DEPARTMENT SERVICE METRICS

WIBRS Offenses by Month

Offense counts are calculated based on the number of offenses for each victim (per incident) for Crimes Against Persons and the number of unique offense types (per incident) for Crimes Against Property and Crimes Against Society. For burglary and motor vehicle theft, offense counts are based on the number of premises entered and the number of vehicles stolen, respectively.

These counts are generated on the Wisconsin Department of Justice - Uniform Crime Reporting website. Counts are based on the month of the incident, rather than the month the incident was submitted. If the incident date is unknown, the report date is used. Counts are subject to change as data is updated.

GOALS & OBJECTIVES 2024/2025 OUTLOOK

- **Utilize Propio to communicate and provide services to segment of the Whitewater population that doesn't speak English.**

Action Plan:

Whitewater is in the midst of a massive shift in demographics with many non-English speakers moving into the area. In order to meet this need, staff at all levels of the Whitewater Police Department organization will utilize Propio Language Services throughout 2024 to better communicate with individuals who do not speak English. Our clerical staff and dispatchers will use the system when within the police department or when communicating with individuals over the phone. Our patrol officers will primarily use the system while responding to calls for service to ensure the contact is completed as efficiently as possible, while getting all pertinent information effectively communicated to all parties. The administrative staff will utilize Propio when appropriate during community outreach events to foster inclusion and ensure the resources provided by WPD are accessible to all. The Whitewater Police Department's use of Propio is tracked. Quarterly, statistics will be run to determine how many times our staff has used Propio, the average call time for a session, as well as to determine what employees may need additional training or assistance in utilizing Propio.

Goal Impacted:

How will the City find ways to communicate without a newspaper? Increase understanding of how the community broadly consumes information and become more efficient in sharing information.

- **Use innovative communication techniques by using the PD Facebook page in increasingly creative ways.**

Action Plan:

Whitewater Police Department staff currently utilizes social media via Facebook. However, the information posted is relatively common in law enforcement utilizing written posts and photo attachments. In order to better serve the community, the WPD administration will begin posting video recorded press releases when appropriate and will post recorded WPD officer body cam footage (redacted as needed) showing examples of noteworthy officer interactions. Equipment including a video prompter and banner will be explored and purchased if feasible to assist in ensuring posting video recordings are professional. Staff will post a minimum of four video recorded press releases or WPD officer body cam recordings in 2024. WPD administrative staff will review this goal quarterly to determine if we are on track for the annual goal.

Goal Impacted:

How will the City find ways to communicate without a newspaper? Increase understanding of how the community broadly consumes information and become more efficient in sharing information.

- **Implement a Spanish fluency incentive for our sworn personnel.**

Action Plan:

The Whitewater Police Department administration recognizes how critically important it is to employ and retain staff who can speak foreign languages. Given the current demographic shift occurring in Whitewater, the ability to speak Spanish is extremely desirable. To address this, the administration's goal is to establish a Spanish fluency incentive with both the Whitewater Professional Police Association (WPPA) and the Whitewater Professional Police Supervisory Association (WPPSA). The annual stipend will award \$500 to sworn staff who can prove they fluently speak and read Spanish. By July 1, 2024, WPD administrative staff will evaluate whether or not the incentive is incorporated through the bargaining processes, and if implemented, will analyze the impact to determine if extending such an incentive to non-sworn staff should be considered.

Goal Impacted:

How will the City improve and communicate recruitment and retention efforts with a focus on diversity? To identify metrics to improve retention and evaluate or establish recruitment measures.

GOALS & OBJECTIVES

2024/2025 OUTLOOK

- **Offer business checks by staff trained in crime prevention.**

Action Plan:

In order to attract business to the City of Whitewater, business owners must first believe that the City is a safe place to run a business. To that end, in 2024, the Whitewater Police Department will develop a team of officers trained to complete crime prevention assessments for businesses within the City, with the goal of completing 12 assessments in 2024. The environmental design of the business will be reviewed to include lighting, doors, windows, locks, surveillance systems, signage, alarm systems, as well as employee access. A written report will be created by the officer that will serve to document the strengths of the business and will also provide recommendations on what improvements could be made. This service will be advertised on the WPD Facebook page and administrative staff will review the goal quarterly to ensure the department is on pace to meet the goal. If needed, additional advertising work will be done to get word out to business owners.

