AGENDA MEMO

Needs Legal Review: No
Meeting Date: December 2, 2020
Agenda Item: Proposed 2021 Budget
Presentation: Marla Keethler, Mayor and Jan Brending, Clerk Treasurer

Action Required

Adoption of Ordinance 2020-12-1069, Adopting the Budget for the City of White Salmon, Washington, for the Fiscal Year Ending December 31, 2021.

Proposed Motion

Move to adopt Ordinance 2020-12-1069, Adopting the Budget for the City of White Salmon, Washington, for the Fiscal Year Ending December 31, 2021.

Explanation of Issue

Attached is the 2021 Budget Narrative and the 2021 Budget Summary. The line item detail is provided in the "Supporting Documents" section online.

A final public hearing will be held at the December 2 meeting.

Please note that the Budget Summary and the Line Item budget has a small correction. Fund 417 Treatment Plant Reserve Fund showed a interfund transfer coming in from 402 Wastewater Fund. However, 402 Wastewater Fund did not show the corresponding interfund transfer out. That has been corrected resulting in the ending cash balance of 402 Wastewater Fund decreasing by \$15,000. The budget narrative will be amended at a later date.

The budget is balanced and ending cash balances meet the city's financial policy requirements. The budget demonstrates the need for a 1% increase (as allowed by law) in property taxes.

The Personnel and Finance Committee met on November 23 and had no comments on the proposed budget.

Recommendation of Staff/Committee

The Mayor and staff recommends the city council adopt the proposed budget for 2021.

CITY OF WHITE SALMON
PROPOSED BUDGET

FISCAL YEAR 2021
AS OF NOVEMBER 13, 2020

Mayor's Message for the 2021 Budget

To: City of White Salmon City Council and Citizens of White Salmon

It is with great honor and privilege that I submit the 2021 budget. Writing this message from an empty City Hall, where the calendar on my desk still sits on March 2020, only heightens my awareness that we look ahead to next year carrying with us many of the uncertainties and curveballs that 2020 threw our way. Public safety required us to alter work and lifestyle choices, becoming more distant from each other. That newfound art of staying apart, however, in some ways pulled certain priorities more into focus:

- the need for a responsive and accessible city government;
- increased communication tools to connect with residents;
- better prioritizing the wellbeing of our residents;
- and effectively engaging with and supporting our business owners.

I believe this proposed budget emphasizes those needs, and many others. I would like to express my respect and gratitude to my Department Heads: City Administrator Pat Munyan, Clerk/Treasurer Jan Brending, Public Works Manager Russ Avery, Police Chief Mike Hepner, and Fire Chief Bill Hunsaker. Each of them heeded the call to approach 2021 in a fiscally conservative manner, so that we could integrate the priorities of the current council in a way that is considerate and intentional.

The proposed budget is established based on projected revenues for 2021 consistent with economic forecasts for the nation and Washington State, along with knowledge of local dynamics. Expenditure projections are made based on anticipated costs as associated with general operations and maintenance, and new projects and priorities for the upcoming year

The most significant proposal in this budget is the addition of a Land Use Planner. It is my fervent belief that intentional planning is what will set White Salmon on the right course to achieve long-term resiliency as a small-town that is affordable for residents, appealing to tourists, welcoming of entrepreneurs, and supportive of right-sized economic development.

Central to achieving each of these tenets is how we approach development and the best use of our land. We can no longer continue on a path of investing in strategies and planning documents without committed stewardship that ensures implementation of those visions and goals. There is no better example of this failure than what happened to the Washington Street Trailer Court development this past year. Many of the policies and goals in the 2012 Comprehensive Plan that could have protected the homes of many of our neighbors' families were never realized in a timely manner. While we made progress in belatedly aligning a new Mobile Home Zone ordinance with those 2012 policies, it doesn't change the fact that 20 families were forced to relocate in the midst of a pandemic.

The effects of years without intentional - and consistent - focus on land-use planning are being felt most on the issue of affordable housing. As author Connor Dougherty opined in his book *Golden Gates*, "zoning says a lot about who we are and who we are becoming. At least at the local level, zoning is democracy, and democracy is zoning." We will realize a completed Comprehensive Plan this upcoming year that aims to shape the next 20 years. Making sure that shape comes to life with equity in mind will require more follow through and strategic action than we have relied upon in the past. There are many pieces to solve the puzzle of truly achieving long-term affordable housing, but I do believe this is an important part.

Another proposal I would like to call attention to is the request to add a social services position within the budget for our police department. Chief Mike Hepner has passionately and faithfully pushed for such a position for the last three years, if not longer. Mental health struggles in our community have been a heartbreaking issue that our officers have seen firsthand, and with a keen awareness that the best support for the individual in need is often professional support of another kind. To continue turning a blind eye to this pressing issue is a policy failure, and that lies with those of us elected to represent the public's interests. Having a belief in the intrinsic worth of all human beings, even when they are at their most fragile, should serve as a guidepost for how to make public safety centered on the public's actual needs.

Many of the themes in this budget call to mind the aims of the Diversity Resolution adopted by the council in 2019, and in ways large and small bring them to the forefront of how we approach the operation of the city. We continue to recognize that dignity and equal rights of all people are the foundation of freedom, justice, and peace. From affordable housing to equity in city programs and community-focused public safety, I believe this budget thoughtfully aims to move these efforts forward in ways that are appropriate for our community's needs. Transformative change does not happen overnight, let alone in one year, and so just as I humbly accept the charge of running the city responsibly and with purpose, I also graciously ask to be held accountable and challenged to see issues from a lens other than my own.

