process to approve programs and events at the Bentzin Family Town Square without necessarily needing approval for each series. There was a recommendation to confirm with the city attorney that the new language presented in the

memo will not create too many exemptions without intending. The final draft of ordinance will be brought to the July meeting. Jennifer Clayton motioned to endorse the ordinance changes to streamline the Bentzin Family Town Square with the considerations captured by the Parks, Recreation, and Forestry director. Brad Clark seconded. Motion carried.

D. Review and take action: ordinance to amend Section 410-52(b) and create Section 410-52(c) Possession of Alcohol Beverages on Public Ways

Kristine Butteris described the request for an ordinance change to allow alcohol consumption within the Riverwalk area exceptions: Watertown Senior & Community Center and Bentzin Family Town Square. Julie Chapman motioned to endorse the ordinance changes as written. Jennifer Clayton seconded. Motion carried.

E. Review and take action: parks and open space plan

Kristine Butteris gave one update which was relayed to the plan designers that no designated pickleball courts are currently in existence. The plan will then go before Common Council for approval. Brad Clark motioned to approve the parks and open space plan as written. Julie Chapman seconded. Motion carried.

F. Review and take possible action: artist contract

Andrea Draeger reviewed the need for an artist contract in order to utilize local art for both Senior & Community Center walls and as a fundraiser, as it is being proposed that the Center would retain half of the art sales and pay the artists the remaining half. Jennifer Clayton motioned to approve the artist contract pending city attorney edits. Julie Chapman seconded. Motion carried.

B. Director's Report:

A. Project updates: parks

The tennis court RFP is out to be reviewed. The Riverside restrooms are open and landscaping is being completed.

B. Update on programming: recreation

The deadline for the youth baseball leagues was extended and participation is now equal to last year; enough coaches were also recruited. Youth volleyball began last week; registration is almost doubled from last year. Day Camp starts this week with a new camp director. Kart Park started last week and have already seen increased participation from last year. Fall and early winter programming registration will begin June 30.

C. Update on programming: senior and enrichment

Currently planning fall and early winter family nights and school break activities. The Senior Center will begin a cribbage league, hold a social isolation focus group, and has the potential for a dementia film screening as well as staff training. The patio furniture was delivered and a party/dedication will be planned. The next Senior Center quarterly birthday party will be held in August. National Senior Citizen Day will be celebrated on August 20.

D. Update on programming: aquatics

Two new lifeguards were hired from the last class, and the next class will be held in July as well as an LGI class. Swim lessons began last and this week. The first themed week at the Aquatic Center is this week – School's Out.

C. **Adjournment – Next meeting date July 21, 2025**

Brad Clark motioned to adjourn the meeting. Jennifer Clayton seconded. Motion carried.

Watertown Senior Center
Advisory Board Minutes
June 17, 2025

1. **Call to Order**
   The Senior Center Advisory Board met in person on June 17, 2025, at 9:00 am. The meeting was called to order by director Andrea Draeger. Present: Betty Jimenez, Dawn Justman, Peggy Brown, John Wanke, Lynn Fredrick, Not present: Mara O'Brien and Jammie Belstner.

2. **Review and Approve the April Minutes**
   Peggy Brown motioned to approve the April 15, 2025 minutes as written. Dawn Justman seconded. Motion carried.

3. **Review and Approve the Monthly Financial Report**
   John Wanke motioned to approve the April financial report as written. Betty Jimenez seconded. Motion carried.

4. **Citizens to be Heard**
   There were none.

5. **Business**
   A. **Review and take action: board committee positions**
      The Senior Center Advisory Board committee positions were nominated and elected as follows:

      President & Fundraising Co-Chair – Betty Jimenez
      Vice President & Fundraising Co-Chair – Dawn Justman
      Membership Chair – Lynn Fredrick
      Programming Chair – Peggy Brown
      Community Services Chair – John Wanke

      Dawn Justman motioned to approve all committee nominations and elections. Peggy Brown seconded. Motion carried.

   B. **Review and take possible action: rummage sale**
      Discussion occurred regarding the amount of days and hours spent on rummage sale preparation, sales, and clean up as well as the undesirable state of some of the items donated. It was agreed that the fundraising committee would research additional avenues for fundraising which may require less time and effort than a rummage sale. Betty Jimenez motioned to approve the discontinuation of the annual rummage sale in 2025. John Wanke seconded. Motion carried.

6. **Chairperson's Committee Report**
   a. **Update Fundraising Committee on Current Efforts**
      The Generations of Joy sponsorship opportunity was discussing – local businesses will have the opportunity to decorate a tree and room at the center for a fee. As a sponsor, they will be able to table in their room during an open house event in December, as well as have a sign with their name and logo in the room for the duration of the event.

The general sponsorship letter has been updated and can be utilized to share with local businesses opportunities to sponsor or donate to the Center. For July, we will ask for small plates, plastic forks, and will donate 50/50 raffle funds towards coffee and popcorn supplies. The group also asked for a list of building needs for which could be fundraised. This Saturday we are in need of volunteers to table at Piggly Wiggly to conclude the round-up fundraiser happening this week. It was reminded that future Senior Center events will have paid tickets, except for Veteran's and all for the volunteer event and annual meeting.

An art contract is currently being reviewed by the city attorney in order to showcase local artists and potentially sell art as a fundraiser.

b. Update Membership Committee on Current Memberships and Renewals

The last meet and greet was only attended by one person. More opportunities will be available when open houses are planned with events. Quarterly birthday parties will continue in August with the same format; The Marquardt will be sponsoring for 2025. It was reminded that membership coupons are available at the Chamber of Commerce for new members; there are also funds available for scholarships for memberships, which needs to be advertised.

The Volunteer Awards and Annual Member Meeting occurred on April 23 with a large attendance.

c. Update Community Services Committee on Projects/Efforts

The 3rd annual Senior Care Fair was held on May 14 and saw over 50 vendors and about 75 participants. Next year more advertising will need to occur.

d. Update Program Committee on Program Attendance & New Programs

A new class with the ADRC of Jefferson County will be held in August – Stepping On. Pictures were taken of recent events and we will work to include in future newsletters.

National Senior Citizen Day will be celebrated on August 20 with a pizza and ice cream party and entertainment. A potential patio party and furniture dedication may be planned for September.

7. Director's Report

a. **Updates**

An updated board member list will be sent out. We are continuing to review antennae and other options in place of cable. The old popcorn machine will need to be sold on the Wisconsin surplus site. It was decided the board would take over reviewing comments in the suggestion box. In August it was agreed to highlight the new board members in the newsletter.

8. Adjournment

Next meeting is scheduled for Tuesday, August 19, 2025 at 9:00 am. Dawn Justman motioned to adjourn. John Wanke seconded. Motion carried.

THE CITY OF WATERTOWN

Redevelopment Authority for the City of Watertown
Turning Opportunity into Results

Wednesday, June 18, 2025, 6:00 pm
In-PERSON/VIRTUAL MEETING
Room 2044, City Hall

By Phone or Zoom Meeting:
https://us06web.zoom.us/join
For the Public, Members of the media and the public may attend by calling: (US) +1 (646)931-3860
Meeting ID: 617-065-5357
Pass Code: 959083
All public participants' phones will be muted during the meeting except during the public comment period where applicable.

RDA STRATEGIC PRIORITIES

1) ~~100 W. Main St. block demolition, Town Square design etc., and publicizing town square project for possible funding from sources other than the City.~~

2) Facilitating quality development in downtown, and

3) Creating an approach and working to attract development projects downtown.

1. Pledge of Allegiance
2. Roll Call
    A. Present: Mason Becker, Steve Board, Ald. Berg, Ryan Wagner, Dave Zimmermann
    B. Virtual: Ald. Arnett
    C. Absent: Jacob Maas, Todd Huhn
    D. Other attendees: Schmidt, Broere, Kaddesh. Virtual: Zach Goodrow (WDT)
3. Determination of Quorum and Call to Order at 6:04 pm
4. Approval of meeting minutes
    A. Regular board minutes 5.21.25
    B. RDA special board minutes 6.9.25
    Berg motioned to approve
    Zimmermann seconded the motion. Motion carried.
5. No public comment
6. Old Business:
    A. Rock River District Vision
        a. Development update:
            i. Becker discussed Intrepid Investments discontinuing work on two downtown sites.
            ii. Also discussed North Town Partners presentation and TIF request discussion at Finance Committee meeting this coming Monday for the Oxbow project at the former Johnsonville site.
    B. Discussion of future goal setting:
        b. Review and possible action: WEDA Economic Development 101 Proposal.
            i. Becker presented a proposal from WEDA for Economic Development 101 session, which could include the mayor, council, and other city stakeholders.
            Board motioned to approve spending $1,000 from the RDA marketing budget to bring the program to Watertown.
            Wagner seconded the motion. Motion carried.
            Becker will work to schedule this with WEDA.

7. New Business:
    A. **Introduction of new board members:**
        a. Todd Huhn was appointed by the council last night. Huhn is currently out of the country. Wagner gave a short recap of his work history.
    B. Election of RDA vice-chair:
        a. This item was tabled until next month
    C. Review and discuss: RDA history and mission:
        a. This item was tabled until next month
    D. Review and discuss: Presentation from resident on downtown market concept.
        a. Resident Gene Schmidt gave a presentation on his idea for a downtown German-style open-air market. Schmidt suggested this could be located next to the Bentzin Family Town Square.
        b. Discussion and questions followed. Board members suggested he discuss with the Tourism Commission and create a business plan.
    E. Review and discuss: Messaging calendar update:
        a. The RDA board members reviewed proposed July-December 2025 messaging calendar prepared by Becker.
        b. Suggested adding mentions of Economic Development 101 and possibly sharing of information from other groups such as the Greater Watertown Community Health Foundation.
        c. Board members can email other suggestions to Mason.
8. Status Reports:
    A. **Housing Rehab Grants**:
        a. Becker gave an updated recap of the current status. He discussed investigated sources of other funds to continue the program in the future
    B. **Beltz Foundation Grants:**
        a. Becker has had discussions with several local businesses about applying. Encouraged board members to let him know if they talk to any other downtown business owners interested.
    C. **Proposed Citywide Sign Grant Program**
        a. Becker has been discussing the details of the proposal with Attorney Chesebro. He hopes to launch the program this summer. Wagner mentioned rationale for the idea.
    D. **Social media/messaging update**:
        a. No report this month. Will have one next month.
    E. **Council update:**
        a. Berg discussed the prior night's Common Council meeting and how it was mostly license approvals, etc. He also mentioned good attendance at the open house of the new fire station.
        b. Arnett concurred.
    F. **Executive Director update**:
        a. Becker briefly upcoming meeting with a local company interested in learning more about the Rock River District project and discussions with the Greater Watertown Community Health Foundation about a potential funding idea.
        b. Items for next agenda:
            i. Discuss creation of a Budget & Finance Committee. Wagner will work on this
        c. Next meeting July 16, 2025, at 6 pm
9. Adjournment at 7:13 pm

Berg motioned to adjourn.
Wagner seconded the motion. Motion carried unanimously. Meeting adjourned.

PUBLIC WORKS COMMISSION

Tuesday, June 24, 2025
5:30 p.m.

The Public Works Commission met on the above date and time. The following members were present: Alderpersons Brad Blanke, Dan Bartz, Myron Moldenhauer, and Tony Arnett; Citizen member Pete Thompson. Also present: City Staff Andrew Beyer, Pete Hartz.

1. **Call to order.** Chairperson Arnett called the meeting to order at 5:30 p.m.

2. **Comments and Suggestions from Citizens Present.** John Kaliebe spoke regarding Lake Victoria and working with the residents around it to resolve concerns previously raised about it.

3. **Review & approve minutes dated May 27th.** Mr. Bartz moved to approve the minutes as presented, seconded by Mr. Moldenhauer. Mr. Thompson noted a correctiong that he was not present at that meeting. Motion carried by unanimous voice vote.

4. **Review and take possible action: S. Fifth Street Right-of-Way Improvements.** (This item was moved up in the agenda.) Staff recommended that due to urgent timing of the project, the City should step in to administer this project. This will not require additional expenditure on the part of the City. Mr. Blanke moved to have the City take project administration lead, seconded by Mr. Moldenhauer. Motion carried by unanimous voice vote.

5. **Review and take possible action: Approve new water rates as recommended by the Wisconsin Public Service Commission (PSC) referenced in rate case docket 6230-WR-110; a final overall rate change of 15.28% over current rates.** Mr. Arnett explained this rate increase was put in motion last year. The last rate increase for Water was in 2017. Mr. Bartz and Mr. Blanke both questioned the significant increase in the Public Fire Protection charge portion of the rate. Mr. Hartz explained this was due to internal accounting changes that shifted some costs to that area, but that even if they were moved to another area, the total recommended rate increase would stay the same. Mr. Blanke asked if there was a way to spread this increase out over time so it didn't hit residents all at once. Mr. Hartz explained there may be an impact on the lead line replacement financing if the rate change was spread out over time. Mr. Blanke moved to layover this matter until July 8th, giving staff time to contact the state about potential impacts if we were spread out the increase over 2 years. Mr. Moldenhauer seconded. Motion carried by unanimous voice vote.

6. **Review and take possible action: Sidewalk repair order for 620 Park Street.** Mr. Thompson moved to send the notice for 620 Park Street, seconded by Mr. Bartz. Motion carried by unanimous voice vote.

7. **Review and take possible action: Approve additional work for Applied Technologies to update the Wastewater Facilities Plan with the most recent Department of Administration population numbers for $35,000.** An update to the previously prepared plan is required because of adjusted population estimates released by the State Department of Administration. Mr. Blanke moved to recommend the contract to Council, seconded by Mr. Bartz. Motion carried by unanimous voice vote.

8. **Review and take possible action: Award S. Church Street Shared-use Path TAP Grant Design Project to Batterman for $228,039.00 Design for shared-use path between Jefferson Road & Air Park Drive.** The City has been applying since 2016for a TAP grant for a pedestrian path running from Kwik Trip on S. Church St. to Air Park Drive (Walmart.) The grant was finally awarded and will cover 80% of the construction cost. The City is responsible for the other 20% and the design costs. This design contract item is in the budget and under the budgeted amount. Mr. Blanke noted the total projected

construction cost of $1.5 million is a lot of money, but this project is very necessary because of the existing foot/bike traffic currently using the S. Church St. berm to cover the same route. Mr. Arnett noted that applying TID 4 (Walmart area) close-out funds toward this project would make a lot of sense since the project is needed because of the activity created by TID 4. Mr. Blanke moved to recommend the contract to Council, seconded by Mr. Arnett. Motion carried by unanimous voice vote.

9. **Update, no action needed: E-Waste Recycling Program.** The Commission received an update on the E-Waste program noting a change in vendor for some electronics that result in no resident fees for recycling some electronics, most notably TVs.

10. **Review and take possible action: hire Strand Associates to prepare engineering plan and profile specifications to bid the project in early 2026 for $360,000.** This is for the Allerman lift station replacement. Mr. Thompson moved to recommend the contract to Council, seconded by Mr. Bartz. Motion carried by unanimous voice vote.

11. **Adjournment.** Mr. Moldenhauer moved to adjourn at 6:31 p.m., seconded by Mr. Blanke. Motion carried by unanimous voice vote.

Respectfully submitted,

Tony Arnett, Chairperson

Note: These minutes are uncorrected, and any corrections made thereto will be noted in the proceedings at which these

THE CITY OF WATERTOWN

LICENSING BOARD MEETING – SPECIAL MINUTES

TUESDAY, JULY 01, 2025 AT 6:45 PM

WATERTOWN MUNICIPAL BUILDING - 106 JONES STREET, WATERTOWN, WI 53094 UPPER LEVEL ROOM 2044

The Licensing Board met on the above date and time in person at the Municipal Building 106 Jones St. in Room 2044 and via Zoom. The following members were present: Mayor Stocks, Ald. Moldenhauer, Cheri Martin, and Ald. Bartz. Absent was Erin Shroeder. Staff present were: City Attorney Steven Chesebro and City Clerk Megan Dunneisen.

1. **CALL TO ORDER** Mayor Stocks called the meeting to order at 6:45 p.m.
2. **BUSINESS**
   A. Ald. Bartz made a motion to approve the application for a Temporary "Class B" Wine and Temporary Class "B" Beer License for the July 4th Celebration event on July 3 and July 4, 2025 sponsored by American Legion Pitterle-Beaudoin Post 189 during the hours of 8 a.m. and 10 p.m. for location at Riverside Park, second by Martin and carried by unanimous voice vote.
3. **ADJOURNMENT** Ald. Moldenhauer made a motion to adjourn, second by Martin and carried by unanimous voice vote at 6:47p.m.

Respectfully submitted,

Megan Dunneisen, City Clerk

Note: These minutes are uncorrected, and any corrections made thereto will be noted in the proceedings at which these minutes are approved

PUBLIC SAFETY & WELFARE COMMITTEE

July 2, 2025

5:00 p.m.

1. **CALL TO ORDER**

Members Present	Also in Attendance	Citizens Present
• Dana Davis, Chair • Myron Moldenhauer • Bob Wetzel • Jonathan Lampe	• Andrew Beyer • Nathan Williams	• No Citizens present

2. **RECEIVE COMMENTS FROM THE PUBLIC**

Each individual who would like to address the Committee will be permitted up to three minutes for their comments

There were no comments from the public.

3. **APPROVAL OF MINUTES**

Public Safety minutes from June 4, 2025

- Public Safety Meeting Notes 6-4-25 R.1.pdf (0.02 MB)

MOTION: Approve the Public Safety meeting notes from June 4. 2025. (Moldenhauer/ Wetzel/Unanimous approval)

4. **BUSINESS**

A. Review and take actions: Ordinance amendment 428-11 Farmers Market

a. 25-15 Ordinance to Amend Section 428-11 FARMERS MARKET ORDINANCE CHANGE 05.13.2025.pdf (0.02 MB)

DISCUSSION: Three updates to the existing Farmers Market ordinance: 1) Add "Watertown Main Street Program" as the organizer 2) Update the parameters of Riverside Park and 2) Add the closure of Anne Street during market hours.

MOTION: Approve the ordinance amendment 428-11 Farmers Market. (Wetzel/Moldenhauer/Unanimous approval)

B. Review and take possible action: South Street & Benton Street – No Truck Signs

b. 2025.0625_AMB_South & Benton Truck Route.pdf (1.13 MB)

c. Site Map.pdf (1.21 MB)

DISCUSSION: Trucks are using South St. and Benton St.

MOTION: Install "No Truck" signage at the intersections of Milford Street & South Street and Benton Street & West Street to proactively address resident concerns, improve roadway safety and support police enforcement of truck route violations. (Wetzel/Davis/Unanimous Approval)

C. Review and take possible action: Dakota Street - No Truck Sign
   a. 2025.0702_No Trucks on Dakota_AMB.pdf (1.13 MB)
   b. Site Map of Dakota Street.pdf (0.31 MB)

   DISCUSSION: This issue of trucks turning on to Dakota was first discussed in 2022. A resident has again asked for a "No Trucks" sign.

   MOTION: Install "No Truck" signage at the intersections of Dakota Street and Hart Street. (Moldenhauer/Wetzel/Unanimous Approval)

D. Review and take possible action: Repeal a portion of Section 500-6(A)(5) Parking Limitations – 109-113 Jones Street Lot
   a. 25-16 Ordinance to amend section 500-6 Parking limitations A (5) Municipal parking lot limitations.pdf (0.02 MB)
   b. MEMO 109-113 Jones St Parking Amendment.pdf (1.13 MB)

   DISCUSSION: These parking spots are no longer needed for the Engineering Staff.

   MOTION: Remove existing reservation signs for engineering vehicles and repealing a portion of Section 500-6(A)(5) Parking Limitations by ordinance to reflect this change. (Moldenhauer/Lampe/Unanimous Approval)

E. Review and take possible action: Amend Section 500-3(B) Stop Intersections – Bridge Street & Summit Avenue
   a. MEMO Bridge Street Stop Sign Relocation.pdf (1.13 MB)
   b. 25-17 Ordinance to Create a Portion fo Section 500-3(B).pdf (0.02 MB)

   DISCUSSION: This stop sign is placed 60' behind the crosswalk. In addition, the stop sign is not mentioned in the ordinance.

   MOTION: Relocate the stop sign at the intersection of Bridge St. & Summit Avenue. In addition, Section 500-3(B) Stop Intersections should be amended to reflect a stop sign at Bridge Street & Summit Avenue. (Wetzel/Lampe/Unanimous Approval)

F. Review and take action: Jefferson County Hazard Mitigation Plan
   a. 9765 - Resolution to Adopt the Jeferson Co Natural Hazards Mitigation Plan 2025-2029.pdf (0.02 MB)
   b. RESOLUTION Adopting the Hazard Mitigation Plan 2025-10.pdf (2.24 MB)
   c. LEEM Packet - Natural Hazards Mitigation Plan 2025-2029.pdf (9.10 MB)

   DISCUSSION: Approval of this Hazard Mitigation plan is a requirement for any FEMA funds.

   MOTION: Recommendation to Council to adopt the Jefferson County Natural Hazards Mitigation Plan 2025-2029. (Lampe/Wetzel/Unanimous Approval)

G. Review and take action: Special Event - Blocktoberfest

a. MEMO BLOCKTOBERFEST.pdf (0.05 MB)
b. SE Estimate of Charges BLOCKTOBERFEST.pdf (0.11 MB)
c. 2025-13 APP_Redacted.pdf (1.45 MB)
d. 2025-13 MAP.pdf (0.18 MB)

MOTION: Approve Bloctoberfest contingent on their submission of updated certificate of insurance. (Lampe/Moldenhauer/Unanimous Approval)

H. Review and take action: Special Event - BFTS Packer Party
   a. MEMO PACKER PARTY.pdf (0.05 MB)
   b. TS PACKER PARTY APP.pdf (2.61 MB)
   c. Packer Game MAP.pdf (0.36 MB)

   MOTION: Approve Special Event – BFTS Packer Party. (Wetzel/Lampe/Unanimous Approval)

I. Review and take action: Special Event - BFTS Badger Party
   a. MEMO BADGER PARTY.pdf (0.05 MB)
   b. TS BADGER PARTY APP.pdf (2.59 MB)
   c. Badger Game MAP.pdf (0.36 MB)

   MOTION: Approve Special Event – BFTS Badger Party. (Lampe/Davis/Unanimous Approval)

J. Review and take action: Special Event - July 4th Celebration
   a. MEMO 4TH OF JULY CELEBRATION.pdf (0.05 MB)
   b. 2025-16 AM LEGION APP_Redacted.pdf (1.36 MB)
   c. 2025-16 AM LEGION MAP.pdf (0.40 MB)

   MOTION: Approve Special Event – July 4th Celebration. (Moldenhauer/Lampe/Unanimous Approval)

K. **ADJOURN**

   Being no further business to discuss, a motion was made by Lampe and seconded by Moldenhauer to adjourn. Motion was supported unanimously. Meeting ended at 5:21 p.m.

WATERTOWN FIRE DEPARTMENT

Monthly Report | **May** 2025

Duty, Pride, Service

Greetings!

On May 14, after over a month of packing, planning, and preparation, your fire department officially moved operations into the new station. Of course, this move came with some operational intensity. On the early morning of our scheduled move, the department responded to a significant commercial structure fire. Less than 24 hours after moving in, we were immediately tested with a detached garage fire. That same week, the three shifts each handled over 12 calls, including one day with 19 calls—well above our normal volume. Despite the high call demand, our team rose to the occasion with professionalism, flexibility, and determination to ensure the transition happened safely and effectively.

I want to recognize the incredible teamwork and extra effort shown by our staff—those on shift and those who came in on additional hours, some without much sleep—who made sure we were operational the moment we walked through the doors. Their coordination with each other and with the moving company, which supported logistics over multiple days,, made this large-scale move possible; all while remaining in service. Even with an active fire response schedule, crews ensured equipment, supplies, and technology were moved, placed, and ready. It was truly a full team effort that demonstrated how dedicated our members are to the safety of this city and to each other.

We are all deeply grateful for the space we now have—space that improves our ability to work, rest, and serve the community more effectively. Crews are already taking full advantage of the decontamination showers after fires, completing drills in the training tower, and preparing the building for the Open House. You can feel the energy and pride throughout the station. While we continue to organize and fine-tune our systems through this month and beyond, this move has been a milestone moment for your fire department—and one that sets us up for long-term success. Thank you for your continued support!

Chief Tanya Reynen

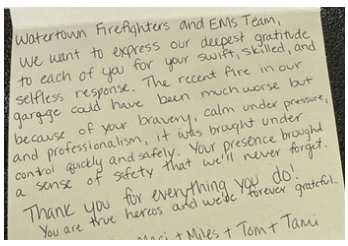
New Station Training

The crew used training techniques to move the historic WFD bell to the new station, ensuring a piece of the department history is properly maintained.

Fire Investigators Kyle Esmeier and John Duvernell completed a FEMA explosion investigation class in New Mexico

Citizen Thank yous...
we appreciate the kind words!



Watertown Firefighters and EMS Team,
We want to express our deepest gratitude to each of you for your swift, skilled, and selfless response. The recent fire in our garage could have been much worse but because of your bravery, calm under pressure, and professionalism, it was brought under control quickly and safely. Your presence brought a sense of safety that we'll never forget.
Thank you for everything you do!
You are true heroes and we're forever grateful.

City of Watertown
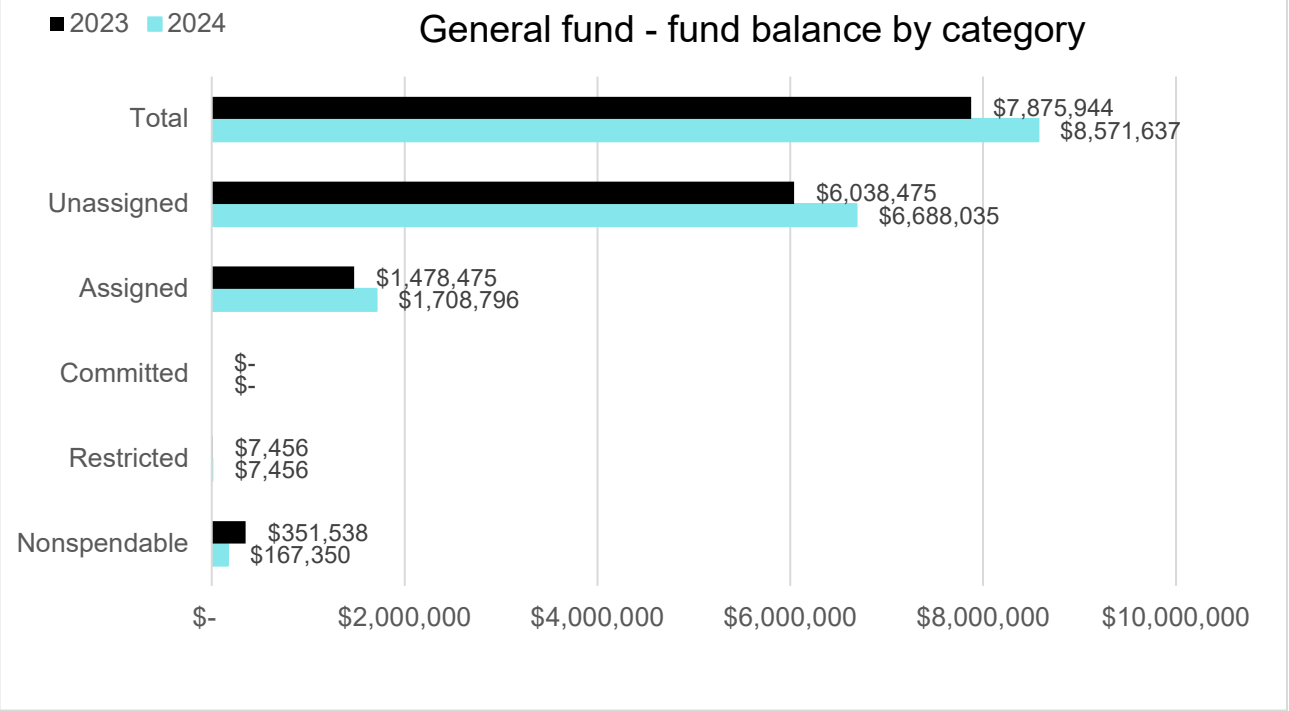
General fund results



Summarized income statement

	Actual	Final budget	Variance
Revenues and other financing sources	$ 20,389,786	$ 19,656,202	$ 733,584
Expenditures and other financing uses	19,694,093	20,402,933	708,840
Net change in fund balance	$ 695,693	$ (746,731)	$ 1,442,424

Fund balance category definitions

Nonspendable - amounts cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained in tact.

Restricted - amounts that can be spent only for the specific purposes stipulated by an external source.

Committed - amounts constrained for specific purposes that are internally imposed through formal action of the governing body.

Assigned - spendable amounts that are intended to be used for specific purposes that are not considered restricted or committed.

Unassigned - residual amounts that have not been classified within other categories above.

July 11, 2025

TO: Members of the Common Council

The following applications have been recommended for *approval* by the Licensing Board:

- Application for a “Class B” Malt and Liquor License from The Score Sports Bar LLC dba The Riff Dive Bar (Jaime Ellis, Agent) located at 215 S Third St for licensing year July 1, 2025 – June 30, 2026
- Application for a Temporary "Class B” Beer and Wine License for the Marine Corps League Annual Picnic event on August 23, 2025 sponsored by Bartelme-Schwefel Detachment #349 during the hours of 12 p.m. and 6 p.m. for location 907 Boomer Street
- Application for a Temporary "Class B” Beer and Wine License for the Watertown Catholic Parish Picnic event on August 17, 2025 sponsored by St Henry's Congregation during the hours of 11 a.m. and 5 p.m. for location 412 N Fourth Street
- Applications for Temporary “Class B” Licenses for the 9th Annual Wine Walk event hosted by Watertown Chamber of Commerce on September 25, 2025, during the hours of 4:30 p.m. and 8:00 p.m. Locations include Ava's Posh Boutique, 209 E. Main Street., Bradow Jewelers, 217 E. Main Street., Brown's Shoe Fit Co., 212 E. Main Street., Central Block, 300 E. Main Street., Draeger's Floral, 616 E. Main Street., Oswald-Konz Financial, 118 W. Main Street., Sassy Sweets, 116 W. Main Street., and White Oak Builders, 14 E. Main Street

The following application has been recommended for *denial* by the Licensing Board:

- Application for an operator's license from Dawn A Patzer
  Denial based on Cat 5. of the Licensing Guidelines

  CATEGORY V.

  (Applicants who have pending matter for any related charge as of the date of application, are not eligible for a license or a renewal of a license, if a conviction of the offense would place the applicant in any other category. The applicant may re-apply when the underlying matter is concluded.)

Respectfully Submitted,

Megan Dunneisen, City Clerk

Form **AB-200**

If no, contact Clerk's Office to obtain proper licenses/permits.

Permit # (office use only)	Date Application Received: 06/16/25	Approved ☐ Denied ☐

INSURANCE

Each applicant shall furnish to the City, no later than 10 days prior to the event, a certificate of insurance written by a company licensed in the State of Wisconsin, approved by the City Attorney and covering any and all liability or obligations which may result from the operations by the applicant's employees, agents, contractors or subcontractors, and including workers' compensation coverage in accordance with Ch. 101, Wis. Stats. The certificate shall provide that the company will furnish the City with a 10-day prior written notice of cancellation, nonrenewal or material change. The insurance shall be written in comprehensive form and shall protect the applicant and City against claims arising from injuries to members of the public or damage to property of others arising out of any act or omission of the applicant, its employees, agents, contractors and subcontractors. The policy of insurance shall provide minimum combined single limits for bodily injury and property damage of at least $1,000,000.00 per person/aggregate.

I hereby make an application for an Outdoor Open Container Entertainment Event Permit as detailed above. The applicant agrees to indemnify and hold harmless the City from and against all liabilities, claims, demands, judgments, losses and all suits at law or in equity, costs and expenses, including reasonable attorney fees, for injury or death of any person or loss or damage to the property of any person, firm, organization or corporation, arising in any way as a consequence of the granting of a permit for an Outdoor Open Container Entertainment Event.

Part D: Attestation

Who must sign this application?

- one officer or director of the nonprofit organization

READ CAREFULLY BEFORE SIGNING: Under penalty of law, I have answered each of the above questions completely and truthfully. I agree that I am acting solely on behalf of the applicant organization and not on behalf of any other individual or entity seeking the license. Further, I agree that the rights and responsibilities conferred by the license(s), if granted, will not be assigned to another individual or entity. I agree to operate according to the law, including but not limited to, purchasing alcohol beverages from Wisconsin-permitted wholesalers. I understand that lack of access to any portion of a licensed premises during inspection will be deemed a refusal to allow inspection. Such refusal is a misdemeanor and grounds for revocation of this license. I understand that any license issued contrary to Wis. Stat. Chapter 125 shall be void under penalty of state law. I further understand that I may be prosecuted for submitting false statements and affidavits in connection with this application, and that any person who knowingly provides materially false information on this application may be required to forfeit not more than $1,000 if convicted.

June 16, 2025

Dawn A Patzer

Dear Ms. Patzer:

The City of Watertown retains broad discretionary authority in denying, recommending denial, or granting or recommending granting of license applications based on the City of Watertown's Licensing Guidelines as adopted by the Licensing Board. The City's Police Department used these guidelines when reviewing your application to make recommendation that you should not be issued a Beverage Operator License based on the following:

CATEGORY V. *(Applicants who have pending matter for any related charge as of the date of application, are not eligible for a license or a renewal of a license, if a conviction of the offense would place the applicant in any other category. The applicant may re-apply when the underlying matter is concluded.)*

If you wish to appear at the Licensing Board meeting on July 9, 2025, at 4:15 p.m., the meeting will be held in person at City Hall, 106 Jones St. Watertown WI 53094 in room 2044 and virtually at**:** https://us06web.zoom.us/join Meeting ID: 917 858 0897 Passcode: 53094 One tap mobile +16469313860
https://us06web.zoom.us/j/9178580897?pwd=eUOpCUyvIV65zIPMYlmMdPU1LVLx5l.1

Your license application may be discussed in a closed session part of the meeting during which you will have an opportunity to state the reason you feel your application should be approved. The licensing board will then return to open session and take a vote. After the Licensing Board has made their decision, it will then be brought to the City Council for their approval or denial at the following regularly scheduled City Council meeting (3rd Tuesday of the month, 7pm, Watertown City Hall Council Chambers).

If you have any questions, please feel free to contact me. The appeal process is outlined in the Wisconsin State Statute Chapter 125.12(2) (d).

Sincerely,

Megan Dunneisen, City Clerk
cityclerk@watertownwi.gov

AN ORDINANCE
TO AMEND CHAPTER 545: SUBDIVISION OF LAND, THROUGH THE AMENDMENTS OF LANGUAGE TO SECTIONS §545-14A(5), §545-42C(5), § 545-42C(7), §545-50, AND §545-15

SPONSOR: MAYOR STOCKS, CHAIR
FROM: PLAN COMMISSION WITH POSITIVE RECOMMENDATION

THE COMMON COUNCIL OF THE CITY OF WATERTOWN DOES ORDAIN AS FOLLOWS:

SECTION 1. Section § 545-14A(5), Final Plat Procedure, is hereby amended to read as follows:

(5) The final plat shall be recorded with the Dodge or Jefferson County Register of Deeds only after certificates of the Wisconsin Department of Administration, of the Common Council, of the surveyor, and those certificates required by § 236.21, Wis. Stats., are placed on the face of the plat. The developer shall record the final plat with the proper County Register of Deeds within 12 months after the date of the last approval of the plat and within 36 months after the first approval. All required fees, including parkland dedication fees in lieu of land dedication, shall be due and payable prior to the proper City officials' signing of the approved final plat except for utility impact~~, parkland dedication,~~ and ~~park~~ recreation facilities improvement impact fees, which shall be paid prior to issuance of any building permits. Failure to record any plat within the required timeframes shall be deemed withdrawn, and a new certification is required.

SECTION 2. Section § 545-42C(5) and Section § 545-42C(7), Dedication and Improvement of Public Parks and Other Public Sites – Fee Revenue Administration, is hereby amended to read as follows:

(5) The fees imposed under Subsection~~s~~ A ~~and B~~ above shall be paid in full by the subdivider, developer, or owner of record of the land development ~~unless expressly excepted under this section~~ at the time of ~~issuing a full building permit by the office of the Building Safety and Zoning Division Inspector for any new construction.~~ final land division or plat approval. ~~If the total amount of impact fees due for a development shall be more than $75,000, a developer may defer payment of the impact fees for a period of four years from the date of issuing the building permit or until six months before the municipality incurs the costs to construct, expand, or improve the public facilities related to the development for which the fee was imposed, whichever is earlier. If the developer elects to defer payment under this paragraph, the developer shall maintain in force a bond or irrevocable letter of credit in the amount of the unpaid fees executed in the name of the municipality. At the time the municipality collects an impact fee, it shall provide the developer from which it received the fee an accounting of how the fee will be spent.~~ The fees imposed under Subsection **B** above shall be paid in full by the subdivider, developer, or owner of record of the land development at the time of issuing a building permit by the Building Safety and Zoning Division for any new construction.

(7) For all unplatted lands requiring a plat and for all land divisions, rezonings, or conditional use permits requiring a certified survey map, no final plat or certified survey map shall be certified approved for recording unless the requirements for the dedication of parkland ~~dedication fee is~~ and/or a fee in lieu of land dedication are calculated and ~~noticed on the face of~~ invoiced for collection for the instruments to be recorded ~~for collection~~ under this section. A notation shall be placed upon the face of the plat, certified survey map, survey, or other document to be recorded, ~~advising of fees to be imposed~~ ~~the~~ indicating that the parkland dedication and/or fee in lieu of land dedication requirements on all buildable lots or developments containing institutional or residential housing units have been

satisfied. For all land divisions not requiring a plat or certified survey map, no rezoning permit, conditional use permit, or building permit shall be issued for land development unless the fees imposed under this section are calculated and invoiced for collection.

SECTION 3. Section § 545-50, Definition of Terms, is hereby amended to read as follows:

Certified Survey Map
A map or plan of record of a minor subdivision meeting all the requirements of § 236.34, Wis. Stats. and of this chapter, or used to document, for recording purposes, survey and dedication data relating to single parcels. Certified Survey Maps are also referred to as minor subdivisions.

Minor Subdivision
The division of a lot or parcel of land for the purpose of transfer of ownership or building development where the act of division ~~creates four or fewer parcels, lots, or building sites, any one of which is 35 acres or less in area. A minor subdivision of a lot or parcel shall occur not more than once in five years.~~:

A. Creates four or fewer parcels, lots, or building sites, any one of which is 35 acres or less in area by division or by successive divisions of any part of the original parcel within a period of five years; or
B. Creates not more than 12 parcels, inclusive of lots or outlots, on land that is zoned for multi-family residential development; or
C. Creates not more than 8 parcels, inclusive of lots or outlots, on land that is zoned for commercial or industrial development.

Multi-Family Development
"Multi-Family Residential Development" means development specified in Wis. Stat. Section 101.971 containing apartment buildings, rowhouses, townhouses, condominiums, or modular homes (defined in Wis. Stat. Section 101.971(6) and does not mean mobile or manufactured homes defined in Wis. Stat. Section 101.91(2) and (10)), that do not exceed 60 feet in height or 6 stories that consist of 3 or more attached dwelling units in which the initial construction began on or after January 1, 1993. Such developments do not include facilities licensed under Chapter 50 of the Statutes, such as adult family homes, community-based residential facilities, nursing homes, and residential care apartment complexes.

Subdivision
The division of a lot or parcel of land for the purpose of transfer of ownership or of building development where:

A. The act of division creates five or more parcels or building sites of 35 acres each or less in area by division or by successive divisions of any part of the original property within a period of five years; or
B. ~~The act of division creates five or more parcels or building sites of 35 acres each or less in area by successive divisions within a period of five years.~~ In accordance with Wis. Stat. Section 236.34(1)(ar), the word "subdivision" does not include a division of land that creates not more than 12 parcels, lots, or outlots, on land that is zoned for multi-family residential development; or
C. In accordance with Wis. Stat. Section 236.34(1)(ar), the word "subdivision" does not include a division of land that creates not more than 8 parcels, lots, or outlots, on land that is zoned for commercial or industrial development.

SECTION 4. Section § 545-15, Minor Subdivisions (Certified Survey Maps), is hereby amended to read as follows:

No person, firm or corporation shall divide any land located within the corporate limits of the City of Watertown that shall result in a minor subdivision as defined by this chapter without first filing an application and a certified survey map for approval by the Plan Commission (and the Common Council when dedication of land is involved) and subsequently recording said map with the Dodge or Jefferson County Register of Deeds. The certified survey map shall comply fully with § 236.34, Wis. Stats. and with all applicable requirements of this chapter.

A. Procedure.
   (1) Before filing an application for approval of a certified survey, the subdivider shall follow the preapplication consultation procedures outlined in § 545-11.

