

# Wylie Public Art Fire Station #4 Artist Selection Panel

July 15, 2021 – 6:30 PM

Council Chambers - 300 Country Club Road, Building #100, Wylie, Texas 75098

---

## CALL TO ORDER

### COMMENTS ON NON-AGENDA ITEMS

*Any member of the public may address the Panel regarding an item that is not listed on the Agenda. Members of the public must fill out a form prior to the meeting in order to speak. The Panel requests that comments be limited to three minutes for an individual, six minutes for a group. In addition, the Panel is not allowed to converse, deliberate or take action on any matter presented during citizen participation.*

### DISCUSSION/PRESENTATION SESSION

Members of the Wylie City staff, Public Arts Advisory Board, and CIP Thoroughfare Art Selection Panel will meet with semi-final artists and any and all interested parties (public) to watch presentations from the three semi-final artists for the Fire Station #4 Public Art Project.

### BUSINESS ITEMS

- 1. Consider and act upon, a recommendation for the final artist to be commissioned for the Fire Station #4 Public Art Project.** *(C. Ehrlich, Public Art Coordinator and Secretary)*
- 2. Consider and act upon, the Fire Station #4 Selection Panel Minutes from May 20, 2021.** *(C. Ehrlich, Public Art Coordinator and Secretary)*

### ADJOURNMENT

### CERTIFICATION

I certify that this Notice of Meeting was posted on July 12, 2021 at 5:00 p.m. on the outside bulletin board at Wylie City Hall, 300 Country Club Road, Building 100, Wylie, Texas, a place convenient and readily accessible to the public at all times.

---

*Stephanie Storm, City Secretary*

---

*Date Notice Removed*

The Wylie Municipal Complex is wheelchair accessible. Sign interpretation or other special assistance for disabled attendees must be requested 48 hours in advance by contacting the City Secretary's Office at 972.516.6020. Hearing impaired devices are available from the City Secretary prior to each meeting.

# Public Art – Fire Station #4 Artist Selection Panel

---

## Minutes

### Special Meeting

May 20, 2021 – 6:00 p.m.

Wylie Municipal Complex – Council Chambers

300 Country Club Road, Bldg. 100

Wylie, TX 75098

---

### CALL TO ORDER

*Announce the presence of a Quorum.*

The meeting was called to order by PAAB Secretary Ehrlich. The following members were present: Captain Andrew Johnson, Margaret Illingworth, Shawn Denny, Roger Nitz, and Michael Schwerin. Absent were Kylie Reising and Mindy Manson.

PAAB Coordinator Carole Ehrlich was also in attendance.

### CITIZENS COMMENTS ON NON-AGENDA ITEMS

*Residents may address the Board regarding an item that is not listed on the Agenda. Residents must fill out a non-agenda form prior to the meeting in order to speak. The Board requests that comments be limited to three (3) minutes. In addition, the Board is not allowed to converse, deliberate, or take action on any matter presented during citizen participation.*

No citizens were present to address the board.

### DISCUSSION ITEMS

*All matters listed under the Consent Agenda are considered to be routine by the Board and will be enacted by one motion. There will not be separate discussion of these items. If discussion is desired, that item will be removed from the Consent Agenda and will be considered separately.*

- A. Discussion regarding the artist submissions and ranking by the panel for Fire Station #4. (C. Ehrlich, Public Arts Advisory Board Coordinator)**

## **Presentations**

PAC Ehrlich asked each panel member to introduce themselves and give a little background on their interest in the arts. Captain Johnson stated that he was the panel member representing the Fire Department Committee for Fire Station #4; Margaret Illingworth stated that she was a citizen of Wylie with a bachelors in Art History; Roger Nitz stated that he lived in Wylie and was a mural artist; Shawn Denny stated that he was a citizen of Wylie and a graphic designer; Michael Schwerin stated that he was representing the Public Art Board.

PAC Ehrlich reported that out of the seventy two artists submitting for this project through Café, the panel independently ranked twenty four artists above 4.5 with a range from 1 to 7. Ehrlich presented the twenty four artists with their letters of intent, resume and previous works.

Once the presentation was completed the panel discussed each artist until they had three artists they wished to take action on.

