Subject: Fire Station Pavement

Background

Some alternate decisions were postponed on the fire station construction project until the unknowns of unsuitable soils and dewatering were completed. Even with a large season of rain, there was little required to be spent on dewatering. Unfortunately, the existing ground was not usable and an additional $156,653 has been spent beyond the allowances within contract. There is a projection of $20,000 remaining for this work.

The initial contingency of $880,000 has been reduced to $619,757 at this point. There are two remaining alternate decisions with large financial impacts:

- Replace asphalt pavement with concrete $287,668
- Erect storage building $215,360 estimate

Budget Goal

3. Invests in the assessment, strategic planning and maintenance of our city buildings

Financial Impact

This expenditure is within the project's planned contingency.

Recommendation

The key advantage of concrete over asphalt is durability and longevity. Concrete surfaces tend to last longer, with a service life of 30-40 years (compared to 15 years for asphalt). They can withstand heavy loads without significant deformation. With apparatus weighing upwards of 20+ tons, the low speed turning of the wheels will create divots/grooves and possible cracking. These trucks also have a regen process that is completed outside of the station that produces a discharge of heat from the exhausts. A concrete surface will require less maintenance, leading to a lower cost over its lifespan. Concrete paving provides a more comfortable working environment during hot weather conditions.

THE CITY OF WATERTOWN

MEMO

The fire station building team and general contractor recommend acceptance of a change request for the omission of heavy-duty asphalt for 9” site concrete at a net cost of $287,668 with a remaining contingency of $332,089.

Engineering Division of the Public Works Department

To: Public Works Commission & Downtown Main Street Reconstruction Task Force

From: Andrew M. Beyer, P.E., Director of Public Works/City Engineer

Date: August 21, 2024

Subject: Joint Public Works Commission & Downtown Main Street Reconstruction Task Force Meeting of August 27, 2024

Background

Agenda Item:

Review and take possible action: potential changes to downtown one-way streets and curb bump-outs, as part of the 2028 Main Street reconstruction project

BACKGROUND:

In 2022, the Downtown Main Street Reconstruction Task Force recommended bump outs be placed in Downtown Main Street at several Main Street intersections, including Third Street & Fourth Street, during the Wisconsin Department of Transportation's (WisDOT) 2028 Main Street Reconstruction Project. The Downtown Main Street Reconstruction Task Force also made a recommendation in 2022 that a traffic study be conducted in the downtown area to study one-way streets and explore the viability of converting them to two-way streets.

As part of WisDOT design process of Main Street, WisDOT ran an analysis on the viability of bump outs at Main Street and Third Street and Main Street and Fourth Street if the current one-way streets were made two-way. The results found that if Third & Fourth Streets were converted to two-way traffic at Main Street, the proposed bump outs would not be feasible as both streets are "truck routes" and there would be insufficient turning radius for trucks. If these two streets remain one-way, then the bump outs would work at both Third and Fourth Streets at Main Street.

The City of Watertown placed money in the 2024 budget to conduct the downtown traffic study, a request for proposals was advertised and using Qualification Based Selection, raSmith was selected to conduct the study. The City has held a kickoff meeting with raSmith and their representatives shared the following comments:

THE CITY OF WATERTOWN

MEMO

- They agreed with WisDOT that if Third & Fourth Streets were converted to two-way traffic, the bump outs would be removed.
- If Third & Fourth Streets were converted to two-way traffic parking on Main Street between Second & Third Streets may be impacted as a designated turn lane may be needed (a designated left turn lane currently exist between Third & Fourth Streets). The need for a designated turn lane will be assessed as part of raSmith's traffic study once field traffic data is collected.
- Engineering Division received preliminary analysis from raSmith this week and their research did confirm that if Third and Fourth Streets were converted to two-way traffic, the proposed bump outs would need to be removed at both intersections. The preliminary study results indicated that if these two streets were converted to two-way traffic, the intersections at Main Street would likely continue to operate acceptably for traffic flows. They also noted that if converted to two-way traffic, national studies concluded there are economic and safety benefits of the conversion from one-way to two-way traffic.

The draft preliminary analysis is attached. Key takeaways of the abbreviated study are:

- Historic daily traffic counts show a steady decline in volumes along Main Street/3rd Street/4th Street. Existing traffic levels are about one-half of the peak conditions of the early 1990s.
- The Third Street/Fourth Street intersections are expected to operate acceptably under two-way configuration.
- The intersections are expected to have surplus capacity to accommodate future traffic growth.

Before the Public Works Commission:

- Select a path forward of having Third & Fourth Streets remain one-way and include bump out design and construction as part of the 2028 WisDOT project or eliminate bump outs at these intersections to allow for two-way traffic.
- If the Commission selects to convert Third & Fourth Streets to allow for two-way traffic, this item then moves to Public Safety & Welfare Committee for ordinance revision.

RE: Downtown One-Way/Two-Way Street Conversion Traffic Study
Preliminary Findings (abbreviated study)
Watertown, Wisconsin

INTRODUCTION

The City of Watertown is evaluating the conversion of several streets in the downtown area from one-way to two-way operations to improve access, simplify circulation for motorists, reduce travel speeds, and better accommodate multi-modal users. raSmith has been retained to assist the city with this study. The existing roadway grid provides a series of one-way paired streets, generally between 3rd Street and 9th Street extending from Western Avenue to Division Street. The focus of the conversion study will be on the 3rd Street and 4th Street corridors, which are important north-south travel routes through Watertown. These streets provide access to various commercial/institutional/residential land uses, serve as truck routes through the city, and have signalized intersections with Main Street (Wisconsin State Highway 19).

WIS 19/Main Street (through downtown) is planned for reconstruction in 2028 and the Wisconsin Department of Transportation (WisDOT) is currently working on design plans for the project. Elements of the roadway design, including traffic signal equipment and use of curb bump outs, would be impacted if 3rd Street/4th Street are converted to two-way operations. WisDOT has requested that the city provide a decision on the possible conversion as-soon as possible to allow for the project design process to remain on schedule. raSmith has conducted an abbreviated study to develop traffic volume estimates and evaluate preliminary traffic operations along the 3rd Street/4th Street corridors under one-way and two-way configuration. The intent of this study is to assist the city in their decision-making process to meet WisDOT's schedule. Procedures and findings of the abbreviated study are summarized in this memo.

A full study of preliminary findings is anticipated to be completed later in 2024 and will cover additional evaluation including more detailed safety and economic assessment, concept improvements with cost estimates, and summary of feedback received at a public involvement meeting. A final study will be completed in 2025 (after the Main Street-Cole Memorial Bridge reopens) and is anticipated to include field traffic data collection, updated operational analysis, a parking evaluation, and final intersection geometry and traffic control recommendations.

STUDY AREA

The overall downtown one-way street system study area is shown in Exhibit 1. The one-way street network is not continuous through downtown, with many of the streets having sections that currently

operate as two-way (especially near Main Street). This discontinuity adds to the complexity of the network and introduces additional driver confusion.

The abbreviated study focuses on the 3rd Street and 4th Street corridors between Market Street and Madison Street includes the following six intersections:

- 3rd Street with Market Street (three-way stop)
- 3rd Street with Main Street (traffic signal)
- 3rd Street with Madison Street (one-way stop)
- 4th Street with Market Street (three-way stop)
- 4th Street with Main Street (traffic signal)
- 4th Street with Madison Street (all-way stop)

raSmith collected information regarding the existing roadway geometrics and traffic control in the study area, as shown in Exhibit 2.

CRASH ANALYSIS

raSmith obtained crash data for the most recent five-year period (2018 to 2022) within the overall downtown study area and the 3rd Street/4th Street corridors.

During the five-year period, 331 crashes were reported within the downtown study area. The crashes included 1 fatality, 55 injury and 275 property damage only. Specific crash patterns included:

- Majority of crashes occurred along Main Street. Angle crashes were the predominant type.
- Five head on crashes occurred within the downtown study area.
- Seven crashes involving pedestrians occurred within the downtown study area.
- Five crashes involving bikes occurred within the downtown study area. No bike crashes occurred along Main Street.

A total of 42 crashes were reported along the 3rd Street corridor (Western Avenue to Madison Street) and 43 were crashes reported along the 4th Street Corridor. The crashes included 16 injury and 69 property damage only. Specific crash patterns included:

- Majority of crashes occurred at the Main Street/3rd Street (20) and Main Street/4th Street (17) intersections.
- Two of the five head-on crashes occurred along 3rd Street (1) and 4th Street (2).
- Six crashes occurred at the 4th Street/Dodge Street intersection, five of which were angle crashes.
- One pedestrian crash occurred along 4th Street (near Market Street)

Additional crash information is provided in Appendix A.