B. Expanded use of certified survey maps.
   (1) In accordance with Wis. Stat. Section 236.34(1)(ar), a certified survey map may also be used for dividing land into more than four parcels under the following conditions:
      (a) The division includes not more than 12 parcels if the land being divided is zoned for multi-family development as defined by this chapter.
      (b) The division includes not more than 8 parcels if the land is zoned for commercial or industrial development.
   (2) This section does not apply to land lying outside the City boundaries but within the extraterritorial plat review jurisdiction of the City.

~~B.~~C. Certified survey map requirements.
   (1) The certified survey map shall be prepared by a professional land surveyor and shall comply with the provisions of § 236.34, Wis. Stats., and of this chapter.
   (2) The certificate of approval shall be placed on the face of the map.
   (3) When a dedication of land is required, the Common Council resolution accepting the dedication and approving the map shall be placed on the face of the map.
   (4) The applicant shall comply with the provisions of § 545-4 (General requirements) and Article III (Required Improvements and Design Standards) of this chapter.
   (5) Where streets or other areas are dedicated to the public, the certified survey map shall contain an owner's and a mortgagee's certificate that are in substantially the same form as required by § 236.21(2)(a), Wis. Stats.

~~C.~~D. Plan Commission action. Within 90 days, the Plan Commission shall, or where there is dedication of land, the Common Council shall approve, approve conditionally, or reject the certified survey map. The reason for conditional approval or for rejection shall be recorded in the minutes, and a letter detailing the action taken shall be sent to the applicant. Before an approved certified survey map is recorded, the applicant must pay to the City or other unit of government any accrued real estate taxes and special assessments owing on any land dedicated by the survey and to the Dodge or Jefferson County Treasurer any delinquent taxes on the dedicated land. Upon recording by the developer, two copies of the recorded document shall be furnished to the City.

SECTION 5. All ordinances or parts of ordinances inconsistent with the provisions of this ordinance are hereby repealed.

SECTION 6. This ordinance shall take effect and be in force the day after its passage and publication.

ORDINANCE TO AMEND SECTION 500-8 (F) OF THE CITY OF WATERTOWN GENERAL ORDINANCES

SPONSOR: ALDERPERSON DAVIS
FROM: PUBLIC SAFETY AND WELFARE COMMITTEE

WHEREAS, South Street, Benton Street, and Dakota Street are residential roadways and are not designated truck routes; and,

WHEREAS, West Street, Milford Street, and Hart Street are designated truck routes; and,

WHEREAS, increased heavy traffic on these specified residential roadways risks resident and roadway safety.

THE COMMON COUNCIL OF THE CITY OF WATERTOWN DOES ORDAIN AS FOLLOWS:

SECTION 1. Section 500-8 (F). Heavy traffic prohibited by posted signs, is hereby amended to read as follows:

(F) Heavy traffic prohibited by posted signs. The following streets are hereby designated "no heavy traffic allowed" by the posting of "No Truck" signs at their termini:

Name of Street	Location
Benton Street	From South Street to West Street
Carriage Hill Drive [Added by Ord. No. 03-01]	From West Main Street to Endeavour Drive
Carr Street [Added by Ord. No. 10-24]	From South Tenth Street to South Twelfth Street
Clyman Street	From South Third Street to South Tenth Street
College Street	From East Main Street to Campus Street
Corner Street [Added by Ord. No. 10-20]	From East Main Street to College Avenue
Dakota Street	From Hart Street to Franklin Street
East Milwaukee Street	From South Fourth Street to South Seventh Street
Endeavour Drive [Added by Ord. No. 03-01]	From Carriage Hill Drive to North Church Street
Mary Street	From River Drive to South Twelfth Street
Mary Street	From Theresa Street to Terry Lane
Meadow Street	From Dayton Street to South Votech Drive
River Drive	From Stimpson Street to Boomer Street
Scot Street	From West Main Street to Meadow Street

Name of Street	Location

RESOLUTION TO ADOPT JEFFERSON COUNTY NATURAL HAZARDS MITIGATION PLAN 2025-2029

SPONSOR: DANA DAVIS
FROM: PUBLIC SAFETY AND WELFARE

WHEREAS, the United States Congress passed the Disaster Mitigation Act of 2000 (DMA2K), which requires that a local unit of government must have an approved all hazard mitigation plan before it can receive Federal grant monies from the Federal Emergency Management Agency for pre-disaster mitigation projects; and,

WHEREAS, the City of Watertown worked with Jefferson County Emergency Management to update the countywide mitigation plan; and,

WHEREAS, the committee reviewed the document and accepted public input concerning the updated plan; and

WHEREAS, the Common Council makes the following findings:

1. Natural disasters pose a tangible threat to residents and property.
2. Undertaking hazard mitigation actions before disasters occur will reduce the potential for harm to residents and property and save taxpayer dollars.
3. Preparation of this plan is in the public interest.
4. This plan is intended to serve as a general strategy and may be amended from time to time.
5. Nothing in this plan obligates the City of Watertown to undertake any of the recommended activities and/or projects.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF WATERTOWN, WISCONSIN: The City of Watertown hereby adopts the Jefferson County Natural Hazards Mitigation Plan: 2025-2029; and

BE IT FURTHER RESOLVED, the City Clerk is directed to send a signed copy of this resolution, at their earliest convenience, to Tracy Hameau, Emergency Management Director, at the following address: Jefferson County; 107 E Washington; Jefferson, WI 54549. thameau@jeffersoncountywi.gov

That this Resolution shall be in full force and effect upon its passage and adoption.

MAYOR

THE CITY OF WATERTOWN

MEMO

Fire Department

To: Common Council

From: Chief Tanya Reynen

Date: July 3, 2025

Subject: Adoption of Jefferson County Natural Hazard Mitigation Plan 2025-2029

Background

The Jefferson County Emergency Management team has completed its review and update of the *Natural Hazards Mitigation Plan* for 2025–2029, as required under the federal **Disaster Mitigation Act of 2000**. This Act mandates that local jurisdictions adopt a FEMA-approved hazard mitigation plan to be eligible for federal pre-disaster mitigation grant funding.

Watertown participated in the development of the countywide plan, contributing local input and feedback. Adoption of this plan by the City is a necessary step in maintaining eligibility for future hazard mitigation grants.

Key Points

- This plan supplements—not supersedes—Watertown's local emergency management plans.
- It outlines mitigation strategies to reduce risks from natural hazards and enhance community resilience.
- Adoption of this plan positions Watertown to access federal funding for eligible projects.

Budget Goal

Maintains a safe and healthy community, with an eye toward future needs and trends

Financial Impact

No financial impact.

Recommendation

Approve the resolution that adopts the Jefferson County 2025-2029 Natural Hazard Mitigation Plan.

RESOLUTION NO. 2025-10

Adopting The Jefferson County Hazard Mitigation Plan 2025-2029

Executive Summary

The Federal Disaster Mitigation Act of 2000 requires that government units periodically update their Hazard Mitigation Plans. Jefferson County initially adopted a multi-jurisdictional Hazard Mitigation Plan in 2008 and updated the plan in 2012 and 2018. On September 10, 2024, the Jefferson County Board of Supervisors passed Resolution 2024-43 requiring the Emergency Management Department to update its plan. This new 2025 update will guide hazard mitigation efforts in Jefferson County for the next five-year period from 2025 through 2029.

The Jefferson County Hazard Mitigation Plan (2025-2029) identifies demographic and economic characteristics, climate, natural resources, land use, and developmental trends of the county. Special needs populations and groups are also identified. The plan inventories critical facilities in the County in light of natural hazards along with estimated losses to buildings and infrastructure. This plan makes clear appropriate solutions in terms of a wide range of activities that help to foster hazard mitigation efforts. Mitigation funding sources, maps, and other important features are included.

This resolution adopts the 2025-2029 Jefferson County Hazard Mitigation Plan. The Law Enforcement & Emergency Management Committee considered this resolution at its meeting on March 28, 2025, and recommended forwarding it to the County Board for approval.

WHEREAS, the Executive Summary is incorporated into this resolution, and

WHEREAS, the United States Congress passed the Disaster Mitigation Act of 2000 (DMA2K), which requires that a local unit of government must have an approved all hazard mitigation plan before it can receive Federal grant monies from the Federal Emergency Management Agency for pre-disaster mitigation projects, and

WHEREAS, Jefferson County Emergency Management has updated the comprehensive Hazard Mitigation Plan, initially adopted in 2008, that evaluates the risks posed by potential hazards including, but not limited to, flooding, tornadoes, winter storms, and other severe weather conditions, and identifies strategies for reducing the impact of such hazards on the community, and

WHEREAS, the Jefferson County Board of Supervisors adopted Resolution No. 2024-43 on September 10, 2024, to accept public input concerning the updated plan, and

WHEREAS, Jefferson County has engaged relevant stakeholders, including local governments, emergency responders, community organizations, and the public, in the planning process to ensure the plan is comprehensive and reflects the needs of all residents, and

WHEREAS, the Jefferson County Hazard Mitigation Plan is designed to enhance the County's ability to protect its residents, infrastructure, and economy from the effects of disasters through proactive mitigation strategies, improved risk assessments, and coordinated response efforts, and

WHEREAS, the adoption of this plan demonstrates Jefferson County's commitment to mitigating hazards and improving the resilience of our communities, and

WHEREAS, the Jefferson County Board of Supervisors makes the following findings:

1. The Jefferson County Hazard Mitigation Plan, as prepared and presented by the Jefferson County Emergency Management Department, is hereby adopted as the official Hazard Mitigation Plan for Jefferson County.
2. The plan shall be used as a guide for future hazard mitigation efforts and will serve as the foundation for seeking and applying for federal, state, and local funding to implement mitigation projects.
3. The Jefferson County Emergency Management Director is hereby authorized to submit the adopted plan to FEMA and other relevant authorities for approval.
4. The Hazard Mitigation Plan shall be reviewed periodically and updated as necessary, with public input and participation from relevant stakeholders, to ensure its continued relevance and effectiveness.

NOW, THEREFORE, BE IT RESOLVED that Jefferson County hereby adopts the Jefferson County Natural Hazards Mitigation Plan: 2025-2029. While content related to Jefferson County may require revisions to meet the plan approval requirements, changes occurring after adoption will not require Jefferson County to re-adopt any further iterations of the plan. Subsequent plan updates following the approval period for this plan will require separate adoption resolutions.

BE IT FURTHER RESOLVED THAT this resolution shall take effect immediately upon its adoption.

Fiscal Note: This resolution has no direct fiscal impact.

Strategic Plan Reference: YES

Highly Regarded Quality of Life: Anticipate and plan for environmental vulnerabilities, to include drought, zoonotic, heavy storms, and other disaster events; Develop a comprehensive flood mitigation plan to evaluate and plan for current and future risk and mitigation strategies

Voice Vote - Passed

STATE OF WISCONSIN)
)ss
COUNTY OF JEFFERSON)

I, Audrey McGraw, County Clerk of Jefferson County, Wisconsin, do hereby certify that the attached is a true and correct copy of Resolution No. 2025-10, adopted at the April 15, 2025, Session of the County Board of Supervisors at the County Courthouse in the City of Jefferson.

WITNESS MY HAND AND SEAL this 21st day of April 2025.

JEFFERSON CO. CLERK WISCONSIN

Audrey McGraw
Jefferson County Clerk
Jefferson, Wisconsin

Law Enforcement & Emergency Management Committee 04-15-2025

REVIEWED: Corporation Counsel: DHT ; Finance Director:

NATURAL HAZARDS MITIGATION PLAN: 2025-2029

COUNTY ADOPTION: APRIL 15, 2025

JEFFERSON COUNTY, WISCONSIN

FORWARD

The *Jefferson County Hazard Mitigation Plan: 2025-2029* consists of six chapters. The first chapter provides an overview of the project. The second chapter presents background information about Jefferson County including its setting, demographic and economic characteristics, climate, natural resources, land use, and development trends. Chapter 3 presents background information related to special needs populations and groups in the county. Chapter 4 contains a complete inventory of critical facilities in the county. Natural hazards are reviewed in Chapter 5 along with estimated losses to buildings, infrastructure, and critical facilities. In Chapter 6, goals, objectives, and policies are identified that will help to craft appropriate solutions to the identified problems. A range of activities are also presented to help foster hazard mitigation efforts. Various funding sources are reviewed with an eye towards identifying options for funding identified projects. Most of the maps in the plan are included in the appendix.

Jefferson County initially adopted a multi-jurisdictional plan in 2008 and updated the plan in 2012 and 2018. This most recent version is intended to guide mitigation efforts in Jefferson County during the five-year period from 2025 through 2029.

INTRODUCTION

1. CHAPTER OVERVIEW

This chapter introduces the need for this plan by making the case that natural disasters have historically caused substantial damage to people and property in Jefferson County, and that while it is not possible to prevent natural disasters from occurring, it is possible to better position a community to mitigate the effects of natural disasters. The purpose and scope of this plan are described so that it is clear what this document is intended to do and how it relates to other previous planning efforts and ongoing emergency management activities. The ways in which the general public and local units of government were involved in the preparation, review, and adoption of this plan are documented. A procedure for keeping this document current is described. In the final section, those governmental units adopting this plan are listed.

2. PURPOSE

It's fair to say that most people do not think about natural disasters until they are personally affected in some way. When a significant event does strike, the general public most often looks to government at all levels and non-governmental organizations, like the American Red Cross, for assistance. Likewise, local units of government look to state agencies and the federal government for financial help and assistance. Depending on the scale of the incident, assistance can be short-term or on-going over an extended period of time.

Chapter Contents

1. Chapter Overview
2. Purpose
3. Scope
4. Relationship of Mitigation Planning to Other Emergency Management Activities
5. Relationship to Other Plans and Studies
6. Plan Preparation, Review, and Adoption
7. Plan Maintenance and Amendment
8. Incorporating this Plan into Other Planning Efforts
9. Governmental Units Adopting this Plan

Throughout the United States, government's response, and associated costs, has grown significantly. At the federal level, the average annual loss from natural disasters was $3.3 billion between 1989 and 1993. Between 1994 and 1998, that figure rose to $13 billion.

In an effort to curb rising costs, the federal government adopted the Disaster Mitigation Act of 2000 (DMA 2000). It amended the Robert T. Stafford Disaster Relief and Emergency Act, which is the primary law at the federal level dealing with disaster planning, mitigation, response, and recovery.

DMA 2000 reinforced the importance of hazard mitigation planning to proactively devised strategies intended to avoid and reduce the negative effects of natural disasters. If a community wants to apply for grant funding from the Pre-Disaster Mitigation (PDM) Program or the Hazard Mitigation Grant Program (HMGP), it must have an approved hazard mitigation plan. If a disaster strikes a community that does not have an approved plan, it can only receive funding through HMGP if it agrees to prepare a plan within one year.

Jefferson County and participating municipalities have prepared this plan to meet this new requirement, and in so doing, help its citizens mitigate the effects of natural disasters.

3. SCOPE

The scope of this plan is limited to natural hazards. It does not address threats of terrorism or man-made hazards. Hazardous materials (HAZMAT) are addressed in this plan when the production and storage are vulnerable to natural hazards such as flooding. Plans and programs are in place at the county and state levels to address HAZMAT incidents and accidents.

4. RELATIONSHIP OF MITIGATION PLANNING TO OTHER EMERGENCY MANAGEMENT ACTIVITIES

Mitigation planning is one prong of a multi-faceted approach to Emergency Management (*Exhibit 1-1*). Each of these are briefly described to help provide context for this plan.

MITIGATION

Mitigation is any activity that is proactively done to reduce a community's vulnerability of damage from future disasters. Mitigation is the focus of this plan.

PREPAREDNESS

Emergency preparedness focuses exclusively on creating effective strategies and procedures to respond to an emergency. It includes creating the institutional framework for response and protocol for decision making, conducting training of first responders, ensuring equipment is available and operational, and developing and maintaining an appropriate communications network.

Jefferson County has a well-established and tested emergency operations plan (EOP). It identifies a decision-making structure and areas of responsibility depending on the nature of the emergency.

RESPONSE

Response includes any action taken immediately before, during, and after an event to save lives and minimize property damage.

RECOVERY

Although the extent and type of recovery efforts will vary with the nature and extent of the event, they focus on restoring support services and infrastructure and helping those affected to regain a sense of normalcy. Recovery starts as soon as the incident occurs.

It is important to recognize that each of these areas focuses on different aspects of emergency management, but that the effectiveness of each depends on an integrated systems approach.

Key Terms in This Chapter

Disaster Mitigation Act of 2000 (DMA 2000) – A federal law (P.L. 106-390) amending the Robert T. Stafford Disaster Relief and Emergency Act. The act authorizes the president to establish (1) a program of technical and financial assistance to the states and local governments to assist in the implementation of pre-disaster hazard mitigation measures; (2) the National Predisaster Mitigation Fund; and (3) an interagency task force. It requires state, local, or tribal governments to develop predisaster hazard mitigation plans as a precondition of receiving certain federal funds and controls and streamlines the cost of disaster assistance.

Federal Emergency Management Agency (FEMA) – A federal agency created in 1979 with a mission to reduce loss of life and property and protect our nation's critical infrastructure from all types of hazards through a comprehensive, risk-based emergency management program of mitigation, preparedness, response, and recovery. In March 2003, it was placed under the Department of Homeland Security.

Hazard mitigation plan – A plan prepared at the state or local level that systematically evaluates policies, actions, and tools, and sets goals for implementation over the long term that will result in a reduction in risk and minimize future losses in a community.

Hazard Mitigation Grant Program (HMGP) – A federal program administered by the Federal Emergency Management Agency intended to prevent future losses of lives and property due to disasters; to implement state or local hazard mitigation plans; to enable mitigation measures to be implemented during immediate recovery from a disaster; and to provide funding for previously identified mitigation measures to benefit the disaster area. It was authorized under Section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

Wisconsin Emergency Management (WEM) – A state agency that specializes in hazard mitigation, warning and communications, emergency police services, disaster response and recovery, hazardous materials & EPCRA, radiological emergency preparedness, and exercise and training.

5. Relationship to Other Plans and Studies

The following plans, studies, and reports were reviewed in preparing this plan:

Exhibit 1-1. Emergency Management

Comprehensive Plans Jefferson County and many of the cities and villages have adopted comprehensive plans consistent with state requirements. At a minimum, a comprehensive plan needs to address the following nine elements:

- Issues and opportunities
- Housing
- Transportation
- Utilities and Community Facilities
- Agriculture, Natural and Cultural Resources
- Economic Development
- Intergovernmental Cooperation
- Land Use
- Plan Implementation

Land use policies established in a community's comprehensive plan have a significant relationship to this plan especially in the area of floodplain management. For example, what kind of development will a community allow in the floodplain? This is a significant public policy questions that should be addressed in a comprehensive plan.

- **Jefferson County Hazards Analysis** This document identifies those hazards that have or could occur in the county. It also describes each hazard, its frequency of occurrence, and actions being taken to mitigate the hazard. It was last updated March 2012.

- **Jefferson County Flood Mitigation Plan** In 1999, Jefferson County adopted a flood mitigation plan for the unincorporated area of the county and updated it in 2001. The goal of the plan is to reduce the economic and personal costs of flood damages and is intended to:
  - Document the extent of existing flooding
  - Document the potential economic impacts of major flooding
  - Identify properties at greatest risk of damage
  - Document properties with repetitive flood damages
  - Identify feasible management alternatives to reduce flood risks
  - Identify potential funding sources for flood mitigation implementation
  - Develop a proactive implementation strategy to reduce flood risks
  - Identify strategies to ensure the community's preparedness in case of a flood disaster
  - Make Jefferson County and its residents eligible for federal financial assistance from the Flood Mitigation Assistance program administered by FEMA.

- **Jefferson County Hazardous Materials Response Plan** Jefferson County has a hazardous materials response plan which identifies the policies and procedures for responding to hazardous materials incidents/accidents. It was adopted in compliance with the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) and state law codified in Section 166.20, Wis. Stats. It was last updated March, 2011. A commodity flow study was completed in 2023.

- **Jefferson County Emergency Operations Plan (EOP)** The Jefferson County Office of Emergency Management maintains an emergency operations plan (EOP) that identifies the procedures for responding to emergency events in the county.

- **Jefferson County Land and Water Resources Management Plan 2021-2030** Jefferson County Land and Water Conservation Department prepared the Jefferson County Land and Water Resource Management Plan for 2021-2030, an update of the 2011-2020 plan, to guide land and water resource protection in the county. The plan addresses the protection of lakes, stream, wetlands, and soil. Like the county land use plan, this plan further protects environmentally sensitive areas and natural flood storage in the county. Implementation of the plan's recommendations will assist in the prevention of flood damage in Jefferson County.

- **State Hazard Mitigation Plan** This plan was prepared by Wisconsin Emergency Management (WEM) and complies with the requirements of the Disaster Mitigation Act of 2000 at the state level.

- **Emergency Action Plan Lower Watertown Dam** This plan was prepared by the Rock River Power and Light Corporation for the hydroelectric plant on the Rock River in the city of Watertown.

- **Emergency Action Plan Upper Watertown Dam** This plan was prepared by the Rock River Power and Light Corporation for the hydroelectric plant on the Rock River in the city of Watertown.

- **Jefferson County Business Flood Assessment** This report was prepared to assess the knowledge, experiences, and impact the flooding had on the business owners of Jefferson County, who own or operate businesses along the Rock and Crawfish Rivers in the communities of Fort Atkinson, Jefferson, Johnson Creek, Lake Mills, Palmyra, Waterloo, and Watertown, Wisconsin.

- **Flood of June 2008 in Southern Wisconsin** This report was prepared by the U.S. Geological Service (USGS) in cooperation with the Federal Emergency Management Agency (FEMA). Flood peak inundation maps and water surface profiles were generated for the communities of Reedsburg, Rock Springs, LaFarge, Gays Mills, Milford, Jefferson, Fort Atkinson, Janesville, and Beloit in a geographic information system by combining flood high-water marks with available 1-10 meter resolution digital-elevation-model data. The high-water marks used in the maps were a combination of those surveyed during the June 2008 flood by communities, counties, and federal agencies and hundreds of additional marks surveyed in August 2008 by the USGS. The flood maps and profiles outline the extent and depth of flooding through the communities and were used in flood response and recovery efforts by local, county, state and federal agencies. (Scientific investigations Report 2008-5235, U.S. Geological Survey)

- When any of these local plans are updated, they should incorporate provisions, as may be appropriate, that support this plan.

6. Plan Preparation, Review, and Adoption

2008 Plan

The Jefferson County Board adopted a public participation plan on July 11, 2006 that describes the ways in which the public and local units of government would be involved in the preparation, review, and approval of the plan. Key elements include: a project website, publication of all meetings, submittal of press releases, and public presentations.

An ad hoc working group was established and given the responsibility of developing the first draft of the plan. It consisted of ten members, including staff from various county departments and a representative from Forth Health Care and from the National Weather Service. Work on this plan began with the first meeting on June 29, 2006. In all, the working group met four times to work on the plan and review various drafts.

Local jurisdictions were involved in a number of ways and were kept abreast of the plan's progress. Initially, letters were sent to each local unit of government inviting them to designate an individual who would serve as a point of contact and a liaison. The local contact was given a listing of critical facilities in his/her jurisdiction for review and

comment. A member of the consulting team attended a meeting of the Jefferson County Towns Association and presented the project to the attendees and answered questions.

After the working group finished its work, it submitted a draft plan to the Jefferson County Law Enforcement Emergency Management (LEEM) Committee, a committee of the County Board. The LE/EM Committee reviewed the draft plan and made revisions. At this point, public presentations were held for local officials and the public at five locations throughout the county. Following those meetings, the LE/EM Committee made revisions to the draft plan and on January 22, 2008 recommended the draft plan to the full County Board for its review and action.

On February 12, 2008 the County Board adopted this plan by resolution. A number of local jurisdictions also adopted this plan by resolution. In a letter dated July 25, 2008, Wisconsin Emergency Management and the Federal Emergency Management Agency certified that this plan meets federal requirements.

2012 5-Year Plan Update

In 2011, the Jefferson County Emergency Management office applied for and received a grant to prepare a five-year update to the plan. The county contracted with Civi Tek Consulting for this project.

The Jefferson County Board of Supervisors adopted a public participation plan on April 17, 2012, that describes the ways in which the public and local units of government would be involved in the preparation, review, and approval of the plan update. Key elements include: a project website, establishment of a steering committee, publication of all meetings, submittal of press releases, and numerous opportunities for submitting written comments and suggestions.

No comments were received from residents, property owners, or other interested parties during the process.

Municipalities in the county were involved in a number of ways and were kept abreast of the plan's progress. Initially, letters were sent to each municipality inviting them to approve a memorandum of understanding (MOU) and to designate an individual who would serve as a point of contact and a liaison. All of the municipalities approved the MOU. The local point of contact was given a listing of critical facilities in his/her jurisdiction for review and comment. Corrections were made to the list of critical facilities based on the input received.

A steering committee was established and given the responsibility of reviewing the draft of the plan update. Members are listed in the acknowledgements to this plan. The committee met on July 9, 2012 to review the proposed changes to the plan. Members of the public in attendance were given an opportunity to provide input (see agenda).

After the steering committee finished its work, another draft (2.0) was prepared, which was sent to Wisconsin Emergency Management (WEM) for tentative review. A third draft of the plan was prepared to address WEM's initial comments.

A copy of this draft was then sent to each of the cities and villages in the county, the adjoining counties, and the local chapter of the American Red Cross for review and comment.[1] An executive summary was sent to each of the towns for review and comment. Revisions as requested were incorporated into the plan document.

A fourth draft of the plan was prepared based on the local government input that was received. It was then sent to the Federal Emergency Management Agency for preliminary approval. A letter dated June 3, 2013, indicated such approval. The Law Enforcement/Emergency Management Committee of the County Board reviewed this draft on June 28, 2013, and recommended the draft plan to the full County Board for its review and action.

On July 9, 2013 the County Board of Supervisors adopted the plan update. The Federal Emergency Management Agency and Wisconsin Emergency Management certified that this plan update meets federal requirements on October 18, 2013 and October 28, 2013 respectively.

[1] Note: Jefferson County is not located within the jurisdiction of a regional plan commission.

Table 1-1 summarizes the changes made to each section of the plan as part of the update.

Table 1-1. Summary of Changes Made in the 2012 Plan Update

Plan Section	Summary of Changes
Chapter 1	This chapter was reviewed and updated as needed. Specifically, a narrative describing the process used in developing the update was included. The procedure for plan maintenance was reviewed and updated. A section titled "Incorporating this Plan into Other Planning Efforts" was added.
Chapter 2	This chapter was updated using data the best available data.
Chapter 3	This chapter was updated including data from the 2010 Census of population and housing.
Chapter 4	This chapter was updated.
Chapter 5	Natural hazard profiles, occurrences, and probabilities were reviewed and updated as necessary. In addition, the risk assessments were updated.
Chapter 6	This chapter was updated. The steering committee focused in on the goals, objectives, policies, and activities. Revisions were made and new ones were added.
Map Series	All of the maps were updated.
Appendix A	Public participation documentation for the 2013-2017 plan is included.
Appendix B	Resolutions adopting the 2013-2017 plan update are included.
Appendix C	Certification letters from WEM and FEMA for the 2013-2017 plan are included.
Appendix D	This appendix was updated to list all of the municipalities adopting the plan.
Appendix E	The listing represents an up-to-date inventory of critical facilities in the county sorted by type of facility.
Appendix F	The listing represents an up-to-date inventory of critical facilities in the county sorted by jurisdiction.
Appendix G	The history of storm events was updated using data provided by the National Weather Service.
Appendix H	No change
Appendix I	No change

2018 5-Year Plan Update (2019-2023)

The Jefferson County Emergency Management office applied for and received a grant in 2016 to prepare a five-year update to the plan (2019-2023). The county contracted with Civi Tek Consulting for this project.

The Jefferson County Board of Supervisors adopted a public participation plan on July 11, 2017, that describes the ways in which the public and local units of government would be involved in the preparation, review, and approval of the plan update. No comments were received from residents, property owners, or other interested parties during the process.

Municipalities in the county were involved in a number of ways and were kept abreast of the plan's progress. Initially, letters were sent to each municipality inviting them to approve a memorandum of understanding (MOU) and to designate an individual who would serve as a point of contact and a liaison.

A steering committee was established and given the responsibility of reviewing the draft of the plan update. Members are listed in the acknowledgements to this plan. The committee met to review the proposed changes to the plan. A copy of this draft was then sent to each of the cities and villages in the county, the adjoining counties, and the local chapter of the American Red Cross for review and comment.[2] An executive summary was sent to each of the towns

[2] Note: Jefferson County is not located within the jurisdiction of a regional plan commission.

for review and comment. All of the municipalities responded. Revisions as requested were incorporated into the plan document.

A draft of the plan was prepared based on the local government input that was received. It was then sent to the Federal Emergency Management Agency for preliminary approval. The Law Enforcement/Emergency Management Committee of the County Board reviewed this draft on December 28, 2018, and recommended the draft plan to the full County Board for its review and action. On January 8, 2019 the County Board of Supervisors adopted this plan. Wisconsin Emergency Management certified that this plan update meets federal requirements on February 13, 2019. *Table 1-2* summarizes the changes made to each section of the plan as part of the 2018 update.

Table 1-2. Summary of Changes Made in the 2012 Plan Update

Plan Section	Summary of Changes
Chapter 1	This chapter was reviewed and updated as needed.

Appendix I	No change

2024 5-YEAR PLAN UPDATE (2025-2029)

The Jefferson County Emergency Management office applied for and received a grant in 2023 to prepare the third five-year plan update. As with the other plan updates, the County Board adopted a public participation plan at their meeting on September 10, 2024. A steering committee was formed, consisting of 17 members as listed in the acknowledgements section.

The following committee meetings were held (*Appendix B*):

- September 30, 2024 (10 Attendees)
- October 24, 2024 (13 Attendees, one of which was a member of the public)

To promote intergovernmental participation, a survey was sent to all of the towns, cities, and villages (*Appendix B*). Responses were reviewed and used in developing the mitigation strategy.

School districts in the county were invited to be a part of this plan update and were sent a survey (*Appendix B*).

The American Red Cross and each of the adjoining counties were contacted to solicit early feedback (*Appendix B*).

The various chapters and appendices were posted on the county's website as they were finalized.

The Jefferson County LEEM Committee reviewed the plan at their meeting on March 28, 2025 and recommended approval. The Jefferson County Board conducted a public hearing at their meeting on April 15, 2025, and adopted the plan at that time.

Jefferson County is not served by a regional plan commission (RPC).

Table 1-3 summarizes the major changes to the 2018 plan.

Table 1-3. Summary of Changes Made in the 2018 Plan Update

Plan Section	Summary of Changes
Chapter 1	This chapter was reviewed and updated as needed.
Chapter 2	This chapter was updated using the best available data.
Chapter 3	This chapter was updated including data from the 2020 Census of population and housing and the 2023 American Community Survey. Information regarding under-served populations is included.
Chapter 4	This chapter was updated to reflect changes in critical facilities.
Chapter 5	Natural hazard profiles, occurrences, and probabilities were reviewed and updated as necessary. In addition, the risk assessments were updated.
Chapter 6	This chapter was updated. The steering committee focused in on the goals, objectives, policies, and activities. Revisions were made and new ones were added. A description of Lifelines was added. A listing of major accomplishments was updated to chronicle all of the work that has happened in the last 5 years.
Appendix A	Maps were updated as needed. Maps were added for (1) persons over 65 years of age, (2) persons with disabilities, (3) persons of minority status; and (4) persons living below poverty threshold.
Appendix B	Public participation documentation for the 2025-2029 plan is included.
Appendix C	Resolutions adopting the 2025-2029 plan update are included.
Appendix D	Certification letters from WEM and FEMA for the 2025-2029 plan are included.
Appendix E	This appendix was updated to list all of the municipalities adopting the plan.

Table 1-3. Summary of Changes Made in the 2018 Plan Update

Plan Section	Summary of Changes
Appendix F	The listing represents an up-to-date inventory of critical facilities in the county sorted by type of facility.
Appendix G	The listing represents an up-to-date inventory of critical facilities in the county sorted by jurisdiction.
Appendix H	The list of Red Cross shelters was updated and included as an appendix.
Appendix I	The history of storm events was updated using data provided by the National Weather Service. The additional information was reviewed and used in prioritizing weather events.
Appendix J	No change
Appendix K	No change
Appendix L	The list of acquired properties was updated and included as an appendix.
Appendix M	The list of federal and state grants was updated and included as an appendix.

7. Plan Maintenance and Amendment

Without periodic review and assessment, this plan has the potential to lose its relevance as conditions change, specific projects are implemented, and new priorities emerge.

DMA 2000 requires that an adopted plan be reviewed and updated at least once every five years. However, to ensure that the plan remains a viable planning tool, it should be reviewed each year and following a natural disaster. The Federal Emergency Management Agency (FEMA) and Wisconsin Emergency Management (WEM) will be notified of amendments to this plan.

Annual Review

Each November, the Emergency Management Director should review and monitor this plan and suggest amendments to the LEEM Committee. As part of this review, the Emergency Management Director should contact each of the participating jurisdictions to give them the opportunity to suggest changes. During this annual review, most of the focus should be on Chapter 6, which lists the goals, objectives, polices, and activities.

To determine whether amendments are needed, the following considerations should be reviewed:

- Review of general development trends
- Review of hazard risks
- Review of hazard mitigation goals and objectives
- Review of completed mitigation activities and their effectiveness
- Review of recommended strategies
- Review of available resources for future projects
- Public input
- Input from WEM and FEMA

Following a Natural Disaster

In addition, to a yearly review cycle, this plan should be updated following a significant natural disaster. Ideally, the update would be completed within six months of the event.

The public will be formally notified of meetings scheduled for the purpose of plan review. Other mechanisms that will be used to maintain public involvement include making available a copy of the plan at local public libraries, issuance of periodic press releases to the media describing the status of plan implementation and the use of the county's website as a medium to keep residents informed of the plan's status and implementation activities.

HISTORY OF ADOPTION AND AMENDMENT

A history of adoption and amendment is included in Appendix E. It lists when this plan was first adopted and the various amendments which have taken place since then.

8. INCORPORATING THIS PLAN INTO OTHER PLANNING EFFORTS

The state-mandated comprehensive plan and floodplain regulations will be the primary means of reducing the effects of hazards on people and property in Jefferson County. Mitigation strategies can be incorporated into these plans when they are updated. Each jurisdiction should incorporate goals, objectives, and policies into their comprehensive plans that are consistent with this plan. Following adoption of the 2025 plan update, the Jefferson County Emergency Management Director will send a letter to the Plan Commission of each city and village encouraging them to cross reference their plan revisions with this plan. Likewise, amendments to this plan should be made consistent with comprehensive plans so long as such action would reduce the impact of hazards on people and property.

In addition to long-range planning, this plan will also be utilized when reviewing land development projects. It will be useful to consult this plan to determine where hazards are located, primarily in 100-year floodplains. The plan will also be consulted as necessary when capital improvement plans are being prepared. Again, the intent of these cross-cutting planning efforts is to reduce the effects of hazards on people and property.

9. GOVERNMENTAL UNITS ADOPTING THIS PLAN

This plan has been prepared at the county level as a multi-jurisdictional document with the active input and direct involvement of the cities, villages, and towns. The Jeferson County Board of Supervisors adopted the plan on April 15, 2025. Cities and villages have 12 months from that date to adopt the plan (*Appendix E*).

.

PLANNING AREA PROFILE

1. CHAPTER OVERVIEW

This chapter is intended to give an overview of Jefferson County to help describe the setting and provide the general context for mitigation planning.

2. REGIONAL CONTEXT

Jefferson County is located midway between the Milwaukee and Madison metropolitan areas. It is bordered by Waukesha County on the east, Dodge County on the north, Dane County on the west, and Walworth and Rock counties on the south (*Exhibit 2-1*). It encompasses 564 square miles and is located in the Eastern Ridges and Lowlands portion of southeastern Wisconsin which is densely populated with a high concentration of industry and farms.

The Rock River, which travels north to south in the central to western half of the Jefferson County, is a Mississippi River tributary that flows through northern Illinois. It drains most of Jefferson County. The major feeder streams are the Crawfish, Bark, Scuppernong, and Oconomowoc rivers and the Whitewater, Koshkonong, and Deer creeks. Lake Koshkonong is the largest lake, located in the southwest portion of the county. Other smaller lakes are Rock Lake, Lake Ripley, Hahn's Lake, Red Cedar Lake, Goose Lake, Golden Lake, Mill Pond, Green Isle Lake, Upper and Lower Spring Lake, and Blue Spring Lake.

Exhibit 2-1. General Location

Land use percentages of assessed totals are estimated as 67 percent for agricultural with residential and commercial uses at 9 percent each. Approximately 5 percent of the county's surface is covered with water (i.e., lakes, rivers, streams, etc.) and the remaining balance is non-assessed properties such as government, religious, non-profit, and other uses.

5. Population
6. Housing
7. Transportation
8. Land Use and Development Trends
9. General Climate
10. Soil
11. Topography
12. Surface Water Resources
13. Wetlands

Industry is the largest employment sector at 46 percent. There are approximately 1,420 farms with an average size of 174 acres.

3. Units of Government

Civil divisions in Jefferson County consist of 16 towns, 5 villages, and 6 cities (*Table 2-1* and *Map 1*). The City of Watertown is located in Jefferson and Dodge counties. The Village of Cambridge is located in Jefferson and Dane counties. The majority of Lac La Belle is located in Waukesha County. The City of Whitewater is located in Jefferson and Walworth counties. The City of Jefferson is the county seat.

Table 2-1. Civil Divisions; Jefferson County: 2024

Towns	Cities	Villages

Milford		
Oakland		
Palmyra		
Sullivan		
Sumner		
Waterloo		
Watertown		

Notes: 1. Municipality located in Jefferson County and another county

4. School Districts

There were 13 school districts in Jefferson County (*Table 2-2* and *Map 2*). Four of the districts do not maintain a school in the county.

Table 2-2. School Districts; Jefferson County: 2024

District name	Public schools in Jefferson County
Cambridge	1
Edgerton	0
Fort Atkinson	6
Jefferson	4
Johnson Creek	1
Kettle Moraine	0
Lake Mills	3
Milton	0
Oconomowoc Area	1
Palmyra-Eagle Area	1
Waterloo	4
Watertown Unified	4
Whitewater Unified	0

5. Population

According to the U.S. Census Bureau, there were 84,900 county residents in 2020 (*Table 2-2*). With 5,120 residents, the town of Ixonia is the most populous of the 16 towns in the county. The Village of Johnson Creek is the most populous village and Watertown is the most populous city. As seen in *Table 2-3*, the county has enjoyed steady growth since 1990.

At -0.2 percent, cities as a group posted the smallest change in population from 2010 to 2020 when compared to towns as a group (2.7%) and villages (9.3%) also as a group. With the exception of two towns, the population in towns posted modest population gains. The Town of Ixonia experienced the highest rate of change (16.8%) and the largest numerical gain (735 residents). With a change in population of 9.3 percent, the Town of Lake Mills posted the second highest rate of change, although it only added 126 residents.

Except for a small corner of the village, Lac La Belle is located in Waukesha County and has only 2 residents in Jefferson County. Of the villages, Johnson Creek experienced the largest change from 2010 to 2020 (21.2%) and also the largest numerical increase (580 residents). Twelve of the twenty-seven municipalities experienced a decrease in their populations.

The portion of the City of Watertown in Jefferson County has a current population of 14,674 residents. With 12,579 residents, Fort Atkinson is the second most populous city in the county. Between 2010 and 2020, only three of the six cities saw a population increase, with Lake Mills growing the fastest at 8.8 percent.

Table 2-3. Population; Jefferson County and Civil Divisions: 1980, 1990, 2000, 2010, 2020, and 2022

Town	1980 Census	1990 Census	2000 Census	2010 Census	2020 Census	Percent Change 2010-20	2022 ACS Estimate

Notes: 1. Municipality located in Jefferson County and another county

6. HOUSING

According to the 2022 American Community Survey of population and housing (ACS), there were over 36,000 dwelling units in the county (*Table 2-4*). Almost 72 percent were single family residences. Structures with 5 to 9 units represent the second most common housing type. Dwellings of 2 units are the third most common type of housing. Over one-fourth of the county's housing stock was built more than 70 years ago (*Table 2-5*).

Table 2-4. Housing Types; Jefferson County: 2022

Units in structure	Number	Percent
1-unit, detached	26,164	71.7
1-unit, attached	1,321	3.6
2 units	1,797	4.9
3 or 4 units	1,208	3.3

1950 to 1959	3,532	9.7
1940 to 1949	1,553	4.3
1939 or earlier	8,960	24.6
Total	**36,469**	**100.0**

Source: US Census Bureau; American Community Survey (2022)

7. TRANSPORTATION

SURFACE TRANSPORTATION

The county contains approximately 1,374 miles of roadways (*Table 2-6* and *Map 3*). Nearly two-thirds of which are classified as a local road. Interstate 94 travels east and west in the northern part of the county (*Map 1*). Interchanges are located at the City of Lake Mills (STH 89), the Village of Johnson Creek (STH 26), and at Concord (CTH F).