Accounting Policies and Fund Structure

The City of White Salmon was incorporated on June 3, 1907 and operates under the laws of the state of Washington applicable to a class three, non-charter code city with a Mayor-Council form of government. The city is a generalpurpose local government and provides public safety, fire prevention, street improvement, parks and recreation, water, wastewater collection, and general administrative services.

The city reports financial activity in accordance with the *Cash Basis Budgeting, Accounting and Reporting System* (BARS) Manual prescribed by the State Auditor's Office under the authority of Washington State law, Chapter 43.09 RCW. This manual prescribes a financial reporting framework that differs from generally accepted accounting principles (GAAP) in the following manner:

- Financial transactions are recognized on a cash basis of accounting as described below.
- Component units are required to be disclosed, but are not included in the financial statements.
- Government-wide statements, as defined in GAAP, are not presented.
- All funds are presented, rather than a focus on major funds.
- The *Schedule of Liabilities* is required to be presented with the financial statements as supplementary information.
- Supplementary information required by GAAP is not presented.
- Ending balances are not presented using the classifications defined in GAAP.

Financial transactions of the government are reported in individual funds. The following fund types are used:

GOVERNMENTAL FUND TYPES

General Fund (001 Current Expense)

This fund is the primary operating fund of the government. It accounts for all financial resources except those required or elected to be accounted for in another fund.

101 Street Fund

This fund is the operating fund for the management of the city's streets.

107 Pool Fund

This fund was the operating fund for the management the city's pool. This fund will be closed in 2020 with funds transferred to the Current Expense Fund (originating fund for sources of monies).

Special Revenue Funds

These funds account for specific revenue sources that are restricted or committed to expenditures for specified purposes of the government.

These funds are as follows:

110 Fire Reserve Fund – This fund is used for the purchase of equipment and other capital items associated with and used in the fire department.

112 General Reserve Fund – This fund is used for emergency purposes as determined and approved by the city council. Monies held in this fund are not to be used for recurring costs, general operating costs or planned capital items. The funds may be used for interfund loans provided that the interest rate is a minimum of two percentage points above the Local Government Investment Pool earning rate and the loan must not exceed a payback period of five years, however it is recommended to not exceed 3 years.

121 Police Vehicle Reserve Fund – This fund is used for the purchase of vehicles and equipment for use in the police department.

307 New Pool Construction Fund – This fund was established to hold moneys collected by donations, grants, loans or bonds for the construction of a new pool. The monies currently held in this

fund are donations. It is the intent of the city, through an Intergovernmental Agreement, to turn the funds over to the White Salmon Valley Pool Metropolitan Park District for construction of a new pool.

Debt Service Funds

These funds account for the financial resources that are restricted, committed, or assigned to expenditures for principal, interest and related costs on general obligation long-term debt. This does not include debt associated with proprietary or enterprise fund activities, i.e. water and wastewater.

200 – Unlimited GO Bond Fund – This fund was used for the repayment of bonds issued for improvements made to the fire hall/public works shop. The bonds have been repaid and the fund will be closed in 2020 with funds transferred to Current Expense.

Capital Projects Funds

These funds account for financial resources which are restricted, committed, or assigned for the acquisition or construction of capital facilities or other capital assets.

108 Municipal Capital Improvement Fund – This fund is used for capital improvements to the city as designated by the city council.

PROPRIETARY (ENTERPRISE) FUND TYPES

These funds account for operations that provide goods or services to the general public and are supported primarily through user charges.

401 Water – This fund is the operating fund for the city’s water system. All operations and maintenance costs are provided for in this fund. Separate “managerial” funds have been established for capital improvements and debt as provided below.

408 Water Reserve Fund – This fund is used for keeping track of revenues and expenditures for large capital projects.

412 Water Rights Acquisitions Fund - The monies in this fund are used to repay principal and interest related to the debt for acquiring water rights.

412 Water Bond Redemption Fund - This fund is used for repayment of principal and interest related to bonds issued for debt to fund water capital improvements. The city is repaying three bonds from this fund: USDA Tohomish Street, USDA Jewett Blvd., and Berkadia – 1981 Water/Sewer Bonds.

415 Water Bond Reserve Fund – Bond documents require the city to have a water bond reserve fund that establishes a certain level of funding. The purpose of this funds is to have monies available in the case that revenues from the water department are not enough to cover bond payments due.

418 Water Short Lived Asset Reserve Fund – Bond documents require the city to have a water short lived asset reserve fund and those documents establish a certain threshold for monies to be transferred from the water fund. The city may also transfer additional funds to be used for the purchase of short-lived assets when it determines is necessary. For example, the city is currently replacing existing water meters with radio read water meters and has been transferring additional funds each year to cover the costs of these meters. Transfers for this fund have been increased in 2020 to meet the requirements of the city’s new USDA Rural Development loan.

420 USDA Rural Development Jewett Water – This fund is established per requirements of USDA Rural Development to cover the revenues and expenditures associated with the Jewett Water Main Improvements capital project. Future principal and interest payments for the debt incurred for this project will be repaid through the 412 Water Bond Redemption Fund.