## **REGULAR AGENDA**

---

- 1. Consider and act upon a recommendation to the Public Arts Advisory Board for the selection of the semi-final artists to be considered for Fire Station #4 Art Project. (C. Ehrlich, Public Art Coordinator)**

## **Panel Discussion**

The panel discussed at length the top twenty four artists for their creativity, materials used and other aspects of their submissions, including their vision for “NEVER FORGET” which is the theme for the fire station project. They decided upon three semi-final artist and one alternate in the event one of the semi-finalists could not participate. The three artists will come back to Wylie for a Community Input Meeting on June 3, 2021 and their final presentations on July 15<sup>th</sup>. The final artist will be chosen at that time.

## **Panel Action**

A motion was made by panel member Michael Schwerin, seconded by panel member Andrew Johnson to approve James Dinh, Matthew Duffy, and Terrance Martin as the three semi-final artists for the Fire Station #4 Public Art Project. Additionally Jeanine Centouri was approved as an alternate should one of the three be unable to participate. A vote was taken and the motion carried 5-0 with panel members Kylie Reising and Mindy Manson absent.

## ADJOURNMENT

---

### **Panel Action**

A motion was made by panel member Michael Schwerin, seconded by panel member Andrew Johnson to adjourn the meeting at 8:13 p.m. A vote was taken and the motion carried 5-0 with panel members Kylie Reising and Mindy Manson absent.

---

**Michael Schwerin, Panel Member**

**ATTEST:**

---

**Carole Ehrlich, Secretary**

# Fire Station #4 Selection Panel

## AGENDA REPORT

Department: Public Art  
Prepared By: C. Ehrlich

Account Code: \_\_\_\_\_

### Subject

Consider and act upon, a recommendation to the Public Arts Advisory Board for the final artist for Fire Station #4 Public Art Project.

### Recommendation

Motion to recommend \_\_\_\_\_ as the final artists to the Public Arts Advisory Board for the Fire Station #4 Public Art Project.

### Discussion

The three artists have taken the input given at the June 3, 2021 meeting and now are ready to present their designs for Fire Station #4. The Selection Panel may ask questions regarding the designs after each presentation. The panel will then discuss and determine the final artist for the project to be recommended to the Public Arts Advisory Board.

Smith (01) Atlanta Georgia-\$50,000 budget-installed 01-23-2016

Description of work-include theme and reasoning behind the work for this site

#### MLDuffy's ANNOTATED SLIDE LIST:

"Mutual Understanding/Mutual Respect" 2016. Hand-Bent Stainless Steel, LEDs. 9.5ft x 32ft x 10ft. Reston, Virginia. \$86,000 budget. Solo public sculpture commission from a competition. This sculpture, which deals with equality, respect, and agreement, was placed in front of Reston's new police station and government center.

"Low-Poly Open Heart No.1" 2016. Hydro-Cut Aluminum Diamondplate. 5ft x 5ft x 2.5ft. Carbondale, Colorado. \$18,000 cost; experimental sculpture (Artist's Proof) on 12-month loan to city's annual public sculpture exhibition.

"Low-Poly Open Heart - RIDE" 2017. Hydro-Cut Aluminum Diamondplate, Tractor Paint. 5ft x 5ft x 2.5ft. Hood River, Oregon. \$18,000 cost; spec sculpture for city's public sculpture biennial.

"Low-Poly Open Heart - RED1" 2016. Hydro-Cut Aluminum Diamondplate, Tractor Paint. 5ft x 5ft x 2.5ft. Bend, Oregon. \$18,000 cost; spec sculpture for biennial. Winner of the People's Choice Award & purchased by the city. Citizens started to paint hearts on loose rocks and place them at the sculpture. The park where the sculpture is now placed is now colloquially known as "the Heart park."

"Low-Poly Open Heart - REDE" 2017. Hydro-Cut Aluminum Diamondplate, Tractor Paint. 5ft x 5ft x 2.5ft. Valdosta, Georgia. Heart pictured here with Mayor and City Council. \$18,000 cost; spec sculpture for Inaugural sculpture exhibition. Local news feature (video). Purchased by City.

