Commission Discussion on Regular Agenda Item 1

Senior Planner Molina presented to the Commission stating that Wylie ISD was applying for a site plan for Kreymer Elementary School. He stated that the site measures around 10 acres and with the development, two deceleration lanes and parking lanes will be provided. Fire has reviewed and agreed it is in compliance with code. Landscaping will also be provided. He explained that the development will be required to be sprinkled.

Commissioner Gouge questioned the high-tension power lines. Director Haskins answered the building is not in the easement.

Commissioner Byrne asked if the Elementary school matched other schools in the area to which Planner Molina stated that it was their goal to match the same kind of architecture. The Commission discussed other school developments coming.

Board Action on Item 1

A motion was made by Commissioner Gouge, seconded by Commissioner Scruggs, to approve Item 1 as presented. A vote was taken and carried 6 – 0.

Commission Discussion on Regular Agenda Item 2

Senior Planner Molina presented to the Commission a Site Plan for DFW Electric. He stated that they are located to the West of the site and are adding this building as an expansion. There will be 19 parking spaces provided, 1 being ADA accessible. He explained that there is a drive that matches and existing drive they have on the existing property that is substandard to what the city requires. Engineering has mentioned that because it is a private drive, as long as the Commission approves, it will be fine as it will not be accessed by the public. Landscape will be provided as well as a fire lane.

Commissioner Byrne asked about the metal building. Planner Molina stated that it was premanufactured and it was mentioned to the applicant they would still have to comply with architectural standards.