The other key regional highways include STH 26, STH 12, STH 18, and STH 16. Each of these highways connects one or more of the incorporated municipalities in Jefferson to the Interstate highway system and provides access to nearby metropolitan areas. Extremely hazardous substances may be transported over any local, state, or federal highway, without restriction provided weight limits are met.

Table 2-6. Roadway by Type: Jefferson County

Type of Roadway	Miles	Percent of Total
Interstate Highway	24.56	1.8
State Highway	151.74	11.0
County Highway	259.77	18.9
Local Roads	919.41	66.9
Other	18.58	1.4
Total	**1374.06**	**100**

Source: Jefferson County

AIR TRANSPORTATION

Public-use airports are located in the City of Watertown, City of Fort Atkinson, and Village of Palmyra (*Map 12*).

- Watertown Municipal Airport is classified as transport/corporate based airport[1]. Forecasts prepared for the Wisconsin Bureau of Aeronautics indicate that use will increase to 7,530 operations by 2030, a 1 percent decrease since 2010 (58,000).
- Fort Atkinson Municipal Airport is classified as a general utility airport[2]. Total operations are forecasted to grow at a rate of 2% from 10,900 in 2010 to 11,880 in 2030.
- Palmyra Municipal Airport is classified as a basic utility airport[3]. It is estimated that use will decrease slowly by 1% from 15,650 in 2010 to 15,470 operations by 2030.

In addition to these public-use airports, there are a number of private-use airports, including McDermott Airpark. Private-use airports are not considered critical infrastructure for the purposes of this plan.

RAIL TRANSPORTATION

As shown on *Map 12*, there are three railroads in Jefferson County: Wisconsin Southern, Union Pacific, and Canadian Pacific.

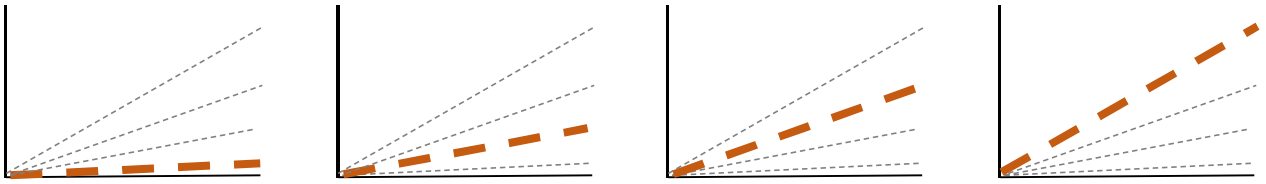
8. LAND USE AND DEVELOPMENT TRENDS

The unincorporated area of Jefferson County is predominated by rural land uses, principally agriculture (*Map 4*). The Jefferson County Comprehensive Plan and Land Use Map summarize the most recent land use totals by acreage. In the unincorporated area, agriculture and other open lands account for nearly three-quarters of the land area. With 15.6 percent of the land area, wetlands constitute the second largest land use type.

As envisioned in the county's recently adopted farmland preservation plan, most of the future growth is expected to take place in planned urban service areas located in or adjacent to the existing urban municipalities. Most rural areas of the county are zoned as agricultural preservation areas and environmental corridor, which limit urban development.

Urban development is anticipated to increase proportional to the population growth, and will likely be limited to approximately 800 to 900 acres of new urban development in the unincorporated areas of the county. Anticipated development in cities and villages are graphically depicted in *Exhibit 2-1*.

Exhibit 2-1. Anticipated Population Growth Next Ten Years



Not Much (or Decline)	Slow	Moderate	High
Village of Palmyra	Village of Cambridge	City of Fort Atkinson	City of Lake Mills
Village of Sullivan	Village of Lac La Belle [1]	City of Jefferson	City of Watertown
	City of Waterloo	City of Whitewater	
		Village of Johnson Creek	

Note: Rankings for municipalities in Jefferson County are for comparative purposes only

[1] A transport/corporate airport is intended to serve corporate jets, small passenger and cargo jet aircraft used in regional service and small aircraft (piston and turboprop) used in commuter air service.

[2] A general utility airport is intended to serve virtually all small general aviation single and twin-engine aircraft, both piston and turboprop, with a maximum takeoff weight of 12,500 pounds or less.

[3] A basic utility airport is intended to serve all small single-engine piston aircraft and many smaller twin-engine aircraft with a maximum takeoff weight of 12,500 pounds or less.

9. General Climate

Wisconsin's climate is typically classified as continental. About two-thirds of the annual precipitation falls during the growing season (freeze-free period). It is normally adequate for vegetation, although drought is occasionally reported. This climate is most favorable for dairy farming; the primary crops are corn, small grains, hay, and vegetables. The rapid succession of storms moving from west to east or southwest to northeast account for the stimulating climate.

Table 2-7 charts conditions in the City of Lake Mills, which is representative of the entire county.

Table 2-7. Climate; City of Lake Mills

Climate Normals	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec
Ave Daily High (F°)	26.6	32	43.7	59	71.7	80	85	82.1	74.3	62	46.2	31.4

Source: National Weather Service

The lakes and rivers of Jefferson County often are ice covered from late December to late March. Snow covers the ground 50 to 75 percent of winter days. Flooding is most frequent and most serious during March and April, and sometimes in February, due to the melting of snow and spring rains. During this period, flood conditions are often aggravated by ice jams that clog flowing floodwaters. Excessive rains from thunderstorms sometimes produce tributary flooding or flash flooding along the smaller streams and creeks.

10. Soil

The most common soil associations occurring in the upland areas of Jefferson County are the Fox, Kidder, Keowns, Mayville, Rotamer, and Sebwa silt loams. These soils are made up of loam and silt loam soils that have subsoils of silty clay loam over clay loam and underlain by calcareous loam glacial till. The soils of these associations are well drained and facilitate good infiltration of runoff. These soils fall mainly into the hydrologic soil group B[4].

Adrian and Houghton muck soils dominate the lowlands in the county. Adrian and Houghton muck soils are very poorly drained organic soil that consists of decomposed residue from wetland plants such as reeds, sedges, and forbs. Houghton muck occurs in old glacial lakebeds and wetlands. The lowland soils fall into hydrologic soil groups A/D, B/D and D, indicating limited infiltration capacity.

11. Topography

Jefferson County is located in a glaciated area, dominated by rolling hills and wide valleys. The topography of the area is the result of 4 major glacial advances, the last of which occurred about 12,000 years ago. Two lobes of the huge glacier sheet, known as the Green Bay and Lake Michigan lobes, interacted over southeast Wisconsin, including Jefferson County, with ice thicknesses ranging from 1/4 mile to 1 mile. As the glaciers advanced and retreated across the county, they deposited large amounts of rock debris known as drift. As the glaciers retreated, outpourings of sand and gravel were added to the drift. The two glacier lobes pushed up against each other over the southeast corner of Jefferson County, leaving behind rock debris that formed the Kettle Moraine ridge located in that part of the county.

[4] Soils are classified into four HSGs (A, B, C, and D) according to their minimum infiltration rate. The soils range from Group A, which has high permeability in well-drained soil with less runoff [produced], to Group D which has low permeability and more anticipated runoff.

The glacier left behind many ground moraines, which provide many hills located in the county. Among the moraines, large outwash plains formed as melt waters deposited fine sands and gravel. Most of the wide floodplain areas of the county are in these outwash plains. The large floodplains south of the City of Watertown, at Lake Koshkonong, and west of the City of Jefferson, are examples of large outwash plains.

12. SURFACE WATER RESOURCES

Jefferson County has a total of 40 lakes, 27 of these are named and 13 are unnamed (*Table 2-7*). Lake Koshkonong is the largest lake in the county followed by Rock Lake.

The Rock River and its tributaries drain Jefferson County. Upstream of the outlet of the Rock River at Lake Koshkonong, the river drains over 2,500 square miles and includes portions of Columbia, Dane, Dodge, Fond du Lac, Jefferson, Washington, and Waukesha counties.

The drainage basin of Rock River is divided into the Upper Rock River Basin and Lower Rock River Basin by the Wisconsin Department of Natural Resources for water quality planning purposes. Descriptions for each of the watersheds follow in the following sections.

UPPER ROCK RIVER BASIN

The northern and central portions of Jefferson County are drained by the Upper Rock River Basin. This basin includes all surface waters draining to the Rock River above the Bark River. More than 1,920 square miles are drained by the Upper Rock River, including all of Dodge County and parts of Columbia, Dane, Fond du Lac, Jefferson, Washington and Waukesha counties. The basin is divided into 13 watersheds. Seven of the 13 watersheds in the Upper Rock River Basin drain the northern and central parts of Jefferson County.

Middle Rock River Watershed (UR 01) The Middle Rock River watershed is approximately 132 square miles, including parts of Dodge and Jefferson counties. It extends from the north edge of Fort Atkinson upstream to the dam at Watertown. Totaling 55 stream miles, the major streams within the watershed are Deer Creek, Rock River, and nine unnamed creeks. Agriculture is the dominant land use in this watershed; however, urbanization is occurring on the north side of Fort Atkinson and on the southwest side of Watertown. There are three municipal wastewater treatment plant dischargers in this watershed (Watertown, Johnson Creek, and Jefferson) and four industrial dischargers.

Lower Crawfish River Watershed (UR 02) The Lower Crawfish River watershed is 178 square miles including parts of Dane, Dodge, and Jefferson counties. Totaling 90.4 stream miles, the major streams in the watershed are the Crawfish River, Mud Creek, Nolan Creek, Rock Creek, and 7 unnamed creeks. This watershed includes the Crawfish River and all its tributaries from the dam at Columbus downstream to its confluence with the Rock River at Jefferson. The land use in this watershed is primarily agricultural. There are two municipal wastewater treatment plants (Columbus and Lake Mills) and five industrial plants discharging into this watershed.

Maunesha River Watershed (UR 05) This watershed is 126 square miles and includes parts of Dane, Dodge, and Jefferson counties. Totaling 98 stream miles, the major streams in the watershed are Maunesha River, Schumacher Creek, Spring Creek, Stony Brook, Stransky Creek, and 19 unnamed streams. Agriculture is the predominant land use in this watershed. The watershed has two state wildlife areas. There are two municipal wastewater dischargers into the watershed (Marshall and Waterloo) and two industrial dischargers.

Johnson Creek Watershed (UR 07) The Johnson Creek watershed is 45 square miles in Jefferson County. Totaling 37.5 stream miles, the major streams in the watershed are Johnson Creek and seven unnamed creeks. The predominant land use in this small watershed is agriculture, although there has been increasing urbanization.

Sinissippi Lake Watershed (UR 08) The Sinissippi Lake watershed is 237 square miles including parts of Dodge and Jefferson counties. It includes the mainstream of the Rock River from the dam at Horicon downstream to the Watertown dam and all the streams which flow into the Rock River in this area. Totaling 160 stream miles, the major

streams in the watershed are Baker Creek, Oyman Creek, Dead Creek, Lentz Creek, Neda Creek, Oliver Creek, Rock River, Silver Creek, Wildcat Creek, Woodland Creek, and 20 unnamed streams. The land use in this watershed is primarily agricultural. There are eight communities which have municipal wastewater facilities that discharge into this watershed.

Oconomowoc River Watershed (UR 09) The Oconomowoc River watershed is 129 square miles including parts of Jefferson, Washington, and Waukesha counties. Totaling 88.8 stream miles, the major streams in the watershed are Battle Creek, Coney Creek, Flynn Creek, Little Oconomowoc River, Mason Creek, Oconomowoc River, Rosenow Creek, and 11 unnamed creeks. From its source, the Oconomowoc River flows in a southwesterly direction through six major lakes for approximately 49 miles before entering the Rock River in the Town of Ixonia. Urbanization is continuing, especially next to or near lakes. The City of Oconomowoc is the only municipality in the watershed with a wastewater discharge to surface water. There are approximately 1,100 acres of publicly-owned recreation lands and three large county-owned parks in this watershed.

Ashippun River Watershed (UR 10) The Ashippun River watershed is 69 square miles including parts of Dodge, Washington, and Waukesha counties and a small part of Jefferson County. Totaling 63 stream miles, the major streams in the watershed are Ashippun River, Davey Creek, Dawson Creek, Mud Run Creek, and nine unnamed creeks. The predominant land use is agricultural. The only municipal wastewater discharger in the watershed is the Town of Ashippun.

LOWER ROCK RIVER BASIN

The Lower Rock River Basin drains the southern, eastern, and western portions of Jefferson County. The Lower Rock River Basin drains an area of approximately 1,307 square miles including parts of Columbia, Dane, Jefferson, Rock, Walworth, and Waukesha counties. There are 15 watersheds in the Lower Rock River Basin, five of which drain the southern, eastern, and western portions of Jefferson County.

Lower Koshkonong Creek Watershed (LR 11) The Lower Koshkonong Creek watershed is approximately 219 square miles and includes parts of Dane, Jefferson, and Rock counties. Totaling 104 stream miles, the major streams in this watershed are Allen Creek, Koshkonong Creek, Otter Creek, Sounders Creek, and 15 unnamed streams. While the majority of wetlands in the watershed have been drained for agricultural purposes, many significant wetland areas remain. Agriculture is the predominant land use. There are significant soil losses in this watershed. Soil loss, coupled with wetland drainage and stream channel drainage, indicates significant sediment likely reaches the watershed's surface water, adversely affecting habitat, and water quality. Fort Atkinson, Cambridge, Rockdale, and Edgerton are each a municipal point discharger in the watershed.

Upper Koshkonong Creek Watershed (LR 12) The Upper Koshkonong Creek watershed is 107 square miles including parts of Dane and Jefferson counties. Totaling 73 miles, the major streams in the watershed are Koshkonong Creek, Mud Creek, and 35 unnamed streams. The land use is primarily agriculture. Large portions of the wetlands were drained for this purpose. This wetland loss, coupled with stream ditching and widespread use of field tiles, allows a significant amount of sediment and nutrients to reach surface waters in the watershed and, thus, downstream watersheds.

Bark River Watershed (LR 13) The Bark River watershed is approximately 189 square miles and includes parts of Jefferson, Waukesha, and Washington counties. Totaling 171.5 stream miles, the major streams in this watershed are the Bark River, Deer Creek, Duck Creek, Meadow Brook, Scuppernong Creek, Wales Creek, and 36 unnamed streams. Agriculture is the predominant land use in the Bark River Watershed. This watershed has many large lakes which continue to have development around them. Though some of the wetlands have been drained, significant amounts of wetlands remain in this watershed. There is significant development in the Waukesha County portion of the watershed. This is the greatest threat to increased flood flows in this basin.

Whitewater Creek Watershed (LR 14) The Whitewater Creek watershed is 71 square miles including parts of Jefferson, Walworth, and Rock counties. Totaling 60 stream miles, the major streams in this watershed are Bluff Creek, Galloway Creek, Spring Brook, Whitewater Creek, and 17 unnamed streams. Land use in this watershed is

predominantly agriculture. A portion of the Kettle Moraine State Forest runs along the southeast edge of the watershed. The Whitewater Municipal Treatment Plant discharges into this watershed.

Scuppernong River Watershed (LR 15) The Scuppernong River watershed is 86.5 square miles including parts of Jefferson, Walworth, and Waukesha counties. Totaling 835 stream miles, the major streams in the watershed are Funk Creek, Mud Creek, Paradise Springs Creek, Scuppernong River, Spring Creek, Steel Brook, and 28 unnamed streams. Agriculture is the predominant land use in this watershed. The Kettle Moraine State Forest and two state wildlife areas with large forested tracts and wetland areas are within this watershed. Other wetlands have been drained for agricultural purposes. The only urban area in this watershed is the Village of Palmyra.

13. WETLANDS

Within the unincorporated areas of Jefferson County, there are 55,097 acres of wetlands. These wetlands make up 15.5 percent of the land area. The majority of wetlands are associated with the floodplains of local rivers and creeks.

SPECIAL NEEDS POPULATIONS AND GROUPS

1. CHAPTER OVERVIEW

During a natural disaster the potential exists for certain populations and groups of people to be disproportionately affected when compared to the general population. This section looks at those groups including the elderly, people with disabilities, minorities, people in poverty, homeless individuals, populations with language barriers, and people in mobile home parks, campgrounds, and group quarters. Strategies and actions are included in Chapter 5 in order to address the particular needs of the groups.

Chapter Contents

1. Chapter Overview
2. Elderly
3. People with Disabilities
4. Minority Status
5. Poverty
6. Social Vulnerability Index
7. Homelessness
8. People Living in Manufactured and Mobile Homes
9. People in Campgrounds

2. ELDERLY

As a group, the elderly are especially vulnerable to natural hazards. This is especially true when an elderly person lives by him or herself or with an elderly spouse and do not have family or friends to help them prepare for natural hazards or react to and recover from an event.

The aging of the population is occurring throughout the nation and is also evident in Jefferson County. As seen in *Table 3-1*, the number of people younger than 55 decreased between 2010 and 2020, while the number of those older than 55 increased. As the population continues to get proportionately older, it will become increasingly important to address the needs of the elderly with respect to natural hazards planning.

Table 3-1. Age of Population; Jefferson County: 1990, 2000, 2010, and 2020

Age Group	Percent of Total				Percent Change 2010-2020
	1990	2000	2010	2020	
85 and older	1.3	1.7	1.8	1.5	-16.7
75 to 84	4.5	4.5	4.1	5.4	31.7
65 to 74	7.2	6.4	7.3	10.7	46.6
55 to 64	4.2	9.1	12.4	14.7	18.5
45 to 54	14.5	14.1	15.3	13.2	-13.7
35 to 44	14.7	16.8	13.2	12.6	-4.5
25 to 34	15.8	13.6	12.0	11.1	-7.5
20 to 24	7.2	5.8	6.5	6.4	-1.5
15 to 19	8.9	7.3	7.9	8.2	3.8
10 to 14	7.3	7.5	6.6	5.6	-15.2
5 to 9	7.5	6.8	6.7	5.9	-11.9
Under 5 years	6.9	6.3	6.3	4.8	-23.8

Source: Census of Population and Housing, US Census Bureau

The proportion of those 65 years and older in Jefferson County is similar to what is seen statewide (*Table 3-2*). *Map 7* compares this attribute across all of the civil divisions in Jefferson County based on the jurisdiction's land area.

3. People with Disabilities

Like the elderly, people with disabilities have increased exposure to some types of natural hazards. As indicated in *Table 3-2*, 12.7 percent of the population in Wisconsin self-reported a disability in 2023. This compares to 12.3 percent of the people in Jefferson County. The types of disabilities are addressed in *Table 3-3*. *Map 8* compares this attribute across all of the civil divisions in Jefferson County based on the jurisdiction's land area.

Table 3-2. Demographic Comparison; Jefferson County and State of Wisconsin: 2023

	Percent of Total Population	
	Jefferson County	State of Wisconsin
Population 65 Years and Older	19.2	19.2
People with Disabilities	12.3	12.7
Minority Status	11.5	20.0
Poverty	10.5	10.7

Source: 2023 American Community survey (1-year estimates)

4. Minority Status

Just over 11 percent of the county population identified as a minority, which is less than the statewide value of 20 percent (*Table 3-2*). *Map 9* compares this attribute across all of the civil divisions in Jefferson County based on the jurisdiction's land area.

Table 3-3. People with Disabilities; Jefferson County: 2023

Disability	Percent of Total Population
With a hearing difficulty	3.3
With a vision difficulty	1.9
With a cognitive difficulty	5.9
With an ambulatory difficulty	5.3
With a self-care difficulty	2.1
With an independent living difficulty	5.5

Source: 2023 American Community survey (1-year estimates)

5. Poverty

The portion of county residents meeting the definition of poverty is roughly the statewide value (*Table 3-2*). *Map 10* compares this attribute across all of the civil divisions in Jefferson County based on the jurisdiction's land area.

6. Social Vulnerability Index

The Social Vulnerability Index (SVI) is a tool created by the U.S. Centers for Disease Control and Prevention (CDC) to identify communities that may be particularly vulnerable to disasters or other public health emergencies. The SVI considers social factors that can impact a community's resilience to and ability to recover from disasters, such as poverty levels, housing conditions, access to transportation, and minority status.

The index ranks areas (e.g., census tracts or counties) across various themes, each representing a key dimension of social vulnerability.

1. Socioeconomic Status
2. Household Composition
3. Racial & Ethnic Status
4. Housing Type and Transportation.

Table 3-4. Social Vulnerability Index; Jefferson County: 2022

	Statewide Score	Vulnerability
Overall Score	0.3803	Low to Medium
Socioeconomic Status	0.3239	Low to Medium
Household Characteristics	0.2958	Low to Medium
Racial & Ethnic Status	0.6338	Medium to High
Housing Type & Transportation	0.5634	Medium to High

Source: CDC/ATSDR Social Vulnerability Index; https://svi.cdc.gov/map/

Note: Possible scores range from 0 (lowest vulnerability) to 1 (highest vulnerability).

The SVI uses these variables to assign a score for each area, ranking it relative to other areas (statewide or nationally). High SVI scores indicate greater vulnerability, meaning that the area may face more significant challenges in preparing for, responding to, and recovering from events like natural disasters, disease outbreaks, or economic crises.

The SVI for Jefferson County based on 2022 statewide data is displayed in *Table 3-4*. The SVI by census tract is displayed in *Exhibit 3-1*. The overall Statewide SVI for Jefferson County (using all 16 variables) is considered low to medium. There is a high degree of correlation between the themes, indicating that certain areas of the County have populations who may be especially vulnerable due to multiple factors. When the data is viewed by census tract, there are higher concentrations of socially vulnerable residents in the more urbanized or densely populated areas.

Exhibit 3-1. Social Vulnerability Index for **Jefferson** County by Census Tract: 2022

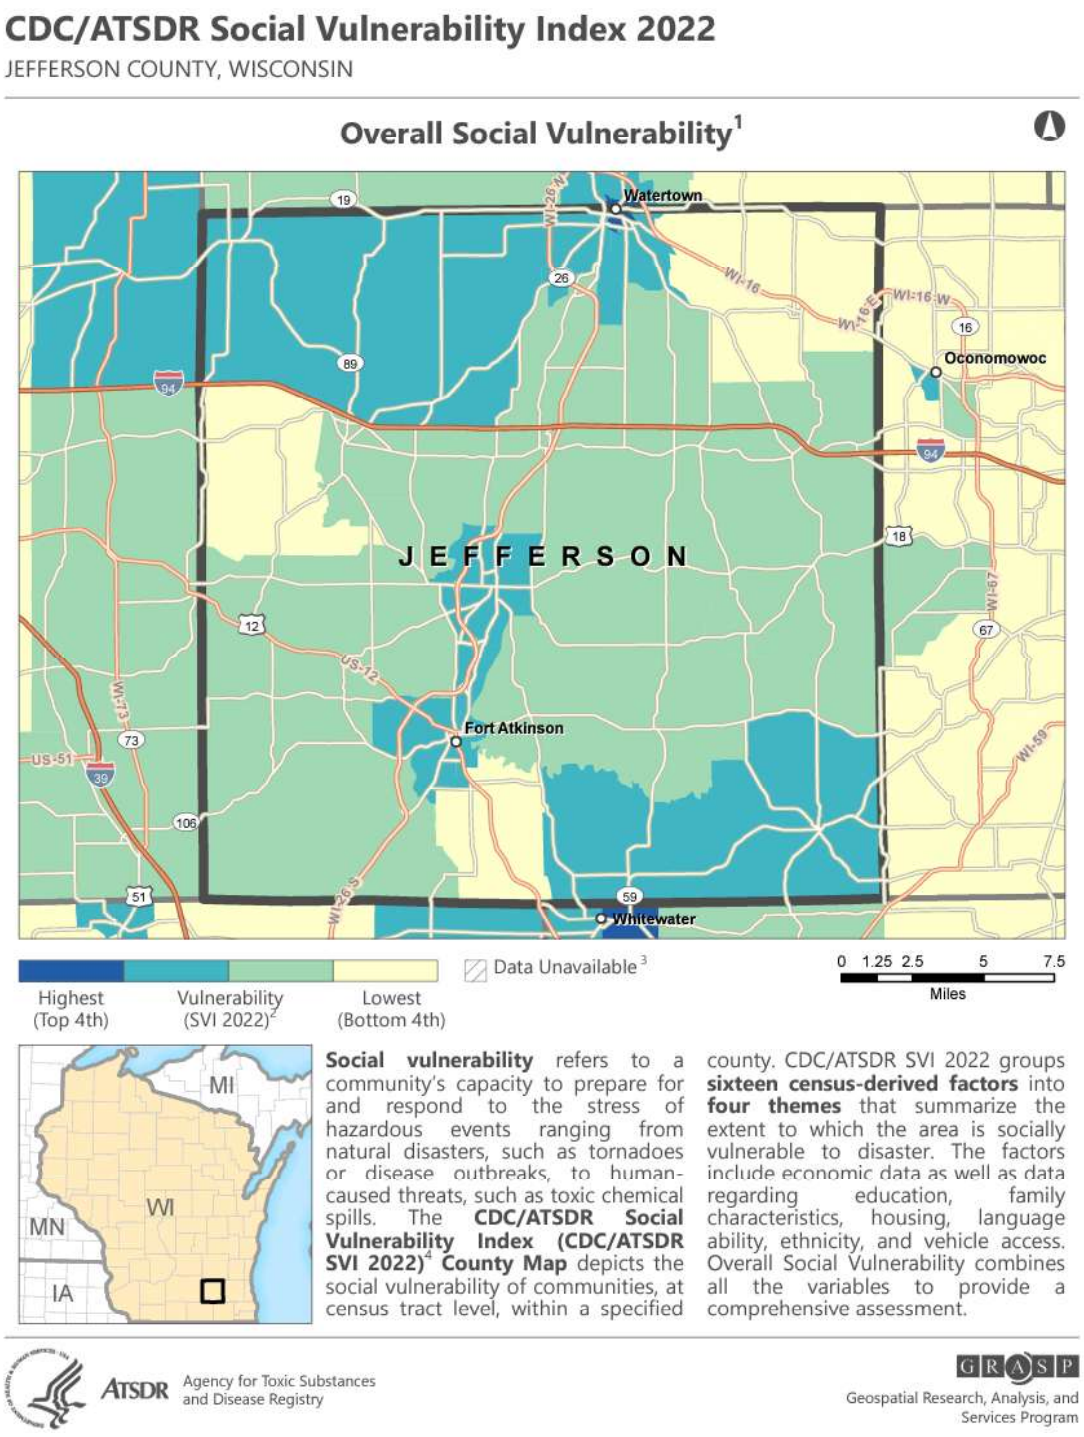

Exhibit 3-1. Social Vulnerability Index for **Jefferson** County by Census Tract: 2022

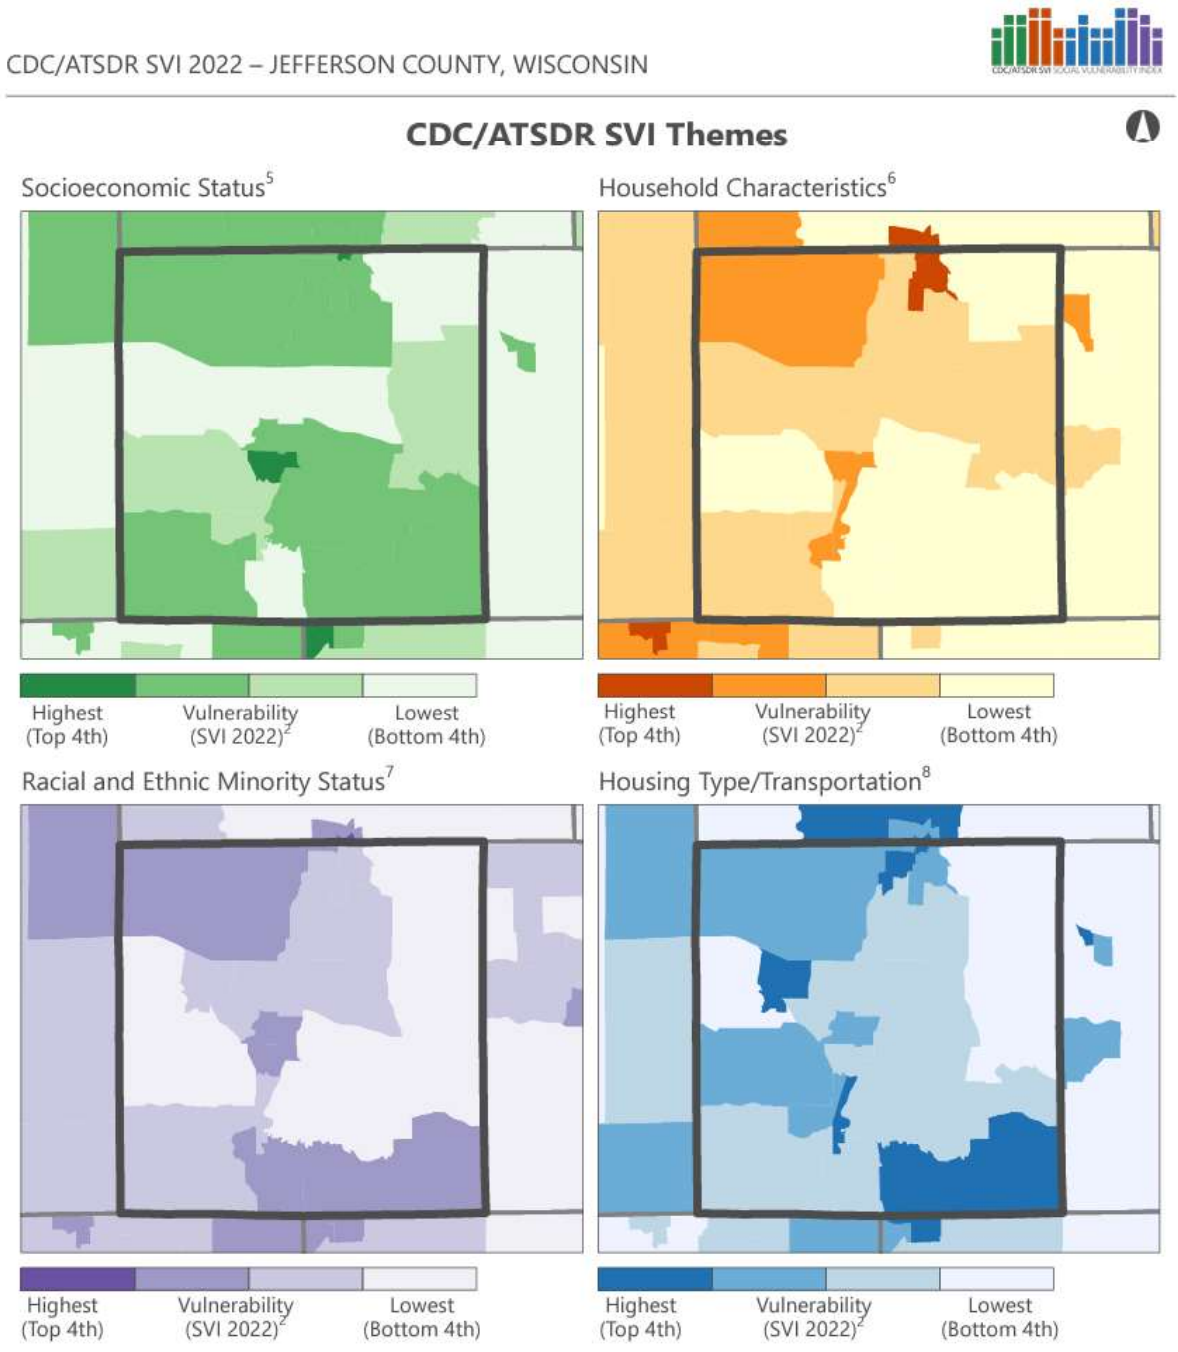

Data Sources: [2]CDC/ATSDR/GRASP, U.S. Census Bureau, ArcGIS StreetMap Premium.
Notes: [1]Overall Social Vulnerability: All 16 variables. [3]One or more variables unavailable at census tract level. [4]The CDC/ATSDR SVI combines percentile rankings of U.S. Census American Community Survey (ACS) 2018-2022 variables, for the state, at the census tract level. [5]Socioeconomic Status: Below 150% Poverty, Unemployed, Housing Costs Burden, No High School Diploma, No Health Insurance. [6]Household Characteristics: Aged 65 and Older, Aged 17 and Younger, Civilian with a Disability, Single-Parent Household, English Language Proficiency. [7]Race/Ethnicity: Hispanic or Latino (of any race); Black and African American, Not Hispanic or Latino; American Indian and Alaska Native, Not Hispanic or Latino; Asian, Not Hispanic or Latino; Native Hawaiian and Other Pacific Islander, Not Hispanic or Latino; Two or More Races, Not Hispanic or Latino; Other Races, Not Hispanic or Latino. 7. HOMELESSNESS

Homeless individuals are disproportionately affected by many types of natural disasters. Excessive heat and cold are especially hard on the elderly homeless. There is no accurate number of homeless individuals in Jefferson County. Local relief organizations provide assistance.

8. PEOPLE LIVING IN MANUFACTURED AND MOBILE HOMES

Manufactured housing and mobile homes are especially susceptible to damage from wind and other storms. As a result, people living in this type of housing are more vulnerable to injury and death when compared to those living in dwellings built with conventional framed construction.

In 2024, there were 21 mobile home parks in Jefferson County (*Appendix E*). Most of these were located in a city or village. As a proportion of the total housing stock, the city of Lake Mills had the highest proportion of mobile homes when compared to other municipalities in Jefferson County. None of the mobile parks have a storm shelter where people could go during wind-related storm events.

9. PEOPLE IN CAMPGROUNDS

People staying in campgrounds are even more vulnerable to wind storm events than those living in mobile home and manufactured homes. Although a significant number of campers stay in hard-sided campers or RVs, many stay in soft-sided tents. During a wind storm or tornado, they have little protection from flying debris and falling branches and trees.

In 2024, there were 21 campgrounds in Jefferson County (*Appendix E*). With the exception of two campgrounds, they were all privately operated. None of campgrounds have a storm shelter.

CRITICAL FACILITIES

1. CHAPTER OVERVIEW

This chapter focuses on those critical facilities in Jefferson County that need to be evaluated in terms of natural hazards mitigation planning. For the purpose of this plan, critical facilities are categorized into the following classification scheme:

- Type I — A facility that provides a public service, which if damaged would significantly impair a local governmental response
- Type II — A facility that provides a public service, but which if damaged would not significantly impair a local governmental response
- Type III — A facility that can cause greater damage to the surrounding area if damaged by a natural hazard
- Type IV — A facility that primarily housing special populations such as the infirm, children, elderly, or people with development disabilities

In all, there were 644 critical facilities in the county (*Table 4-1*). There were 185 Type I facilities, 136 Type II, 71 Type III, and 252 Type IV facilities.

As part of this project, the consultant created an Access™ database to manage basic information for critical facilities identified in this plan. Each facility is assigned to one or more parcels using the county PIN number to facilitate use in the county's geographic information system.

16. Special Care Facilities-Residential
17. Special Care Facilities-Nonresidential
18. Health Care Facilities
19. Facilities with Hazardous Materials
20. Vulnerable Housing
21. American Red Cross Shelters

In 2024, there were 645 critical facilities in Jefferson County.

2. BRIDGES

The road network in the county consists of local, county, state, and federal roads. There are 51 locations where a federal, state, or county roadway crosses a waterbody. These range in size from a single culvert to a multi-span bridge. These locations have been identified because flooding may overtop the roadway or backup floodwaters. The locations are shown on *Map 11*. Bridges that cross another roadway or railroad tracks are not considered a critical facility from the perspective of natural hazards.

Table 4-1. Critical Facilities by Type: 2024

Facility Type	Type I	Type II	Type III	Type IV
Facility with Hazardous Materials	-	-	42	-
Infrastructure				
Bridge	-	51	-	-
Dam (large & small)	-	-	25	-

Total	**185**	**136**	**71**	**252**

Notes: 1. Types of facilities included in this category include wells, towers, and treatment plants.

Key Terms in This Chapter

Adult day care – A place where adults receive care for less than 24 hours.

Adult family home (AFH) – A place where three or four adults who are not related to the operator reside and receive care, treatment, or services that are above the level of room and board and that may include up to seven hours per week of nursing care per resident.

Community based residential facility (CBRF) – A place where five or more adults reside who are not related to the operator, who do not require care above intermediate level nursing care, and who receive care, treatment, or services that are above the level of room and board, but includes no more than three hours of nursing care per week per resident.

Group day care – A place where a person for less than 24 hours a day provides care and supervision for 9 or more children who are not related to the provider.

Nursing home – A place where unrelated individuals live, who because of their mental or physical condition, are given 24-hour personal care and nursing care, but who do not require hospitalization.

Large dam – A dam that either (1) has a structural height of over 6 feet and impounds 50 acre-feet or more, or (2) has a height of 25 feet or more and impounds more than 15 acre-feet.

Power plant – A facility containing prime movers, electric generators, and auxiliary equipment for converting mechanical, chemical, and/or fission energy into electric energy.

Public-use airport – An airport open for public use without prior permission, and without restrictions within the physical capacities of available facilities. A public-use airport may or may not be publicly owned.

Residential care apartment complex (RACA) – A multi-family building where five or more adults reside in independent dwelling units and also receive not more than 28 hours per week of supportive services, personal assistance, and nursing assistance.

Small dam – A dam not classified as a large dam.

Substation – An auxiliary power station where electrical current is converted, as from DC to AC, or where voltage is stepped up or down.

3. Dams

According to a statewide inventory maintained by the DNR, there were 25 dams in the county. Over the years, seven dams have been decommissioned (*Table 4-2*). The Rock River and its tributaries has the highest number of dams followed by the Scuppernong River and its tributaries. *Map 11* shows the location of dams (large and small) within the county.

For the purposes of this plan, dams are classified as a Type III critical facility in that a dam failure would cause additional impacts primarily to downstream properties.

4. Public-Use Airports

There are four airports open for public use (*Map 12*).

Table 4-2. Abandoned Dams: 2024

Name	Year	Jurisdiction
Ball Park Dam	2004	Waterloo, city
Golden Dam	Not known	Concord, town
Hebron	1996	Hebron, town
Hoopers Dam	2012	Milford, town

5. Communication Towers

Map 13 shows the location of 53 communication towers located in the county.

6. Telephone Facilities

Four telephone facilities are maintained by telephone service providers (*Map 13*). They are located in the Cities of Jefferson, Lake Mills, and Watertown and the Village of Palmyra.

7. Electric Facilities

There are four electric power plants in the county (*Map 14).* One is located southeast of the City of Watertown in the Town of Watertown. The other is located in the City of Whitewater. Two hydroelectric power plants are located in the City of Watertown. Eighteen substations are located throughout the county primarily in or near urban areas (*Map 14*).

Table 4-3. Regulated Dams by Waterbody: 2024

Waterbody	Number
Ashipun River	0
Bark River	2
Crawfish River	0
Maunesha River	0
Rock River	7
Scuppernong River	4
Other	11
Total	**24**

8. Natural Gas Facilities

Guardian Pipeline operates a high-pressure natural gas pipeline in the eastern part of the county (*Map 14*). There are two above-ground metering stations associated with the pipeline in the Town of Ixonia.

9. Petroleum Pipeline Facilities

Enbridge Energy operates a pipeline for transporting petroleum crude oil through the county. It is located to the south and west of the cities of Lake Mills and Fort Atkinson (*Map 14*). It carries oil from Superior to Chicago where it is processed. Gate valves are located along the pipeline in three locations. Because of concerns about security, the exact location of the pipeline and gate valves are not mapped in this plan.

10. Public Water Facilities

Public water facilities inventoried for this plan include water wells, towers, reservoirs, and treatment plants. A total of 37 facilities have been identified and are shown on *Map 15*.

11. WASTEWATER FACILITIES

Wastewater treatment plants are located in each of the urban areas and in the more developed areas of the Towns of Ixonia and Sullivan (*Map 15*).

12. FIRE AND POLICE FACILITIES

Within Jefferson County, there were 9 police stations and 9 fire stations (*Map 16*). Generally, EMS services are housed with a fire station or police station. In two instances though, EMS services are housed in a stand-alone building.

13. NATIONAL GUARD FACILITIES

There are two National Guard facilities. One is in the City of Fort Atkinson and the other is in the City of Watertown (*Map 16*).

14. GOVERNMENT FACILITIES

Government facilities included in the inventory of critical facilities include a wide array of facilities including community centers, public libraries, municipal garages, municipal offices, post offices, and senior centers. *Map 17* shows the location of the 77 government facilities.

.

Notes: 1. Municipality located in Jefferson County and another county

15. SCHOOLS

Within Jefferson County, there were 54 schools serving kindergarten through high school. There were three colleges. Maranatha Baptist Bible College is located in the City of Watertown, Madison Area Technical College–Fort Atkinson is in the City of Fort Atkinson, and UW–Whitewater is in Whitewater. School locations are shown on *Map 18*.

