PLANNING COMMISSION MEETING
LOCATION: TOWNSHIP HALL, 7525 HIGHLAND, WHITE LAKE, MI 48383
THURSDAY, SEPTEMBER 02, 2021 – 7:00 PM

White Lake Township | 7525 Highland Rd | White Lake, MI 48383 | Phone: (248) 698-3300 | www.whitelaketwp.com

AGENDA

1. **CALL TO ORDER**
2. **ROLL CALL**
3. **PLEDGE OF ALLEGIANCE**
4. **APPROVAL OF AGENDA**
5. **APPROVAL OF MINUTES**
A. August 19th, 2021
6. **CALL TO THE PUBLIC (FOR ITEMS NOT ON THE AGENDA)**
7. **PUBLIC HEARING**
A. 2022-2027 Capital Improvement Plan
8. **CONTINUING BUSINESS**
9. **NEW BUSINESS**
10. **LIAISON'S REPORT**
11. **PLANNING CONSULTANT'S REPORT**
12. **DIRECTOR'S REPORT**
13. **OTHER BUSINESS**
14. **COMMUNICATIONS**
15. **NEXT MEETING DATE:**
A. September 16th, 2021 & October 7th, 2021
16. **ADJOURNMENT**

**WHITE LAKE TOWNSHIP
PLANNING COMMISSION**
7525 Highland Road
White Lake, MI 48383
AUGUST 19, 2021 @ 7:00 p.m.
Electronic Meeting

Chairperson Anderson called the meeting to order at 7:00 p.m. and led the Pledge of Allegiance. Roll was called.

ROLL CALL: Steve Anderson, White Lake, MI
Peter Meagher, White Lake, MI
Rhonda Grubb, White Lake, MI
Merrie Carlock, White Lake, MI
Debbie Dehart, White Lake, MI
Joe Seward, White Lake, MI
Mark Fine, White Lake, MI

Absent: Matt Slicker
Scott Ruggles

Also Present: Sean O'Neil, Planning Director
Justin Quagliata, Staff Planner
Sherri Barber, Recording Secretary

Visitors: Kathleen Jackson, McKenna
Michael Leuffgen, DLZ

Approval of Agenda

Commissioner Meagher moved to approve the agenda as presented. Commissioner Seward supported and the MOTION CARRIED with a roll call vote: (Meagher – yes; Anderson – yes; Grubb – yes; Seward – yes; Carlock – yes; Dehart – yes; Fine -- yes). 7 yes votes.

Approval of Minutes

- a. August 5, 2021

Commissioner Meagher moved to approve the minutes of August 5, 2021 as presented. Commissioner Grubb supported and the MOTION CARRIED with a voice vote: 7 yes votes.

Call to the Public (for items not on the agenda)

No callers were waiting to speak at the Call to the Public.

Public Hearing:

None.

Continuing Business

a)

Trailside Meadow

Location: Located on the south side of Elizabeth Lake Road, Consisting of approximately 73 acres. Identified as parcel numbers 12-25-251-001 and 12-25-201-004. Zoned as (PD) Planned Development.

Request: **1) Amended Final Site Plan Approval**

Applicant: M/I Homes of Michigan, LLC
1668 S. Telegraph Road, Suite 200
Bloomfield Hills, MI 48302

Planning Director O'Neil noted that they are just changing the type of ownership and discussed the type of motion that should be included. MI Homes has interest in their active adult houses but potential owners don't really want them to be condos. Kathleen Jackson from McKenna discussed her letter and a minor revision. The landscape plan is different from what was originally received and MI Homes needs to clarify this. Commissioner Carlock asked if they are site condos? Yes, they are. Brandon Guest from MI Homes discussed their reasoning for the changes. It's mainly an ownership type issue. Commissioner Dehart asked if they have sold any of the Active Adult units, and they have sold some dirt lots. She asked if they will continue to be ranches? They will have two stories mixed in. How does it affect the condo docs for the prior owners. Those condos would stay as they are today, it would affect the future units. Phase 1 will remain the same. They will meet the original landscape requirements. Mr. Leuffgen noted that from an engineering standpoint there really aren't any changes.

Commissioner Meagher moved to recommend that the Planning Commission approve the Amended Final Site Plan for Trailside Meadow located on the south side of Elizabeth Lake Road and consisting of approximately 73 acres and identified as parcel numbers 12-25-251-001 and 12-25-201-004. Zoned as (PD) Planned Development. Subject to all staff and consultant review comments, and final landscape plan review and approval from McKenna. Commissioner Seward supported and the MOTION CARRIED with a roll call vote: (Meagher – yes; Anderson – yes; Grubb – yes; Seward – yes; Carlock – yes; Dehart – yes; Fine -- yes). 7 yes votes.

Commissioner Meagher moved to recommend to the Township Board the approval of the revised Planning Development Agreement for Trailside Meadow (located on the south side of Elizabeth Lake Road and consisting of approximately 73 acres and identified as parcel numbers 12-25-251-001 and 12-25-201-004, it is zoned as (PD) Planned Development and will consist of the revised exhibits. Commissioner Anderson supported and the MOTION CARRIED with a roll call vote: (Meagher – yes; Anderson – yes; Grubb – yes; Seward – yes; Carlock – yes; Dehart – yes; Fine -- yes). 7 yes votes.

Old Business:

No old business.

New Business

PD Waiver for Vacant Parcel 12-36-176-002

Planning Director O’Neil noted that there was a memo in your packet with what is being requested. It’s 8.37 acres and zoned LB. Comfort Care is interested in building an assisted living facility. This is surrounded by other residential uses. Douglas Boehm was in attendance from Comfort Care and they are an assisted living and memory care company out of Saginaw. They have developed 11 senior living developments in Michigan. They are just asking for a waiver of the 10 acre minimum down to 8.37 acres. He presented a video showing one of their other facilities. This is proposed as a one story building. They offer occupational therapy for short term stays. Commissioner Carlock asked about the ring road, it is a Fire Department requirement. This is a taxable, for profit business. They did a study and there is a need in White Lake Township. Some units have a kitchenette. Planning Director O’Neil noted that traffic is a big deal on Union Lake Road and it’s important to show any projects that will have a lesser impact on traffic. Planning Director O’Neil mentioned that the RCOC and White Lake Township may be requiring a passing lane. He wanted to clarify that the 8.77 acres needs to be at 10 acres. This doesn’t set any precedent, does it? No action you take tonight can impact the site plan. Each site stands on it’s own. The PD project would not have to go before the ZBA. Planning Director O’Neil said that the PD waiver will run with the applicant and it’s for this specific project.

Commissioner Seward moved to recommend to the Township Board the approval of the waiver of the 10 acre requirement under the PD Development zoning designation. This is a unique project and parcel and they are providing a benefit to White Lake Township, and the traffic will likely be less. Commissioner Grubb supported and the MOTION CARRIED with a roll call vote: (Meagher – yes; Anderson – yes; Grubb – yes; Seward – yes; Carlock – yes; Dehart – yes; Fine -- yes). 7 yes votes.

Other Business:

A. Review and Discussion of Draft 2022-2027 Capital Improvement Plans (CIP)

Staff Planner Quagliata presented the draft CIP. The public hearing will be at the September 2nd Planning Commission meeting. This plan is required. Most of the updates were changing dates and dollar amounts. Next week the sewer section will be updated. The 2020 census data has not been fully released yet for the report. The Triangle Trail is a success for 2021 and is currently underway with DLZ. They have received a \$50,000 grant from the Ralph Wilson Foundation for the trail. A new project that was added is a generator for the Township. The current generator for the Township is undersized. The new one that is purchased will go with us to the Civic Center. For the CIP, each project gets rated. Planning Director O’Neil said they usually get a binder for the CIP and Staff Planner Quagliata noted that if anyone wants one we’ll get them ready for pickup. Planning Director O’Neil appreciates all of Staff Planner Quagliata’s hard work on this. Commissioner Carlock noted that this is one of the better ones that she sees around the State.

B. Conceptual Plan Discussion for Elizabeth Lake Retail

They are looking for feedback and direction tonight, again. There is no action being taken.

Richard Shapack stated that they have interest from Starbucks, Chipotle and Panera. They won't commit until we have the site plan approved. You won't see the drive-throughs from M-59 or Elizabeth Lake Road, they will be completely screened. Commissioner Meagher asked if you still have residential units there? There are, and whether they are 2 or 3 stories is to be determined, it is currently proposed at 54 units. Commissioner Anderson noted that you mentioned three major restaurants. There was a piece of land that was looked at by Panera west of this. They communicated that they couldn't put it in because the Waterford Panera was too close. One of the developers had a letter of intent about 6 months ago. Commissioner Grubb feels that three drive-throughs is too much for this. Commissioner Dehart asked if they will have indoor dining? Yes, Starbucks may not have. There will be outdoor dining. Commissioner Anderson feels three drive-throughs is excessive but they are demanding it now. Commissioner Dehart noted that three very good restaurants could help support the development. Commissioner Seward stated that he doesn't like the three drive-throughs. We can't tie site plan approval to the three possible restaurants. Staff Planner Quagliata noted that you can exclude some undesirable uses with the development agreement. Commissioner Fine likes that they have taken our comments into account. He's for what they are doing. Commissioner Carlock would like to see this run by the Civic Center group. River Caddis is opening to meeting. Planning Director O'Neil noted that we would like the parking reduced. We would like to have awnings, etc. Commissioner Carlock stated that we are concerned why you need 85 additional parking spots. Commissioner Carlock would like to see some bicycle parking. Planning Director O'Neil would like to see 15 spaces short instead of 85 over. Kathleen Jackson noted that when you add up the added parking spots, it's a lot more asphalt and impervious spaces that could be landscape. She is a little concerned that there isn't enough landscaping. Two weeks from now isn't possible for another meeting on this, we'll need updated plans and time to review them. We'll have to decide if we need another public hearing.

Liaison's Report

Commissioner Grubb reported that Parks and Recreation didn't meet for an August meeting. The Stanley Park picnic tables are in.

Commissioner Dehart noted that she wasn't in attendance at the special meeting but the last meeting was over 2 hours for one case. The next meeting will be a regular meeting with 4 cases on the agenda.

Commissioner Carlock would like to hear about the tornado. Planning Director O'Neil stated that it was very interesting. We are thankful there weren't major injuries. It was interesting to work with Oakland County and the Fire Department for emergency management and our Building Official, Nick Spencer, handled everything very well.

Planning Consultant's Report

No report.

