PARKS AND RECREATION ADVISORY BOARD - SPECIAL SESSION MINUTES

March 07, 2024 at 4:00 PM

Remote Video Conferencing

PARTICIPANTS MAY ATTEND THE MEETING AT:

Zoom: <https://us02web.zoom.us/j/85722021810>

TO PARTICIPATE REMOTELY OR PROVIDE PUBLIC COMMENT:

Register with Wilsonville Parks and Recreation: PRAB@ci.wilsonville.or.us or 503-783-7529

Individuals may submit comments by 12:00 PM on the day before the meeting date via email to the address above, or may mail written comments to:

Wilsonville Parks and Recreation Department
29600 SW Park Place, Wilsonville, OR 97070

CALL TO ORDER

Chair Harmon called the meeting to order at 4:01 pm.

1. Roll Call

PRESENT

- Vice-Chair James Barnes
- Member Daniel Christensen
- Member Amanda Aird
- Chair Amanda Harmon
- Member Keith Gary
- Member Paul Diller
- Member Bill Bagnall

EX OFFICIO MEMBERS/CITY STAFF PRESENT

- Kris Ammerman, Parks and Recreation Director
- Katherine Smith, Assistant Finance Director
- Brian Stevenson, Program Manager
- Dustin Schull, Parks Supervisor
- Erica Behler, Recreation Coordinator
- Laura Ruggles, Program Coordinator

CONSENT AGENDA

Parks and Recreation Advisory Board - Special Session

March 07, 2024

2. Approval of Minutes: 01.11.2024

Motion made by Vice-Chair Barnes, Seconded by Chair Harmon.

Voting Yea: Vice-Chair Barnes, Member Christensen, Member Aird, Chair Harmon, Member Gary, Member Diller, Member Bagnall

CITIZEN INPUT

There was no citizen input.

PARKS UTILITY FEE

3. FCS Group Presentation

Director Ammerman gave an introduction about park utilities, and how the master plan called our additional funding sources to become less dependent on the General Fund as time goes on. Doug Gabbard, John Ghilarducci, and Zech Hazel from FCS, the consultant group, discussed the methodology. Ghilarducci discussed other potential options for funding and what they can be used for and if they are or can be equitable. Hazel discussed the methodology for calculating these fees, and went over three possible scenarios for charging these fees. Gabbard discussed FCS's analysis for the different scenarios. Parks and Recreation Advisory Members had the opportunity to ask questions and provide feedback on how they thought this proposed park utility fee would impact and be received by the community.

PARKS AND RECREATION DEPARTMENT UPDATES

Program Coordinator Ruggles gave an update on fields, facility, and shelter reservations, and special events, as well as garden renewals for current gardeners. Recreation Coordinator Behler touched on the upcoming Egg Hunt, the refresh that was done on the Community Garden, the upcoming Activity Guide, all the new summer camp providers, and acknowledged Member Bagnall for assisting at the Daddy-Daughter Disco Dance. Program Manager Stevenson gave a Community Center update and noted that there are nearly 100 home-delivered meal clients and that the increasing number of in-person lunch participants, and that there are new drop-in offerings including the poetry club, art club, and conversational Spanish club at the Community Center. Stevenson noted that the Korean War Memorial Interpretive Center is on track to be completed at the end of March or early April, and that the Tourism Committee is undergoing an update on the strategy. Parks Supervisor Schull discussed weather delays with maintenance, getting ready for water features, and the nearing completion of the Sofia Park playground, while the Boones Ferry restroom and playground should begin construction soon. Director Ammerman discussed working on the Park Utility Fee, and noted that the Arts, Culture, and Heritage Commission along with two members of the skate community moved forward with a small group of artists to create proposals for designs on a mural for the skate park in Memorial Park.