TRAFFIC VOLUMES

The following sections provide information on daily and peak hour traffic volumes within the study area.

DAILY TRAFFIC VOLUMES

The one-way street system in downtown Watertown was originally implemented in the 1970s to accommodate increasing traffic volumes and address vehicular operational concerns. Historical Annual Average Daily Traffic (AADT) information published by WisDOT shows traffic volumes in downtown

raSmith

Watertown have been declining since the mid-1990's (see historic Main Street daily volumes in Figure 1 and additional detail in Appendix B). Existing daily traffic volumes are at levels about one-half of those experienced during peak years in the early 1990s.

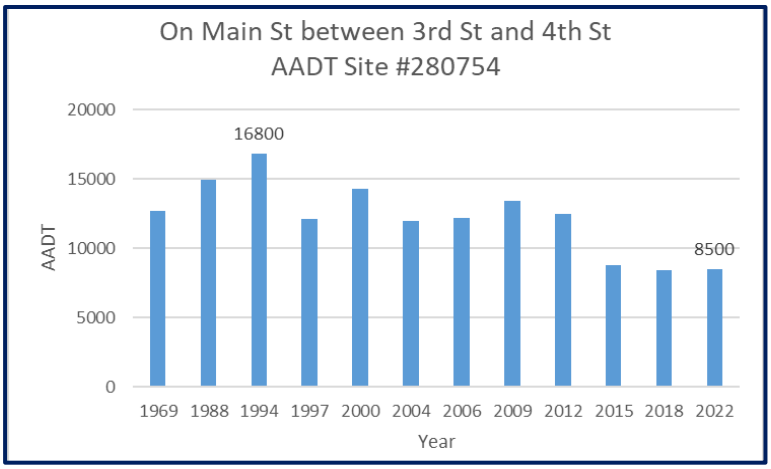

Figure 1
Historic AADT Volumes along Main Street

PEAK HOUR TRAFFIC VOLUME ESTIMATES

The Main Street (Cole Memorial) Bridge over the Rock River is currently under construction and closed for all of 2024. Due to the bridge closure, current intersection traffic counts could not be collected. raSmith utilized a mix of historic count data and local knowledge of the downtown travel patterns to estimate peak hour intersection traffic volumes for use in the preliminary analysis. Raw traffic data sources included WisDOT's hourly bidirectional traffic count data along the study area roadways, historic Year 2004 and 2017 intersection counts at Main Street with 3rd Street and 4th Street, and Year 2022 counts from the adjacent Main Street intersection with 5th Street location.

Estimated Year 2024 existing peak hour traffic volumes are shown in Exhibit 3. These counts are representative of non-summer conditions. A comparison of historic data showed more intense morning and evening peak period traffic during non-summer months, as compared to summer months. This would be expected due to school related traffic increasing during peak periods of the non-summer months.

Additional traffic volume data including daily traffic volumes, historic traffic counts and estimated traffic volume parameters (peak hour factor, heavy vehicle percentage) is provided in Appendix B.

PRELIMINARY TRAFFIC ANALYSIS

The study intersections were analyzed in Synchro software using the procedures set forth in the Highway Capacity Manual 7th Edition (HCM7). Level of Service (LOS) is a quantitative measure from the HCM referring to the overall quality of flow at an intersection. LOS ranges from very good, represented by LOS "A," to very poor, represented by LOS "F". For analysis and design purposes, LOS "D" was used to define acceptable peak hour operating conditions and is consistent with current WisDOT practice.

EXISTING ONE-WAY TRAFFIC OPERATIONS

Results of the preliminary existing traffic analysis are shown in Exhibit 4. All movements at the focus study intersections operate acceptably at LOS C or better under the current one-way configuration. Year 2024 one-way configuration 95th percentile queues are shown in Exhibit 5. Existing queues are accommodated within the existing turn-lane storage and do not back-up between the two signalized intersections. Westbound queues at Main Street/4th Street (325') are shown to extend beyond the adjacent 5th Street intersection.

TWO-WAY TRAFFIC OPERATIONS

The existing traffic volumes were reassigned to reflect two-way traffic on 3rd Street and 4th Street as shown in Exhibit 6. The two-way analysis assumed single lane approaches along 3rd Street and 4th Street and existing geometry along Main Street, as shown in Exhibit 7. Signal timings were optimized

for the analysis but generally remained similar to existing conditions (including maintaining the existing 80 second cycle length and use of a lagging westbound left-turn at Main Street/4th Street).

The preliminary two-way street analysis results are shown in Exhibit 8. All movements at the focus study intersections are expected to continue to operate acceptably at LOS C or better under the two-way configuration. Year 2024 two-way configuration 95th percentile queues are shown in Exhibit 9. Queues are expected to continue to be accommodated within the existing turn-lane storage and not back-up between the two signalized intersections. Westbound queues at Main Street/4th Street (350') are expected to continue to extend beyond the adjacent 5th Street intersection.

SUPPLEMENTAL OPERATIONAL ANALYSIS

SimTraffic, the micro-simulation companion program to Synchro, was also used to further test the weekday evening peak hour conditions (the higher volume peak) under two-way operations. Specifically, the simulation was used to assess traffic queueing between the intersections along Main Street and the impact of vehicles making left-turn from the mainline onto a side street (requiring trailing vehicles to wait until the turn is completed). The comparison of SimTraffic and Synchro reported queues is provided in Exhibit 10. Overall, the SimTraffic simulation showed similar queueing patterns as compared to Synchro and backups were not observed to extend past the adjacent 3rd Street/4th Street signalized intersections. Approximately 10 to 15 occurrences of mainline Main Street left-turning vehicles (eastbound and westbound at 3rd Street, westbound at 4th Street) were observed to momentarily block through traffic while waiting to make the turn. The standing queue dissipated within the same or next signal cycle, resulting in short term localized delays.

An additional sensitivity test was conducted at the focus area intersections under the two-way configuration to evaluate if the conversion provides surplus capacity to accommodate potential higher volume conditions that may occur with future redevelopments in the downtown area. The analysis showed the intersections have surplus capacity under the two-way configuration and are expected to operate acceptably at LOS D or better conditions with a 15% increase in traffic volumes.

NATIONAL STUDIES OF ONE-WAY TO TWO-WAY CONVERSION

raSmith reviewed several national studies of one-way to two-way street conversion projects in downtown areas. Reported economic and safety benefits of the conversion projects included:

- Positive economic impact on existing development and catalyst for future redevelopment
- More direct access to destination
- Easier to navigate the roadway system
- Less roadway signage
- Slower and safer vehicle speeds
- Increase pedestrian activity

CONCLUSIONS

Based on the preliminary findings, the focus study intersections are expected to operate acceptably with 3rd Street and 4th Street as two-way streets. The two-way configuration provides acceptable level of service and queueing, and the intersections were show to have surplus capacity to accommodate future traffic growth. Under two-way configuration, north-south traffic along 3rd Street and 4th Street is expected to distribute between the two roadways. Generally, traffic traveling in/out of downtown to/from the north is expected to use 4th Street and traffic to/from south is expected to use 3rd Street. Traffic along 4th Street is expected to be slightly higher (as compared to 3rd Street) with more traffic using 4th Street (north of Main Street) and a higher intensity land use (post office, Turner Hall, churches).

As previously noted, this abbreviated study is intended to assist the city in their decision-making process on the one-way to two-way conversion and to meet WisDOT's project timeline. More detailed studies will be conducted in the future and the following elements will be further evaluated as part of the full traffic study:

- Need for additional exclusive left-turn lanes along Main Street
- Consideration to remove the traffic signal at Main Street intersection with 3rd Street
- Roadway cross section alternatives along Main Street, 3rd Street and 4th Street
- Bicycle accommodations
- Impacts to on-street parking
- Cost estimates
- Considerations for conversion of other one-way streets in the downtown area

ADDITIONAL CONSIDERATIONS

Several other Wisconsin cities have successfully converted one-way streets to two-way streets in recent years, including:

- Court Street, City of Janesville
- St. Paul Avenue/North Street, City of Waukesha
- US 10/WIS 42 (8th Street/10th Street), City of Manitowoc
- Wells Street/State Street, City of Milwaukee
- Wisconsin Avenue/Lake Avenue, City of Racine

News articles on these projects identified the desire for slower vehicle speeds, more inviting conditions for pedestrians and bicyclists, improved vehicular circulation, and better business visibility as some of the reasons for pursuing the change. General post-conversion reporting on the completed projects has been positive. Additional correspondence with these communities could be helpful to the City of Watertown during the evaluation and implementation process.

The City of Watertown currently has several roadways designated as truck routes through the downtown area, including 1st Street, 2nd Street (north of Main Street), 3rd Street, 4th Street, Main Street, and sections of Market Street and Madison Street. If 3rd Street and 4th Street are converted to two-way, the City of Watertown could consider consolidation or relocation of these truck routes to provide increased flexibility for design of the Main Street, 3rd Street, and 4th Street corridors.