Director's Report:

Planning Director O'Neil reported that the redevelopment of Sonic was approved. They found a way to locate the loading zone on the site near the bail out lane. The Township had a resolution for remote meetings and we'll be able to continue through the end of this calendar year. Commissioner Carlock

noted that the Township did a great job. The residents had water, ice, oxygen and all the things you would need in a major emergency. There was some discussion about the Civic Center Development and some monies that were provided for the roads.

Mr. Leuffgen reported that they are waiting on the Road Commission for Oakland County to finish the geometrics so we know where they will leave off for the Triangle Trail. They promised it for mid August.

Commissioner Anderson asked Planning Director O'Neil to remind the Planning Commission that the September meeting is in person.

Staff Planner Quagliata wanted to thank Kathleen Jackson for their food and other donations for the Township during the tornado emergency.

Other Business:

None.

Communications:

The September 2nd meeting will be in person.

Next Meeting Dates: September 2, 2021
September 16, 2021

Adjournment:

Commissioner Meagher moved to adjourn the meeting at 9:20 p.m. Commissioner Dehart supported and the MOTION CARRIED with a roll call vote: (Meagher – yes; Anderson – yes; Grubb – yes; Seward – yes; Carlock – yes; Dehart – yes; Fine -- yes). 7 yes votes.

Resolution of Adoption

White Lake
Oakland County, Michigan

Capital Improvement Plan 2022-2027
Resolution #21-029

At a regular meeting of the Township Board of the Charter Township of White Lake, County of Oakland, State of Michigan, held electronically via Zoom in accordance with the Open Meetings Act, Public Act 267 of 1976, as amended, on the 25th day of August, 2021 at 7:00 o'clock p.m. with those present and absent being,

Present: _____

Absent: _____

Motion by _____, Supported by _____, that the White Lake Township Board of Trustees accept the Capital Improvement Plan for the years 2022-2027. The White Lake Township Board has determined the following:

WHEREAS, the Michigan Planning Enabling Act, Act 33 of 2008, requires the White Lake Township Planning Commission to annually prepare a Capital Improvement Plan for the benefit of the health, safety, and welfare of the community as those criteria relate to the physical development of the Charter Township of White Lake; and

WHEREAS, the Township’s professional engineering consultant, planning consultant, and Planning Director have consulted with the Township’s professional staff who carry on the business of planning and providing for the present and future needs of the citizens of the Charter Township of White Lake; and

WHEREAS, the Capital Improvement Plan is intended to consider the present and future needs and goals of the Charter Township of White Lake, as identified by the public, department heads, the Township Board of Trustees, and the Township Planning Commission, in consideration of existing projects and plans as well as anticipated resources; and

WHEREAS, the Capital Improvement Plan is a flexible document, intended to be reevaluated and updated on an annual basis to project into the six (6) succeeding years, and further amended as necessary to address the policies and philosophies of relevant Township Boards, Planning Commissions, and other stakeholders; and

Resolution of Adoption, continued

WHEREAS, the Capital Improvement Plan is a guide and forum to aid the Township Supervisor and Township Board of Trustees in making decisions regarding the physical development and infrastructure maintenance of the Township and determining what, if any, resources can and should be available to carry out the Township Board's policies and budgetary decisions; and

WHEREAS, the draft of the Capital Improvement Plan has been available for public review via the Township website and copies made available at the office of the Township Planning Department, and has been an agenda item for discussion and review by the Planning Commission and Township Board at several public meetings, and has been the subject of a duly-noticed Public Hearing held before the White Lake Township Planning Commission on September 2, 2021 and will be reviewed, revised, and updated by the Planning Commission on an annual basis; and

WHEREAS, the Capital Improvement Projects included within the Capital Improvement Plan have been evaluated utilizing a point-system of variables that included, among other things, whether a Capital Improvement Project has already begun, whether funds have been committed to the Project, the sources of funds committed to a Project, whether the Project is required per a legal obligation, or whether the projects is part of a Township-adopted policy, plan, or program; and

WHEREAS, the White Lake Township Planning Commission on September 2, 2021 moved to adopt the 2022-2027 Capital Improvement Plan.

NOW THEREFORE BE IT RESOLVED, that the Capital Improvement Plan presented during the Public Hearing on September 2, 2021 and revised per the public comments received during that Public Hearing, and adopted by the White Lake Township Planning Commission on September 2, 2021, IS ACCEPTED BY THE WHITE LAKE TOWNSHIP BOARD OF TRUSTEES; and

BE IT FURTHER RESOLVED, that this Capital Improvement Plan should be published and attested to according to State law.

Yeas:

Nays:

RESOLUTION DECLARED ADOPTED.

1. Overview

The 2022-2027 White Lake Township Capital Improvement Plan (CIP) will serve as a tool to assist White Lake Township in turning long-range policy planning into real improvements on the ground. A six-year capital improvement plan and an annual update of that plan is now a requirement for White Lake Township under the Michigan Planning Enabling Act of 2008. The following report identifies the major capital improvements needed and/or planned for the community, the timeframe for implementation of those improvements, and the budget and revenue sources that will make those improvements a reality. Capital improvements cover multiple departments within White Lake Township, and include new Township facilities, water and sewer extensions, fire protection vehicles and equipment, police equipment, parks and recreation facilities, non-motorized pathways, and professional services.

The following subsections within this first chapter include an introduction to capital improvement planning, the community of White Lake Township, and the capital improvement planning process. In subsequent chapters, this report summarizes existing facilities (Chapter 2), provides detailed components for all major Township departments, facilities, and systems (Chapter 3), and presents the projected cost and revenue sources for all covered improvements (Chapter 4).

1a. Overview - CIP Overview

What is a Capital Improvement Plan (CIP)?

A Capital Improvement Plan is a six-year schedule of public physical improvements which identifies the needs for major public infrastructure improvements, and the sources of funding to make those improvements. It provides a schedule of expenditures for constructing, maintaining, upgrading, and/or replacing a community's physical inventory. The CIP, therefore, is a tool to assess the long-term capital project requirements (the "big jobs") of White Lake Township. Since capital improvement projects are spread across multiple community needs (fire protection, police, water and sewer, parks and recreation, municipal administration, etc.), the CIP prioritizes these projects across the entire community and over time, providing an "apples-to-apples" comparison of the community's various needs and wants.

What are Capital Improvement Projects?

Capital improvement projects are major and infrequent expenditures, such as the construction of a new facility, a major rehabilitation or repair of an existing facility, or the purchase of major equipment. Capital improvement projects are non-recurring expenditures that tend to be large both in physical size and in cost, and have a long-term usefulness (10 years or more).

Examples of capital improvement projects can include:

- Construction of a new township hall
- Construction of a new fire station
- Extension of a water/sewer line
- Purchase of a new fire truck
- Major rehabilitation of a township's community/senior center
- Creation of a new township park

Examples of expenditures which would not usually constitute a capital improvement project include:

- Purchase of new office furniture
- Purchase of small equipment (lawn mowers, copiers, individual computers, etc.)
- Recurring maintenance of existing facilities
- Minor repairs of existing buildings and equipment
- Minor improvements to existing buildings (carpet, painting, etc.)

The term “major expenditure” is relative; what is “major” to one community might be “minor” to another. The City of Ann Arbor, for example, sets a minimum threshold of \$100,000 for projects to be included in the City’s CIP, while the City of Rochester Hills sets a minimum of \$25,000. White Lake Township’s policy for determining a Capital Improvement is defined in the following section.

What is White Lake Township’s Capital Improvement Policy?

A capital improvement project is a major, nonrecurring expenditure that meets one of more of the following criteria:

- Any acquisition of land for a public purpose which costs \$50,000 or more.
- Any construction of a new public facility (Township building, water/sewer lines, pathways), or any addition to an existing public facility, the cost of which equals \$50,000 or more and has a useful life of three or more years.
- A nonrecurring rehabilitation (not to include annual/recurring maintenance) of a building, its grounds, a facility, or equipment, the cost of said rehabilitation being \$50,000 or more with a useful life of three or more years.
- Purchase of major equipment which, individually or in total, cost \$50,000 or more with a useful life of three or more years.
- Planning, feasibility, engineering, or design studies related to an individual capital improvement project, or program implemented through individual capital improvement projects, with a cost of \$50,000 or more and a useful life of three or more years.

Why a CIP for White Lake Township now?

The Michigan Planning Enabling Act of 2008 requires a Capital Improvement Program for any Michigan township which owns and/or operates a water supply or sewage disposal system. Since White Lake Township owns and manages both a public water and sanitary sewer system, adopting and annually updating a Capital Improvement Plan is now a requirement per State law.

What are the benefits of preparing a CIP?

The CIP is more than just a State requirement; it is an essential planning tool in addition to a statement of budgetary policy. It informs the taxpayers of White Lake Township how the Township plans to prioritize, schedule, and coordinate capital improvement projects over the next six years. The benefits of creating and annually updating the CIP include:

- Prudent use of taxpayer dollars;
- Focusing the Township expenditures on the needs of the community;
- Prioritizing projects across the needs of the community;
- Generating community support by inviting public input;
- Promoting economic development;
- Improving the Township’s eligibility for State and Federal grants;

- Providing an implementation tool for the goals and objectives of the Township Master Plan;
- Transparency in identification of high-priority projects;
- Coordination/cost-sharing between projects.

What is the role of the Township Planning Commission in the CIP process?

The Capital Improvement Program is a dynamic planning document, intended to serve as a tool to implement the White Lake Township Master Plan. The Master Plan should correspondingly include capital improvement projects as well as guide long-term capital planning. The White Lake Township Planning Commission is uniquely qualified to manage the development and annual update of the Township's CIP, based on their role in creating and updating the Township Master Plan. The Planning Commission's role will ensure that public works projects are consistent with the land uses identified within the Master Plan. By making a recommendation of approval for the CIP to the Township Board, the Planning Commission agrees that the projects outlined within it reasonably address the Township's capital improvement needs.

The CIP is an essential link between planning for capital improvement projects and budgeting for them. Once approved by the Township Board, the CIP can be used to develop the capital project portion of the Township's budget. Those projects included in the CIP's first year (2022) potentially form the basis for the upcoming year's capital project budget. As the CIP is annually updated, a continuous relationship will be maintained between the CIP and the Township's annual budget. The annual update to the CIP will occur in advance of the preparation of the Township's budget.

1b. Overview - White Lake Township Overview

White Lake Township, Oakland County's "Four Seasons Playground," prides itself as a community which continues to promote economic growth, sustainable development, and a strong sense of place. White Lake's character as a premier residential community, with ample recreational opportunities and superior public and private schools, sets it apart and establishes the Township's unique identity.