REVIEW PROGRESS ON BOARD GOALS

Barnes noted the need for a squeegee at the skate park. Bagnall gave an update on the Daddy-Daughter Dance at the Community Center and recognized Recreation Coordinator Behler for "pulling it

Parks and Recreation Advisory Board - Special Session

March 07, 2024

off flawlessly.” Bagnall also noted being constantly impressed with how clean and organized the Community Center is, and how the décor even changes monthly, saying the Center is an asset to the community. Harmon asked about the new programs at the Center, and asked if there would be information about them in the Activity Guide, and Stevenson said yes

4. Upcoming Events & Program

BOARD COMMENTS

ADJOURN

Chair Harmon moved to adjourn the meeting at 5:29 pm. Vice-Chair Barnes seconded. All voted in favor.

NEXT MEETING

Thursday, April 11, 2024 6:00 PM

Time frames for agenda items are not time certain (i.e. agenda items may be considered earlier than indicated). The City will endeavor to provide the following services, without cost, if requested at least 48 hours prior to the meeting by contacting the Parks and Recreation Department at 503-783-7529 or PRAB@ci.wilsonville.or.us: assistive listening devices (ALD), sign language interpreter, and/or bilingual interpreter. Those who need accessibility assistance can contact the City by phone through the Federal Information Relay Service at 1-800-877-8339 for TTY/Voice communication.

Project Narrative Questions

Provide a project description

The Emergency Preparedness/Public Safety (EPPS) Committee of the Charbonneau Country Club needs to purchase 33 BTECH GMRS 5-Watt radios to be used by our Disaster Preparedness Team. Since 2016, the EPPS Committee has worked with all Charbonneau homeowner associations (HOAs) to establish an effective and coordinated approach to help minimize the negative effects of potential disasters for the community. Communications during any emergency, including extended power outages, wildfires or an earthquake, is our single, most vital problem to address.

HOA Disaster Preparedness Teams consist of residents who are trained to prepare for an emergency situation by building and strengthening disaster readiness among neighbors. There are two (2) leaders within each HOA designated as "Key Captains" who have oversight of their HOA team and are the first point of contact with the Charbonneau Emergency Operations Center (EOC).

The EPPS Committee has established an emergency communications network using FRS radios with a maximum power of 1.5 Watts. These are distributed to most of the 120 trained Captains throughout our HOAs and the system is tested annually during a community-wide drill. Although these radios are effective, they have relatively low power causing 'dead spots' in transmission and the oldest models are reaching their useful life span. Experience has taught us that to fortify and preserve the integrity of the communications network, it is vital that we upgrade radios for the Key Captains in each HOA to GMRS radios with 5-watt capability.

The key difference of these new radios from those our Key Captains have been using for communications in an emergency, is wattage power. The higher wattage radios will provide a more consistent connection with our EOC base station and enhance our ability to report our

status to the City of Wilsonville and Clackamas County Emergency Management. In a subduction zone earthquake, loss of the Boone Bridge will cut Charbonneau off from the City of Wilsonville and Clackamas County support, making communication vital.

Two base radios are located at the Charbonneau Activity Center with antennas on the roof, these radios transmit at 5 Watts. The Activity Center is the designated EOC and can run on backup generator power. There are two Dispatchers assigned to the EOC during an emergency, and their roles are to:

- o Via radio, receive and record status reports from each HOA
- o Pass on community status reports and requests for assistance to outside responders like the City of Wilsonville, Clackamas County Emergency Management team and TVF&R
- o Coordinate mutual assistance between HOAs and the Charbonneau EOC

How does your project promote education, diversity, arts, civic engagement and/or provide entertainment and strengthen the community?

EDUCATION: In order to share our years of experience establishing and maintaining a viable emergency communication network, EPPS will host informational seminars for the greater Wilsonville Community, at no charge to participants. We have readily available meeting space and an experienced cadre of volunteers to conduct these events. While the distribution and training of our emergency team of Key Captains will only take a few months, we are prepared to offer this educational opportunity on an on-going basis.