16. SPECIAL CARE FACILITIES - RESIDENTIAL

The term special care facility is a broad term for a type of housing arrangement where residents receive care or supervision from trained personnel. Special care facilities include nursing homes, residential care apartment complexes (RCACs), community based residential facilities (CBRFs), and adult family homes (AFHs) (*Map 19*).

There were three nursing homes in the county (*Table 4-5*).

In a RACA, people live in independent dwelling units complete with a kitchen, a bathroom, and sleeping and living areas. The management team provides supportive services such as general housekeeping and transportation to access community services and recreational activities. Personal services are also provided and may include help with daily activities such as dressing, eating, bathing, and grooming. Finally nursing services are available to help with health monitoring, medication administration, and medication management. There were 3 RACAs in Jefferson County.

CBRFs and AFHs are similar in terms of the level of care provided. One significant difference between them is the number of residents served in the facility. An AFH can serve up to four adults. A CBRF serves five or more adults. There were 53 AFHs in the county and 52 CBRFs (*Table 4-5*).

17. SPECIAL CARE FACILITIES – NONRESIDENTIAL

Nonresidential special care facilities include group day care centers and adult day care centers (*Map 20*). Group day care centers provide child care for nine or more children. Adult day care centers provide care to older adults who may live at home but need care during the day because the spouse or other primary care giver is not able to provide care. There were 36 group day care centers located throughout the county primarily in more urban areas and 6 adult day care centers (*Table 4-5*).

Table 4-5. Special Care Facilities: 2024

Notes: 1. Municipality located in Jefferson County and another county

18. HEALTH CARE FACILITIES

For the purpose of this plan, health care facilities are divided into two types: hospitals and health care centers. Health care centers provide subacute medical and include ambulatory surgery centers and health care clinics operated by a number of medical practioners.

Fort Memorial Hospital in the City of Fort Atkinson is the only hospital in Jefferson County. Watertown Memorial Hospital is in the City of Watertown but is physically located in Dodge County. It serves an area with 60,000 residents.

A total of 15 health care centers were identified (*Map 21*).

19. FACILITIES WITH HAZARDOUS MATERIALS

There were 42 locations in the county where hazardous materials are stored, used, or manufactured (*Map 22*). For the purposes of this plan, a facility with hazardous materials is classified as a Type III critical facility because there could be damage to surrounding properties if a natural hazard damaged a facility with hazardous materials.

20. VULNERABLE HOUSING

Vulnerable housing, including campgrounds and mobile home parks, is described in Chapter 3.

21. AMERICAN RED CROSS SHELTERS

Jefferson County is served by the American Red Cross in Southeastern Wisconsin and the Badger and South Central Wisconsin Region. Designated shelters in the county are listed in *Appendix H*.

NATURAL HAZARDS ASSESSMENT

1. CHAPTER OVERVIEW

This chapter evaluates the natural hazards that have or could occur in the county. Initially, 15 hazards were identified. They were prioritized and two of the hazards were dropped from future consideration. The remaining 13 hazards are described in detail. After describing the nature of the hazard, the frequency of occurrence is documented along with its effect on critical facilities, various population groups, and economic sectors. Estimates of economic loss are included when there is enough empirical data to do so.

2. HAZARD IDENTIFICATION

As part of an initial screening process, the working group used the methodology developed by Wisconsin Emergency Management[1] to evaluate natural hazards in Jefferson County to determine which warrant the most attention. For each hazard, the members used a group consensus process to assign a numeric value to the 10 factors listed in *Table 5-1*.

Table 5-1. Natural Hazard Assessment Criteria

Factor	Description
Historical Hazard Frequency	Frequency of past occurrences
Anticipated Hazard Probability	Probability of the hazard occurring again
Historical Health and Public Safety	Degree of past hazard events causing injuries, sickness, and/or deaths
Residential Damage	Degree of past hazard events causing damages to homes
Business Damage	Degree of past hazard events causing damages to businesses
Public Costs	Amount of local, state, and federal funds expended on past hazard recovery activities
Magnitude of Population at Risk	Amount of the area's population still vulnerable to injury, sickness, and/or death
Magnitude of Homes at Risk	Amount of homes still vulnerable to damage
Magnitude of Businesses at Risk	Amount of businesses still vulnerable to damage or interruption of business trade
Magnitude of Public Infrastructure at Risk	Amount of infrastructure that is susceptible to damages

Chapter Contents

1. Chapter Overview
2. Hazard Identification
3. History of Weather-Related Events
4. Presidential Declarations
5. Climate Change
6. Dam Failure
7. Flooding
8. Ice Shoves
9. Fog
10. Tornado / High Winds
11. Hailstorms
12. Thunderstorms
13. Winter Storms
14. Extreme Temperature
15. Drought
16. Wildland Fire
17. Summary of Risk by Jurisdiction
18. Summary of Damage Estimates

Table 5-2 shows the results of that exercise. The three highest ranked natural hazards are riverine flooding, tornadoes, and thunderstorms. Given the distance to a known fault line, earthquakes were judged to be of little concern. In addition, given the topography and soils in the county, land failures, including subsidence and mass movement, were judged to be of little concern. Both were removed from further consideration in this plan.

[1] *Resource Guide to All Hazards Mitigation Planning In Wisconsin*, 2023. Wisconsin Emergency Management

Table 5-2. Comparative Analysis of Natural Hazards; Jefferson County: 2025

	1	2	3	4	5	6	7	8	9	10	11
Natural Hazard	Historical Hazard Frequency (1,2,3)	Anticipated Hazard Probability (1,2,3)	Historical Health and Public Safety (1,2,3)	Residential Damage (1,2,3)	Business Damage (1,2,3)	Public Costs (1,2,3)	Magnitude of Population at Risk (1,2,3)	Magnitude of Homes at Risk (1,2,3)	Magnitude of Businesses at Risk (1,2,3)	Magnitude of Infrastructure at Risk (1,2,3)	Overall Score
Flooding – river	3	3	3	3	2	3	1	2	2	2	24
Tornado / high winds	2	2	2	3	3	2	2	2	2	2	22
Storms - thunderstorm	3	3	1	2	2	2	2	2	2	1	20
Storms – snow	3	3	3	1	1	2	3	1	2	1	20
Extreme temperature	2	2	3	1	1	1	2	2	1	1	16
Storms – hail	2	2	1	2	2	2	1	1	1	1	15
Drought	1	1	1	1	2	2	1	1	2	1	13
Fog	2	2	1	1	1	1	1	1	1	1	12
Wildland fire	1	1	1	1	1	2	1	1	1	2	12
Ice shoves	2	1	1	1	1	1	1	1	1	1	11
Dam failure	1	1	1	1	1	1	1	1	1	1	10
Flooding – storm water	1	1	1	1	1	1	1	1	1	1	10
Land failure	1	1	1	1	1	1	1	1	1	1	10
Earthquake	1	1	1	1	1	1	1	1	1	1	10

Notes: This matrix is based on a qualitative assessment and is intended to identify those hazards posing the greatest concern.

A low, medium, or high numerical rating of 1, 2, or 3, respectively, is assigned to each criterion and then the ratings for each hazard are totaled.

Column 1 refers to the frequency of past occurrences.
Column 2 refers to the probability of the hazard occurring again.
Column 3 refers to the degree of past hazard events causing injuries, sickness, and/or deaths.
Column 4 refers to the degree of past hazard events causing damages to homes.
Column 5 refers to the degree of past hazard events causing damages to businesses.
Column 6 refers to the amount of local, state, and federal funds expended on past hazard recovery activities.
Column 7 refers to the amount of the area's population still vulnerable to injury, sickness, and/or death.
Column 8 refers to the amount of homes still vulnerable to damage.
Column 9 refers to the amount of businesses still vulnerable to damage or interruption of business trade.
Column 10 refers to the amount of infrastructure that is susceptible to damages.
Column 11 is the overall score for the hazard.

In reviewing these natural hazards, it became evident that they are quite variable (*Table 5-3*). Some of the hazards are characteristically localized occurrences, while others could potentially cover all of Jefferson County and the surrounding region. Further, some hazards occur with little advance warning and others can be forecasted with some degree of accuracy. Some hazards have the potential to occur often, while others occur infrequently.

Table 5-3. Nature of Natural Hazards; Jefferson County

Natural Hazard	Extent	Amount of Advance Warning	Recurrence Interval
Wildland fire - 25 acres or more	Localized	None	100
Wildland fire - less than 25 acres	Localized	None	10
Dam Failure	Localized along affected stream corridors	None to weeks	[1]
Tornado/High Wind	Localized; generally, a linear path up to several miles long	Hours	1
Hail Storms	Localized; 1 square mile and larger	Hours	1
Flooding – Riverine	Localized in 100-year floodplain	One day	100 [2]
Flooding – Stormwater	Localized	One day	100 [2]
Ice Shoves	Localized; typically on west side of large lakes	One day	5
Fog	Localized to countywide	One day	0.5
Thunderstorm	Localized; 10 square miles and larger	One day	0.5
Snow Storms	Countywide	Several days	1
Extreme Temperature - heat	Countywide	Several days	10
Extreme Temperature – cold	Countywide	Several days	3
Drought - short-lived	Countywide	Several months	10
Drought - long-lived	Countywide	Year	75

Notes: 1. It is not possible to define a recurrence interval for this type of hazard
2. Based on a 100-year flood

Table 5-4 lists each of the hazards and identifies whether they will have an impact on the critical facilities identified in this plan, noncritical buildings and structures, special populations, the general population, and broadly defined economic sectors.

Table 5-4. General Effects of Natural Hazards on Facilities, Population Groups, and Economic Sectors; Jefferson County: 2025

Key: - No or minimal effect; I – Indirect Effect; D – Direct Effect

3. HISTORY OF WEATHER-RELATED EVENTS

Table 5-5 presents a summary of documented weather-related events that have affected Jefferson County from 1950 through 2023 (See *Appendix I* for a list of all events). Strong winds associated with a thunderstorm occur with the highest frequency—on average 3.6 times a year. At about 1.8 times a year, hail is the second most common weather-related event. Winter storms are the third most common weather-related event. Flooding has a recurrence interval of 0.5 per year.

Out of all of the weather-related events, tornadoes have caused the highest number of deaths and injuries. Extreme cold caused 4 deaths. Lightening caused 7 injuries and 1 death. High winds caused 2 injuries, and thunderstorm winds caused 9 injuries. Floods and winter storms each caused one injury.

Flooding over the years has caused by far the most damage to property and crops ($173.3 million). At $13.53 million, hail caused the second highest amount of damage.

Table 5-5. Summary of Weather-Related Events Affecting Jefferson County: 1950 through 2023

Type of Event	Number of Events	Deaths	Injuries	Property Damage	Crop Damage
Drought	18	0	0	0	$300,000
Dust Devil	1	0	0	0	0
Extreme Heat	7	0	0	0	0
Cold/Wind Chill	27	3	10	$2,000	0
Extreme Cold/Wind Chill	4	0	0	0	0
Flood	35	0	0	$3,659,000	$28,519,000
Flood – Flash	15	0	1	$104,380,000	$36,775,000

4. PRESIDENTIAL DECLARATIONS

Since 1965, there have been 38 major disaster declarations issued for Wisconsin, 6 emergency declarations, and one fire management assistance declaration. Jefferson County was included in seven disaster declarations and two emergency declarations.

Major Disaster Declaration A major disaster declaration was issued for Jefferson County in 1973, 1976, 1991, 1993, 2004, 2007, 2008, and 2020 (*Table 5-6*). Most recently, Jefferson County was one of 30 counties under a disaster declaration (FEMA-1768-DR) for severe storms, tornadoes, and flooding. In that instance, both individual assistance and public assistance grants were made to help local communities respond to severe storms and flooding. Disaster declarations were issued in 2004 and 2007 for severe storms and flooding. In 1993, Jefferson County received $1,453,507 in state and federal aid. However, the total flood damage suffered is believed to exceed several million dollars.

Emergency Declaration There have been four emergency declarations. In 2008, Jefferson County was one of 11 counties affected by a significant snow event. In 2005, an emergency declaration was issued for all 72 counties in the state as part of the nationwide response to Hurricane Katrina. In 1976, Jefferson County was one of 66 counties covered by an emergency declaration for drought. In 2020, an emergency declaration was issued for all 72 counties in the state as part of the nationwide response to Covid-19 Pandemic.

Fire Management Assistance Declaration No fire management assistance declarations have been issued for Jefferson County (and it is unlikely that one would be issued given the nature of that category of declaration).

Table 5-6. Presidential Disaster Declarations, Jefferson County: 1965 through 2024

			Type of Assistance	
Major Disaster	**Year**	**Description**	**Public**	**Individual**
DR-376-WI	1973	Severe storms, flooding	Yes	Yes
DR-496-WI	1976	Severe storms, icing, wind, flooding	Yes	Yes
DR-912-DR	1991	Hail, severe storms	Yes	No
DR-994-WI	1993	Severe storms, tornadoes, flooding	Yes	Yes
DR-1526-WI	2004	Severe storms, flooding	Yes	Yes
DR-1768-WI	2008	Severe storms, tornadoes, flooding	Yes	Yes
DR-4520-WI	2020	Covid-19 Pandemic	Yes	Yes
Emergency Declaration	**Year**	**Description**		
FEMA-3249-EM	2005	Hurricane Katrina evacuation	Yes	No
FEMA-3454-EM	2020	Covid-19	Yes	No
Fire Management Assistance	Year	**Description**		
None	-	-	-	-

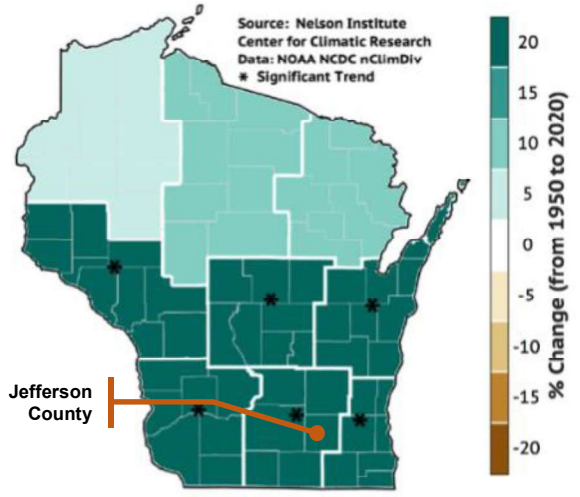
5. CLIMATE CHANGE

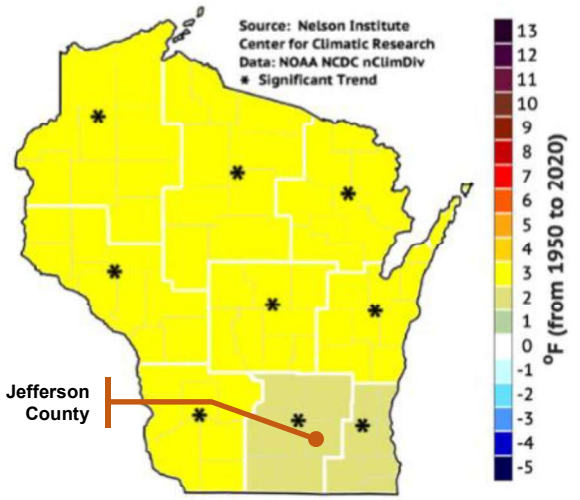
Historical Change To better understand the nature of the changing climate in our state, the Wisconsin Initiative on Climate Change Impacts (WICCI) released an initial report in 2011 and an update in 2023. As documented, Wisconsin's climate has been undergoing significant changes. Historically, precipitation has increased statewide from 1950 to 2023 (*Exhibit 5-2*). The southern part of the state saw the largest increase. Jefferson County experienced an increase of 20 percent in precipitation. Temperatures over the same period also increased statewide. Jefferson County experienced an average increase of 2 °F (*Exhibit 5-3*).

Exhibit 5-2. Historical Change in Annual Precipitation from 1950 to 2020



Source: Wisconsin's changing climate: Impacts and solutions for a warmer climate. 2021. Wisconsin Initiative on Climate Change Impacts. Nelson Institute for Environmental Studies, University of Wisconsin-Madison and the Wisconsin Department of Natural Resources, Madison, Wisconsin.

Exhibit 5-3. Historical Change in Annual Temperature from 1950 to 2020

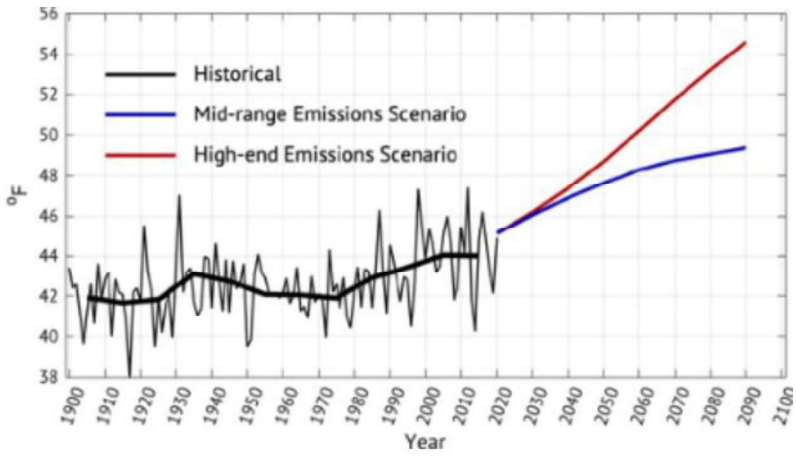


Source: Wisconsin's changing climate: Impacts and solutions for a warmer climate. 2021. Wisconsin Initiative on Climate Change Impacts. Nelson Institute for Environmental Studies, University of Wisconsin-Madison and the Wisconsin Department of Natural Resources, Madison, Wisconsin.

Future Conditions Looking ahead, WICCI analyzed Wisconsin's projected climate under two different future climate scenarios, based on a mid-range and high-end estimate of future greenhouse gas emissions. For both scenarios, the average temperatures in Wisconsin will be about four to six degrees warmer compared to our baseline climate conditions at the end of the 20th century (*Exhibit 5-4*). Further into the future, the emissions scenarios diverge dramatically and show a difference of six degrees between each other by the late 21st century.

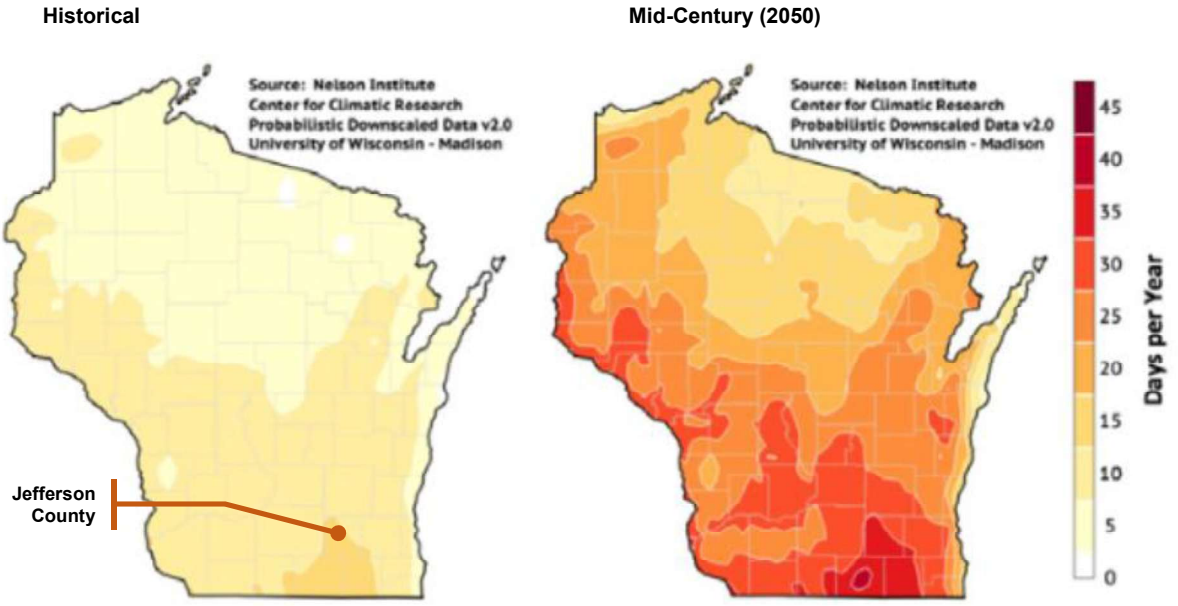
While seemingly modest, an increase of a single degree will yield significant impacts on the frequency and magnitude of many extreme weather events. (*Exhibit 5-5*).

Exhibit 5-4. Historical Average Temperature: Historical (1900-2020) and Projected (2020-2090)



Source: Wisconsin's changing climate: Impacts and solutions for a warmer climate. 2021. Wisconsin Initiative on Climate Change Impacts. Nelson Institute for Environmental Studies, University of Wisconsin-Madison and the Wisconsin Department of Natural Resources, Madison, Wisconsin.

Exhibit 5-5. Number of Extremely Hot Days per Year



Source: Wisconsin's changing climate: Impacts and solutions for a warmer climate. 2021. Wisconsin Initiative on Climate Change Impacts. Nelson Institute for Environmental Studies, University of Wisconsin-Madison and the Wisconsin Department of Natural Resources, Madison, Wisconsin.

The report suggests Wisconsin will likely to continue to trend toward wetter conditions, especially during winter, spring, and fall (*Exhibit 5-6*). Extreme rain events will also increase significantly. Extreme precipitation events are likely to remain most common in the southern and western parts of the state.

Exhibit 5-6. Frequency of Extreme Rainfall (2 or more inches of precipitation in 24hr period)

6. DAM FAILURE

PROFILE

A dam failure involves the uncontrolled release of impounded water when the structure fails. A dam can fail because of excessive rainfall or melting snow, poor construction or maintenance, flood damage, earthquake activity, weakening caused by burrowing animals, vegetation, surface erosion, vandalism, or a combination of factors. When a dam does fail, the impounded water flows unimpeded and, depending on what development is located downstream, can potentially cause significant property damage and loss of life.

HISTORY OF PAST OCCURRENCES

According to the Wisconsin Department of Natural Resources, there are about 3,700 dams in the state. Between 1990 and 1995, 75 dam failures were documented, many of which resulting from the flooding that occurred statewide in 1993. In Jefferson County, there are no documented dam failures.

VULNERABILITY ASSESSMENT

There were 31 dams in the county according to the Department of Natural Resources (DNR) (*Table 5-8*). Nineteen are classified as large and 6 as small. A failure of a small dam would likely not cause damage. Given the amount of water impounded behind a large dam, dam failure is a concern in varying degrees.

Table 5-8. Dams; Jefferson County: 2024

Status	Large	Small	Unknown
Active	11	6	6
Removed	7	0	0
Total	19	6	6

Source: Wisconsin Department of Natural Resources, data accessed December 2024

Dams are also classified based on the threat to downstream property if a dam failed. A dam rated as a high hazard indicates that a failure would most probably result in the loss of life. A significant hazard indicates that a dam failure could result in appreciable property damage. A low hazard rating is assigned to dams where a dam failure would result in only minimal property damage and where loss of life is unlikely. Of the 11 large dams, 5 are classified as high and 6 are classified as low (*Table 5-9*).

Section NR 335.07 of the Wisconsin Administrative Code mandates that owners of a large dam or a dam that poses a threat to life or property must prepare an emergency action plan (EAP). An EAP is a document that identifies potential emergency conditions at a dam and procedures to be followed to eliminate the loss of life and minimize downstream property damage. When drafting an EAP, the dam operator must consult with the local units of government that lie downstream of the dam as well as the county emergency management department. According to the DNR inventory, an EAP has not been prepared for one of the 11 large dams (*Table 5-9*). Based on historical data and the lack of multiple large, high-risk dams in the county, it is unlikely that a catastrophic dam failure, resulting in the loss of life and property, will occur in Jefferson County in the future.

Table 5-9. Large Dams; Jefferson County: 2024

Official Name	DNR ID	Jurisdiction	Ownership	Stream Name	Hazard Rating Code [1]	Status of Emergency Action Plan

Jefferson Marsh WRP – South	6066	Hebron, town	DNR	Deer Creek	Low	2022

Source: Wisconsin Department of Natural Resources
Key: 1. High - loss of life likely should dam fail; Significant - significant property damage is likely; Low - neither loss of life or property will occur

Effects on Facilities – Because a dam break analysis has not been conducted on any of the dams in Jefferson County, it is not possible to determine what effects would occur. It is believed that much of the released waters would be contained within the 100-year floodplain below the dam failure. Except for wastewater facilities, there are no critical facilities in the 100-year floodplain.

Effects on Population Groups – A dam failure would not disproportionately affect the elderly, people with disabilities, or the homeless.

Effects on Economic Sectors – Although a dam failure could damage individual structures, it likely would not affect the overall economy of the area or any particular economic sector.

Climate change can be expected to lead to more frequent, higher intensity tornados. This will affect more people over a wider area of the County, and the resulting damage will be higher.

7. FLOODING

PROFILE

Riverine flooding occurs when a stream, lake, or other body of water overflows its banks onto normally dry land. **Stormwater** flooding occurs when stormwater pools in normally dry depressions in the land. Flooding can develop slowly over a period of days, but can also occur within a few hours in some watersheds with narrow stream channels.

HISTORY OF PAST OCCURRENCES

Jefferson County has experienced several major floods in the last century. Documentation of historic flooding is available from the following sources:

- Presidential disaster declarations
- Insurance claim records from the Federal Flood Insurance Program
- Records from U. S. Geological Survey stream gage stations
- Damage assessment for 2004 flood
- Anecdotal information from local community leaders

Presidential Disaster Declarations Since 1965, there have been seven presidential declarations in Jefferson County, five of which were flood related. Presidential disaster declarations were issued in Jefferson County for flooding in 1973, 1976, 1993, 2004, and 2008. On July 2, 1993 a declaration was issued for the June 1993 floods. As part of the declaration, federal and state grant dollars, $1,235,097.96 and $218,409.11, respectively, were awarded to local units of government to assist with the flood recovery through the Disaster Recover Aids Program.

Source: National Flood Insurance Program website

Historical National Flood Insurance Program Claims In 1968, Congress adopted the National Flood Insurance Act, which among other things created the National Flood Insurance Program (NFIP). This Federal program allows property owners to purchase flood insurance if their community participates in the program. In fact, certain homeowners must purchase flood insurance when their property is located in the regulatory floodplain. All county residents are eligible to purchase flood insurance because all of the jurisdictions participate in the program.

Paid claims for flood damage under the NFIP are good indicators of the number of properties that are located in floodplains. From 1978 through 2023, there were 355 insurance claims with a payout of more than $10.47 million.

Repetitive Loss Properties A property for which two or more National Flood Insurance Program losses of at least $1,000 each have been paid within any 10-year rolling period since 1978 is referred to as a repetitive loss property. According to the National Flood Insurance Program, there were 28 repetitive loss properties in Jefferson County in 2018; 26 were residential and 2 were nonresidential.

Requirements of the program stipulate that individual policy information may not be disclosed, including addresses of such properties.

Records from U. S. Geological Survey Stream Gage Stations – A summary of the annual mean stream flow, highest daily mean, instantaneous peak, percent of exceedance, and predicted flood flows for each gaging station is presented in *Table 5-11*. According to the flood frequencies estimated by the US Geological Service (Report 91-4128), the 1959 flood may have exceeded a 100-year event on the Crawfish River at Milford. The Rock River in 1979 was approximately a 50-year event at Watertown and Indianford. The largest event on the Bark River at Rome was between a 10- and 50-year flood. While Jefferson County has experienced several major floods—based on stream gage records—only one has been a 100-year flood event, and only on one river. Based on the available information, if a 100-year flood would occur in the county, potential damages could dramatically exceed those of past floods without appropriate mitigation measures.

[2] Source: USGS Water Resource Report 91-4128 "Flood Frequency Characteristics of Wisconsin Streams

2004 Flood Damage Assessment – During the flooding of 2004, staff with Jefferson County completed a damage report following FEMA guidelines using the Residential Substantial Damage Estimator (RSDE). *Table 5-12* shows the results. Of the 40 residential structures with some damage, 7 experienced damage in excess of 50 percent or substantial damage.

Seven in 10 of the damaged residential structures are located in the town of Sumner. The town of Koshkonong had the second highest number of damaged structures.

Major Floods – Severe flooding has occurred in 1929, 1959, 1973, 1976, 1979, 1982, 1986, 1993, 1994, 1996, 1997, 2000, 2004, 2006, 2007, 2008, and 2010. The worst recorded flood was in 1929. At the Fort Atkinson stream gage, the peak level in 1929 was measured at 784.3, which is approximately 6 feet above flood stage. During this time, there were fewer residential properties in the unincorporated sections along the river. The majority of the structures on Blackhawk Island and the North Shore were constructed in the late 1940s and early 1950s. In 1959 and 1979, the flood waters were approximately 4 to 5 feet above the river bank and all residents along the river were evacuated.

Typically, the Rock River experiences high water during the spring as a result of winter melt. In 1986, the highest level recorded was in October, measuring about one foot below the 1959 spring flood. Some degree of high water is evident nearly every year along the Rock River at Blackhawk Island.

1993 Flood – In 1993, floodwater was within 10 inches of the all-time watermark set in 1929 at Blackhawk Island. All of the residents were evacuated for seven or more weeks beginning in the spring. Residents were encouraged to drink bottled water because many of the private wells were submerged and a number of local roadways were damaged because they remained under water for an extended period of time. A restaurant and a boat marina were damaged. The north shore area was also flooded, although resulting damage was not severe.

The Rock River in Fort Atkinson rose to its highest July level since records were first kept in 1933. According to the Director of Public Works, additional water inflow and infiltration caused the community's wastewater treatment plant to operate above hydraulic capacity. Many storm sewer inlets were damaged and needed to be repaired.

In July, the Department of Natural Resources observed more that a dozen sites underwater and inaccessible at the River Bend Resort/Campground.

Most of the development along the Rock River in the city of Jefferson is located outside of the 100-year floodplain.

Most of the damage associated with the flooding was related to stormwater backups. The Dairy Queen, one block away from the river, was flooded by storm water, while properties closer to the river had no damage. Many residential structures experienced basement flooding. A warehouse and distribution operation, known at that time as Doskocil Foods, was effectively protected by sandbags and remained open.

Source: Jefferson County

According to Capt. Dick Gallop of the Watertown Fire Department, that community experienced a number of flooded basements, but no significant damage to first floor living spaces in residential neighborhoods.

2007 Flood – Heavy rains, beginning on August 18, 2007, and lasting for seven days, caused significant property damage in 2007. On August 26, 2007, Jefferson County was added to a disaster declaration that was ultimately issued for 14 counties in southern Wisconsin. On September 17, 2007, a Mobile Disaster Recovery Center was set up at the Jefferson County fairgrounds. Federal, state, and local officials conducted a Preliminary Damage Assessment of those applying for individual assistance. As of October 11, 2007, 104 applications were received from residents. A total of $115,442.42 was awarded for housing assistance and $3,021.32 for other needs assistance. Most of the damage resulted from sewer backups and stormwater in basements. In a few instances, basement walls were damaged from the saturated soils. The Lake Mills area suffered the most damage as reported to Jefferson County Emergency Management (*Table 5-13*).

2008 Flood – In June 2008, heavy rain caused severe flooding across southern Wisconsin, including portions of Jefferson County. The U.S. Geological Survey conducted a research study to generate flood-peak inundation maps and water surface profiles for nine communities in the study area, three of which are located in Jefferson County.[2] These include the Rock River at the city of Jefferson (*Exhibit 5-8*); Crawfish River at Milford, an unincorporated community (*Exhibit 5-9*); and Rock River at the city of Fort Atkinson (*Exhibit 5-10*).

Source: *Flood of June 2008 in Southern Wisconsin*, 2008, Faith A. Fitzpatrick, et al; U.S. Geological Survey, U.S. Department of the Interior; Scientific Investigations Report 2008-5235

Throughout the region, there were evacuations and road closures and prolonged, extensive damage and looses associated with agriculture, businesses, housing, public health and human needs, and infrastructure, and transportation.

To further document some of these impacts, the Jefferson County Economic Development Consortium conducted a survey of those in the business community.[3] Over 200 employees were laid off according to the survey; with a significant number of individuals not returning to their jobs. The survey estimated a loss of $4.7 million dollars related to physical damage, production and order loss, and infrastructure.

This flood event caused the first full activation of the Jefferson County Emergency Operations Center (EOC) on June 12, 2008 with partial activation on June 23, 2008. There were 21 full road closures, 18 partial closures (including 5 bridges), and partial closure of I-94 due to concerns about the stability of the bridge over the Rock and Crawfish rivers. Multiple families were evacuated throughout the county.

Presidential Disaster Declaration (FEMA-1768-DR) was granted for individual and public assistance. Over $4 million in SBA loans were received in Jefferson County, over $3 million were received for Individual and household programs, over $3 million were received for housing assistance, and over $400,000 for other needs. In total, more than $10 million was received.

VULNERABILITY ASSESSMENT – 2006

A countywide 100-year flood could potentially cause more than $13.3 million in damage to buildings.

Effects on Facilities – The consultant team identified 843 buildings (in 2006) within the 100-year floodplain (*Table 5-14*). Using the methodology described in *Appendix H*, it is estimated that if all waterbodies in the county experienced 100-year flood levels during the same time period, flood damage to buildings could potentially exceed $13.3 million. It should be noted however, that flood magnitudes are generally not uniform across different watersheds and that it would be a rare occurrence for all water bodies in the county to experience a 100-year flood from the same event. The town of Sumner is anticipated to experience the highest amount of building damage followed by the Town of Oakland[4]. Five municipalities do not have a building in the 100-year floodplain.

With the exception of wastewater treatment facilities, there are no critical facilities in the 100-year floodplain.

[3] Source: *Jefferson County 2008 Business Flood Assessment*, Dennis L. Hartwig, Jefferson County Economic Development Consortium.

[4] Note: The floodplain maps contained apparent errors, especially around Lake Ripley.

Notes: 1. Municipality located in Jefferson County and another county

A number of areas have concentrations of buildings as generally described below.

1. **Blackhawk Island and Veterans Lane –** This area is located just upstream of Lake Koshkonong and southwest of the City of Fort Atkinson and has experienced significant flooding in the past. The area has been a targeted area for past county-sponsored removal of flood prone homes. From 1996 through 1998, 38 structures were removed from the Blackhawk Island area as part of the County's flood mitigation program.
2. **North Shore** - This area is on the north shore of Lake Koshkonong and includes both seasonal and permanent homes.
3. **Rock River Mobile Home Court** - This is a small subdivision of approximately 20 mobile homes located along the Rock River south of the Village of Johnson Creek. There are also other permanent residential structures in the immediate area.

4. **Rock River Road** - This residential area is west of Fort Atkinson along the Rock River and has a number of year-round residences.
5. **Rock River Paradise Subdivision** - This small residential development is east of the City of Watertown along the Rock River.
6. **Pottawatomi Trail** - This residential development is located on the south side of Lake Koshkonong.
7. **River Bend Resort/Campground –** This is a condominium campground located along the Crawfish River in the Town of Milford. It contains approximately 300 campsites, which are individually owned. The recreation buildings, miniature golf, parking lot, and piers are owned jointly.

Countywide, damage to public facilities included erosion of recreational trails, damage to community and county parks, local and county road washouts, and damage to culverts and bridges. These infrastructure damages resulted in serious health and safety concerns as they impeded police, fire, and rescue personnel from getting to the scene of emergency situations.

Table 5-15. Agricultural Losses Due to Flooding: Jefferson County: 1986 through 2006

Year	Soybeans ($ millions)	Corn ($ millions)
1986	0.7	3.9
1993	2.1	6.4
1996	2.5	6.4
1997	1.5	3.2
2000	1.0	2.1

Source: Farm Services Agency

Effects on Population Groups – There are no population groups that are especially vulnerable to flooding except to the extent older homes, which were built prior to floodplain regulations, are occupied by lower income residents.

Effects on Economic Sectors – While flooding can impact a number of economic sectors, the agricultural sector is the most vulnerable. Aside from damaging farm buildings, flooding can destroy crops and reduce crop yields for surviving crops. *Table 5-15* summarizes the agricultural losses due to flooding from 1986 through 2006. In addition, harvesting crops on wet soils causes soil compaction that reduces crop yields in subsequent years. Heavy rains, which are often associated with flooding, cause a considerable amount of soil erosion on unprotected soils.

Damages sustained by businesses in the county are primarily a direct reflection of the agricultural production losses. The effects of the agricultural base extend throughout the county. Farming supports a variety of farm- (e.g., implement dealers, feed stores, granaries) and non-farm related (e.g., grocery stores, hardware stores) businesses. Most notably, the 1993 flooding affected a number of business sectors that support farmers.

Other Effects – During periods of flooding, no-wake boating restrictions are imposed which limit recreational uses, but are needed to protect shorelines from erosion.

Climate change can be expected to lead to more annual precipitation with more frequent and heavier high precipitation events. This will lead to more flooding and the potential for dam failure. Flood damage will affect more people over a wider area of the County, and resulting damages will be higher.

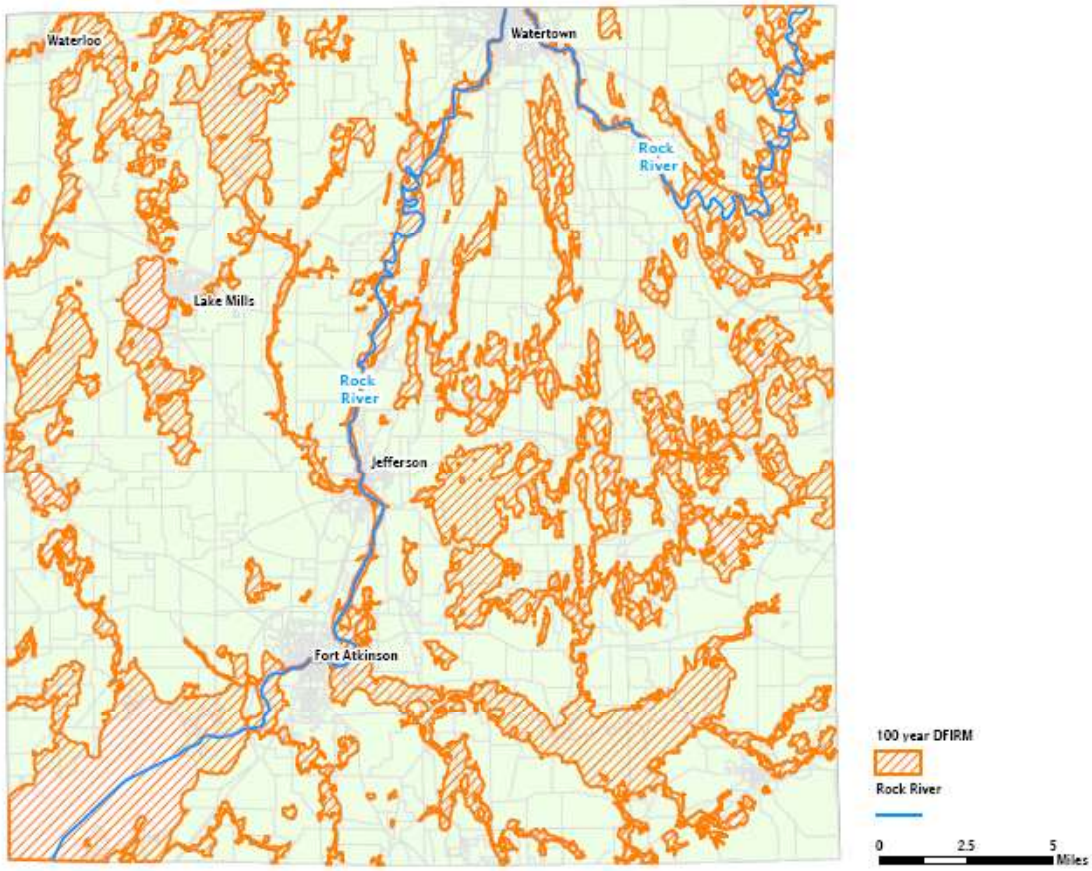
VULNERABILITY ASSESSMENT – 2007

Flood analysis for Jefferson County was performed using HAZUS-MH released in July 2007. The bundled aggregated general building stock was updated to Dun & Bradstreet 2006. Building valuations were updated to R.S. Means 2006. Building counts based on census housing unit counts are available for RES1 (single-family dwellings) and RES2 (manufactured housing) instead of calculated building counts.

The site-specific inventory (specifically schools, hospitals, emergency operation centers, fire stations and police stations) was updated using the best available statewide information.

HAZUS-MH was used to generate the flood depth grid for a 100-year return period calculated by clipping the USGS 30m DEM to the DFIRM boundary. *Exhibit 5-11* depicts the flood boundary from the HAZUS-MH analysis.