The Township continues to promote sound fiscal policy while maintaining appropriate levels of service to meet the needs of its growing population. Public utilities infrastructure, police, fire and emergency services, parks, recreation and senior services, as well as planning, building inspection and administrative services are all designed to provide residents with the full-service amenities of a modern municipality in a cost effective, fiscally responsible and sustainable manner.

Principal Land Uses

While the commercial base of White Lake Township continues to grow, the principal land use within the Township remains single-family residential. Based on existing land use data from Oakland County Economic Development and Community Affairs, 35.2% of the Township's nearly 24,000 acres is developed as single family residential. The second largest land use in the Township (in terms of land area) is recreation/open space, comprised of two State Recreation Areas (Pontiac Lake and Highland), a regional Metropark (HCMA's Indian Springs), and an Oakland County-owned golf course (White Lake Oaks). Combined, the recreation/open space land uses within the Township comprise over 25% of the land area (6,000 acres). 11% of land within the Township (approx. 3,000 acres) was classified as vacant in 2018. The Township's commercial, industrial, and office uses comprised 2.5% of the land area in 2018. The majority of the commercial, industrial, and office uses in White Lake Township are located along the M-59 corridor, although some are scattered elsewhere throughout the Township, mostly in the southeast quadrant. There is also a small industrial concentration in the Township's northeast corner. The 21 lakes within White Lake Township comprise almost 11% of its total land area. Figure 1-1 displays the 2018 Existing Land Use Map.

White Lake Charter Township

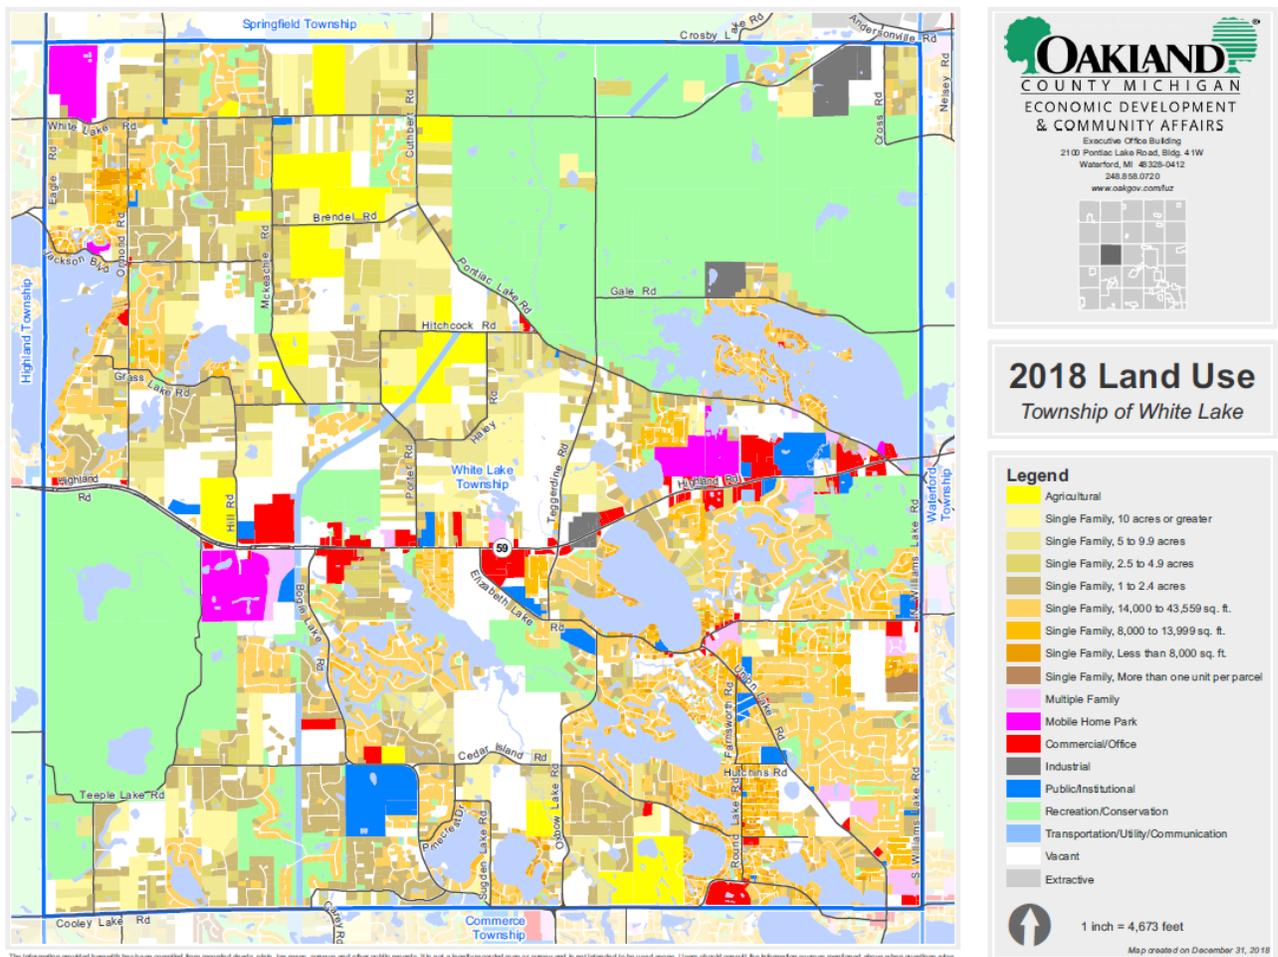

Population

As of the 2010 Census, the population of White Lake Township was 30,019, a 6.4% increase from the 2000 Census (28,219). Population projections created by the Southeast Michigan Council of Governments (SEMCOG) estimate that the population of White Lake Township will only increase slightly over the next twenty years with a forecasted population of 32,236 in 2040. This projection is subject to change based on social and economic factors.

Employment

SEMCOG Community Data for White Lake Township shows the two highest employment-sectors within the Township to be Retail Trade (approximately 21% of total employment) and Information and Financial Activities (approx. 15%).

FIGURE 1-1. EXISTING LAND USE, 2018

1c. Overview - CIP Process Overview

Background

The development and the adoption of a CIP is driven by a statutory requirement at the State level. The State of Michigan has set forth the requirement for a CIP under the Michigan Planning Enabling Act, Act 33 of 2008. This reporting requirement for townships was effective September 1, 2008. The following excerpt from Act 33 sets forth the requirement of a township to adopt a CIP:

“(2) Any township may prepare and adopt a capital improvement program. However, subsection (1) is only mandatory for a township if the township, alone or jointly with 1 or more other local units of government, owns or operates a water supply or sewage disposal system.”

The contents of the CIP are set forth under the Government Accounting Standards Board Statement 34 that basically requires the CIP to report on the value of their infrastructure. GASB 34 requires state and local governments to begin reporting all financial transactions, including the value of their infrastructure assets, roads, bridges, water and sewer facilities, and dams, in their annual financial reports on an accrual accounting basis.

The Charter Township of White Lake is not a road agency under Public Act 51 of the laws of the State of Michigan. Accordingly, public road and bridge projects are not reported in this CIP. **All other infrastructure components with construction costs in excess of \$50,000 per year are reported in this CIP.**

The following sections outline the Program Areas of the White Lake Township CIP:

1. Data Collection Process
2. Data Compilation Process
3. CIP Adoption Process

PROGRAM AREAS

The components of the CIP are compiled and reported by Program Areas. The following table (Figure 1-2) displays the Program Areas used in this CIP (each assigned with a color). These program areas represent the stakeholders in the CIP.

FIGURE 1-2. CIP PROGRAM AREAS	
Label	Definition / Description
BP / PK	Bike paths, trail ways, and park facilities/services
FA	Township-owned buildings and facilities (offices, storage buildings, museums, etc.)
FD	Fire protection / EMS facilities and equipment
IS	Internal support services (IT, GIS, fleet vehicles, communications, etc.)
PD	Police Department facilities and equipment
SS	Sanitary sewerage disposal system
WS	Water supply system

1. Data Collection

Each of the stakeholders outlined above has either a master plan or schedule that defines the needs and resource level within their respective area of responsibility. This information is in varied formats and cannot be readily compiled without a significant amount of interpretation. To resolve this interface situation, standard forms were created that allow the stakeholders to define their projects and resource allocation levels. The standard forms used for data collection are found in the Appendix. At a meeting with the stakeholders, the CIP process and the forms were explained in detail along with a request for the forms to be filled out based on what information is currently available. The information generated from these forms has been systematically compiled as the core of the CIP. A definition of the forms is provided as follows:

- **Project Application Form** - Consists of project descriptions, schedules, necessity, and possible sources of funding. The information provides an understanding of the overall scope of each project and how it is valued within its program area and within the Township. While stakeholders may be aware of major projects further out on the horizon, only those planned for within the six-year window of the 2022-2027 CIP were included.
- **Project Cost Detail Form** - Consists of a matrix of six (6) budget years across the top of the form and a listing of costing components along the side of the form. The form is split into two (2) parts; the upper half is the capital cost for the project and the lower half is the cost of operations or maintenance for that project if applicable. Recognition of the operations and maintenance costs of a project is a valuable tool in forecasting future needs for resource allocation. Investment in a new facility is only worthwhile if there are funds available to operate and maintain it.

- **Project Rating Form** - Used to rate both the importance and impact of a project within its program area and within the Township (an “apples-to-apples” comparison). The rating number is not an absolute in itself but is important in distinguishing between projects that are similar in scope. The ratings are weighted with emphasis given to those projects that are mandated by law, by agreement, or because they are a matter affecting health safety and welfare.