"WingOne" 2019. Laser-Cut Aluminum Slab, Enamel. 6ft x 2ft x 3in. Redmond, Oregon. \$18,000 cost; spec sculpture for city's public sculpture exhibition. Placed at the main regional airport. (two angled views to get sense of flatness/depth)

"WingOne" 2019 (detail). Laser-Cut Aluminum Slab, Enamel. 6ft x 2ft x 3in. Redmond, Oregon. \$18,000 cost; spec sculpture for city's public sculpture exhibition. Placed at the main regional airport. (showing texture and materiality)

"WingTwo" 2019. Maquette for Laser-Cut Aluminum Slab, Enamel. 6ft x 3ft x 3ft.

"Sunrise/Sunset (Sawblade)" 2018. Laser-cut stainless steel, enamel. 5.5ft x 8ft x 18in. St. Joseph, Missouri. \$22,000; spec sculpture for city's annual public sculpture exhibition (2nd sculpture).

"Purgatory/China" 2014. Reappropriated Stainless Steel Shop-VAC, Kiln-Cast Recycled Float Glass, Low-VOC Enamel, Programmed LED's. 48in x 24in x 24in. Monument, Colorado. \$22,000 cost; spec sculpture on 12-month loan. This sculpture has been touring the state of Colorado for the past four years and has been chosen for public exhibition in Carbondale, Evergreen, and now Monument. (Designed/created before Game of Thrones "House of Black & White"...)

"Purgatory/China" 2014 (detail). Reappropriated Stainless Steel Shop-VAC, Kiln-Cast Recycled Float Glass, Low-VOC Enamel, Programmed LED's. 48in x 24in x 24in. Monument, Colorado. \$22,000 cost; spec sculpture on 12-month loan. This sculpture has been touring the state of Colorado for the past four years and has been chosen for public exhibition in Carbondale, Evergreen, and now Monument. (Designed/created before Game of Thrones "House of Black & White"...)

"Bradley Blvd Safeway" (Street View) 2010. Steel, Glass, Low-VOC Enamel, LEDs. A fabrication project I completed for the Washington Glass Studio. Each bay was approx. 8ft x 8ft w/ 3 bays along the new building facade. This was a 7-month project; 340 pieces of glass from 17 castings, in 48 separate steel frames later bolted together during installation. \$95,000. The group was so touched at how much care I put into their project, they asked me to complete the above "Purgatory/China" for a 10-Year Anniversary Exhibition at one of DC's top galleries.

"Bradley Blvd Safeway" (detail View) 2010. Steel, Glass, Low-VOC Enamel, LEDs. A fabrication project I completed for the Washington Glass Studio. Each bay was approx. 8ft x 8ft w/ 3 bays along the new building facade. This was a 7-month project; 340 pieces of glass from 17 castings, in 48 separate steel frames later bolted together during installation. \$95,000. The group was so touched at how much care I put into their project, they asked me to complete the above "Purgatory/China" for a 10-Year Anniversary Exhibition at one of DC's top galleries.

"Bradley Blvd Safeway" (process View) 2010. Steel, Glass, Low-VOC Enamel, LEDs. A fabrication project I completed for the Washington Glass Studio. Each bay was approx. 8ft x 8ft w/ 3 bays along the new building facade. This was a 7-month project; 340 pieces of glass from 17 castings, in 48 separate steel frames later bolted together during installation. \$95,000. The group was so touched at how much care I put into their project, they asked me to complete the above "Purgatory/China" for a 10-Year Anniversary Exhibition at one of DC's top galleries.

"Frederick Douglass Monument" (as Head Assistant to Master-Sculptor Jay Hall Carpenter). 2010. Bronze. 8' x 4' x3'. Easton, Maryland. ~\$250,000. Demonstrating the breadth of my capabilities and past artistic experience. As Head Assistant to a Master-Sculptor I had the opportunity to learn traditional forms of public sculpture making; armatures, clay, wax, casting, stone work, advanced welding, mathematical maquette expansion, while completing huge public sculpture programs.

Letter of Interest instructions.