Exhibit 5-11. HAZUS-MH Analysis (100-Year Flood): 2007



Aggregate Loss Analysis – HAZUS-MH was used to estimate the damages for a 100-year flood event in Jefferson County. An estimated 129 buildings will be damaged totaling $58 million in building losses and $151 million in total economic losses. The total estimated number of damaged buildings, total building losses, and estimated total economic losses are shown in *Table 5-16*.

HAZUS-MH estimates 26 census blocks with losses exceeding $1 million. The distribution of losses is shown in *Exhibit 5-12*.

HAZUS-MH aggregate loss analysis is evenly distributed across a census block. Census blocks of concern should be reviewed in more detail to determine the actual percentage of facilities that fall within the flood hazard areas. The aggregate losses reported in this study may be overstated.

Table 5-16. Economic Loss for a 100-Year Flood: 2007

General Occupancy	Estimated Total Buildings	Total Damaged Buildings	Total Building Exposure X 1000	Total Economic Loss X 1000	Building Loss X 1000
Agricultural	1	0	$80,731	$4,479	$962
Commercial	192	1	$948,602	$29,472	$6,758
Education	5	0	$121,088	$537	$74
Government	13	0	$42,507	$1,495	$154
Industrial	74	3	$696,703	$46,500	$9,732
Religious/Non-Profit	13	0	$98,065	$3,531	$460
Residential	24,675	125	$4,488,760	$64,473	$39,486
Total	24,973	129	$6,476,456	$150,487	$57,626

The reported building counts should be interpreted as degrees of loss rather than as exact numbers of buildings exposed to flooding. These numbers were derived from aggregate building inventories which are assumed to be dispersed evenly across census blocks. HAZUS-MH requires that a predetermined amount of square footage of a typical building sustain damage in order to produce a damaged building count. If only a minimal amount of damage to buildings is predicted, it is possible to see zero damaged building counts while also seeing economic losses.

Exhibit 5-12. Economic Loss for a 100-Year Flood by Census District: 2007

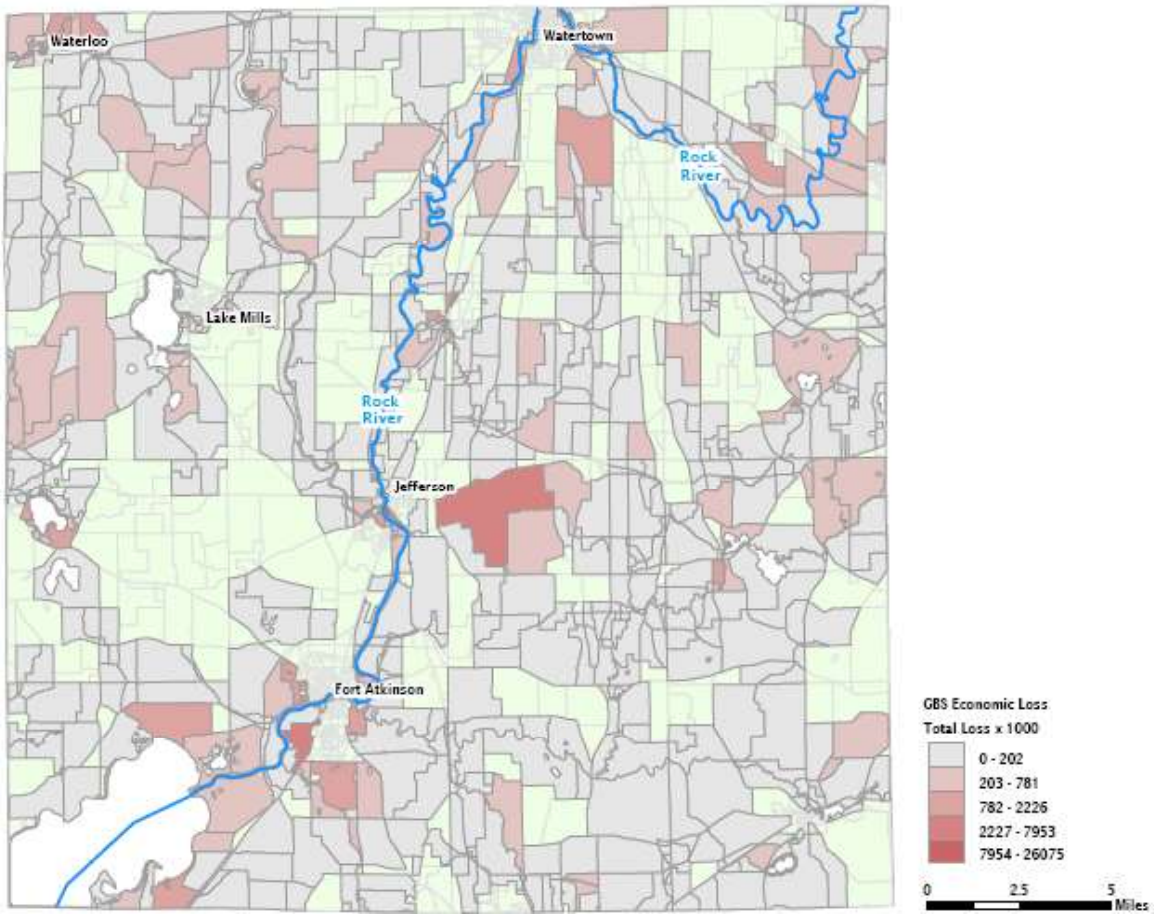


Exhibit 5-13 shows census blocks overlaid with the flood boundary and orthophoto of Jefferson County. Census block 550559909002011 has an estimated building loss of $866,000 with a combined replacement cost of $3 million. HAZUS-MH estimates that 36 buildings are within the calculated flood boundary for this block. Although the orthophoto shows significant flooding in this census block, very few buildings appear to be at risk.

Exhibit 5-13. Flood Damage Exposure in Jefferson: 2007

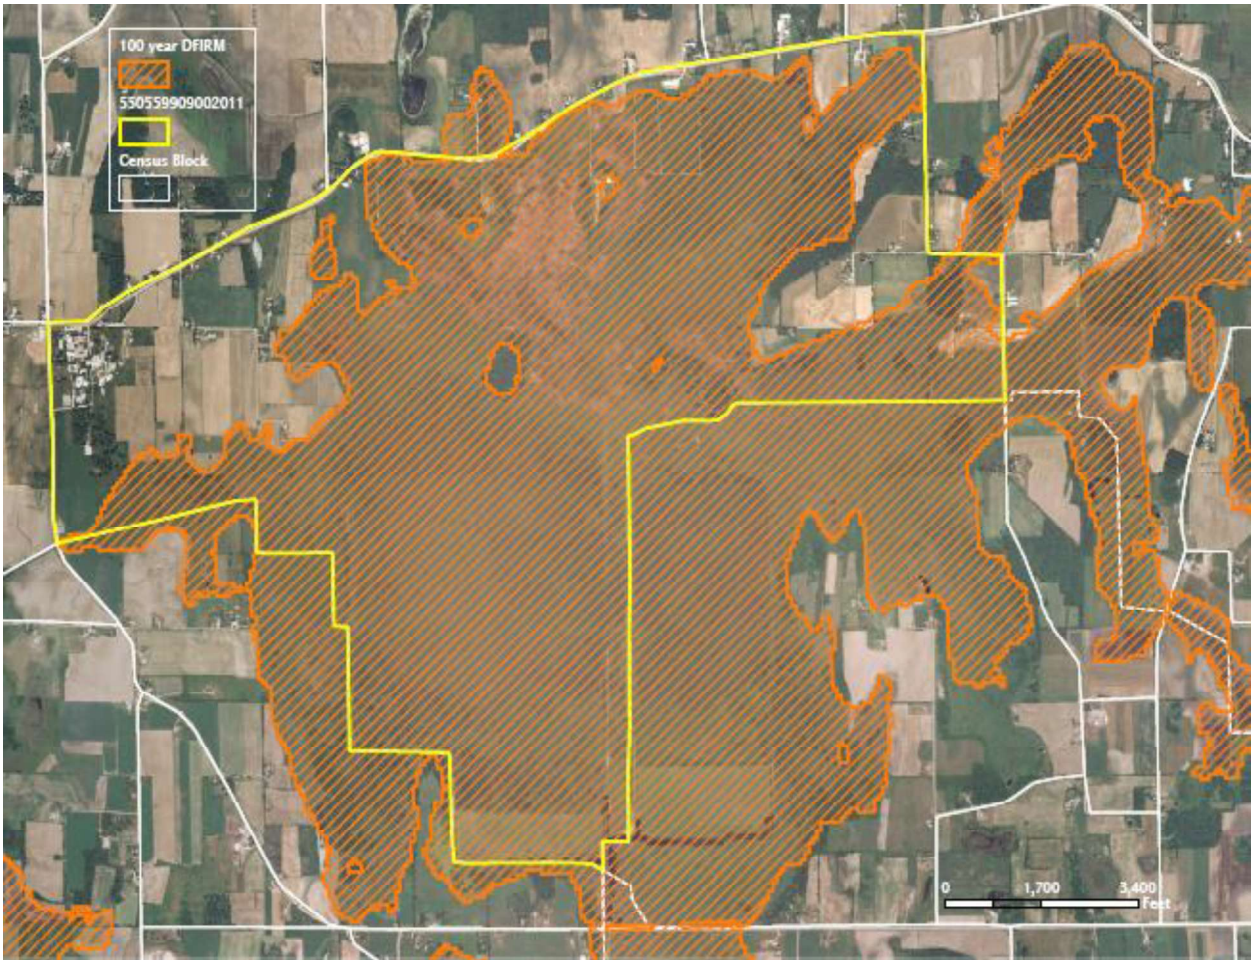

Exhibit 5-14 shows census blocks overlaid with the flood boundary and orthophoto of Ixonia. Census block 550559917022022 has an estimated building loss of $225,000 with a combined replacement cost of $930,000. HAZUS-MH estimates that 11 buildings are within the calculated flood boundary for this block. However, the orthophoto shows this area to be predominately forest.

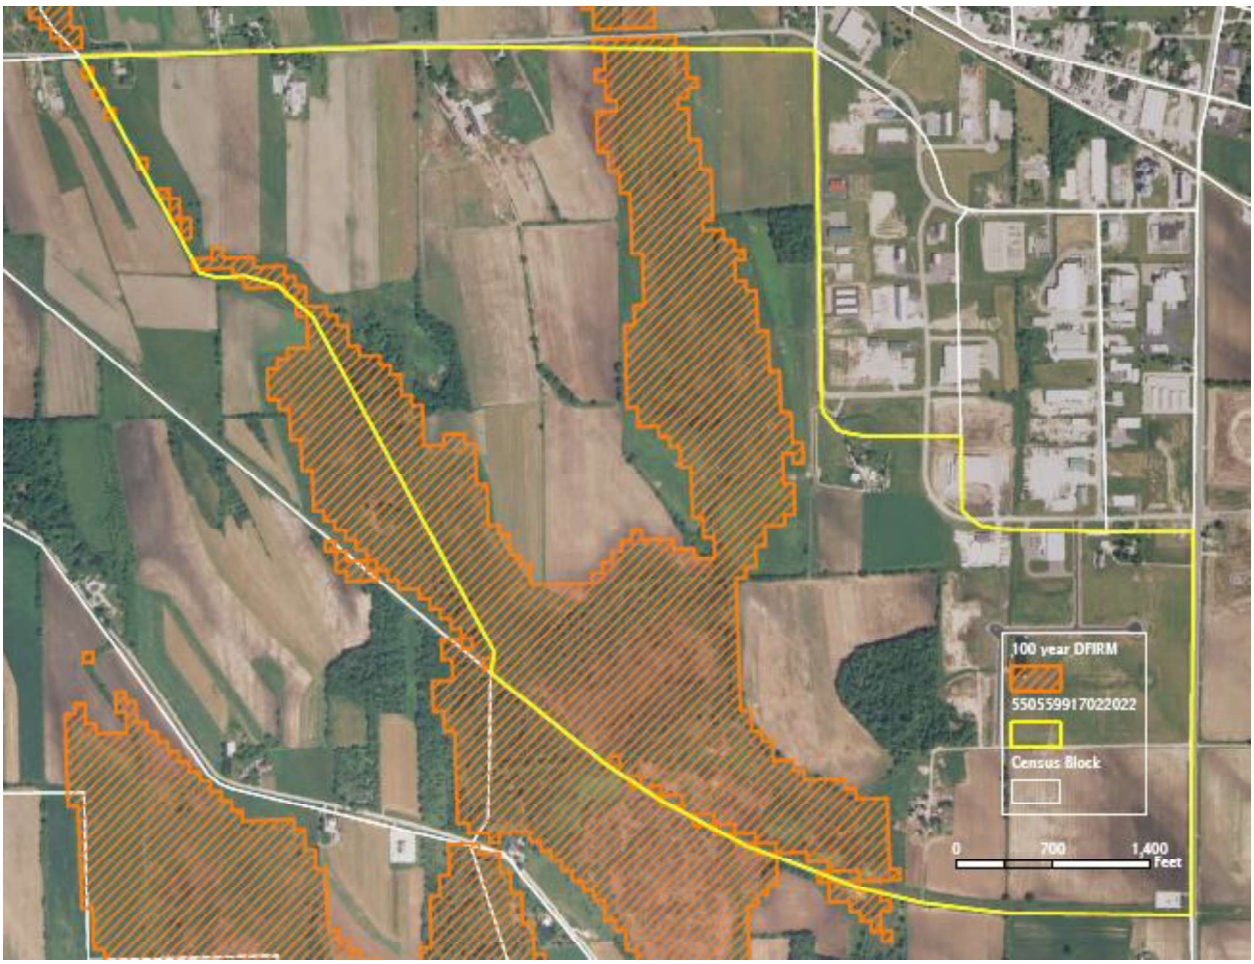
Exhibit 5-14. Flood Damage Exposure in Ixonia: 2007



Essential Facility Loss Analysis – An essential facility would encounter many of the same impacts as any other building within the flood boundary. These impacts include: structural failure, extensive water damage to the facility, and loss of facility functionality (i.e. a damaged police station will no longer be able to serve the community).

The HAZUS-MH analysis identified that no essential facilities are subject to flooding. A list of the essential facilities within Jefferson County is included in *Table 5-18.*

Table 5-17. Essential Facility Loss for a 100-Year Flood: 2007

Class	Building Count	At Least Moderate Damage	At Least Substantial Damage	Loss of Use
Care Facilities	4	0	0	0
Fire Stations	11	0	0	0
Police Stations	13	0	0	0
Schools	55	0	0	0
EOC	0	0	0	0
Total	**83**	**0**	**0**	**0**

Shelter Requirement Analysis - HAZUS-MH estimates the number of households that are expected to be displaced from their homes due to the flood and the associated potential evacuation. HAZUS-MH also estimates those displaced people that will require accommodations in temporary public shelters. The model estimates 1,921 households will be displaced due to the flood. Displacement includes households evacuated from within or very near to the inundated area. Of these 2,528 people (out of a total population of 74,021) will seek temporary shelter in public shelters.

State Property Loss Analysis – The flood boundaries were overlaid with the State of Wisconsin property boundaries as provided by the Department of Natural Resources. *Table 5-18* provides a list of state properties impacted by the flood boundary. *Exhibit 5-15* shows two examples of inundated areas.

Table 5-18. State Property Flood Inundation: 2007

State Property	Percent Inundated	Acres
Jefferson Marsh State Wildlife and Natural Area	93	3060
Lake Mills Wildlife Area	90	2472
Princes Point Wildlife Area	94	2019
Waterloo Wildlife Area	35	1496
Extensive Wildlife Habitat	11	1282
Rome Pond Wildlife Area	52	1188

Recent Flooding

As part of the 2024 plan update, local officials were asked to identify roads in their jurisdiction that are prone to localized flooding. Results are included in *Table 5-19*.

Table 5-19. Localized Flooding

	Location	Year
Town		
Aztalan	-	
Cold Springs	None	--
Concord	-	
Farmington	None	
Hebron	None (Hanson Road has had problems in the past but have now been resolved).	
Ixonia	• Rock River Road from 16 to River Vally Road; River Valley Road from Hill to the Rock River; River Road from CW to Evergreen Road	• All years
Jefferson		
Koshkonong	• Blackhawk Island Road, Oxbow Bend, Rock River Road, Bark River Road	• Multiple
Lake Mills	-	
Milford	-	
Oakland	-	
Palmyra	-	
Sullivan	-	
Sumner	• Blackhawk Island Road, Lamp Road, High Ridge Road	• Multiple
Waterloo	• Island Road adjoining wetland	• Periodic
Watertown	None	
Village		
Cambridge	None	
Johnson Creek	None	
Lac La Bell	-	
Palmyra	-	
Sullivan	-	
City		
Fort Atkinson	-	
Jefferson	None	
Lake Mills	None	
Waterloo	-	
Watertown	• Hart Street from Wakoka Street to Chenango Street; Dayton Street from West Street to Railroad Tracks; W Main Street from Railroad Viaduct to Carriage Hill Drive; Maple Crest Lane from Crestview Drive to South Street; South Street from Maple Crest Lane to Winnebago Way; Winnebago Way from Cherokee Court to South Street; Schuman Drive from Wedgewood Court to Stoneridge Drive; E. Spaulding Street from Valview Court to Center Street; Intersection of Memorial Drive and STH 16 Frontage Road • Mary Street from Neenah to S. Ninth Street; Hady Lane from West Street to end of street; West Street from Cobblestone Way east to RR tracks; Cobblestone Way from Willow Creek Parkway to Green Ridge Circle; Fairview Drive north and south of the intersection with Hoffmann Drive; S. Twelfth Street between Air Park Drive and the City limits; S. Twelfth Street from RR tracks to Sunset Ave.; S. Tenth Street between Station St. and Clyman Street	• 2022 • 2018
Whitewater	-	

Source: 2024 Community Survey conducted as part of plan update

Historical flood damage - Based on NWS reporting there have been 50 flood events from 1950 through 2023, resulting in property damage of $2.16 million and crop damage of $1.3 million.

Climate change can be expected to lead to more precipitation especially in the spring and fall, higher intensity tornados. This will affect more people over a wider area of the County, and the resulting damages will be higher.

8. ICE SHOVES

PROFILE

An ice shove, also referred to as an ice flow, is a large accumulation of broken ice blocks and sheets which have been piled up by the wind along the shoreline of a lake. Ice shoves are characteristically found on large lakes in the spring during and immediately after ice breakup. The size of the ice shove is related to the amount of ice on the lake when breakup occurs and the strength and duration of the winds at breakup.

HISTORY OF PAST OCCURRENCES

Ice shoves occur on a fairly frequent basis on the north and northeast shore of Lake Koshkonong. Rock Lake in the northwest quadrant of the county is the second largest lake in the county and has experienced ice shoves, but to a lesser degree than Lake Koshkonong. No other lakes in the county are large enough to generate ice shoves of any consequence.

VULNERABILITY ASSESSMENT

Although ice shoves occur on a fairly frequent basis, most do not cause damage to man-made structures such as buildings, piers, boat landings, and roads. On a few occasions though, ice shoves have become rather large and damaged man-made structures. Damage estimates are not available for ice shoves.

Effects on Facilities – Ice shoves most directly affect buildings and structures near the lakeshore. Ice may pile on top of a road if not removed as it moves on shore.

Effects on Population Groups – Ice shoves do not negatively affect any population group in particular.

Effects on Economic Sectors – Ice shoves do not negatively affect any economic sector in particular.

9. FOG

PROFILE

Fog is a visible concentration of small water droplets suspended in the air at the earth's surface that obscures visibility to less than one kilometer. It forms when air temperature falls to its dew point, which is the temperature at which air is holding as much moisture as it can. When air reaches its dew point, it condenses into very small water droplets.

HISTORY OF PAST OCCURRENCES

Fog can form throughout the year, but is most common from September through April. As shown in *Appendix G*, there have been 72 reported occurrences of fog in Jefferson County since 1950. In Jefferson County fog tends to cover large areas.

VULNERABILITY ASSESSMENT

Effects on Facilities – Fog does not damage or impair the operation of facilities.

Effects on Population Groups – Fog does not negatively affect any population group.

Effects on Economic Sectors – Fog impairs visibility and can hamper ground and air transportation. When visibility is decreased, the potential for motor vehicle crashes increase as does the possibility of an airplane accident on landing or take off.

10. TORNADO / HIGH WINDS

PROFILE

A tornado is a violently rotating column of air extending from the ground to the base of a convective cloud. The tornado may or may not have a visible condensation funnel (commonly referred to as a "funnel cloud"), which may or may not extend from the cloud base all the way to the ground. In the absence of a visible condensation funnel, a severe weather spotter can determine they are looking at a tornado if they observe cloud-base rotation superimposed over rotating dirt and debris at ground level. Wind speeds in a tornado typically range from 80 mph to 150 mph, but on occasions reach speeds in excess of 200 mph. There have been documented tornado winds exceeding 300 mph outside of Wisconsin. The majority of damage resulting from a tornado occurs within one-eight mile of the tornado's path, which characteristically does not exceed 16 miles. In fact, the average path length of tornadoes in Wisconsin for the period of 1950-2005 was 5.8 miles with a duration of about 10 minutes. Tornadoes with track lengths greater than 150 miles have been reported in Wisconsin, although they are quite rare.

Tornadoes are visible because low atmospheric pressure in the vortex leads to cooling of the air by expansion with condensation and formation of water droplets. They are also visible as a result of the airborne debris and dust associated with the vortex. The destructive power of the tornado lies primarily in its high horizontal winds, a built-in upward-lifting force, and airborne debris impacting structures (collectively resulting in about 95 percent of the damage). To a much lesser degree, air pressure differences associated with a tornado result in additional damage. Years ago, it was assumed that air pressure differences accounted for a large portion of the damage, however, it is now realized that most buildings have enough air leakage or infiltration so that most of the air pressure differences between the inside and outside of a structure are minimized as the tornado approaches. Since tornadoes are usually associated with organized storm systems that consist of several thunderstorm cells of varying intensity, large hail, torrential rain, and intense lightning usually accompany the storm that spins-up a tornado.

Although a tornado can form at any time during the year, the peak tornado season is May through July. They can also occur at any time of the day. The peak hour for tornado initiation is between 6 pm and 7 pm and the peak hours of occurrence are between 2 pm and 10 pm.

Prior to 2007, the Fujita Tornado Scale was used to estimate the wind speed of a tornado based on damage to structures (*Table 5-20*). Though the Fujita Scale has 13 ratings (F0-F12), tornadoes never exceed an F5 (261 to 318 MPH). Beginning in 2007, tornadoes will be rated using the Enhanced Fujita Tornado Scale, which is essentially the same as the former scale except for the wind speed (*Table 5-21*).

Table 5-20. Fujita Tornado Scale

Fujita Rating	Wind Speed	Characteristic Damage
F0	40 to 72 mph	Some damage to chimneys, TV antennas, roof shingles, trees, and windows
F1	73 to 112 mph	Automobiles overturned, carports destroyed, and trees uprooted
F2	113 to 157 mph	Roofs blown of homes, sheds and outbuildings demolished, mobile homes overturned
F3	158 to 207 mph	Exterior walls and roofs blown off homes; metal buildings collapsed or are severely damaged; forests and farmland flattened
F4	208 to 260 mph	Few walls, if any, standing in well-built homes; large steel and concrete missiles thrown far distances
F5	261 to 318 mph	Homes leveled with all debris removed; schools, motels, and other larger structures have considerable damage with exterior walls and roofs gone; top stories demolished

Table 5-21. Enhanced Fujita Tornado Scale

Fujita Rating	Wind Speed	Characteristic Damage
EF0	65 to 86 mph	Some damage to chimneys, TV antennas, roof shingles, trees, and windows
EF1	86 to 110 mph	Automobiles overturned, carports destroyed, and trees uprooted
EF2	111 to 135 mph	Roofs blown of homes, sheds and outbuildings demolished, mobile homes overturned
EF3	136 to 165 mph	Exterior walls and roofs blown off homes; metal buildings collapsed or are severely damaged; forests and farmland flattened
EF4	166 to 200 mph	Few walls, if any, standing in well-built homes; large steel and concrete missiles thrown far distances
EF5	>200 mph	Homes leveled with all debris removed; schools, motels, and other larger structures have considerable damage with exterior walls and roofs gone; top stories demolished

Table 5-22. Tornado Frequency: Jefferson County: 1950 through 2023

Fujita Rating [1]	Number of Occurrences	Probability of Occurrence
F0	8	31%
F1	12	46%
F2	5	19%
F3	1	4%
F4	0	0%
F5	0	0%
EF0	12	67%
EF1	6	33%
EF2	0	0%
EF3	0	0%
EF4	0	0%
EF5	0	0%

Source: National Weather Service
Notes:
1. Refer to Table 5-19 and 5-20 for a description of the Fujita ratings
2. Based on data collected by the National Weather Service

HISTORY OF PAST OCCURRENCES

Wisconsin lies along the northern edge of the nation's tornado belt that extends northeastward from Oklahoma into Iowa. Winter, spring, and fall tornadoes are more likely to occur in southern Wisconsin than in northern counties. Yet, tornadoes have occurred in Wisconsin during every month except February.

Wisconsin's tornado season runs from the beginning of April through September. The most severe tornadoes typically occur during April, May, and June. Many tornadoes strike in late afternoon or early evening. However, tornadoes have occurred at other times. Personal property damage, deaths, and injuries have and will continue to occur in Wisconsin. On average, one person dies from tornado-related injuries each year.

In 2005, Wisconsin had a record of 62 verified tornadoes, including 27 that occurred on August 18, 2005. Seven of the 27 tornadoes on that day visited Jefferson County.

In Jefferson County, there have been 45 verified tornadoes from 1950 through 2023 (*Appendix G*). The vast majority of them were F0 or F1 (*Table 5-22*). Prior to 1950, there were four verified tornadoes: 1851, 1878, 1883, and 1931. Prior to 1982 when the National Weather Service began classifying tornadoes, ratings are at best broad estimates, with an accuracy of plus/minus 1.

A presidential disaster declaration was issued for tornado damage in 1991 and 1993. During the period from 1950 through 2023, tornadoes resulted in 3 fatalities, 36 injuries, $11.1 million in property damage, and $21,000 in crop damage (*Appendix G*).

VULNERABILITY ASSESSMENT

Effects on Facilities – Because tornadoes apparently occur randomly across the landscape, all areas of the county are equally as likely to experience a tornado. Therefore, all of the critical facilities which have been identified are at risk.

Effects on Population Groups – Even though all areas of the county are equally likely to experience a tornado, those living in mobile homes or staying in a campground are more vulnerable than those people living in a residence with a basement. In 2018, there were more than 20 mobile home parks and campgrounds, none of which had a storm shelter where people could go during a wind-related storm event.

Effects on Economic Sectors – While individual businesses may be damaged, the overall economy generally experiences short-term effects of a tornado, if at all.

Based on historical occurrences and documented damage estimates, a tornado would be expected to cause about $250,000 on average. The range however, is quite wide depending on where the tornado occurs and its magnitude (*Table 5-23*).

Climate change can be expected to lead to more frequent, higher intensity tornados. This will affect more people over a wider area of the County, and the resulting damage will be higher.

Table 5-23. Estimated Tornado Damage: Jefferson County

Fujita Rating [1]	Damage Estimate
EF0	0 to $250,000
EF1	$25,000 to $250,000
EF2	$25,000 to $2,500,000
EF3	$250,000 to $3,000,000
EF4	$500,000 to $3,000,000
EF5	$750,000 to $3,000,000

Notes:
1. Refer to Table 5-20 for a description of the Fujita ratings

11. HAILSTORMS

PROFILE

A hailstorm is a weather event where water particles in the upper atmosphere form into round or irregular masses of ice that fall to earth. Hail stones form when sub-freezing temperatures in the upper atmosphere cause water in thunderstorm clouds to accumulate in layers around an icy core. When strong underlying winds no longer can support their weight, the hailstones fall to Earth. The size of hail typically ranges from ¼" up to three inches in diameter. In a rather rare occurrence, a 2006-hail storm in Lake Mills created hail stones with a diameter of 4.25 inches.

Hail tends to fall in swaths that may be 20-115 miles long and 5-30 miles wide. The swath is not normally an even bombardment of hail, but generally consists of a series of hail strikes that are produced by individual thunderstorm clouds traversing the same general area. Hail strikes are typically one-half mile wide and up to five miles long. They may partially overlap, but often leave completely undamaged gaps between them.

Hailstorms tend to occur in conjunction with severe thunderstorms.

HISTORY OF PAST OCCURRENCES

From 1950 through 2023, there have been 152 documented hailstorm events in the county (*Appendix G*) resulting in $13.538 million in property damage and $200,000 in crop damage.

VULNERABILITY ASSESSMENT

Effects on Facilities – The threat of hail damage increases as the size of the hailstones increase. Hail can break windows, damage roofs and siding, and dent motor vehicles.

Effects on Population Groups – All population segments are equally susceptible to hail storms. Hail storms while resulting in property and crop damage, rarely cause serious injury or loss of life.

Effects on Economic Sectors – Of all the economic sectors, agriculture is the most susceptible to hail damage. When hailstones approach golf ball size, crops are damaged and are not able to recover, resulting in some cases a total loss.

ESTIMATED DAMAGE

Based on historical data, hailstorms, while quite numerous, do not cause widespread or significant damage. There is however, one exceptional event. In April 2006, hailstorms caused $13.2 million in property damage. This single event accounts for nearly 98 percent of all the documented damage that occurred since 1950.

For the purposes of this plan, it is estimated that a typical hailstorm (excluding the 2006 event) would cause about $5,000 in property damage and $1,500 in crop damage per event.

Climate change can be expected to lead to more frequent, higher intensity hailstorms. This will affect more people over a wider area of the County, and the resulting damage will be higher.

12. THUNDERSTORMS

PROFILE

Thunderstorms are severe and violent forms of convection produced when warm moist air is overlaid by dry cool air. As the warm air rises, thunderheads (cumulonimbus clouds) form and cause the strong winds, lightening, hail, and rain characteristically associated with these storms. Thunderheads may be a towering mass 6 miles or more across and 40,000 to 50,000 feet high. As much as 1.5 million tons of water may be held in a thunderhead.

A storm event arising for a single thunderhead typically lasts less than 30 minutes in a given location. However, strong frontal systems may spawn more than one squall line composed of many individual thunderheads.

As defined by the National Weather Service, a severe thunderstorm is a thunderstorm event that produces one or more of the following: downbursts with winds of 58 mile per hour or greater, hail ¾ of an inch in diameter, or a tornado.

HISTORY OF PAST OCCURRENCES

From 1950 through 2023, there have been more than 290 thunderstorm events, resulting in 9 injuries, $4.2 million in property damage, and $359,000 in crop damage. They account for about one-third of all weather-related events documented since 1950. On average, county residents can expect to experience almost 4 significant thunderstorm events each year.

Although thunderstorms can occur throughout the year, they are most common from May through September. Typically, they occur after noon until 10:00 pm.

The most devastating thunderstorm to hit Jefferson County occurred May 31, 1998. Straight-line winds with peak gusts of 100 to 128 mph hit 12 counties in south central and southeast Wisconsin, while another 8 counties had peak gusts of 60 to 80 mph. It is believed that this event was the most damaging, widespread, straight-line thunderstorm wind event to hit southern Wisconsin in more than 100 years. Roofs were torn off of barns, homes, and other buildings. Thousands of trees were uprooted or significantly damaged. Hundreds of motor vehicles were either damaged or totaled by falling trees and branches or collapsed garages. At one point, about 60,000 customers were without electricity in south central Wisconsin and about 170,000 in southeast Wisconsin. Some areas were without power for as much as 5 or 6 days. Property damage for all 20 counties totaled more than $55.85 million and $1.48 million in crop losses. In Jefferson County, there were 8 reported injuries, $2.7 million in property damage, and $200,000 in crop losses.

VULNERABILITY ASSESSMENT

Effects on Facilities – Aside from hail, straight line winds from a thunderstorm can damage property and to a less extent crops. Overhead utility lines are quite susceptible to downed trees and tree branches. Entire neighborhoods and even larger areas can lose power because of a thunderstorm. All areas of the county are equally susceptible to thunderstorms, meaning that all critical facilities are at risk.

Effects on Population Groups – Wind associated with severe thunderstorms can cause injury or loss of life. With the exception of those living in mobile home parks or staying in campgrounds, no population group is uniquely susceptible to a thunderstorm event. Those in mobile homes and campgrounds are at risk from falling trees and branches, and damage to their residence or camper.

Effects on Economic Sectors – Thunderstorms do not affect any economic sector disproportionately more than others.

Based on historical data, a thunderstorm is expected to cause about $60,000 in property damage and less than $5,000 in crop damage. It is believed the crop damage impact is under reported.

Climate change can be expected to lead to more frequent, higher intensity severe thunderstorms and resultant high winds, hail, and lightning. This will affect more people over a wider area, and the resulting damage will be higher.

13. WINTER STORMS

PROFILE

Winter storms include a wide range of weather-related events including snowstorms, blizzards, freezing rain, sleet, and ice storms. Typical snow events produce totals of between one and three inches. On a statewide basis, heavy snowfalls happen on average only five times per winter. Total snow accumulations in southern Wisconsin average about 40-50 inches. While blizzard conditions can occur in southern Wisconsin, it is rare. Both ice and sleet storms can occur at any time from October into April. They are more common in southern Wisconsin than in the northern part of the state. Statewide, there are 3 to 5 freezing rain events.

Terms Related to Winter Storms

Heavy snowfall - The accumulation of six or more inches of snow in a 12-hour period or eight or more inches in a 24-hour period.

Blizzard - The occurrence of sustained wind speeds in excess of 35 miles per hour accompanied by heavy snowfall or large amounts of blowing or drifting snow.

Ice storm - An occurrence where rain falls from warmer upper layers of the atmosphere to the colder ground, freezing upon contact with the ground and exposed objects near the ground forming an accumulation of at least 1/4" in 12 hours or less.

Freezing drizzle / freezing rain - The effect of drizzle or rain freezing upon impact on objects that have a temperature of 32 degrees Fahrenheit or below.

Sleet - Solid grains or pellets of ice formed by the freezing of raindrops or the refreezing of largely melted snowflakes. This ice does not cling to surfaces.

HISTORY OF PAST OCCURRENCES

From 1950 through 2023, there have been 190 winter storm events in Jefferson County consisting of either blizzard conditions, heavy snow, ice, or sleet -- about 2.6 per winter season.

VULNERABILITY ASSESSMENT

Effects on Facilities – Heavy snow can cause the structural collapse of buildings with flat roofs. In recent memory there have been a few winter seasons where snow events taxed the ability of local governments to pay for the removal of snow from roads and keep them clear of snow.

Effects on Population Groups – Winter storms affect all population groups equally. People who commute a comparatively long distance are disproportionately affected.

Effects on Economic Sectors – A prolonged winter storm event with a large accumulation of snow can have a short-term effect on the local economy in terms of lost productivity. Transportation-related businesses are often negatively affected when winter weather hits.

The cost of snow removal is incorporated into local government budgets so there is no direct financial impact arising from most winter storms.

Climate change can be expected to lead to more frequent, higher intensity winter storms causing more impacts over a wider area.

14. EXTREME TEMPERATURE

PROFILE

Periods of excessive heat, often referred to as heat waves, are quite common in Wisconsin during the summer months. When high temperatures do occur, they cover large areas of the country.

The National Weather Service (NWS) devised the Heat Index[5] as a way to measure the combined effects of temperature and relative humidity. The Heat Index chart (*Exhibit 5-17*) also shows when certain physiological responses are commonly seen with prolonged exposure and/or physical activity. As the relative humidity increases, even modest temperatures can cause heatstroke and other less serious heat disorders.

[5] The Heat Index is sometimes referred to as the apparent temperature.

Exhibit 5-16. Heat Disorders and Symptoms

Heat Disorder	Symptoms
Sunburn	Redness and pain; in severe cases swelling of skin, blisters, fever, headaches
Heat Cramps	Painful spasms usually in muscles of legs and abdomen possible; heavy sweating
Heat Exhaustion	Heavy sweating, weakness, skin cold, pale and clammy; pulse thready; normal temperature possible; fainting and vomiting
Heatstroke	High body temperature (106 or higher); hot dry skin; rapid and strong pulse; possible unconsciousness

Source: National Weather Service, National Oceanic and Atmospheric Administration

Exhibit 5-17. Heat Index (Apparent Temperature)

Source: National Weather Service, National Oceanic and Atmospheric Administration

With Prolonged Exposure and/or Physical Activity

Extreme Danger – Heat stroke or sunstroke highly likely

Danger – Sunstroke, muscle cramps, and/or heat exhaustion likely

Extreme Caution – Sunstroke, muscle cramps, and/or heat exhaustion likely

Caution – Fatigue possible

History of Past Occurrences

Based on records maintained by the National Weather Service, there have been 17 reported events with excessive temperatures since 1950 (*Appendix G*).

Out of all of the natural hazards in Wisconsin, excessive heat is one of the leading cause of fatalities.

Vulnerability Assessment

From 2000 through 2023, there were 3 years in which at least one or more persons in Wisconsin died from the effects of excessive heat (*Table 5-24*). One fatality occurred in Sauk County in 2011. Its likely county residents received medical treatment for heat-related symptoms that are not reported.

In 1995, two heat waves gripped much of the state. The first occurred in mid-June and the second in mid-July. In the second heat wave, temperatures rose to between 100ºF and 108ºF with heat indices of 120ºF to 130ºF.

Table 5-24. Heat-Related Fatalities and Injuries; Wisconsin: 2000 - 2023

Year	Deaths	Injuries
2011	5	**8**
2012	7	**0**
2022	2	**0**
Total	14	8

Source: National Weather Service, Milwaukee - Sullivan Office

According to the National Weather Service, the mortality rate from excessive heat in Wisconsin is the highest of all natural disasters – more than four times greater than the second highest cause of death, tornadoes.

Intensely urbanized areas feel the effects of heat waves more than rural areas in that the temperature in urban areas is often elevated because radiant energy is stored in pavement and the exterior building surfaces and is released slowly over a period of time. Even during a heat wave, nighttime temperatures typically drop, but less so in urban areas because these heat reservoirs dissipate the radiant heat collected during the daytime. This phenomenon is often referred to as the heat island effect.

Not only are urban areas heat islands, pollutants often build up in the lower atmosphere during periods of excessive heat, causing respiratory problems, especially for the young, the elderly, and those with respiratory ailments such as asthma.

Table 5-25. Heat-Related Fatalities; United States: 1995

Age	Number	Percent
0 – 19	14	1.4
20 – 29	5	0.5
30 – 39	34	3.3
40 – 49	79	7.7
50 – 59	95	9.3
60 – 69	179	17.5
70 – 79	253	24.8
80 – 89	241	23.6
90 and older	61	6.0
Unknown age	60	6.0
Total	1,021	100

Source: National Weather Service

Although the more urban areas of the county experience the heat island effect, the change in the ambient temperature is modest. This is because the urban areas of the county are relatively small and street trees help to deflect solar radiation back into the atmosphere.

Effects on Facilities – Excessive heat does not directly impact critical facilities.

Effects on Population Groups – The elderly are disproportionately affected by heat. For example, during the heat waves of 1995, three-quarters of the fatalities were 60 years of age or older (*Table 5-25*).

Effects on Economic Sectors – Excessive heat and prolonged periods of warmer temperatures can affect agriculture in a variety of ways (*Exhibit 5-18*).

Exhibit 5-18. Impacts on Agriculture

a. Increased frequency of heat stress on livestock and crops.
b. Decreased dairy herd milk production during extreme heat events. *
c. Rapid shifts between warm and cold periods in the spring that can damage fruit crops and degrade soil health through freeze/thaw cycles (e.g., pore structure, aggregate stability, etc.).*
d. Less reliable winter snow and ice cover causing winter kill of alfalfa and damage to winter cereals (e.g. wheat) and cranberry crops.
e. Increased susceptibility to insect pests and pathogens causing increased crop losses, as well as increased pesticide use and reduced pesticide effectiveness.
f. Increased weed pressure from natural regeneration of exposed soils following rain events causing increased herbicide use.
g. A need to develop and plant crop varieties adapted to longer growing seasons, increased temperatures, and erratic precipitation access.
h. Extended the fall planting date and increased the growing season for cover crops.
i. Potential to use longer-season crop varieties that have higher input needs.
j. Increased risk of drought causing decreased germination and crop loss, especially during fruiting periods. *
k. Increased use of groundwater sources for irrigation during extreme heat or drought events. • Increased crop loss due to excessive precipitation, especially during seed germination periods. *
l. Increased frequency of waterlogged soils resulting in delayed or missed planting and harvesting, delayed or missed manure and fertilizer applications, a need for adjustments to nutrient management to account for changes in nutrient cycling in wet soils, and potential for soil compaction and reduced time for animals on pasture.
m. Increased frequency of extreme rainfall events which intensifies potential for soil erosion and gully formation; nutrient, sediment, and pathogen runoff to surface waters; and challenges for manure management.

