3. Presentation from AISD Students on Restroom Facility at Kings Gate Park

They want to create a pavilion that fits into the park, balancing the needs and preferences of the park's guests with practical and aesthetic features. Their design is practical through the incorporation of the ADA Guidelines, while also remaining aesthetically pleasing. They got their inspiration from the surroundings such as The Shops at Willow Park, and other photos from park restrooms and pavilions. Design elements will include Windows, a Mural and Pillars. Adding a mural to the building would help add personality and fun and AHS art students could be commissioned to paint it. Adding slanted round pillars to the building would give it structural support while also keeping the design clean and simple.