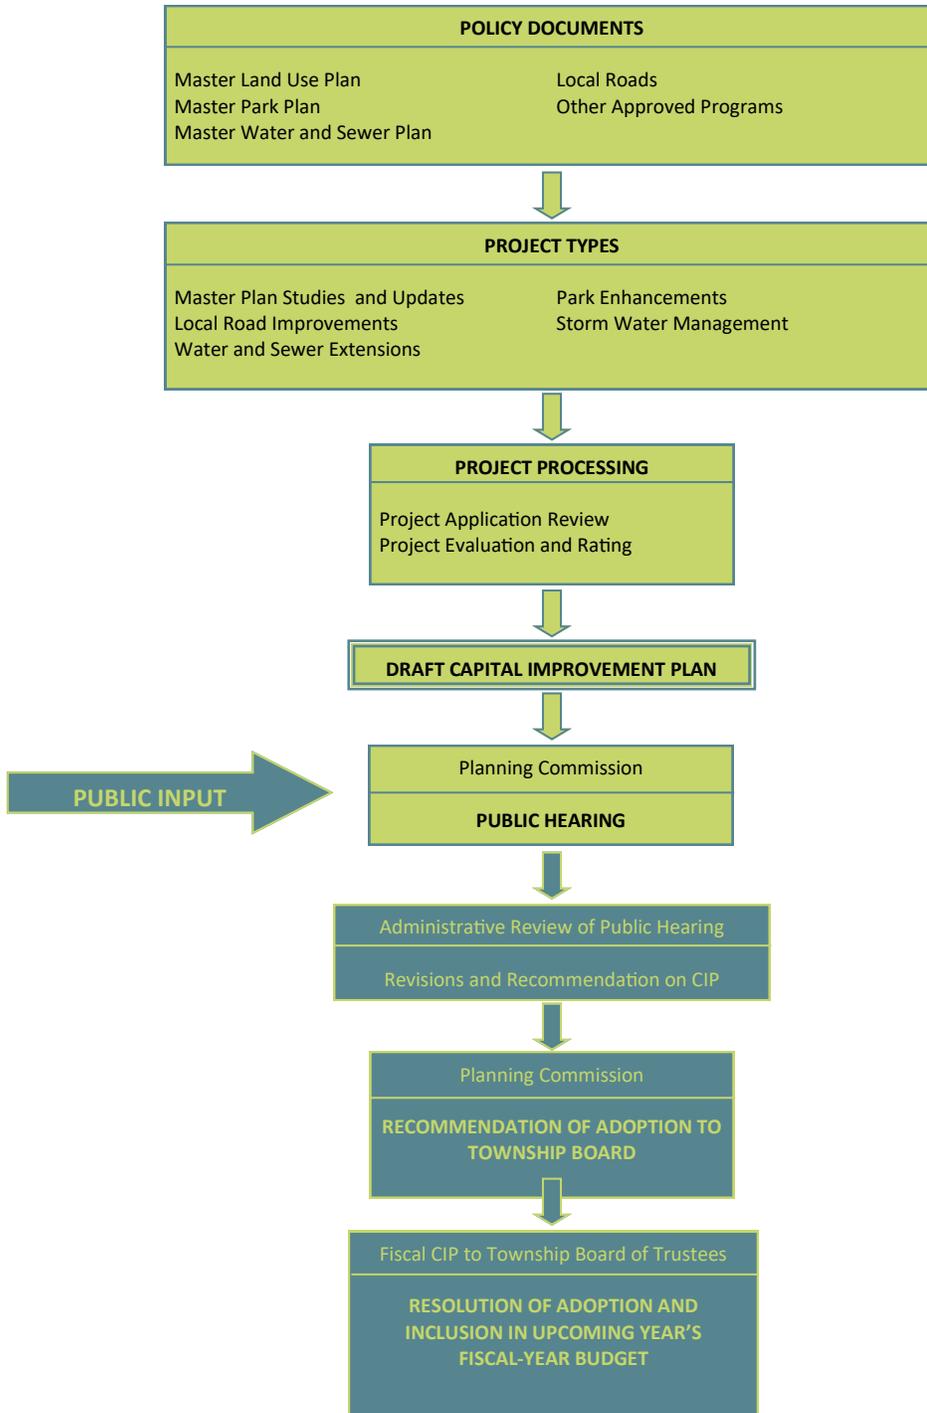

2. Data Compilation

The information received from the stakeholders has been compiled into a Project Summary Worksheet. This worksheet contains all of the projects in the CIP over six (6) budget years with a cost summary of each budget year by program area and for the entire CIP. Included with the worksheet is the listing of possible funding sources and an estimate of the Township’s share for each project. The project summary worksheet can be found in the Appendix of this CIP.

3. CIP Adoption Process

The adoption process involves a public hearing to solicit citizen input. The CIP will then be modified (if necessary), approved by the Township Planning Commission (via a formal recommendation for approval to the Township Board), and forwarded to the Township Board for adoption. Adoption of the CIP by the Township’s Board of Trustees does not constitute an authorization to commit resources to any project. This approval is recognition of a plan for projects within the community that may move toward implementation in the future. The projects included within Year 1 of the Capital Improvement Plan potentially form the basis for the upcoming year’s capital projects budget. An outline of the process is displayed in Figure 1-3 on the following page.

FIGURE 1-3. CIP ADOPTION PROCESS

2. Existing Capital Facilities

In developing a Capital Improvements Plan, communities often find it essential to develop an inventory of their existing capital facilities. Before a community develops a list of “What we need,” it is important to first look at “What we have.” As stated in White Lake Township’s Master Plan, “A municipality’s public facilities are an important part of community life and are directly related to important issues such as quality of life and protection of the public health, safety, and welfare.” The following is a summary of White Lake Township’s major capital facilities and their current condition (where applicable), as determined by the directors of the respective departments. The location of existing Township facilities is noted on the Existing Facilities Map (Figure 2-1).

White Lake Township Hall

7525 Highland Road

Year Built: 1949

Last Major Improvement: 1996

Houses: Supervisor, Clerk, Treasurer, Assessing, Building, Planning, Water, Sewer, Maintenance

Condition: Fair

Extent of Use: Heavy

White Lake Township Fleet Vehicles

Includes: Administrative vehicles, inspection vehicles; does not include Fire Dept. vehicles

Year Acquired: Varies

Condition: Varies

Extent of Use: Varies

Average Duty Cycle: Approximately 7 years

Fire Hall Number 1 (Headquarters)

7420 Highland Road

Year Built: Unknown

Last Major Improvement: Parking Lot Replacement

Serves: M-59 corridor; northeast and southwest quadrant

Condition: Fair

Extent of Use: Heavy

Fire Hall Number 2

Address: 860 Round Lake Road
Year Built: Unknown
Last Major Improvement: None
Serves: Southeast quadrant
Condition: Fair
Extent of Use: Heavy

Fire Hall Number 3

4870 Ormond Road
Year Built: Unknown
Last Major Improvement: None
Serves: Northwest quadrant
Condition: Fair
Extent of Use: Moderate

White Lake Township Police Station

7525 Highland Road
Year Built: approx. 1950
Last Major Improvement: 2001 (expansion)
Condition: Good
Extent of Use: Heavy

White Lake Township Police Garage

Location: Behind Police Station
Year Built: 2004
Last Major Improvement: None
Condition: Good
Extent of Use: Heavy

White Lake Township Police Communications System

Year Acquired: New in 2010
Last Major Improvement: None
Condition: Excellent
Extent of Use: Heavy

White Lake Township Police Vehicles

Includes: 18 Vehicles
Year Acquired: Varies
Condition: Excellent
Extent of Use: Heavy

Township Office Annex

7527 Highland Road
Year Built: 1985
Last Major Improvement: 2020 remodel
Condition: Excellent
Extent of Use: Heavy

Dublin Community Senior Center

685 Union Lake Road
Year Built: approx. 1950
Last Major Improvement: 2001
Condition: Excellent
Extent of Use: Heavy

Water Tower 1

360 Woodsedge Drive
Year Built: 1994
Last Major Improvement: 2007
Condition: Good
Extent of Use: Heavy

Water Tower 2

6055 Highland Road
Year Built: 2004
Last Major Improvement: None
Condition: Excellent
Extent of Use: Moderate

White Lake Charter Township

White Lake Township Water System

Includes: Water mains, wells, land, well houses and pump stations, generators

Year Built: Ongoing

Last Major Improvement/Extension: 2020 Hillview Well House & 2019 Twin Lakes II Well House

Condition: Varies; primarily Good to Excellent

Extent of Use: Varies; primarily Moderate to Heavy

**White Lake Township Sanitary Sewer System**

Includes: Phase I sewer/appurtenances, Pontiac Lake sewer/appurtenances, Elizabeth Lake/M-59/Meijer sewer/appurtenances

Year Built: Ongoing since 1998

Last Major Improvement/Extension: 2012

Condition: Good to Excellent

Extent of Use: Light to Moderate

**White Lake Community Hall**

Address: 7500 Highland Road

Year Built: 1875 (State-designated historic site)

Last Major Renovation: 2013 (Interior)

Condition: Good

Extent of Use: Light

**Fire and EMS Equipment**

Includes: three engines, one tanker, two ambulances, one light duty rescue (no pumping or water carrying capability), one pickup truck style grass truck with a skid mount pump and tank, four fleet vehicles, and breathing apparatus

Year acquired: Varies; between 1997 and 2018

Condition: Varies; from Good to Excellent

Extent of Use: Varies; primarily Moderate to Heavy

**White Lake Township Clerk's Equipment**

Includes: Voting tabulation machines (17)

Voter assist terminals (12)

Year acquired: 2018

Condition: Excellent

Extent of Use: Varies

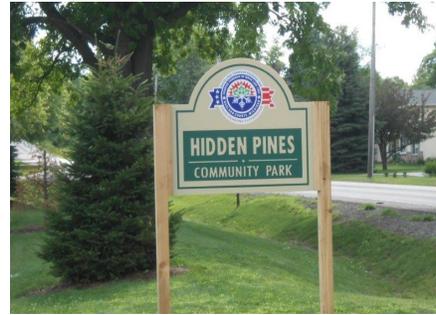

Hidden Pines Park

Location: Intersection of White Lake Road and Hidden Pines Drive.