The costs associated with that contract are included in this fund. Separate “managerial” funds have been established for capital improvements and debt as provided below.

409 Wastewater Reserve Fund - This fund is used for keeping track of revenues and expenditures for large capital projects.

414 Wastewater Redemption Fund - This fund is used for repayment of principal and interest related to bonds issued for debt to fund wastewater capital improvements. The city is repaying one bonds from this fund: Berkadia – 1981 Water/Sewer Bonds.

FIDUCIARY FUND TYPES

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of others.

601 Remittances – These funds are sent to the City of White Salmon from West District Court. The funds belong to the State of Washington and Klickitat County and are the result of charges and fines assessed by West District related to City of White Salmon cases. The funds are transmitted to the State of Washington and Klickitat County in total each month. In addition, the city collects state fees associated with building permits. These fees are also transmitted to the city on a monthly basis.

Note: The large increase in “Services and Charges” for Expenditures is due to two large projects planned for 2020. The city has received funding for conducting a feasibility study related to using water from the White Salmon River. This project is funded by grants from the Washington Department of Ecology, Yakama Nation, and matching funds from the city. The cost is \$250,000. In addition, the city has received a Public Works Trust Fund Loan to begin the design and engineering for replacing the city’s 14-inch main line from Buck Creek. That cost is \$750,000. These projects are carrying over into 2021.

AGENDA MEMO

Needs Legal Review: Yes
Council Meeting Date: December 2, 2020
Agenda Item: Acceptance of Water, Wastewater and Street Improvements, Center Place
Presented By: Pat Munyan, City Administrator

Action Required

Acceptance of water, wastewater and street improvements on Center Place and authorization to pay invoice from Andrew Harmon Construction in the amount of \$44,652.42.

Motion

Motion to accept water, wastewater and street improvements on Center Place per Environmental Mitigation Agreement between the City of White Salmon and Andrew Harmon, dba Andrew Harmon Construction and to authorize payment of the city's share of costs in the amount of \$44,652.42.

Explanation of Issue

In 2019, the City of White Salmon entered into an environmental mitigation agreement with Andrew Harmon Construction pursuant to the Exaction Nollan/Dolan test to make infrastructure improvements on Center Place. The City determined that the public works development standards were not proportional to the development and therefore a cost split agreement was entered into between the City and the Developer (Andrew Harmon) to mitigate the cost. Staff has reviewed the billing invoices and the environmental mitigation agreement and finds that the terms of the agreement have been satisfied.

The project has been fully completed. Attached is a bill of sale transferring Andrew Harmon Construction's financial interest in the street, water and sewer improvements to the City of White Salmon.

Staff Recommendation

The City Administration recommends City Council to except the improvements as part of the City of White Salmon infrastructure system and authorize payment of invoice from Andrew Harmon Construction in the amount of \$44,652.42.

BILL OF SALE – WATER/SEWER & STREET IMPROVEMENTS

THE UNDERSIGNED hereby conveys and transfers to THE CITY OF WHITE SALMON (the “City”) the following described personal property: See attached as-built plans and invoices for details of property.

This conveyance is made in consideration of the City’s agreement to provide maintenance of said property as part of City’s water utility and to provide water services pursuant to the City’s ordinances, policies, resolutions and regulations, which may be amended from time to time.

The undersigned, and its successors and assigns, covenants and agrees with the City, its successors and assigns, that the undersigned is the owner of said property and has the right and authority to sell the same, that the property is free of all liens or encumbrances, and that the undersigned will, and does, hereby warrant and agree to defend the title of the City, its successors and assigns, against the claims of all third parties claiming to own the same or claiming any interest therein or encumbrance thereon.

The undersigned warrants that all bills and taxes relating to the construction and installation of the water main, sewer main and appurtenances, including street restoration, have been paid in full and that there are no lawsuits pending or threatened involving this project. The undersigned further warrants that in the event any lawsuit is filed as a result of, or involving, this project the undersigned will undertake to defend the lawsuit with legal counsel acceptable to City and will accept responsibility for all costs of litigation, including costs on appeal, and will hold the City harmless and promptly pay any judgment rendered against the City.

The undersigned further warrants that all laws, ordinances and regulations respecting construction of this project have been complied with, and that the property is in proper working condition, order and repair and fit for purposes intended; i.e., for use as a water distribution system including distribution and supply lines adequate for the service intended and has been constructed in accordance with the conditions, standards and specifications of the City.

The undersigned covenants and agrees with the City to replace, repair and correct any defect in materials or workmanship in respect to the personal property subject to this Bill of Sale arising during a period of two (2) years from the date hereof, without cost to the City. The undersigned shall further warrant the corrected work for two (2) additional years after acceptance of the corrected work by the City.

SECTION 4.05. PROMULGATION OF REASONABLE RULES OF SERVICE. City shall have the right to promulgate from time to time, reasonable rules and regulations relating to the furnishing of wastewater and water to consumers within the Property encompassed by this Agreement. Such rules and regulations may relate to, but are not limited to, rates, deposits and future connection charges and the right to discontinue service under certain conditions. The water rates to be charged by City to said customers shall be the rates now or hereafter charged to other customers within the County or City service area of the City of White Salmon's Wastewater and Water systems. Developer hereby acknowledges and agrees that rates are subject to change at any time by City.

SECTION 4.06. EXCLUSIVE RIGHTS OF CITY.