THE CITY OF WATERTOWN

MEMO

DPW – Street/Solid Waste Division

To: Alderperson Board and Public Works Commission

From: Stacy Winkelman

Date: August 21, 2024

Subject: Request for Solid Waste/Recycling Service

Background

Muriel and Bruce LeGrow are new residents of N856 N. Water Street and are requesting City services of solid waste and recycling services.

Budget Goal

17-46-05-17 will be credited $19.08 per month for these services.

Financial Impact

Revenue to a solid waste revenue account.

Recommendation

Since we currently do service to residents in this same residential unit it will not cost the city any more time or resources to do the collection. Therefore, I would recommend approval.

2024 Operational Goals

1. Proactively maintains and improves our parks and infrastructure in an effort to ensure quality, safety and compliance
2. Supports employee retention and growth, and also works to address critical staffing areas
3. Invests in the assessment, strategic planning and maintenance of our city buildings
4. Promotes and fosters innovative approaches for community development and growth
5. Maintains a safe and healthy community, and expands community education on safety and health

THE CITY OF WATERTOWN
Opportunity runs through it.

From: Peter Hartz – Water Systems Manager

Re: August 27, 2024, Public Works Commission meeting agenda item

Water Systems:

1.) Review and take action - approve license agreement between City of Watertown and New Cingular Wireless PCS, LLC., (AT&T) for equipment located on the O'Connell Water Tower (Cellular Site WT/WI1058)

Background: New Cingular Wireless PCS, LLC., is currently operating its equipment at the above site as a holdover Tenant under the Option and Lease Agreement between Watertown Water Commission and AT&T (the "Original Lease"). New Cingular Wireless PCS, LLC., and the City's representatives have negotiated a replacement Watertown License Agreement (the "Agreement") between the two parties. Included in the Agreement are construction drawings that have been approved, the project commencement date was pending the agreement to the new lease and terms which has been in negotiations for over 2-years.

Budget goal: This aligns with investments and infrastructure planning.

Financial Impact: This agreement sets the water utility for additional revenue for the next 20 years by providing space for rent by others outside of water rate revenue; the first year rent (license fee) is $31,200 payable in monthly installments of $2,600, with increases of 3% each year for a total of four (4), five (5) year renewal terms (20 year total time frame of Initial Term).

Recommendation: I recommend approval of the new agreement which includes a new lease term and the new equipment upgrades. The 'draft' resolution for the Common Council included for this item will move forward to the next scheduled meeting; tentatively on September 2, 2024 if approved.

Thank you for your attention to this matter. Should you have any questions, or need further clarification please don't hesitate to reach out to me.

Best regards,

Peter Hartz

E. The Parties intend that this Agreement supersede and replace the Lease as of the Effective Date.

AGREEMENT

The Parties agree as follows:

ARTICLE 1: LICENSE GRANTED

1.1 As of October 22, 2023, the Lease is terminated and is replaced and superseded by this Agreement.

1.2 Licensee's Existing Facilities and any additional or replacement equipment or facilities approved pursuant to the terms of this Agreement are collectively referred to as the "**Communications Facilities.**"

1.3 Subject to the provisions of this Agreement, Watertown hereby grants to Licensee:

1.3.1 A revocable license authorizing Licensee to install, maintain, upgrade, and operate Licensee's Communications Facilities on two portions of the Property totaling approximately 814 square feet (collectively, the "**Land Space**"), as more particularly described on **Exhibit A** and depicted on the site survey attached as **Exhibit B**. The Land Space shall NOT include the overlap area depicted and described on **Exhibit C**.

1.3.2 A revocable license authorizing Licensee to install, maintain, upgrade, and operate Licensee's Communications Facilities on the specific locations on the Tower ("**Tower Space**") shown on the drawings of the Existing Facilities and equipment inventory attached as **Exhibit D**.

1.3.3 The following temporary, non-exclusive easements, which shall automatically terminate upon the termination or expiration of this Agreement: (i) an "**Access Easement**" across the Property for ingress and egress to the Land Space and (ii) a "**Utility Easement**" across the Property for the underground installation of utility wires, cables, conduits, cable trays, and pipes (collectively, the "**Easements**") in the locations on the Property more particularly described on **Exhibit A** and depicted on the site survey attached as **Exhibit B**.

1.4 The Tower Space and Land Space are collectively referred to as the "**Premises**."

ARTICLE 2: TERM

2.1 The "**Initial Term**" of this Agreement shall commence on November 1, 2023, ("**Commencement Date**") and shall terminate on the fifth anniversary of the Commencement Date.

2.2 Provided that Licensee is not in default under this Agreement at the end of the Initial Term or any Renewal Term, this Agreement shall automatically be extended for three additional five-year terms (each, a "**Renewal Term**") unless Licensee notifies Watertown in writing of its intention to terminate this Agreement at least 90 days prior to the expiration of the then-

current Term, in which case the Agreement shall terminate at the end of the Term during which such notice is given.

2.3 Either Party may terminate this Agreement at the end of the fourth and final Renewal Term by giving written notice to the other Party of its intention to terminate this Agreement at least 90 days prior to the expiration of the final Renewal Term. If neither Party has given such a notice to the other Party, then upon the expiration of the fourth and final Renewal Term, this Agreement shall continue in force upon the same covenants, terms, and conditions for an additional term of one year and for annual terms thereafter (each, an "**Annual Term**") until terminated by either Party by giving the other Party 60 days' written notice of its intention to terminate this Agreement at the end of the then-current Annual Term.

2.4 The Initial Term, each Renewal Term, and any Annual Terms are referred to collectively as the "**Term**."

ARTICLE 3: LICENSE FEE

3.1 Commencing on the Commencement Date, the annual "**License Fee**" shall be **$31,200.00** payable in equal monthly installments of **$2,600.00** in advance on or before the fifth day of each month. License Fees for any partial months shall be prorated. Each year, on the anniversary of the Commencement Date, the License Fee shall increase by three percent (**3.0%**) over the License Fee in effect the immediately preceding year.

3.2 The Parties agree that the License Fee paid to Watertown to date is good and valuable consideration as holdover License Fee for the holdover License Fee period from October 22, 2023 through October 31, 2023, the receipt and sufficiency of which are hereby acknowledged.

3.3 The Parties acknowledge that, pursuant to the Lease, Licensee has been paying to Watertown monthly rent of $2,413.44 and that, upon the full execution of this Agreement, Licensee shall owe Watertown the difference between the License Fee required under this Agreement and the rent paid under the Lease (i.e., $186.56 per month) for each month during the period beginning November 1, 2023 and ending on the date of full execution of this Agreement ("**True-Up Payment**"). Licensee shall make such True-Up Payment to Watertown within 40 days after the full execution of this Agreement.

3.4 Licensee shall pay the License Fee to Watertown at Attn: Water Utility Clerk, PO Box 477, Watertown, WI 53094 or to such other person, firm, or place as Watertown may, from time to time, designate in writing at least 30 days in advance of any License Fee payment due date by notice given in accordance with Article 17 below.

3.5 In the event Licensee fails to timely pay any sums due under this Agreement, Licensee shall pay to Watertown a late fee on the total payment due of three percent (**3.0%**) per month.

ARTICLE 4: DISCLAIMERS

4.1 Licensee acknowledges and agrees that Watertown has made no representations or warranties, express or implied, regarding the physical condition of the Property, Premises, or

Easements; the suitability of the Property, Premises, or Easements for Licensee's desired purposes; or the state of title of the Property.

4.2 Licensee acknowledges and agrees that Licensee is experienced in land acquisition and premises development, that it has conducted or will conduct all necessary and appropriate inspections of the Property, and that Licensee accepts the Property, including the Easements, Premises, and all structures thereon, in **"*as-is, where-is, and with all faults*"** condition.

4.3 ***Watertown makes no warranties or representations regarding Licensee's exclusive use of the Property, Tower, or Easements; non-interference with Licensee's transmission operations; or that the Premises, Easements, or utilities serving the Premises are fit for Licensee's intended use, and all such warranties and representations are hereby disclaimed.***

ARTICLE 5: TAXES/NO LIENS

5.1 Licensee shall have the responsibility to pay any personal property taxes, assessments, or charges owed on the Property that are the result of Licensee's use of the Premises and/or the installation, maintenance, and operation of Licensee's Communications Facilities. Licensee shall be responsible for the payment of all taxes, levies, assessments, and other charges imposed upon the business conducted by Licensee at the Property.

5.2 Licensee shall have the right, at its sole cost and expense, to appeal, challenge, or seek modification of any tax assessment or billing for which Licensee is wholly or partly responsible to pay.