How would you approach this project? Please include contact information. Keep letter to one 8 1/2 x 11 page

I am originally from Long Island, New York and feel a deep connection to the people and places destroyed on 9/11. My main initial idea is to create a reflecting pool, lined with 343 tiles. These tiles could have the names or likeness of each person lost. The 343 tiles will be permanently submerged under water. In the center of this pool will be waterjets, arranged in the general footprint of the Twin Towers. Water will stream from these jets to give an ephemeral likeness of the two towers as they stood before the attacks. The water jets will be on timers and will turn off at the exact time of day each tower fell. You will have the option to do this annually on 9/11, or every day. The water, in the shape of the Twin Towers, will be lit from underneath so that the likeness can be discerned at night as well. I am always open to refinement and revision as your selection board sees fit. Thank you for your consideration!

Dr. Doug Lewis, Head Curator of Sculpture, National Gallery of Art. Washington, DC. (Ret.) bg1822@att.net; Liberty, Mississippi. Owner of 1st commissioned artwork, former mentor.

Jay Hall Carpenter, Former Head Sculptor, National Cathedral. Washington, DC. sculptor@jayhallcarpenter.com; Silver Spring, Maryland. 202-329-5116 Worked as Head Assistant on multiple nationally-placed public commissions from Maryland's Eastern Shore (Frederick Douglass Monument, see slide image), to Detroit's Cathedral (Solanus Casey Monument), all the way to the campus of the University of Southern California (Douglas Fairbanks Memorial). Developed expertise in structural considerations for large-scale bronze sculptures and personally fabricated the steel infrastructures (armatures) and heavy-weight under-clays for nationally-placed public monuments.

Erwin Timmers, Co-Director, Washington Glass Studio and School. erwin@washglass.com; Mt. Rainier, Maryland. 202-255-1118 Eco-Artist and contact for the Washington Glass Studio (WGS) for whom I fabricated/panel-designed the large-scale New Bradley Boulevard Safeway commission [see included images]: three 8' x 8' bays of heavy cast float glass and steel. A 7-month project; 340 pieces of glass from 17 castings, in 48 separate steel frames. The three co-directors of WGS and I developed such a strong relationship during our collaboration they personally asked me to participate in their group's 10-year anniversary exhibition at one of DC's top galleries. I then designed and made a custom piece for the show within two weeks; "Purgatory/China", which is included in the slide images.

Anne Delaney, Executive Director, Initiative for Public Art Reston (IPAR). annedelaney@publicartreston.org 12001 Market Street, Suite 103; Reston, VA 20190. 703-467-9797

Director of the quasi-government agency tasked with public Art for this famous planned community. Main contact for recently completed project "Mutual Understanding/Mutual Respect"; a public sculpture for the New Police and Government Center in Reston, Virginia.

Kathleen Driscoll, Chief of Staff, Operations and Outreach for Supervisor Catherine M. Hudgins, Hunter Mill District. Kathleen.Driscoll@fairfaxcounty.gov 1801 Cameron Glen Drive; Reston, VA. 20190. 703 478 0283 Government contact from the Executive's office tasked with the execution of the New Police and Government Center in Reston, Virginia. Contact for recently completed project "Mutual Understanding/Mutual Respect"; a public sculpture for the New Police and Government Center in Reston, Virginia.

ART

Category

**Statement** I operate a project-based Art practice. Each past public Art project has been different aesthetically, thematically, and have required vastly different technical skills. This has been an advantage however: First, I have the skills/experience to complete any project from large figurative bronze sculptures, to huge panels of steel and kiln-cast recycled glass. Second, other artists hire me as a fabricator and am therefore proficient in collaborating with a range of personalities, viewpoints, and needs. Finally, I often work in a site-specific manner; letting the context of the community and the site/project goals, dictate the final result. However, I often combine site-specifics with the semiotics of archetypes; universally understood objects or symbols and their related ideas, concepts, and meanings.  
To achieve this paradoxical balance I use cutting-edge technology like laser-cutting, 3-D printing, and CAD modeling, with traditional aesthetics and methods of sculpture making.

**Mutual Understanding/Mutual Respect**  
Welded Stainless Steel  
9.5' x 34' x 10'  
\$100000.00

**Low-Poly Heart No.3**

Developed expertise in structural considerations for large-scale bronze sculptures and personally fabricated the steel infrastructures (armatures) and heavy-weight under-clays for nationally-placed public monuments.