- a. City shall have the exclusive right to furnish wastewater and water service to consumers within the Property covered by this agreement. (exception; parcels not within 500 feet of a wastewater collection line are not subject to this agreement)
- b. The City is empowered to require the owner or occupant of any land within the Developer's Property to enter into a written service contract or Agreement for retail wastewater and water service under the standard terms and conditions as promulgated by the City;
- c. The City reserves the right to make full use of the wastewater and water facilities to be owned by the City as contemplated herein to serve other customers at any time; and to take all other actions with respect to its wastewater and water systems as permitted by law.

SECTION 4.07. DEFAULT. The occurrence of any of the following during this Agreement shall constitute a default:

- a. Developer's failure to pay when due any sums, fees, charges, costs or expenses which are payable under this Agreement;
- b. Developer's failure in the performance or observance of any of the terms and conditions of this Agreement;
- c. There shall be filed by or against Developer in any court or other tribunal pursuant to any governmental requirement, a petition in bankruptcy or insolvency proceedings or for reorganization or for the appointment of a receiver or trustee of all or substantially all of Developer's Property, unless such petition shall be filed against Developer and Developer shall in good faith promptly thereafter commence and diligently prosecute any and all proceedings appropriate to secure the dismissal of such petition and shall secure dismissal within thirty (30) days of its filing;
- d. Developer shall be adjudicated a bankrupt or an insolvent or take the benefit of any federal reorganization or composition proceeding, make an assignment for the benefit of creditors, or take the benefit of an insolvency law;
- e. A trustee in bankruptcy or a receiver shall be appointed or elected or had for Developer, whether under federal or state laws; or
- f. Developer's interest under this Agreement shall be sold under any execution or process of law.

In the event of Developer's default under this Agreement, the City's obligations under this Agreement shall be voidable at the option of the City.

SECTION 4.08. REMEDIES. Should Developer be in default of this Agreement, it is agreed that the City shall be entitled to any and all remedies under Washington State law, and in addition thereto, the City shall be entitled to any or all of the following remedies, which are cumulative:

- a. No final inspections shall be approved by the City;
- b. The City shall have the right to charge interest at a rate equal to the maximum rate allowed by Washington State law on any payments due to City from Developer which were not paid. The interest, when applicable, shall accrue from the due date of payment as provided in this Agreement; and
- c. The City shall be entitled to lien the Property pursuant to RCW 35.21.290 and foreclose the lien in satisfaction of any payments due under this Agreement.

SECTION 4.09. MISCELLANEOUS PROVISIONS.

- a. This Agreement constitutes the entire agreement between the Parties for all matters contained herein and shall supersede all previous agreements or representations either oral or written with respect to all matters contained herein. All prior agreements between Developer and City pertaining to any matters specifically covered by this Agreement are hereby canceled and declared of no force and effect to the extent they are in conflict herewith.
- b. If any section, subsection, sentence, clause, phrase or portion of this Agreement is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portions hereof.
- c. This Agreement shall be recorded by the Developer at Developer's expense, among the Public Records of Klickitat County, Washington, for the particular purpose of placing all owners or occupants of Developers Property connected to or to be connected to said water systems of City upon notice of each and every one of the provisions herein contained to the same extent and with the same force and effect as if said owners and occupants had joined with the Parties to this Agreement in the execution thereof; and the acquisition or occupancy of real property in the Developer's Property connected to or to be connected to the said water systems of City shall be deemed conclusive evidence of the fact that the said owners or occupants have consented to and accepted the Agreement herein contained and have become bound thereby.
- d. This Agreement constitutes a covenant running with the land and shall be binding on Developer, its successor or assigns as well as all future owners of the Property.
- e. The headings and subheadings use throughout this Agreement are for convenience only and have no significance in the interpretation of the body of this Agreement, and the Parties hereto agree that they be disregarded in construing the provisions of this Agreement.

- f. The recitals to this Agreement are true and correct and are hereby incorporated as an integral and material part of this Agreement.
- g. The signature of any person to this Agreement shall be deemed a personal warranty by that person that he has the power and authority to bind any corporation, partnership or any other business entity for which he purports to acts.
- h. In the event of any disputes and/or litigation arising from this Agreement, the prevailing party shall be awarded reasonable attorney's fees and costs (including paralegal) at trial and through and including appeals.
- i. No waiver by City of any breach by Developer of any term or condition of this Agreement, and no failure by City to exercise any right or remedy with respect of any such breach, shall constitute a waiver or relinquishment for the future, or bar any right or remedy of City with respect to any other breach of such term or condition or any breach of any other term of this Agreement. The receipt by City of any waiver of payment, any payment or any portion of payment required under this Agreement shall not operate as a waiver or an accord and satisfaction of the rights of City to enforce the payment or portion of a payment then or subsequently due, to terminate this Agreement or to invoke any other appropriate remedy which City may select as provided by this Agreement or by law.