5.3 Licensee shall not permit any claim or lien to be placed against any part of the Property or Tower that arises out of work, labor, material, or supplies provided or supplied to Licensee, its contractors or their subcontractors for the installation, construction, operation, maintenance, or removal of the Communications Facilities or use of the Premises or Property. Upon 30 days' prior written notice from Watertown, Licensee shall cause any such claim or lien filed by any third party making a claim against, through, by, because of, or under Licensee to be discharged by bonding or letter of credit to give Watertown security to protect Watertown's interests from the claim or lien. If Licensee elects to obtain a bond, it shall be with a company authorized to provide bonds in Wisconsin.

ARTICLE 6: USE

6.1 Permitted Use. Licensee shall continuously use the Premises solely for the purpose of constructing, maintaining, repairing, and operating its Communications Facilities. All Communications Facilities shall be installed and maintained at Licensee's expense and shall be and remain the exclusive property of Licensee. Licensee shall not do or permit to be done in, to, on, or about the Property any act or thing which would violate, suspend, invalidate, or make inoperative any insurance pertaining to the Property or the Premises or any improvements thereto.

6.2 Compliance with Laws.

6.2.1 Licensee, at its expense, shall diligently, faithfully, and promptly obey and comply with all federal, state, and local orders, rules, regulations, and laws (collectively, "**Laws**"), including all environmental laws and Federal Communications Commission ("**FCC**") and Federal Aviation Administration ("**FAA**") rules, that are applicable to operations conducted upon or above the Premises and including the applicable American National Standards Institute ("**ANSI**") "Safety Levels with respect to Human Exposure to Radio Frequency Electromagnetic Fields" as set forth in the current ANSI standard or any applicable FCC standard that supersedes this standard or any applicable Environmental Protection Agency rules or regulations that may hereinafter be adopted that supersede this standard. Licensee shall adhere to all Occupational Safety and Health Administration safety requirements that are applicable to Licensee's operations conducted upon or above the Property.

6.2.2 Licensee shall neither do nor permit any act or omission that could cause the Premises or the use thereof to fall out of compliance with applicable Laws. Licensee shall provide to Watertown a copy of any written notice received by Licensee from any governing authority regarding non-compliance with any Law pertaining to Licensee's operations conducted upon or above the Premises within 30 days of Licensee's receipt of any such notice of non-compliance. Any fines or penalties imposed for improper or illegal installation or operation of any improvements on the Premises or for any other violation of Laws on the Premises shall be Licensee's sole responsibility.

6.3 Governmental Approvals. Licensee shall not install Communications Facilities on the Premises without first obtaining all necessary federal, state, and local governmental approvals and permits for such installation.

6.4 Utility Service. Licensee shall pay and be responsible for all utility services it uses on the Premises and all other costs and expenses in connection with the use, operation, and maintenance of the Premises and all activities conducted thereon. All utilities serving the Premises shall be underground, located within a Utility Easement, and shall be separately metered. No backup generators shall be allowed to operate on the Premises unless they are powered by natural gas.

6.5 Advertisements. Licensee shall not advertise on the Property or on any structure on the Property, except for company identification as required by FCC regulation.

6.6 Damage During Installation. Any damage done to the Property, Tower, or surrounding land during installation, operation, maintenance, repair, or removal of the Communications Facilities that results from the action or inaction of Licensee or its contractors or their subcontractors or the presence of the Communications Facilities shall be immediately repaired at Licensee's expense and to Watertown's reasonable satisfaction. Licensee shall pay all costs and expenses in relation to maintaining the structural integrity of the Tower in connection with Licensee's installation and operation of the Communications Facilities.

6.7 Maintenance. Licensee shall be responsible for maintenance and security of the Land Space and Licensee's Communications Facilities and shall keep the same (including any fencing or landscaping shown on **Exhibit B**, **Exhibit D**, or the Construction Drawings approved pursuant to Article 8) in good repair and condition during the Term of this Agreement.

ARTICLE 7: ACCESS

7.1 Licensee shall have 24/7 unsupervised access to the Communications Facilities located on the Land Space portion of the Premises. Licensee may have supervised access to the Communications Facilities inside or on the Tower by requesting access 48 hours in advance. For instances involving regular maintenance, Licensee shall request access to the Tower by calling **(920) 262-4075** between the hours of 7:00 a.m. and 2:00 p.m. If Licensee needs access to the Tower in an emergency, it shall give advance notice to Watertown as soon as reasonably possible by calling **(920) 261-6660**. Licensee shall reimburse Watertown for all costs Watertown incurs in sending its personnel to the Property and in supervising Licensee's Tower access.

7.2 Licensee shall be subject to all emergency operation plans adopted by Licensee applicable to the Tower. When accessing the Tower, Licensee's employees, contractors, and agents shall have proper identification. Licensee shall be responsible for maintaining a written record of the names of its employees, contractors, and agents who perform work on the Premises, the nature of the work performed, and the date and time such work is performed. Licensee shall make such records available to Watertown upon request.

ARTICLE 8: UPGRADE PROJECTS, MODIFICATIONS, REPAIR, & REPLACEMENT

8.1 Future Modifications.

8.1.1 Licensee shall not seek to add any additional Communications Facilities or make any other additions, alterations, or improvements to the Premises or Property ("**Modification Project**") without Watertown's prior written approval. Approval of a Modification Project may be subject to an increase in the License Fee and/or the Parties' entering into either an amendment to this Agreement or a replacement Agreement.

8.1.2 Licensee shall submit all of the following to Watertown in connection with its request for approval of a Modification Project:

8.1.2.1 *Application.* A complete and executed Antenna Site Application ("**Application**") on the form attached as **Exhibit E**.

8.1.2.2 *Deposit.* The required deposit, as set forth in the Application.

8.1.2.3 *Construction Drawings.* Detailed construction plans and drawings ("**Construction Drawings**") for all proposed improvements that are part of the Modification Project for Watertown's written approval, which

approval must be obtained before Licensee may commence any construction or installation work on the Property.

8.1.2.4 *Engineering Study/Structural Analysis.* If the Modification Project will impact the Tower, an engineering study and structural analysis to determine whether the proposed installation of the Modification Project will adversely affect the structural integrity of the Tower.

8.1.2.5 *Updated Site Survey.* If requested by Watertown, an updated site survey that reflects any proposed changes to the Land Space and/or Easements in connection with the Modification Project for Watertown's written approval.

8.2 Additional Project Requirements.

8.2.1 Licensee's installation of a future Modification Project shall be made at Licensee's sole expense and completed in a neat and workmanlike manner in accordance with sound engineering practices; all applicable Laws; and in strict compliance with the approved Construction Drawings.

8.2.2 Within 30 days after installation of a Modification Project, Licensee shall provide to Watertown electronically formatted as-built drawings ("**As-Built Drawings**") documenting the Communications Facilities installed on the Property. The As-Built Drawings shall be reviewed and approved by the engineer of record, show the actual location of all of Licensee's Communications Facilities, and be accompanied by a complete and detailed inventory of all then-existing and newly installed Communications Facilities.

8.2.3 After installation of a Modification Project, Licensee shall address all punch-list items within 20 days after Licensee or its contractors receive the punch list from Watertown or Watertown's contractors. If Licensee fails to satisfactorily address all items on the punch list within the 20-day time period, Licensee shall pay to Watertown a fee of $100 for each day that Licensee has not completed its obligations under this Section 8.2.3.

8.3 Repair/Replacement Notice.

8.3.1 With the exception of emergencies, Licensee shall submit to Watertown advance written notice of the need for and the nature of any repair or maintenance of Licensee's existing Communications Facilities or the replacement of such facilities on a like-for-like basis, using the Antenna Site Service Notice form attached as **Exhibit F** ("**Service Notice**"). For the sake of clarity, "**like-for-like basis**" means that the existing Communications Facilities are replaced with Communications Facilities that are not greater in size (i.e., the dimensions are the same or smaller), weight, and number and that the new Communications Facilities are attached in the same manner as the then-existing Communications Facilities.

8.3.2 If Watertown objects to the Service Notice, Watertown shall notify Licensee in writing within two business days of its receipt of the Service Notice. Watertown's notice to Licensee shall specify in detail the objection and whether Licensee is authorized to proceed with the repair or replacement. Licensee may submit a revised Service Notice as often as necessary until approved by Watertown.

8.3.3 In the case of an emergency, Licensee shall provide written notice to Watertown describing the replacement or repair, as well as an explanation of the reason the repair or replacement constituted an emergency and did not require prior written notice to Watertown, with the written notice being transmitted by Licensee to Watertown within 24 hours following the emergency replacement or repair. As used in this Agreement, "**emergency**" shall be deemed to exist only in instances in which the emergency conditions constitute an immediate threat to the health or safety of the public or an immediate danger to the Tower, its operations, or the Licensee's Communications Facilities.