Size: 9 Acres

Includes: One (1) Baseball Field and parking area

Township-Owned Land

Total acreage: approx. 177 acres (including Township parks)

Judy Hawley Park

Location: Behind Township Hall, just east of the Township Library

Size: 12 acres

Includes: Soccer fields, pavilion, play structure, basketball courts, sand volleyball court, and pathway

Ferdinand C. Vetter Park

Location: Behind Dublin Community Center on Union Lake Road

Size: 6 acres

Includes: Baseball field, picnic shelter, pathway, and play structure

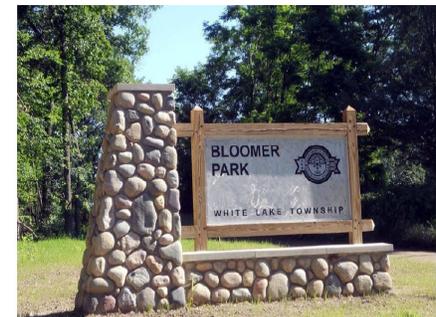

Bloomer Park

Location: West side of McKeachie Road, between

Grass Lake and Jackson Roads

Size: Approximately 28 acres

Description: Picnic shelter, scenic overlook, and nature trails

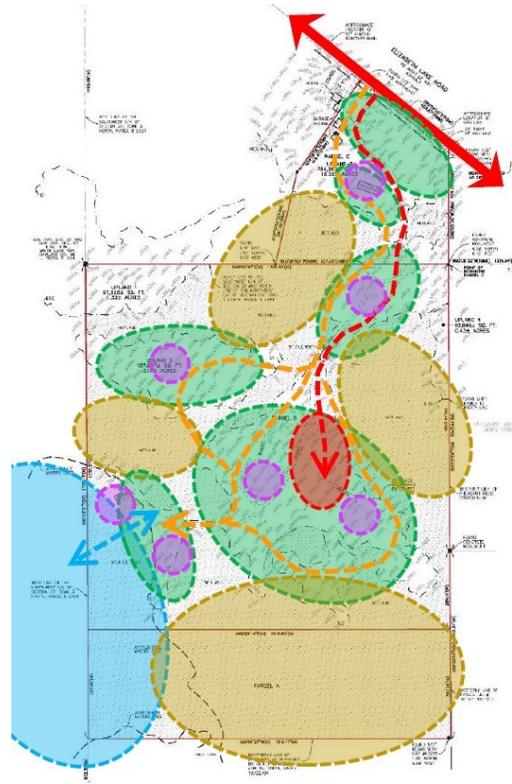

Stanley Park

Location: West side of Elizabeth Lake Road, south of White Lake Township Library

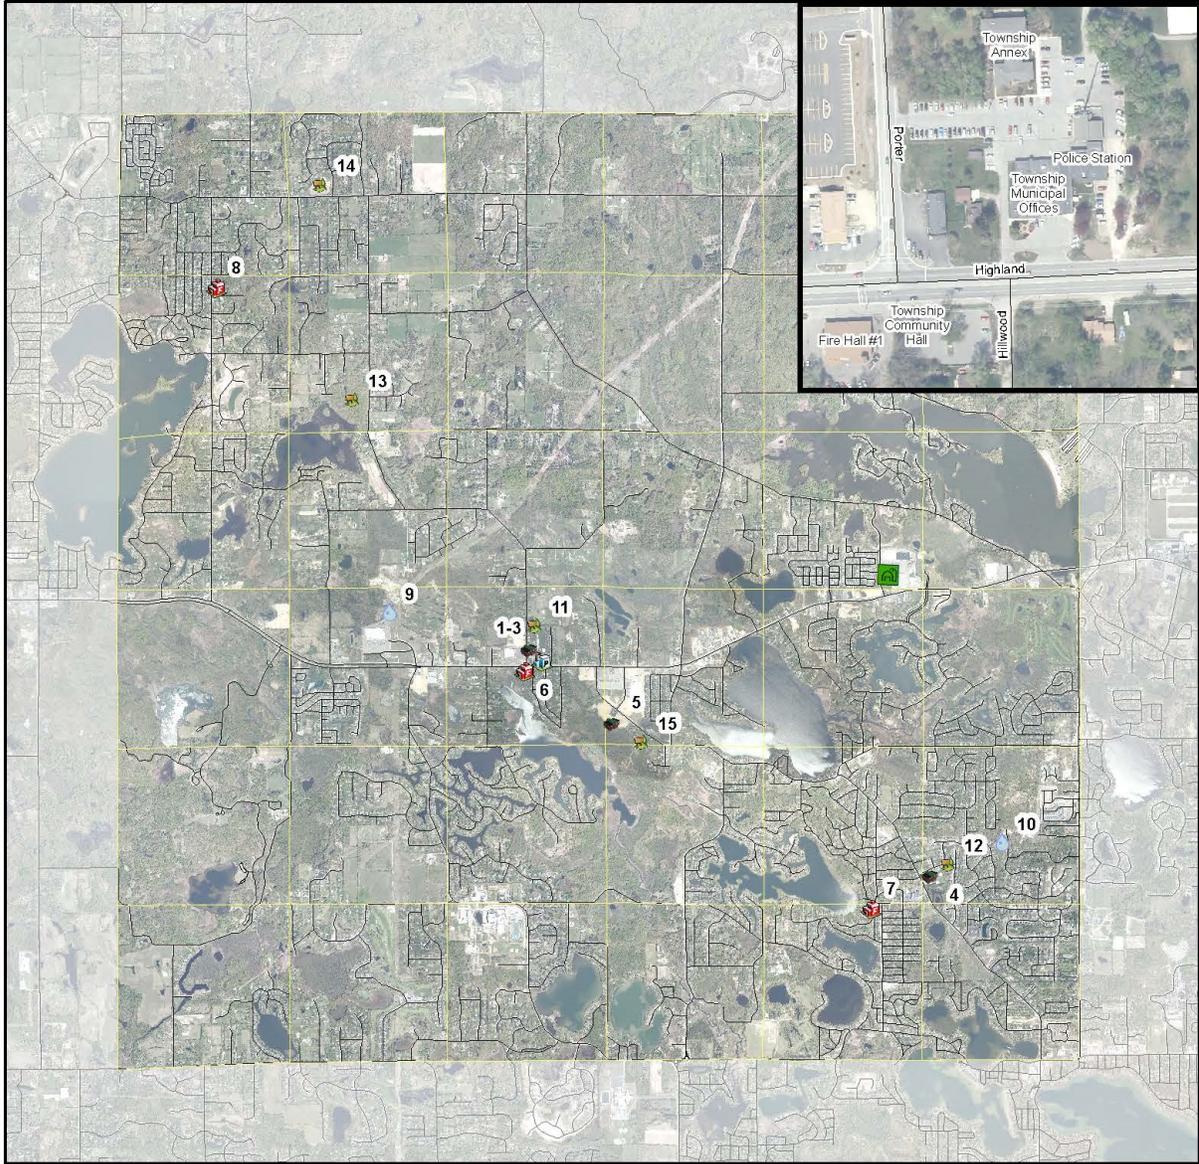

Size: 57 acres

Description: Undeveloped; development anticipated 2022-2024

White Lake Charter Township

3. Executive Summary

Stakeholders

The level of input from the stakeholders has greatly contributed toward the formulation of the CIP. Project profiles consisting of the Project Application Form, the Project Cost Detail Form, and the Project Rating Form were received from Parks and Recreation, Senior Center, Police Department, Fire Protection, Facilities, and Water and Sewer Departments. Though some of the information received will require further detail, it is the most current information available until future refinements are made to the project profile.

Project Histories

Just as important as tracking current and future projects is cataloging the past accomplishments of the Capital Improvement Plan. Located in the back of the plan is a Project Histories Summary Table. This table illustrates those past projects that have been completed or canceled. Some projects are changed over time, the original project number may be dropped and new project numbers and created in its place. The Project Histories Summary can be used to track the priorities of the Township over time and can help track overall investment in the community based on geographic regions.

2021 Project Histories

Capital improvements, outlined in the 2021-2026 CIP, completed during 2021:

- BP-0008 Triangle Trail Development Design
- SS-0010 Shotwell Gravity Rehabilitation

3. Executive Summary

Projects

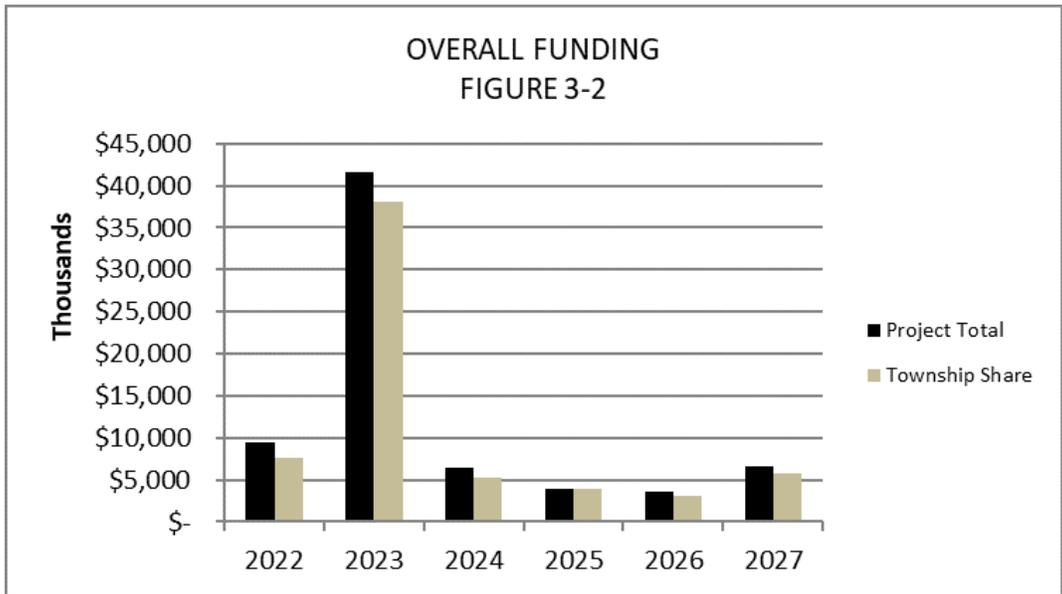

Review of the Project Summary Worksheet (found in the Appendix of this report) indicates that there are several individual projects located in the same geographic area. There are potential cost savings that can be realized by combining projects. At a minimum, mobilization, traffic control, and restoration are just some of the potential cost savings achieved by combining projects for construction. The potential grouping of projects are identified in Figure 3-1 below:

FIGURE 3-1	
Location	Project Labels
M-59, Teggerdine east 0.3 miles	BP-0003 and PK-0006
Bogie Lake Road, Huron Valley Schools to M-59	BP-0006 and SS-0003

If the funding and timing of these projects can be orchestrated, the savings are significant. The exact savings cannot be determined until a detailed project costing and analysis of the common scope between the projects is performed. Also, in the future other projects such as new facilities can be studied to determine if combining operations can realize a cost savings. Other benefits include providing a list of projects in advance in order to help establish the need for grants and funding opportunities.

Funding

This CIP has many projects that are unfunded. The limitations of funding will likely cause projects to be delayed, deferred or cancelled. Each project has a potential funding source and many are dependent on a contribution from the Township’s General Fund (GF). Many projects list funding sources from State and Federal grant programs, but those grants have not yet been secured. The following chart depicts the relationship between total project costs, and the Township’s share of those costs. Additional revenue for projects that are not completely funded by the Township will come from grants and other funding sources.