IN WITNESS WHEREOF, the Parties hereto have caused these presents to be executed on the day and year indicated below:

Some plans may have restrictions on the type of Equipment that can be activated on them. Commercially Available Plans options, features, and applications may be made available under this agreement. The rights granted to Customer herein for access to and use of the M2M Management Center are specific to Customer and may not be transferred to another party without Verizon Wireless' prior written consent. Verizon Wireless Plan and Feature Details

Plans and Associated Charges: Billing, shipping and end-user address must be within an area where Verizon Wireless is licensed and provides service. Charges for calls will be based on the cell sites used, which may be outside the calling plan coverage area even when the subscriber is physically within the coverage area. Time of the call is based on the telephone switching office that carries the call, which may be different from the time of day shown on subscriber's phone. Unused monthly minutes and/or Megabytes are lost. On outgoing calls, charges start when subscriber presses **SEND** or the call connects to a network, and on incoming calls, when the call connects to a network (which may be before it rings). A call may end several seconds after subscriber presses **END** or the call disconnects. Calls made on the Verizon Wireless network are only billed if they connect (which includes calls answered by machines). Billing for airtime and related charges may sometimes be delayed. Calls to "911" and certain other emergency services are toll-free and airtime-free. Airtime may be charged when dialing toll-free numbers.

Anytime Minutes: Anytime Minutes apply when making or receiving calls from a calling plan's rate and coverage area. Coverage information is available at www.verizonwireless.com. Airtime is rounded up to the next full minute. Allowance minutes/Megabytes are not transferable except as may be available on plans with sharing. In order to gain access to coverage in newly expanding markets, subscribers must periodically dial *228 to update roaming information from voice or Smartphone devices; from the VZAccess Manager, go into "Options" and click "Activation," while in the National Enhanced Services Rate and Coverage Area every three months. This may alter the rate and coverage area. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

Long Distance: Unlimited domestic long distance is included when calling from the plan's rate and coverage area, unless otherwise specified in the plan.

Unlimited Messaging: Unlimited Messaging is included with select plans and is available in the National Enhanced Services rate and coverage area in the United States. Messaging applies when sending and receiving (i) text, picture and video messages to and from Verizon Wireless and Non-Verizon Wireless customers in the United States, (ii) Text, picture, and video messages sent via email, (iii) Instant messages, and (iv) Text messages with customers of wireless carriers in Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands. Messaging is subject to Text, Picture, and Video Messaging Terms and conditions. Premium messages are not included. **Friends & Family for Business:** Calls directed to and received from an account's listed Friends & Family numbers shall not use Monthly Anytime Voice Minutes. For Nationwide for Business plans with 900 minutes or more or 450 minute plan with the share option can add up to ten (10) Friends & Family numbers. Only calls from Nationwide Coverage Area to designated domestic landline or wireless numbers (excluding Directory Assistance, 900 numbers, or customer's own wireless or Voicemail access numbers) may be added; all qualifying lines on an account share the same Friends & Family numbers, up to account's eligibility limits; My Verizon, My Business Account or Verizon Enterprise Center is required to set up and manage Friends & Family numbers.

Mobile to Mobile Calling: Mobile to Mobile Calling minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless subscriber while in the Nationwide Rate and Coverage area. Mobile to Mobile calls must originate and terminate while both Verizon Wireless subscribers are within the Mobile to Mobile Calling area. Mobile to Mobile Calling is not available (i) with fixed wireless devices with usage substantially from a single cell site, (ii) for data usage including Push to Talk Plus calls, Picture or Video Messaging (iii) if Call Forwarding or No Answer/Busy Transfer features are activated, (iv) for calls to Verizon Wireless customers using any of the International services, (v) for calls to check Voice Mail, (vi) in those areas of Louisiana and Mississippi where the users roaming indicator flashes, (vii) in Canada and Mexico and (viii) to users whose current wireless exchange restricts the delivery of Caller ID And (viii) for incoming calls if Caller ID is not present or Caller ID Block is initiated. Mobile to Mobile Calling minutes will be applied before Anytime Minutes.

Night and Weekend Minutes: Apply to calls made in a calling plan's rate and coverage area only during the following hours: 12:00 am Saturday through 11:59 pm Sunday and 9:01 pm to 5:59 am Monday through Friday. If both Night and Weekend and Mobile to Mobile Calling minute allowances apply to a given call, Mobile to Mobile Calling minutes will apply before Night and Weekend minutes.

However, if either allowance is unlimited, the unlimited allowance will always apply first.

Nationwide for Business Share Option: The Share Option is available to businesses with a minimum of five (5) Nationwide for Business lines on the same account with the share option. The Monthly Anytime Minutes of all lines on an account will be aggregated, and then allocated first to the line with the highest anytime minute usage, and then to the line with the next highest usage.