Goal Impacted:

How will the City support a thriving business community (including business attraction)? To better understand the underlying issues and then leverage resources.

- **Implement a Mental Wellness Program (MWP) for all police department staff.**

Action Plan:

The Whitewater Police Department will create a Mental Wellness Program (MWP) in order to address the mental health needs, and ultimately, assist in the long-term retention of our staff. Unfortunately, WPD staff are exposed to a variety of unhealthy and stressful situations in the course of their duties. This impacts staff at all levels of the organization. Our dispatchers are burdened with hearing crying and screaming during critical incidents, but not being able to be there for their closure. Our sworn staff directly witness tragic incidents and circumstances from abuse and maltreatment, to automobile crashes and death. Our clerical staff have to view these incidents second-hand as they review body cam footage for redaction when records are requested. The MWP would require each staff member to attend an annual appointment with a trained clinical psychologist specializing in law enforcement for a mental health check-in. Staff would be given the day off on the day they attend the appointment. This program will cost the department \$10,000 annually.

Goal Impacted:

How will the City improve and communicate recruitment and retention efforts with a focus on diversity? To identify metrics to improve retention and evaluate or establish recruitment measures..

DEPARTMENT/FUNCTION

Recreation is responsible for providing a comprehensive offering of programs for all ages and abilities. Programs vary from recreational to competitive sports, to exercise wellness, to arts and culture, enrichment programs and community special events. The initiative for growth in programming comes directly from citizens requests. Administrative costs are funded by tax dollars, but direct program expenses are supported by a variety of user fees. The department staff work closely with community groups and organizations to promote, deliver, and administer a comprehensive program while attempting to not duplicate services.

MISSION

The City of Whitewater Parks and Recreation Department provides efficient and high-quality programs and services which support living, learning, playing and working in an exceptional community.

FUND DESCRIPTION**FUND 216**

The Police Vehicle Revolving Fund (#216) was established in 2004 to account for the purchase of police marked and unmarked squad cars based on a scheduled rotation of one or two vehicles each year. Emergency vehicles are used 24/7 and must be in good working order. Older, high mileage vehicles are susceptible to more frequent breakdowns, time out of service for repairs, and are less reliable. Prior to fund 216, vehicles were reflected in the capital portion of the Police Patrol and/or Police Investigations budgets. Due to some past budget restraints, there have been years where no vehicles were purchased.

- **Fund Balance** is designated to be retained to fund the annual replacement of police vehicles.
- **Primary Funding Source** is annual transfer from the General Fund and proceeds from sales of retired vehicles.
- **Audit Classification:** Governmental; Non-Major.

Equalized Value. Positive economic growth results in new and expanding businesses as well as new residential construction which ultimately increases the local tax base and can reduce overall property taxes for individual property owners. Equalized value can be a helpful indicator of the growth in commercial and residential development over time. Regional, state, or federal shifts outside of the community can also have an impact on equalized value.

FUND DESCRIPTION

FUND 208

The Parking Permit Fund (#208) was established in the early 2000's to account for the revenues and expenses from the sale of parking permits for use of designated public parking areas and provide primary funding for operation and maintenance of public parking facilities.

- **Fund Balance** is being retained until it reaches a target balance of \$385,000, an increase from the previous target of \$120,000. This change reflects the anticipated resurfacing costs planned for 2035. Any funds accumulated in the account are designated specifically for parking lot maintenance, permit sales, and surface replacement expenses. Beginning in 2026, transfers to the General Fund will be reduced by \$5,000 each year. Prior to 2018, annual transfers were made to the General Fund for general use. That practice has been discontinued in order to build and maintain a sufficient reserve, ensuring that public parking operations are self-sustaining and reducing the need for future borrowing—ultimately saving taxpayers money on interest costs.
- **Primary Funding Source** is revenue from the sale of public parking permits.
- **Audit Classification:** Governmental, Non-Major.

GOALS & OBJECTIVES

2024/2025 GOALS

- The library will begin the expansion and renovation process for the existing library building.
- The library administrative staff will contribute to the City's monthly newsletter to send out event information, content on new materials in the collection and monthly updates on the capital campaign and building project.
- The library director and the programming and makerspace librarian will schedule a meeting with the executive director of the Whitewater Area Chamber of Commerce to discuss ways that the library can provide assistance and information to local small business owners.

