Library Staff Display Policy – DRAFT

The Library will strive to include a wide spectrum of opinions and viewpoints in library-initiated displays and exhibits, as well as offer displays and exhibits that appeal to a range of ages, interests, and information needs. Library-initiated displays and exhibits should not exclude topics, books, media, and other resources solely because they may be considered to be controversial. Acceptance of a display or exhibit topic by the Library does not constitute an endorsement by the Waupun Public Library of the content of the display or exhibit, or of the views expressed in the materials on display.

Criteria

Library staff use the following criteria in making decisions about display topics, materials, and accompanying resources:

- Community needs and interest
- Availability of display space
- Historical, cultural, or educational significance
- Connection to other community or national programs, exhibitions, or events
- Relation to library collections, resources, exhibits, and programs

In addition, the Library draws upon other community resources in developing displays and exhibits, and may partner with other community agencies, organizations, educational institutions, or individuals to develop and present co-sponsored displays and exhibits.

Intellectual Freedom and Censorship

The choice of library materials by patrons is an individual matter. The library recognizes that some materials may be controversial or offensive to an individual, but maintains that individuals can apply their values only to themselves. The selection of library materials is predicated on the customer's right of access to information and freedom from censorship. Selections will not be made on the basis of anticipated approval or disapproval, but on the merits of the material itself.

Selection of materials for a display will not be inhibited by the possibility that materials may inadvertently come into the possession of or be seen by minors. No one can exercise censorship to restrict access to library materials by others. It is the parents' or guardians' responsibility to determine which library materials are appropriate for their children.

The Waupun Public Library supports intellectual freedom and endorses the American Library Association (ALA) Freedom to Read Statement, Freedom to View Statement, the Library Bill of Rights and all relevant interpretations. The library will not remove or censor books or materials based on their content, but rather will provide access to a broad range of materials that reflect the continuously growing diversity of the community.

Location of Displays

Displays will be located in areas of the library that are accessible to all patrons, regardless of their age or beliefs. Specific displays will be located in areas that are intended for specific age groups, such as the children's section or the adult section, dependent upon the collections the materials being used are located. There may be instances where mixed-age content is placed in displays throughout the library.

Procedures for the Questioning of Library Displays by Patrons

In the event a patron has questions or concerns regarding a library display the following procedures should be used:

- 1. The staff member receiving the concern should make every attempt to satisfy the patron's concern by clarifying the established display policies on an informal basis.
- 2. If the patron is satisfied, the staff member should notify the Assistant Director and Director with a brief statement as to the date, circumstances, and the result of the patron's concern.
- 3. If the patron is not satisfied, staff should contact the Assistant Director or Director.
- 4. If the patron is not satisfied with the answer from the Assistant Director or Director, they should be invited to attend a Library Board meeting to discuss the concern.

Waupun Public Library