Erwin Timmers, Co-Director, Washington Glass Studio and School. erwin@washglass.com; Mt. Rainier, Maryland. 202-255-1118 Eco-Artist and contact for the Washington Glass Studio (WGS) for whom I fabricated/panel-designed the large-scale New Bradley Boulevard Safeway commission [see included images]: three 8' x 8' bays of heavy cast float glass and steel. A 7-month project; 340 pieces of glass from 17 castings, in 48 separate steel frames. The three co-directors of WGS and I developed such a strong relationship during our collaboration they personally asked me to participate in their group's 10-year anniversary exhibition at one of DC's top galleries. I then designed and made a custom piece for the show within two weeks; "Purgatory/China", which is included in the slide images.

Anne Delaney, Executive Director, Initiative for Public Art Reston (IPAR). annedelaney@publicartreston.org 12001 Market Street, Suite 103; Reston, VA 20190. 703-467-9797 Director of the quasi-government agency tasked with public Art for this famous planned community. Main contact for recently completed project "Mutual Understanding/Mutual Respect"; a public sculpture for the New Police and Government Center in Reston, Virginia.

Kathleen Driscoll, Chief of Staff, Operations and Outreach for Supervisor Catherine M. Hudgins, Hunter Mill District. Kathleen.Driscoll@fairfaxcounty.gov 1801 Cameron Glen Drive; Reston, VA. 20190. 703 478 0283 Government contact from the Executive's office tasked with the execution of the New Police and Government Center in Reston, Virginia. Contact for recently completed project "Mutual Understanding/Mutual Respect"; a public sculpture for the New Police and Government Center in Reston, Virginia.

<b>ART</b>	
Category	
Statement	I operate a project-based Art practice. Each past public Art project has been different aesthetically, thematically, and have required vastly different technical skills. This has been an advantage however: First, I have the skills/experience to complete any project from large figurative bronze sculptures, to huge panels of steel and kiln-cast recycled glass. Second, other artists hire me as a fabricator and am therefore proficient in collaborating with a range of personalities, viewpoints, and needs. Finally, I often work in a site-specific manner; letting the context of the community and the site/project goals, dictate the final result. However, I often combine site-specifics with the semiotics of archetypes; universally understood objects or symbols and their related ideas, concepts, and meanings. To achieve this paradoxical balance I use cutting-edge technology like laser-cutting, 3-D printing, and CAD modeling, with traditional aesthetics and methods of sculpture making.
	<b>Mutual Understanding/Mutual Respect</b> Welded Stainless Steel 9.5' x 34' x 10' \$100000.00
	<b>Low-Poly Heart No.3</b> Aluminum Diamondplate 5' x 5' x 2.5' \$9000.00

What to include in your Image List.

Include title and number, location, budget, date, and brief description of each project-projects should be within the close realm of work you can accomplish with this project

Example

Smith (01) Atlanta Georgia-\$50,000 budget-installed 01-23-2016

Description of work-include theme and reasoning behind the work for this site

Martin (01)  
 Title: "Fourteen"  
 Media: Mirror Stainless Steel  
 Size: 15' x 10' x 10'  
 Date: 2017  
 Budget: \$140,000  
 Location: Mountain View, CA  
 Description of work: The stainless steel feature, "Fourteen" was commissioned by Merlone Geier Partners, through the City of Mountain View. This sculpture was a city requirement for the memorialization of William Shockley's invention of the silicon transistor, and to mark the birth place of the computer industry.

Martin (02)  
 Title: "Rise Up"  
 Media: Aluminum  
 Size: 70' x 15' x 1'  
 Date: 2020  
 Budget: \$20,000  
 Location: Sacramento, CA  
 Description of work: On the corner of Q st and 15th, located in the heart of Sacramento's lavender district, this public artwork pays tribute to the flavor of the surrounding neighborhood. A 70 ft wall covered in bubbles.

