# **Budget Message**

Honorable Mayor and City Council

I am pleased to submit the tenth budget for the city for the Fiscal Year 2026 (October 1, 2025 – September 30, 2026). The city grew by some four hundred forty single family homes from October 1<sup>st</sup>, 2024, until July 31, 2025. The commercial component continues to grow, however, as previously explained there is at least a year lag before the valuation impacts the tax base. As development continues, we will review and correct sections of the Land Development Regulations, where the regulatory theory conflicts with reality. The continued teamwork between the City Council, City Manager, City Attorney, City Planner, City Engineer, City Clerk, Building Department, administrative staff, Seminole Improvement District, and the developers' representatives will allow us to continue to move forward and respond to market conditions.

According to the Palm Beach County Property Appraiser the City of Westlake's taxable value has increased twenty-six percent over last year's value. The growth in home sales and commercial development coming online accounted for this increase. The sale of single-family homes and commercial development continue to be strong.

The *proposed millage rate for the FY2026 is 4.6 mils*. This rate is projected to generate approximately \$7,525,730 in ad-valorem taxes to the City based on the taxable value as of January 1<sup>st</sup> as provided by Palm Beach County Property Appraiser. The total proposed FY2026 budget for the General Fund is \$8,942,100, which is approximately a 16.84% increase over the budget for the current year. The budget difference between the property tax revenue received and budgeted expenditures is made up of several components, including interest, licenses, permits & fees, other taxes.

The proposed millage rate of 4.6 mills is a 6.31% increase over the rolled-back rate. Generating revenue *based on the rolled-back rate* would not be practical as the city must be able to provide the administrative infrastructure to operate and meet the goals and objectives and projects of the council. The largest impact on the taxes the individual pays is the assessed value established by the County Property Appraiser.

The city funds a reserve for the first quarter operating expenses. This is standard for municipal budgets to provide the cash needed to pay expenditures incurred before current year tax disbursements are received from the County. In addition, the budget provides for reserves for capital improvements and grant matching funds to construct facilities (parks, municipal buildings etc.). It is important to remember that a portion of land within the City limits is still assessed as agricultural use by the County Property Appraiser. The assessed value for agricultural land use is a lower and therefore generates lower tax revenue. As the City continues to develop residential and commercial properties the tax base will continue to grow.

There are approximately fifty-five individuals involved in the overall operation and administration of the city. These individuals are part of the contracted services provided

1

by the various entities. These individuals are a combination of dedicated full-time personnel and those that work a percentage of their time on City business. This is part of the overall vision of the city to remain a government-light operation. This allows for an efficient effective government providing a high level of service to the residents.

Respectfully submitted,

Kennett of Carrel

Kenneth Cassel