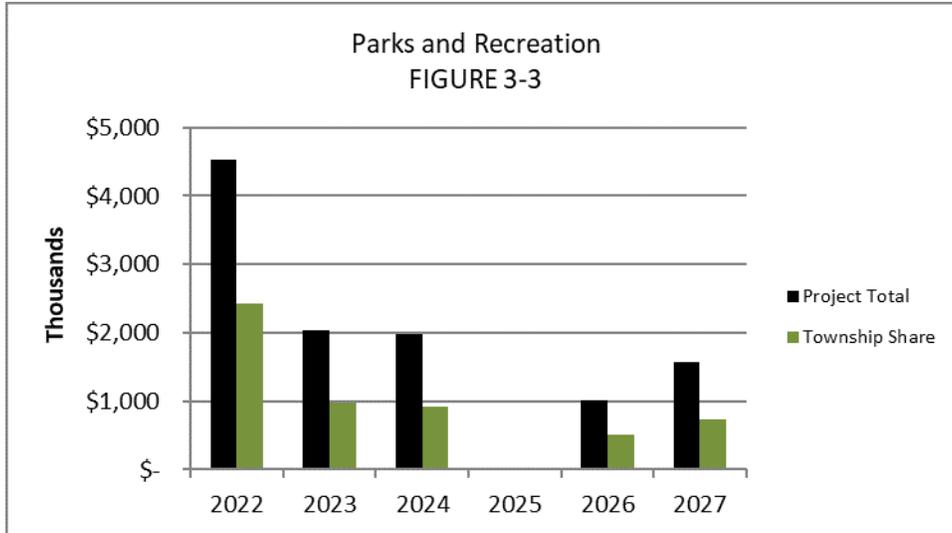

The Township’s General Fund balance at the end of fiscal year 2020 is about \$10.4 million. As indicated in Figure 3-2 above, the General Fund balance is inadequate to support the Township’s share of the CIP.

Funding Components

In the following section, each of the funds shown on the Project Summary Worksheet are graphed and reported as part of the CIP with the exception of the projects listed under Internal Services.

Parks and Recreation

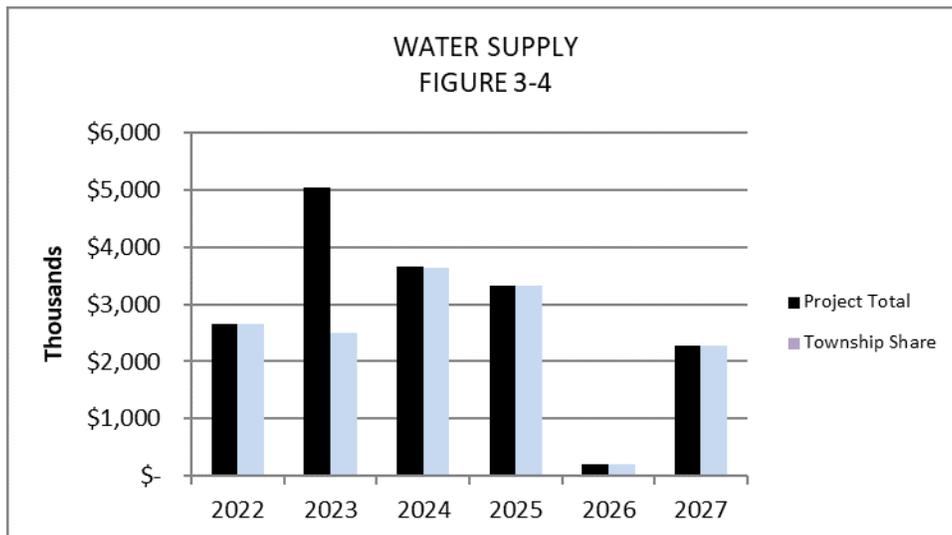

The Parks and Recreation Fund has a fund balance of about \$658,645 as shown in the 2020 Comprehensive Annual Financial Report (CAFR). This fund balance along with a Michigan Natural Resources Land and Water Conservation Grant will be used to leverage park improvement projects.

Careful budgeting of the Parks and Recreation fund will allow the level of service and maintenance of the Township’s current and future park facilities to occur until additional parks funding can be established.

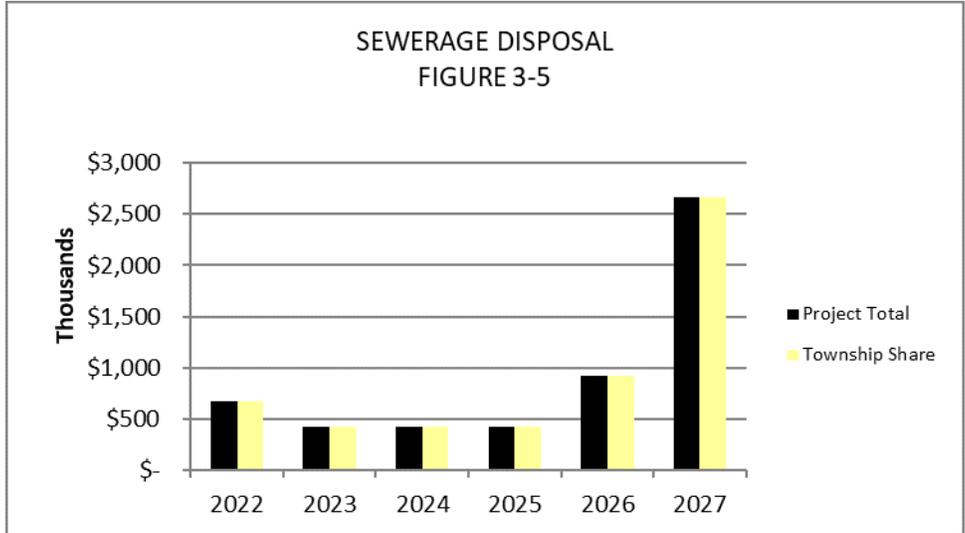

Water Supply Fund

The Water Supply Fund (WF) is an enterprise fund that is not dependent on support from the General Fund. The Water Supply Fund (WF) has a balance of \$4.99 Million as of the close of 2020. Several projects in this program area are funded using the Drinking Water Revolving Fund supplemented by the Water Supply Fund balance.

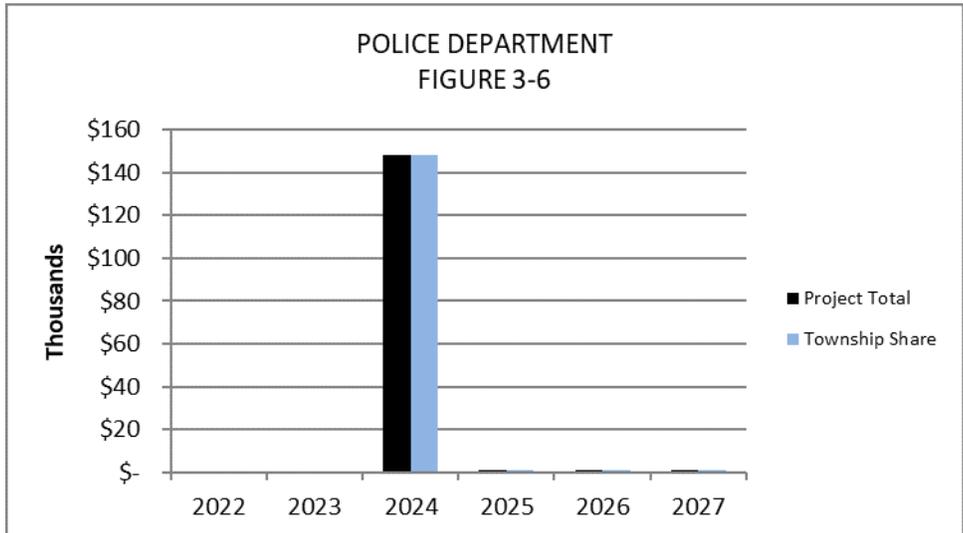

Sewerage Disposal System

Development of Sewer has been done either by private development or special assessment districts (SAD’s). The Township has a Sewer Maintenance Fund with \$879,218 as of 2020.

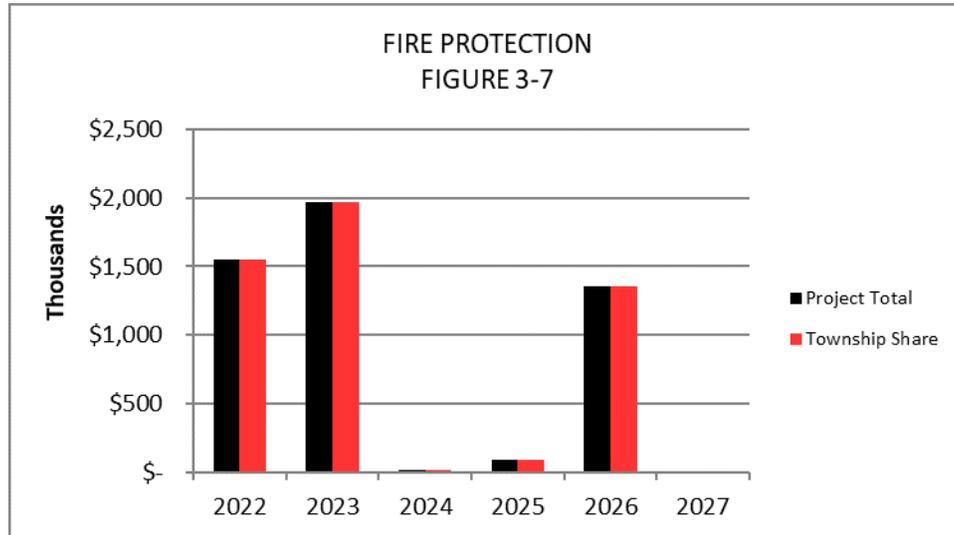

Police Department

The 2020 CAFR reports a balance of \$4.6 million in the Police Fund. The Police Department is currently funded by a Township Millage.