Note: * See source for relevant sources cited.

Additionally, some businesses may close or reduce production to minimize heat effects on employees.

15. DROUGHT

PROFILE

A drought is an extended period of time when rainfall is significantly below normal amounts. Unlike other natural disasters, it is not known until much later in time, when a drought begins. A drought could last for months, several years, and in extreme conditions, much longer. Droughts are typically accompanied by higher-than-normal temperatures and lower-than-normal relative humidity levels. Some droughts cover entire regions of a continent or can affect a sub-region as small as several counties.

A number of methodologies have been developed to measure droughts from a purely meteorological standpoint. Droughts can also be defined based on the consequences which result. For the purposes of this plan, two types of drought are considered: agricultural and hydrologic. An agricultural drought causes a noticeable drop in crop yields and a hydrological drought causes a drop in lake and stream levels and lowers the height of the ground water table.

Although these two types of droughts can occur at the same time, the negative effects of a drought are first seen on crop production. Hydrologic droughts characteristically lag behind an agricultural drought because it takes time for the lack of precipitation to lower surface and ground water levels. As a result, it is possible for an area to experience a hydrologic drought long after the end of an agricultural drought.

HISTORY OF PAST OCCURRENCES

Agricultural and hydrologic droughts occur in Wisconsin on a regular basis. Since the Dust Bowl, short-lived droughts have occurred on an interval of about once in every ten years. Long-term droughts are more infrequent. Since the Dust Bowl, there have been four significant droughts in the state: 1987-1988, 1976-1977, 1955-1959, and 1948-1950.

From 1950 through 2023, there have been 18 periods of drought in the County, resulting in reported crop damage of $300,000.

VULNERABILITY ASSESSMENT

Given the nature of droughts, it is difficult to quantify the impacts on Jefferson County.

By most accounts, the 1987-1988 drought in Wisconsin was the most severe and is estimated to have a recurrence interval of about 75 years. All Wisconsin counties were eligible for drought assistance. Agricultural losses throughout the state totaled $1.3 billion. More than half of the farms in the state suffered crop losses of 50 percent or more, with 14 percent experiencing a crop loss of 70 percent or more.

Table 5-26. Source of Drinking Water; Jefferson County: 2016

	Number of residents	Percent of total
Public well	35,058	41.6
Private well	49,204	58.4
Total	84,262	100

Source: Estimated from population estimates prepared by Wisconsin Department of Administration, Demographic Service Center

POTENTIAL FOR FUTURE LOSSES

Effects on Facilities and Population Groups – Unlike many of the other natural disasters addressed in this plan, drought conditions do not cause physical harm to people or destroy buildings and other structures.

Effects on Economic Sectors -- The two main concerns with drought relate to economic losses to agricultural crops and livestock and effects on ground water supplies available to both private and public water wells.

According to the Jefferson County Agricultural Preservation and Land Use Plan, roughly half of the unincorporated area of the county is in agricultural production. Droughts would therefore affect a significant portion of the county and a significant economic sector. During extended droughts, municipalities often see an increased water usage due primarily to increased use for lawns and gardens. It is important that municipal wells are properly sized for the number of residents they are intended to serve. At times it may be necessary to impose water restrictions when there is concern that the available water supply may not be sufficient to meet basic needs.

Because municipal wells are generally concentrated in a relatively small area, extended droughts can affect the level of the water table. With decreased rainfall, the water table will naturally drop. Most public water wells draw from the deep aquifers and typically are not negatively affected. However, those wells serving an individual household are comparatively shallow and are more susceptible to a dropping water table, especially when located near a municipal well. Nearly two-fifths of county residents receive their drinking water from a municipal system and the remaining three-fifths from a private well (*Table 5-25*).

16. WILDLAND FIRE

PROFILE

A wildland fire is an uncontrolled fire burning natural vegetation and potentially buildings and other structures. A wildland fire can occur in a large forested area, woodlot, grassland, roadside ditch, or marsh.

Wildland fires can be ignited by lightening, human carelessness, and arson. In Wisconsin, human carelessness is the leading ignition source.

HISTORY OF PAST OCCURRENCES

Because the majority of Jefferson County is in some form of agriculture, there have been few instances of wildland fires. Those wildland fires that have started are relatively small and contained comparatively quickly. Larger fires that do occur, often occur in marsh areas.

VULNERABILITY ASSESSMENT

Effects on Facilities – With the exception of some utility infrastructure, no critical facilities in Jefferson County are vulnerable to a wildland fire.

Effects on Population Groups – wildland fires do not negatively affect any population group.

Effects on Economic Sectors – Wildland fires do not negatively affect any of the economic sectors in Jefferson County.

It is estimated that direct costs for fighting a five-acre grass fire is in the range of $1,500 to $4,500. Costs related to a fire exceeding 25 acres would be in the range of $10,000 to $25,000.

Climate change can be expected to lead to more wildland fires as the potential of droughts increase. This will affect more people over a wider area, and the resulting damage will be higher.

17. SUMMARY OF RISK BY JURISDICTION

Table 5-27 presents a summary of risk for each jurisdiction in Jefferson County.

Table 5-27. Summary of Risk by Jurisdiction: 2025

Town	Dam Failure	Flooding [2]	Dense Fog	Tornado	Hail-storm	Thunder-storm	Winter Storms	Temp. Extremes	Drought	Wildland Fire
Aztalan	Low	Medium	Low	Medium	Medium	Medium	Medium	Medium	Low	Low
Cold Spring	Low	Medium	Low	Medium	Medium	Medium	Medium	Medium	Low	Low
Concord	Low	Medium	Low	Medium	Medium	Medium	Medium	Medium	Low	Low

Watertown [1]	Medium	High	Low	Medium	Medium	Medium	Medium	Medium	Low	Low
Whitewater [1]	Low	Medium	Low	Medium	Medium	Medium	Medium	Medium	Low	Low

Notes:

1. Municipality located in Jefferson County and another county
2. See Section 6 of this chapter for a detailed loss estimate.

Since the last plan, there have been some minor shifts, primarily to flood risk. As noted in Chapter 6, the county has been actively pursuing grant funding to help purchase flood-prone properties to remove existing structures. In a similar way, some jurisdictions have seen minor shifts as lands are being annexed to cities and villages and removed from towns. Finally, as more buildings are constructed the potential for storm damage increases incrementally as well.

18. SUMMARY OF DAMAGE ESTIMATES

Table 5-28 lists damage estimates for the various natural hazards reviewed in this chapter.

Table 5-28. Damage Estimates for Natural Hazards; Jefferson County

Natural hazard	Damage estimate
Dam Failure	Unknown
Flooding [1]	$2.16 million property; $1.3 million crop
Ice Shoves	$1,000
Fog [2]	0
Tornado/High Wind	$375,000 property; $1,000 crop
Hail Storms [2]	$5,000 property; $1,500 crop
Thunderstorm [2]	$20,000 property; $2,000 crop
Winter Storms [2] [3]	0
Extreme Temperature – heat	0
Extreme Temperature – cold	0
Drought - short-lived	0
Drought - long-lived	0 property; $100,000-$200,000 crop
Wildland fire - 25 acres or more	$10,000 to $20,000
Wildland fire - less than 25 acres	$1,500 to $4,500

Notes: 1. Based on a reported damage from 1950 through 2023 for 50 events
2. Estimates do not include damage to motor vehicle or other accident-related costs
3. Estimate does not include snow removal costs. These are included in local government budgets.

MITIGATION STRATEGY

1. CHAPTER OVERVIEW

This chapter is intended to identify common mitigation strategies for each of the natural hazards reviewed in this plan and potential funding sources for carrying out mitigation activities. The bulk of the chapter is devoted to listing goals, objectives, and policies along with activities that apply broadly to the county and civil divisions. Where warranted, special programs or projects or activities that apply to a single jurisdiction are also listed.

Chapter Contents

1. Chapter Overview
2. Types of Potential Mitigation Strategies
3. Existing Mitigation Strategies
4. Funding Sources
5. Review of Capabilities
6. Authority to Control Land Use and Development
7. Goals, Objectives, and Policies
8. Mitigation Projects and Activities

2. TYPES OF POTENTIAL MITIGATION STRATEGIES

Mitigation strategies can be grouped into six broad categories:

- Prevention
- Property protection
- Public education and awareness
- Natural resource protection
- Emergency services
- Structural projects

Examples are listed below for each of the natural hazards addressed in this plan.

Dam Failure

- Remove dams that don't serve a useful purpose
- Require the preparation of emergency action plans
- Ensure that emergency action plans are current
- Ensure that dam inspections are conducted as required by state law
- Include a dam failure in emergency planning exercises
- Minimize the level of development in a dam's hydraulic shadow in an effort to minimize damage resulting from a dam failure

Key Terms in This Chapter

Community Rating System (CRS) – A voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum National Flood Insurance Programs requirements. As a result, flood insurance premium rates are discounted to reflect the reduced flood risk resulting from qualified community actions.

Goal – A statement that describes a desired condition to be achieved sometime in the future. A goal is often broad in scope, not easily measurable, and long-term in nature.

Objective – A specific and usually measurable intermediate end that is achievable and make progress toward a goal.

National Flood Insurance Program – A Federal program created in 1968 under which flood-prone areas are identified and flood insurance is made available to the owners of the property in participating communities.

Policy – *A predetermined course of action or specific rule that an organization adopts and uses in decision-making and which when applied will help to achieve one or more of its goals or objectives.*

Repetitive loss community – *A community with one or more repetitive loss properties.*

Repetitive loss property (RLP) – *For purposes of the Community Rating System, a property for which two or more National Flood Insurance Program losses of at least $1,000 each have been paid within any 10-year rolling period since 1978.*

Severe residential loss (SRL) property – *A residential property (1) that has at least four NFIP claim payments over $5,000 each, when at least two such claims have occurred within any ten-year period, and the cumulative amount of such claims payments exceeds $20,000; or (2) or which at least two separate claims payments have been made with the cumulative amount of the building portion of such claims exceeding the value of the property, when two such claims have occurred within any 10-year period.*

Safe room – An above ground room within a building (most often homes) that is specifically designed to withstand high winds and provides occupants a safe refuge from tornadoes, hurricanes, or other high-wind events.

Strategy – *An action or a group of actions intended to achieve a goal or objective.*

Flooding

- Continue to enforce floodplain regulation and strengthen requirements when appropriate
- Limit development in the floodplain through local floodplain regulations or zoning
- Provide dryland access through flood-prone areas
- Retrofit legal nonconforming buildings that do not meet floodplain regulations (e.g., elevating, floodproofing)
- Purchase repetitive loss properties and other flood-prone properties and remove structures (i.e., demolition or relocation)
- Raise the surface of local roads above 50-year flood elevations and arterials above 100-year flood elevations
- Enlarge the cross-section of culverts and bridges when they do not adequately carry anticipated flood flows
- Prohibit basements in new subdivisions where flooding from stormwater could be problematic
- Clean drainageways to allow a free flow of water
- Minimize the amount of impervious surfaces in a watershed so that stormwater can soak into the ground rather than contributing to flood water
- Maintain appropriate water rescue equipment
- Develop and implement appropriate evacuation procedures in flood-prone area
- Install gaging stations to better understand surface water flow regimes
- Construct stormwater facilities (e.g., detention and retention basins) to help manage stormwater
- Take steps to upgrade the National Flood Insurance Program requirements

Ice Shoves

- Limit development along lakeshores prone to ice shoves

Fog

- Identify those roadways where fog is localized and install appropriate signage
- Install automated visibility warning systems to detect reduced visibility conditions

Tornado / High Winds

- Construct storm shelters in campgrounds and mobile home parks
- Bury electrical and telephone lines and other utility cables
- Continue to enforce building codes and strengthen requirements when appropriate
- Include safety strategies for severe weather events in driver education classes

Severe Storms/Hail

- Encourage property owners to use building products (e.g., roofing, siding) resistant to hail damage

Snow Storms

- Bury electrical and telephone lines and other utility cables
- Install temporary snow fences along road ways that have experienced blowing and drifting snow
- Continue to enforce building codes and strengthen requirements when appropriate
- State and local governments can produce and distribute information to motorists relating to severe winter weather hazards
- Include safety strategies for severe weather events in driver education classes

Extreme Temperature

- Establish heating and cooling centers for vulnerable populations including the elderly and homeless
- Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperature

Drought

- Adopt local ordinances for prioritizing water usage during drought emergencies
- Develop public wells in deep aquifers
- Maintain enough water storage capacity in public water systems
- Protect wetlands from development
- Encourage the use of water-saving devices in homes and other places where water is used
- Encourage farmers to take out crop insurance

- Protect important aquifer recharge areas from inappropriate development

Wildland Fire

- Maintain appropriate fire fighting equipment to effectively respond to wildland fires
- Ensure that new homes are well protected from wildland fires and have multiple routes of ingress and egress
- Provide homeowners with information on how to create a defensible space around structures
- Bury electrical and telephone lines and other utility cables
- Institute measures to reduce soil erosion following a wildland fire event
- Local governments in rural areas can require the issuance of burn permits
- Encourage property owners to conduct controlled burns as a means of controlling fuel buildup

3. Existing Mitigation Strategies

National Flood Insurance Program

In 1968, Congress created the National Flood Insurance Program (NFIP)[1] to identify and map flood-prone communities and provide flood insurance to those property owners within a community that has adopted floodplain management regulations that meet minimum requirements. The Federal Insurance and Mitigation Administration, a division of the Federal Emergency Management Agency (FEMA), administers this Federal program. Over 21,000 communities across the United States and its territories now participate in the NFIP.

Jefferson County participates in the NFIP along with each of the cities and villages (*Table 6-1*). In 1971, the city of Fort Atkinson became the first jurisdiction in the county to participate. In a number of instances, revised flood insurance rate maps (FIRMs) have been adopted as more accurate information became available.

Beginning in 2006, the Federal Emergency Management Agency, in collaboration with the Wisconsin Department of Natural Resources, initiated a multi-year effort to create and adopt digital FIRMs for the entire county. Those FIRMs became effective June 2, 2009. The county maps were again updated in 2015.

Table 6-1. Local Participation and Compliance with NFIP Requirements: 2024

City of Fort Atkinson
NFIP Status: Participating (#555554)
Floodplain Ordinance: Chapter 30, Article III of the municipal code
Adoption of Initial FIRM: 5/26/1971
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development
City of Jefferson
NFIP Status: Participating (#555561)
Floodplain Ordinance: Chapter 286 of the municipal code
Adoption of Initial FIRM: 5/26/1972
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development
City of Lake Mills
NFIP Status: Participating #(550195)
Floodplain Ordinance: Chapter 660 of the municipal code
Adoption of Initial FIRM: 7/2/1987
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

[1] The National Flood Insurance Program was created with the passage of the National Flood Insurance Act of 1968.

Table 6-1. Local Participation and Compliance with NFIP Requirements: 2024

City of Waterloo

NFIP Status: Participating (#550198)
Floodplain Ordinance: Chapter 375 of the municipal code
Adoption of Initial FIRM: 9/18/1985
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

City of Watertown [1]

NFIP Status: Participating (#550107)
Floodplain Ordinance: Chapter 532 of the municipal code
Adoption of Initial FIRM: 4/1/1981
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

City of Whitewater [1]

NFIP Status: Participating (#550200)
Floodplain Ordinance: Chapter 19.46 of the municipal code
Adoption of Initial FIRM: 6/1/1982
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

Village of Cambridge [1]

NFIP Status: Participating (#550080)
Floodplain Ordinance: Chapter 15.60 of the municipal code
Adoption of Initial FIRM: 6/4/1980
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

Village of Johnson Creek

NFIP Status: Participating (#550194)
Floodplain Ordinance: Chapter 240 of the municipal code
Adoption of Initial FIRM: 9/30/1982
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

Village of Lac La Belle [1]

NFIP Status: Participating (#550565)
Floodplain Ordinance: Chapter 8 of the municipal code
Adoption of Initial FIRM: 1/18/1983
Adoption of Latest FIRM: 10/19/2023
Designated Agency/Department: Zoning administrator
Primary Responsible Party for Substantial Damage Provisions: Local building Inspector
Floodplain Mgmt. Efforts Contributing to Continued Compliance with NFIP: Comprehensive plan to help guide future development

Village of Palmyra

NFIP Status: Participating (#550196)
Floodplain Ordinance: Chapter 17 of the municipal code
Adoption of Initial FIRM: 5/3/1990
Adoption of Latest FIRM: 2/04/2015
Designated Agency/Department: Zoning administrator

Notes:

1. Municipality located in Jefferson County and another county

Participation in the NFIP is based on an agreement between local communities and the federal government that states, if a community will adopt and enforce a floodplain management ordinance to reduce future flood risks to new construction in Special Flood Hazard Areas, the federal government will make flood insurance available within the community as a financial protection against flood losses.

Because Jefferson County and each of the cities and villages participate in the NFIP, property owners are able to purchase flood insurance, including those not located within a mapped floodplain area. Flood insurance pays even when no state or federal disaster is declared. Historically, federal disaster declarations have been issued in less than 50 percent of the flooding incidents.

There are two types of flood insurance. The first is a policy that insures the physical structure and the second is a policy that covers the content of the building. The standard flood insurance policy provides coverage for one building per policy. The only exception is 10 percent coverage for a detached garage. However, the total payment for flood damage to the detached garage and the house together cannot exceed the building policy limit. For coverage to apply, the garage can only be used for parking and storage. All other buildings on the premises need separate coverage. The maximum allowable limits are $250,000 for residential properties and $500,000 for commercial properties.

Contents are not automatically included. If contents coverage is desired, a specific amount must be named and a separate premium charged. Contents coverage limits are $100,000 for residential policies and $500,000 for commercial policies.

Federal disaster declarations are issued in less than 50% of the flooding incidents.

Building property coverage includes:

- The insured building and its foundation
- The electrical and plumbing systems
- Central air conditioning equipment, furnaces, and water heaters
- Refrigerators, cooking stoves, and built-in appliances such as dishwashers
- Permanently installed carpeting over an unfinished floor
- Permanently installed paneling, wallboard, bookcases, and cabinets.
- Window blinds
- Detached garages (up to 10 percent of building property coverage)
- Debris removal

Personal property coverage includes:

- Personal belongings such as clothing, furniture, and electronic equipment
- Curtains
- Portable and window air conditioners
- Portable microwave ovens and portable dishwashers
- Carpets not included in building coverage (see above)
- Clothes washers and dryers
- Food freezers and the food in them
- Certain valuable items such as original artwork and furs (up to $2,500)

The cost of an annual regular flood insurance policy varies depending on the site location, age of the building, design of the building, and elevation of the building if located in a flood hazard area

Sanitary sewer backups are not covered. However, many homeowners policies do have riders to cover sewer back-ups. Sewer back-up riders can cost as little as $30 per year.

While flood insurance coverage can significantly reduce the potential economic loss to a landowner in case of a flood disaster, flood insurance also helps reduce the cost of disaster aid to the general public. It has been shown that every $3 paid in flood insurance claims saves $1 in disaster assistance payments.

In 2024, there were 193 insurance policies in Jefferson County with coverage of more than $46.4 million (*Table 6-2*). Premiums totaled $235,513 for those policies.

Table 6-2. Flood Insurance Policies: 2024

Jurisdiction	Policies	Total Coverage	Total Written Premiums + FPF	Total Annual Payment
Cambridge, village [1]	0	0	0	0
Fort Atkinson, city	22	$5,910,000	$49,983	$61,593
Jefferson, city	24	$5,896,000	$41,641	$50,435
Jefferson County, unincorporated	127	$28,664,000	$123,876	$160,656
Johnson Creek, village	0	0	0	0
Lac La Belle, village [1]	0	0	0	0
Lake Mills, city	0	0	0	0
Palmyra, village	0	0	0	0
Sullivan, village	1	$1,000,000	$1,866	$2,443
Waterloo, city	5	$751,000	$5,049	$6,717
Watertown, city [1]	14	$4,244,000	$13,098	$16,136
Whitewater, city [1]	0	0	0	0
Total	193	$46,465,000	$235,513	$297,980

COMMUNITY RATING SYSTEM

The Community Rating System (CRS) is a voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum requirements of the National Flood Insurance Program (NFIP). Because flood risk has been reduced, policy holders in participating communities enjoy lower flood insurance premiums than those located in a community that is not part of CRS. Flood insurance premium rates are discounted as shown in Table 6-3 based on a community's rating. A Class 1 community receives a 45 percent premium discount, while a Class 9 community receives a 5 percent discount. A Class 10 community is not participating in CRS and receives no discount. The CRS classes for local communities are based on 18 activities, organized under four categories: (1) public information, (2) mapping and regulations, (3) flood damage reduction, and (4) flood preparedness. Nationwide, 1,049 communities are part of CRS, or roughly 5 percent of those who are eligible.

In Jefferson County, the City of Watertown is the only jurisdiction that is part of CRS (*Table 6-4*). All of the other communities have a CRS rating of 10.

Table 6-3. Insurance Premium Reductions for Communities in the Community Rating System

CRS Rating	Special Flood Hazard Area	Non-Special Flood Hazard Area
1	45%	10%
2	40%	10%
3	35%	10%
4	30%	10%
5	25%	10%
6	20%	10%
7	15%	5%
8	10%	5%
9	5%	5%
10	0	0

Notes: 1. Municipality located in Jefferson County and another county

2. Watertown enrolled in the CRS in October 1991 and has maintained its current rating since October 2001.

PROPERTY ACQUISITION AND STRUCTURE REMOVAL

Given the large number of buildings located in the 100-year floodplain, Jefferson County began a program in 1988 to acquire flood-prone properties with the intent of removing the buildings either through demolition or relocation. Since the first acquisitions in 1995, there has been more than 100. (*Exhibit 6-1*). The largest number of acquisitions occurred in 2010. A complete listing with property locations is included as *Appendix J*.

STORMREADY

StormReady is a national voluntary program, administered through local National Weather Service (NWS) offices that encourages communities to take a proactive approach in developing plans to improve local hazardous weather operations and public awareness for all types of local severe weather threats[2]. It is intended to give communities the skills and education needed to cope with and manage potential weather-related disasters, before and during the event. By participating in StormReady, local agencies can earn recognition for their jurisdiction by meeting criteria established by the National Weather Service in partnership with federal, state, and local emergency management professionals.

The program does not replace any of the various federally or state-funded hazard mitigation programs, rather, it compliments them. The entire community - from the mayor, emergency managers, to business leaders and civic groups - can take the lead on becoming StormReady.

[2] More information about StormReady is available from the Milwaukee/Sullivan Weather Service Forecast office. www.crh.noaa.gov/mkx/?n=stormready-mkx

Education and communication are a key part of the StormReady program. The Wisconsin StormReady Advisory Board, comprised of National Weather Service personnel and state, regional, and county emergency managers, reviews applications and visits the jurisdictions to verify the steps made in the process to become StormReady. The designation is only valid for two years. As of 2024, there were 19 counties, 14 communities, and 6 universities in Wisconsin that were StormReady certified (*Table 6-5*).

The City of Lake Mills was initially certified in 2001, the first community in Wisconsin to receive the StormReady designation. The City of Whitewater, is the only other jurisdiction in the county to be certified. UW-Whitewater was certified in the last five years.

NOAA Weather Radio

The NOAA Weather Radio network provides authoritative weather and emergency information to the public.

NOAA Weather Radio (NWR) is a nationwide network of radio stations broadcasting continuous weather information direct from a nearby National Weather Service office. NWR broadcasts National Weather Service warnings, watches, forecasts, and other hazard information 24 hours a day. It is also used to broadcast warning and post-event information for all types of hazards - both natural events (e.g., severe weather, flooding) and man-made events (e.g., Amber Alerts, toxic, chemical, and biological releases, terrorist attacks). The radios can be programmed to receive information specific to a certain geographic area and sound an alarm to alert users of approaching dangerous weather. NWR is the primary actuator of the Federal Communications Commission's Emergency Alert System (EAS).

As of June, 2012, the NWR network included 1,000 stations covering all 50 states, adjacent coastal waters, Puerto Rico, the U.S. Virgin Islands, and the U.S. Pacific Territories.

The Milwaukee/Sullivan Weather Service Forecast office is located in the town of Sullivan and serves 20 counties in south-central and southeast Wisconsin. NOAA Weather Radios are available through retail stores that sell electronic appliances, marine supply stores, truck stops, cable shopping networks, mail order catalogs, and the Internet.

Urban Stormwater Management Ordinances

New urban development brings with it increases in impervious surfaces such as rooftops, driveways, and streets. As areas develop into urban land uses, there is an increase in both volume and rate of runoff. To control the rate of runoff and potential downstream increases in peak flood elevations, some communities require detention of stormwater.

Jefferson County has adopted a stormwater management ordinance and each of the cities and villages have an ordinance as well.

Erosion and Sediment Control Ordinances

Sediment from construction sites can deposit in local streams causing blockages that can result in potentially higher flood elevations during storm events. To control construction site erosion from construction sites, the Wisconsin Department of Commerce has adopted construction site erosion control regulations through the state Uniform Building Code. State erosion control regulations are enforced through the local building inspectors. In addition to the state regulations, the City of Watertown has adopted a citywide construction erosion control ordinance for new developments.

Shoreland Zoning

Under Wisconsin Administrative Code NR 115, counties are required to adopt a shoreland zoning ordinance that controls development within the shoreland[3] of lakes and streams. The shoreland-zoning ordinance establishes minimum lot sizes–10,000 square feet on public sanitary sewer and 20,000 square feet on private sanitary systems. Buildings must be setback 75 feet from the ordinary high-water mark and comply with local floodplain zoning ordinances. The ordinance regulates the cutting of trees and shrubbery within 35 feet of the ordinary high-water mark and prohibits more than 30 feet of every 100 feet to be removed. Primary uses in the shoreland-zoning district are limited to open space, agricultural, and maintenance of piers, roadways, and public utilities. These development standards follow land when it is annexed into a city or village, unless the municipality has adopted an ordinance as strict as the county ordinance. Jefferson County has adopted an ordinance consistent with state requirements. No city or village in Jefferson County has adopted a shoreland zoning ordinance.

Shoreland Wetland Zoning

Under Wisconsin Administrative Code NR 115, counties are required to adopt a shoreland wetland zoning ordinance that creates a shoreland wetland zoning district to control the development of wetlands that are two acres or more in size within the shoreland area. Permitted uses in the shoreland wetland district are limited to:

- recreation (hiking, fishing, hunting, swimming, and boating)
- agriculture
- public roadways and railroad lines
- public utilities
- non-residential building used for aquaculture

These development standards follow land when it is annexed into a city or village, unless the municipality has adopted an ordinance as strict as the county ordinance. Jefferson County has adopted an ordinance consistent with state requirements. No city or village in Jefferson County has adopted a shoreland zoning ordinance.

Comprehensive Plans

In 1999, the Governor signed legislation that created a new framework for comprehensive planning in Wisconsin. By January 1, 2010, any community wanting to regulate land use must have an adopted comprehensive plan that meets minimum state requirements. Although state requirements do not require that natural hazard planning be a part of a comprehensive plan, communities do have an opportunity to consider natural hazards when devising land use plans and goals, objectives, and policies relating to land use and environmental management. *Table 6-6* shows the status of these plans in the county.

Table 6-6. Comprehensive Plans in Jefferson County: 2024

Jurisdiction	Current Plan Adopted
Jefferson County	February 9, 2021
City of Fort Atkinson	March 19, 2019
City of Jefferson	January 21, 2020
City of Lake Mills	November 7, 2023
City of Waterloo	May 6, 2021
City of Watertown [1]	December 17, 2019
City of Whitewater [1]	July 8, 2017
Village of Cambridge [1]	November 28, 2023
Village of Johnson Creek	November 27, 2023
Village of Lac La Belle [1]	December 5, 2018

Farmland Preservation Program

The state of Wisconsin created the Wisconsin Farmland Preservation Program in 1977 to support the efforts of counties to preserve agricultural resources. If a county has an approved agricultural preservation plan that meets the standards of Chapter 91, Wisconsin Statutes,

[3] A shoreland is defined as land within the following distances from the ordinary high-water mark of navigable waters: 1000 feet from a lake, pond, or flowage; and 300 feet from a river or stream or the landward side of the floodplain, whichever is greater. (NR 115.03 (8))

farmland owners are eligible to receive a state income tax credit.

In October 1999, the county board adopted the *Jefferson County Agricultural Preservation and Land Use Plan*. The agricultural preservation goals of the plan are to:

- Preserve the rural character and aesthetic quality of Jefferson County.
- Provide equity and fairness to owners of land with comparable resources and location characteristics.
- Minimize nonagricultural development on prime agricultural soils.
- Maintain the integrity of agricultural districts allowing for accepted agricultural practices.

The County has since updated the farmland preservation plan consistent with state requirements.

An additional benefit of agricultural preservation is the long-term protection of natural floodplains and flood storage. Sites managed for agricultural preservation will have minimal urban development. Under the agricultural preservation program, the county has established an A-3 Agricultural/Rural Residential Zoning District that limits the number of residential lots in agricultural areas to a maximum of three 2-acre lots per agricultural parcel. The result of the county's agricultural zoning is that much of the floodplain and flood storage areas will be preserved from urban development and increases in flood elevations due to upstream urbanization will be minimized.

ENVIRONMENTAL CORRIDORS

As part of its agricultural preservation and land use plan, Jefferson County designated certain land as environmental corridors where additional preservation policies and development standards apply. The environmental corridor protection effort is intended to:

- protect and preserve an environmental corridor system consisting of wetlands, floodplains, and steeply sloped glacial features,
- protect groundwater and surface water quality, and
- discourage development in areas that possess valuable natural resource characteristics and wildlife habitats.

Environmental corridors include the following area:

- Publicly-owned park, recreation, and conservancy lands.
- Water bodies and wetlands mapped as part of the wetland inventory conducted by the Wisconsin Department of Natural Resources.
- 100-year floodplains based on Federal Emergency Management Agency (FEMA) maps.
- Contiguous woodlands over 10 acres in size.
- Lands with slopes in excess of 20 percent.

Under the county's environmental corridor overlay district zoning, urban development is limited to one dwelling unit per 10 acres. Land disturbances associated with nonagricultural development are prohibited on slopes greater than 20 percent. No buildings should be constructed within 75 feet of wetlands designated by the Department of Natural Resources or navigable bodies of water. Within Jefferson County, 16,000 acres of environmental corridor is in public ownership. Approximately 55,000 acres, or 15.5 percent of the county, is wetland and/or land within the 100-year floodplain. The environmental corridor district provides another tier of protection for floodplains and flood storage areas such as wetlands. The result of the corridor program will be additional prohibition of building in flood-prone areas and greater protection of natural flood storage, minimizing future increases in flood elevations.

Tornado Siren

TORNADO SIRENS

Jefferson County has a variety of warning devices/methods. There is an outdoor warning siren system comprised of 41 sirens that reach about 37 percent of the county's population. This system is maintained by each municipality and is tested once a month throughout the year. The 911 Center activates all sirens with the exception of Fort Atkinson, Waterloo, and Fort Atkinson.

Annex B of the Jefferson County Emergency Operations Plan identifies the procedures and resources used to provide interagency communications between responders. The annex also identifies the county's procedures and resources used to provide warning to all county residents in the event of a disaster.

ROADWAY CLOSURES DURING FLOOD EVENTS

In some of the larger flood events, roadways in the county are blocked with water. This can create a potentially dangerous scenario for drivers, limit access to areas within the county, or cause travel delays. To deal with roadway closings, there are two categories of alternatives. The first are alternatives to modify the roadway (e.g. bridge replacement and elevate roadway) to prevent flooding. The second category includes maintenance of a system to actively close roadways when flooding occurs and identify alternate routes for emergency traffic.

Bridge Replacement. In some cases, an alternative to road inundation may be to increase the hydraulic opening of the bridges to allow less backwater on the upstream side of the bridge. The Flood Insurance Study does not provide enough information for most bridges to determine if the bridge is causing the roadway inundation. From the available information, it appears that most of the bridges in Jefferson County are inundated by backwater from downstream areas, and the bridge plays little roll in the roadway inundation. At this time, an active bridge replacement program with the sole purpose of reducing the frequency of inundation is recommended. When bridges are scheduled for replacement due to age or roadway expansion, the bridge designers should look at the effect of the bridge design on the roadway overtopping. If feasible, the new bridge should be replaced with a structure that would meet the criteria outlined in *Table 6-7*.

The Wisconsin Department of Transportation (WDOT) provides design criteria for structure crossings a stream in the Facilities Development Manual, Procedure 13-10-1. Major structures, such as bridges and box culverts, are designed using a process of selecting a design frequency which best produces a balance between structure costs and the cost of potential flood-related damages or risks. Structures in new locations are generally designed to accommodate the 100-year event without increasing the upstream flood stages over existing conditions. Replacement structures are generally designed not to increase the headwater elevation from existing conditions.

Table 6-7. Recommended Roadway Flood Protection Level

Roadway Classification	Recommended Protection Level
Interstate and railroads	100-year flood
State & county highway	50-year flood
Local arterial	50-year flood
Minor and collector street	10-year flood

In some situations, structure sizes may be increased to reduce the upstream flood elevations. In those cases, if the existing structure is causing upstream flood storage, the flows will need to be re-evaluated to determine if the new structure will increase downstream flows and stages. Under Wisconsin Administrative Code NR 116, if a new bridge results in upstream or downstream increases in the flood elevation greater than 0.01 feet, easements from the affected landowners are required. Where feasible, roadway surfaces should be designed to provide emergency access during flood events.

Elevation of Roadways An alternative to roadway inundation is to raise the pavement surface to above the regional flood elevation. Placing additional fill along the roadway corridor would raise the road surface. While this alternative would help maintain public access, the raising of the road surface may increase flood elevations upstream of the fill. The fill would need to be structurally designed to withstand the hydraulic pressures of the floodwaters. As with bridge replacement, wide-scale elevation of roadway surfaces is not recommended at this time. As roadway maintenance is scheduled, the designers should consider the alternative of roadway elevation. Roadways should only be raised where the project is cost effective.

Road Closures During Flooding Drowning is the number one cause of flood deaths. More people drown in their cars than anywhere else. During flood events, the depth of the water over road surfaces is difficult to predict. Many drivers enter water they think is a few inches deep, only to find themselves in the center of a flowing stream. For years, Jefferson County and the local municipalities have closed and barricaded roadways that are flooded. The Jefferson County Emergency Operations Plan (March 2000) outlines the procedures for emergency response during flood events. A coordinated system between Jefferson County Emergency Management, the Jefferson County Sheriffs Department, and local municipalities is in place to close flooded roads and reroute traffic.

PUBLIC INFORMATION

Information is one of the most important tools in helping people mitigate the potential impacts of natural hazards. To be effective, information needs to be available from several sources and be offered on an on-going basis.

By way of example, *Table 6-8* outlines the roles of the various organizations involved in public education with regards to floodplain issues.

In an effort to keep state residents informed about natural hazards, Wisconsin Emergency Management sponsors a number of public awareness campaigns, including:

- Tornado & Severe Weather Week
- Rip Current Awareness Week
- Heat Awareness Day
- Lightning Safety Week proclamations

Table 6-8. Organizations and Their Roles in Distributing Public Information Regarding Floodplain Management

Organization / Activities
Federal Emergency Management Agency (FEMA)
♦ Provides information on National Flood Insurance Program (NFIP)
♦ Provides training to insurance industry on implementation of NFIP
♦ Provides technical information on flood mitigation activities
♦ Maintains a national library of floodplain maps
Wisconsin Emergency Management
♦ Provides information and training in emergency management including preparedness, response, recovery, and mitigation activities.
Wisconsin Department of Natural Resources
♦ Provides information on National Flood Insurance Program (NFIP)
♦ Provides technical information on flood mitigation activities
♦ Maintains a state library of floodplain maps and flood profile models
♦ Provides training to local zoning administrators on implementation of floodplain zoning ordinances
Jefferson County Zoning and Sanitation Department
♦ Maintains local library of floodplain maps
♦ Provides information on National Flood Insurance Program (NFIP)
♦ Provides information on county floodplain regulations
Local Insurance Agents
♦ Provides information on National Flood Insurance Program (NFIP)
Local Lending Agencies
♦ Provides information on National Flood Insurance Program (NFIP). Flood insurance is required on federally-backed mortgages for properties located in a floodplain.
Real Estate Agents
♦ Provides information on National Flood Insurance Program (NFIP)
♦ Required by state law to notify buyers whether or not a structure is located in a regulatory floodplain

4. FUNDING SOURCES

AVAILABLE FEDERAL FUNDING SOURCES

The Federal Emergency Management Agency administers a number of programs that fund mitigation activities at the local and State level.

The **Building Resilient Infrastructure and Communities** (BRIC) program provides mitigation grants to state and local government, and Tribal Nations, for all-hazards mitigation planning and to implement cost-effective mitigation projects that support resiliency to infrastructure and community lifelines.

Hazard Mitigation Grant Program The Hazard Mitigation Grant Program (HMGP) provides grants to States and local governments to implement long-term hazard mitigation measures after a major disaster declaration. The purpose of the HMGP is to reduce the loss of life and property due to natural disasters and to enable mitigation measures to be implemented during the immediate recovery from a disaster. The HMGP is authorized under Section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act. FEMA ended this program in the 2020 Federal Fiscal Year, but grants were provided in 2016-2019 to Wisconsin communities.

Flood Mitigation Assistance Program The Flood Mitigation Assistance (FMA) program was created as part of the National Flood Insurance Reform Act (NFIRA) of 1994 with the goal of reducing or eliminating claims under the National Flood Insurance Program (NFIP). FEMA provides FMA funds to assist States and communities implement measures that reduce or eliminate the long-term risk of flood damage to buildings, manufactured homes, and other structures insurable under the National Flood Insurance Program.

Pre-Disaster Mitigation Program The Pre-Disaster Mitigation (PDM) program provides funds to states, territories, Indian tribal governments, communities, and universities for hazard mitigation planning and the implementation of mitigation projects prior to a disaster event. Funding these plans and projects reduces overall risks to the population and structures, while also reducing reliance on funding from actual disaster declarations. PDM grants are to be awarded on a competitive basis and without reference to state allocations, quotas, or other formula-based allocation of funds.

Repetitive Flood Claims Program The Repetitive Flood Claims (RFC) grant program was authorized by the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004, which amended the National Flood Insurance Act of 1968. Up to $10 million is available annually for FEMA to provide RFC funds to assist States and communities reduce flood damages to insured properties that have had one or more claims to the National Flood Insurance Program. Eligible activities include acquisition of properties, and either demolition or relocation of flood-prone structures, where the property is deed restricted for open space uses in perpetuity.

Severe Repetitive Loss Program The Severe Repetitive Loss (SRL) grant program was authorized by the Bunning-Bereuter-Blumenauer Flood Insurance Reform Act of 2004, which amended the National Flood Insurance Act of 1968 to provide funding to reduce or eliminate the long-term risk of flood damage to severe repetitive loss (SRL) structures insured under the National Flood Insurance Program (NFIP). The act authorized up to $40 million for each fiscal year 2005 through 2009. Eligible flood mitigation project activities include floodproofing (historical properties only), relocation, elevation, acquisition, mitigation reconstruction (demolition rebuild), and minor physical localized flood control projects.

FUNDING RECEIVED

Since 1996, Jefferson County has received more than $32.6 million in federal funding for mitigation activities (*Appendix M*).

5. Review of Capabilities

This multi-jurisdictional plan covers all of the unincorporated area of Jefferson County and 11 municipalities – 5 villages and 6 cities. They all have different levels of resources and personnel that could be made available in the implementation of this plan.

By in large, all of the cities and villages in Jefferson County have been facing serious budget constraints for years, exacerbated by state-imposed levy limits. The outlook is not expected to change. As a result, each of the communities is heavily dependent on grant funding. These conditions limit each jurisdiction's ability to expand or improve its mitigation capabilities.

Table 6-10. Summary of Staff Capabilities: 2024 (August)

Village	Administrator	Emergency Management Staff	Community Planner
Cambridge [1]	Yes	No	No
Johnson Creek	Yes	No	No
Lac La Belle [1]	Yes	No	No
Palmyra	Yes	No	No
Sullivan	Yes	No	No

Waterloo	Yes	Yes	Yes
Watertown [1]	Yes	Yes	Yes
Whitewater [1]	Yes	Yes	Yes
Jefferson County	Yes	Yes (2 FTE)	Yes

1. Municipality located in Jefferson County and another county

6. Authority to Control Land Use and Development

As set forth in state statutes, municipalities in the state are given the authority to adopt and enforce various regulations controlling land development and use. All municipalities in Jefferson County have elected to do so (*Table 6-11*). All of the municipalities in the county also enforce building codes.