DIVERSITY: The 3500+ Wilsonville residents, living in Charbonneau, represent a vulnerable, ageing population that depends on our ability to communicate with them in an emergency. A 3-day power outage during an ice storm presented us with real-world experience at how quickly a community can be cut off from vital information. It pointed to the need for alternate Emergency Operations Centers using portable radio base stations, something that has been put into place. A Key Captain's ability to report residents' requests for assistance will be enhanced by the use of more powerful 5-watt radios.

STRENGTHENING THE COMMUNITY: The culture, history and heritage of our Wilsonville community is part of our collective DNA. It strengthens and enhances us. Major disasters upend a community's resilience and put its future at risk. Long term studies confirm that the best results for the restoration of resiliency and recovery after a disaster happen in prepared communities. Think of New Orleans after hurricane Katrina, or New York coastal communities after super-storm Sandy. Emergency Preparedness strengthens a community and safeguards its cultural history.

What are your organization's goals for this project? And, what population are you aiming to serve? (youth, seniors, families, underprivileged, persons with disabilities, etc..) Using measurable amounts whenever possible, consider the question: How will you know that you succeeded in your goals?

GOALS: Our goal for this project is to fortify our established emergency communications network by upgrading the radio equipment used by the Key Captains of our HOA Disaster Preparedness Teams. We have identified a GMRS radio with 5-watt capability that will integrate with our present equipment. Upon purchase and receipt of 33 of these radios, they will be distributed to our HOA Key Captains and key members of our Incident Command Team who will be trained by our Communications Team

POPULATION SERVED: Our primary aim is to serve the residents of Charbonneau, a population with a mean age of 70. A viable communications network allows us to disseminate information to this population, to track emergency needs and report those to the respective agencies that might offer help.

MEASURABLE GOALS: Our Communications Team has tested the BTECH GMRS, 5-watt radio and confirmed that its superior power will conquer our "dead spots" issue. A community wide test of the network using the new radios would occur on 09/19/2024, during the Great Shake Out drill.

How are you/your organization suited to produce this project/program? Provide the community resources that will be used if applicable (volunteers, local vendors, local contributions, etc.)

The Emergency Preparedness/Public Safety (EPPS) Committee of the Charbonneau Country Club (CCC) has overseen the operations of our disaster preparedness efforts for more than 8 years. In 2023, CCC hired a Community Safety Coordinator, who brings full-time, professional oversight to those efforts. Our HOA teams consist of more than 125 volunteers, including those trained in emergency preparedness and a team of medically trained residents. Communications volunteers include engineers and HAM radio licensed operators.

Project Narrative Questions

Provide a project description

Wilsonville Little League is working in coordination with Nathan MacPherson, a 14 year old Life Scout in Wilsonville Troop 528. We are applying for funds that support Nathan's Eagle Scout project which also benefits Wilsonville Little League. Through this project, Nathan will be managing the renovation of two dugouts on the Wood Middle School Baseball/Softball Field #1. This renovation will include the addition of metal roofs on the top of each dugout to shield youth baseball players from rain and sun. The roof will also provide protection to young baseball players from foul balls entering the dugout from above. A licensed contractor will be hired to order materials, complete a proper roof installation to code, and ensure the safety of the structure.

In preparation for this project, Nathan has already met with the City of Wilsonville Building Department and collected information on permit costs and how to comply with the requirements the City has for this type of project.

Besides the roof, the project also includes pressure washing the inside and outside of the dugouts to remove grit and grime off the walls. Then, with the help of his former Wood Middle School art teacher, Mr. Matthews, they will paint the inside of both dugouts and will use stencils to paint the city and mascot name, along with any approved logo from the city. The color scheme is expected to be navy blue and white to match the Wilsonville High School colors. Equipment bag hooks will be added along each dugout so that players can keep organized and chain link fencing will be added to the back of the dugout from the existing wall to the new roof to prevent children from falling out of the back of the dugout and injuring themselves.

The benches in the dugouts are old, cracked, and not level. Nathan will have the seating replaced with new wood and repaint the supports holding them up.