8.4 Review/Inspection. As directed by Watertown, Watertown's technical consultant shall review and periodically inspect Licensee's Modification Project beginning with the pre-construction conference and continuing through installation, construction, punch list review, and verification of the post-construction As-Built Drawings. Before Licensee may energize its system (i.e., start-up), all items on the punch list must be substantially completed, as reasonably determined by Watertown.

8.5 Responsibility for Professional Costs. Licensee shall reimburse Watertown for all third-party professional costs, including legal and engineering fees, that Watertown incurs in connection with a Modification Project ("**Professional Costs**"). If the Professional Costs exceed the amount of any deposit made pursuant to the Application, Watertown will invoice Licensee for the additional Professional Costs incurred, which invoice shall be due and payable within 30 days of its receipt. If, upon completion of the Modification Project (including completion of any remedial work and verification of the post-construction As-Built Drawings), the Professional Costs are less than the amount of any deposit made pursuant to the Application, Watertown shall refund the unused portion of the deposit to Licensee.

ARTICLE 9: TOWER PAINTING & MAINTENANCE

9.1 Relocation of Communications Facilities. Licensee shall remove its Communications Facilities from the Tower, at Licensee's sole cost and expense, to allow for Tower painting, reconditioning, or similar major maintenance or repair work that Watertown, in its sole discretion, determines will require the removal of the Communications Facilities from the Tower ("**Major Maintenance Work**").

9.1.1 Watertown shall notify Licensee prior to the end of any calendar year during which Watertown has planned and budgeted for the Major Maintenance Work in the following year. After the contract for such work has been awarded, Watertown shall further notify Licensee when a preliminary schedule for the work has been established.

9.1.2 Licensee and Watertown shall cooperate to ensure that the removal of the Communications Facilities does not interfere with the Major Maintenance Work. Licensee shall cooperate with Watertown with respect to the Major Maintenance Work and will make its representatives available to attend meetings with Watertown or its contractors (and any other Tower users) related to such work.

9.1.3 If Licensee requires the use of a temporary pole or cell on wheels (collectively, "**Temporary Tower**"), Watertown shall permit Licensee, at Licensee's sole expense, to place a Temporary Tower on the Property in a location mutually agreed upon by Watertown and Licensee. Licensee shall cooperate with Watertown regarding the placement of the Temporary Tower on the Property. If the Property will not accommodate Licensee's Temporary Tower, it is Licensee's responsibility to locate alternative sites. If space on the Property is limited, priority will be given to the Tower user who has been using the site the longest.

9.2 Communications Facilities Remain in Place. If Watertown, in its sole discretion, determines that it is reasonable to allow Licensee to keep all or any portion of the Communications Facilities in place during any maintenance or repair work, Licensee shall be responsible for all additional costs Watertown incurs due to the presence of the Communications Facilities on the tower during such work. Watertown will invoice Licensee for such additional costs, and Licensee shall pay such invoice within 30 days of its receipt. **Licensee agrees that it accepts any and all risk of damage to its Communications Facilities while the maintenance or repair work is being performed and that Watertown shall have no liability whatsoever for any such damage, regardless of the cause of such damage**.

9.3 Temporary Emergency Relocation. In case of an emergency that requires Watertown to remove Licensee's Communications Facilities, Watertown may do so after giving advance telephone notice to Licensee as soon as practical by calling **NOC 1-800-638-2822**. In the event the use of the Communications Facilities is interrupted, Licensee shall have the right to maintain a Temporary Tower on the Property in a location approved by Watertown. If the Property will not accommodate Licensee's Temporary Tower, it is Licensee's responsibility to locate alternative sites. If space on the Property is limited, priority will be given to the Tower user who has been using the site the longest.

ARTICLE 10: LIMITATION OF LIABILITY

10.1 Watertown reserves to itself the right to maintain, operate, and improve the Tower and Property in the manner that will best enable it to fulfill its water utility service requirements. Licensee agrees to use the Property and Tower at its sole risk. Notwithstanding the foregoing, Watertown shall exercise reasonable caution to avoid damaging Licensee's Communications Facilities and, if it is aware of or made aware of such damage, Watertown shall promptly report to Licensee the occurrence of any such damage caused by Watertown. Subject to Sections 9.2 and 10.2, Watertown agrees to reimburse Licensee for all reasonable costs Licensee incurs for the physical repair of its Communications Facilities damaged solely by Watertown's negligence or willful misconduct, not to exceed the limits of liability for municipal claims established by Wisconsin law.

10.2 No provision of this Agreement is intended, nor shall it be construed, to be a waiver for any purpose of any provision of Wis. Stat. §§ 893.80, 345.05, or any other notice requirements, governmental immunities, or damages limitations that may apply to Watertown, its employees, officials, or agents.

ARTICLE 11: INDEMNIFICATION

11.1 Indemnification. Licensee shall defend, indemnify, and hold harmless Watertown and its officers, officials, employees, and agents ("**Indemnified Parties**") against any and all liability, costs, damages, fines, taxes, special charges by others, penalties, payments (including payments made by Watertown under any workers' compensation laws or under any plan for employee disability and death benefits), remediation costs, and expenses (including reasonable attorney's fees and all other costs and expenses of litigation) (each a "**Covered Claim**") that may be asserted by any person or entity and arise in any way (including any act, omission, failure, negligence, or willful misconduct) in connection with this Agreement or with the construction, maintenance, repair, presence, removal, or operation of the Communications Facilities by Licensee or anyone under the direction or control or acting on behalf of or at the invitation of Licensee (including subcontractors) except to the extent Watertown's willful misconduct solely gives rise to such Covered Claim.

11.2 Procedure for Indemnification. The following procedures shall apply to Licensee's indemnification obligations under both Articles 11 and 12:

11.2.1 Watertown shall give prompt written notice to Licensee of any claim or threatened claim, specifying the factual basis for such claim and the amount of the claim. If the claim relates to an action, suit, or proceeding filed by a third party against Watertown, Watertown shall notify Licensee no later than 15 days after Watertown receives written notice of the action, suit, or proceeding.

11.2.2 Watertown's failure to give the required notice shall not relieve Licensee of its obligation to indemnify Watertown unless, and only to the extent, that Licensee is materially prejudiced by such failure.

11.2.3 Licensee shall have the right at any time, by notice to Watertown, to participate in or assume control of the defense of the claim with counsel of its choice, which counsel must be reasonably acceptable to Watertown. Watertown agrees to cooperate fully with Licensee. If Licensee assumes control of the defense of any third-party claim, Watertown shall have the right to participate in the defense at its own expense. If Licensee does not assume control or otherwise participate in the defense of any third-party claim, Licensee shall be bound by the results obtained by Watertown with respect to the claim.

11.2.4 If Licensee assumes the defense of a third-party claim as described above, then in no event shall Watertown admit any liability with respect to, or settle, compromise, or discharge any third-party claim without Licensee's prior written consent.

11.2.5 Licensee shall take prompt action to defend and indemnify the Indemnified Parties against Covered Claims, actual or threatened, but in no event later than notice by

Watertown to Licensee of the service of a notice, summons, complaint, petition, or other service of a process against an Indemnified Party alleging damage, injury, liability, or expenses attributed in any way to the Agreement; the work to be performed under this Agreement; or the acts, fault, negligence, equipment, materials, properties, facilities, personnel, or property of Licensee or anyone under its direction or control. Licensee shall defend any such claim or threatened claim, including as applicable, engagement of legal counsel, to respond to, defend, settle, or compromise any claim or threatened claim.

11.3 Costs. Licensee acknowledges and agrees that Licensee is responsible for reimbursing the Indemnified Parties for any and all costs and expenses (including reasonable attorneys' fees) actually incurred in the enforcement of Articles 11 and 12.

ARTICLE 12: ENVIRONMENTAL

12.1 Licensee represents and warrants that its use of the Property will not generate any Hazardous Substances (defined below), that it will not store or dispose of on the Property or transport to or over the Property any Hazardous Substances, and that its Communications Facilities do not constitute or contain and will not generate any Hazardous Substances in violation of any Laws now or hereafter in effect, including any amendments. "**Hazardous Substance**" shall be interpreted broadly to mean any substance, material, chemical, or waste that now or hereafter is classified or considered to be hazardous or toxic waste, hazardous or toxic material, hazardous or toxic radioactive substance, or other similar term by any federal, state, or local laws, regulations, or rules now or hereafter in effect, including any amendments.