Martin (03)  
 Title: "Hard Rock Lake Tahoe Guitar"  
 Media: Steel, brass, corten, aluminum, glass  
 Size: 26' x 9' x 18"  
 Date: 2014  
 Budget: \$125,000  
 Location: South Lake Tahoe, NV  
 Description of work: Commissioned by the Hard Rock Hotel and Casino, Lake Tahoe. This 26ft. guitar was inspired by the history and surrounding Lake

Tahoe Basin. Out of 191 locations worldwide, this is the only acoustic guitar sculpture, at a Hard Rock location. Approved unanimously by Tahoe Regional Planning Agency.

Martin (04)

Title: "Twist And Sprout"

Media: Glass Globes, Mild and Stainless Steel, River Rock, LED

Size: 18' x 4' x 4'

Date: 2017

Budget: \$40,000

Location: Sacramento, CA

Description of work: These wild flowers have mild steel stems and stainless steel leaves with varying colored glass globes for their center pieces. At night, automatic LED lighting illuminates the blown glass globes that sit atop the flowers. All four sculptures rest gracefully in their own large steel flower pot.

Martin (05)

Title: "Whale Of A Good Time"

Media: recycled mild steel plasma drop, recycled glass, LED

Size: 15' x 10' x 9'

Date: 2014

Budget: \$125,000

Location: Petaluma, CA

Description of work: Whale of a Good Time is created from 100 recycled materials. Frozen in time, this sculpture offers a glimpse into the daily life of the majestic whale. The surrounding benches give rise to a swell of glass and steel creating a circular seating on the ocean itself.

Martin (06)

Title: "Off To Market"

Media: reclaimed farm implements

Size: 6' x 9' x 4'

Date: 2015

Budget: \$25,000

Location: Petaluma, CA

Description of work: Off to Market is made from a vintage 1920's C-cab and reconstructed into an old farm like truck with reclaimed materials. It is made to appear as though the entire contents of the truck is falling out, but frozen in time.

Martin (07)

Title: "Pleasant Hills"

Media: mild steel, stainless steel, recycled glass

Size: 13' x 7' x 7'

Date: 2020

Budget: \$20,000

Location: Pleasant Hill, CA

Description of work: These one of a kind public art works will be installed at the new Diablo Valley Plaza in Pleasant Hill, California. Each piece complements the other with its inspiring organic feel.

Martin (08)

Title: "Twisted Journey"

Media: Stainless steel, mild steel, recycled glass, and fire

Size: 16' x 14' x 4'

Date: 2017

Budget: \$98,000

Location: Sacramento, CA

Description of work: The skin is formed using 3/4" and 1/2" steel rods. The canopy is made from individual stainless steel leaves with integrated lighting. LED bulbs emit from the tree's leaves creating a starry night effect. A glass tube sits vertically in the center navigating fire through the center of the tree.

Martin (09)

Title: "Steven's Tree"

Media: Corten steel, Recycled Glass

Size: 16' x 3' x 6'

Date: 2013

Budget: \$85,000

Location: Petaluma, CA

Description of work: Steven's Tree is an abstract large scale sculpture reaching 15ft in height. It's skin is created from overlapping Corten steel tiles giving it another dimension. Seating for six is provided around the perimeter allowing the public to relax and engage in the artwork.

Martin (10)

Title: "Fish On"

Media: Mild steel, Recycled glass

Size: 9' x 3' x 4'

Date: 2015

Budget: \$35,000

Location: Napa, CA

Description of work: This piece of art sits on top of a recirculating fountain at the Historic Napa Mill complex. The work is attached with exquisitely balanced bearings that help the sculpture catch the wind, allowing the fish to dance with the breeze.

Martin (11)

Title: "Under The Sea"

Media: Mild Steel

Size: 2' x 10' x 10'

Date: 2008

Budget: \$23,000

Location: Elk Grove, CA

Description of work: Composed entirely from 18GA. mild steel sheet metal, hand formed around an internal steel frame. These sculpture are mounted approximately 8ft. from the floor above the stores seafood counter.

Martin (12)

Title: "Village Green Dog Park"

Media: stainless steel, mild steel, recycled materials

Size: 6' x 9' x 4'

Date: 2012

Budget: \$75,000

Location: Mountain View, CA

Description of work: These six pieces of art include two dog sculptures made from recycled materials, a 6 ft. fire hydrant made from mild steel, an abstract cat bench made from recycled materials and a tile mosaic dog bone bench. Creates a fun and whimsical environment for everyone to enjoy,

including our furry friends.