Table 6-11. Summary of Authority to Control Development: 2024

Village	Floodplain Zoning	General Zoning	Land division Regulations
Cambridge [1]	Yes	Yes	Yes

7. Goals, Objectives, Policies, and Implementation

This section builds off of the previous parts of the plan and presents a unified plan of action to mitigate the effects of natural hazards on property, people, and assets. It lists goals, objectives, and policies that should guide decision-makers and other officials. Goals are intended to describe an end state, usually in general terms. In contrast, objectives describe an end state in measurable and specific terms. Policies give clear direction on what will be done to help achieve a goal and objective.

Following the listing of goals, objectives, and policies, a chart lists specific action items along with an estimated implementation cost. Responsible entities are listed for each so that implementation is well defined.

The activity charts are a work in progress. As items are completed, they should be deleted and as new opportunities or issues arise items will be added. Further, depending on available resources, including funding and staff time, priorities may change.

Prioritization of Goals and Actions

Activities are prioritized as low, medium, or high based on the STAPLE+E approach. *Exhibit 6-2* lists each of the criteria used to identify the priority. The mitigation actions with the highest priority were deemed to be the most cost effective and most compatible with the community's social and cultural values.

Exhibit 6-2. STAPLE+E

Criteria	Description
S – Social	Mitigation actions are acceptable to the community if they do not adversely affect a particular segment of the population, do not cause relocation of lower income people, and if they are compatible with the community's social and cultural values.
T – Technical	Mitigation actions are technically most effective if they provide long- term reduction of losses and have minimal secondary adverse impacts.
A – Administrative	Mitigation actions are easier to implement if the jurisdiction has the necessary staffing and funding.
P – Political	Mitigation actions can truly be successful if all stakeholders have been offered an opportunity to participate in the planning process and if there is public support for the action.
L – Legal	It is critical that the jurisdiction or implementing agency have the legal authority to implement and enforce a mitigation action.
E – Economic	Budget constraints can significantly deter the implementation of mitigation actions. Hence, it is important to evaluate whether an action is cost-effective, as determined by a cost benefit review, and possible to fund.
E – Environmental	Sustainable mitigation actions that do not have an adverse effect on the environment, that comply with Federal, State, and local environmental regulations, and that are consistent with the community's environmental goals, have mitigation benefits while being environmentally sound.

The 2025 plan update carries forward the priorities established in the previous plan.

Relationship To Other Local Planning Efforts

It is strongly recommended that these goals and actions be adopted as part of local comprehensive planning efforts where appropriate, especially in areas where existing problems can be corrected and to prevent problems from occurring in newly developed areas.

Cost Benefit Analysis For Goals And Actions

Specific cost benefit reviews will occur for each action in each participating jurisdiction during annual budget scenarios. Most identified actions are programmatic and not capital expenditures. The impact and cost of each program will be determined on an as needed basis prior to implementation. The information provided with each action is intended to assist in the cost benefit evaluation of each action. Costs estimates, funding sources, schedules, and responsible parties are preliminary and subject to change based on fiscal conditions. Federal funding for mitigation activities can only be obtained when benefits clearly outweigh the costs. As part of the 2010 update, significant changes were made to this section of the plan. Those goals, objectives, policies, and activities that were added as part of the 2018 plan update are so noted, along with those that have been revised. Those that ensure continued compliance with the National Flood Insurance are also so designated.

The following exhibit presents a summary of changes in objectives, policies, and implementation activities between the 2012 plan and the 2018 plan and this plan update.

The following goals, objectives, and policies were derived based on the risk assessment. They have been updated in each of the plan updates.

Most recently, the 2024 Steering Committee reviewed the goals, objectives, and policies included in the following pages at their meeting and made minor revisions.

Exhibit 6-3. Summary of Significant Changes to Objectives, Policies, and Activities in 2018 Plan

Goal		Objectives	Policies
Goal 1.	Public Education and Communication	No change	No change
Goal 2.	Flooding and Dam Failure	No change	No change
Goal 3.	Tornadoes	No change	No change
Goal 4.	Extreme Temperature	No change	No change
Goal 5.	Severe Storms, Hail & High Winds	No change	No change
Goal 6.	Drought	No change	No change
Goal 7.	Wildland Fire	No change	No change

COMMUNITY LIFELINES

Community lifelines are essential services and infrastructure that enable the sustained operation of a community and support its resilience, especially in the face of disasters (*Exhibit 6-4*). The Federal Emergency Management Agency (FEMA) identifies seven key community lifelines:

1. **Safety and Security –** Law enforcement, emergency services, and general public safety.
2. **Food, Water, and Shelter –** Access to food, potable water, sanitation, and housing.
3. **Health and Medical –** Medical care, health resources, and public health services.
4. **Energy (Power and Fuel) –** Electricity, gas, and fuel for transportation and heating.
5. **Communications –** Internet, cell networks, and other communication systems.
6. **Transportation –** Roads, bridges, airports, and public transportation.
7. **Hazardous Materials –** Management and containment of hazardous substances.
8. **Water Systems –** Potable water and wastewater management.

In hazard mitigation planning, community lifelines guide strategies to reduce the risks and impacts of natural hazards. By focusing on these lifelines, communities can prioritize protecting the critical infrastructure that supports essential functions, thereby strengthening community resilience. Some mitigation activities, like the following, can promote Community Lifelines:

1. installing community safe rooms,
2. floodproofing critical infrastructure like water and wastewater facilities,
3. installing backup generator at government facilities, and
4. providing emergency shelters.

Exhibit 6-4. Community Lifelines

GOALS, OBJECTIVES AND POLICIES

The following goals, objectives, and policies were derived based on the risk assessment. They have been updated in each of the plan updates.

Goal 1. Public Education

Provide the public with the education they need to adequately prepare for and respond to natural hazards identified in this plan including dam failure, flooding, ice shoves, fog, tornado/high winds, hailstorms, thunderstorms, winter storms, extreme temperature, drought, and wildland fire. (**2008 Plan**)

Objectives

1. Strengthen emergency service preparedness and response by enhancing public education throughout the county. (**2008 Plan**)
2. Increase the number of households that have prepared a family emergency plan. (**2008 Plan**)
3. Increase the number of public outreach materials in Spanish. (**2008 Plan**)

Policies

1. Work with non-governmental organizations (youth, service, professional, religious) to promote mitigation education and awareness. (**2008 Plan**)
2. Look for multiple and varied opportunities to disseminate educational information to county residents. (**2008 Plan**)

Goal 2. Flooding
Protect the public health, safety, and welfare of county residents and public and private property during flood events. (**2008 Plan**)

Objectives
1. Minimize the impact of flooding on potentially affected structures. (**2008 Plan**)
2. Decrease the number of structures currently located in the 100-year floodplain that are not properly flood-proofed. (**2008 Plan**)
3. Minimize the amount of impervious surface in new development projects to allow more infiltration of stormwater into the ground. (**2008 Plan**)
4. Decrease the number of repetitive loss properties. (**2008 Plan**)
5. Decrease the number of repetitive loss communities in the county. (**2008 Plan**)
6. Increase public awareness of flooding. (**2008 Plan**)
7. Improve communication between the county and local units of government when floods occur or are likely to occur. (**2008 Plan**)

Policies
1. Continue to enforce floodplain regulations to ensure that future development in the 100-year floodplain meets established standards. (**2008 Plan**)
2. Continue the buyout program on Blackhawk Island. (**2008 Plan**)
3. Support the identification and conservation of land with high flood mitigation value (e.g., wetlands, upland storage, and infiltration areas). (**2008 Plan**)
4. Support land acquisition and other management strategies to preserve open space for flood mitigation purposes. (**2008 Plan**)
5. Ensure that governmental officials and employees, county residents, and real estate agents are aware of floodplain regulations. (**2008 Plan**)
6. Ensure that people owning property in the 100-year floodplain, and their agents, notify buyers when selling their property. (**2008 Plan**)
7. Adopt standards to control the proportion of a site that can be covered with impervious surfaces. (**2008 Plan**)
8. Locate public infrastructure outside of the 100-year floodplain. When infrastructure has be located in the 100-year floodplain, it should be flood-proved or otherwise protected from flood water. (**2008 Plan**)
9. Design and properly size all new stream crossings to not create a significant upstream back-water effect. (**2008 Plan**)
10. Continue to enforce stormwater management regulations. (**2008 Plan**)
11. Use data records in on-going assessment of flood problems and effectiveness or response programs. (**2008 Plan**)
12. Formalize communications links and establish procedures. (**2008 Plan**)
13. Update flood insurance rate maps (FIRMs) when it can be shown that they are substantially inaccurate. (**2008 Plan**)
14. Ensure that all large dams in the county have emergency action plans and that they are up to date. (**2008 Plan**)
15. Undertake such activities as may be required to remain compliant with the requirements of the National Flood Insurance Program. (**2008 Plan**)
16. Develop a strategy for managing flood-prone properties that have been acquired. (**2024 Plan**)

Goal 3. Tornadoes
Lessen the effects of a tornado to the extent feasible and speed recovery following an event. (**2008 Plan**)

Objectives
1. Increase public education and awareness of the potential severity of tornadoes. (**2008 Plan**)
2. Minimize the amount of time that businesses damaged by a tornado are not operational. (**2008 Plan**)
3. Minimize the amount of time it takes to rebuild or restore dwellings damaged by a tornado. (**2008 Plan**)
4. Prevent injuries and death from tornadoes. (**2008 Plan**)

Policies
1. Bury overhead power and utility lines where feasible as a way to reduce power outages during all types of storm events. (**2008 Plan**)
2. Require that mobile homes and manufactured housing are securely anchored in place. (**2008 Plan**)
3. Ensure that adequate tornado shelters are available to county residents especially those living in mobile home parks. (**2008 Plan**)
4. Include redevelopment objectives in smart growth comprehensive plans to support post-disaster development activities. (**2008 Plan**)
5. Continue to support the efforts of severe weather spotters. (**2008 Plan**)
6. Keep the current siren system functioning and in good repair. (**2008 Plan**)
7. Encourage residents to obtain NOAA weather radios especially in those areas of the county that are not covered by a siren. (**2008 Plan**)

Goal 4. Extreme Temperature
Protect the health of Jefferson County residents from extreme temperature. (**2008 Plan**)

Objectives
1. Prevent deaths and injuries from extreme temperature. (**2008 Plan**)

Policies
1. Encourage volunteers and public agencies to look after vulnerable individuals, especially the elderly, during times of extreme temperature. (**2008 Plan**)
2. Open county and other public facilities with air conditioning as appropriate for public access during periods of extreme heat. (**2008 Plan**)
3. Ensure that county residents are aware that there are different forms of assistance to help qualified individuals pay their winter heating costs. (**2008 Plan**)

Goal 5. Severe Storms, Hail, & High Winds
Protect and prepare Jefferson County residents from the dangers of extreme weather. (**2008 Plan**)

Objectives
1. Increase public education and awareness of the potential dangers of thunderstorms, snowstorms, hail, and windstorms. (**2008 Plan**)

Policies
1. Bury overhead power and utility lines where feasible as a way to reduce power outages during all types of storm events. (2008 Plan)
2. Provide citizens with early storm warnings. (**2008 Plan**)
3. Encourage the use of surge protectors on critical electronic equipment in governmental and critical facilities. (**2008 Plan**)
4. Work with utility companies to assess and to improve, when necessary, electric service reliability. (**2008 Plan**)
5. Work with utility companies to ensure that trees are properly trimmed near utility lines. (**2008 Plan**)

Goal 6. Drought
Protect the public health, safety, and welfare of Jefferson County residents during periods of drought. (**2008 Plan**)

Objectives
1. Decrease water consumption during periods of drought. (**2008 Plan**)
2. Minimize the economic impacts of drought on the local economy. (**2008 Plan**)

Policies
1. Encourage water conservation during periods of drought. (**2008 Plan**)
2. Impose watering restrictions during periods of extreme drought. (**2008 Plan**)
3. Work with multiple agencies to conserve water, provide drought prediction, and provide stream and groundwater monitoring. (**2008 Plan**)
4. Work with agencies that can assist with and promote soil health, preserve soil moisture and help to minimize the loss of the crops and topsoil in the event of a drought. (**2008 Plan**)
5. Continue to monitor groundwater levels to identify the status of groundwater resources and trends. (**2008 Plan**)
6. Work cooperatively with state agencies and other levels of government in developing appropriate strategies on a regional basis. (**2008 Plan**)
7. Provide water for livestock when the needs of humans have been or are being met. (**2008 Plan**)

Goal 7. Wildland Fire
Protect structures and residents in Jefferson County from the hazard of uncontrolled wildfire. (**2008 Plan**)

Objectives
1. Decrease the number of wildland fires occurring in the county. (**2008 Plan**)
2. Decrease the number of acres burned from wildland fires. (**2008 Plan**)
3. Increase public education. (**2008 Plan**)

Policies
1. Support the use of controlled burns as a way of reducing the threat of dangerous wildland fires. (**2008 Plan**)
2. Enhance emergency services to increase the efficiency of wildfire response and recovery activities. (**2008 Plan**)
3. Keep track of wildfire events in the county to better document the extent and location of these events. (**2008 Plan**)

8. Mitigation Projects and Activities

Major Accomplishments

Since this plan was first adopted in 2008, a number of significant work activities have been accomplished as described in *Table 6-13*.

Table 6-13. Major Accomplishments: 2008-2024

Description	Jurisdiction
1. Floodproofed or otherwise protected the Waterloo Carousel from flooding. (Activity #21 under Goal 2, Flooding in 2008 Plan)	City of Waterloo
2. Jefferson County Emergency Management secured funding from local, state, and federal sources to acquire more than 25 flood-prone properties. (Activity #2 under Goal 2, Flooding in 2008 Plan)	Jefferson County
3. Acquired a 1.6-acre site along the Maunesha River in the downtown area for flood storage. Demolished an old pickle factory (Both of these are related to Activity #21 under Goal 2, Flooding in 2008 Plan)	City of Waterloo
4. Jefferson County Emergency Management secured funding from local, state, and federal sources to acquire 21 flood-prone properties. (Activity #2 under Goal 2, Flooding in 2008 Plan)	Jefferson County
5. Worked with County Fair Director to establish radio and procedures for early weather detection and notification during events, and provide a copy of events at the fairgrounds to National Weather Service for early warning notifications.	Jefferson County
6. Conducted STEP training (Student Tools for Emergency Planning) in to local schools	Jefferson County
7. Conducted a number of table-top exercises	Jefferson County and others
8. Worked to get LP for county residents (**2015**)	Jefferson County
9. Developed a debris management plan	Jefferson County
10. Completed a feasibility study to establish a water gaging station on the Crawfish River near Hubbleton	Jefferson County
11. Amended the county's emergency operations plan to address extreme temperatures	Jefferson County
12. Implemented Integrated Public Alert and Warning System (IPAWS) (**2016**)	Jefferson County
13. Completed 5-year update of multi-jurisdictional hazard mitigation plan (**2018**)	Jefferson County and participating jurisdictions
14. Town of Hebron resolved localized flooding along Hanson Road	Town of Hebron
15. City of Watertown completed a flood control plan in 2024	City of Watertown

Future Projects and Activities

The following are specific projects and activities to be undertaken in the next 5 and 10 years subject to necessary resources, including staff time and needed funding.

Goal 1. Public Education

Implementation Projects and Activities Related to Public Education	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Develop, enhance, and implement education programs aimed at mitigating natural hazards and reducing the risk to citizens, public agencies, private property owners, businesses, and schools. (Safety Network, faith-based organizations, civic groups, Chambers of Commerce, etc.) (**2008 Plan; 2024 status – ongoing effort**)	$5,000	Medium	X	X	Jefferson County Emergency Management; American Red Cross
2. Create displays for use at public events (health fair, public awareness day, county fair). (**2008 Plan; 2024 status – ongoing effort**)	Staff time and supplies	Low	X	X	Jefferson County Emergency Management
3. Establish a single webpage on the county's website to provide up-to-date hazard-related information. (**2008 Plan; 2024 status – Facebook site created but ongoing effort**)	Staff time	Medium	X	X	Jefferson County Emergency Management
4. Work with the schools within the county to promote hazard mitigation education and awareness and discuss ways to better integrate mitigation into the curriculum. (**2008 Plan; 2018 status – conducted STEP (Student Tools for Emergency Planning) in two schools)**	Staff time	Medium	X	X	Jefferson County Emergency Management; American Red Cross
5. Identify, improve, and sustain collaborative programs focusing on the real estate and insurance industries, public and private sector organizations, and individuals to avoid activity that increases risk to natural hazards. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management; American Red Cross; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
6. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; Jefferson County Land Information Office, National Weather Service (NWS)
7. Work to provide more hazard-related information in Spanish. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management Jefferson County Literacy Council; United Migrant Opportunity Service; Jefferson County Public Health; Workforce Development
8. Enhance the Village's website (Village of Sullivan) to include more information about disaster preparedness (**2024 status – ongoing effort**)	Staff time	Medium	X		Village of Sullivan

Goal 2. Flooding

Implementation Projects and Activities Related to Flooding	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Identify and analyze feasible mitigation options for repetitive flood properties and other flood-prone properties. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X	X	Jefferson County Emergency Management
2. Apply for funding through the federal Hazard Mitigation Grant program, Flood Mitigation Assistance Program, and the Pre-Disaster Mitigation Program as well as any other resources that may be available to help flood proof repetitive loss sites and other flood-prone properties or remove them through acquisition followed by demolition or relocation. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	High	X	X	Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, and Watertown; village of Cambridge
3. Develop a computerized database containing information on each culvert and bridge within the county. (**2008 Plan; 2024 status – in progress**)	Staff time	Medium	X		Jefferson County Emergency Management
4. Identify those culverts and bridges that are undersized or are otherwise unable to handle expected flood flows. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan as appropriate
5. Develop a geographic database for public roadways that are susceptible to flooding. (**2008 Plan; 2024 status – ongoing**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan as appropriate
6. Prepare a strategy to prioritize road improvements for public roadways that are susceptible to flooding. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan as appropriate
7. Identify undeveloped areas of the county, if any, that have flood mitigation value and develop appropriate strategies to protect them. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan as appropriate
8. Establish a framework to compile and coordinate surface water management plans and data throughout Jefferson County. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan as appropriate
9. Post flood recovery plans and programs to help county residents rebuild and implement mitigation measures to protect against future floods. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X	X	Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan

Implementation Projects and Activities Related to Flooding	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
10. Distribute National Flood Insurance Program information. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X	X	Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
11. Explore options for improving the ability of local units of government to report flooding, receive information, and request assistance. (**2008 Plan; 2024 status – ongoing effort, email monthly updates to municipalities**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
12. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X	X	Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
13. Evaluate the support for and the feasibility of becoming part of the Community Rating System (CRS) to lower flood insurance premiums for property owners. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	High	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
14. Work with the DNR to ensure that an emergency action plan is prepared for large dams and that they are periodically updated. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management
15. Develop a prioritized list of areas of the county meriting detailed flood studies. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management
16. Install a surface water gaging station on the Crawfish River near Hubbleton. (**2008 Plan; 2024 status – completed feasibility determination**)	Staff time	Medium	X		Jefferson County Emergency Management
17. Ensure that privately-owned large dams are inspected consistent with state law. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management; Cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan as appropriate
18. Conduct a study to determine feasible and cost-effective solutions to minimize flooding in downtown Waterloo (Maunesha River). (**2008 Plan; 2018 status – in progress**)	$8,000 to $12,000	High	X		City of Waterloo
19. Enhance the 1.6-acre site the City acquired in 2012 for flood storage and restore the stream channel and other related efforts (**2018 status – new action item**)	Unknown	High	X		City of Waterloo
20. Repair the Mill Road Dam. (**2008 Plan; 2018 status – ongoing effort**)	Unknown	High	X		Village of Palmyra
21. Mitigation projects as may be identified as a result of the Water Resources Management Study within the Village of Johnson Creek. (**2008 Plan; 2018 status – no action**)	Variable	Variable	X		Village of Johnson Creek
22. Enlarge the capacity of the city's (Watertown) stormwater sewer system which may include detention basins (**2018 status – ongoing effort**)	Unknown	Medium	X	X	City of Watertown

Implementation Projects and Activities Related to Flooding	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
23. Complete a dam failure analysis for the Spring Lake Dam (**2018 status – ongoing effort**)	Cost included in current budget	High	X		Village of Palmyra
24. Add a backup power to two well pump houses	$150,000 each	Medium	X		City of Fort Atkinson
25. Add two portable pumps for lift station use	$45,000 each	Medium	X		City of Fort Atkinson

Goal 3. Tornadoes

Implementation Projects and Activities Related to Tornadoes	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Periodically assess whether there are enough shelters to house displaced persons. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X	X	Jefferson County Emergency Management; American Red Cross
2. Apply for mitigation funding to purchase NOAA weather radios for county residents. (**2008 Plan; 2024 status – no action**)	Staff time	Low	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
3. Study the feasibility of and support for adopting a local regulation which would require new mobile home parks and future expansions of existing parks to provide for a tornado shelter. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management
4. Develop and implement strategies for debris management. (**2008 Plan; 2018 status – in progress and completion anticipated in 2019**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
5. Amend land development regulations to require a storm shelter in mobile home parks when the number of mobile homes exceeds a threshold as established by the jurisdiction. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Zoning Department; Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
6. Install storm shelters near or in existing mobile home parks and high occupancy campgrounds, such as Bark River Campground & Resort and River Bend. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Mobile home park operators and campground operations with Jefferson County Emergency Management
7. Investigate grant funding for storm shelters. (**New 2012; 2024 status – in progress**)	Staff time	Medium	X		Jefferson County Emergency Management
8. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; Jefferson County Land Information Office
9. Update and improve sirens (**2024 status – ongoing effort**)	Unknown	Medium	X	X	City of Watertown
10. Update the city's outdoor storm warning system (7 sirens) (**2018 status – new action item**)	$210,000	Medium	X	X	City of Fort Atkinson

Implementation Projects and Activities Related to Tornadoes	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
11. Study the feasibility of constructing at storm shelter at Sand Beach trailer park (**2018 status – new action item**)	Budget	Medium	X		City of Lake Mills

Goal 4. Extreme Temperature

Implementation Projects and Activities Related to Extreme Temperatures	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Develop a directory of public buildings that would be open to the public during heat waves (and also during the evening hours). (**2008 Plan; 2024 status – in progress**)	Staff time	Medium	X	X	Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
2. Call a meeting of public and nonprofit organizations that may be able to mobilize a volunteer corps of individuals willing to assist vulnerable people during periods of extreme temperature. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
3. Investigate the possibility of establishing a database of individuals who are vulnerable to extreme temperature and who have voluntarily placed their name on the call list. (**2008 Plan; 2024 status – in progress**)	Staff time	Medium	X		Jefferson County Volunteer Organization Acting in Disasters (VOAD); Jefferson County Emergency Management; Jefferson County Public Health
4. Publicize available programs that help residents pay for their utility expenses. (**2008 Plan; 2024 status – ongoing activity**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
5. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; Jefferson County Land Information Office
6. Amend the county's emergency operations plan to address extreme temperatures. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	High	X		Jefferson County Emergency Management; American Red Cross; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
7. Develop an inclement weather plan	Staff time	Medium	X		Jefferson County Emergency Management in cooperation with cities and villages.

Goal 5. Severe Storms, Hail, & High Winds

Implementation Projects and Activities Related to Severe Storms, Hail and High Winds	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Produce and distribute emergency preparedness information related to thunderstorms, snow storms, hailstorms, and windstorm hazards. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management; American Red Cross
2. Identify and pursue funding opportunities to develop and implement local and county mitigation activities. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management; American Red Cross; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
3. Install lightning grade surge protection devices for critical electronic components used by government, public service, and public safety facilities, such as warning systems, control systems, communications, and computers. (**2008 Plan; 2024 status – ongoing effort**)	$3,000	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
4. Provide the public with information about proven lightning safety guidelines to reduce the risk of lightning hazards. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
5. Develop and implement strategies for debris management. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Medium	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
6. Apply for mitigation funding to purchase NOAA weather radios for county residents. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management
7. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; Jefferson County Land Information Office

Goal 6. Drought

Implementation Projects and Activities Related to Drought	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Create an ordinance to prioritize or control water use during drought conditions. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X	X	Municipalities with public water systems
2. Provide public education about the potential severity of drought events. (**2008 Plan; 2024 status – ongoing effort**)	Staff time	Low	X		Jefferson County Emergency Management, cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
3. Develop a set of procedures for water distribution during drought to those in need. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management
4. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; Jefferson County Land Information Office

Goal 7. Wildland Fire

Implementation Projects and Activities Related to Wildland Fire	Cost Estimate (2024)	Priority	Schedule 2025 to 2029	Schedule 2030 to 2034	Responsible Entity
1. Apply for federal and state grants to enhance the capability of local fire departments. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X	X	Jefferson County Emergency Management; local fire departments
2. Provide education to county and municipality personnel about federal cost-share and grant programs, Fire Protection Agreements, and other related federal programs so the full array of assistance available to local agencies is understood. (**2008 Plan; 2024 status – no action**)	Staff time	Low	X		Jefferson County Emergency Management; cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater; villages of Cambridge, Johnson Creek, Lac La Belle, Palmyra, and Sullivan
3. Study the feasibility of and support for adopting a local burning permit program at the Town level. (**2008 Plan; 2024 status – no action**)	Staff time	Medium	X		Jefferson County Emergency Management working with the Towns
4. Develop and maintain a geographic database for natural hazard events, including location, weather conditions, and resulting damage. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Emergency Management; Jefferson County Land Information Office
5. Investigate the establishment of a uniform way of providing information to the public regarding issuance of burning permits. (**2008 Plan; 2024 status – no action**)	Staff time	High	X		Jefferson County Sheriff's Department; local fire departments

ADDITIONAL PROJECTS AND ACTIVITIES

In addition to the above, each of the participating municipalities were asked to complete a survey identifying potential mitigation projects and activities. Their responses are included below as submitted.

Additional Mitigation Projects and Activities

Town of Aztalan (Kathleen Pitzner)

Severe Weather: (1) Bury electrical and other utility lines to prevent service outages during weather events (2) Become a NWS Storm Ready Community (3) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (4) Post information on the town's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (5) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (6) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc.

Wildfire: (1) Provide information to property owners on creating a defensible space around structures

Climate Adaptation and Other: (1) Incorporate natural hazard information into the town's comprehensive plan

Town of Cold Springs (Byron Freeman)

Severe Weather: (1) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (2) Post information on the town's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (3) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (4) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Develop a plan/pursue funding to modify any bridges/culverts in your jurisdiction that are not able to handle floodwaters (2) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc.

Wildfire: (1) Encourage controlled burns as a means of controlling fuel buildup (2) Provide information to property owners on creating a defensible space around structures

Climate Adaptation and Other: (1) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures (2) Expand landowner/farmer outreach programs which will increase conservation efforts (3) Encourage farm operators to evaluate the economics of crop insurance programs

Town of Farmington (Kevin Emrath)

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (3) Post information on the town's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (4) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events

Stormwater, Floodwater, Debris Management: (1) Raise road surfaces to mitigate flood chances (2) Develop a plan/pursue funding to modify any bridges/culverts in your jurisdiction that are not able to handle floodwaters (3) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (4) Remove debris and downed trees along streams and waterways to help improve stream flow

Wildfire: (1) Consider requirement(s) for burn permits (2) Encourage controlled burns as a means of controlling fuel buildup (3) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Incorporate natural hazard information into the town's comprehensive plan (2) Establish local heating and cooling centers (3) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures

Town of Jefferson (Mike Hollinger)

Severe Weather:(1) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (2) Post information on the town's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc.

Stormwater, Floodwater, Debris Management: (1) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc.

Wildfire: (1) Consider requirement(s) for burn permits (2) Assess fire district equipment needs and capabilities to effectively respond to

Additional Mitigation Projects and Activities

wildland fires

Climate Adaptation and Other: (1) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures

Town of Koshkonong (Kim Cheney)

Severe Weather: (1) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (2) Designate a storm debris collection point and/or create a debris management plan (3) Remove debris and downed trees along streams and waterways to help improve stream flow

Wildfire: (1) Ensure new developments have adequate ingress and egress routes

Climate Adaptation and Other: (1) Promote the use of drought-resistant landscaping practices using native plantings

Dams: (1) Review any local dam Emergency Action Plans (EAP)

Town of Lake Mills (Robin Untz)

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Bury electrical and other utility lines to prevent service outages during weather events (3) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (4) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks (5) Update zoning to require community safe rooms in new or expanding mobile home villages and campgrounds (6) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (7) Post information on the town's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (8) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (9) Develop and implement appropriate evacuation procedures in flood-prone areas (10) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Raise road surfaces to mitigate flood chances (2) Development of stormwater retention ponds (3) Upgrade storm sewer systems (4) Initiate the creation of a stormwater management plan (5) Develop a plan/pursue funding to modify any bridges/culverts in your jurisdiction that are not able to handle floodwaters (6) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (7) Designate a storm debris collection point and/or create a debris management plan

Wildfire: (1) Consider requirement(s) for burn permits (2) Encourage controlled burns as a means of controlling fuel buildup (3) Ensure new developments have adequate ingress and egress routes (4) Provide information to property owners on creating a defensible space around structures (5) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Incorporate natural hazard information into the town's comprehensive plan (2) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures (3) Apply to become part of the Tree City USA program or adopt an urban forest management plan to mitigate high heat extremes during the summer (4) Adopt local ordinances for prioritizing water usage during periods of drought (5) Promote the use of drought-resistant landscaping practices using native plantings (6) Expand landowner/farmer outreach programs which will increase conservation efforts (7) Encourage farm operators to evaluate the economics of crop insurance programs

Town of Oakland (Susan Dascenzo)

Severe Weather: (1) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks (2) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (3) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Development of stormwater retention ponds (2) Initiate the creation of a stormwater management plan

Wildfire: (1) Consider requirement(s) for burn permits (2) Ensure new developments have adequate ingress and egress routes

Climate Adaptation and Other: (1) Incorporate natural hazard information into the town's comprehensive plan (2) Adopt local ordinances for prioritizing water usage during periods of drought (3) Expand landowner/farmer outreach programs which will increase conservation efforts

Town of Watertown (James Wendt)

Severe Weather: (1) Bury electrical and other utility lines to prevent service outages during weather events (2) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (3) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks (4) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (5) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (6) Review/update Emergency Operating Plans (EOP)

Additional Mitigation Projects and Activities

Stormwater, Floodwater, Debris Management: (1) Raise road surfaces to mitigate flood chances (2) Development of stormwater retention ponds (3) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (4) Designate a storm debris collection point and/or create a debris management plan

Wildfire: (1) Consider requirement(s) for burn permits (2) Provide information to property owners on creating a defensible space around structures

Climate Adaptation and Other: (1) Incorporate natural hazard information into the town's comprehensive plan (2) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures (3) Expand landowner/farmer outreach programs which will increase conservation efforts

Dams: (1) Ensure that dam inspections are conducted as required by state law

Town of Watertown (John Thoma)

Severe Weather: (1) Post information on the town's website related to emergency warning systems, importance of NOAA weather radios (2) Post information on the town's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (3) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Develop a plan/pursue funding to modify any bridges/culverts in your jurisdiction that are not able to handle floodwaters (2) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc.

Wildfire: (1) Consider requirement(s) for burn permits (2) Ensure new developments have adequate ingress and egress routes (3) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures

Dams: (1) Ensure that dam inspections are conducted as required by state law

Village of Cambridge (Paula Hollenbeck)

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (3) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks (4) Post information on the village's website related to emergency warning systems, importance of NOAA weather radios (5) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Development of stormwater retention ponds (2) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (3) Remove debris and downed trees along streams and waterways to help improve stream flow

Wildfire: (1) Ensure new developments have adequate ingress and egress routes (2) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Incorporate natural hazard information into the village's comprehensive plan (2) Establish local heating and cooling centers

Village of Johnson Creek (Benjamin Patterson)

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Bury electrical and other utility lines to prevent service outages during weather events (3) Become a NWS Storm Ready Community (4) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (5) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks (6) Update zoning to require community safe rooms in new or expanding mobile home villages and campgrounds (7) Post information on the village's website related to emergency warning systems, importance of NOAA weather radios (8) Post information on the village's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc.(9) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (10) Develop and implement appropriate evacuation procedures in flood-prone areas (11) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Apply for grant(s) to purchase flood-prone properties (2) Implement critical facility flood protection measures (wastewater treatment plant, police station, municipal building) (3) Initiate the creation of a stormwater management plan (4) Develop a plan/pursue funding to modify any bridges/culverts in your jurisdiction that are not able to handle floodwaters (5) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (6) Designate a storm debris collection point and/or create a debris management plan (7) Remove debris and downed trees along streams and waterways to help improve stream flow (8) Notify railroad officials of potential issues with tracks and crossings that could impact the safety of residents

Wildfire: (1) Consider requirement(s) for burn permits (2) Encourage controlled burns as a means of controlling fuel buildup (3) Ensure new

Additional Mitigation Projects and Activities

developments have adequate ingress and egress routes (4) Provide information to property owners on creating a defensible space around structures (5) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Incorporate natural hazard information into the village's comprehensive plan

(2) Establish local heating and cooling centers (3) Promote the use of drought-resistant landscaping practices using native plantings (4) Expand landowner/farmer outreach programs which will increase conservation efforts (5) Encourage farm operators to evaluate the economics of crop insurance programs

Dams: (1) Review any local dam Emergency Action Plans (EAP)

Village of Palmyra (Scott Pavlock)

Severe Weather: (1) Bury electrical and other utility lines to prevent service outages during weather events

(2) Become a NWS Storm Ready Community (3) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks (4) Update zoning to require community safe rooms in new or expanding mobile home villages and campgrounds (5) Post information on the town's, village's, or city's website related to emergency warning systems, importance of NOAA weather radios (6) Post information on the town's, village's, or city's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (7) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (8) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Build or reinforce levees, dams, floodwalls and berms (2) Initiate the creation of a stormwater management plan (3) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (4) Designate a storm debris collection point and/or create a debris management plan (5) Notify railroad officials of potential issues with tracks and crossings that could impact the safety of residents

Wildfire: (1) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Incorporate natural hazard information into the village's comprehensive plan

(2) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures (3) Expand landowner/farmer outreach programs which will increase conservation efforts (4) Encourage farm operators to evaluate the economics of crop insurance programs

Dams: (1) Ensure that dam inspections are conducted as required by state law

Village of Sullivan (Hether Rupnow)

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc.

Wildfire: (1) Consider requirement(s) for burn permits (2) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Adopt local ordinances for prioritizing water usage during periods of drought

City of Fort Atkinson (Chief Bruce Peterson)

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (3) Post information on the city's website related to emergency warning systems, importance of NOAA weather radios (4) Post information on the city's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (5) Develop and implement appropriate evacuation procedures in flood-prone areas (6) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Raise road surfaces to mitigate flood chances (2) Implement critical facility flood protection measures (wastewater treatment plant, police station, municipal building) (3) Designate a storm debris collection point and/or create a debris management plan

Wildfire: (1) Ensure new developments have adequate ingress and egress routes

Climate Adaptation and Other: (1) Incorporate natural hazard information into the comprehensive plan (2) Establish local heating and cooling centers (3) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures

Dams: (1) Review any local dam Emergency Action Plans (EAP)

City of Lake Mills (Drake Daily)

Additional Mitigation Projects and Activities

Severe Weather: (1) Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.) (2) Bury electrical and other utility lines to prevent service outages during weather events (3) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (4) Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks

Stormwater, Floodwater, Debris Management: (1) Build or reinforce levees, dams, floodwalls and berms (2) Implement critical facility flood protection measures (wastewater treatment plant, police station, municipal building) (3) Development of stormwater retention ponds (4) Upgrade storm sewer systems (5) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (6) Designate a storm debris collection point and/or create a debris management plan (7) Remove debris and downed trees along streams and waterways to help improve stream flow

Wildfire: (1) Consider requirement(s) for burn permits (2) Encourage controlled burns as a means of controlling fuel buildup (3) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Apply to become part of the Tree City USA program or adopt an urban forest management plan to mitigate high heat extremes during the summer

Dams: (1) Ensure that dam inspections are conducted as required by state law (2) Review any local dam Emergency Action Plans (EAP) (3) Include dam failure scenarios in emergency planning exercises

City of Watertown (Maureen McBroom, Stormwater Project Manager)

Stormwater, Floodwater, Debris Management: (1) Apply for grant funding to begin implementing the city's flood control plan which was estimated to cost $30 million. (Plan completed in 2024.)

City of Waterloo (Jeanne Ritter)

Severe Weather: (1) Bury electrical and other utility lines to prevent service outages during weather events (2) Evaluate existing outdoor sirens and coverage (add, repair, or upgrade as needed) (3) Post information on the city's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (4) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Upgrade storm sewer systems (2) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc. (3) Remove debris and downed trees along streams and waterways to help improve stream flow (4) Notify railroad officials of potential issues with tracks and crossings that could impact the safety of residents

Wildfire: (1) Assess fire district equipment needs and capabilities to effectively respond to wildland fires

Climate Adaptation and Other: (1) Incorporate natural hazard information into the city's comprehensive plan (2) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures

Dams: (1) Include dam failure scenarios in emergency planning exercises

City of Whitewater (Todd Lindert)

Severe Weather: (1) Post information on the city's website related to emergency warning systems, importance of NOAA weather radios (2) Post information on the city's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc. (3) Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events (4) Review/update Emergency Operating Plans (EOP)

Stormwater, Floodwater, Debris Management: (1) Designate a storm debris collection point and/or create a debris management plan (2) Remove debris and downed trees along streams and waterways to help improve stream flow

Wildfire: (1) Encourage controlled burns as a means of controlling fuel buildup

Climate Adaptation and Other: (1) Incorporate natural hazard information into the comprehensive plan (2) Establish local heating and cooling centers (3) Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temperatures (4) Adopt local ordinances for prioritizing water usage during periods of drought

Dams: (1) Ensure that dam inspections are conducted as required by state law (2) Review any local dam Emergency Action Plans (EAP) (3) Include dam failure scenarios in emergency planning exercises

Jefferson County Parks (Kevin Wiesman)

Severe Weather: (1) Bury electrical and other utility lines to prevent service outages during weather events (2) Develop and implement appropriate evacuation procedures in flood-prone areas

Stormwater, Floodwater, Debris Management: (1) Apply for grant(s) to purchase flood-prone properties (2) Development of stormwater retention ponds (3) Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical

Additional Mitigation Projects and Activities
roadways, stormwater drainage, power outages, etc. (4) Designate a storm debris collection point and/or create a debris management plan (5) Remove debris and downed trees along streams and waterways to help improve stream flow
Wildfire: (1) Consider requirement(s) for burn permits (2) Encourage controlled burns as a means of controlling fuel buildup (3) Provide information to property owners on creating a defensible space around structures (4) Assess fire district equipment needs and capabilities to effectively respond to wildland fires
Climate Adaptation and Other: (1) Incorporate natural hazard information into the comprehensive plan (2) Apply to become part of the Tree City USA program or adopt an urban forest management plan to mitigate high heat extremes during the summer (3) Promote the use of drought-resistant landscaping practices using native plantings (4)
Expand landowner/farmer outreach programs which will increase conservation efforts
Dams: (1) Include dam failure scenarios in emergency planning exercises

Public Participation Plan
Jefferson County Hazard Mitigation Plan 5-Year Update

Working in concert with local jurisdictions, Jefferson County has initiated a project to update the Jefferson County hazard mitigation plan that was first adopted in 2008. The items listed below are the ways in which the County will facilitate public participation in the plan update.

- **Formation of a Steering Committee**. A steering committee will be established to guide the project and provide oversight and input. Members will include county officials and staff and local officials and representatives who wish to participate.

- **Public Notices for Steering Committee Meetings.** All Steering Committee meetings will be formally noticed and open to the public consistent with the state's open meeting law.

- **Local Government Involvement**. Each of the local governments in Jefferson County (towns, cities, and villages) will be contacted early in the process and informed about the project and asked to enter into a memorandum of understanding (MOU) with the County. Although the MOU would be non-binding, it would establish a framework for intergovernmental cooperation and coordination in terms of information sharing and give the jurisdiction the opportunity to also adopt the updated plan making it eligible for federal mitigation funding.

- **Local Jurisdiction Survey**. A set of maps, a listing of critical facilities in the jurisdiction, and a draft version of the assessment matrix used in the plan will be sent to each of the jurisdictions in the County. Local officials will have an opportunity to review and comment on the materials prepared up to that date.

- **Website.** Information about the project will be posted on the County's website, along with draft documents, maps, meeting notices and agendas, and project-related news.

- **Material Availability**. As various drafts are completed, copies will be sent to each of the local jurisdictions in Jefferson County and other interested parties for review and comment.

- **Acknowledgement by municipalities**. Each of the cities and villages in the county will be sent a proposed copy of the plan along with a form they can use to acknowledge that they have reviewed the plan, and either recommend one or more revisions or accept the plan as drafted.

- **Public Hearing**. The Board of Supervisors will hold at least one public hearing to formally accept public comment on the proposed plan. Each of the cities and villages in the county will need to conduct separate public hearings to collect public input from within their particular jurisdiction.