FUND DESCRIPTION

FUND 235

The Ride Share Fund (#235) is used to account for the revenue and expenses related to the shared ride taxi program offered in the City. The Federal and State departments of transportation provide financial support to small communities where fare revenue is not sufficient to maintain public transport options for residents. The City outsources the operation of this service, but provides vehicles and operational funding to maintain the service. Brown Cab Service is the current provider; however, the City is exploring alternative service delivery options when the contract is re-bid in 2027 for 2028 service.

- **Fund Balance** is designated for annual operating budget and vehicle replacement.
- **Primary Funding Source** is Federal/State grants, fare revenue and General Fund transfers.
- **Audit Classification:** Governmental, Non-Major.

FUND DESCRIPTION

FUND 249

Fund 249 was established on July 30, 2022 to account for the provision of Fire and Emergency Medical Services to the City and neighboring Townships. Prior to July 30, 2022, Fire and EMS services had been contracted through WFD, Inc., a third-party non-profit organization with a 150-year tradition of volunteer service. All revenues and expenditures related to Fire and EMS services are accounted within Fund 249. A budgeted annual transfer from Fund 249 to Fund 210 provides for future Fire/EMS capital replacement needs and to segregate capital planning from operational needs..

- **Fund Balance** is designated to be retained for Fire/EMS purposes. Surplus fund balance may be transferred to the Fire/EMS Capital Equipment Fund 210 with approval of the Common Council.
- **Primary Funding Source** City of Whitewater General Fund transfer, Township contract billings, insurance/patient billing for services, and grants.
- **Audit Classification:** Governmental, Major.

FUND DESCRIPTION

FUND 810

The Rescue Squad Equipment & Education (#810) was established to account for receipt and use of donated funds held in trust by the City for the purpose of a municipal hospital in the City of Whitewater. A court order in 1989 determined that a municipal hospital was 'impossible and impractical' and that these funds could be used to benefit the Whitewater Rescue Squad as a close-alternative to a municipal hospital benefiting the community by:

- A. Purchasing technologically advanced equipment for lifesaving purposes' and
- B. Providing 'education, for Whitewater Rescue Squad members and Whitewater citizenry'.
- **Fund Balance** is held in trust to fund expenses limited to the above court guidance. While general education of the public by the Rescue Squad is permissible, Rescue Squad member training is further limited to 'advanced training such that they can become certified to use further advanced techniques and medical equipment which is now available to such specially trained individuals.
- **Primary Funding Source** is from a bequest and subsequent donations to the Rescue Squad.
- **Audit Classification:** Fiduciary, Non-Major.

FUND DESCRIPTION

FUND 820

The Rock River Stormwater Group (RRSG) Fund (#820) was established in 2008 to account for the revenue and expenses related to this group and is separate from the City budget. It is detailed here as the City provides accounting support and serves as custodian for these funds. Wisconsin DNR MS4 permits require a public education and outreach program. Member communities in the Rock River basin found that collaborating was much more time and cost effective than attempting to administer this outreach program individually. The RRSG member communities include Waupun, Beaver Dam, Jefferson, Fort Atkinson, Whitewater, UW-Whitewater, Milton, Janesville, City of Beloit and Town of Beloit. These member communities pay annual dues based on permit requirements which are based on population. Membership dues for Whitewater totaled \$5,000 in 2018. The RRSG typically hires a consultant to assist in administering the program which currently includes outreach on social media, in newspapers, at community festivals and at local schools. Training for member communities is also conducted by professional firms.

- **Fund Balance** is designated for program expenses.
- **Primary Funding Sources** is member community dues, currently totaling \$49,000 annually. Occasional grant program funds are also obtained.
- **Audit Classification:** Fiduciary, Non-Major.

Debt is issued to fund Capital Projects. Bonds are issued for eligible long-lived projects specified by state statute and typically amortized over a twenty year period. Projects that are not bond-eligible are financed through notes or direct borrowings over terms tied to their useful lives. General Obligation debt is the preferred type of debt utilized as the lowest interest cost option available. Revenue debt is normally used for Utility projects only when attractive rates are available, typically through state or federal government loan programs.