12.2 Licensee shall indemnify, defend, and hold harmless the Indemnified Parties from and against any and all claims that may be asserted against or incurred by an Indemnified Party or for which an Indemnified Party may be held liable, which arise from the presence, use, generation, storage, treatment, disposal, or transportation of Hazardous Substances on, into, from, under, or about the Premises or Property by Licensee or anyone under the direction or control of or acting on behalf of or at the invitation of Licensee, specifically including, but not limited to, the cost of any required or necessary repair, restoration, remediation, cleanup, removal, or detoxification of the Premises or the Property and the preparation of any closure or other required plans, whether or not such action is required or necessary during the Term or after the expiration or termination of this Agreement, except only to the extent that Watertown's willful misconduct gives rise to such claim.

ARTICLE 13: INSURANCE

13.1 Coverage. At all times during the Term of this Agreement and for as long as the any Communications Facilities remain on the Property, Licensee will carry, at its own cost and expense, the following insurance:

13.1.1 *Workers' Compensation and Employers' Liability Insurance.* Statutory workers' compensation benefits and employers' liability insurance policy with a limit of $1,000,000 each accident/disease. This policy shall include a waiver of subrogation in favor of Watertown.

13.1.2 *Commercial General Liability Insurance.* Commercial general liability policy per ISO form CG 00 01 or its equivalent with a limit of $3,000,000 per occurrence for bodily injury and property damage and $6,000,000 general aggregate including premises, operations, products and completed operations, advertising injury, contractual liability coverage, and coverage for property damage from perils of explosion, collapse, or damage to underground utilities (commonly known as XCU coverage).

13.1.3 *Commercial Automobile Liability Insurance*. Commercial automobile liability policy in the amount of $1,000,000 combined single limit each accident for bodily injury or property damage covering all owned, hired, and non-owned autos and vehicles.

13.1.4 *Excess/Umbrella Liability.* Excess/umbrella liability policy with a limit of $6,000,000 per occurrence and aggregate providing coverage to be in excess of employers' liability, commercial general liability, and automobile liability insurance required above. Licensee may use any combination of primary and excess insurance to meet the total limits required.

13.1.5 *Property Insurance*. Property insurance on Licensee's facilities, buildings, and other improvements, including equipment, fixtures, fencing, or support systems that may be placed on, within, or around the Property to fully protect against hazards of fire, vandalism, and malicious mischief, and such other perils as are covered by policies of insurance commonly referred to and known as "extended coverage" insurance. This policy shall include a waiver of subrogation in favor of Watertown. Licensee self-insures its property insurance and in satisfaction of the waiver of subrogation requirement will include Watertown as joint loss payee to the extent of Watertown's insurable interest which would have been covered had Licensee purchased property insurance.

13.2 Additional Requirements. With respect to the policies of insurance Licensee is required to carry pursuant to Section 13.1:

13.2.1 Such insurance shall be primary coverage without reduction or right of offset or contribution on account of any insurance provided by Watertown to itself or its officials, officials, employees, or agents.

13.2.2 Watertown and its board members, departments, commissioners, officers, officials, agents, and employees ("**City Parties**") shall be included as an additional insured under all of the policies except for workers' compensation and employers' liability and Licensee's self-insured property coverage, which additional insured status shall be indicated on the certificate of insurance or in a blanket additional insured endorsement as it respects to this Agreement.

13.2.3 No policies of insurance required under this Article 13 shall contain provisions that exclude coverage of liability arising from excavating, collapse, or underground work or coverage for injuries to Watertown's employees or agents.

13.2.4 All policies (other than workers' compensation) shall be written on an occurrence and not a claims-made basis.

13.2.5 The insurer must be eligible to do business in the State of Wisconsin and have an A- or better rating in Best's Guide.

13.2.6 Upon execution of this Agreement and upon expiration or renewal of any liability policies required by this Agreement, Licensee shall submit to Watertown certificates of insurance evidencing the coverage required by this Agreement.

13.2.7 Licensee shall be fully responsible for any deductible amounts or for any deficiencies in the amounts of insurance maintained. Licensee shall defend, indemnify, and hold Watertown harmless from and against the payment of any deductible or any premium for Licensee's insurance policies.

13.2.8 The insurance requirements in this Article 13 shall not in any way act to reduce coverage that is broader or that includes higher limits.

13.3 Contractors' Insurance. Licensee shall ensure that all contractors and their subcontractors performing any work on the Property related to this Agreement obtain and maintain substantially the same coverage with substantially the same limits as are required of Licensee. Prior to any such contractor or subcontractor performing any work on the Property, Licensee shall furnish Watertown with a certificate of insurance evidencing the required coverage.

13.4 Waiver of Claims and Subrogation. Licensee hereby waives any and all rights of recovery, claim, action, or cause of action against Watertown for any loss or damage that may occur to the Communications Facilities, the Premises, or any improvements thereto, or any property located on the Premises, arising from any cause that (i) would be insured against under the terms of the property insurance Licensee is required to carry under this Article 13 or (b) is insured against under the terms of any property insurance actually carried by Tenant, regardless of whether the same is required hereunder, except for Licensee's self-insured property coverage where Licensee shall include Watertown as joint loss payee in lieu of waiver of subrogation and such status as joint loss payee shall void the requirement for waiver of subrogation for Licensee's self-insured property coverage. The foregoing waiver shall apply regardless of the cause or origin of such claim, including the negligence of Watertown or its agents, officers, employees, or contractors. The foregoing waiver shall not apply if it would have the effect, but only to the extent of such effect, of invalidating any insurance coverage of Licensee or Watertown.

13.5 Accident or Incident Reports. Licensee shall promptly furnish Watertown with copies of any accident or incident report(s) sent to Licensee's (or its contractor's or subcontractor's) insurance carriers concerning accidents or incidents on the Property or in connection with or as a result of performance of work under this Agreement.

13.6 No Limitation. Nothing contained in this Article 13 shall be construed as limiting the extent of Licensee's responsibility for payment of damages resulting from Licensee's activities

under this Agreement or limiting, diminishing, or waiving Licensee's indemnification obligations under this Agreement.

ARTICLE 14: INTERFERENCE

14.1 Watertown reserves to itself the right to maintain, operate, and improve the Tower and Property in the manner that will best enable it to fulfill its water utility service requirements. Licensee agrees to use the Property and the Tower at its sole risk. Licensee's installation, operation, maintenance, and use of the Communications Facilities shall not damage or adversely interfere in any way with Watertown's communications equipment or its water utility operations, including the Tower and its related repair and maintenance activities.

14.2 Licensee agrees to install only equipment of the type and frequency that will not cause harmful interference measurable in accordance with then-existing industry standards to any equipment of Watertown (whenever installed) or the equipment of preexisting radio frequency users on the Property ("**Pre-Existing User**"), as long as those Pre-Existing Users operate and continue to operate within their respective frequencies and in accordance with all applicable Laws.

14.3 In the event any equipment installed by Licensee causes interference to Watertown's or a Pre-Existing User's equipment on the Property, and after Watertown has notified Licensee in writing of such interference, Licensee will immediately take all commercially reasonable steps necessary to correct and eliminate the interference, including, but not limited to, powering down such equipment and later powering up such equipment for intermittent testing.

14.4 Watertown agrees that each of its future agreements with other tenants, lessees, or licensees who currently or in the future have use of the Tower or the Property ("**Other Users**") shall contain a provision substantially the same as Section 14.2 above and that Watertown shall enforce such provisions in a nondiscriminatory manner with respect to all of the Other Users. Watertown further agrees that Watertown and its employees, contractors, and agents shall use reasonable efforts, consistent with Section 14.1 above, not to cause interference with the operation of the Communications Facilities.

14.5 The Parties acknowledge that there will not be an adequate remedy at law for noncompliance with the provisions of this Article 14 and, therefore, either Party shall have the right to equitable remedies, such as, without limitation, injunctive relief and specific performance.

14.6 In addition to all other remedies available to Licensee, in the event the equipment or activities of then-existing Other Users or Watertown are causing interference to the Communications Facilities and such interference is not eliminated within seven calendar days after written notice to Watertown from Licensee, then Licensee shall have the right to terminate this Agreement.

14.7 For the purposes of this Agreement, "**interference**" may include, but is not limited to, any use of the Property that cause electronic interference with or physical obstruction to, or degradation of, the communications signals from the facilities of any permitted users of the Property.

ARTICLE 15: REMOVAL/BOND

15.1 Removal and Restoration. Upon termination or expiration of this Agreement, Licensee shall have 90 days to remove the Communications Facilities from the Premises (except underground utilities, which Licensee shall disconnect, and foundations, which shall be removed to a depth of four feet below grade) and shall restore the Tower and the Property to the condition they were in before Licensee's Communications Facilities were installed, ordinary wear and tear and loss by casualty or other causes beyond Licensee's control excepted, all at Licensee's sole cost and expense. Before removing any part of the Communications Facilities from the Tower upon termination or expiration of this Agreement, Licensee agrees on behalf of itself and its successors and assigns to provide Watertown with reasonable advance notice of its intentions to remove such facilities and agrees to coordinate such removal with Watertown.

