13. Resolution No. 3244

A Resolution Of The City Of Wilsonville Authorizing A Review Of Building Height Waiver Provisions In The Wilsonville Code Applicable To Town Center.

The City Attorney read into the record the title of Resolution No. 3244.

Amanda Guile-Hinman, City Attorney and Jeanna Troha, Assistant City Manager summarized the staff report for Resolution No. 3244. The PowerPoint displayed has been added to the record.

The City Attorney shared for Council's consideration was Resolution No. 3244, which, if adopted, authorizes a review of building height waiver provisions in the Wilsonville Code applicable to the Wilsonville Town Center.

It was recalled that staff previously presented on this topic at the Council Work Session on February 19, 2026.

Council was briefly reminded of the background information which was that the Town Center Plan was adopted by Council via Ordinance No. 835 on April 15, 2019, after a multi-year planning process.

Ordinance No. 835 included other documents accompanying the Town Center Plan, including updates to Chapter 4 of the Wilsonville Code, which Chapter was referred to as the Wilsonville Development Code.

In 2018 and the beginning of 2019, as the Planning Commission reviewed drafts of the updates to the Development Code, the members discussed adding some flexibility regarding floorplate and building height. These work session discussions led to creating a process in the Development Code to seek a waiver to floorplate size and building height for developments within two of the four subdistricts in the Town Center.

The waiver process was not allowed for buildings in the Main Street District or the Neighborhood Mixed Use District.

The waiver process required an applicant to select an item from each of two menus to improve the development to "clearly go substantially above and beyond Code requirements and typical building and site design to create a sense of place and mitigate negative impacts of the project related to the reason for the waiver."

The concept of the waiver process was to ensure that negative impacts of obtaining the waiver are mitigated through other enhancements to the development to ensure that the vision of the Town Center Plan was still met.

For Council's and the community's reference, Attachment A to the staff report for Resolution No. 3244 provided links and time stamps to the relevant Planning Commission and City Council meetings on this issue.

When staff further reviewed the waiver language, as part of staff's overarching review of the Town Center Plan and accompanying documents for Council Goal 4, the building height waiver provision presented an opportunity to improve upon the provision to ensure that it continued to meet the vision of the Town Center Plan and community expectations.

As such, Resolution No. 3244 provided a process to review the building height waiver provisions applicable to Town Center, which may result in proposed revisions to such provisions.

This process included staff forming a limited-duration task force to review the waiver language and recommend proposed revisions.

Input and recommendation from the Planning Commission, in accordance with Oregon law and the Wilsonville Code and Council consideration to adopt any recommended revisions.

It was announced that staff had outlined a process to complete this work by Fall 2026.

There were no questions or comments from City Council therefore the Mayor requested a motion on Resolution No. 3244.