DEBT CAPACITY

Wisconsin State Statute restricts the amount of debt municipalities may incur to 5% of the Equalized Value of the taxable property within their borders. In 2024, the total Equalized value of property in Whitewater is \$976,283,200 an increase of \$115,117,600 from 2023 values. This permits the City to incur \$48,814,160 of General Obligation debt. The City's actual unpaid General Obligation Debt as of 12/31/2023 totals \$22,214,975 or 46% of the maximum permitted by law. To preserve financial flexibility and a strong credit profile, the City has established guidelines to further limit debt levels to 70% of the legal limit (equates to 3.5% of Equalized Value). Under this more restrictive Guideline, the City retains approximately \$11,954,937 of additional debt capacity as of 12/31/2023.

FUND DESCRIPTION**FUND 450**

The Capital Projects Fund (#450) is used to provide visibility to funding and expenses related to discrete capital projects in the City. Historically, the City has earmarked Utility Shared Revenue payments the City receives by virtue of having a local power generating facility to fund these projects. These payments have declined over time as the facility depreciates increasing the reliance on other sources of funding including debt.

- **Fund Balance** represents funding allocated to specific projects listed.
- **Primary Funding Source** is annual transfers from the General Fund and debt issuance.
- **Audit Classification:** Governmental, Major.

DEPARTMENT SERVICE METRICS

The Wisconsin DNR, The Federal EPA and The Wisconsin PSC dictate the water utilities performance measures. These measures are demonstrated by WDNR inspections, WDNR Sanitary Surveys, compliance to all Federal and State mandated testing and procedures, WPDES permitting compliance, Consumer Confidence Reports and the annual PSC report to show compliance in all aspects of the water utility. Our monthly WDNR report shows compliance for all daily pumpage, kilowatt, chemical addition readings as well as daily compliance water testing and filter backwashing procedures. The water utility responds to all customer complaints and emergencies in a timely fashion 24/7, 365 days a year with the best service and knowledge of procedures possible. Additionally, we maintain the City's entire water infrastructure to include wells, pumps, distribution system, hydrants, services lines and curb stops with maintenance procedures in place for best practices. The water utility's staff are Wisconsin Certified Operators and must maintain their certification by demonstrating their skills with testing and continuous education CEU's throughout the year.

GOALS & OBJECTIVES

2024/2025 OUTLOOK

- Continue in-house residential meter replacement program and cross-connection inspections. Review ways for better communication with customers on scheduling appointments.
- Continue with an outside firm to do our non-residential cross-connection program. Provide better communication to businesses on the reason for these inspections.
- Complete both private and public side water lateral material identification per DNR/EPA mandate and enter information into the EPA website by October, 2024.
- Create program and timeline to replace private and public lead laterals. Communicate with council members and affected property owners the health implications of lead laterals.
- Investigate turning the bulk water fill station from manual operation and billing to an automatic system to make it more efficient for the companies who use it.
- Monitor and review new water test standards and containment levels (like PFAS) from the EPA .

WASTEWATER UTILITY
FUND DESCRIPTION
FUND 620

The Wastewater Utility Fund (#620) was established to account for the revenues, expenses and capital planning necessary to meet State and Federal regulations in the pursuit of treating consumed water from residents, businesses and industrial facilities and returning the cleaned water back to the environment.

- **Fund Balance** is retained to use for future maintenance, equipment replacements and upgrades to the wastewater collection and treatment system.
- **Primary Funding Source** is through User Fees based on the amount of water used per customer.
- **Audit Classification:** Proprietary; Major.
- **Sewer Operating Fund:** This fund is used for paying all the expenses for the operation of the Wastewater Utility. It is recommended that the Utility maintain a cash balance of three to six months of the annual O&M budget.
- **Sewer Connection Fund:** This fund was established when sanitary sewer connection fees were implemented in the 80's. The sanitary connection fee that is collected from building permits is placed in this fund. The monies from this fund are to be used for the repair or construction of interceptor sanitary sewers, lift station construction and plant improvements.
- **Equipment Replacement Fund (ERF):** This fund is mandated by the WDNR based on the Clean Water Fund loan program. The Utility will fund the ERF using the WDNR method of maintaining a balance equal to 10% of mechanical equipment assets as determined by the City's annual audit. The required minimum ERF balance is evaluated each.
- **Sewer Repair & Replacement Fund(SRRF):** This fund was established in 2009 in conjunction with the Strand sewer rate study. The fund is used for the repair and replacement of collecting sewers for infiltration/inflow improvements and can also be used for Capital Improvement Project sewer replacement. This is a discretionary fund, thus the balance is to be determined by management. Annual transfers to this fund can be determined every year during the budgeting process based on the prior year's expenditures from the fund and planned Capital Projects. Any funding left over from large Capital Improvement Projects that required borrowing can be placed in this fund for future projects.