To complete the project, Nathan will coordinate younger scouts from his troop to help weed the area and lay bark dust and gravel to prevent weeds in the future. Mr. Strande (Wood Middle School Principal) has already approved the project along with the school district's manager, Jeff Chambers.

How does your project promote education, diversity, arts, civic engagement and/or provide entertainment and strengthen the community?

This project promotes diversity through the community because kids from all ages and backgrounds will be able to use the new and improved dugouts to help them improve their skills and enjoy growing up playing baseball and softball. The project also brings together two strong, youth serving organizations in the Little League and Boy Scouts.

Wilsonville Little League supports any child who wants to play baseball (and will be adding softball in the spring of 2025) no matter their ethnicity or cultural background. This project also promotes entertainment for kids in Wilsonville because the fields are open to the public outside of school hours. The dugouts will protect players from the elements. Finally, the project will have school logos (with approval through city permitting) and names showing school and city spirit and colors. Once complete, the project will promote friendship, family bonding, and civic pride.

What are your organization's goals for this project? And, what population are you aiming to serve? (youth, seniors, families, underprivileged, persons with disabilities, etc..) Using measurable amounts whenever possible, consider the question: How will you know that you succeeded in your goals?

Wilsonville Little League and the Boy Scouts of America have shared goals of serving children of all genders, backgrounds, and ethnicities. Both organizations promote physical fitness from a young age, character development, and personal growth.

These two organizations also provide opportunities for kids with developmental or physical disabilities. Little League offers a Challenger Division for children and youth with special needs and hosts the local Challenger Division for adaptive baseball where the dugouts will also be used. These events include volunteers from our local high school and middle schools. Nathan has previously volunteered his time at the Challenger games and has seen the benefit it brings to the players on the field, their families, and the volunteer players assisting them.

We will know that the goals of this project have been met when the roofs and benches are installed on the two Field 1 dugouts and players from all backgrounds are benefitting from them. These players are creating lifelong bonds and memories in facilities they are proud of.

How are you/your organization suited to produce this project/program? Provide the community resources that will be used if applicable (volunteers, local vendors, local contributions, etc.)

Wilsonville Little League serves more than 300 players annually across all levels of our play from ages 5-14. To do this, we have a board made up of 8 local residents, 8 others serving as committee chairs, and a total volunteer force of more than 50 people. Between the Little League and Scouts, we will turn out the volunteers necessary to do the work and labor alongside licensed contractors that will ensure everything is to code and done correctly.

Nathan is the perfect person to manage this project because he was one of the players Wilsonville Little League served until he aged out of our league. Nathan sat in these dugouts, ducked from foul balls, and shivered from the rain understanding that our community could

provide something better. He has not taken it upon himself to make this happen. His passion for baseball and 9 years of hard work in scouting drives him to succeed.

Item 4.

Nathan has already raised over \$900 for this project personally by collecting recycled cans from community members and will continue to add to this for a total of \$1,500. Additionally, Wilsonville Little League will provide \$10,000 from operating reserves for the project. We have available a copy of the most recent Wilsonville Little League bank statement showing the funding available.

Project Narrative Questions

Provide a project description

The Wilsonville Skatepark Association (WSPA) is partnering with the Wilsonville Parks & Recreation department to host the 2024 Memorial Park Skate Jam. The Jam will be held at the skatepark in Wilsonville Memorial Park. The Jam is designed to be a fun, inclusive event for participants and spectators, to enjoy the remodeled skatepark and promote skateboarding as a form of recreation and community building. The Jam will have a DJ directing the activities and music.