15.2 Bond. On or before the Effective Date, Licensee shall provide to Watertown a bond with an entity and in a form satisfactory to the City Attorney for Watertown. The amount of the bond shall be $55,000, and it shall be kept in full force so long as the Communications Facilities are on the Premises. The purpose of the bond is to ensure the removal of the Communications Facilities and the restoration of the Property at the termination or expiration of this Agreement.

15.3 Removal and Restoration by Watertown. In the event that Licensee fails to comply with the removal and restoration requirements of this Agreement, Watertown shall have the right, using its own personnel or a contractor, to perform such removal and restoration, and Licensee shall reimburse Watertown for Watertown's actual costs of such removal and restoration within 60 days of receiving an invoice therefor. If Licensee fails to reimburse Watertown within such 60-day period, then Watertown may go against the bond referenced in Section 15.2 above.

15.4 Holdover. In the event Watertown does not exercise its right of removal under Section 15.3 above and Licensee fails to completely remove the Communications Facilities from the Premises or fails to restore the Tower and Property as required, Licensee shall continue to pay to Watertown an amount equal to 150% of the License Fee in effect during the last month of the Term, prorated for each and every day of every month during which any part of the Communications Facilities remains on the Property or the restoration of the Tower and the Property remains unfinished. Whether or not any or all of the Communications Facilities are in use or functioning shall not be considered a factor when determining Licensee's payment obligations under this Section 15.4.

ARTICLE 16: ASSIGNMENT & SUBLICENSING

16.1 Licensee may not sublicense any part of the Premises.

16.2 Licensee may assign its interest in this Agreement to an Affiliate without Watertown's consent. All other assignments or transfers shall require Watertown's prior written consent. No assignment or transfer shall be valid until (i) Licensee gives Watertown written notice of the assignment or transfer (which notice shall contain the legal name and contact information

for the assignee or transferee) and (ii) the assignee or transferee has agreed in writing to assume all of Licensee's obligations under this Agreement and a copy of such agreement has been provided to Watertown. Any assignment or transfer in violation of this Section 16.2 shall constitute a material default under this Agreement. For the purposes of this Article 16, an "**Affiliate**" is an entity controlled by, controlling, or under common control with Licensee ("**control**" being defined as the ownership, directly or indirectly, of at least 51% of the voting interest in an entity).

16.3 Notwithstanding any assignment by Licensee, Licensee will continue to be liable for all obligations of Licensee under this Agreement until released in writing by Watertown, unless the assignment is to an Affiliate. The consent by Watertown to any assignment will not relieve Licensee or any successor of Licensee from the obligation to obtain Watertown's written consent to any other assignment.

17.2 Notice shall be effective upon actual receipt or refusal of delivery, as evidenced on the receipt obtained from the carrier.

ARTICLE 18: DEFAULT & REMEDIES

18.1 Default by Licensee. The following will be deemed a default by Licensee and a breach of this Agreement:

18.1.1 Licensee's failure to pay the License Fee or any other sums owed to Watertown if such amount remains unpaid for more than 15 days after receipt of written notice from Watertown of such failure to pay or

18.1.2 Licensee's failure to perform any other term or condition under this Agreement within 30 days after receipt of written notice from Watertown specifying the failure.

18.2 No failure by Licensee under Section 18.1.2, however, will be deemed to exist if Licensee has commenced to cure such default within such 30-day period and provided that such efforts are prosecuted to completion with reasonable diligence. Delay in curing a default will be excused if due to causes beyond Licensee's reasonable control.

18.3 In the event of any uncured default by Licensee, in addition to all other rights and remedies available to Watertown at law, in equity, or under this Agreement, Watertown shall have the right to serve a written notice upon Licensee that Watertown elects to terminate this Agreement upon a specified date not less than 10 days but no more than 30 days after the date of serving such notice, and this Agreement shall terminate on the date so specified as if that date had been originally fixed as the termination date of the Term granted. In the event this Agreement is so terminated, Licensee shall promptly pay to Watertown a sum of money equal to the total of any unpaid amounts due under the Agreement, including the License Fee accrued through the date of termination.

18.4 Default by Watertown. The following will be deemed a default by Watertown and a breach of this Agreement:

18.4.1 Watertown's failure to provide access to the Premises within 48 hours of a request for access under Article 7.

18.4.2 Watertown's failure to perform any other term or condition under this Agreement within 30 days after receipt of written notice from Licensee specifying the failure.

18.5 No failure of Watertown under Section 18.4.2, however, will be deemed to exist if Watertown has commenced to cure the default within such 30-day period and provided such

efforts are prosecuted to completion with reasonable diligence. Delay in curing a default will be excused if due to causes beyond Watertown's reasonable control.

18.6 In the event of an uncured default by Watertown under Section 18.4.2, Licensee will have all rights and remedies available to it at law, in equity, or under this Agreement. However, Licensee's sole remedy for Watertown's failure to timely provide access under Section 18.4.1 shall be the right to seek specific performance.

ARTICLE 19: CASUALTY & DECOMMISSIONING

19.1 If the Tower is damaged for any reason, other than by reason of the willful misconduct or negligence of Licensee, its employees, contractors, or agents, so as to render it substantially unusable for Licensee's intended use, in Licensee's reasonable discretion, the License Fee shall abate until Watertown, at Watertown's expense and option, restores the Tower to its condition prior to such damage. If Watertown elects not to restore the Tower, it shall give Licensee written notice of such election and this Agreement shall immediately terminate.

19.2 If Licensee is unable to install a Temporary Tower or its functional equivalent in a mutually agreed-upon location for Licensee's use during the Tower repairs or Watertown does not begin repairs within 60 days following the date the Tower was damaged, Licensee shall have the right to terminate this Agreement by giving Watertown written notice thereof, as long as Licensee has not resumed operations upon the Property.

19.3 Watertown, in its absolute discretion, may decommission and dismantle the Tower at any time. Watertown shall give Licensee no less than 180 days' prior written notice of the date by which Licensee's Communications Facilities must be removed from the Property in accordance with Article 15. This Agreement will terminate at the end of the 180-day notice period (or at a different time, if both Parties agree to such termination date in writing).

ARTICLE 20: ADDITIONAL PROVISIONS

20.1 Municipal Authority. Nothing contained in this Agreement shall be construed to waive any obligation or requirement of Licensee to obtain all necessary approvals, licenses, and permits (if any) from the City of Watertown in accordance with its ordinances and usual practices and procedures, nor limit or affect in any way the right or authority of the City of Watertown to approve or reasonably disapprove any plans or specifications or to impose reasonable limitations, restrictions, and requirements as a condition of any such approval, license, or permit.

20.2 Condemnation. If a condemning authority takes all of the Premises, or a portion sufficient, in Licensee's reasonable determination, to render the Premises unsuitable for the use which Licensee was then making of the Premises, this Agreement shall terminate on the date title vests in the condemning authority.

20.3 Work Performed by Watertown. Any work performed or service provided by Watertown, the cost of which is Licensee's responsibility under this Agreement, shall be charged out at Watertown's annually adopted fully loaded labor rate ("**Labor Rate**") and transportation rate ("**Transportation Rate**"), which rates shall include a charge for administrative and general

costs. Watertown will invoice Licensee for such costs, which invoice shall be due and payable within 30 days of its receipt. Upon Licensee's request, Watertown will provide Licensee with documentation of Watertown's Labor Rate and Transportation Rate for the then-current year.

20.4 Recording; Further Assurances. Contemporaneous with the execution of this Agreement, Watertown and Licensee agree to execute a memorandum of this Agreement substantially in the form attached as **Exhibit G,** which Licensee shall record with the appropriate recording officer, at Licensee's sole expense, within 30 days of the Effective Date. Licensee shall promptly provide a copy of the recorded document to Watertown. Watertown and Licensee agree, as part of the basis of their bargain for this Agreement, to cooperate fully in executing any and all documents necessary to correct any factual or legal errors, omissions, or mistakes, and to take any and all additional action that may be necessary or appropriate to give full force and effect to the terms and intent of this Agreement.

20.5 Binding Upon Execution. The Parties agree that this Agreement is not binding on either Party until fully executed.

20.6 Subordination. Licensee agrees that this Agreement will be subject and subordinate to any mortgage or deed of trust now or hereafter placed upon the Property and to all modifications, renewals, replacements, or extensions thereto, and to all present and future advances made with respect to such mortgages or deeds of trust. In addition, Licensee agrees to attorn to the mortgagee, trustee, or beneficiary, or purchaser under any such mortgage or deed of trust. This subordination shall be self-operative, and no further instrument shall be required in order for it to become effective; however, Licensee will promptly execute and deliver to Watertown any certificate that Watertown may reasonably request to confirm this subordination.