Martin (13)

Title: "Between The Toes"

Media: stainless steel, recycled glass, LED

Size: 15' x 5.5' x 3.5'

Date: 2021

Budget: \$250,000

Location: Natomas, CA

Description of work: We've been hard at work with our new project! The worlds largest pair of flip flops, standing in at a staggering 15ft tall! Coming to you soon in spring 2021.

Martin (14)

Title: "Until Then"

Media: #8 Stainless Steel

Size: 12' x 6' x 4"

Date: 2022

Budget: \$85,000

Location: Suisun City, CA

Description of work: Until Then has been approved to be fabricated and installed at the new Solano Transportation Authority in Suisun City. Inspired by one symbol or emotion that we have all felt. Whenever people use any form of transportation, there is one thing we all experience. We all wave goodbye.

Martin (15)

Title: "Time For A Change" (3D Design Concept For The City Of Palm Desert)

Media: mild steel, stainless steel, acrylic

Size: 18' x 10' x 10'

Date: 2021

Budget: \$150,000

Location: Palm Desert, CA

Description of work: Sculpture Proposal for San Pablo Roundabout.

Letter of Interest instructions.

How would you approach this project? Please include contact information. Keep letter to one 8 1/2 x 11 page

I am always looking for unique and untried techniques when approaching a new project or concept. Looking at the proposed scope of work for the Wylie Fire Station #4 "Never Forget 911" public art project, we really want to establish a place of gathering, people talking and remembering the 343 FDNY Firefighters that sacrificed their lives for the sake of others. Our approach for executing this project is to highlight the existing environment and architecture, integrating modern lighting and various textures that work to engage visitors and create an aesthetic that stimulates the senses. I specialize in the use of all forms of metal, including mild steel, stainless steel, aluminum and other ferrous metals. Using this medium not only allows for a durable and low maintenance sculpture but for a long lasting artwork that will never stop reminding those about the continuous sacrifice firefighters are making. We want to create a sculpture that is similar in design by the artist Jan Hendrix. His work involves metal being CNC cut with a design that plays an integral part of the flow of the space it resides. This CNC cut design can be changed to tell the story of the 343 Firefighters that lost their lives. Overall composition of the sculpture can be designed in a linear or organic fashion to stand in contrast and complement the fire station's architecture. Here is a link to his website to better understand our design approach for the City of Wylie Fire Station #4.

<https://janhendrix.com.mx/2016/en/proyectos/kiosko/>

My team has worked for years in very similar design perimeters. I have a documented history of executing all public commissions as designed on or below budget and within the given time constraints of the project. The vast majority of my public creations are built to last in extreme conditions such as those that exist in Wylie Texas.

We can effectively communicate and seamlessly work with project engineers, architects and city planning officials. Our site installations are also thoroughly planned and executed.

We also have CNC plasma design and cutting, right here in our 6,200 square foot studio. All fabrication, welding, transportation and installation services are handled by me and my team, not a third party. We maintain control over our product, from start to finish. These resources allow us to provide our clients a maximum return for the funds they are investing in a project. We take this role very seriously and feel this attention to detail makes us stand apart. Although I am a California resident, it would truly be an honor to be considered for this opportunity at any level.

How many references do I need?

We would like at least 6 references from previous work. Including administrator's name, contact information, project name and date, or other specific information for each reference

ART

Category

**Statement** The focus of my professional career is public and commercial art. The majority of my public works are very similar in nature to the proposed scope of the Never Forget 911 Public Art Project. Over the past 17 years I have worked with large scale commercial real estate developers and numerous city governments, to implement public art programs. I fully understand the responsibility and challenges of creating public art that responds to the curiosity and demands of the public. The City Of Wylie's willingness to honor the lives of the 343 FDNY Firefighters to guide the artistic design is very exciting and I would be privileged to be able to create an unforgettable piece of artwork. Highlighting the existing environment, integrating modern lighting and various textures would work to engage visitors and create an aesthetic that stimulates the senses. I have a documented history of executing all public commissions as designed on or below budget and within the time constraints of the project.

**Fourteen**  
Mirror Polished Stainless Steel
