# **Budget Message**

Honorable Mayor and City Council

I am pleased to submit the Fiscal Year 2023 budget message for the City of Westlake. The city continues to grow at a rapid pace. The commercial development is beginning to come online. Although there is minimal positive impact on revenue this year, we expect a more significant impact on the Fiscal Year 2024 budget. As development continues, we are reviewing and correcting sections of the Land Development Regulations that have conflicts from theory to applicability. The continued teamwork between the City Council, City Manager, City Attorney, City Planner, City Engineer, City Clerk, Building Department, administrative staff, Seminole Improvement District, and the developers' representatives allows us to move forward and respond to market conditions.

According to the Palm Beach County Property Appraiser the City of Westlake's taxable value has increased seventy-four-point eight four percent (74.84%) over last year. The growth in home construction and sales continues to be strong.

The *adopted tentative millage rate for FY 2023 is 5.100 mils*. This rate is projected to generate approximately \$3,126,601 in ad-valorem taxes to the City based on the taxable value as of January 1<sup>st</sup> as provided by Palm Beach County Property Appraiser. The total proposed budget for the General Fund in FY2023 is \$4,943,300, which is a 33.84% increase over the current year budget. The difference between the taxes received and the budget is made up of several components, including interest, licenses, permits & fees, other taxes and deficit funding from the primary developer as needed.

The adopted tentative millage rate is a 30.14% increase over the rolled-back rate. Generating revenue based on the rolled-back rate would not be practical as the city must be able to provide the administrative infrastructure to operate. With a growing city the administrative expenses occur before the tax revenue is received and therefore, it appears to be a tax increase. The largest impact on the taxes is the assessed value established by the County Property Appraiser.

Due to the lag time of taxable values and the budget cycle, this budget is again dependent on deficit funding from the primary developer for the final year. One of the areas that has increased is the reserve and contingency funds. This increase is necessary to have the appropriate level of funds for the first quarter operating reserves and contingency balances needed for Fiscal Year 2024. It is still important to remember that a portion of land within the City limits is assessed based on agricultural use by the property assessor. The agricultural land use assessed value is a lower taxable value therefore generates lower tax revenues. As the City continues to develop residential and commercial properties the tax base will continue to increase. This increase in taxable value reduces the dependency on deficit funding

There are approximately fifty-five individuals involved in the overall operation and administration of the city. These individuals are part of the contracted services provided

1

by the various entities. These individuals are a combination of dedicated full-time personnel and those that work a percentage of their time on City business. This is part of the overall vision of the city to remain a government-light operation. This allows for an efficient effective government providing a high level of service to the residents.

Respectfully submitted,

Kunut I Carrel

Kenneth Cassel