Push to Talk Plus: Push to Talk Plus (PTT+) capable Equipment required. Push to Talk Plus capable Equipment can only be used with a Push to Talk Plus calling plan. **Subscribers switching from a Push to Talk Plus Calling Plan to another calling plan may not be able to use certain Push to Talk Plus capable Equipment with the new plan.** Push to Talk Plus calls may only be made with other Verizon Wireless Push to Talk Plus subscribers. Push to Talk Plus Subscribers may initiate or participate on a call, simultaneously, with as many as 250 total participants (total is limited to (50) if interoperating between 3G and 4G participants). Administrators can be designated to manage the Push to Talk contact lists via a single website interface with a single user name/password. Existing Push to Talk Subscriber Equipment may require a software upgrade to use Push to Talk Plus or replacement with a Push to Talk Plus capable device. Push to Talk Plus is only available within the National Enhanced Services Rate and Coverage Area and WiFi access points. There will be a delay from the time a Push to Talk Plus call is initiated until the Push to Talk Plus call is first received by the called party. If an incoming voice call is received while on a Push to Talk Plus call the voice call may be answered and the Push to Talk Plus placed on hold. If an incoming Push to Talk Plus call is received while on a Push to Talk Plus call the PTT call icon can be selected to connect to the Push to Talk Plus call. If the incoming voice or Push to Talk Plus call is not answered a missed call alert will display. Network registration information will be sent to the Equipment each time it is powered on in the National Enhanced Services Rate and Coverage Area, each time the Subscriber travels into the National Enhanced Services Rate and Coverage Area, and every 12 hours if the Subscriber stays within the National Enhanced Services Rate and Coverage Area. While the updated network registration information is being sent to the Equipment, incoming voice calls will go directly to voice mail. Contact list cannot be modified from certain Equipment. Subscriber cannot prevent others who have the Subscriber's MTN from entering the MTN into their Push to Talk contact list. Only one person can speak at a time during a Push to Talk Plus call. In-Call Talker Override (Talker Priority) allows a pre-determined user priority to take the floor to communicate urgent message over participant. Push to Talk Plus services cannot be used for (i) access to the Internet, intranets or other data networks, except as the device's native applications & capabilities permit, (ii) any applications that tether Equipment to laptops, personal computers or other devices for any purpose. Please visit our website www.verizonwireless.com for additional Push to Talk Plus information.

International Long Distance: You need International Eligibility to make international calls to most countries, but you can make calls to some North American destinations without it. Additional surcharges may apply when calling certain countries; see verizonwireless.com/International for details.

Verizon Wireless International Long Distance Value Plan: International Eligibility required to call most countries. Value Plan feature is not available on all Plans. Rates are subject to change without notice. Standard International Long Distance rates apply in addition to airtime charges per your Plan on calls made from the Verizon Wireless network. Rates and service availability may vary when your phone's banner displays "Extended Network." Value Plan rates apply only on calls to Value Plan Countries made from your Plan's Rate and Coverage Area. If a subscriber's Plan's Rate and Coverage Area includes calls to any Value Plan country, those calls will be billed per the Plan. Except when roaming on another carrier's network, in which case that carrier's rates, taxes and surcharges apply. For Value Plan subscribers, calls made from the Verizon Wireless network to countries not included in the Value Plan will be billed at standard International Long Distance rates. Additional surcharges may apply when calling certain destinations, see www.verizonwireless.com/international for details.

International Roaming: Some services, such as premium text messaging, directory assistance, entertainment lines and third-party services, may be available, and charges for these services will be billed (along with applicable toll

Verizon Wireless Plan and Feature Details

charges) in addition to roaming rates. Message-waiting-indicator service is not available where Text Messaging is not available. When using International Phone, or International Data services, or if you subscribe to a Nationwide Plus Canada or Nationwide Plus Mexico Plan, and you're roaming near country borders, calls may be carried by a cell site located in a neighboring country and billed at that country's rates. Verizon Wireless will terminate your service for good cause if less than half of your voice or data usage over three consecutive billing cycles is on the Verizon Wireless National Enhanced Services Rate and Coverage Area. See verizonwireless.com/International for rates and destinations, which are subject to change without notice. International Eligibility required for GSM roaming, and for roaming in many destinations. Rates, terms and conditions apply only when roaming on participating GSM networks in published destinations. Availability of service, calling features, and Text messaging varies by country and network and may be restricted without notice. You must add International Eligibility to your account to roam in many destinations. Visit verizonwireless.com/narooming. By using Equipment outside the United States, subscriber is solely responsible for complying with all applicable foreign laws, rules and regulations ("Foreign Laws"), including Foreign Laws regarding use of wireless phones while driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that may result from subscriber's failure to comply with Foreign Laws.

Roaming in GSM countries: GSM International Phone, activated in the United States with compatible subscriber Identity Module (SIM) card required. Rates, terms and conditions apply only when roaming on participating GSM networks in published International Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. See www.verizonwireless.com for coverage and airtime rates. Service in certain countries may be blocked without prior notice. Where Text messaging is available, Customer will be charged \$0.50 for each message sent and \$0.05 for each message received. Text messaging rates are subject to change. Text messages may be sent only to MTNs of (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging. Check www.vtext.com for the most current list of participating foreign carriers.

Data Services: Verizon Wireless charges you for all data and content sent or received using our network (including any network overhead and/or Internet Protocol overhead associated with content sent or received), as well as resolution of Internet Protocol addresses from domain names. Sending or receiving data using a virtual private network (VPN) involves additional VPN overhead for which you will be charged. Please note that certain applications or widgets periodically send and receive data in the background, without any action by the user, and you will be billed for such data use. Applications may automatically re-initiate data sessions without you pressing or clicking the **SEND** or connect button. Data sessions automatically terminate after 24 hours. A data session is inactive when no data is being transferred. Data sessions may seem inactive while data is actively being transferred, or may seem active when the data is actually cached and data is not being transferred. If you have a Data Only plan and use voice service, domestic voice calls will be billed at \$0.25/minute.

Verizon Wireless strives to provide customers with the best experience when using our network, a shared resource among tens of millions of customers. To further this objective, Verizon Wireless has implemented Network Optimization Practices designed to ensure that the overwhelming majority of data customers aren't negatively impacted by the inordinate data consumption of a few users. The reduction can last for the remainder of the current bill cycle and the immediately following bill cycle to ensure high quality network performance for other users at locations and times of peak demand. For a further more detailed explanation of these techniques please visit www.verizonwireless.com/networkoptimization. Data transfer amounts will vary based on application. If you download an audio or video file, the file may be downloaded in sections or in its entirety; data charges will apply to the portion downloaded, regardless of whether you listen to or watch all of it. You may access and monitor your own data usage during a particular billing period, including during the Return Period, by accessing My Verizon online or by contacting Customer Service.