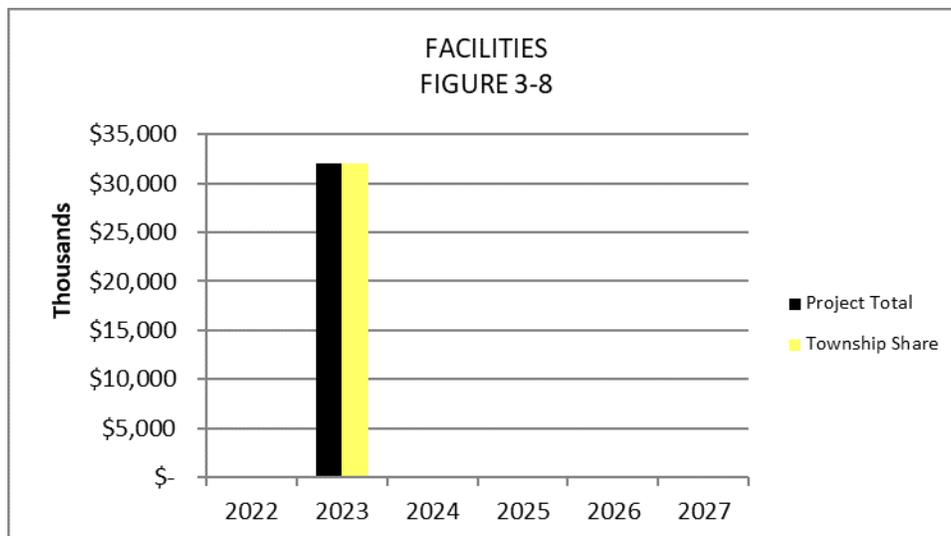

Fire Protection

The Fire Protection Fund has a balance of \$6.6 million as reported in the 2020 CAFR. The Fire Protection Fund is supported solely through millage money.

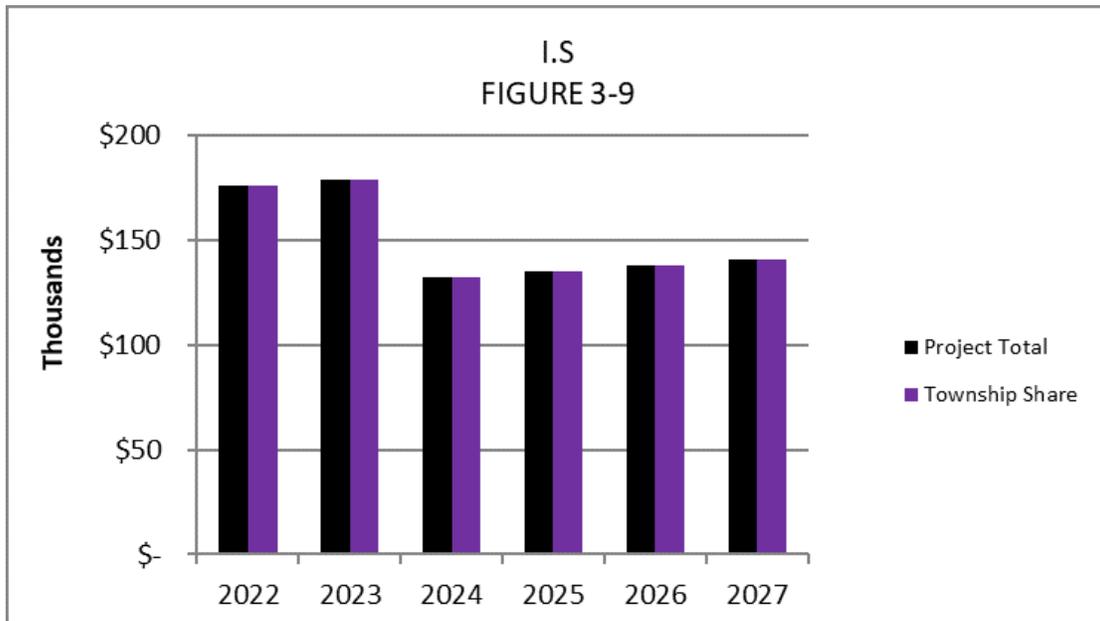

Facilities

The Township Civic Center district will have a new Public Safety Headquarters that will cost approximately \$18-20 million dollars. Also, a new Civic Center Building to replace the current Township Office at an approximate cost of \$10-12 million dollars. This money will come from the Capital Projects Fund, and the issuance of bonds. The Township currently has approximately \$1.9 million dollars available for a new Township Municipal Complex in a Building Fund listed in the 2020 CAFR.

Internal Services

The Internal Services used to support the operating departments are included in the CIP due to their costs that are in excess of \$50,000. Because these services are collected as a charge back to the operating departments, there is no special fund involved.

4. CIP Components

The components of the Capital Improvement Plan have been compiled and reported by the following seven program areas, each representing a stakeholder in the CIP.

Section 4a. Facilities

- FA-0006 Public Safety Headquarters
- FA-0007 Township Civic Building
- FA-0008 Township Hall Genset

Section 4b. Fire Protection

- FD-0002 - Fire Station 2 Replacement
- FD-0006 - Fire Ladder Truck
- FD-0008 - Fire Tanker Truck
- FD-0009 - Fire Station 3 Improvement
- FD-0016 - Cardiac Monitors (2)
- FD-0017 - Structural Firefighting Gear (27)
- FD-0018 - Ambulance Replacement (2)

Section 4c. Internal Services

- IS-0002 - Fleet Vehicles (excluding Fire)
- IS-0003 - Document Management Program

Section 4d. Parks and Recreation

- BP-0002 - M-59 Pathway (Phase I)
- BP-0003 - M-59 Pathway (Phase II)
- BP-0004 - M-59 Pathway (Phase III)
- BP-0005 - Union Lake Rd. Pathway
- BP-0006 - Bogie Lake Rd. Pathway
- PK-0002 - Four Seasons Trail (Phase I)
- PK-0003 - Four Seasons Trail (Phase II)
- PK-0004 - Four Seasons Trail (Phase III)
- PK-0006 - Oxbow / M-59 Park
- PK-0008 - Hidden Pines Park
- PK-0009 - Teggerdine Trail Design
- PK-0010 - Bloomer Park (Phase II)
- PK-0011 - Community / Central Park
- PK-0012 - Stanley Park
- BP-0009 - Triangle Trail Development

Section 4e. Police Department

- PD-0002 - Mobile Command Center

Section 4f. Sanitary Sewer Disposal System

- SS-0005 - Western Outlet Sanitary Extension Phase 2
- SS-0006 - Pump Station at Lakeland High school
- SS-0007 - Upgrades & Equipment Replacement of Meijer Pump Station
- SS-0008 - Upgrades & Equipment Replacement of 7 Sanitary Sewage Pump Stations
- SS-0009 - SCADA Equipment to Monitor Sanitary Sewage Pump Stations (8)
- SS-0011 - Sewer Main Rehabilitation Projects

Section 4g. Water Supply System

- WS-0004 - Twin Lakes Well Replacement and Upgrades
- WS-0008 - Aspen Meadows Iron Filtration
- WS-0010 - SCADA Tower Replacement and GENSET
- WS-0011 - Water Main Extension Bogie Lake Road (M-59 to Cedar Island)
- WS-0012 - 6 - Inch Diameter Water Main Replacement
- WS-0015 - Twin Lakes I Well House Updates
- WS-0017 - Interconnection of High Pressure Districts (Elizabeth Lake Road)
- WS-0018 - Residual Chlorine Analyzers at Water Towers
- WS-0019 - Residential and Commercial Meter Replacement with AMR System
- WS-0021 - Repaint Water Tower 1
- WS-0022 - Repaint Water Tower 2
- WS-0023 - Backhoe Machine

<u>Funding Sources Abbreviations</u>	
Building Authority	BA
Fire Protection Fund	FPF
General Fund	GF
Federal Housing and Urban Development	HUD
Michigan Dept. of Transportation Enhancement Grant	MDOT-EG

Parks & Recreation - Special Township Revenue Fund	P&RF
Police Department Fund	PDF
Road Commission Tri-Party Program	RCOCTP
Special Assessment District	SAD
Sewer Fund (Township Enterprise Fund)	SF
State Revolving Fund	SRF
United States Dept. of Transportation	USDOT
Drinking Water Revolving Fund	DWRF
Water Supply Fund (Township Enterprise Fund)	WF

4a. CIP Components - Facilities

Overview

Facilities play an important role in providing an environment that is conducive to supporting the various operating departments that provide services directly to the residents in the Township. Facilities can be new building projects, building renovations, building expansions or the cost of services to support the existing buildings if this cost is significant.

Identification of significant costs to support existing building operations is an important tool in determining the cost effectiveness of operating existing public buildings.

Funding for supporting existing Facilities is normally derived by either a charge back to the budgets from the operating departments or done as a direct operating cost to General Fund.

Funding for new Facilities can be accomplished by a building authority. The Township has a legally established Building Authority that would be the governing body to finance and construct any new public buildings in the Township.

On the following page, each of the Facilities projects are listed along with their cost and funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY FACILITIES (FA)							
PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
FA-0006	Public Safety Headquarters	New Construction	110	Grant, GF, Bond Issue, PDF, FPF	\$18,000,000 +/-	\$18,000,000 +/-	\$--

Project Description

This building project is for the construction of a combined Police and Fire Headquarters Building to be located on Elizabeth Lake Road. The project cost includes the 40,000 square foot building and the associated site work.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
FA-0007	Township Civic Building	New Construction	96	Grant, GF, Bond Issue	\$10,000,000 +/-	\$10,000,000 +/-	\$--

Project Description

The Township Civic Building will replace the 70 year Township Office Building (circa 1949) with a modern facility that will accommodate the Township's current needs. The building will be approximately 30,000 square feet.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
FA-0008	Township Hall Genset	New Equipment	97	GF,PDF, FPF	\$100,000	\$100,000	\$--

Project Description

Recent events left the Township's 911 services inoperable due to power failures as the current generator is undersized to serve the Township Offices/Police Department.

4b. CIP Components - Fire Protection

Overview

Fire Protection provides a variety of vital services to Township residents. Fire Protection facilities are provided at several locations within the Township. In the CIP, new Fire Protection facilities, new Fire Protection equipment, and new Fire Protection vehicles are included under this section.

Fire Protection is principally funded by a Township Millage. Potential sources of funding for projects are the Fire Protection Fund balance, bond issue, or grants. Another possibility would be to use the Township's Building Authority to finance new fire stations.

On the following pages, each of the Fire Protection projects are listed along with their cost and potential funding sources.

FD-0018	Ambulance Replacement (2 existing units)	New Equipment	112	FPF	\$440,000	\$440,000	\$--

Project Description
Replacement of two (2) transport units / ambulances.

4c. CIP Components - Internal Services

Overview

Internal Services play an important role in supporting the various operating departments that provide services directly to the residents in the Township. While Internal Services in itself is not a “project,” the cost of this internal support is significant and bears inclusion as part of the CIP. Internal Services in this CIP are defined as computer networks, geographic information service (GIS), document storage, communications, and fleet vehicles.