Activities will consist of a variety of contests (e.g., highest ollie and hippy jump, longest wheelie) with prizes awarded to the winners. This year, we will break the event into two portions: beginner and experienced, to better accommodate all skill levels and get more skaters involved. We will start the event with a beginners jam and competition section and distribute prizes in their sizes. Then we will move into the experienced portions, generally older skaters, who will perform in more advanced jams and competitions. We have a few fun mini-games and competitions planned to allow advanced skaters to show their skills to the crowd. In addition, free raffle tickets will be provided to everyone, so that all participants have an opportunity to win skate gear. This event will be like the Skate Jam event in 2023 that was also produced by the WSPA and WV Parks Department and the free Hawaiian Ice Truck will be back.

Another new aspect will be the unveiling of a mural painted on the outside of the park walls. We will be partnering with Erika Valentine of the City to hold an official unveiling of the mural and highlight the artist and the City's current arts and culture initiatives. This mural is funded by a City of Wilsonville Arts Culture and Heritage Commission grant. We will highlight the chosen

artist, commission and Erika during the event.

Lastly, the biggest new addition to the programming will be a free skate lesson day put on by the WSPA. On a single date to be determined, likely in July, the WSPA will host free skate lessons at the Memorial Skatepark. We aim to give beginner skaters the basic tools and skills to be able to learn to skate from. Additionally, we will encourage them to practice over the summer and show up at the skate jam to participate. The Jam will be advertised via the Wilsonville Activity Guide, Instagram, and Facebook.

How does your project promote education, diversity, arts, civic engagement and/or provide entertainment and strengthen the community?

We encourage all members of the community to come to Memorial Park and utilize the remodeled skatepark. It helps strengthen the community by providing an activity that can be enjoyed by individuals without belonging to an organized team activity. You can stop by for a few minutes or a few hours. It provides an opportunity to meet new people and develop new friendships. During last year's Jam, we had approximately 120 spectators watching their friends and family participate.

New to this year's event will be the unveiling of a mural that is to be painted on the outside of the park, funded by a Wilsonville Arts grant. This will be a unique way to incorporate art, local culture, skateboard culture and the community into one image that all can appreciate and enjoy for years to come.

We encourage the community to provide a safe and inspiring avenue for individuals to practice and excel at their sport. We encourage the community to participate in the process of working with the city (Wilsonville) to develop local skateparks/skate spots or other positive changes within Wilsonville. Our relationship with the City has been very positive during the skatepark development process and we encourage other local civic groups to advocate for their needs and develop a relationship as well.

What are your organization's goals for this project? And, what population are you aiming to serve? (youth, seniors, families, underprivileged, persons with disabilities, etc..) Using measurable amounts whenever possible, consider the question: How will you know that you succeeded in your goals?

Our goals for this project are:

- To provide an opportunity for the skateboard community to gather and demonstrate their skills. To meet fellow skaters and make new friends.
- To provide exposure to the sport and encourage new participants.
- To provide an event where the community can gather, visit, and watch their friends compete.
- To encourage folks to get outside and have fun.
- Engage the community in local art, culture and civics.

This event will serve all members of the community. Spectators will be from all ages and demographics. While participants can be of any age/demographic, the majority (for these type of events) tend to be between the ages of 8-30.

We can tell if we've been successful by observing if the skatepark is being utilized throughout the year (on dry days) and if we see new participants at the park. Seeing the next group of local youth take to skateboarding is a huge sign of success for us. For this particular event we anticipate 40-60 competitors, 100-150 spectators, plus additional folks who will skate/scooter/roller skate, during the free-skate (non-competition) time periods. We will be successful if the participants and spectators are smiling, laughing and encouraging one another to perfect a skate trick.

How are you/your organization suited to produce this project/program? Provide the community resources that will be used if applicable (volunteers, local vendors, local contributions, etc.)

The WSPA successfully organized and produced the 2022 Grand Opening event (in partnership with the Wilsonville Parks and Rec Department) for the newly remodeled Memorial Park - Skatepark. The 2022 event was well attended and well run, with no issues. City Councilors Charlotte Lehan and Kristin Akervall attended in 2022. We also produced the 2023 Skate Jam, in partnership with the City of Wilsonville. This event was also well attended and was run smoothly. People drove from all over the metro area to participate. The City is excited to partner with us again on this event. The 2024 event will follow a similar format. The WSPA will provide volunteers to run the event. The Parks Dept will provide the infrastructure items (i.e., sound system, tents, tables, chairs, etc.). The Parks Dept will also provide a food truck, subject to being able to contract with a vendor that meets the department's budget and event date requirements.