Data Services: Permitted Uses: You can use Verizon Wireless Data Services for accessing the Internet and for such uses as: (i) Internet browsing; (ii) email; (iii) intranet access (including accessing corporate intranets, email and individual productivity applications made available by your company); (iv) uploading, downloading and streaming of audio, video and games; and (v) Voice over Internet Protocol (VoIP).

Data Services: Prohibited Uses. You may not use our Data Services for illegal purposes or purposes that infringe upon others' intellectual property rights, or in a manner that interferes with other users' service, that violates trade and economic sanctions and prohibitions as promulgated by the Departments of Commerce, Treasury or any other U.S. government agency, that interferes with network's ability to fairly allocate capacity among users, or that otherwise degrades service quality for other users. Examples of prohibited usage include: (i) server devices or host computer applications that are broadcast to multiple servers or recipients such that they could enable "bots" or similar routines (as set forth in more detail (ii) below) or otherwise denigrate network capacity or functionality; (ii) "auto-responders," "cancel-bots," or similar automated or manual routines that generate amounts of net traffic that could disrupt net user groups or e-mail use by others; (iii) generating "spam" or unsolicited commercial or bulk e-mail (or activities that facilitate the dissemination of such e-mail); (iv) any activity that adversely affects the ability of other users or systems to use either Verizon Wireless' services or the Internet-based resources of others, including the generation of dissemination of viruses, malware, or "denial of service" attacks; (v) accessing or attempting to access without authority, the information, accounts or devices of others, or to penetrate, or attempt to penetrate Verizon Wireless' or another entity's network or systems; or (vi) running software or other devices that maintain continuous active Internet connections when a computer's connection would otherwise be idle or "any keep alive" functions, unless they adhere to Verizon Wireless' requirements for such usage, which may be changed from time to time.

Verizon Wireless further reserves the right to take measures to protect our network and other users from harm, compromised capacity or degradation in performance. These measures may impact your service, and Verizon Wireless reserves the right to deny, modify or terminate service, with or without notice, to anyone Verizon Wireless believes is using Data Services in a manner that adversely impacts the Verizon Wireless network. **Verizon Wireless may monitor your compliance, or other subscribers' compliance, with these terms and conditions, but Verizon Wireless will not monitor the content of the communications except as otherwise expressly permitted or required by law.** [See verizonwireless.com/privacy]

We will limit throughput or amount of data transferred exceeding 25 GB in any given billing cycle on any line, in any given billing cycle, for all additional usage for the remainder of the then-current bill cycle for the line that exceeds the data usage, and reserve the right to deny or terminate service, without notice, to anyone we believe is using an Unlimited Data Plan or Feature in any manner prohibited above or whose usage adversely impacts our network or service levels. Call Filter Service Attachment to Verizon Wireless Agreement

Note: ¹A profile is defined as a Customer's overarching account of record under which Customer may have multiple billing accounts

This Call Filter Service Attachment ("Call Filter Attachment") to the Agreement between Customer and Verizon Wireless sets forth the terms and conditions specific to the Call Filter Service (described below) to be provided by Verizon Wireless to Customer hereunder. If there are any inconsistencies between this Call Filter Attachment and the Agreement, this Call Filter Attachment shall control with respect to the Call Filter Service functionality or operation. Any capitalized but undefined terms used in this Call Filter Attachment shall have the meanings given such terms in the Agreement.

1. **Call Filter Service Overview.** Verizon Wireless's Call Filter Service allows Customer to take manage its calls (the "Service").
2. **Call Filter and Call Filter Plus Service Description.** Call Filter is available to Customer for no additional monthly charges, and provides spam protection (spam alerts, blocking and reporting). Call Filter Plus provides added protection with caller ID and other premium features

for a monthly charge, which are set forth in Exhibit A attached hereto. Call Filter utilizes network-based functionality to provide spam alerts and caller ID information on Customer's devices, and will not require the Call Filter application for these features. Spam blocking and other enhanced spam protection tools require the Call Filter application and a compatible device. Availability of certain features will vary depending on the device. For a full list of compatible devices and available features by device, click on Supported Devices at <https://www.verizonwireless.com/solutions-and-services/call-filter/>. Basic phones will receive network-based spam protection. Call Filter requires Verizon Wireless's 4G LTE network; limited features of the Service may be available if Customer is roaming on a VoLTE network outside of Verizon Wireless's 4G coverage area.