There is no dedicated fund for Internal Services. Funding for Internal Services is normally derived by a charge back to the budgets from the operating departments that use or are supported by these services.

On the following page, each of the Internal Services projects are listed along with their cost and funding sources.

CHARTER TOWNSHIP OF WHITE LAKE
CAPITAL IMPROVEMENTS PLAN
PROJECT SUMMARY
INTERNAL SERVICES (IS)

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
IS-0002	Fleet	New Equipment	80	PD / GF	\$ 783,000	\$ 783,000	\$--

Project Description
Replacement of cars and trucks (except Fire Department) on an annual basis to systematize the vehicle replacement process. Estimates are for a combination of three (3) cars and two (2) trucks each year, for a total of six (6) years.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
IS-0003	Document Management Program	Equipment / Professional Services	90	GF	\$100,000	\$100,000	\$--

Project Description
Project includes providing Township Departments with the necessary software and hardware needed to continue digitizing the Township's document files. Project also includes funding for contracting with private firms to help expediate the process.

4d. CIP Components - Parks & Recreation

Overview

The Parks and Recreation Master Plan outlines a variety of services to Township residents. Parks and Recreation is principally funded by a non-major special revenue fund. Potential funding for projects can be from Parks and Recreation fund balance, grants such as Michigan Department of Natural Resources Trust Fund, County based tri-party funding, Michigan Safe Routes to School Program, Michigan Department of Transportation Enhancement Grant, Federal Housing and Urban Development.

On the following pages, each of the Parks and Recreation projects are listed along with their cost and potential funding sources.

BP-0005	Union Lake Road Pathway	Rehabilitation	98	MNRTFG; RCOCTP; P&RF	\$597,000	\$347,000	\$250,000

Project Description
The Union Lake Road corridor is the area of White Lake that contains the highest density of residential development in the Township. A pathway along the corridor is critical to provide residents with safe, non-motorized access to the homes, churches, schools, parks, retail, and other places in the area.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
BP-0006	Bogie Lake Road Pathway	New Construction	83	MDOT-EG; P&RF; MSRSP	\$1,303,000	\$703,000	\$600,000

Project Description

An important, long term, high-priority objective is the development of a Township wide system of pathways connected to the regional network. This pathway provides the north-south connection from M-59 (north) to the Township’s southern boundary and connects a complex of 3 schools to neighborhoods throughout the length of the corridor.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
PK-0002	Four Seasons Trail (Phase I)	New Construction	67	MNRTFG; P&RF; USDOT	\$305,000	\$155,000	\$150,000

Project Description

An important, long-term, high-priority objective is the development of a Township-wide pathways system. The ITC Corridor Four Seasons Trail provides a critical link between Pontiac Lake State Recreation Area and Highland Lake State Recreation Area, via the M-59 trailway. This route is included in the Oakland County Greenways Plan and should include state and regional financial participation. Construction of the trailway is expected to occur over several years.

PK-0012	Stanley Park	New Construction	91	MNRTFG; P&RF; GF; Donations	\$3,250,000	\$1,750,000	\$1,500,000

Project Description

Expansion of recreational land is critical to meet the needs of both existing and future residents, especially as vacant land becomes scarcer and the Township's population continues to grow. This property is unique with frontage on Brendel Lake and location adjacent to the future Township Civic Center.

4e. CIP Components - Police Department

Overview

The Township Police Department provides a variety of vital services to Township residents. The costs of operations and the demand for services create financial circumstances that are difficult to predict. In this CIP, special police equipment is listed as projects. Standard police cars are included as Internal Services under Fleet.

Police Department operations are funded by a major special revenue fund. Potential funding for projects can be from Police Fund balance, grants such as Homeland Security, drug forfeitures. The Police also have a four year operating millage that will collect until the end of 2021.

On the following page, each of the Police Department projects are listed along with their cost and potential funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY POLICE DEPARTMENT (PD)							
PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
PD-0002	Mobile Command Center	New Equipment	65	Grants; Drug Forfeitures	\$151,000	\$151,000	\$--
<p><u>Project Description</u> A Mobile Command Center is a vehicle-based police facility, usually built around a motor home chassis. It allows command officers to provide on-scene command and control of large scale events or catastrophes.</p>							

4f. CIP Components - Sanitary Sewerage Disposal System

Overview

Sanitary Sewerage Disposal Systems do not currently provide service to all Township residents. Sewerage Disposal Systems that do exist are operated by the Water Resources Commissioner for Oakland County.

The Township does not have a Sanitary Sewerage Disposal Enterprise Fund listed in the 2020 Comprehensive Annual Financial Report (CAFR). The CAFR does list a General Sewer Fund as a non-major special revenue fund for the Township.

The Department of Public Works completed an asset management plan in 2019 following a roughly 3 year study of the condition of the township waste water system. Potential sources of funding for projects are the General Sewer Fund, Special Assessment District (SAD), State Revolving Fund (SRF) loan program or contributions from General Fund.

On the following page, each of the Sanitary Sewerage Disposal projects are listed along with their cost and potential funding sources.

4g. CIP Components - Water Supply System

Overview

The Municipal Water Supply System that is owned and operated by the Township and administered by the Water Department does not provide service to all Township residents. The Municipal Water Supply System derives its water from underground aquifers and is used for fire protection and domestic consumption. Many areas of the Township currently operate with private wells as their source of potable water supply.

The Township has a Water Enterprise Fund listed in the 2020 Comprehensive Annual Financial Report (CAFR). This Water Fund is managed by the Township Water Department.

The Department of Public Works completed an asset management plan in 2019 following a roughly 3 year study of the condition of the township water system. Potential sources of funding for Water Supply projects are the Water Fund balance, Drinking Water Revolving Fund (DWRF), revenue bonds, special assessment districts (SAD's), or contributions from General Fund.

On the following page, each of the Water Supply projects are listed along with their cost and potential funding sources.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
WS-0004	Twin Lakes I Well Replacement and Upgrades	Rehabilitation	126	DWRF, WF	\$423,675	\$407,675	\$16,000

Project Description
The Township proposes to install a new well and pump at Twin Lakes I well site to replace the smaller capacity well at the site. This will require discussion with the MDEQ water bureau, site investigation using test/production well(s) to evaluate aquifer capacities, engineering design, permitting, identifying funding sources, contract administration and construction.

WS-0008	Aspen Meadows Iron Filtration and Sewer Connection	New Construction	125	DWRF	\$5,500,000	\$5,500,000	\$--

Project Description
The Township proposes to install a new iron filtration and sewer connection at Aspen Meadows well site. The iron filtration will help reduce iron and manganese at the lower used well house (about 6% of total water pumped) and second highest iron amount.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
WS-0010	SCADA Tower Replacement and GENSET	Rehabilitation	80	WF, DWRF	\$52,000	\$52,000	\$--

Project Description
Replace Supervisory Control and Data Acquisition (SCADA) Tower at Water Office with a new tower, romex cable, new cement pad with anchors and locate at least 170 feet to the east on Highland Road. The current tower is twenty five years old and is oxidizing at the bolts and bottom tower brackets. The current tower is near the end of its life cycle. Also, the Water Department will need to upgrade the onsite gen set to backup the SCADA system.

Appendix

Excerpt from the Michigan Planning Enabling Act of 2008:

**MICHIGAN PLANNING ENABLING ACT (EXCERPT)
Act 33 of 2008**

125.3865 Capital improvements program of public structures and improvements; preparation; basis.

Sec. 65.

(1) To further the desirable future development of the local unit of government under the master plan, a planning commission, after adoption of a master plan, shall annually prepare a capital improvements program of public structures and improvements, unless the planning commission is exempted from this requirement by charter or otherwise. If the planning commission is exempted, the legislative body either shall prepare and adopt a capital improvements program, separate from or as a part of the annual budget, or shall delegate the preparation of the capital improvements program to the chief elected official or a nonelected administrative official, subject to final approval by the legislative body. The capital improvements program shall show those public structures and improvements, in the general order of their priority, that in the commission's judgment will be needed or desirable and can be undertaken within the ensuing 6-year period. The capital improvements program shall be based upon the requirements of the local unit of government for all types of public structures and improvements. Consequently, each agency or department of the local unit of government with authority for public structures or improvements shall upon request furnish the planning commission with lists, plans, and estimates of time and cost of those public structures and improvements.

(2) Any township may prepare and adopt a capital improvement program. However, subsection (1) is only mandatory for a township if the township, alone or jointly with 1 or more other local units of government, owns or operates a water supply or sewage disposal system.

History: 2008, Act 33, Eff. Sept. 1, 2008

NOTICE OF PUBLIC HEARING

WHITE LAKE TOWNSHIP PLANNING COMMISSION

Notice is hereby given that the White Lake Township Planning Commission will hold a public hearing on Thursday, September 2nd, 2021, at 7:00 p.m. or shortly thereafter, at the White Lake Township Hall, 7525 Highland Road, White Lake, MI, 48383 (north side of Highland Road, just east of Porter Road). The purpose of the hearing is to receive public comments on the draft of White Lake Township's 2022-2027 Capital Improvement Plan (CIP).

The Michigan Planning Enabling Act of 2008 requires a CIP for any Township which owns and/or operates a public water supply or sewerage disposal system. The CIP is reviewed and updated annually.

A capital improvement plan (CIP) is a six-year schedule which identifies major public infrastructure projects and physical improvements, and the sources of funding necessary to complete those projects. Capital improvement projects include major expenditures such as new public buildings or expansion of existing buildings, water/sewer line extensions, fire & police facilities, and parks & recreation facilities. It is a tool to assess the Township's long-term capital improvement projects, and to prioritize those projects based on standardized criteria. The CIP identifies cost-saving opportunities for coordinating projects across various Township departments, and creates a bridge between the planning for future public projects and the annual budget. The White Lake Township Planning Commission is responsible for preparing the CIP, and presenting it to the Township Board for adoption.

A complete copy of the draft 2022-2027 Capital Improvement Plan (CIP) may be examined at the White Lake Township Planning Department, 7525 Highland Road, White Lake, MI, 48383, prior to the public hearing during the Township's regular business hours; Monday through Thursday, 8:00 a.m. through 5:00 p.m., and Friday from 8:00 a.m. through 12:00 p.m., (excluding holidays). The CIP will also be available for review online at the Township's website: www.whitelaketwp.com. Written comments may be sent to the Planning Commission at the above address prior to the hearing. Oral comments will be taken during the public hearing.

This notice is published consistent with the requirements of Michigan Public Act 33 of 2008.

Sean O'Neil, AICP
Planning Director
White Lake Township