20.7 Survival. The provisions of the Agreement relating to indemnification and removal of Licensee's Communications Facilities shall survive the termination or expiration of this Agreement. Additionally, any provisions of this Agreement that require performance subsequent to the termination or expiration of this Agreement shall also survive such termination or expiration.

20.8 Governing Law. This Agreement and the performance thereof shall be governed, interpreted, construed, and regulated by the laws of the State of Wisconsin, without regard to its conflict of law provisions.

20.9 Interpretation. This Agreement is the result of negotiation by the Parties and each Party had the opportunity to consult legal counsel with respect to this Agreement prior to execution. Nothing in this Agreement or any amendment or exhibit to it shall be construed more strictly for or against either Party because that Party or its attorney drafted this Agreement or any portion of it.

20.10 Entire Agreement. This Agreement, including its recitals and exhibits, contains all agreements, promises, and understandings between Watertown and Licensee with respect to the subject matter of this Agreement, and no verbal or oral agreements, promises, or

understandings shall be binding upon either Watertown or Licensee in any dispute, controversy, or proceeding at law.

20.11 Amendment. Any amendment or modification of this Agreement shall be void and ineffective unless made in writing and signed by both Parties.

20.12 Severability. If any section, subsection, term, or provision of this Agreement or the application thereof to any party or circumstance is, to any extent, held invalid or unenforceable, the remainder of the section, subsection, term, or provision of the Agreement or the application of the same to parties or circumstances other than those to which it was held invalid or unenforceable, will not be affected thereby and each remaining section, subsection, term, or provision of this Agreement will be valid and enforceable to the fullest extent permitted by law.

20.13 Headings. The headings of articles, sections, and subsections are for convenient reference only and will not be deemed to limit, construe, affect, modify, or alter the meanings of the articles, sections, or subsections.

20.14 Time of the Essence. Time is of the essence with respect to all of Licensee's obligations under this Agreement.

20.15 No Waiver. The failure of either Party to insist upon strict performance of any of the terms or conditions of this Agreement or to exercise any of its rights under the Agreement shall not waive such rights, and such Party shall have the right to enforce such rights at any time and take such action as may be lawful and authorized under this Agreement, in law or in equity.

20.16 Successors. The provisions, covenants, and conditions of this Agreement shall bind and inure to the benefit of the legal representatives, successors, and assigns of each of the Parties, except that no assignment by Licensee shall vest any right in the assignee unless all of the requirements set forth in Section 16.2 have been satisfied.

20.17 Counterparts. This Agreement may be executed in several counterparts, each of which when so executed and delivered shall be deemed an original and all of which, when taken together, shall constitute one and the same instrument, even though all Parties are not signatories to the original or same counterpart. Furthermore, the Parties may execute and deliver this Agreement by electronic means, such as .pdf, DocuSign, or similar format. The Parties agree that delivery of this Agreement by electronic means will have the same force and effect as delivery of original signatures and that the Parties may use such electronic signatures as evidence of the execution and delivery of the Agreement to the same extent as an original signature.

The Parties have formed this Agreement as of the Effective Date.

1. CONTRACTOR IS TO REFER TO AT&T'S MOST CURRENT RADIO FREQUENCY DATA SHEET (RFDS) PRIOR TO CONSTRUCTION.
2. THE SIZE, HEIGHT, AND DIRECTION OF THE ANTENNAS SHALL BE ADJUSTED TO ACHIEVE THE AZIMUTHS SPECIFIED AND LIMIT SHADOWING AND TO MEET THE SYSTEM REQUIREMENTS.
3. CONTRACTOR SHALL VERIFY THE HEIGHT OF THE ANTENNA WITH THE AT&T WIRELESS PROJECT MANAGER.
4. VERIFY TYPE AND SIZE OF TOWER LEG PRIOR TO ORDERING ANY ANTENNA MOUNT.
5. UNLESS NOTED OTHERWISE THE CONTRACTOR MUST PROVIDE ALL MATERIAL NECESSARY.
6. ANTENNA AZIMUTHS ARE DEGREES OFF OF TRUE NORTH, BEARING CLOCKWISE, IN WHICH ANTENNA FACE IS DIRECTED. ALL ANTENNAS (AND SUPPORTING STRUCTURES AS PRACTICAL) SHALL BE ACCURATELY ORIENTED IN THE SPECIFIED DIRECTION.
7. CONTRACTOR SHALL VERIFY ALL RF INFORMATION PRIOR TO CONSTRUCTION.
8. SWEEP TEST SHALL BE PERFORMED BY GENERAL CONTRACTOR AND SUBMITTED TO AT&T WIRELESS CONSTRUCTION SPECIALIST. TEST SHALL BE PERFORMED PER AT&T WIRELESS STANDARDS.
9. CABLE LENGTHS WERE DETERMINED BASED ON THE DESIGN DRAWING. CONTRACTOR TO VERIFY ACTUAL LENGTH DURING PRE-CONSTRUCTION WALK.
10. CONTRACTOR TO USE ROSENBERGER FIBER LINE HANGER COMPONENTS (OR ENGINEER APPROVED EQUAL).

RF, DC, & COAX CABLE MARKING LOCATIONS TABLE	
NO	LOCATIONS
1	EACH TOP-JUMPER SHALL BE COLOR CODED WITH (1) SET OF 3" WIDE BANDS.
2	EACH MAIN COAX SHALL BE COLOR CODED WITH (1) SET OF 3" WIDE BANDS NEAR THE TOP-JUMPER CONNECTION AND WITH (1) SET OF 3/4" WIDE COLOR BANDS JUST PRIOR TO ENTERING THE BTS OR TRANSMITTER BUILDING.
3	CABLE ENTRY PORT ON THE INTERIOR OF THE SHELTER.
4	ALL BOTTOM JUMPERS SHALL BE COLOR CODED WITH (1) SET OF 3/4" WIDE BANDS ON EACH END OF THE BOTTOM JUMPER.
5	ALL BOTTOM JUMPERS SHALL BE COLOR CODED WITH (1) SET OF 3/4" WIDE BANDS ON EACH END OF THE BOTTOM JUMPER.

CABLE MARKING DIAGRAM | NO SCALE | 5

1. THE ANTENNA SYSTEM COAX SHALL BE LABELED WITH VINYL TAPE.
2. THE STANDARD IS BASED ON EIGHT COLORED TAPES-RED, BLUE, GREEN, YELLOW, ORANGE, BROWN, WHITE, AND VIOLET. THESE TAPES MUST BE 3/4" WIDE & UV RESISTANT SUCH AS SCOTCH 35 VINYL ELECTRICAL COLOR CODING TAPE AND SHOULD BE READILY AVAILABLE TO THE ELECTRICIAN OR CONTRACTOR ON SITE.
3. USING COLOR BANDS ON THE CABLES, MARK ALL RF CABLE BY SECTOR AND CABLE NUMBER AS SHOWN ON "CABLE COLOR CHART".
4. WHEN AN EXISTING COAXIAL LINE THAT IS INTENDED TO BE A SHARED LINE BETWEEN TECHNOLOGIES IS ENCOUNTERED, THE CONTRACTOR SHALL REMOVE THE EXISTING COLOR CODING SCHEME AND REPLACE IT WITH THE COLOR CODING STANDARD. IN THE ABSENCE OF AN EXISTING COLOR CODING AND TAGGING SCHEME, OR WHEN INSTALLING PROPOSED COAXIAL CABLES, THIS GUIDELINE SHALL BE IMPLEMENTED AT THAT SITE REGARDLESS OF TECHNOLOGY.
5. ALL COLOR CODE TAPE SHALL BE 3M-35 AND SHALL BE INSTALLED USING A MINIMUM OF (3) THREE WRAPS OF TAPE AND SHALL BE NEATLY TRIMMED AND SMOOTHED OUT SO AS TO AVOID UNRAVELING.
6. ALL COLOR BANDS INSTALLED AT THE TOP OF THE TOWER SHALL BE A MINIMUM OF 3" WIDE, AND SHALL HAVE A MINIMUM OF 3/4" OF SPACE BETWEEN EACH COLOR.
7. ALL COLOR CODES SHALL BE INSTALLED SO AS TO ALIGN NEATLY WITH ONE ANOTHER FROM SIDE-TO-SIDE.
8. IF EXISTING CABLES AT THE SITE ALREADY HAVE A COLOR CODING SCHEME AND THEY ARE NOT INTENDED TO BE REUSED OR SHARED WITH THE NEW TECHNOLOGY, THE EXISTING COLOR CODING SCHEME SHALL REMAIN UNTOUCHED.