- **Other Means.** The County may provide other avenues for public participation and local government involvement during the course of the project.

Adopted September 10, 2024, by the Jefferson County Board of Supervisors by Resolution 2024-43

Sample Correspondence Sent to Municipalities Regarding Participation

Subject: Participation in Jefferson County Hazard Mitigation Plan Update

Jefferson County prepared a multi-jurisdictional hazards mitigation plan in 2008 and has updated it every five years after that.

The county is embarking on another five-year update, and we need the involvement of all of the towns, cities, and villages in Jefferson County to make sure we address local issues and concerns.

As in the past, cities and villages will have the opportunity to adopt the updated plan — doing so will allow them to qualify to apply for federal funding for hazard mitigation projects and activities.

If your jurisdiction would like to participate, complete the attached memorandum of understanding and appoint one person from your jurisdiction who will (1) verify the accuracy of a list of critical facilities that will be prepared for your jurisdiction, (2) review and comment on the draft plan, (3) complete a short survey, and (4) serve as a liaison. If that individual would like to be more involved, he or she can also volunteer to serve on a steering committee that will have a direct role in overseeing the plan update process.

I hope you can see the benefits (and low cost) of participating in this project. To participate, sign the enclosed memorandum and then appoint one person to represent your jurisdiction in the process. Please send me the completed forms by August 31, 2024 (via mail or email).

The County Board has hired Civi Tek Consulting of Lake Mills to help prepare the plan update. If you should have any questions, you may contact me at (920) 674-7450 or at donnah@jeffersoncountywi.gov.

Kind regards,

Jefferson County Hazard Mitigation Plan Survey 2024

Your Name: _____

Your Position/Title: _____

Name of City, Village, Town: _____

1. Which plans has your organization adopted?

Plan	Yes	No	Unsure
Comprehensive Plan	○	○	○
Capital Improvement Plan (CIP)	○	○	○
Economic Development Plan	○	○	○
Housing Plan or Study	○	○	○
Operations Plan	○	○	○
Continuity of Operations Plan	○	○	○
Transportation Plan	○	○	○
Stormwater Management Plan	○	○	○
Disaster Recovery Plan	○	○	○
Watershed Restoration Plan	○	○	○
Parks/Outdoor Recreation Plan	○	○	○
Sustainability, Energy, and/or Climate Plan	○	○	○
Farmland Preservation Plan	○	○	○
Land & Water Conservation Plan	○	○	○
List any other recent plans:			

Page 2

2. Which ordinances has your community adopted?

Ordinance	Yes	No	Unsure
General Zoning Ordinance	○	○	○
Floodplain Zoning Ordinance, if City or Village	○	○	○
Shoreland Zoning Ordinance, if City or Village	○	○	○
Shoreland-Wetland Zoning Ordinance, if City or Village	○	○	○
Building Codes/Uniform Dwelling Code	○	○	○
Farmland Preservation Zoning, if Town	○	○	○
Historic Preservation Ordinances, if City or Village	○	○	○
List other ordinances:			

3. Which personnel and technical resources does your organization have? Include in-house staff and contracted external resources.

Resource	Yes	No	Unsure
Designated Emergency Management Manager	○	○	○
Planner or engineer trained in land development	○	○	○
Planner or engineer trained in construction	○	○	○
Planner or engineer trained in natural hazards	○	○	○
Public Works	○	○	○
Building inspector	○	○	○
Floodplain Manager/Administrator, if City or Village	○	○	○
GIS Technician	○	○	○
Grant writer/administrator	○	○	○
Warning systems/services	○	○	○
Mutual Aid Agreements	○	○	○
Maintenance Programs (tree trimming, stormwater infrastructure maintenance, etc.)	○	○	○
List any other available resources:			

Page 3

4. Which financial resources does your organization have?

Resource	Yes	No	Unsure
Capital Improvements Project Funding	○	○	○
Authority to levy taxes for special purposes	○	○	○
Stormwater Utility Fees	○	○	○
Community Development Block Grant	○	○	○
Revenue from utilities	○	○	○
Impact fees for new development	○	○	○
Tax Incremental Financing (TIF)	○	○	○
List any other resources:			

5. Which outreach/engagement capabilities does your organization have to implement hazard mitigation strategies?

Strategy	Yes	No	Unsure
Staff with hazard mitigation training to attend community events	○	○	○
Ongoing education programs (first aid, disaster preparedness, safety training, etc.)	○	○	○
Nonprofit organizations that assist vulnerable populations	○	○	○
Nonprofit organizations involved in environmental protection	○	○	○
Municipal website	○	○	○
Municipal or utility newsletter	○	○	○
Emergency notification apps	○	○	○
List other available strategies:			

Page 4

6. **Rate the categories discussed in questions 2 through 6 by how effectively your organization can implement hazard mitigation projects and strategies:**

Category	Low	Moderate	High
Planning	○	○	○
Ordinances/Zoning	○	○	○
Personnel/Technical Resources	○	○	○
Financial Resources	○	○	○
Outreach/Engagement	○	○	○

7. **What improvements do you think are needed to more effectively manage natural hazards and disaster response for each category:**

Category	Improvements Needed
Planning	
Ordinances/Zoning	
Personnel/ Technical Resources	
Financial Resources	
Outreach/ Engagement	

8. **What are the top three needs to improve your community's capacity to implement hazard mitigation projects and strategies?**

1.	
2.	
3.	

Page 5

9. List any roads in your jurisdiction that have been flooded in the last 5 years:

Road Name	Road Segment (From/To) or General Location	Year(s)

Thank you for taking the time to complete this survey. It's most appreciated.

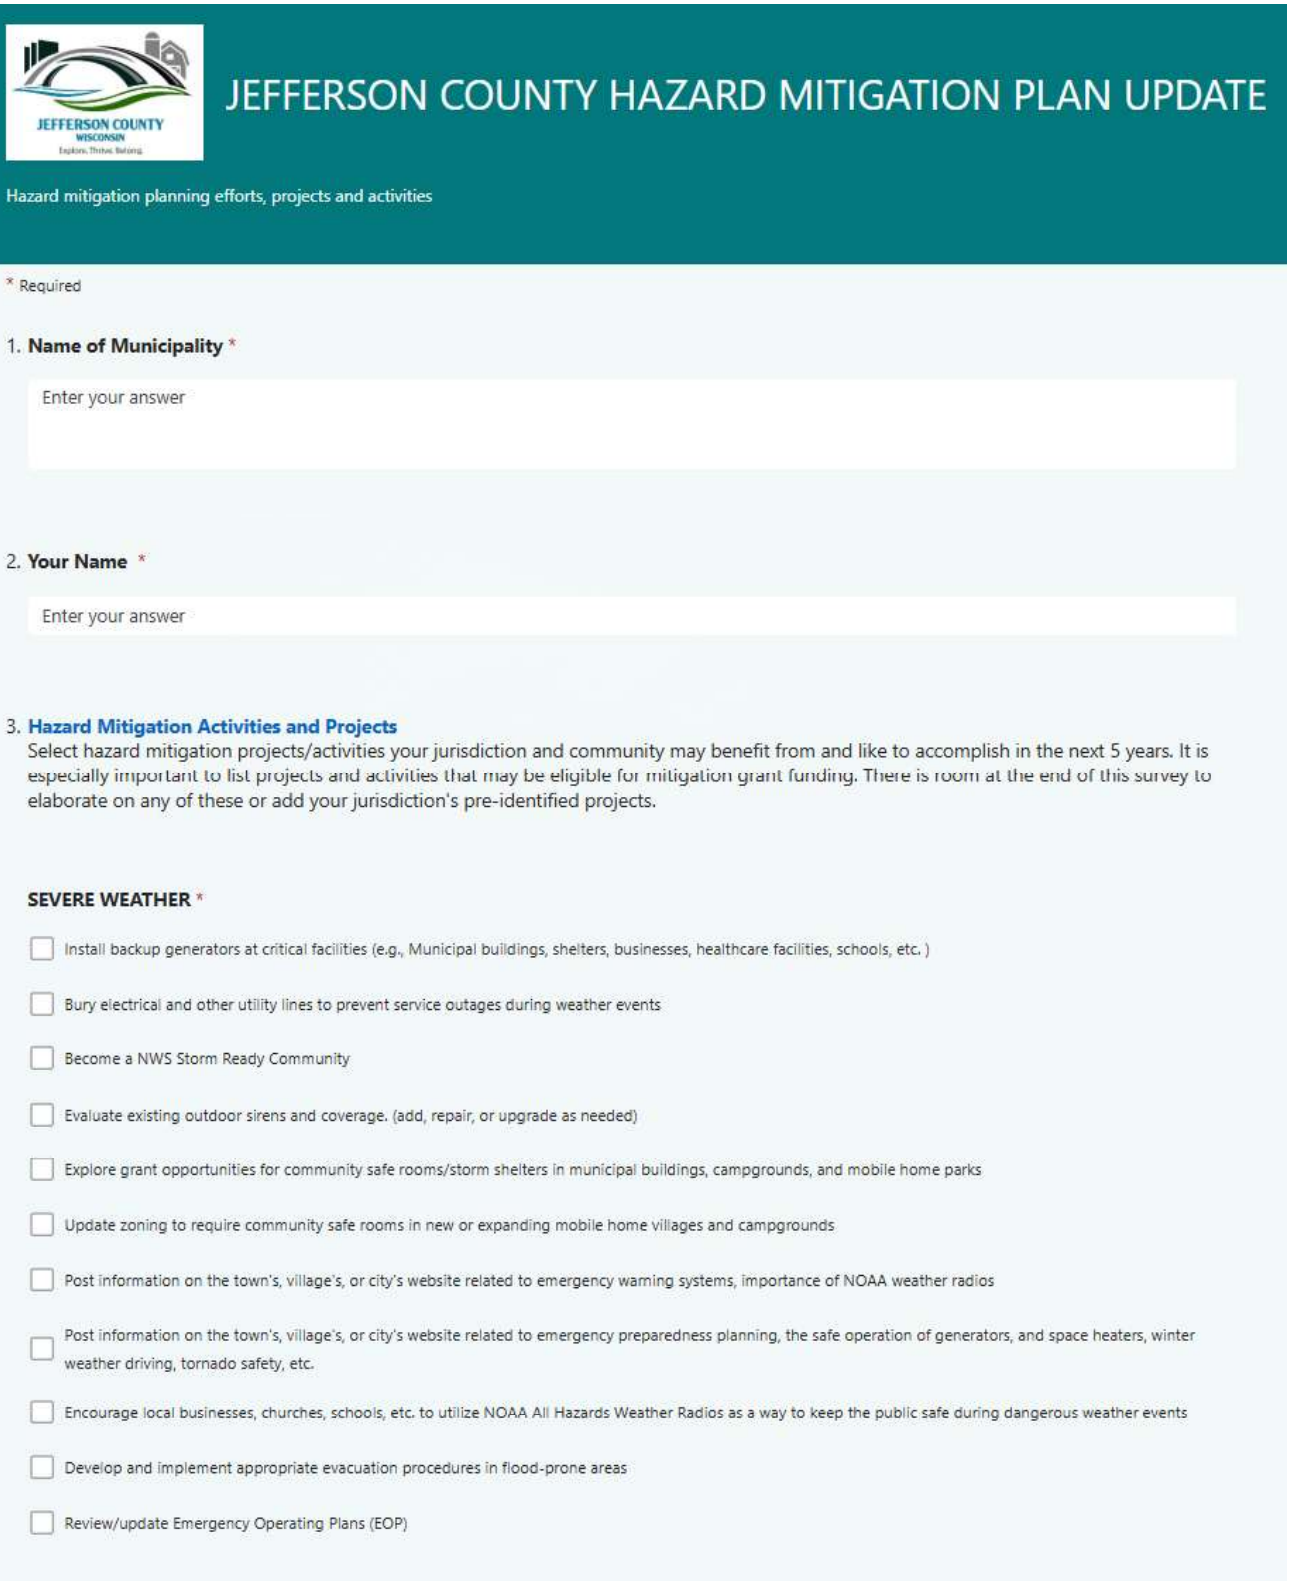
4. **What schools in your district do not have a tornado safe room?**

1.	4.	7.
2.	5.	8.
3.	6.	9.

	Yes	No	Unsure
5. **Does the school district have an emergency preparedness plan specifically tailored to natural hazards like flooding or high winds?**	○	○	○
6. **Does the school district provide specific education or resources for students and families about natural hazard risks and preparedness?**	○	○	○
7. **Does the school district have a post-disaster recovery plan to ensure continuity of education if a school is damaged by a natural hazard?**	○	○	○
8. **Does the school district have a plan for providing psychological support to students and staff in the aftermath of a natural disaster affecting their school or the larger community?**	○	○	○

Survey of Local Mitigaion Projects and Activities (#2)



JEFFERSON COUNTY HAZARD MITIGATION PLAN UPDATE

Hazard mitigation planning efforts, projects and activities

* Required

1. **Name of Municipality** *

Enter your answer

2. **Your Name** *

Enter your answer

3. **Hazard Mitigation Activities and Projects**
Select hazard mitigation projects/activities your jurisdiction and community may benefit from and like to accomplish in the next 5 years. It is especially important to list projects and activities that may be eligible for mitigation grant funding. There is room at the end of this survey to elaborate on any of these or add your jurisdiction's pre-identified projects.

SEVERE WEATHER *

- [ ] Install backup generators at critical facilities (e.g., Municipal buildings, shelters, businesses, healthcare facilities, schools, etc.)
- [ ] Bury electrical and other utility lines to prevent service outages during weather events
- [ ] Become a NWS Storm Ready Community
- [ ] Evaluate existing outdoor sirens and coverage. (add, repair, or upgrade as needed)
- [ ] Explore grant opportunities for community safe rooms/storm shelters in municipal buildings, campgrounds, and mobile home parks
- [ ] Update zoning to require community safe rooms in new or expanding mobile home villages and campgrounds
- [ ] Post information on the town's, village's, or city's website related to emergency warning systems, importance of NOAA weather radios
- [ ] Post information on the town's, village's, or city's website related to emergency preparedness planning, the safe operation of generators, and space heaters, winter weather driving, tornado safety, etc.
- [ ] Encourage local businesses, churches, schools, etc. to utilize NOAA All Hazards Weather Radios as a way to keep the public safe during dangerous weather events
- [ ] Develop and implement appropriate evacuation procedures in flood-prone areas
- [ ] Review/update Emergency Operating Plans (EOP)

4. **STORMWATER, FLOODWATER, DEBRIS MANAGEMENT** *

- [ ] Apply for grant(s) to purchase flood-prone properties
- [ ] Build or reinforce levees, dams, floodwalls and berms
- [ ] Raise road surfaces to mitigate flood chances
- [ ] Implement critical facility flood protection measures (wastewater treatment plant, police station, municipal building)
- [ ] Development of stormwater retention ponds
- [ ] Upgrade storm sewer systems
- [ ] Initiate the creation of a stormwater management plan
- [ ] Develop a plan/pursue funding to modify any bridges/culverts in your jurisdiction that are not able to handle floodwaters
- [ ] Assess tree trimming projects that would mitigate storm debris-related damage and hazards, such as blocked critical roadways, stormwater drainage, power outages, etc.
- [ ] Designate a storm debris collection point and/or create a debris management plan
- [ ] Remove debris and downed trees along streams and waterways to help improve stream flow
- [ ] Notify railroad officials of potential issues with tracks and crossings that could impact the safety of residents

5. **WILDFIRE** *

- [ ] Consider requirement(s) for burn permits
- [ ] Encourage controlled burns as a means of controlling fuel buildup
- [ ] Ensure new developments have adequate ingress and egress routes
- [ ] Provide information to property owners on creating a defensible space around structures
- [ ] Assess fire district equipment needs and capabilities to effectively respond to wildland fires

6. **CLIMATE ADAPTATION AND OTHER ITEMS** *

- [ ] Incorporate natural hazard information into the town's, village's, city's comprehensive plan
- [ ] Establish local heating and cooling centers for towns, villages, and cities
- [ ] Encourage local residents to contact friends, neighbors, and other family members during periods of extreme temps
- [ ] Apply to become part of the Tree City USA program or adopt an urban forest management plan to mitigate high heat extremes during the summer
- [ ] Adopt local ordinances for prioritizing water usage during periods of drought
- [ ] Promote the use of drought-resistant landscaping practices using native plantings
- [ ] Expand landowner/farmer outreach programs which will increase conservation efforts
- [ ] Encourage farm operators to evaluate the economics of crop insurance programs

7. **DAMS** *

- [ ] Ensure that dam inspections are conducted as required by state law
- [ ] Review any local dam Emergency Action Plans (EAP)
- [ ] Include dam failure scenarios in emergency planning exercises
- [ ] Evaluate the removal of dams that no longer serve a useful purpose

8. **Please list any hazard mitigation projects or activities your jurisdiction may have planned over the next five years or elaborate on any of the items listed above** *

Enter your answer

9. **Comments** *

Subject: Jefferson County Natural Hazards Mitigation Plan: 2025-2029

Good morning,

Jefferson County Emergency Management is in the process of updating our Hazards Mitigation Plan. Like many of you, we're on our third 5-year update.

Please let us know if there are any natural hazards you believe should be addressed across county lines or if any kind of multi-jurisdictional effort could be implemented by October 21, 2024.

Also, there are a number of cities and villages that are located in more than one county. These include:

- City of Watertown
- City of Whitewater
- Village of Cambridge
- Village of Lac La Belle

Did these communities participate in your most recent effort to update your county plan?

When we finalize our plan update, we'll send you a link to access the document. As always, we appreciate any input you may have.

Thank you for your time and effort – I really appreciate it.

Sincerely,

Tracy Hameau
Emergency Management Director

To: Shana Beal, Disaster Program Manager, American Red Cross- Southeast Wisconsin

From: Tracy Hameau, Director; Jefferson County Emergency Management

Subject: Jefferson County Natural Hazards Mitigation Plan: 2025-2029

Jefferson County Emergency Management is in the process of updating our Hazards Mitigation Plan. We wanted to reach out to thank you for sending us the updated list of storm shelters in our county.

Secondly, please let us know if there is anything in our plan that would help you in providing your services in Jefferson County.

When we finalize our plan update, we'll send you a link to access the document. As always, we appreciate any input you may have.

Thank you for your time and effort – I really appreciate it.

Sincerely,

Tracy Hameau, Director; Jefferson County Emergency Management

ADOPTION RESOLUTION
(2025 PLAN UPDATE)

RESOLUTION NO. 2025-10

Adopting The Jefferson County Hazard Mitigation Plan 2025-2029

Executive Summary

The Federal Disaster Mitigation Act of 2000 requires that government units periodically update their Hazard Mitigation Plans. Jefferson County initially adopted a multi-jurisdictional Hazard Mitigation Plan in 2008 and updated the plan in 2012 and 2018. On September 10, 2024, the Jefferson County Board of Supervisors passed Resolution 2024-43 requiring the Emergency Management Department to update its plan. This new 2025 update will guide hazard mitigation efforts in Jefferson County for the next five-year period from 2025 through 2029.

The Jefferson County Hazard Mitigation Plan (2025-2029) identifies demographic and economic characteristics, climate, natural resources, land use, and developmental trends of the county. Special needs populations and groups are also identified. The plan inventories critical facilities in the County in light of natural hazards along with estimated losses to buildings and infrastructure. This plan makes clear appropriate solutions in terms of a wide range of activities that help to foster hazard mitigation efforts. Mitigation funding sources, maps, and other important features are included.

This resolution adopts the 2025-2029 Jefferson County Hazard Mitigation Plan. The Law Enforcement & Emergency Management Committee considered this resolution at its meeting on March 28, 2025, and recommended forwarding it to the County Board for approval.

WHEREAS, the Executive Summary is incorporated into this resolution, and

WHEREAS, the United States Congress passed the Disaster Mitigation Act of 2000 (DMA2K), which requires that a local unit of government must have an approved all hazard mitigation plan before it can receive Federal grant monies from the Federal Emergency Management Agency for pre-disaster mitigation projects, and

WHEREAS, Jefferson County Emergency Management has updated the comprehensive Hazard Mitigation Plan, initially adopted in 2008, that evaluates the risks posed by potential hazards including, but not limited to, flooding, tornadoes, winter storms, and other severe weather conditions, and identifies strategies for reducing the impact of such hazards on the community, and

WHEREAS, the Jefferson County Board of Supervisors adopted Resolution No. 2024-43 on September 10, 2024, to accept public input concerning the updated plan, and

WHEREAS, Jefferson County has engaged relevant stakeholders, including local governments, emergency responders, community organizations, and the public, in the planning process to ensure the plan is comprehensive and reflects the needs of all residents, and

WHEREAS, the Jefferson County Hazard Mitigation Plan is designed to enhance the County's ability to protect its residents, infrastructure, and economy from the effects of disasters through proactive mitigation strategies, improved risk assessments, and coordinated response efforts, and

WHEREAS, the adoption of this plan demonstrates Jefferson County's commitment to mitigating hazards and improving the resilience of our communities, and

WHEREAS, the Jefferson County Board of Supervisors makes the following findings:

1. The Jefferson County Hazard Mitigation Plan, as prepared and presented by the Jefferson County Emergency Management Department, is hereby adopted as the official Hazard Mitigation Plan for Jefferson County.
2. The plan shall be used as a guide for future hazard mitigation efforts and will serve as the foundation for seeking and applying for federal, state, and local funding to implement mitigation projects.
3. The Jefferson County Emergency Management Director is hereby authorized to submit the adopted plan to FEMA and other relevant authorities for approval.
4. The Hazard Mitigation Plan shall be reviewed periodically and updated as necessary, with public input and participation from relevant stakeholders, to ensure its continued relevance and effectiveness.

NOW, THEREFORE, BE IT RESOLVED that Jefferson County hereby adopts the Jefferson County Natural Hazards Mitigation Plan: 2025-2029. While content related to Jefferson County may require revisions to meet the plan approval requirements, changes occurring after adoption will not require Jefferson County to re-adopt any further iterations of the plan. Subsequent plan updates following the approval period for this plan will require separate adoption resolutions.

BE IT FURTHER RESOLVED THAT this resolution shall take effect immediately upon its adoption.

Fiscal Note: This resolution has no direct fiscal impact.

Strategic Plan Reference: YES

Highly Regarded Quality of Life: Anticipate and plan for environmental vulnerabilities, to include drought, zoonotic, heavy storms, and other disaster events; Develop a comprehensive flood mitigation plan to evaluate and plan for current and future risk and mitigation strategies

JUL 25 2008

Dear Ms. Gray,

Thank you for submitting the Jefferson County Hazard Mitigation Plan. We are pleased to inform you that the plan is *approved* for Jefferson County and its unincorporated areas, and the following communities: the Cities of Fort Atkinson, Lake Mills, and Watertown; the Villages of Johnson Creek, Lake Mills, and Sullivan. Formal approval for the other participating jurisdictions, however, is contingent upon the adoption of the plan by those communities. The plan was reviewed based on the local plan criteria contained in 44 CFR Part 201, as authorized by the Disaster Mitigation Act of 2000 and the Flood Mitigation Assistance (FMA) Program.

The approval of this plan ensures the continued availability of FMA and Stafford Act funding including the Pre-Disaster Mitigation Program and the Hazard Mitigation Grant Program. All requests for funding, however, will be evaluated individually according to the specific eligibility and other requirements of the particular program under which the application is submitted.

Over the next five years, we encourage Jefferson County to follow the plan's schedule for monitoring and updating the plan, and continue their efforts to implement the mitigation measures. The plan must be reviewed, revised as appropriate, resubmitted, and approved within five years in order to continue project grant eligibility.

Please pass on our congratulations to the community on completing this significant action. If you or the community has any questions, please contact Jonathan (J.P.) Marsch at (312) 408-5226.

Sincerely,

Norbert Schwartz

Jefferson, WI 53549

Dear Donna:

It gives me great pleasure to inform you that the *Jefferson County, Wisconsin Natural Hazards Mitigation Plan: 2013-2017* has officially been approved by FEMA. The plan complies with the requirements of the Disaster Mitigation Act of 2000. The County is eligible to apply for funding through the Hazard Mitigation Grant Program, Pre-Disaster Mitigation Program, and the Flood Mitigation Assistance Program through October 18, 2018, for projects identified in the Plan. Per the regulations, the Plan is required to be updated and resubmitted for approval every five years to remain eligible for mitigation funding.

With the FEMA Meets Requirements letter you received the Local Hazard Mitigation Plan Review Crosswalk includes recommended revisions for the five-year update.

Congratulations on the approval of the Plan. I also want to commend the County for its commitment to mitigation and reducing future disaster losses, and I look forward to working with you in the future.

If you have any questions, please feel free to call me at 608-242-3222.

Sincerely,

K Sommers

Ms. Roxanne Gray
State Hazard Mitigation Officer
Wisconsin Emergency Management
2400 Wright Street, P. O. Box 7865
Madison, WI 53707-7865

Dear Ms. Gray:

Thank you for submitting the adoption documentation for the Jefferson County Hazard Mitigation Plan. The plan was reviewed based on the local plan criteria contained in 44 CFR Part 201, as authorized by the Disaster Mitigation Act of 2000. Jefferson County met the required criteria for a multi-jurisdiction hazard mitigation plan and the plan is now approved for the county, the cities of Fort Atkinson, Jefferson, Lake Mills, Waterloo, Watertown, and Whitewater, and the villages of Cambridge, Johnson Creek, Palmyra, and Sullivan. According to our records, all participating jurisdictions have now adopted the plan.

The approval of this plan ensures continued availability of the full complement of Hazard Mitigation Assistance (HMA) Grants. All requests for funding, however, will be evaluated individually according to the specific eligibility and other requirements of the particular program under which the application is submitted.

We encourage the participating jurisdictions to work with Jefferson County to follow the plan's schedule for monitoring and updating the plan, and continue their efforts to implement the mitigation measures. The plan must be reviewed, revised as appropriate, resubmitted, and approved within five years in order to continue project grant eligibility.

Please pass on our congratulations to the communities on completing this significant action. If you or the county have any questions, please contact Kirstin Kuenzi at (312) 408-4460.

Sincerely,

Christine Stack

February 13, 2017

Ms. Donna Haugom, Director
Jefferson County Emergency Management
411 S. Center Avenue
Jefferson, WI 53549

Ms. Haugom:

Wisconsin Emergency Management (WEM) has reviewed the *Jefferson County Natural Hazards Mitigation Plan: 2019-2023*. The Federal Emergency Management Agency (FEMA) and WEM have signed a Program Administration by States operational agreement, dated October 29, 2018 and amended on November 9, 2017, allowing WEM to review local mitigation plans to ensure they meet the required criteria for a multi-jurisdiction hazard mitigation plan outlined in 44 CFR Part 201. Upon review, Jefferson County meets the required criteria for a multi-jurisdictional hazard mitigation plan.

The county and participating jurisdictions *must now adopt* the plan to have a FEMA-approved hazard mitigation plan and be eligible for funding through the Hazard Mitigation Grant Program (HMGP), Pre-Disaster Mitigation (PDM) program, and the Flood Mitigation Assistance (FMA) program.

The enclosed Local Mitigation Plan Review Tool includes recommended revisions for the five-year update.

If you have any questions, please call me at (608) 888-5292 or Katie Sommers at (608) 242-3222.

Sincerely,

Robyn Wiseman, CFM

April 1, 2025

Tracy Hameau, Director
Jefferson County
Emergency Management
107 E Washington St
Jefferson, WI 53549

Dear Director Hameau:

Wisconsin Emergency Management (WEM) has reviewed the *Jefferson County Natural Hazards Mitigaiton Plan: 2025-2029*. The Federal Emergency Management Agency (FEMA) and WEM have signed a Program Administration by States operational agreement, allowing WEM to review local mitigation plans to ensure they meet the required criteria for a multi-jurisdiction hazard mitigation plan outlined in 44 CFR Part 201.

The local mitigation plan meets all applicable FEMA mitigation planning requirements except its adoption by: Jefferson County, Village of Cambridge, Village of Johnson Creek, Village of Palmyra, Village of Sullivan, City of Fort Atkinson, City of Jefferson, City of Lake Mills, City of Waterloo, , City of Watertown, and City of Whitewater.

Local governments, including special districts, with a plan status of "Approvable Pending Adoption" (APA) are not eligible for FEMA mitigation grant programs with a mitigation plan requirement. The next step in the approval process is to formally adopt the mitigation plan and send a resolution to the state for submission to FEMA. Sample adoption resolutions can be found in Appendix A of the Local Mitigation Planning and Policy Guide.

An approved local mitigation plan, including adoption by the local government, is one of the conditions for applying for and/or receiving FEMA mitigation grants from the following programs:

- Hazard Mitigation Grant Program
- Building Resilient Infrastructure and Communities
- Flood Mitigation Assistance

Participating jurisdictions that adopt the plan more than one year after APA status has been issued must either:

- Validate that their information in the plan remains current with respect to both the risk assessment (no recent hazard events, no changes in development) and their mitigation strategy (no changes necessary); or
- Make the necessary updates before submitting the adoption resolution to FEMA.

We look forward to receiving the adoption resolution(s) and discussing options for implementing this mitigation plan. If we can help in any way, please contact me at heather.thole@widma.gov.

Sincerely,

Heather Thole

Source: National Climactic Data Center database initially accessed on January 19, 2024.
https://www.ncdc.noaa.gov/stormevents/choosedates.jsp?statefips=55%2CWISCONSIN

Data verified by Rusty Kapela on April 10, 2007. Data update on December 10, 2018.
Note: 1. The location for some events is denoted by direction from the center of a nearby community and distance
2. Includes freezing fog
3. Tornadoes through the end of 2006 were rated on the Fujita Tornado Scale. Beginning January 1, 2007, the Enhanced Fujita scale was used.

METHODOLOGY FOR ESTIMATING FLOOD DAMAGE (2006)

Overview – This narrative is intended to document the resources, process, and assumptions used in estimating how much damage would occur to buildings during a 100-year flood. Although flood damages were calculated for each building in the floodplain, it should be emphasized that the total calculated damage estimate was prepared to compare damage from flooding to damage caused by other natural hazards to help decision makers set priorities and devise appropriate mitigation activities.

Resources Used – Jefferson County has a well-developed geographic information system (GIS). It includes a number of map themes and includes a topographic relief map with two-foot contour intervals and an orthographic base with a resolution of two feet. The GIS system also includes property tax information for every parcel in the county.

Beginning in 2006, the Federal Emergency Management Agency, in collaboration with the Wisconsin Department of Natural Resources, initiated a multi-year effort to create and adopt digital flood insurance rate maps (FIRMs) for the entire county. Preliminary FIRM maps were produced as part of that effort and were made available in September, 2006. Adoption of the final set of flood insurance maps would occur in 2008. Because the preliminary FIRMs were the best available data at the time, they were used in this project.

Methodology and Assumptions – The approach was straight forward – identify buildings located within the 100-year floodplain and estimate how much damage each would suffer during a 100-year flood. Initially, a query was used to identify those parcels that were located, in whole or in part, in the 100-year floodplain. The consultant then viewed each of those parcels to determine if a principal building (e.g., house, commercial building, industrial building) was located within the 100-year floodplain. In some cases, a single parcel had more than one building in the floodplain. For example, there were many parcels that had a house with a detached garage. In deciding which of the buildings is the principal building, the consultant viewed the orthographic map and considered the size of the buildings and proximity to driveways or other access points.

A point was located on the approximate center of the principal building to identify it and its location. The elevation of the ground at the point was derived from the relief map. It was assumed that the first floor was 18 inches above the ground elevation.

Flood levels at each of the points were derived from the preliminary flood data. The first-floor elevation and flood elevation were then compared. The extent of damage for each principal building was expressed as a percent based on standardized flood loss tables prepared by the Federal Emergency Management Agency. For this analysis, damage estimates for one or two story buildings with basements were used (Table K-1).

The consultant then classified each principal building as residential, commercial, industrial, or agricultural based on zoning information in the GIS.

RESOLUTION TO MODIFY FEE SCHEDULE FOR SOLID WASTE CHARGES AND OTHER MUNICIPAL FEES

SPONSOR: MAYOR STOCKS
FROM: FINANCE COMMITTEE

WHEREAS, the City of Watertown regularly reviews and updates its municipal fee schedule to reflect changes in service costs, inflationary pressures, and budgetary needs; and,

WHEREAS, a recent change in recycling service providers will reduce or eliminate solid waste charges for appliance and electronics disposals; and,

WHEREAS, other service categories within the municipal fee schedule, including alarm systems, fire inspections, fire apparatus requests, EMS billing, nonmetallic mining, streets and sidewalks, require fee increases to better reflect inflationary cost changes and operational needs; and

WHEREAS, the Finance Committee has reviewed the proposed fee schedule amendments and supports a two-phase implementation as follows:

- A decrease in solid waste fees effective **August 1, 2025**
- Adjustments to other municipal fees effective **January 1, 2026**

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF WATERTOWN, WISCONSIN:

1. The solid waste charges shall be amended to reflect a fee elimination or change, effective **August 1, 2025**.
2. The other fees listed with changes, representing increases in various municipal service charges, shall take effect on **January 1, 2026**.
3. City staff are hereby authorized and directed to update the published municipal fee schedule accordingly and to provide appropriate public notice pursuant to Wisconsin law.
4. A copy of the revised fee schedule shall be made publicly available at the Finance Department and on the municipal website.

RESOLUTION TO

ENTER INTO AGREEMENT WITH STRAND ASSOCIATES, INC. FOR ALLERMAN LIFT STATION AND FORCE MAIN MODIFICATIONS TASK ORDER 25-02

SPONSOR: ALDERPERSON ARNETT
FROM: PUBLIC WORKS COMMISSION

WHEREAS, the City of Watertown owns and operates a municipal wastewater utility, and;

WHEREAS, the wastewater utility has been working with Strand Associates, Inc. since 2024 for improvements to the Allerman Lift Station and sewer service area, and;

WHEREAS, The wastewater utility has been planning to keep pace with the annual streets and utilities program, which identified Twelfth Street as a reconstruction project in the capital improvement plan for 2026, and;

WHEREAS, The wastewater utility identified the Allerman Lift Station as needing significant improvements, and wishes to include funds in the budget for 2026 to modify the lift station and add a new force main (along portions of Twelfth Street), which will redirect wastewater flow out of basin 18 to help with wet weather pump capacity, and upgrade the lift station to serve the current and future homes in the service area, and;

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF WATERTOWN, WISCONSIN: that the proper City Officials be and are hereby authorized to enter into the agreement Task Order 25-02 to allow for project design and bidding related services for a new submersible lift station and approximately 7,900 feet of force main with Strand Associates, Inc. based in Madison, Wisconsin for $360,000.

Task Order No. 25-02
City of Watertown, Wisconsin (OWNER)
and Strand Associates, Inc.® (ENGINEER)
Pursuant to Agreement for Technical Services dated July 2, 2020

Project Information

Project Name: Allerman Lift Station and Force Main Modifications

Services Description: This project includes design and bidding-related services for a new submersible lift station and approximately 7,900 linear feet of force main.

Scope of Services

ENGINEER will provide the following services to OWNER.

Design Services

1. Project Management
   a. Conduct an in-person project management and kickoff meeting to discuss project scope.
   b. Attend and facilitate up to six virtual meetings to discuss design concepts and layouts for the lift station and force main.

2. Stakeholder Communication
   a. Communicate and meet with utility providers to incorporate existing utilities and planned utility relocations into the drawings and technical specifications. Utilities shall review and resolve all conflicts with the proposed design. Conflict resolution by the utility companies that causes design changes shall be considered additional services.
   b. Communicate with trenchless and temporary soil retention specialty contractors to assist in design development and opinions of probable cost.
   c. Communicate and meet with Canadian Pacific Railway (CPR) while designing the crossing at the railroad to facilitate permit acquisition. Prepare up to two drawing and specifications submittals for CPR to review related to work through CPR right-of-way. Incorporate CPR criteria into the Bidding Documents, as appropriate.
   d. Submit drawings and technical specifications to the Wisconsin Department of Natural Resources (WDNR) Clean Water Fund (CWF) for approval and assist OWNER in responding to comments and questions. Assist OWNER with an application to the WDNR's CWF Program to apply for funding.
   e. Prepare and submit the following permit applications. OWNER shall pay all permit fees.
      (1) WDNR municipal sewage collection system for lift stations and force mains.
      (2) WDNR National Pollutant Discharge Elimination System Permit.
      (3) CPR Utility Occupancy License.

(4) Jefferson County Utility Permit.

(5) Jefferson County Work in Right-of-Way Permit.

3. Topographic Survey and Easement Services

a. Perform topographic survey of the project corridor (approximately 8,200 feet long and 100 feet wide) including marked underground utilities and property irons, as necessary, to establish the existing right-of-way.

b. Perform structure inventory of approximately 70 existing utility structures. No confined space entry is planned.

c. Prepare exhibits and legal descriptions for up to three temporary easements for the construction of the new force main. OWNER shall acquire title reports and obtain easements.

4. Lift Station and Force Main Design

a. Assist OWNER with procuring geotechnical services for soil borings and a geotechnical report for the project. OWNER shall contract directly with geotechnical firm.

b. Prepare drawings and technical specifications for the construction of a new lift station as described in ENGINEER's report titled "Allerman and Concord Heights Lift Stations and Force Main Preliminary Engineering Report" dated June 2025. The proposed lift station consists of a 360 gallon-per-minute submersible-type lift station with a precast concrete wet well and valve vault, electrical controls, standby generator, and miscellaneous site modifications.

c. Prepare drawings and technical specifications for the construction of approximately 7,900 linear feet of force main piping, including:

(1) Existing utility abandonments, pavement/structure removals, and demolition of existing facilities.

(2) Trenchless construction of force main.

(3) Construction staging and temporary traffic control.

(4) Force main plan and profiles.

(5) Force main connections, valving, and air release structure details.

(6) Restoration of pavements and turf areas.

(7) Spot storm sewer, water main, and sanitary sewer relocations for force main construction.

(8) Erosion control.

d. Submit 30, 60, and 90 percent documents to OWNER and meet in person to discuss design concepts and layouts for the lift station and force main. Incorporate OWNER comments, as appropriate, into the design.

e. Prepare opinions of probable construction cost at the 30 percent, 60 percent, and 90 percent design.

OWNER REVIEW

Contract Documents and Bidding-Related Services

1. Prepare Bidding Documents using Engineers Joint Contract Documents Committee C-700 Standard General Conditions of the Construction Contract, 2018 edition, technical specifications, and engineering drawings.

2. Provide the following bidding-related services:

   a. Prepare and distribute Bidding Documents electronically through QuestCDN, available at www.strand.com and www.questcdn.com.

   b. Prepare addenda and answer questions during bidding.

   c. Review bid results and assist OWNER in the award of the Construction Contract.

Compensation

OWNER shall compensate ENGINEER for Services under this Task Order on an hourly rate basis plus expenses an estimated fee of $360,000.

Schedule

Services will begin upon execution of this Task Order, which is anticipated the week of June 23, 2025. Services are scheduled for completion on May 31, 2027.

OWNER's Responsibilities

In addition to the items in the associated Agreement for Technical Services, OWNER shall be responsible for assisting ENGINEER with railroad coordination including obtaining access to the railroad right of way, acquiring railroad protective liability insurance, and obtaining railroad flagging.

RESOLUTION TO
APPROVE CHANGE ORDER NO. 1 TO
2025 WATERMAIN RELAY CONTRACT #8-25
WITH FOREST LANDSCAPING AND CONSTRUCTION, INC.

SPONSOR: ALDERPERSON TONY ARNETT
FROM: PUBLIC WORKS COMMISSION

WHEREAS, the Common Council previously awarded Contract #8-25 Western Avenue Watermain Relay to Forest Landscaping and Construction, Inc. in the amount of $187,500.00; and,

WHEREAS, Oakwood Lane from Milford Street to Bittersweet Lane is scheduled to be resurfaced in 2025; and,

WHEREAS, the Public Works Department has identified the need to install a new watermain segment between Milford Street and Cobblestone Way to connect two dead-end sections of watermain, thereby creating a continuous loop that will improve water flow and quality in the area; and,

WHEREAS, the Engineering Division sought a quote from Forest Landscaping and Construction, Inc., the contractor currently performing work under Contract #8-25, to complete the additional watermain loop work on Oakwood Lane; and,

WHEREAS, Forest Landscaping and Construction, Inc. has submitted a quote in the amount of $89,070.00 to perform the proposed work; and,

WHEREAS, approval of this change order will increase the total contract amount from $187,500.00 to $276,570.00; and,

WHEREAS, this work is within the scope of the 2025 Water Utility Capital Budget; and,

WHEREAS, the Public Works Commission has reviewed and recommends approval of this Change Order.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF WATERTOWN, WISCONSIN:
That the proper City Officials be and are hereby authorized to approve Change Order No. 1 to the 2025 Western Avenue Watermain Relay Contract #8-25 with Forest Landscaping and Construction, Inc. for an amount not to exceed $89,070.00. Funds to come from Water Utility Capital Outlay Account: 03-99-99-99.