The WSPA has been advocating for new skateparks in Wilsonville since 2008. Our goal is to provide skateboard facilities, fun, instruction and guidance for the Wilsonville community. The WSPA has made presentations to the Wilsonville City Council supporting park development.

WSPA Annual Budget

Income Sources	Amount
Tactics - product donation	\$250
MC / Disk Jockey (services donated)	\$250
Donations - Cash	\$1,235
Wilsonville Opportunity Grant	\$3,000
Skate lesson instructor labor - Donated	in-kind
Total Project Income	\$4,735

Expenses	Amount
Tactics - product	\$250
MC / Disk Jockey (services donated)	\$250
Skate gear for prizes and free raffle. See detailed list.	\$3,400
Fees for State, Federal business / tax filings	\$335
Skate Lesson Day: Insurance	\$500
Skate Lesson Day: Donated instructor labor	in-kind
Total Expense	\$4,735

Project Budget

Income Sources	Amount
Tactics - Product donation	\$250
MC / Disk Jockey - services donated	\$250
Cash Donations (funds have been received)	\$400
Wilsonville Opportunity Grant	\$3,000

CITY OF WILSONVILLE COMMUNITY GRANTS FINAL PROJECT REPORT

Funded by: Community Opportunity Grant Community Cultural Events and Programs Grant

Name of Project/Event:

Project Contact Name:

Project Contact Email:

Project Contact Phone:

Project Date/Date Range:

1. Please list the activities or elements of the program/project/event that took place:

2. Were the goals listed in your narrative achieved? How?

3. Who benefited from your project or event? How many? Where from?

4. Will this event or project be recurring? How do you anticipate funding the project in the future?

Attach or provide a copy of your final financial income and expense statement for this event or project.

Attach or provide copies of any publicity or printed materials that include the statement acknowledging the source of funds.

Please keep a copy of this evaluation. You will be required to submit a copy should you apply for future grant funding.

If you have any questions, please contact:
Brian Stevenson, Parks and Recreation Program Manager

Community Opportunity Grant History and Log of Awards

History:

Grant monies are funded by general fund tax dollars collected in Wilsonville. Known as the Community Opportunity Grant Program and handled by the Parks and Recreation Department. The Parks and Recreation Advisory Board serves as the review and award body for these funds.

The City Council established this fund in response to frequent requests for funds directly to the Council. The first funds were released for the 2009/10 fiscal year.

Purpose:

The amount of \$25,000 is designated to be used for events, programs or projects that benefit the community and enhance the quality of life/livability of the community.

Procedure:

- Funds are made available each fiscal year. Funds are separated into two 'opportunities'. All funds must be allocated by June 30 of each year.
 - i. Fall cycle - \$12,500 available in October
 - ii. Spring cycle - \$12,500 available in April
- Applications are competitive with all other applicants for each grant cycle.
- Applicants must be a local Wilsonville organization providing a program or project in the City of Wilsonville or an organization that is bringing a unique event or project to Wilsonville for the benefit of its residents or visitors.
- Applicants are not required to be a registered not-for-profit or tax exempt organization.
- Funds must be used for a specific project or a specific element of a project which is clearly identified in the application.
- Funds will not be awarded for general operating expenses of an organization.
- The written application is the primary means of communicating the project for review.

Community Opportunity Grant Award Summary 2020 - 2023

FY 2020/21

October

- | | |
|--------------------------------------|-----------------|
| • Wilsonville Community Seniors Inc. | \$4,500 |
| • We Are Wilsonville | <u>\$8,000</u> |
| | \$12,500 |

April