DEPARTMENT/FUNCTION

The Wastewater Utility is responsible for returning all consumed water within the City of Whitewater back into the environment in a responsible fashion that meets or exceeds state and federal regulations. In order to do so, utility staff is tasked with maintaining and operating the public conveyance system or the "collection system" along with the treatment facility and its associated programs.

MISSION

To efficiently operate and maintain all aspects of the Wastewater Utility in a manner that is consistent with best environmental practices while also meeting or exceeding regulatory compliance standards. Our additional duty is to respond in a prompt, courteous and professional manner when dealing with the sanitary customers of the City of Whitewater.

DEPARTMENT SERVICE METRICS

The primary performance measures that guide utility management are written into our 5-year Wisconsin Pollutant Discharge Elimination System (WPDES) permit. We have daily, weekly, monthly and annual regulatory limits which require compliance. This is accomplished through sound process operation and verified with laboratory analysis. If a violation were to occur it must be reported to WDNR representatives within 24 hours. Annually, operational success (i.e. greater pollutant removal) is reviewed and submitted as the electronic Compliance Maintenance Annual Report (eCMAR). The eCMAR ranks compliance in a grade point format. Items receiving a "C" or below requires a written response for documentation. Additionally, we compile, track and respond to all collection system complaints, monitor grease trap and dental amalgam separator ordinance compliance and maintain a testing program for septage and holding waste. All utility staff have completed or are working towards advanced level wastewater certifications. This educational component helps drive continual interest, improvements and excellence at the utility.

GOALS & OBJECTIVES

2024/2025 OUTLOOK

- For phosphorus compliance, the utility continues to work towards the final end goal of 0.075 mg/l. Currently, the utility is reaching compliance via the Multi Discharger Variance. However, this variance is scheduled to end in 2027 (it may get extended pending EPA approval). Compliance options after the termination of the MDV program vary and will continue to be evaluated. The utility will continue to work towards evaluating nutrient trading and construction options. Regardless of the chosen compliance option, there will be increased costs to reach the permitted phosphorus limits.
- Improve upon our "in-house" training program by targeting needed programs as suggested by staff and by empowering staff to lead trainings in their area of interest and knowledge. With the addition of many new staff members at the Wastewater Utility it is crucial to develop a knowledge base within staff members that provides sound succession planning as well as efficient operation of the utility.
- Utility staff will be addressing items noted on past smoke testing reports in a prioritized fashion. There is work to be done on both public and private infrastructure.
- In recent years staff has worked hard at updating the information in the GIS system. The goal is to continue updating by providing maintenance records and updated locations when sewers are reconstructed.
- As an ongoing need, we will continue to plan for and verify that we can access all off-road sanitary structures in the event of emergencies. Interceptor sewer mains will be the first lines targeted.
- Continue to evaluate bio-solids handling processes and long-term planning as it relates to increased biosolids regulations and land application availability. The utility is currently working with an engineering firm to develop a long-term plan.

STORMWATER UTILITY

FUND DESCRIPTION

FUND 630

The Stormwater Utility Fund (#630) was established to account for the revenues, expenses and capital planning necessary to comply with the State's stormwater regulations, prevent flooding and to maintain the stormwater infrastructure and equipment.

- **Fund Balance** is retained to use for stormwater improvements throughout the City.
- **Primary Funding Source** is primarily through assessing fees to all properties throughout the City. Fees are based upon Equivalent Runoff Units (ERU's), which represents a standardized unit of impervious area for each property as reasonably determined by the city.
- **Audit Classification:** Proprietary; Non-Major.

DEPARTMENT/FUNCTION

The Stormwater Utility provides for the operation, maintenance, repair and construction of catch basis, storm sewers, detention ponds, street sweeping, compost management, and lakes management.

MISSION

To provide efficient and effective operation, maintenance, repair, and construction of stormwater utility components and lake management for the citizens of Whitewater.