3. **Call Filter Limitations.** Call Filter is not available for incoming calls from restricted or unlisted numbers. Call Filter does not detect spam calls from international numbers, but Customer may choose to block calls from international numbers. Call Filter utilizes analytics and databases that are continually evolving, including spam reporting by customers. Call Filter may not work with some of our other services like NumberShare or eSIM lines.
4. **Spam Protection and the Call Filter Application.** Call Filter will alert Customer when Customer receives potential spam calls and allows Customer to turn on the spam filter to automatically block (send directly to voicemail) spam calls based on Customer's preferred risk level (as determined by Customer in the Call Filter application). If Customer enrolls in Call Filter through the Call Filter application, Verizon will automatically turn on Customer's spam filter to block all high-risk spam calls, but Customer can always turn off or adjust the blocking within the Call Filter application. Call Filter Plus, provides additional protection with caller ID for unknown numbers, access to a risk assessment meter for each spam call, reverse spam number lookup, and additional categories of spam alerts including "Robo Caller" or "Potential Fraud." With Call Filter Plus, depending upon Customer's device, Customer may also be able to view a list of callers that have been identified as spam or blocked, and block and un-block specific numbers. Call Filter's spam detection and block management may inadvertently mislabel or block legitimate callers including those to whom Customer may have given consent to communicate with via Customer mobile number. Customer should check Customer voicemail to determine if the caller is legitimate (if they left a voice message and if Customer have voicemail enabled). Verizon Wireless does not guarantee that all calls that are spam will be detected. Customer's spam settings such as spam filters and personal block and spam lists will be permanently deleted once Customer changes devices, uninstalls the Call Filter application, unsubscribes or downgrades the Service, or in the case of Android users, disables the Call Filter application or clear application cache or data.
5. **Caller ID.** Caller ID, available with Call Filter Plus, displays the name, phone number, city and state of a caller's phone number, if these details are available and supported by Customer's device. Some devices may only display the caller's name as the Call Filter may not be available on all devices. Some devices also allow identification of text messages when using an eligible messaging application. Android users may also see the caller's uploaded photo if available.
6. The caller's identity may not show if they are labelled as Robo Caller, Potential Spam or Potential Fraud on certain operating systems. Customer's saved contact names will show instead of the caller identification (so if a call would normally show as a Robo Caller with the Service, but is in Customer's list of contacts, that contact name will show instead). If Customer uploads a photo, Customer's photo will be seen by other Verizon Wireless customers that use the Service but will not override a Customer's contact photo (uploading is not available for all devices).
7. **Data Charges.** Subject to the Agreement, data charges may apply for download of the application and use of the Service. Call Filter does not operate on Wi-Fi, so data charges may apply when using the Service even if Customer device is also connected to Wi-Fi. If Customer's device is eligible for the uploading or receiving of a picture, data charges apply to such uploading and also for receiving pictures. Such data charges will be billed to Customer's Verizon Wireless account according to Customer's data plan. The Service will automatically renew every month unless canceled. For Call Filter Plus, Customer will be billed a Monthly Access Fee as specified in Exhibit A.
8. **Privacy.** Verizon Wireless may use information about Customer's activity in the Service, subject to our Privacy Policy, which can be found at <http://www.verizon.com/about/privacy/>. In order to provide the Service to Customer, Verizon Wireless will access the following information: MTN, contacts, call log, and messages (Android devices only). Verizon Wireless does not share information for any other purposes other than to render the Service. While a Customer end user can review or turn off these permissions at any time in the device settings, without access to that information, the Service will not be provided to that device.
9. **Licenses and Restrictions.** Call Filter is the property of Verizon Wireless or its licensors. Call Filter software and any application installed on Customer devices are licensed and not sold to Customer. Verizon Wireless does not monitor or control the content Customer chooses to send via the Service and, Verizon Wireless disclaims all responsibility for such content. Regulatory Surcharges and Fees

In addition to taxes, charges and fees that Verizon is required to collect, we also collect charges to recover or help defray costs of taxes and governmental surcharges and fees imposed on us, and costs associated with governmental regulations and mandates on our business. These charges include state-specific surcharges and surcharges that are imposed nationwide. These nationwide surcharges include the Federal Universal Service Charge, the Regulatory Charge and the Administrative Charge. These surcharges are Verizon charges, not taxes, and are subject to change. Because these surcharges are not taxes, your tax exemptions, if any, will not apply to these charges. So long as the customer has not elected to suppress bill notices, we provide notice of surcharge rate changes on the monthly bill.

Federal Universal Service Charge

The FCC collects a fee from all carriers for the Federal Universal Service Fund (FUSF). The FCC uses the FUSF monies to promote universally affordable telecommunications and information services to all Americans, including low-income consumers, eligible schools, libraries and rural healthcare providers. The FCC allows carriers to pass through this fee to customers. The Federal Universal Service Charge (FUSC) collected by Verizon is a percentage of the customer's monthly bill and is used to defray the costs of the FUSF. The FUSC is collected on most items on the bill, other than data charges for wireless broadband Internet access, equipment charges and taxes. As of January 1, 2020, the basic FUSC rate is 21.2% and changes quarterly. If the customer does not exceed the included number of minutes, the FUSC rate for bundled minute plans is 6.148%; the 21.2% rate applies to long distance interstate calls that exceed the customer's included bundle of minutes. Other services, such as VOIP, are charged a lower FUSC rate.

We also impose state universal service charges. These charges vary by jurisdiction and are subject to change.

Regulatory Charge

The Regulatory Charge is an assessment that helps defray our ongoing costs of complying with various governmental mandates and assessments. Examples include:

- The cost of the license fees assessed by the FCC
- Costs assessed by the FCC to administer local number portability requirements

This charge is subject to change over time upon notice and is taxable in most jurisdictions. The Regulatory Charge is \$0.02 per line for wireless Mobile Broadband Internet access and Machine to Machine devices and \$0.15 per line for all other services.
